

Edited for the British Pharmacological Society by

A.W. Cuthbert (*Chairman*) H.M. Adam (*Secretary*)
Margaret Day (*Press Editor*)
J.D. Stephenson (*Assistant Press Editor*)

A.M. Barrett	J.S. Kelly
W.G. Bisset	G.M. Lees
T.B. Bolton	G.P. Lewis
D.A. Brown	I.H.M. Main
B.A. Callingham	E.K. Matthews
T.J. Crow	J.F. Mitchell
F. de Matteis	P.A. Nasmyth
C.T. Dollery	M.W. Parkes
V. Eisen	M. Sandler
E.W. Gill	A.P. Silverman
A.F. Green	M.A. Simmonds
D.F. Hawkins	F.M. Sullivan
Margarethe Holzbauer	A. Ungar
D.B. Hope	R.A. Webster

Papers will be considered for publication on all aspects of drug action, including chemotherapy.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh EH8 9JZ. Authors should consult the instructions inside the back cover.

The British Journal of Pharmacology is published monthly by Macmillan Journals Ltd, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633. ISSN 0007-1188.

Annual subscription £36.00 (\$90 USA and Canada). (Orders must be accompanied by remittance. Prices applicable only to orders received before 31st December 1976.)

Cheques should be made payable to Macmillan Journals Limited: Subscription Department, Brunel Road, Basingstoke, Hampshire RG21 2XS, England.

Enquiries concerning advertising space and rates should be addressed to: Advertisement Department, Macmillan Journals Limited, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

Copyright © 1976 by the *British Journal of Pharmacology*. All rights of reproduction are reserved in respect of all papers, articles, illustrations, etc., published in this journal in all countries of the world.

Second class postage paid at New York, N.Y.
US Mailing Agent, Expeditors of the Printed Word, Ltd,
527 Madison Avenue, New York, NY 10022.

British Journal of Pharmacology

INDEX (1966-1973)

The eight year cumulative index (1966-1973) to the British Journal of Pharmacology is now available.

Price £10.45 (including postage)

Available from:

DEPARTMENT AS11,
MACMILLAN JOURNALS LTD.,
BRUNEL ROAD,
BASINGSTOKE, RG21 2XS,
HAMPSHIRE, ENGLAND.

Orders must be accompanied by remittance. Cheques should be made payable to Macmillan Journals Ltd. Payment may be made in any currency at the current exchange rate.

DRUGS AND CENTRAL SYNAPTIC TRANSMISSION

Edited by P. B. Bradley
and B. N. Dhawan

Macmillan Pharmacology Monographs

Even though drugs have been used as research tools in pharmacological, physiological and neurochemical studies for a long time, the symposium reported in this book was perhaps the first interdisciplinary meeting where this particular use of drugs was the main theme. Disciplines represented include electrophysiology, neurochemistry, biochemistry and behavioural sciences.

about £12.50 May 1976

For further details please write to Anne
Calcott, The Macmillan Press, Little Essex
Street, London WC2R 3LF.

British Journal of Pharmacology

British Journal of Pharmacology provides up-to-date research on all aspects of drug action essential to those involved in pharmacology. Ensure you receive this information each month by taking a subscription.

Subscription Dept, Macmillan Journals Ltd, Brunel Road, Basingstoke, Hants RG21 2XS, England.

Please enter me for a year's subscription to the BRITISH JOURNAL OF PHARMACOLOGY starting with the issue dated

I enclose payment of £36.00 (USA & Canada \$90)

Prices applicable to orders started before 31st December 1976. Payment may be made in any currency at the current exchange rates. Orders can only be processed if accompanied by the correct remittance. Cheques should be made payable to Macmillan Journals Ltd.

SUBJECT INDEX

A

- Acebutalol**, effect of, on calcium transport by heart microsomes and mitochondria, 215
- Acetylcholine**, effects of α - and β -bungarotoxin on contractile response to, at cat neuromuscular junction, 543
- , is contractile response to exogenous, due to a pre-synaptic effect?, 543
 - , effect of, on dorsal horn units, 435P
 - , effect of, on Schultz–Dale phenomenon in ileal circular smooth muscle strips, in chick, 399
 - , effect of, on cholinceptive neurones in rat brain stem, 599
 - , effect of, on inhibition of peristalsis of ileum by aspirin, 335
 - , response of guinea-pig ileum longitudinal muscle strips to, effect of aspirin on, 335
 - , release of adrenal catecholamines induced by, effect of methoxyverapamil on, 127
 - , effect of, on β -adrenoceptor agonist potency of AH7616, 235
 - , sensitivity of pithed rats to, effect of genetic obesity, food deprivation and experimental diabetes on, 229
- Acetylcholinesterase**, ability of, to induce toxic changes in ECG, effect of digoxin on, 23
- Action potential duration**, effect of Org 6001 on, in atrial and ventricular muscle of rabbit, 251
- Adenine**, effect of, on guinea-pig trachea, and interaction with drugs blocking adenosine uptake, 51
- Adenosine**, effect of, on morphine-induced contractions in rat isolated colon, 444P
- , effect of, on guinea-pig trachea, and interaction with drugs blocking adenosine uptake, 51
 - , uptake of, drugs blocking, interaction with, effect of purine derivatives on guinea-pig trachea, 51
 - , mechanism by which, relaxes taenia caecum of guinea-pig, 305
- Adenosine-5'-monophosphate**, mechanism by which, relaxes taenia caecum of guinea-pig, 305
- Adenosine-5'-diphosphate**, mechanism by which, relaxes taenia caecum of guinea-pig, 305
- Adenosine triphosphate**, effect of, on morphine-induced contractions in rat isolated colon, 444P
- Adenosine-5'-triphosphate**, effect of, on guinea-pig trachea, and interaction with drugs blocking adenosine uptake, 51
- , mechanism by which, relaxes taenia caecum of guinea-pig, 305
- Adenosine and adenosine-5'-triphosphate**, identification of separate receptors for, in causing relaxations of isolated taenia of guinea-pig caecum, 305
- Adenylate cyclase**, effect of cadmium on, in rat liver, 573
- , rat striatal, in structure activity studies on dopamine receptors, 452P
- Adrenal gland**, rat and pig, MAO activity in, postnatal development of, 279
- , rabbit, decreased activity of phenylethanolamine-*N*- and catechol-*O*-methyltransferases in, 413
- Adrenaline**, effect of, on effects of acebutalol, practalol or propranolol on calcium transport in heart microsomes and mitochondria, 215
- , form of adenylate cyclase stimulated by, effect of cadmium on in rat liver, 573
 - , content of, in adrenal gland of rabbit during pregnancy, 413
 - , gradients of, in guinea-pig isolated ileum, 443P
 - , effect of, on cerebral cyclic GMP, 445P
 - , effect of, on rat striatal adenylate cyclase and snail neurones, 452P
 - , dissociation of, and assessment of zwitterion constants, 501
 - , effect of, on allergic histamine release from bovine leucocytes, 439P
- Adrenergic modulation**, atypical, of allergic histamine release from bovine leucocytes, 439P
- β -Adrenoceptor**, blockade, severity of aspirin-induced bronchoconstriction depends on degree of, 495
- β -Adrenoceptor agonists and antagonists**, selectivity of, on bronchial, skeletal, vascular and cardiac muscle in the anaesthetized cat, 235
- β -Adrenoceptor stimulants**, blood vessel–trachea selectivity of, *in vitro* in guinea-pigs, contribution of extraneuronal uptake to, 369
- α -Adrenoceptor vasoconstriction**, in ischaemic myocardium, effect of propranolol and practolol on, 295
- Adrenoceptors**, bovine granulocyte regulated by, mode of, 439P
- β -Adrenoceptors**, in hepatic arterial vascular bed of dog, 451P
- Adrenocorticotrophin**, prostaglandin and steroid release evoked by, effect of indomethacin on, 273
- α -Adrenolytic action**, of desipramine, 152
- Afferent synaptic activity**, noradrenaline modulation of responses of cerebellar Purkinje cell to, 603
- Agonist–antagonist interaction**, models of, 470P
- Agonists**, use of different, in antagonist affinity constant estimations, 395
- AH3021**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235
- AH4325**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235
- AH4533**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235
- AH4644**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235

- AH4941**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235
- AH6696** *see* 5H-(1)-benzopyrano-(2,3b)-pyridin-5-ol, 440P
- AH7616**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235
- AH10013**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235
- AH12561**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate in anaesthetized cat, 235
- β -Alanine**, indirect effect of, on sympathetic ganglion cells, 73
- , effect of, on spontaneous action potentials in cerebellar cortex slices, 3
- Albumin**, crystalline bovine, circular smooth muscle strips for chick ileum sensitized to, Schultz–Dale phenomenon in, 399
- Allergic histamine release**, atypical adrenergic modulation of, from bovine leucocytes, 439P
- Allopurinol**, effect of, on tryptophan pyrrolase activity and kynurenine formation in rat isolated perfused liver, 103
- Alloxan**, diabetic and hereditary obese pithed rats, sensitivity of, to acetylcholine, isoprenaline and noradrenaline, 229
- Amidephrine**, effect of, on calcium, potassium and glucose release from liver slices, 158
- Amine uptake**, effect of amphetamine on, in isolated rat adrenal storage vesicles and whole brain synaptosomes, 223
- Aminergic mechanisms**, participation of, in Schultz–Dale phenomenon, 399
- Amines**, sympathomimetic, effect of, on ^{45}Ca efflux from liver slices, 158
- Amino acids**, indirect effects of, on sympathetic ganglion cells mediated through release of GABA from glial cells, 73
- , effects of, on spontaneous action potentials in cerebellar cortex slices, 3
- γ -Amino-*m*-butyric acid**, effect of, on sympathetic ganglion cells, 73
- β -Amino-*n*-butyric acid**, effect of, on sympathetic ganglion cells, 73
- 2-Amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene**, effect of, on rat striatal adenylate cyclase and snail neurones, 452P
- 3 α -Amino2 β -hydroxy-5 α -androstan-17-one hydrochloride** *see* Org 6001, 251
- γ -Aminobutyric acid**, release of, from glial cells, indirect effects of amino acids on sympathetic ganglion cells mediated through, 73
- , effect of, on spontaneous action potentials in cerebellar cortex slices, 3
- , comparative study of action of, and piperazine on lobster muscle fibre and frog spinal cord, 347
- , effect of, on cerebral cyclic GMP, 445P
- , effect of, on dorsal horn units, 435P
- , antagonism, as a possible basis for convulsant action of bicyclic phosphorus esters, 435P
- γ -Aminobutyric acid transaminase**, an inhibitor of, behavioural depression induced in rat by, 431P
- Aminophylline**, spasmolytic potency of, unaffected by drugs blocking adenosine uptake in guinea-pig trachea, 51
- Amitriptyline**, possible model for detection of, 426P
- , effect of, on arterial ^3HNA uptake and arterial responsiveness to noradrenaline, 432P
- Amphetamine**, effect of, on noradrenergic influences on dopamine-dependent behaviour in rats, 424P
- , possible method for detection of, 426P
- , turning behaviour produced by, in rats and mice, effect of morphine on, 456P
- , indirect and direct inhibition of dopamine- β -hydroxylase by, in storage vesicles and synaptosomes, 223
- , locomotor activity produced by, involvement of 5-HT in, 141
- Amphetamines**, tolerance pattern of anorexigenic action of, in rats, 479
- Anaesthetics**, inhalation, effects of, on kinetics of post-synaptic conductance changes in mouse diaphragm, 263
- Anaphylaxis**, enhanced effect of isoprenaline after chronic administration in, of guinea-pigs, 469P
- , pharmacology of, in chicken intestine, 399
- Angiotensin**, vasoconstrictor actions of, on hepatic arterial vascular bed, inhibition of, by glucagon, 93
- Anorexia**, development of tolerance to anorectic effects of amphetamines and other drugs, 479
- Antagonist affinity constants**, use of different agonists in estimating, 395
- Anthelmintic drugs**, interaction between and histamine in *Ascaris suum*, 417
- Anti-allergic properties**, of a new histamine antagonist and coumarin compound, BM 15,100, 437P, 438P
- Anti-arrhythmic activity**, of a new drug, Org 6001, 251
- Anti-depressant drugs**, possible model for detection of, 426P
- Antidromic firing**, of α -motoneurons, effect of *p*-methoxyphenylethylamine on, 191
- Anti-inflammatory drugs**, effects of, on macrophage prostaglandin biosynthesis, 466P
- Anti-oestrogenic activity**, of some triphenylethanes and triphenylethylenes related to MER 25 in mice, 487
- Aortic strip**, rat, desensitization of, to vasopressin by infusions of noradrenaline, 458P
- Apomorphine**, effect of, on noradrenergic influences on dopamine-dependent behaviour in rats, 424P
- , ionization of, and assessment of Zwitterion constants, 501
- , emesis induced by, effect of burimamide on, 211
- , effect of, on turning behaviour in rats and mice, 456P
- Aprotinin**, effect of, on Schultz–Dale phenomenon in chick circular smooth muscle, 399
- Arecoline**, effect of, on cerebral cyclic GMP, 445P
- Arthus reaction**, effect of sulphapyrazone on thrombocytopenia occurring in, in guinea-pig, 441P
- Artery**, rabbit ear, further studies on depressant action of tetracyclines plus ascorbic acid on, 455P
- , rabbit coeliac, strips of, effects of prostaglandin endoperoxides and thromboxane A_2 on, 462P
- Ascaris suum***, interaction between anthelmintic drugs and histamine in, 417
- Ascorbic acid**, further studies on depressant action of, plus tetracyclines on rabbit ear artery, 455P
- Aspirin**, dual effects of, in guinea-pig lung, 495
- , effect of, on 5-HT uptake and release by human platelets, 149
- , use of, to determine effect of prostaglandins in peristalsis, 335
- , effect of, on thrombocytopenia occurring in Arthus reaction in guinea-pig, 441P

- Atenolol**, effect of, on hepatic arterial vascular bed of dog, 451P
- ATPase activity**, in heart microsomes and mitochondria, effects of propranolol, practolol or acebutalol on, 215
- , effect of corticosterone and ouabain on, in rat anococcygeus muscle, 559
- Atria**, guinea-pig, effect of hypothermia and reserpine pre-treatment on rate and tension responses to isoprenaline and slabutamol in guinea-pig atria, 447P
- Atropine**, effect of, on peripheral effects of fenfluramine, 185
- , effect of, on vasodilatation elicited by stimulation of depressor nerves in rabbit, 375
- , effect of, on aspirin-induced bronchoconstriction in guinea-pigs, 495
- , effect of, on cholinergic neurones in rat brain stem, 599
- , effect of, on morphine-induced contractions in rat isolated colon, 444P
- , effects of prostaglandins on heart rate responses to, in anaesthetized mouse, 459P
- , effect of, on biphasic changes in motor behaviour, in nucleus accumbens, 423P
- Autonomic agents**, sensitivity of pithed rats to, effect of genetic obesity, experimental diabetes and food deprivation on, 229

B

- [16,16-³H]-**beclomethasone dipropionate**, absorption and metabolism of, administered intratracheally to rat isolated lungs, 422P
- Behaviour**, mouse, effect of drugs on various parameters of, in a modified head-dipping test, 474P
- Behavioural studies**, on behavioural depression induced in rat by ethanolamine *O*-sulphate, an inhibitor of GABA transaminase, 431P
- Benzamides**, substituted, as dopamine antagonists, 472P
- Benzodiazepines**, six related, plasma concentrations of, in monkey after intraperitoneal injection, 427P
- 5H-(1)-Benzopyrano-(2,3b)-pyridin-5-ol**, mechanism of action by which, inhibits gastric acid secretion, 440P
- Bephenium**, effect of, on histamine content of *Ascaris suum*, 417
- Bethanechol**, effect of, on cholinergic neurones in rat brain stem, 599
- Bladder**, prostaglandins and tone in isolated strips of mammalian, 464P
- Blood flow**, arterial hepatic, dog, effect of isoprenaline, histamine, prostaglandin E₂, glucagon and secretin on, 581
- , myocardial, effect of propranolol and practolol on, 295
- Blood pressure**, effect of acetylcholine, isoprenaline and nor-adrenaline on, in alloxan- and streptozotocin-treated pithed rats, 229
- , selectivity of β -adrenoceptor agonists and antagonists on, in anaesthetized cat, 235
- Blood vessel-trachea selectivity**, of β -adrenoceptor stimulants *in vitro* in guinea-pigs, contribution of extra-neuronal uptake to, 369
- BM 15,100**, a new histamine antagonist, 437P
- Bradykinin**, effect of, on Schultz-Dale phenomenon in ileal circular smooth muscle strips, in chick, 399
- , effect of, on dorsal horn units, 435P

- Brain**, rat and pig, MAO activity in, postnatal development of, 279
- Brain slices**, rat, stereoselective uptake of L-homocysteate by, 433P
- Brain stem**, rat, observations on pharmacology of cholinergic neurones in, 599
- Breathing movements**, foetal, in sheep, effects of pentobarbitone and pethidine on, 311
- British Pharmacological Society**, Proceedings of, Cardiff, March 26–27, 1975, omitted from *Br. J. Pharmac.*, 54, 219–282P, *see* 476P
- British Pharmacological Society**, Proceedings of, Chelsea College, London, April 1–2, 1976, 421–475P
- Bronchoconstriction**, dual effect of aspirin in, in guinea-pigs, 495
- , histamine-induced, in dog, role of vagus nerve in, 439P
- Bronchodilator properties**, of β -adrenoceptor agonists, 235
- α -Bungarotoxin**, effect of blockage of neuromuscular transmission by, on contractile response to exogenous acetylcholine, 543
- , effect of blockage of neuromuscular transmission by, on contractile response to exogenous acetylcholine, 543
- Burimamide**, effect of, on emetic chemoreceptor trigger zone, nature of histamine receptors in, 211
- , blockade by, of restoration effect of histamine in tetrodotoxin-treated heart preparations, 247

C

- Cadmium**, alterations induced by, in pancreatic and hepatic functions, prevention by zinc of, 573
- Caecum**, guinea-pig, isolated taenia of, identification of separate receptors for adenosine and adenosine-5'-phosphate in causing relaxations of, 305
- ⁴⁵**Ca efflux**, effect of sympathomimetic amines on, from liver slices, 158
- Calcitonin**, antagonism at intestinal muscarinic receptors, 155
- , in synaptosomes depleted following morphine treatment, 521
- , may have a role in action of morphine-like drugs, 521
- , intracellular, involvement of, in exocytotic release of catecholamines induced by sodium emission, 127
- , in Tyrode solution, effect of, on sympathomimetic effect of 5-HT and DMPP on rabbit isolated heart, 115
- , bound, role of, in supersensitivity induced by cocaine, 329
- , effect of, on action of ionophore X-537A on desensitization rate and tension development in muscle fibres, 565
- , effect of, on morphine-induced contractions in rat isolated colon, 444P
- Calcium transport**, by heart microsomes and mitochondria, comparison of effects of acebutalol, practolol and propranolol on, 215
- Capsaicin**, evidence for a specific somatosensory receptor in cat skin that responds to, 436P
- Carbachol**, response of frog endplate to, effect of decamethonium on, 59
- , use of, to determine affinity constants of muscarinic antagonists in guinea-pig ileum, 395
- , desensitization induced by, effect of ionophore X-537A on, in muscle fibres, 565

- , effect of, on morphine-induced contractions in rat isolated colon, 444P
- Carbachol chloride**, modification by, of response of rat anococcygeus muscle to stimulation of individual extrinsic nerves, 434P
- Carbamylcholine** *see* carbachol, 565
- Carbuterol**, potency of, on isolated guinea-pig trachea and blood vessels, 369
- Cardiac output**, effect of propranolol and practalol on, 295
- Cardiotoxicity**, relationship between and plasma digoxin concentration in conscious dogs, 23
- Cardiovascular effects**, of clonidine in rabbits after cervical spinal cord transection, 449P
- Catalepsy**, changes in motor behaviour characteristic of, produced by morphine, 423P
- Catecholamine antagonists**, effect of, on milk-ejection reflex of anaesthetized rat, 458P
- Catecholamines**, ionization of, and assessment of Zwitterion constants, 501
- , adrenal, release of, induced by acetylcholine, high potassium or sodium deprivation, effect of methoxy-verapamil on, 127
- Catechol-O-methyltransferase**, activity of, in rabbit adrenal glands during pregnancy, 413
- Caudate nucleus**, rat, single neurones in, actions and interactions of morphine and dopamine on, 425P
- Cells**, cerebellar Purkinje, noradrenaline modulation of responses of, to afferent synaptic activity, 603
- , cockroach salivary gland, effects of compounds related to dopamine on, 133
- , glial, indirect effects of sympathetic ganglion cells mediated through release of GABA from, 73
- , cat isolated adrenocortical, indomethacin-induced alterations in corticosteroid and prostaglandin release by, 273
- , Renshaw, effect of *p*-methoxyphenylethylamine on, 191
- , rat peritoneal mast, prostaglandins and release of histamine from, 474P
- , sympathetic ganglion, indirect effects of amino acids on, mediated through release of GABA from glial cells, 73
- Cerebellum**, rat and pig, MAO activity in, postnatal development of, 279
- Cerebral ventricle**, third, of anaesthetized and conscious cats, pressor responses to noradrenaline administered into, 450P
- Chemoreceptor trigger zone**, emetic, nature of histamine receptors in, 211
- Chloramphenicol**, effect of, on rabbit ear artery, 455P
- Chlordiazepoxide**, possible method for detection of, 426P
- Chloride ion**, effect of, on action of GABA and piperazine on lobster muscle, 347
- Chlorimipramine**, modification by, of effect of chronic lithium administration on stimulation-induced changes in forebrain 5-hydroxyindoles, 446P
- α -**Chloracetophenone**, evidence for a specific somatosensory receptor in cat skin that responds to irritant chemicals, 436P
- p*-Chloroamphetamine**, effect of, on involvement of 5-HT in locomotor activity produced by amphetamine or tranlylcypromine plus L-DOPA, 141
- 1-(4-Chlorobenzyl)-4 3-(3,4-dimethyl coumarin-7-yl-oxy)-propyl-piperazine dihydrochloride** *see* BM 15,100, 438P
- o*-Chlorobenzylidene malonitrile**, evidence for a specific somatosensory receptor in cat skin that responds to, 436P
- Chloroform**, anaesthesia with, effect of, on kinetics of post-synaptic conductance changes in mouse diaphragm, 263
- p*-Chlorophenylalanine**, effect of, an involvement of 5-HT in locomotor activity produced by amphetamine or tranlylcypromine plus L-DOPA, 141
- , effect of, on hypothermia induced by 2,5-dimethoxy-4-methylamphetamine, 547
- 4)-(*m*-Chlorophenylcarbamoyloxy)-2-butynyl trimethyl ammonium chloride** *see* McN-A-343, 459P
- Chlorpromazine**, effect of, on concentration of (\pm)-propranolol in isolated perfused lungs in rat, 67
- , hypothermic action of, in monkeys, 43
- , possible method for detection of, 426P
- Choline transport system**, in erythrocytes, effect of lithium administration on, in patients, 323
- Cholinergic component**, in reflex vasodilatation elicited by stimulation of depressor nerves in rabbit, 375
- Cholinergic muscarinic agonists**, increased cerebral cyclic GMP concentration induced by, 445P
- Cholinoceptive neurones**, observations on pharmacology of, in rat brain stem, 599
- Cholinoceptor antiserum**, pharmacological properties of, 17
- Circling behaviour**, in unilateral nigro-striatal lesioned rats, effect of *p*-chlorophenylalanine on, 141
- Clomipramine**, effect of, on arterial [3 H]-NA uptake and arterial responsiveness to noradrenaline, 432P
- , plasma levels of, and its *N*-desmethyl metabolite after oral administration of clomipramine in man, 430P
- Clonidine**, effect of, on cerebral cyclic GMP, 445P
- , vascular effects of, independent of a reduction in sympathetic activity, 448P
- , cardiovascular effects of, in rabbits after cervical spinal cord transection, 449P
- , infusions of, desensitization of rat aortic strip to vasopressin by, 458P
- Clorazepate**, plasma concentration of, in monkey after intraperitoneal injection, 427P
- Cloxacillin**, effect of, on rabbit ear artery, 455P
- Cocaine**, effect of, on concentration of (\pm)-propranolol in isolated perfused rat lung, 67
- , supersensitivity induced by, role of bound calcium in, 329
- , effect of, on release of noradrenaline from mouse vas deferens, 551
- Colchicine**, perfusion of rabbit isolated heart with, effect of, on sympathomimetic effect of 5-HT and DMPP, 115
- Colon**, guinea-pig isolated, inhibition of peristalsis in, by drugs that block prostaglandin synthesis, 335
- , rat, temperature of, stereospecific actions of 2,5-dimethoxy-4-methylamphetamine on, at various ambient temperatures, 547
- , rat isolated, morphine-induced contractions in, investigation of effects of drugs on, 444P
- Contractile properties**, of hypertrophied and normal rat hearts, 453P
- Convulsants**, effects of, on spontaneous action potentials in cerebellar cortex slices, 3
- Copper sulphate**, emesis induced by, effect of burimamide on, 211
- Coronary vascular resistance**, interactions of isoprenaline and PGE₂ with respect to, in guinea-pig isolated hearts, 533
- Corpus striatum**, rat and pig, MAO activity in, postnatal development of, 279

- Corticosteroid release**, indomethacin-induced alterations in, by isolated adrenocortical cells of cat, 273
- Corticosterone**, hypercontractility induced by, possible involvement of sodium ions in, in rat anococcygeus muscle, 559
- Cortisol**, absorption and metabolism of, administered intratracheally to rat isolated lungs, 422P
- Cortisone**, absorption and metabolism of, administered intratracheally to rat isolated lungs, 422P
- Coryneine**, dissociation of, and assessment of zwitterion constants, 501
- , effects of pH on activity of, and related phenolic quaternary ammonium salts on frog rectus preparation, 517
- Coumarin compound**, new, anti-allergic properties of, 438P
- Current clamp**, use of, to study effect of quinidine on membrane electrical activity in frog auricular fibres, 163
- Cutaneous stimulation**, response of dorsal horn units to, 435P
- Cyclic AMP**, effect of cadmium on, in rat liver, 573
- , production of, in rat striatum, effect of agonists on, 452P
- Cyclic GMP**, increased cerebral concentration of, induced by muscarinic cholinergic agonists and prostaglandin $F_{2\alpha}$, 445P
- Cycloheximide**, effect of, on tryptophan pyrrolase activity and kynurenine formation in rat isolated perfused liver, 103
- , effect of, on isotope assays of prostaglandin 15-hydroxy dehydrogenase activity in rat kidney, 589
- Cyproheptadine**, effect of, on biphasic changes in motor behaviour, in nucleus accumbens, 423P
- , effect of, on morphine-induced contractions in rat isolated colon, 444P

D

- D-600** *see* methoxyverapamil, 127
- Decamethonium**, iontophoretic, comparison of time course of excitation and inhibition by, in frog endplate, 59
- Demethylchlortetracycline**, depressant action of, on rabbit ear artery, 455P
- Depolarization**, produced by Org 6001, in isolated cardiac muscle of rabbit, 251
- , effect of quinidine on, in frog auricular fibres, 163
- Desensitization rate**, effect of ionophore X-537A on, in potassium-depolarized muscle fibres, 565
- Desipramine**, potentiation by, of neuronal responses to mesaline, 152
- N-desmethyldiazepam**, plasma concentration of, in monkey after intraperitoneal injection, 427P
- , behavioural activity in monkey of, in man, 429P
- N-desmethyloclopramine**, plasma levels of, after oral administration of clopramine in man, 430P
- Desmethylinipramine**, effect of, on concentration of (\pm)-propranolol in rat isolated perfused lungs, 67
- , effect of, on sympathomimetic effect of 5-HT, DMPP and tyramine on isolated rabbit heart, 115
- Dexamphetamine**, paradoxical aversive property of, 424P
- Dextrophan**, effect of, on turning behaviour in rats and mice, 456P
- Diabetes**, experimental, effect of, on sensitivity of pithed rats to autonomic agents, 229
- Diaphragm**, mouse, kinetics of postsynaptic conductance in, effects of inhalation anaesthetics on, 263
- Diazepam**, metabolites of, in man, behavioural activity in monkey of, 429P
- , plasma concentration of, in monkey after intraperitoneal injection, 427P
- Dibenzoxazepine**, evidence for a specific somatosensory receptor in cat skin that responds to irritant chemicals, 436P
- Diethylcarbamazine citrate**, effect of, on Schultz-Dale phenomenon in chick circular smooth muscle, 399
- Diethylpropion**, tolerance pattern of anorexigenic action of, in rats, 479
- 3:4-Dihydroxyphenethyltrimethylammonium**, 'quaternary dopamine' *see* coryneine, 517
- N,N-dimethyldopamine**, action of, at a neurosecretory synapse, 133
- N,N-dimethylnoradrenaline**, action of, at a neurosecretory synapse, 133
- Digoxin**, plasma, relationship, between, and cardiotoxicity in conscious dogs, 23
- Dihydro- β -erythroidine**, effect of, on cholinceptive neurones in rat brain stem, 599
- Dilazep**, effect of, on response of guinea-pig trachea to purine derivatives, 51
- 2,5-Dimethoxy-4-methylamphetamine**, stereospecific actions of, on colonic temperature in rat at various ambient temperatures, 547
- Dimethylphenylpiperazinium**, comparison of effect of, with sympathomimetic effect of 5-HT on rabbit isolated heart, 115
- 1,1-Dimethyl-4-phenyl piperazinium**, effects of prostaglandins on heart rate responses to, in anaesthetized mouse, 459P
- Diphloretin phosphate**, effect of, on double-isotope method of estimating activity of prostaglandin 15-hydroxy dehydrogenase, 589
- 2,3-Diphosphoglycerate**, site at which, interacts with human haemoglobin, 201
- Dipyridamole**, effect of, on effect of 2,2'-pyridylisatogen tosylate on effects of ADP and ATP on guinea-pig taenia caecum, 305
- , effect of, on response of guinea-pig trachea to purine derivatives, 51
- , effect of, on thrombocytopenia occurring in Arthus reaction in guinea-pig, 441P
- Disulfiram**, effect of, on locomotor activity produced by tranlycypromine plus L-DOPA, 141
- Diuresis**, an apparatus for automatically recording, in laboratory animals, 471P
- Diuretic response**, pharmacokinetics of frusemide related to, 442P
- L-DOPA**, locomotor activity produced by, involvement of 5-HT in, 141
- Dopamine**, ionization of, and assessment of Zwitterion constants, 501
- , involvement of, in locomotor activity produced by amphetamine or tranlycypromine plus L-DOPA, 141
- , actions of compounds related to, at a neurosecretory synapse, 133
- , as substrate to measure MAO activity in postnatal development, 279
- , gradients of, in guinea-pig isolated ileum, 443P
- , effect of, on cerebral cyclic GMP, 445P
- , metabolism of, effect of morphine on, 456P
- , behaviour dependent on, in rats, noradrenergic influences on, 424P

—, actions of and interactions with morphine, on single neurones in rat caudate nucleus, 425P

Dopamine antagonism and stimulation, changes in motor behaviour characteristic of, produced by morphine, 423P

Dopamine antagonists, substituted benzamides as, 472P

Dopamine- β -hydroxylase, indirect and direct inhibition of, by amphetamine in storage vesicles and synaptosomes, 223

Dopamine receptors, structure activity studies on, a comparison between rat striatal adenylate cyclase and *Helix aspersa* neurones, 452P

Dorsal horn units, response of, to some putative transmitters and to cutaneous stimulation, 435P

Double-isotope assay, for estimation of prostaglandin 15-hydroxydehydrogenase activity and its application to pharmacology, 589

E

EDTA, effect of, on effects of tetrodotoxin and histamine on heart preparations, 247

EEG studies, on behavioural depression induced in rat by ethanolinamine *O*-sulphate, an inhibitor of GABA transaminase, 431P

5,8,11,14-Eicosatetraenoic acid, effect of, on prostaglandin levels and leucocyte migration in an inflammatory exudate *in vitro*, 467P

—, effect of, on ACTH-induced steroid release by isolated adrenocortical cells of cat, 273

Electrical field stimulation, effect of, on release of noradrenaline from mouse vas deferens, 551

Emesis, centrally induced histamine, effect of H_2 -receptor antagonists on, 211

Emetine, myopathy of, in the rat, 29

Endplate, frog, comparison of time course of excitation and inhibition by iontophoretic decamethonium in, 59

Enflurane, anaesthesia with, effect of, on kinetics of post-synaptic conductance changes in mouse diaphragm, 263

Enzyme activity, double-isotope method of estimation of, 589

Epinine, effect of, on rat striatal adenylate cyclase and snail neurones, 452P

— see *N*-methyldopamine, 133

Ergometrine, effect of, on rat striatal adenylate cyclase and snail neurones, 452P

Erythrocytes, choline transport system in, effect of lithium administration on, in patients, 323

Ethacrynic acid, effect of, on double-isotope method of estimating activity of prostaglandin 15-hydroxydehydrogenase activity, 589

Ethanolamine *O*-sulphate, some behavioural and EEG studies on behavioural depression induced in rat by, 431P

Ether, anaesthesia with, effect of, on kinetics of post-synaptic conductance changes in mouse diaphragm, 263

Ethylenediaminetetraacetic acid, disodium or calcium salts of, effect of, on potentiation of response of cat isolated spleen strip to noradrenaline by cocaine, 329

***N*-ethyl maleimide**, effect of, on double-isotope method of estimating activity of prostaglandin 15-hydroxydehydrogenase, 589

Excitatory junction potentials, in mouse vas deferens, depression by morphine of, 341

Extraneuronal uptake, contribution of, to trachea-blood vessel selectivity of β -adrenoceptor stimulants *in vitro* in guinea-pigs, 369

F

Fenfluramine, tolerance pattern of anorexigenic action of, in rats, 479

—, peripheral effects of, 185

Fenoterol, potency of, on isolated guinea-pig trachea and blood vessels, 369

—, β -adrenoceptor agonist potency of, in bronchial muscle, blood pressure and heart rate of anaesthetized cat, 229

Fertility, effects of some triphenylethanes and triphenylethylenes related to MER 25 in mice, 487

Fibres, frog auricular, effect of quinidine on membrane electrical activity in, studied by current and voltage clamp, 163

—, mossy and climbing, of Purkinje cerebellar neurones, noradrenaline modulation of responses of, to afferent synaptic activity, 603

Fluphenazine, effect of, on biphasic changes in motor behaviour, in nucleus acumbens, 423P

Food deprivation, effect of, on sensitivity of pithed rats to autonomic agents, 229

Forebrain, 5-hydroxyindoles in, effect of chronic lithium administration on stimulation-induced changes in, modification by chlorimipramine, 446P

Fruzemide, pharmacokinetics of, related to diuretic response, 442P

—, effect of, on double-isotope method of estimating activity of prostaglandin 15-hydroxydehydrogenase activity, 589

G

Ganglion stimulant drugs, effects of prostaglandins on heart rate responses to, in anaesthetized mouse, 459P

Gastric acid secretion, inhibition of, by AH 6696, 440P

Gastrocnemius, nerve muscle preparation of cat, contractile response to exogenous acetylcholine at, 543

Glucagon, influence of, on responses of hepatic arterial vasculature to vasodilator agents, 473P

—, vasodilator action of, on hepatic arterial vascular bed of dog, 581

—, form of adenylate cyclase stimulated by, in rat liver, effect of cadmium on, 573

—, inhibition by, of the vasoconstrictor actions of noradrenaline, angiotensin and vasopressin on the hepatic arterial vascular bed of dog, 93

Gluconeogenic enzymes, in rat liver, effect of cadmium on, 573

Glucose, homeostasis and tolerance of, effect of cadmium on, in rat, 573

—, release of, effect of sympathomimetic amines on, from liver slices, 158

Glutamate, effect of, on dorsal horn units, 435P

—, effect of, on cholinceptive neurones in rat brain stem, 599

—, a comparative study of effects of, and kainate on lobster muscle fibre and frog spinal cord, 359

L-Glutamate, excitations by, on cortical neurones: influence of endogenous neuronal activity and halothane, 476P

- Glyceryl trinitrate**, spasmolytic potency of, unaffected by drugs blocking adenosine uptake in guinea-pig trachea, 51
- Glycine**, effect of, on spontaneous action potentials in cerebellar cortex slices, 3
- Glycogen**, hepatic, in rat, effect of cadmium on, 573
- Guanethidine**, modification by, of response of rat anococcygeus muscle to stimulation of individual extrinsic nerves, 434P
- , guinea-pigs treated with, motor transmission in vas deferens of, 454P
 - , effect of, on vasodilatation elicited by stimulation of depressor nerves in rabbit, 375
- Guanosine**, effect of, on guinea-pig trachea, and interactions with drugs blocking adenosine uptake, 51

H

- Haemoglobin**, human, compounds designed to fit a known site in, 201
- Haloperidol**, effect of, on milk-ejection reflex in anaesthetized rat, 458P
- Halothane**, influence of, on L-glutamate excitations on cortical neurones, 476P
- , anaesthesia with, effect of, on kinetics of postsynaptic conductance changes in mouse diaphragm, 263
- Head-dipping test**, effect of drugs on various parameters of mouse behaviour in, 474P
- Heart**, rat and pig, MAO activity in, postnatal development of, 279
- , rabbit isolated, indirect sympathomimetic effect of 5-HT on, 115
 - , microsomes and mitochondria, calcium transport by, comparison of effects of acebutalol, practolol and propranolol on, 215
 - , isolated dog, effect of adenosine on blood pressure and myocardial oxygen consumption in, 409
 - , hypertrophied and normal rat, contractile properties of, 453P
- Heart rate**, effect of acetylcholine, isoprenaline and noradrenaline on, in alloxan- and streptozotocin-treated pithed rats, 229
- , selectivity of β -adrenoceptor agonists and antagonists on, in anaesthetized cat, 235
 - , responses of, effects of prostaglandins on, to cervical sympathetic nerve stimulation and ganglion stimulant drugs in anaesthetized mouse, 459P
- Helix aspersa** neurones, in structure activity studies on dopamine receptors, 452P
- Hepatic arterial vascular bed**, of dog, vasodilator actions of, isoprenaline, histamine, prostaglandin E_2 , glucagon and secretin on, 581
- Hepatic arterial vascular bed**, of dog, β -adrenoceptors in, 451P
- Hepatic functions**, alterations in, cadmium-induced, preventions by zinc of, 573
- Hepatic vasoconstriction**, inhibition by glucagon, in hepatic arterial vascular bed of dog, 93
- 1,2,3,4,10,14b-Hexahydro-2-methylidibenzo (c,f)-pyrazino-(1,2a)zepine mono hydrochloride** see Org GB 94, 426P
- Hexamethonium**, effects of prostaglandins on heart rate responses to, in anaesthetized mouse, 459P
- , effect of, on milk ejection reflex in anaesthetized rat, 459P
 - , effect of, on morphine-induced contractions in rat isolated colon, 444P
 - , effect of, on affinity constants of muscarinic antagonists using different guinea-pig ileum preparations, 395
- Hexamethonium bromide**, modification by, of response of rat anococcygeus muscle to stimulation of individual extrinsic nerves, 434P
- Hexobendine**, effect of, on response of guinea-pig trachea to purine derivatives, 51
- Histamine**, effect of, on cerebral cyclic GMP, 445P
- , bronchoconstriction induced by, in dog, role of vagus nerve in, 439P
 - , release of, and prostaglandins, from rat peritoneal mast cells, 474P
 - , vasodilator actions of, on hepatic arterial vascular bed of dog, 581
 - , interaction between, and anthelmintic drugs in *Ascaris suum*, 417
 - , effect of, on ileal circular smooth muscle strips, in chick, 399
 - , response of guinea-pig ileum longitudinal muscle strips to, effect of aspirin on, 335
 - , effect of, on isolated cat spleen strip in calcium-free solution, effect of cocaine on, 329
 - , emetic doses of, effect of in unanaesthetized dogs, 211
 - , restoration effect of, blockade by burimamide of, in tetrodotoxin-treated heart preparations, 247
- Histamine antagonist**, new, BM 15,100, 437P
- H₁-histamine receptors**, existence of, in chick ileum circular smooth muscle, 399
- Histamine receptors**, nature of, in emetic chemoreceptor trigger zone, 211
- Histamine release**, allergic, atypical adrenergic modulation of, from bovine leucocytes, 439P
- L-Homocysteate**, stereoselective uptake of, by rat brain slices, 433P
- DL-Homocysteic acid**, effect of, on cholinceptive neurones in rat brain stem, 599
- Hydrocortisone**, effect of, on tryptophan pyrrolase activity and kynurenine formation in rat isolated perfused liver, 103
- m-Hydroxybenzyltrimethylammonium**, effects of pH on activity of, on frog rectus preparation, 517
- 3-Hydroxy-N-desmethyldiazepam**, behavioural activity in monkey of, in man, 429P
- 3-Hydroxydiazepam**, behavioural activity in monkey of, in man, 429P, 428P
- 6-Hydroxydopamine**, effect of, on sympathomimetic effect of 5-HT, tyramine on DMPP, 115
- , unilateral lesions produced by, effect of morphine on turning behaviour in rats and mice with, 456P
 - , effect of, on noradrenergic influences on dopamine-dependent behaviour in rats, 424P
- 5-Hydroxyindoles**, forebrain, effect of chronic lithium administration on stimulation-induced changes in, modification by chlorimipramine, 446P
- β -Hydroxylation**, effect of amphetamine on, in isolated rat adrenal storage vesicles and whole brain synaptosomes, 223
- 4-Hydroxy- α^1 [(1-methyl-3,3-diphenyl-propyl)amino]-methyl)-m-xylene- α^1,α^2 -diol acetate** see AH7616, 229
- m-Hydroxyphenylpropyltrimethylammonium**, effects of pH on activity of, on frog rectus preparation, 517
- 5-Hydroxytryptamine**, effect of, on biphasic changes in motor behaviour, in nucleus accumbens, 423P

- , effect of, on β -adrenoceptor agonist potency of AH7616, 235
- , as substrate to measure MAO activity in postnatal development, 279
- , indirect sympathomimetic effect of, on rabbit isolated heart, 115
- , effect of, on concentration of (\pm)-propranolol in rat isolated perfused lungs, 67
- , involvement of, in locomotor activity produced by amphetamine or tranlycypromine plus L-DOPA, 141
- , uptake and release by human platelets, effect of aspirin on, 149
- , effect of, on spinal cord neurones compared with *p*-methoxy phenylethylamine, 191
- , effect of, on Schultz–Dale phenomenon in ileal circular smooth muscle strips, in chick, 399
- , gradients of, in guinea-pig isolated ileum, 443P
- , effect of, in cerebral cyclic GMP, 445P
- , neurally released, role of, in effect of chlorimipramine on production of 5-HIAA, 446P
- , effect of, on dorsal horn units, 435P
- 5-Hydroxytryptamine receptors**, postsynaptic, action of 2,5-dimethoxy-4-methylamphetamine at, 547
- Hypercontractility**, corticosterone-induced, possible involvement of sodium ions in, in rat anococcygeus muscle, 559
- Hyperglycemia**, effect of cadmium on, in rat, 573
- Hypothalamus**, rat and pig, MAO activity in, postnatal development of, 279
- Hypothermia**, effect of, on rate and tension responses to isoprenaline and salbutamol in guinea-pig atria, 447P
- , effect of 2,5-dimethoxy-4-methylamphetamine on, in rat, 547
- , produced by chlorpromazine, in monkeys, 43

I

- Ileum**, guinea-pig isolated, gradients of monoamine levels in, 443P
- , guinea-pig intact pieces of, use of, to determine affinity constants of muscarinic antagonists, 395
- , guinea-pig isolated, inhibition of peristalsis in, by drugs that block prostaglandin synthesis, 335
- Imipramine**, effect of, on arterial [3 H]-NA uptake and arterial responsiveness to noradrenaline, 432P
- , effect of, on concentration of (\pm)-propranolol in rat isolated perfused lungs, 67
- Indomethacin**, effect of, on prostaglandin levels and leucocyte migration in an inflammatory exudate *in vivo*, 467P
- , effect of, on thrombocytopenia occurring in Arthus reaction in guinea-pig, 441P
- , effect of, on response of guinea-pig ileum longitudinal muscle strips to nicotine and prostaglandin E_2 , 335
- , effect of, on double-isotope method of estimating activity of prostaglandin 15-hydroxydehydrogenase, 589
- , alterations induced by, in corticosteroid and prostaglandin release by isolated adrenocortical cells of cat, 273
- Inosine**, effect of, on guinea-pig trachea, and interaction with drugs blocking adenosine uptake, 51
- Insulin release**, suppression of, effect of cadmium on, in rat, 573

- Intestine**, chicken, pharmacology of anaphylaxis in, 399
- , isolated innervated segments of rabbit and guinea-pig, action of calcitonin on motility of, 155
- Ionophore X-537A**, effect of, on desensitization rate and tension development in potassium-depolarized muscle fibres, 565
- Irritant chemicals**, evidence for a specific somatosensory receptor in cat skin that responds to, 436P
- Isoetharine**, potency of, on isolated guinea-pig trachea and blood vessels, 369
- Isoprenaline**, effect of, on allergic histamine release from bovine leucocytes, 439P
- , effect of, on rat striatal adenylate cyclase and snail neurones, 452P
- , dissociation of, and assessment of Zwitterion constants, 501
- , interactions of, and PGE_2 with respect to functions and metabolism of guinea-pig isolated hearts, 533
- , effect of, on hepatic arterial vascular bed of dog, 451P
- , effect of hypothermia and reserpine pretreatment on rate and tension responses to, in guinea-pig atria, 447P
- , effect of, on cerebral cyclic GMP, 445P
- , enhanced effect of, after chronic administration in microanaphylactic shock of guinea-pigs, 469
- , vasodilator actions of, on hepatic arterial vascular bed of dog, 581
- , potency of, on isolated guinea-pig trachea and blood vessels, 369
- , dose-response curves of, effect of propranolol and practalol on, 295
- , sensitivity of pithed rats to, effect of genetic obesity, food deprivation and experimental diabetes on, 229
- , effect of, on calcium, potassium and glucose release from liver slices, 158
- (–)-**Isoprenaline**, potency of, compared with β -adrenoceptor agonists, in bronchial, skeletal, vascular and cardiac muscle of anaesthetized cat, 229

K

- ^{42}K efflux**, effect of sympathomimetic amines on, 158
- Kainate**, a comparative study of effects of, and glutamate on lobster muscle fibre and frog spinal cord, 359
- KCN**, effect of, on concentration of (\pm)-propranolol in rat isolated perfused lungs, 67
- Ketamine**, effects of repeated doses of on sleeping times in rats, 457P
- 15-Keto-prostaglandin F_{2a}** , preparation of, to estimate prostaglandin 15-hydroxydehydrogenase activity, 589
- Kidney**, rat, use of, to estimate prostaglandin 15-hydroxydehydrogenase activity by an isotope method, 589
- Kinetics**, of substrate-stimulated efflux, 86
- Kynuramine**, as substrate to measure MAO activity in postnatal development, 279
- Kynurenine formation**, in rat isolated perfused liver, effect of tryptophan, hydrocortisone and allopurinol on, 103

L

- Lesions**, unilateral 6-hydroxydopamine, effect of morphine on turning behaviour in rats and mice with, 456P
- Leucocyte migration**, effect of indomethacin on, in an inflammatory exudate, 467P
- , bovine, atypical adrenergic modulation of allergic histamine release from, 439P

- Levorphanol**, effect of, on turning behaviour in rats and mice, 456P
- Lidocaine**, effect of, on concentration of (\pm)-propranolol in rat isolated perfused lungs, 67
- Lipids**, vasoactive, involvement of, in anaphylactic response of chick ileal circular smooth muscle, 399
- Lithium**, administration of, to patients, an irreversible effect of, 323
- , chronic administration of, effect of, on stimulation-induced changes in forebrain 5-hydroxyindoles: modification by chlorimipramine, 446P
- Liver**, dog, vasodilator actions of isoprenaline, histamine, prostaglandin E_2 , glucagon and secretin on, 581
- , rat and pig, MAO activity in, postnatal development of, 279
- , rat isolated perfused, effect of tryptophan, allopurinol and hydrocortisone on tryptophan pyrrolase activity and kynurenine formation in, 103
- Liver slices**, ^{45}Ca efflux from, effect of sympathomimetic amines on, 158
- Locomotor activity**, produced by amphetamine or tranlylcypromine plus L-DOPA, involvement of 5-HT in, 141
- Lung**, rat isolated, absorption and metabolism of steroids administered intratracheally to, 422P
- , swine and guinea-pig, use of, to estimate prostaglandin 15-hydroxydehydrogenase activity by an isotope method, 589
- , isolated perfused rat, concentration of (\pm)-propranolol in, 67
- Lysergic acid diethylamide**, effect of, on morphine-induced contractions in rat isolated colon, 444P
- M**
- M&B 22948**, effect of, on Schultz-Dale phenomenon in chick circular smooth muscle, 399
- Macaca cyclops**, hypothermic action of chlorpromazine in, 43
- Macaca mulatta**, plasma concentrations in, of six related benzodiazepines after intraperitoneal injection, 427P
- , behavioural activity in, of metabolites of diazepam in man, 429P
- Macrophage**, prostaglandin biosynthesis by, effect of anti-inflammatory drugs on, 466P
- Magnesium**, synaptosomal content of, unaffected by treatment with morphine or naloxone, 521
- Magnesium ion**, effect of, on action of ionophore X-537A on desensitisation rate and tension development in muscle fibres, 565
- McN-A-343**, effects of prostaglandins on heart rate responses to, in anaesthetized mouse, 459P
- Me 506**, potency of, on isolated guinea-pig trachea and blood vessels, 369
- Medazepam**, plasma concentration of, in monkey after intraperitoneal injection, 427P
- Medulla oblongata**, response of, to chlorpromazine, 43
- Membrane electrical activity**, effect of quinidine on, in frog auricular fibres studied by current and voltage clamp, 163
- Mepyramine**, effect of, on action of histamine on Schultz-Dale phenomenon in ileal circular smooth muscle strips in chick, 399
- , effect of, on emetic chemoreceptor trigger zone, nature of histamine receptors in, 211
- MER 25**, ethamoxytriphetol, reduces fertility in mice, 487
- Mescaline**, effect of, on potentiation by desipramine of neuronal responses to, 152
- Metaraminol**, effect of, on peripheral effects of fenfluramine, 185
- Methacholine**, effect of, on cerebral cyclic GMP, 445P
- , effect of, on cholinceptive neurones in rat brain stem, 599
- Methoxamine**, effect of, on peripheral effects of fenfluramine, 185
- p-Methoxyphenylethylamine**, effects of, on spinal cord neurones, 191
- Methoxyverapamil**, effect of, on release of adrenal catecholamines induced by acetylcholine, high potassium or sodium deprivation, 127
- N-Methyldopamine**, action of, at a neurosecretory synapse, 133
- Methysergide**, effect of, on action of 5-hydroxytryptamine on Schaltz-Dale phenomenon in chick ileum circular smooth muscle strips, 399
- , effect of, on hypothermia induced by 2,5-dimethoxy-4-methylamphetamine, in rat, 547
- Metirapone**, effects of, on rat uterine prostaglandin release and on spontaneous smooth muscle activity *in vitro*, 465P
- Metiamide**, effect of, on emetic chemoreceptor trigger zone, nature of histamine receptors in, 211
- Metoclopramide**, effect of, on milk-ejection reflex in anaesthetized rat, 459P
- Microanaphylactic shock**, of guinea-pigs, enhanced effect of isoprenaline after chronic administration in, 469P
- Microsomes**, heart, calcium transport by, comparison of effects of acebutalol, practolol and propranolol on, 215
- Milk-ejection reflex**, effect of catecholamines on, in anaesthetized rat, 458P
- Minocycline**, depressant action of, on rabbit ear artery, 455P
- Mitochondria**, heart, calcium transport by, comparison of effects of acebutalol, practolol and propranolol on, 215
- , purified hypothalamic rat and pig, MAO activity in, postnatal development of, 279
- Monkey**, plasma concentrations in, of six related benzodiazepines after intraperitoneal injection, 427P
- , behavioural activity in, of metabolites of diazepam in man, 429
- , hypothermic action of chlorpromazine in, 43
- Monoamine levels**, gradients of, in guinea-pig isolated ileum, 443P
- Monoamine oxidase**, investigation into postnatal development of activity of, 279
- Monoamines**, ontogenesis of enzyme systems deaminating different, 279
- Morphine**, effects of, on release of noradrenaline from mouse vas deferens, 551
- , depression by, of excitatory junction potential in vas deferens of mouse, 341
- , inducing dependence by a single administration of, in rats, 430P
- , depletes calcium content of synaptosomes in rat cerebral cortex, 521
- , actions and interactions with dopamine, on single neurones in rat caudate nucleus, 425P
- , injection of, into nucleus accumbens, biphasic changes in motor behaviour following, 423P

- , effect of, on turning behaviour in rats and mice with unilateral 6-hydroxydopamine lesions, 456P
- , contractions of rat isolated colon induced by, investigation of effects of drugs on, 444P
- α -Motoneurons**, antidromic firing of, effect of *p*-methoxyphenylethylamine on, 191
- Motor behaviour**, biphasic changes in, following morphine injection into nucleus accumbens, 423P
- Motor transmission**, in vas deferens of guanethide-treated guinea-pigs, 454P
- Muscarine**, effect of, on cholinceptive neurones in rat brain stem, 599
- Muscarinic agonists and antagonists**, effect of, on cholinceptive neurones in rat brain stem, 599
- Muscarinic antagonists**, estimation of affinity of in guinea-pig ileum, 395
- Muscarinic cholinergic agonists**, increased cerebral concentration of cyclic GMP induced by, 445P
- Muscarinic receptors**, intestinal, calcitonin antagonism at, 155
 - , in ganglionic layer or on smooth muscle of guinea-pig ileum
- Muscle**, smooth, activity of, effects of metyrapone, 465P
 - , rat anococcygeus, response of, to stimulation of individual extrinsic nerves and its modification by drugs, 434P
 - , longitudinal guinea-pig ileum, action of calcitonin on motility of, 155
 - , bronchial, skeletal, vascular and cardiac, in anaesthetized cat, selectivity of β -adrenoceptor agonists and antagonists on, 235
 - , smooth, of mouse vas deferens, excitatory junction potentials of, depression by morphine of, 341
 - , diaphragm, and phrenic nerve preparation, effect of prostaglandin E_1 on neuromuscular transmission in rat, 387
 - , circular smooth intestinal, from domestic fowl, demonstration of Schultz–Dale phenomenon in, 399
 - , anococcygeus, rat, possible involvement of sodium ions in corticosterone-induced hypercontractility in, 559
 - , frog sartorius, effect of ionophore X-537A on desensitization rate and tension development in potassium-depolarized, 565
- Muscle fibres**, pathological effect of emetine on, in rat, 29
 - , lobster, and frog spinal cord, a comparative study of action of GABA and piperazine on, 347
 - , lobster, and frog spinal cord, a comparative study of effects of glutamate and kainate on, 359
- Muscle preparations**, smooth, effects of prostaglandins endoperoxides and thromboxane A_2 on, 462P
- Muscle strips**, guinea-pig longitudinal, use of, to determine role of prostaglandins in peristalsis, 335
 - , denervated longitudinal, guinea-pig ileum, use of, to determine affinity constants of muscarinic antagonists, 395
- Myocardial contractile force**, interactions of isoprenaline and PGE_2 with respect to, in guinea-pig isolated hearts, 533
- Myocardial infarction**, canine, experimental, comparative effects of propranolol and practalol in early stages of, 295
- Myocardial oxygen consumption**, effect of adenosine on, 409
 - , interactions of isoprenaline and PGE_2 with respect to, in guinea-pig isolated hearts, 533

Myopathy, of emetine, in rat, 29

'D'-musculotropic tryptamine receptors, preponderance of, in chick ileum circular smooth muscle strips, 399

N

- Nalorphine**, effect of, on biphasic changes in motor behaviour, in nucleus accumbens, 423P
- Naloxone**, prevents morphine-induced depletion of synaptosomal calcium levels, 521
 - , effect of, on release of noradrenaline from mouse vas deferens, 551
 - , effect of, on depression of excitatory junction potentials in vas deferens produced by normorphine, 341
 - , effect of, on turning behaviour in rats and mice, 456P
 - , effect of, on morphine-induced contractions in rat isolated colon, 444P
- Narcotic analgesic drugs**, effect of, on transmitter release sites in mouse vas deferens smooth muscle, and amount of noradrenaline released by nerve impulse, 341
- Nerve**, vagus, role of, in histamine-induced bronchoconstriction in dog, 439P
 - , cervical sympathetic, stimulation of, effects of prostaglandins on heart rate response to, in anaesthetized mouse, 459P
 - , phrenic, and diaphragm muscle preparation, effect of prostaglandin E_1 on neuromuscular transmission in rat, 387
- Nerves**, depressor, in rabbit, cholinergic component in reflex vasodilatation elicited by stimulation of, 375
 - , individual extrinsic, response of rat anococcygeus muscle to stimulation of, and its modification by drugs, 434P
- Neuromuscular transmission**, in rat, effect of, prostaglandin E_1 on, 387
- Neuronal activity**, endogenous, influence of, on L-glutamate excitations on cortical neurones, 476P
- Neurones**, cortical, L-glutamate excitations on, influence of endogenous neuronal activity and halothane, 476P
 - , *Helix aspersa*, in structure activity studies on dopamine receptors, 452P
 - , single, in rat caudate nucleus, actions and interactions of dopamine and morphine on, 425P
 - , single cortical, effect of desipramine on responses of, to mescaline, 152
 - , spinal cord, effects of *p*-methoxyphenylethylamine on, 191
 - , cholinceptive, observations on pharmacology of, in rat brain stem, 599
 - , cerebellar Purkinje, noradrenaline modulation of responses of, to afferent-synaptic activity, 603
- Nicotine**, effect of, on cholinceptive neurones in rat brain stem, 599
 - , response of guinea-pig ileum longitudinal muscle strips to, effect of aspirin and indomethacin on, 335
- Nicotinic agonists and antagonists**, effect of, on cholinceptive neurones in rat brain stem, 599
- Nicotinic ganglionic receptors**, possible presence of in guinea-pig ileum, 395
- Nicotinic receptor**, fraction rich in, obtained from electric organ of *Torpedo marmorata*, 17
- Noceptive units**, effects of putative transmitters and cutaneous stimulation on, 435P
- n*-Nonyl-vanillylamide**, evidence for a specific somatosensory receptor in cat skin that responds to, 436P

- Noradrenaline**, dissociation of, and assessment of Zwitterion constants, 501
- , modulation by, of responses of cerebellar Purkinje cell to afferent synaptic activity, 603
 - , release of, from mouse vas deferens, effects of morphine on, 551
 - , amount of, produced by each nerve impulse, effect of narcotic analgesic drugs on, 341
 - , depolarization of mouse vas deferens smooth muscle produced by, effect of normorphine on, 341
 - , effect of, on cat isolated spleen strip in calcium-free solution, effect of cocaine on, 329
 - , effect of, on spinal cord neurones compared with *p*-methoxyphenylethylamine, 191
 - , effect of, on calcium, potassium and glucose release from liver slices, 158
 - , spasmolytic potency of, unaffected by drugs blocking adenosine uptake in guinea-pig trachea, 51
 - , effect of, on concentration of (\pm)-propranolol in rat isolated perfused lungs, 67
 - , comparison of effect of, with indirect sympathomimetic effect of 5-HT on isolated rabbit heart, 115
 - , vasoconstrictor actions of, inhibition of, by glucagon, on hepatic arterial vascular bed of dog, 93
 - , sensitivity of pithed rats to, effect of genetic obesity, food deprivation and experimental diabetes on, 235
 - , effect of, on dorsal horn units, 435P
 - , effect of, on dopamine-dependent behaviour in rats, 424P
 - , effects of prostaglandins on heart rate responses to, in anaesthetized mouse, 459P
 - , infusion of, desensitization of rat aortic strip to vasopressin by, 458P
 - , effect of, on rat striatal adenylate cyclase and snail neurones, 452P
 - , pressor responses to, administered into third cerebral ventricle of anaesthetized and conscious cats, 450P
 - , effect of, on cerebral cyclic GMP, 445P
 - , effect of, on morphine-induced contractions in rat isolated colon, 444P
 - , gradients of, in guinea-pig isolated ileum, 443P
- [³H]-noradrenaline uptake**, effects of three tricyclic antidepressants on arterial, 432P
- Nordiazepam** *see* *N*-desmethyldiazepam, 428, 429
- Normorphine**, effect of, on release of noradrenaline from mouse vas deferens, 551
- , depression by, of excitatory junction potentials in mouse vas deferens, 341
- Nortryptiline**, effect of, on concentration of (\pm)-propranolol in rat isolated perfused lungs, 67
- Nucleus accumbens**, biphasic changes in motor behaviour following morphine injection into, 423P

O

- Obesity**, genetic, effect of, on sensitivity of pithed rats to autonomic agents, 229
- Oestrogenic activity**, of some triphenylethanes and triphenylethylenes related to MER 25 in mice, 487
- Olfactory bulbectomy**, behavioural changes following, in rats, a possible model for detection of antidepressant drugs, 426P

- Ontogenesis**, of enzyme systems deaminating different monoamines, 279
- Orciprenaline**, potency of, on isolated guinea-pig trachea and blood vessels, 369
- , β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235
- Org 6001**, a new anti-arrhythmic drug, investigations to characterize, 251
- Org GB 94**, possible model for detection of, 426P
- Oxazepam** *see* 3-hydroxy-*N*-desmethyl-diazepam, 429P
- , plasma concentration of, in monkey after intraperitoneal injection, 427P
- β - and γ -oxidation, effect of, on isotope assays of prostaglandin 15-hydroxydehydrogenase, 589
- Oxotremorine**, effect of, on cerebral cyclic GMP, 445P
- Oxygen consumption**, myocardial, effect of adenosine on, 409
- Oxytetracycline**, depressant action of, on rabbit ear artery, 455P
- Oxytocin**, uterine receptors for, correlation between antagonist potency and receptor binding, 381
- Ouabain**, effect of, on contractility of rat anococcygeus muscle, 559
- , effect of, on concentration of (\pm)-propranolol in rat isolated perfused lungs, 67

P

- Pancreatic function**, alterations in, cadmium-induced, prevention by zinc of, 573
- Papaverine**, effect of, on morphine-induced contractions in rat isolated colon, 444P
- Pentobarbitone**, effect of, on foetal breathing movements in sheep, 311
- Pentyltrimethylammonium**, use of, to determine affinity constants of muscarinic antagonists in guinea-pig ileum, 395
- Peripheral cardiovascular effects**, of fenfluramine, 185
- Peristalsis**, inhibition of, in guinea-pig isolated ileum and colon by drugs that block prostaglandin synthesis, 335
- Pethidine**, effect of, on foetal breathing movements in sheep, 311
- Phenmetrazine**, tolerance pattern of anorexigenic action of, in rats, 479
- , has no effect on aspirin-induced bronchoconstriction in guinea-pig lungs, 495
 - , effect of, on response of guinea-pig trachea to isoprenaline, tertiary butyl noradrenaline and isotharine, 369
- Phentolamine**, effect of, on release of noradrenaline from mouse vas deferens, 551
- , effect of, on peripheral effects of fenfluramine, 185
 - , effect of, on allergic histamine release from bovine granulocytes, 439P
 - , effect of, on morphine-induced contractions in rat isolated colon, 444P
 - , effect of, on milk-ejection reflex in anaesthetized rat, 458P
- Phentolamine mesylate**, modification by, of response of rat anococcygeus muscle to stimulation of individual extrinsic nerves, 434P
- Phenylbutazone**, effect of, on thrombocytopenia occurring in Arthus reaction in guinea-pig, 441P

- , effect of, on Schultz–Dale phenomenon in chick circular smooth muscle, 399
- Phenylethylamine**, derivatives of, effects of, on striatal rat adenylate cyclase and snail neurones, 452P
- Phenylephrine**, effect of, on allergic histamine release from bovine leucocytes, 439P
- , effect of, on rat striatal adenylate cyclase and snail neurones, 452P
- , infusions of, desensitization of rat aortic strip to vasopressin by, 458P
- Phenylethanolamine-N-methyltransferase**, decreased activity of, in rabbit adrenal glands during pregnancy, 413
- 4(R)-1-Phospho-2,6,7-trioxabicyclo(2,2,2) octane-1-oxide compounds**, GABA antagonism as a possible basis for convulsant action of a series of bicyclic phosphorus esters, 435P
- Phosphorus esters**, bicyclic, GABA antagonism as a possible basis for convulsant action of, 435P
- Physostigmine**, effect of, on effect of methoxyverapamil on release of adrenal catecholamines induced by acetylcholine, 127
- Picrotoxin**, effect of, on effect of amino acids on spontaneous action potentials in cerebellar cortex slices, 3
- , effect of, on action of GABA and piperazine on lobster muscle, 347
- Pimozide**, effect of, on milk-ejection reflex in anaesthetized rat, 458P
- , effect of, on hypothermia induced by 2,5-dimethoxy-4-methylamphetamine, 547
- Piperazine**, comparative study of action of, and GABA on lobster muscle fibre and frog spinal cord, 347
- , effect of, on histamine content of *Ascaris suum*, 417
- Piperoxan**, effect of, on biphasic changes in motor behaviour, in nucleus accumbens, 423P
- Plasma**, horse, circular smooth muscle strips of chick ileum sensitized to, Schultz–Dale phenomenon in, 399
- Platelets**, human, effect of aspirin on 5-HT uptake and release by, 149
- Polypeptides**, vasoactive, involvement of, in anaphylactic response of chick ileal circular smooth muscle, 399
- Polyphlorethin phosphate**, effect of, on Schultz–Dale phenomenon in chick circular smooth muscle, 399
- , effect of, on response of guinea-pig ileum longitudinal muscle strips to nicotine or transmural stimulation, 335
- Postnatal development**, of activity of monoamine oxidase, 279
- Postsynaptic conductance**, kinetics of, effects of inhalation anaesthetics on, in mouse diaphragm, 263
- Potassium**, synaptosomal content of, unaffected by treatment with morphine or naloxone, 521
- , high, release of adrenal catecholamines induced by, effect of methoxyverapamil on, 127
- , muscle fibres depolarized by, effect of ionophore X-537A on depolarization rate and tension development in, 565
- , effect of, in morphine-induced contractions in rat isolated colon, 444P
- Potentials**, excitatory junction, in mouse vas deferens, depression by morphine of, 341
- , miniature endplate, in mouse diaphragm, effects of inhalation anaesthetics on, 263
- PR-D-92-EA**, effect of, on Schultz–Dale phenomenon in chick circular smooth muscle, 399
- Practalol**, effect of, on calcium transport by heart microsomes and mitochondria, 215
- , β -adrenoceptor antagonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate in anaesthetized cat, 235
- , comparative effects of, and propranolol in early stages of experimental canine myocardial infarction, 295
- Pregnancy**, decreased activity of phenylethanolamine- and catechol-O-methyltransferases in adrenal gland of rabbit during, 413
- Preoptic anterior hypothalamus**, response of, to chlorpromazine, 43
- Pressor responses**, to noradrenaline administered into third cerebral ventricle of anaesthetized and conscious cats, 450P
- Propranolol**, aspirin in presence of, induces bronchoconstriction in guinea-pig lungs, 495
- , effect of, on peripheral effects of fenfluramine, 185
- , effect of, on calcium transport by heart microsomes and mitochondria, 215
- , β -adrenoceptor antagonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235
- , effect of, on response of guinea-pig trachea to purine derivatives, 51
- , effect of, on sympathomimetic effect of 5-HT, tyramine and DMPP, 115
- , comparative effects of, and practalol in early stages of experimental canine myocardial infarction, 295
- , effect of, on allergic histamine release from bovine leucocytes, 439P
- , effect of, on biphasic changes in motor behaviour, in nucleus accumbens, 423P
- , effect of, on milk-ejection reflex in anaesthetized rat, 458P
- , effect of, on hepatic arterial vascular bed of dog, 451P
- (\pm)-Propranolol**, concentration of, in isolated, perfused lungs of rat, 67
- Prostaglandin**, effect of ionizing radiation on prostaglandin-like activity in tissues, 527
- Prostaglandin E₁**, comparison of inactivation of, by irradiated and non-irradiated mouse spleen tissue, 527
- , effect of, on cerebral cyclic GMP, 445P
- , effect of, on neuromuscular transmission in rat, 387
- Prostaglandins E₁ and E₂**, effects of, on heart rate responses to cervical sympathetic nerve stimulation and ganglion stimulant drugs in anaesthetized mouse, 459P
- , response of guinea-pig ileum longitudinal muscle strips to, effect of aspirin and indomethacin on, 335
- Prostaglandins E₁, E₂ and F_{2a}**, effect of, on Schultz–Dale phenomenon in ileal circular smooth muscle strips, in chick, 399
- Prostaglandin E₂**, interactions of isoprenaline and, with respect to functions and metabolism of guinea-pig isolated hearts, 533
- , spasmolytic potency of, unaffected by drugs blocking adenosine uptake in guinea-pig trachea, 51
- , vasodilator action of, on hepatic arterial vascular bed of dog, 581
- Prostaglandin F_{2a}**, method for estimating, 589
- , increased cerebral cyclic GMP concentration induced by, 445P
- , effect of, on inhibition of peristalsis of ileum by aspirin, 335

- Prostaglandin endoperoxides**, effects of, on strips of rabbit coeliac artery, 462P
- Prostaglandin 15-hydroxydehydrogenase**, rapid method for estimation of, and its application to pharmacology, 589
- Prostaglandin release**, indomethacin-induced alterations in, by isolated adrenocortical cells of cat, 273
- Prostaglandin synthesis**, drugs blocking, inhibition of peristalsis in guinea-pig ileum and colon by, 335
- Prostaglandin synthetase inhibitors**, effect of, on Schultz-Dale phenomenon in chick ileal circular smooth muscle, 399
- Prostaglandins**, and release of histamine from rat peritoneal mast cells, 474P
- , interaction between release of, and of SRS-A, 460P
 - , and tone in isolated strips of mammalian bladder, 464P
 - , and their pulmonary metabolites, bioassay and thin-layer chromatography of, 463P
 - , rat uterine, release of, effects of metyrapone on, 465P
 - , level of, effect of indomethacin on, in an inflammatory exudate, 467P
 - , macrophage biosynthesis of, effects of anti-inflammatory drugs on, 466P
- Proteinase inhibitor**, effect of, on Schultz-Dale phenomenon in chick circular smooth muscle, 399
- Purine derivatives**, effect of, on guinea-pig trachea and interaction with drugs that block adenosine uptake, 51
- Putative transmitters**, response of dorsal horn units to, 435P
- 2,2'-Pyridylisatogen tosylate**, effect of, on effects of ATP and ADP on guinea-pig taenia caecum, 305

Q

- Quinidine**, effect of, on membrane activity in frog auricular fibres studied by current and voltage clamp, 163

R

- Rabbit aorta contracting substance-releasing factor**, some properties of, 461P
- RCS-RF** *see* rabbit aorta contracting substance-releasing factor, some properties of, 461P
- Radiation**, effect of ionizing, on prostaglandin-like activity in tissues, 527
- Receptors**, uterine, for oxytocin, correlation between antagonist potency and receptor binding, 381
- , muscarinic and nicotinic, excitations of cholinceptive neurones mediated by, 599
 - , specific somatosensory, in cat skin that responds to irritant chemicals, 436P
 - , dopamine, structure activity studies on, a comparison between rat striatal adenylate cyclase and *Helix aspersa* neurones, 452P
- Reserpine**, effect of, on cat isolated spleen strip in calcium-free solution, effect of cocaine on, 329
- , pretreatment with, effect of, on rate and tension responses to isoprenaline and salbutamol in guinea-pig atria, 447P
 - , effect of pretreatment with, on interactions of isoprenaline and PGE₂ in guinea-pig isolated hearts, 533
 - , effect of, on morphine-induced contractions in rat isolated colon, 444P
- Rimiterol**, potency of, on isolated guinea-pig trachea and blood vessels, 369

S

- Salbutamol**, potency of, on isolated guinea-pig trachea and blood vessels, 369
- , β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate in anaesthetized cat, 235
 - , effect of, on hepatic arterial vascular bed of dog, 451P
 - , effect of hypothermia and reserpine pretreatment on rate and tension responses to, in guinea-pig atria, 447P
- Salmefamol**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate in anaesthetized cat, 235
- SC-19220**, effect of, on response of guinea-pig ileum longitudinal muscle strips to nicotine or transmural stimulation, 335
- Schultz-Dale phenomenon**, demonstration of, in circular smooth muscle strips of domestic fowl intestine, 399
- Secretin**, vasodilator action of, on hepatic arterial vascular bed of dog, 581
- Septum**, rat and pig, MAO activity in, postnatal development of, 279
- Serum**, from rabbits immunized against nicotinic receptor-rich fraction from electric organ of *Torpedo marmorea*, pharmacological properties of, 17
- Single-isotope assay**, for estimation of prostaglandin 15-hydroxydehydrogenase activity, 589
- Skin**, cat, evidence for a specific somatosensory receptor in, that responds to irritant chemicals, 436P
- Sleep state**, foetal, in sheep, effects of pentobarbitone and pethidine on, 311
- Sleeping times**, in rats, effects of repeated doses of ketamine on, 457P
- Slow reacting substance of anaphylaxis**, bovine, effect of, on Schultz-Dale phenomenon in ileal circular smooth muscle strips, in chick, 399
- , interaction between release of and of prostaglandins, 460P
- Sodium**, synaptosomal content of, unaffected by treatment with morphine or naloxone, 521
- , deprivation, release of adrenal catecholamines induced by, effect of methoxyverapamil on, 127
- [³H]-sodium borohydride**, use of, to prepare 15-keto prostaglandin F_{2 α} , to estimate prostaglandin 15-hydroxydehydrogenase, 589
- Sodium ion**, effect of, on action of GABA and piperazine on frog spinal cord, 347
- , possible involvement of, in corticosterone-induced hypercontractility in rat anococcygeus muscle, 559
- Sodium meclofenamate**, effect of, on Schultz-Dale phenomenon in chick circular smooth muscle, 399
- Somatosensory receptor**, specific, evidence for, in cat skin that responds to irritant chemicals, 436P
- Soterenol**, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate in anaesthetized cat, 235
- Spinal cord**, cervical, transection of, cardiovascular effects of clonidine after, 449P
- , frog, and lobster muscle fibre, a comparative study of action of GABA and piperazine on, 347
 - , frog, and lobster muscle fibre, a comparative study of effects of glutamate and kainate on, 359
- Spleen strips**, cat isolated, role of calcium in supersensitivity induced by cocaine in, 329

Stereotypy, amphetamine-induced, effect of *p*-chlorophenyl-alanine on, 141

Steroid hormone receptors, in brain and pituitary, 475P

Steroid release, indomethacin-induced alterations in, by isolated adrenocortical cells of cat, 273

Steroids, administered intratracheally, to rat isolated lungs, absorption and metabolism of, 422P

Storage vesicles, isolated rat adrenal, indirect and direct inhibition of dopamine- β -hydroxylase by amphetamine in, 223

Streptomycin, effect of, on rabbit ear artery, 455P

Streptozotocin, diabetic and hereditary obese pithed rats, sensitivity of, to acetylcholine, 229

Striatum, rat, adenylate cyclase in, in structure activity studies on dopamine receptors, 452P

Strontium, effect of, on normal and reserpine-treated cat isolated spleen strip in calcium-free solution, potentiation of, by cocaine, 329

Strychnine, effect of, on effect of amino acids on spontaneous action potentials in cerebellar cortex slices, 3

Substance P, effect of, on dorsal horn units, 435P

Substrate-stimulated efflux, kinetics of, 86

Sulphinpyrazone, effect of, on thrombocytopenia occurring in Arthus reaction in guinea-pig, 441P

Sulphydryl groups, role of, in prevention by zinc of cadmium-induced alterations in pancreatic and hepatic functions, 573

Supersensitivity, induced by cocaine, role of calcium in, 329

Sympathectomy, effect of, on vasodilatation elicited by stimulation of depressor nerves in rabbit, 375

Sympathetic activity, peripheral vascular effects of clonidine independent of a reduction in, 448P

Sympathomimetic amines, effect of, on ^{45}Ca efflux from liver slices, 158

Sympathomimetic effect, indirect, of 5-HT on isolated heart of rabbit, 115

Synapse, neurosecretory, actions of compounds related to dopamine at, 133

Synaptic activity, afferent, noradrenaline modulation of responses of cerebellar Purkinje cell to, 603

Synaptosomes, rat whole brain, indirect and direct inhibition of dopamine- β -hydroxylase by amphetamine in, 223

T

Tachyphylaxis, effect of 2,5-dimethoxy-4-methylamphetamine on, in rat colon, 547

—, to 5-HT, in rabbit isolated heart, 115

Taenia caecum, guinea-pig, isolated, identification of separate receptors for adenosine and adenosine-5'-phosphate in causing relaxations of, 305

Taurine, effect of, on spontaneous action potentials in cerebellar cortex slices, 3

—, effect of, on morphine-induced contractions in rat isolated colon, 444P

—, effect of, on cholinceptive neurones in rat brain stem, 599

Temazepam, plasma concentration of, in monkey after intraperitoneal injection, 427P

—, see 3-hydroxydiazepam, 428P, 429P

Tension development, effect of ionophore X-537A on, in potassium-depolarized muscle fibres, 565

Terbutaline, potency of, on isolated guinea-pig trachea and blood vessels, 369

—, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate in anaesthetized cat, 235

Tertiary butyl noradrenaline, potency of, on isolated guinea-pig trachea and blood vessels, 369

Testosterone, absorption and metabolism of, administered intratracheally to rat isolated lungs, 422P

Tetrachloroethanes, toxicology of, 421P

Tetracyclines, further studies on depressant action of, plus ascorbic acid on rabbit ear artery, 455P

Tetrodotoxin, effect of, on morphine-induced contractions in rat isolated colon, 444P

—, effect of, on action of piperazine on frog spinal cord, 347

—, modification by, of response of rat anococcygeus muscle to stimulation of individual extrinsic nerves, 434P

—, heart preparations treated with, blockade by burimamide of restoration effect of histamine in, 247

—, effect of, on sympathomimetic effect of 5-HT, and DMPP on rabbit isolated heart, 115

Thrombocytopenia, effect of sulphinpyrazone on, in Arthus reaction in guinea-pig, 441P

Thromboxane A₂, effects of, on strips of rabbit coeliac artery, 462P

Thymoxamine, effect of, on peripheral effects of fenfluramine, 185

Tone, and prostaglandins in isolated strips of mammalian bladder, 464P

Torpedo marmorata, electric organ of, use of nicotinic receptor-rich fraction from, 17

Trachea, guinea-pig, effect of purine derivatives on, and interaction with drugs that block adenosine uptake, 51

Trachea-blood vessel selectivity, of β -adrenoceptor stimulants *in vitro* in guinea-pigs, contribution of extra-neuronal uptake to, 369

Tranlycypromine, locomotor activity produced by, involvement of 5-HT in, 141

Tremor-enhancing properties, of β -adrenoceptor agonists, 235

Tricyclic antidepressants, effects of, on arterial [^3H]-NA uptake and arterial responsiveness to noradrenaline, 432P

Trimetoquinol, β -adrenoceptor agonist potency of, in bronchial muscle, soleus muscle, blood pressure and heart rate of anaesthetized cat, 235

Tryptamine, as substrate to measure MAO activity in post-natal development, 279

Tryptophan metabolism, in isolated perfused liver of rat, effects of tryptophan, hydrocortisone and allopurinol on tryptophan pyrrolase activity and kynurenine formation, 103

Tryptophan pyrrolase activity, in rat isolated perfused liver, effect of tryptophan, hydrocortisone and allopurinol on, 103

Tubocurarine chloride, modification by, of response of rat anococcygeus muscle to stimulation of individual extrinsic nerves, 434P

Turning behaviour, effect of morphine on, in rats and mice with unilateral 6-hydroxydopamine lesions, 456P

Tyramine, effect of, on peripheral effects of fenfluramine, 185

- , comparison of effect of, with sympathomimetic effect of 5-HT on rabbit isolated heart, 115
- , as substrate to measure MAO activity in postnatal development, 279
- , effect of, on morphine-induced contractions in rat isolated colon, 444P

U

- Uterus**, rat, receptors for oxytocin in, correlation between antagonist potency and receptor binding, 381
- , rat, prostaglandin release from, effects of metyrapone on, 465P

V

- Vagotomy**, has no effect on aspirin-induced bronchoconstriction in guinea-pig lungs, 495
- Vas deferens**, mouse, effects of morphine on release of noradrenaline from, 551
- , mouse, excitatory junction potentials in, depression by morphine of, 341
 - , motor transmission in, of guanethidine-treated guinea-pigs, 454P
- Vascular bed**, hepatic arterial, in dog, vasodilator actions of isoprenaline, histamine, prostaglandin E₂, glucagon, and secretin on, 581
- , hepatic arterial, of dog, inhibition by glucagon of vasoconstrictor actions of noradrenaline, angiotensin and vasopressin on, 93
 - , hepatic arterial, of dog, β -adrenoceptors in, 451P
- Vascular effects**, peripheral, of clonidine independent of a reduction in sympathetic activity, 448P
- Vascular resistance**, arterial hepatic, dog, effect of isoprenaline, histamine, prostaglandin E₂, glucagon and secretin on, 581

- Vasculature**, hepatic arterial, responses of, to vasodilator agents, influence of glucagon on, 473P
- Vasoactive lipids and polypeptides**, involvement of, in anaphylactic response of ileal circular smooth muscle in chick, 399
- Vasoconstriction**, hepatic, inhibition by glucagon, in hepatic arterial vascular bed of dog, 93
- Vasodilatation**, reflex, elicited by stimulation of depressor nerves in rabbit, cholinergic component in, 375
- Vasodilator actions**, of isoprenaline, histamine, prostaglandin E₂, glucagon and secretin on hepatic arterial vascular bed of dog, 581
- Vasodilator agents**, influence of glucagon on responses of hepatic arterial vasculature to, 473P
- Vasopressin**, vasoconstrictor actions of, on hepatic arterial bed, inhibition of, by glucagon, 93
- , desensitization of rat aortic strip to, by infusions of noradrenaline, 458P
- Ventricular extrasystoles**, a simple and inexpensive device for *in vivo* detection and counting of, 471P
- Voltage clamp**, use of, to study effect of quinidine on membrane electrical activity in frog auricular fibres, 163

X

- X-537A**, effect of, on desensitization rate and tension development in potassium-depolarized muscle fibres, 565

Z

- Zinc**, prevention by, of cadmium-induced alterations in pancreatic and hepatic functions, 573
- Zwitterion formation**, and phenolic amines, 501

INSTRUCTIONS TO AUTHORS

Papers will be considered for publication on all aspects of drug action, including chemotherapy. A recent issue of the Journal is a good guide to style.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh, EH8 9JZ, from whom copies of the full Instructions to Authors, published in *Br. J. Pharmac*, **50**, 3-23, may also be obtained. Specific points to note are:

1. **Manuscript** should be typed in double spacing on one side of paper not larger than A4 (206 x 294 mm). There should be a separate title page giving the names and addresses of the authors in alphabetical order. A short title of not more than 50 letters should also be suggested.
2. **Statement** Papers are accepted only if accompanied by a statement that they have not been and will not be published in whole or in part in any other Journal.
3. **Summary** (2 copies) This should be a short summary of results and conclusions arranged in numbered paragraphs.
4. **Abstract** (2 copies) An abstract of about 100 words suitable for inclusion in an abstracting journal should be typed on a separate sheet, giving the author's name and address and the title of the paper.
5. **Figures** These should not be larger than A4 (206 x 294 mm) and may be in the form of original drawings, recorded tracings or high quality photographic prints made from them. Negative prints of kymograph tracings (black on white) should be provided, and both ordinates and abscissae should be calibrated. Lettering on figures should be inserted in pencil. Symbols which are to appear in figures or legends should be chosen from the following:

○ ● □ ■ △ ▲ ▽ ▼

Photographs and photomicrographs should be printed on glossy paper and should be larger than the size required for reproduction.

6. **Tables** These should not have more than 85 characters to a line (counting spaces between columns as 4 characters) and certainly not more than 110 characters to a line, unless absolutely unavoidable. **Figure legends** and **tables** should be typed on separate sheets of paper.
7. **References** These should be collected in alphabetical order at the end of the paper. They should include the authors' names, year of publication (in brackets), title of article, title of publication (abbreviated in accordance with the fourth edition of the *World List of Scientific Periodicals*), volume number and first and last page numbers. References to books should in addition, include the names of editors, the edition number, where appropriate, and the town of origin and name of publisher.

Two page proofs will be supplied, one of which may be retained by the authors. The other should be corrected immediately and returned to the Press Editor. Corrections should be kept to a minimum.

Twenty-five reprints will be supplied to the authors free of charge. Additional reprints can be purchased. A reprint order form, which should be returned promptly, will be sent out with the proofs. No reprints of abstracts are supplied.

Short Communications These may be accepted if they merit priority publication and do not require revision. They may contain up to 1,200 words of text and only one figure or table. The summary should be a single paragraph. An abstract and statement should be included.
