

Edited for the British Pharmacological Society by

A.W. Cuthbert (*Chairman*) A. Ungar (*Secretary*)
Margaret Day (*Press Editor*)
J.D. Stephenson (*Assistant Press Editor*)

W.G. Bisset	B.J. Large
T.B. Bolton	G.M. Lees
D.A. Brown	G.P. Lewis
B.A. Callingham	I.H.M. Main
T.J. Crow	K. Martin
F. de Matteis	D.F.J. Mason
V. Eisen	E.K. Matthews
E.W. Gill	P.A. Nasmyth
A.F. Green	J.R. Parratt
A.R. Green	C.D. Richards
Margarethe Holzbauer	M. Sandler
J. Hughes	A.P. Silverman
R. Jones	M.A. Simmonds
J.S. Kelly	R.A. Webster

Papers will be considered for publication on all aspects of drug action, including chemotherapy.

Manuscripts (two copies) should be sent to Dr A. Ungar, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh EH8 9JZ. Authors should consult the instructions inside the back cover.

The British Journal of Pharmacology is published monthly by Macmillan Journals Ltd, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633. ISSN 0007-1188.

Annual subscription UK £52.50; USA & Canada, US \$115; Rest of world, US \$105; Airmail, US \$140 (or equivalent in any other currency). (Orders must be accompanied by remittance. Prices correct at time of publication.)

Cheques should be made payable to Macmillan Journals Limited: Subscription Department, Brunel Road, Basingstoke, Hampshire RG21 2XS, England.

Enquiries concerning advertising space and rates should be addressed to: Advertisement Department, Macmillan Journals Limited, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

SUBJECT INDEX

A

- A23187**, effect of divalent cations on lysosomal enzyme release from macrophages incubated with, 452P
- AH 10407**, pharmacological and certain chemical properties of, an unusually short-acting competitive neuromuscular blocking drug, 47
- AH 11056**, comparison of pharmacological properties of, with those of a close analogue AH 10407, 47
- AH 11244**, comparison of pharmacological properties of, with those of a close analogue AH 10407, 47
- Acetazolamide**, and the renal adenylate cyclase system, 657
- Acetylcholine**, evoked release of, estimate of the equilibrium dissociation constant for calcium as an antagonist of, 691
- , contractions produced by, role of extracellular calcium in, in chronically denervated muscle, 627
 - , contraction induced by, effect of vasoactive substances on, in cat gastrocnemius, 587
 - , effect of, on mechanism of action of narcotic analgesics in guinea-pig ileum, 541
 - , effect of, on *in vivo* and *in vitro* responses of cat lung during anaphylaxis, 533
 - , effect of, on action of catechol on convulsive activity in mouse, 433
 - , does not mediate responses of guinea-pig myometrium to certain amino acids, 217
 - , effect of atropine on acid secretion stimulated by, in isolated whole stomach of the rat, 279
 - , effects of, on normal and morphine-pretreated guinea-pig ileum, 271
 - , electrocortical changes induced by perfusion of, and its antagonists directly into the dorsal raphe nucleus of the cat, 297
 - , inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189
 - , possible essential synaptic transmitter in pathway for reflex milk ejection, 123P
- β -N-acetyl-glucosaminidase**, see lysosomal enzyme, 452P
- Acetylthiocholine**, effect of, on electrocardiogram of dogs suffering from cardiotoxicity caused by digoxin, 409
- Adenosine diphosphatase**, potentiation of, activity of aortic rings by PG synthetase inhibitors and PGE₁, 449P
- , platelet aggregation induced by, inhibited by a stable analogue of ATP, 87
 - , effect of prostacyclin on formation of platelet thrombi induced by, 137P
- Adenosine 3',5'-monophosphate**, effect of acetazolamide and parathyroid hormone on a mechanism dependent on, 657
- , cardiac levels, effect of noradrenaline on, 381
- Adenosine 3',5' monophosphate phosphodiesterase**, effects of alloxanate, nicotinic acid and imidazole on, activity in cat pancreas, 243
- Adenosine triphosphate**, differentiation of neurogenic inhibition from responses to, in guinea-pig taenia caeci, 113P
- , effect of inhibitors of histamine release on content of, in rat mast cells in complete or glucose-free medium, 237
 - , inhibition of platelet aggregation by ADP by a stable analogue of, 87
 - , relative insensitivity of guinea-pig urinary bladder to, in presence of atropine, 464P
- Adenylate cyclase**, effects of alloxanate, nicotinic acid and imidazole on, activity in cat pancreas, 243
- Adenylate cyclase system**, renal, and the effect of diuretics, 657
- Adipose tissue**, effect of anti-inflammatory drugs on the prostaglandin system in human subcutaneous, 446P
- Adrenalectomy**, did not prevent rise in hypothalamic adrenaline after stimulation of the medial forebrain bundle, 5
- Adrenal gland**, long-term propranolol treatment reduces weight of, in spontaneously hypertensive rats, 318
- Adrenaline**, cardiovascular responses to centrally administered, in spontaneously hypertensive rats, 130P
- , effect of temperature on potency of, in frog ventricle, 167
 - , electrocortical changes induced by perfusion of, directly into the dorsal raphe nucleus of the cat, 297
 - , human adipose tissue stimulated by, synthesizes prostaglandins during lipolysis, 446P
 - , hypothalamic synthesis of, after stimulation of the medial forebrain bundle, 5
 - , long-term propranolol treatment reduces adrenal level of, in spontaneously hypertensive rats, 318
- (-)-Adrenaline**, effect of, on *in vivo* and *in vitro* responses of cat lung during anaphylaxis, 533
- , inhibition of [³H]-dihydroalprenolol binding to rat lung membranes by, 459P
- Adrenergic nerve terminals**, effect of uptake by, on sensitivity of arterial vessels to topically applied noradrenaline, 429
- Adrenergic neurones**, effects of blockers of, on vascular response to sympathetic nerve stimulation, 460P
- Adrenergic transmission**, use of rat atria a simple and sensitive *in vitro* preparation for detecting pre-synaptic actions of drugs on, 157P
- Adrenoceptors**, cardiac, at low temperature and the inter-conversion hypothesis, 167
- α -Adrenoceptors**, characterization of, which mediate clonidine-induced sedation, 468P
- , differential effects of prazosin on pre- and postsynaptic, in rat and dog, 469P
 - , evidence for two distinct types of postsynaptic, 116P
 - , relationship between presynaptic, stimulation frequency and calcium, 128P
 - , temperature and the conversion of β -adrenoceptors to, in frog and rat hearts, 167
 - , pre- and postsynaptic, effects of clonidine, naphazoline and oxymetazoline on, in pithed rat, 559
- β -Adrenoceptors**, in pigment cells of *Xenopus* embryos, 607
- , characteristics of (-)-[³H]-dihydroalprenolol binding to, on rat lung membranes, 459P
 - , classification of, which mediate inhibition of pentagastrin-induced gastric acid secretion in the dog, 462P

- , temperature and conversion of, to α -adrenoceptors in the frog and rat hearts, 167
- α - and β -Adrenoceptors**, effect of noradrenaline on, in mouse vas deferens, 649
- α -Adrenoceptor agonist**, ergometrine is a pre-synaptic, 129P
- α -Adrenoceptor blockers**, effect of, on vascular responses to sympathetic nerve stimulation, 460P
- β -Adrenoceptor blockers**, investigation of bronchoconstriction induced by, in guinea-pigs and rats, 469P
- β -Adrenoceptor stimulant**, assessment of selectivity of OPC-2009, a new, 9
- β -Adrenoceptor stimulant properties**, of OPC-2009 on guinea-pig isolated tracheal, left and right atrial preparations, 513
- α - and β -Adrenoceptor blocking drugs**, action of, on effect of catechol on convulsive activity in anaesthetized mouse, 433
- Aggressive behaviour**, rapid eye movement sleep, cannabis, catecholamines, 371
- Alarm/timer**, a versatile laboratory, 503P
- 5-Alkyl-picolinic acids**, effects of, on isolated aorta of the rabbit, 263
- Alloxanate**, effects of, on secretory processes and activities of adenylate cyclase and cyclic AMP phosphodiesterase in cat pancreas, 243
- Allylglycine**, effect of, on cerebral glutamic acid decarboxylase activity and convulsions in mice, 477P
- Alphadolone**, and alphaxalone, effect of suxamethonium on mice, after anaesthesia with, 486P
- Alphaxalone**, and alphadolone, effect of suxamethonium on mice, after anaesthesia with, 486P
- , and alphadolone, effects of, on blood pressure, cardiac output and its distribution, 126P
- Althesin**, enhances effects of noradrenaline and attenuates effects of sympathetic nerve stimulation of rabbit cardiovascular system, 199
- Amino acids**, spasmogenic and potentiating actions of some, on guinea-pig myometrium, 217
- 2-Amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene**, uptake of, into rat brain synaptosomes, 478P
- Amino-oxyacetic acid**, effect of, on action of catechol on convulsive activity in mouse, 433
- γ -Aminobutyric acid**, assessment of anticonvulsant activity of inhibitors of uptake of high-affinity, 476P
- , effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- , effects of chronic (\pm)-propranolol on, and catecholamines in rat striatum, 152P
- , antagonists of, interactions of, on isolated frog spinal cord, 484P
- , effect of manipulating pallidal and nigral, on striatally mediated head-turning in rat, 483P
- , analogues of, *in vivo* effects of GABA uptake inhibitors on response of cat spinal neurones to, 148P
- , inhibitors of uptake of, *in vivo* effects of, on response of cat spinal neurones to GABA analogues, 148P
- , mimetic action, of etomidate, 484P
- cis-1,3-Aminocyclohexane carboxylic acid**, effect of pretreatment with, on GABA uptake following 3-mercaptopropionic acid in mice, 476P
- 3 α -Amino-2 β -hydroxy-5 α -androstan-17-one hydrochloride**, see Organon 6001, 457P
- Aminophylline**, effect of, on vascular response to sympathetic nerve stimulation, 460P
- Amitriptyline**, comparison of effect of, with that of mianserin on monoamine uptake, 307
- , simple model for detecting, in olfactory bulbectomized rat, 497P
- , modification by, of plasma corticosterone levels in stressed bulbectomized rats, 144P
- Amphetamine**, comparison of discriminative stimulus properties of, and cocaine in rats, 415
- , chronic administration of, and central dopamine receptor sensitivity, 142P
- , potency of, in taste aversion in rats, 669
- , electrocortical desynchronization induced by, presynaptic site of action within mesencephalic reticular formation for, 331
- , effect of, on action of catechol on convulsive activity in mouse, 433
- , comparison of effect of, with that of mianserin on monoamine uptake, 307
- , effects of, on monoamine oxidase activity of human left ventricles *in vitro*, 470P
- Amphibian pigment cells**, single, action of melatonin on, in tissue culture, 607
- Amylase**, activity of, in rat pancreas following chronic administration of D-penicillamine, 120P
- , comparative inhibitory effects of QNB and atropine on release of, from rat pancreas, 97
- Anaesthetic agents**, intravenous, interactions between, and suxamethonium in mice, 486P
- Anaesthesia**, effects of pentobarbitone and chloralose, on vagal component of histamine-induced bronchoconstriction in the dog, 251
- , effects of sodium cromoglycate on reflex bronchoconstriction induced by histamine in the dog under, 257
- Anaesthetics**, effects of four general, on regional distribution of cardiac output in the rat, 126P
- , effects of intravenous, on rabbit cardiovascular system, 199
- , metabolism of bupivacaine in the rat, 135P
- Analgesia**, following intravenous administration of enkephalin analogues, 481P
- Analgesics**, narcotic, mechanism of action of, in guinea-pig ileum, 541
- Anaphylaxis**, slow-reacting substance of, IgG₁-induced release of, possible modulatory role for prostacyclin in, 697
- , effect of catecholamines on *in vivo* and *in vitro* responses of cat lung during, 533
- Angiotensin**, effect of, on effect of vasoactive substances on blood flow and contractile responses of cat gastrocnemius, 587
- , level of response of rat descending colon to, depends on presence of calcium, 117P
- Anococcygeus muscle**, accumulation of [³H]-corticosterone by rat isolated, 122P
- , effect of some agonists and antagonists of dopamine on rat, *in vitro*, 471P
- Anticonvulsants**, assessment of activity as, of inhibitors of high-affinity GABA uptake, 476P
- Antidepressant drugs**, modification by, of plasma corticosterone levels in stressed bulbectomized rat, 144P
- Antidepressant potential**, drugs with, simple model for detecting, in rats with olfactory bulbectomy, 497P
- Antidepressant**, effects of mianserin, a new, on *in vitro* and *in vivo* monoamine uptake, 307
- Antihypertensive agent**, BRL 13776, with interesting monoamine depleting properties, 357

Anti-inflammatory properties, studies on, of dapsone in a variety of animal models, 508P

Aorta, ADP-ase activity in rings from rabbit thoracic, 449P

—, relaxation of isolated, of the rabbit by picolinic acids, 263

Apnoea, effect of suxamethonium on, after anaesthesia, 486P

Apomorphine, effect of, on effect of cannabis on rats, 371

—, effect of, on action of catechol on convulsive activity in mouse, 433

—, effect of, on circling behaviour in rat, 482P

—, effects of atropine and pimozide on hypothermia induced by, in rats, 509P

—, effect of, and its *N*-propyl homologue on ethanol withdrawal head twitches in mice, 700

—, comparison of responses of rabbit hearts to 5-HT dimethylphenylpiperazinium and electrical stimulation in presence of, 467P

—, injected into the preoptic anterior hypothalamus causes changes in core and peripheral temperature, 83

—, response of rat anococcygeus muscle to, 471P

Aprotinin, effect of, on plasma exudation in inflammation, 447P

—, effect of, on plasma kininase levels in cattle during acute infection with *Babesia bovis*, 567

Arachidonic acid, effect of short wavelength ultraviolet C irradiation on concentration of, in human skin, 445P

16-Aryloxy analogues, of prostaglandin $F_{2\alpha}$, effect of, on preparations responsive to prostaglandin endoperoxidases, 694

Ascaris antigen, cat lung sensitized to, effect of catecholamines on, 533

Aspirin, modification by, of haemodynamic and prostaglandin-releasing effects of *E. coli* endotoxin in the dog, 175

—, potentiates ADP-ase activity in aortic rings, 449P

(±)-Atenolol, inhibition of [3H]-dihydroalprenolol binding to rat lung membranes by, 459P

Atria, left and right, guinea-pig isolated, β -adrenoceptor stimulant properties of OPC-2009 on, 513

—, rat, use of, as a simple and sensitive *in vitro* preparation for detecting pre-synaptic actions of drugs on adrenergic transmission, 157P

Atropine, comparative inhibitory effects of QNB and, on amylase release from rat pancreas, 97

—, effect of, on acid secretion stimulated by acetylcholine, histamine and gastrin in isolated whole stomach of the rat, 279

—, effect of, on milk-ejection reflex in the lactating rat, 123P

—, inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189

—, partially antagonizes electrically-evoked contractions of human bladder strips, 115P

—, pretreatment with, has no effect on 5-alkyl-picolinic acid induced relaxations of rabbit isolated aorta, 263

—, relative insensitivity of guinea-pig urinary bladder to ATP in presence of, 464P

—, effect of, on hypothermia induced by apomorphine or oxotremorine in rats, 509P

—, structure-activity relationship of, for action on 5-hydroxytryptamine receptors on sympathetic nerves of rabbit heart, 499P

—, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433

Atropine sulphate, effect of, on bronchoconstriction in guinea-pigs and rats, 469P

Aversive potency, of amphetamine, fenfluramine and related compounds in taste aversion experiments, 669

Avoidance response, conditioned, effect of vinblastine sulphate on acquisition of, in goldfish, 153P

1,1'-Azobis[3-methyl-2-phenylbenzimidazolinium]-dimethanesulphonate, see AH 10407

B

BRL 13776, a novel antihypertensive agent with interesting monoamine depleting properties, 357

Babesia argentina, acute infection with, in cattle, levels of kinin, kininogen and kininase during, 567

Babesia bovis, acute infection with, in cattle, levels of kinin, kininogen and kininase during, 567

Basal ganglia, a method for investigating neurotransmission in, using combined stimulation and intracerebral drug injection, 488P

Baseline, influence of, on size of pharmacological responses: a theoretical model, 492P

Behaviour, effects of piracetam on aspects of, in rats, 475P

—, effect of sotalol and (+)-, (±)- and (-)-propranolol on aspects of, in *Macaca mulatta*, 474P

—, climbing, in mice, quantitative assessment of, 495P

—, turning, lack of serotonergic involvement in, induced by unilateral lesion of locus coeruleus in rats, 482P

Behavioural effects, in animals, effect of BRL 13776 on, 357

Benzadole, effect of, on vascular response to sympathetic nerve stimulation, 460P

1,4-Benzodiazepines, behavioural and pharmacokinetic studies with, in monkey, 325

Benzhexol, inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189

Benzylamine, as a substrate for monoamine oxidase activity in human left ventricles *in vitro*, 470P

[^{14}C]-Benzylamine, as a substrate for selective inhibition of monoamine oxidase by mexiletine, 118P

***N*-Benzyl-L-valine**, effects of, on contractions of guinea-pig myometrium *in vitro*, 109

Bethanecol, effect of, on milk-ejection reflex in the lactating rat, 123P

Bicuculline, effect of, on responses of isolated frog spinal cord to GABA, 484P

—, effect of, on response of postsynaptic neurones to etomidate, 484P

Bilayer membranes, dependence on buffer partition coefficient of pentobarbitone at, on pH and lipid composition, 57

Bile, cholesterol and acid levels of, during treatment of male mice with lithocholic acid, 133P

Bile salt, gastric mucosal erosions induced by, inhibition of, by 16,16 dimethyl prostaglandin E_2 in rat, 139P

Bladder, evidence against purinergic motor transmission in guinea-pig urinary, 464P

—, pharmacology of electrically evoked contractions of human, 115P

—, temperature-dependent effects of autonomic drugs on response of guinea-pig isolated, to parasympathetic stimulation, 115P

Blood, aspirin and indomethacin without effect on coagulation parameters for, following endotoxin, 175

Blood flow, effect of vasoactive substances on, of cat gastrocnemius, 587

Blood pressure, changes in response to centrally administered adrenaline in spontaneously hypertensive rats, 130P

- , changes in, resulting from actions of certain gastrointestinal hormones and metoclopramide on dopamine receptors, 124P
- , effects of four general anaesthetic agents on, in the rat, 126P
- , indomethacin protects against fall in, following endotoxin, 175
- , long-term propranolol treatment reduces, in spontaneously hypertensive rats, 318
- , lowered by dimaprit in anaesthetized cats, dogs, rats and rabbits, 101
- , effect of saxitoxin on, in cerebrospinal fluid, 679
- , effect of labetalol on, in conscious normotensive rats, 505P
- , effects of prostaglandin endoperoxide analogues on, studied in dog during left ventricular bypass, 395
- , in rats, effect of BRL13776 on, 357

Blood vessels, mesenteric, effect of tetrabenazine on catecholamine-induced fluorescence in, 339

- , cat nasal, a method for studying process of neuroeffector transmission in, 551
- , arterial, effect of uptake by adrenergic nerve terminals, on sensitivity of, to topically applied noradrenaline, 429

Bradycardia, centrally administered adrenaline induces, in spontaneous hypertensive rats, 130P

Bradykinin, action of, on isolated rat whole uterus and longitudinal myometrial strip, 506P

- , effect of, on blood flow and contractile responses of cat gastrocnemius, 587
- , and bradykinin potentiating peptide, effects of, on electrical and mechanical responses of guinea-pig taenia coli, 523

Bradykinin potentiating peptide, effect of, on electrical and mechanical responses of guinea-pig taenia coli, 523

Brain, a model to test relative potencies of phosphodiesterase inhibitors in *in vivo*, 119P

- , hypothalamic adrenaline synthesis after stimulation of the medial forebrain bundle, 5
- , possible thermoregulatory role for central dopamine receptors, 83
- , selective antinociceptive effects of morphine administered in the region of the substantia gelatinosa, 65
- , uptake and acetylation of choline in rat, 111P
- , distribution of leucine-enkephalin and methionine-enkephalin in, 639

Brain stem, stimulation of, correlation between, and effects of 5-hydroxytryptamine and noradrenaline on nociceptive and non-nociceptive spinal interneurons, 149P

Brain stem neurones, effect of etorphine on, in rat, 480P

- , microiontophoretic study of enkephalin and enkephalin analogues on, in rat, 147P

Breathing, effect of saxitoxin on, in cerebrospinal fluid, 679

Bretylium, effect of, on vascular response to sympathetic nerve stimulation, 460P

British Pharmacological Society, Newcastle upon Tyne, 13–15 July, 1977, 111–159P

- , Manchester, 7–9 September, 1977, 445–510P

Bromocriptine, effect of, on rat anococcygeus muscle and its response to noradrenaline, 471P

Bronchoconstriction, effects of pentobarbitone and

chloralose anaesthesia on vagal component of, induced by histamine aerosol in the dog, 251

- , investigation of, induced by β -adrenoceptor blockers in guinea-pigs and rats, 469P

Bulbectomy, bilateral, ability of local injections of 6-OHDA, 5,6-DHT and 5,7-DHT into olfactory bulbs, to mimic, in rat, 145P

- , in rats, effect of, on modification by antidepressant drugs of plasma corticosterone levels, 144P
- , olfactory, in rat, simple model for detecting drugs with antidepressant potential, 497P

Bupivacaine, metabolism of, in the rat, 135P

N-n-butylpipecolylxylidide, *see* bupivacaine, 135P

C

Caecum, differentiation of neurogenic inhibition from ATP responses in guinea-pig taenia, 113P

Calcium, effect of, on acid secretion by isolated rat gastric mucosa, 124P

- , effect of, on release of lysosomal enzyme from macrophages, 452P
- , influence of ionic, on contractility of ouabain in isolated left atria of the guinea-pig, 19
- , levels of, and of cyclic AMP in relation to the response of rat descending colon to angiotensin, PGE₂ and potassium chloride, 117P
- , produces outflow of noradrenaline from totally depolarized rat vas deferens, 183
- , relationship between presynaptic α -adrenoceptors, and stimulation frequency, 128P
- , reverses inhibition of histamine release from rat peritoneal mast cells by non-steroid anti-inflammatory drugs, 229
- , stimulates ATPase activity in rat pancreas following chronic administration of D-penicillamine, 120P
- , role of extracellular, in contractions produced by acetylcholine in chronically denervated muscle, 627
- , an estimate of the equilibrium dissociation constant for, as an antagonist of evoked acetylcholine release, 691

Calcium chloride, cardiostimulation with, coronary reactions to, 381

Calcium ion, effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607

Cannabis, catecholamines, rapid eye movement, sleep and aggressive behaviour, 371

Carbachol, effect of, on milk-ejection reflex in the lactating rat, 123P

- , inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189

—, reverses endotoxin fever in young chickens following intrahypothalamic injection, 39

CO₂ responsiveness, effect of saxitoxin on, in cerebrospinal fluid, 679

Carbonic anhydrase, renal, effect of acetazolamide and parathyroid hormone, 657

Cardiac cycle, ORG 6001 reduces ST-segment elevation produced by coronary occlusion in the dog, 315

Cardiac glycosides, model for interaction of, with ATPase, 423

Cardiac hyperactivity, coronary reaction to, in isolated perfused rat heart, 381

Cardiostimulation, with noradrenaline, calcium chloride or electrically induced tachycardia, coronary reactions to, 381

- Cardiotoxicity**, transient changes in concentration of plasma digoxin and, 409
- Cardiovascular actions**, of prostacyclin in chloralose anaesthetized dogs, 136P
- Cardiovascular effects**, of labetalol, in conscious normotensive rats, 505P
- Cardiovascular system**, effects of intravenous anaesthetics on rabbit, 199
- , responses of, to centrally administered adrenaline in spontaneously hypertensive rats, 130P
- Carotid artery**, chemoreceptor reactivity to O₂, effect of saxitoxin on, in cerebrospinal fluid, 679
- Castration**, effects of, on mechanical response to motor nerve stimulation of rat vas deferens, 473P
- Catechol**, pharmacological study of spontaneous convulsive activity induced by, in anaesthetized mouse, 433
- Catecholamines**, role of, in action of catechol, 433
- , effect of, on *in vivo* and *in vitro* responses of cat lung during anaphylaxis, 533
- , effect of BRL 13776 on levels of, in hypertensive rats, 357
- , histofluorescence induced by, effect of tetrabenazine on, 339
- , cannabis, rapid eye movement sleep and aggressive behaviour, 371
- , depletion of, by reserpine, effect of on coronary reactions, 381
- , effects of chronic (±)-propranolol on, and GABA in rat striatum, 152P
- Cattle**, acute infection of, with *Babesia bovis*, levels of kinin, kininogen and kininase during, 567
- Centrally-active drugs**, a new group of, xanthene-spiropiperidines, 146P
- Cerebral cortex**, slices of, uptake systems for (–)-2,4-diaminobutyric acid in rat, 477P
- Cerebrospinal fluid**, respiratory and circulatory effects of saxitoxin in, 679
- Cervix**, rat, changes in extensibility of, in late pregnancy produced by prostaglandin F_{2α}, ovariectomy and steroid replacement, 501P
- Chemoreceptor reactivity to O₂**, carotid arterial, effect of saxitoxin on, in cerebrospinal fluid, 679
- Chloralose**, effects of anaesthesia with, on vagal component of bronchoconstriction induced by histamine aerosol in the dog, 251
- , dogs anaesthetized with, cardiovascular actions of prostacyclin in, 136P
- Chlordiazepoxide**, assessment of effectiveness of, to substitute for morphine, in opiate-dependent rhesus monkey, 489P
- , simple model for detecting, in olfactory bulbectomized rat, 497P
- Chlorimipramine**, comparison of effect of, with that of mianserin on monoamine uptake, 307
- p-Chloromethamphetamine**, potency of, in taste aversion in rats, 669
- α-Chlorohydrin**, antifertility mode of action of, and interaction with glyceraldehyde-3-phosphate-dehydrogenase, 456P
- , toxicological aspects of, as male antifertility compounds, 455P
- p-Chlorophenylalanine**, effect of, on turning behaviour induced by unilateral lesions of rat locus coeruleus, 482P
- 3-Chloro-1,2-propanediol**, *see* α-chlorohydrin, 455P
- Chlorphentermine**, potency of, in taste aversion in rats, 669
- Chlorpromazine**, enhancement of hypothermia induced by, by lesions in the anterior hypothalamus, 77
- , simple model for detecting, in olfactory bulbectomized rat, 497P
- , assessment of effectiveness of, to substitute for morphine in opiate-dependent rhesus monkey, 489P
- Cholecystokinin**, effects of, on cardiovascular dopamine receptors in the rat, 124P
- Cholesterol**, biliary levels of, during treatment of male mice with lithocholic acid, 133P
- Choline**, activation of high-affinity uptake of, in sympathetic ganglia by potassium depolarization, 112P
- , uptake and acetylation of, in rat brain, 111P
- Choline acetyltransferase**, ontogenesis of multiple forms of, uptake and acetylation of choline in rat brain, 111P
- Chromatography**, capillary column gas, estimation of plasma nicotine by, 159P
- Cimetidine**, antagonizes depressor and vasodilatory responses to dimaprit, 101
- , effect of, on sleep produced by clonidine, 441
- Circulation**, response of peripheral, to dimaprit, 101
- Circulatory effects**, of saxitoxin in the cerebrospinal fluid, 679
- , of prostaglandin endoperoxide analogues studied in dog during left ventricular bypass, 395
- Circling behaviour**, lack of serotonergic involvement in, induced by unilateral lesion of locus coeruleus in rat, 482P
- Climbing behaviour**, in mice, quantitative assessment of, 495P
- Clonidine**, comparison of effects of, on responses of rabbit heart to 5-HT, dimethylphenylpiperazinium and electrical stimulation, 467P
- , comparison of effects of phentolamine and prazosin on pre- and postsynaptic effects of, 469P
- , pharmacological characterization of α-adrenoceptors which mediate sedation induced by, 468P
- , twitch inhibitory effect of, in mouse vas deferens varies according to stimulation frequency and calcium concentration, 128P
- , sleep produced by, and histamine receptors in brain, 441
- , effect of, on effect of cannabis on rats, 371
- , inhibitory effects of, on responses to sympathetic nerve stimulation in pithed rat, 559
- , pre-synaptic action of, use of rat atria for detecting, on adrenergic transmission, 157P
- Clorazepate**, behavioural and pharmacokinetic studies in monkey with, 325
- Clorgyline**, effects of, on monoamine oxidase activity of human left ventricles *in vitro*, 470P
- Cocaine**, comparison of 5-HT blocking action of, with that of lignocaine, 130P
- , effect of, on cardiac responses to sympathetic stimulation, intravenous noradrenaline and to tyramine, 472P
- , effect of, on dose-response curve of rat anococcygeus muscle to noradrenaline and dopamine, 471P
- , effect of pretreatment with, on interaction of prazosin with noradrenaline, 116P
- , selective blockade of presynaptic tryptamine receptors by (–) and (+), 130P
- , effect of, on neuroeffector transmission in cat nictitating membrane and blood vessels, 551
- , effect of, on effect of uptake by adrenergic nerve

- terminals on sensitivity of arterial vessels to topically applied noradrenaline, 429
- , comparison of discriminative stimulus properties of, and amphetamine in rats, 415
 - , effect of, on inhibitory role for noradrenaline in mouse vas deferens, 649
 - , potency of, in taste aversion in rats, 669
- (+) and (–)-Cocaine, structure-activity relationship of, for action on 5-hydroxytryptamine receptors of sympathetic nerves of rabbit heart, 499P
- Codeine phosphate**, assessment of effectiveness of, to substitute for morphine, in opiate-dependent rhesus monkey, 489P
- Colon**, calcium and cyclic AMP and response of rat descending, to angiotensin, PGE₂ and potassium chloride, 117P
- , human, estimation and characterization of prostaglandins in, 579
- Contraception**, toxicological aspects of male antifertility α -chlorohydrins, 455P
- Contractile responses**, of cat gastrocnemius, effect of vasoactive substances on, 587
- [³H]-Corticosterone, tissue variability and some properties of accumulation of, by isolated organs, 122P
- Convulsions**, effect of allylglycine and 2-keto-4-pentenoic acid on, in mice, 477P
- Convulsive activity**, spontaneous, a pharmacological study of, induced by catechol in anaesthetized mouse, 433
- Core temperature**, changes in, an inexpensive method of transmitting and receiving, in unrestrained animals, 496P
- Coronary reactions**, to cardiac hyperactivity and to hypoxia in isolated perfused rat heart, 381
- Cortical neurones**, effects of noradrenaline and dopamine on, 479P
- Corticosterone**, plasma levels of, modification by anti-depressant drugs of, in stressed bulbectomized rats, 144P
- Crotalus durissus terrificus**, venom from, mode of action at mouse neuromuscular junction of the phospholipase A₂-crotoptin complex isolated from, 597
- Crotaprotin-phospholipase A₂ complex** isolated from venom of South American rattlesnake, mode of action at mouse neuromuscular junction of, 597
- Cyclic AMP**, levels of, and of calcium in relation to the response of rat descending colon to angiotensin, PGE₂ and potassium chloride, 117P
- , effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607
- Cyclic GMP**, effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607
- Cyproheptadine**, antagonizes effects of 5-HT on dog vasculature, 466P
- Cytochrome P450**, relationship between, and haem biosynthesis in lead poisoned rats, 134P
- D**
- D600**, effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607
- Dapsone**, anti-inflammatory properties of, in a variety of animal models, 508P
- Debrisoquine**, effects of, on monoamine oxidase activity of human left ventricles *in vitro*, 470P
- Denervation**, chronic, effect of, on effect of uptake by adrenergic nerve terminals on sensitivity of arterial vessels to topically applied noradrenaline, 429
- Desipramine**, compared with ICI 63197 as phosphodiesterase inhibitors in brain, 119P
- , comparison of effect of, with that of mianserin on monoamine uptake, 307
 - , effect of, on cardiac responses to sympathetic stimulation, intravenous noradrenaline and to tyramine, 472P
 - , effects of, on monoamine oxidase activity of human left ventricles *in vitro*, 470P
- N-desmethyldiazepam**, behavioural and pharmacokinetic studies with, in monkey, 325
- Desmethylimipramine**, effect of, on neuroeffector transmission in cat nictitating membrane and blood vessels, 551
- Dexamethasone**, effect of, on prostaglandin synthesis and release in human adipose tissue, 446P
- Dextrophan tartrate**, effect of, to show mechanism of action of narcotic analgesics on guinea-pig ileum, 541
- (–)-2,4-Diaminobutyric acid, uptake systems for, in rat cerebral cortical slices, 477P
- L-2,4-Diaminobutyric acid, effect of pretreatment with, on GABA uptake following 3-mercaptopropionic acid in mice, 476P
- Diazepam**, compared with ICI 63197 as phosphodiesterase inhibitors in brain, 119P
- , effects of, on catecholamines and GABA in rat striatum, 152P
 - , assessment of effectiveness of, to substitute for morphine in opiate-dependent rhesus monkey, 489P
 - , behavioural and pharmacokinetic studies in monkey with, 325
- Diazoxide**, effect of, on coronary reactions, 381
- Dibutyl cyclic adenosine 3',5'-monophosphate**, effects of, on histamine release and acid secretion from rat isolated gastric mucosa in presence of theophylline, 461P
- , inhibition of histamine release from rat mast cells by, greater when incubated in complete rather than glucose-free medium, 237
- Dicumarol**, inhibits dextran-induced histamine release from rat mast cells in complete or glucose-free medium, 237
- Digoxin**, plasma, transient changes in concentration of, and the development of cardiotoxicity, 409
- Dihomo- γ -linolenate**, effect of, alone and with kallikrein on plasma exudation and vasodilatation in inflammation, 447P
- (–)-[³H]-dihydroalprenolol, binding characteristics of, to β -adrenoceptors on rat lung membranes, 459P
- Dihydroergotoxine**, effect of, on vascular response to sympathetic nerve stimulation, 460P
- Dihydro- β -erythroidine**, effect of, on action of catechol on convulsive activity in mouse, 433
- 1,2-Dihydroxybenzene**, pharmacological study of spontaneous convulsive activity induced by, in anaesthetized mouse, 433
- 5,6-Dihydroxytryptamine**, ability of local injection of, into olfactory bulbs, to mimic effects of bilateral bulbectomy in rat, 145P
- 5,7-Dihydroxytryptamine**, ability of local injection of, into olfactory bulbs, to mimic effects of bilateral bulbectomy in rat, 145P
- Dimaprit**, cardiovascular response to, a selective histamine H₂-receptor agonist, 101
- , comparison of potency of, with that of histamine on isolated working guinea-pig heart preparation, 125P
- S-(3-dimethylaminopropyl) isothiourea**, *see* dimaprit, 101

- 16,16 Dimethyl prostaglandin E₂**, inhibition of bile salt-induced gastric mucosal erosions by, in rat, 139P
- 1,1-Dimethyl-4'-phenylpiperazinium iodide**, effects of (-)- and (+)-cocaine on cardiac responses to, 130P
- , indomethacin-induced gastric mucosal erosions and their inhibition by, 507P
- Dipotassium clorazepate**, behavioural and pharmacokinetic studies in monkey with, 325
- Discriminative stimulus properties**, of cocaine and amphetamine in rats, 415
- Disodium edetate**, effect of, on plasma kininase levels in cattle during acute infection with *Babesia bovis*, 567
- Diuretics**, and the renal adenylate cyclase system, 657
- L-DOPA**, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- Dopamine**, can act on peripheral α -adrenoceptors, 471P
- , depression by, of adrenergic nerve-mediated contraction of smooth muscle, 291
- , do central receptors for, have a physiological role in thermoregulation?, 83
- , effects of, on dorsal raphe nucleus of the cat, following direct perfusion, 297
- , effect of some agonists and antagonists of, on rat anococcygeus muscle *in vitro*, 471P
- , effects of some gastrointestinal hormones and metoclopramide on cardiovascular receptors for, 124P
- , injected into the preoptic anterior hypothalamus causes changes in core and peripheral temperature, 83
- , long-term propranolol treatment reduces adrenal level of, in spontaneously hypertensive rats, 318
- , uptake of, into storage vesicles of intact human platelets, 223
- , effect of chronic (\pm)-propranolol on, in rat striatum, 152P
- , -like activity, structural requirements for, in homogenates of rat nucleus accumbens, 150P
- , transport of, by rat blood platelets, 142P
- , level of, in rat locus coeruleus after unilateral lesion, 482P
- , effect of, on cortical neurones, 479P
- , playing an agonist role in effect of cannabis on rapid eye movements, 371
- Dopamine- β -hydroxylase inhibitors**, effect of, on effect of cannabis on REM sleep-deprived rats, 371
- Dopamine receptors**, sensitivity of central, and chronic amphetamine administration, 142P
- Dorsal horn neurones**, effects of noradrenaline and 5-hydroxytryptamine on response of, to noxious and innocuous skin stimuli, 149P
- , of cat, enkephalins and, 399
- Dorsal raphe nucleus**, electrocortical changes induced by perfusion of noradrenaline, acetylcholine and their antagonists directly into, of the cat, 297
- Doxantrazole**, inhibits dextran-induced histamine release from rat mast cells in complete or glucose-free medium, 237

E

- EGTA**, effect of, on action of calcium on contractions produced by acetylcholine in soleus muscle, 627
- Electrical activity**, simultaneous recording of, and mechanical activity, from intestinal and vascular smooth muscle, 492P

- Electrocortical desynchronization**, amphetamine-induced, presynaptic site of action within the mesencephalic reticular formation for, 331
- Electrical responses**, of guinea-pig taenia coli, effect of bradykinin on, 523
- Electrical responsiveness**, effect of saxitoxin on, in cerebrospinal fluid, 679
- Electrical stimulation**, a method for investigating neurotransmission using, and intracerebral drug injection, 488P
- Endoperoxide**, comparison of effects of stable analogues of, with PGE₂ and PGF_{2 α} on rat gastric secretion *in vivo* and *in vitro*, 450P
- Endoperoxide analogues**, prostaglandin, effects of, on blood pressure in dog during left ventricular bypass, 395
- α - and β -Endorphins**, distribution of, in brain and peripheral tissues, 639
- Endothelial cells**, porcine, production of prostaglandins by, in culture, 504P
- Endotoxin**, some effects of intravenous PGE₁ and, in young chickens, 29
- , some effects of PGE₁ and PGE₂ compared with those of, following injection into the hypothalamus of young chicks, 39
- Endotoxin fever**, dissociation between, and effects of hypothalamically injected prostaglandins, 39
- , reversal of, in young chickens by prostaglandins, 39
- Endplate potential**, miniature, effect of phospholipase A₂-crotopotin complex isolated from venom of South American rattlesnake on, at mouse neuromuscular junction, 597
- Enkephalin**, methionine and leucine, distribution of, in brain and peripheral tissues, 639
- , analogues of, analgesia following intravenous administration of, 481P
- , leucine-, a conformational analysis for, using activity and binding data of synthetic analogues, 351
- , and its analogues, microiontophoretic study of, on brain stem neurones in rat, 147P
- Enkephalins**, and dorsal horn neurones of cat, effects on responses to noxious and innocuous skin stimuli, 399
- Equilibrium dissociation constant**, an estimate of the, for calcium as an antagonist of evoked acetylcholine release: implications for excitation secretion coupling, 691
- Ergometrine**, a pre-synaptic α -adrenoceptor agonist, 129P
- Erythema**, relationship between, and PGE₂ and PGF_{2 α} , 445P
- Escherichia coli**, modification by aspirin and indomethacin of the haemodynamic and prostaglandin-releasing effects of, endotoxin in the dog, 175
- Eserine**, augments electrically-evoked contractions of human bladder strips, 115P
- , effects of, at different temperatures on parasympathetically stimulated guinea-pig isolated bladder, 115P
- Ethacrynic acid**, and the renal adenylate cyclase system, 657
- Ethanol withdrawal**, head twitches induced by, in mice, effect of apomorphine and its *N*-propyl homologue on, 700
- Ethyl carbamate**, effects of, on blood pressure cardiac output and its distribution, 126P
- Ethylene glycol-bis-(β -aminoethyl ether)-*N,N'*-tetraacetic acid**, effect of, on action of calcium on contractions produced by acetylcholine in soleus muscle, 627
- Etomidate**, GABA-mimetic action of, 484P
- Etorphine**, effect of, on brain stem neurones in rat, 480P

- [³H]-etorphine, binding of, to normal and morphine-pretreated guinea-pig ileum, 271
- Excitation-secretion coupling**, implications for, of estimate of equilibrium dissociation constant for calcium as an antagonist of evoked acetylcholine release, 691
- Extensibility**, changes in, of rat cervix in late pregnancy produced by prostaglandin F_{2α} ovariectomy and steroid replacement, 501P

F

- Fazadinium**, neuromuscular blocking properties of, compared with AH 10407, 47
- Fenfluramine**, potency of, in taste aversion in rats, 669
- Fla-63**, effect of, on effects of cannabis in rats, 371
- Flufenamate**, inhibits histamine release from rat peritoneal mast cells, 229
- Fluorescence**, induced by catecholamine, effect of tetrabenazine and noradrenaline on, 339
- (±)-6-**Fluorotryptophan**, effect of, on sleep and brain monoamine levels in rat, 485P
- Fog fever**, involvement of 3-methylindole in development of, in cattle, 285
- Frusemide**, and the renal adenylate cyclase system, 657

G

- Ganglia**, effects of blocking agents effective at, on vascular response to sympathetic nerve stimulation, 460P
- , basal, a method for investigating neurotransmission in, using combined stimulation and intracerebral drug injection, 488P
- Gastric acid**, classification of the β-adrenoceptors which mediate inhibition of pentagastrin-induced secretion of, in the dog, 462P
- , effect of atropine on secretion of, stimulated by acetylcholine, histamine and gastrin in isolated whole stomach of the rat, 279
- , effect of calcium on secretion of, by isolated rat gastric mucosa, 124P
- , increased secretion of, and histamine release from rat isolated gastric mucosa, 461P
- Gastric mucosa**, effect of calcium on acid secretion by isolated rat, 124P
- , erosions of, induced by indomethacin, and their inhibition by 16,16 dimethyl prostaglandin E₂ in rat, 507P
- , erosions of, induced by bile salt, inhibition of, by 16,16 dimethyl prostaglandin E₂ in rat, 139P
- Gastrin**, effect of atropine on acid secretion stimulated by, in isolated whole stomach of the rat, 279
- Gastrocnemius**, cat, effect of vasoactive substances on blood flow and contractile responses of, 587
- Gastrointestinal tract**, human, estimation and characterization of prostaglandins in, 579
- Globus pallidus**, effect of manipulating GABA in, on striatally mediated head-turning in rat, 483P
- Glucagon**, effects of, on cardiovascular dopamine receptors in the rat, 124P
- Glucose**, effect of, in incubation medium on histamine release from rat mast cells, 237
- Glutamic acid decarboxylase activity**, effect of allylglycine and 2-keto-4-pentenoic acid on, in mice, 477P

- Glyceraldehyde-3-phosphate-dehydrogenase**, antifertility mode of action of α-chlorohydrin by interaction with, 456P
- Glyceryl trinitrate**, effect of, on vascular response to sympathetic nerve stimulation, 460P
- Glycine**, effect of, on response of postsynaptic neurones to etomidate, 484P
- Goldblatt model**, two kidney model of renovascular hypertension, 213
- Goldfish**, effect of vinblastine sulphate on acquisition of conditioned avoidance response in, 153P
- (±)-**H35/25**, inhibition of [³H]-dihydroalprenolol binding to rat lung membranes by, 459P
- Habituation**, effects of piracetam on acquisition and retention of, 475P
- Haem**, biosynthesis and hepatic drug metabolism in lead poisoned rats, 134P
- Haloperidol**, effect of, on dose-response curve of rat anococcygeus muscle to noradrenaline and dopamine, 471P
- , prevents depressant effect of dopamine on adrenergic nerve-mediated contraction of smooth muscle, 291
- Head-turning**, in rat, striatally mediated, effect of manipulating pallidal and nigral GABA on, 483P
- Head twitches**, induced by ethanol withdrawal in mice, effect of apomorphine and its *N*-propyl homologue on, 700
- Heart**, accumulation of [³H]-corticosterone by rat and mouse isolated, 122P
- , effects of four general anaesthetic agents on regional distribution of cardiac output in the rat, 126P
- , effects of histamine and selective histamine receptor agonists on isolated working, preparation of the guinea-pig, 125P
- , effect of TnPBI on arrhythmias in the guinea-pig isolated atria, 131P
- , interdependence of ion transport and the action of ouabain in muscle of the, 19
- , ORG 6001 reduces ST-segment elevation produced by coronary occlusion in the dog, 315
- , potentiation of sympathetic nerve responses in the, *in vivo* by pancuronium bromide, 472P
- , rabbit, structure-activity relationship of compounds which block receptors for 5-hydroxytryptamine on sympathetic nerves of, 499P
- , isolated rat, coronary reactions to cardiac hyperactivity and to hypoxia in, 381
- Heart rate**, changes in response to centrally administered adrenaline in spontaneously hypertensive rats, 130P
- , comparative effects of phentolamine and prazosin on clonidine-induced changes in, 469P
- , long-term propranolol treatment reduces, in spontaneously hypertensive rats, 318
- , pancuronium bromide increases, in pithed rat in presence and absence of sympathetic stimulation, 472P
- Hexamethonium**, effects of, at different temperatures on parasympathetically stimulated guinea-pig isolated bladder, 115P
- , effect of, on milk-ejection reflex in the lactating rat, 123P
- , effect of, on vascular response to sympathetic nerve stimulation, 460P
- , has no effect on electrically-induced contractions of human bladder strips, 115P
- Hexamethonium bromide**, effect of, on action of catechol on convulsive activity in mouse, 433

- Histamine**, β -adrenoceptor blockers potentiate bronchoconstriction in guinea-pigs and rats induced by, 469P
- , cardiovascular response to dimaprit a selective H_2 -receptor agonist, 101
 - , does not mediate response of guinea-pig myometrium to certain amino acids, 217
 - , dual-component positive inotropic response of guinea-pig isolated atria to, 463P
 - , effects of, and selective, receptor agonists on isolated working guinea-pig heart preparation, 125P
 - , effect of atropine on acid secretion stimulated by, in isolated whole stomach of the rat, 279
 - , effect of external calcium on acid secretion in response to, by isolated rat gastric mucosa, 124P
 - , effects of pentobarbitone and chloralose anaesthesia on vagal component of bronchoconstriction induced by, in the dog, 251
 - , effects of sodium cromoglycate on reflex bronchoconstriction induced by, in the anaesthetized dog, 257
 - , inhibition of release of, from rat peritoneal mast cells by non-steroid anti-inflammatory drugs and its reversal by calcium, 229
 - , output of, from rat isolated gastric mucosa during acid secretion stimulated by pentagastrin, methacholine and db cyclic AMP, 461P
 - , relationship between energy metabolism and action of inhibitors of release of, 237
 - , a selective action of, on smooth muscle of small airways, 156P
 - , effect of, on blood flow and contractile responses of cat gastrocnemius, 587
 - , effect of, on *in vivo* and *in vitro* responses of cat lung during anaphylaxis, 533
- Histamine H_2 -receptors**, in brain, and sleep produced by clonidine, 441
- , cardiovascular response to dimaprit a selective agonist of, 101
- Histofluorescence**, induced by catecholamine, effect of tetrabenazine, on, 339
- Hydralazine**, and hydralazine acetonide, comparative evaluation of *in vitro* effects of, on arterial smooth muscle, 345
- p-Hydroxyamphetamine**, potency of, in taste aversion in rats, 669
- 9-Hydroxydehydrogenase**, in rabbit kidney, 615
- 3-Hydroxy-N-desmethyldiazepam**, behavioural and pharmacokinetic studies in monkey with, 325
- 3-Hydroxydiazepam**, behavioural and pharmacokinetic studies in monkey with, 325
- 6-Hydroxydopamine**, pretreatment with, has no effect on development of renovascular hypertension in the rat, 213
- , ability of local injection of, into olfactory bulbs, to mimic effects of bilateral bulbectomy in rat, 145P
 - , electrocortical desynchronization induced by, 331
 - , effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- 5-Hydroxyindoleacetic acid**, level of, in rat locus coeruleus after unilateral lesion, 482P
- 5-(1-Hydroxy-2-isopropylamino)butyl-8-hydroxy carbostyryl hydrochloride hemihydrate**, *see* OPC-2009
- , β -adrenoceptor stimulant properties of, 513
- 5-(p-Hydroxyphenyl)-5-phenylhydantoin**, effects of, on total and active populations of T lymphocytes, 454P
- 15-Hydroxyprostaglandin dehydrogenase**, in mammalian kidney, 615
- 5-Hydroxytryptamine**, as a substrate for monoamine oxidase activity in human left ventricles *in vitro*, 470P
- , binding of, to human blood platelets, 453P
 - , differential sensitivity of neuronal stimulant responses to, to inhibition by agonists at presynaptic receptor sites, 467P
 - , does not mediate responses of guinea-pig myometrium to certain amino acids, 217
 - , effects of (–)- and (+)-cocaine on cardiac responses to, 130P
 - , effects of methysergide and phentolamine on contractions of dog femoral artery and saphenous vein induced by, 465P
 - , evidence for two types of excitatory receptor for, in dog vasculature, 465P
 - , further evidence for two types of excitatory receptor for, in dog vasculature, 466P
 - , potentiated electrically-evoked contractions of human bladder strips, 115P
 - , reverses endotoxin fever in young chickens following intrahypothalamic injection, 39
 - , uptake of, into storage vesicles in intact human platelets, 223
 - , uptake and release of, in rat striatum, effect of indolalkylamines on, 151P
 - , effect of, on nociceptive and non-nociceptive spinal interneurons, correlation between brain-stem stimulation and, 149P
 - , effect of, on responses of dorsal horn neurones to noxious and innocuous skin stimuli, 149P
 - , receptors for, structure-activity relationship of compounds which block, on sympathetic nerves of rabbit heart, 499P
 - , level of, in rat locus coeruleus after unilateral lesion, 482P
 - , effect of BRL 13776 on levels of, in hearts of hypertensive rats, 357
 - , effect of, on *in vivo* and *in vitro* responses of cat lung during anaphylaxis, 533
 - , action of, on effect of catechol on convulsive activity in anaesthetized mouse, 433
- [3H]-5-Hydroxytryptamine**, as a substrate for selective inhibition of monoamine oxidase by mexiletine, 118P
- 5-Hydroxytryptamine receptors**, in pigment cells of *Xenopus* embryos, 607
- 5-Hydroxytryptophan**, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- Hyoscine**, effects of, at different temperatures on parasympathetically stimulated guinea-pig isolated bladder, 115P
- , effect of, on milk-ejection reflex in the lactating rat, 123P
 - , effect of, on action of catechol on convulsive activity in mouse, 433
- Hyperaemia**, reactive, effects of drugs on, 381
- Hypertension**, cardiovascular responses to centrally administered adrenaline in spontaneously hypertensive rats, 130P
- , central and peripheral levels of noradrenaline in the two kidney model of renovascular, in the rat, 213
 - , comparative effects of phentolamine and prazosin on clonidine-induced, 469P
 - , reduced adrenal amine synthesis in spontaneously hypertensive rats following long-term propranolol treatment, 318

- , in rats, effect of BRL 13776 on, 357
- Hyperthermia**, develops in young chickens following intravenous endotoxin, 29
- , produced by intrahypothalamic injection of antigen of *Shigella dysenteriae* into young chickens, 39
- , set point manipulation by a direct spinal action of morphine in, 91
- Hypotension**, centrally administered adrenaline induces, in spontaneous hypertensive rats, 130P
- Hypothalamus**, accumulation of [³H]-corticosterone by rat isolated, 122P
- , adrenaline synthesis by, after stimulation of the medial forebrain bundle, 5
- , enhancement of chlorpromazine-induced hypothermia by lesions in the anterior, 77
- , some effects of PGE₁ and PGE₂ and endotoxin injected into the, in young chickens, 39
- Hypothermia**, effect of intrahypothalamic phentolamine on, produced by peripheral noradrenaline in the pigeon, 163
- , enhancement of chlorpromazine-induced, by lesions in the anterior hypothalamus, 77
- , effect of cannabis on effect of, on aggressive behaviour, 371
- , effects of atropine and pimozide on, induced by apomorphine or oxotremorine in rats, 509P
- Hypoxia**, coronary reactions to, in isolated perfused rat heart, 381

I

- ICI 63197**, relative potency of, as phosphodiesterase inhibitor in brain, 119P
- IgG_a**, release of slow-reacting substance of anaphylaxis in rats induced by, possible modulatory role for prostacyclin in, 697
- Ileum**, human, estimation and characterization of prostaglandins in, 579
- , guinea-pig, mechanism of action of narcotic analgesics in, 541
- Imidazole**, effects of, on secretory processes and activities of adenylate cyclase and cyclic AMP phosphodiesterase in cat pancreas, 243
- Imipramine**, comparison of effect of, with that of mianserin on monoamine uptake, 307
- , effect of, on inhibitory role for noradrenaline in mouse vas deferens, 649
- Indolalkylamines**, effects of, on uptake and release of 5-hydroxytryptamine in rat striatum, 151P
- Indomethacin**, blocks synthesis of prostaglandins in human adipose tissue, 446P
- , effect of, on plasma exudation in inflammation, 447P
- , inhibits histamine release from rat peritoneal mast cells, 229
- , modification by, of haemodynamic and prostaglandin-releasing effects of *E. coli* endotoxin in the dog, 175
- , potentiates ADPase activity in aortic rings, 449P
- , gastric mucosal erosions induced by, studies on, and their inhibition by 16,16 dimethyl prostaglandin E₂ in rat, 507P
- , effect of, on tone of muscle of human isolated small intestine, 573
- Inflammation**, chemical mediators of vascular responses in, 447P
- Inflammatory sites**, acute, accumulation of platelets at, 158P

- Interneurons**, spinal, nociceptive and non-nociceptive, correlation between effects of 5-hydroxytryptamine and noradrenaline on, and brain-stem stimulation, 149P
- Intracerebral drug injection**, a method for investigating neurotransmission using, and electrical stimulation, 488P
- Iproniazid**, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- Iris**, effect of tetrabenazine on catecholamine-induced fluorescence in, 339
- Iso-propyl bicyclo phosphate**, effect of, on responses of isolated frog spinal cord to GABA, 484P
- Isoprenaline**, effect of temperature on potency of, in frog ventricle and rat left atrium, 167
- , electrocortical changes induced by perfusion of, directly into the dorsal raphe nucleus of the cat, 297
- , inhibits electrically-evoked contractions of human bladder strips, 115P
- , potency and selectivity of, compared with those of OPC-2009 in the dog, 9
- , reduces histamine-induced bronchoconstriction in guinea-pigs and rats following (+)-propranolol, 469P
- , effect of, on inhibitory role for noradrenaline in mouse vas deferens, 649
- , β -adrenoceptor stimulant properties of, 513
- (-)-**Isoprenaline**, effect of, on pentagastrin-induced acid secretion following (\pm)-propranolol, (+)-propranolol or practolol in the dog, 462P
- , inhibition of [³H]-dihydroalprenolol binding to rat lung membranes by, 459P
- , effect of, on *in vivo* and *in vitro* responses of cat lung during anaphylaxis, 533

K

- Kallikrein**, effect of, alone and with dihomo- γ -linolenate on plasma exudation and vasodilatation in inflammation, 447P
- Ketamine**, effects of, on blood pressure, cardiac output and its distribution, 126P
- , enhances effects of noradrenaline and attenuates effects of sympathetic nerve stimulation of rabbit cardiovascular system, 199
- 2-Keto-4-pentenoic acid**, effect of, on cerebral glutamic acid decarboxylase activity and convulsions in mice, 477P
- Kidney**, central and peripheral noradrenaline levels in the Goldblatt model of renovascular hypertension in the rat, 213
- , adenylate cyclase system of, and diuretics, 657
- Kidneys**, mammalian, pathways of prostaglandin F_{2 α} metabolism in, 615
- Kinin**, level of, during acute *Babesia bovis* infection in cattle, 567
- Kinase**, level of, during acute *Babesia bovis* infection in cattle, 567
- Kininogen**, level of, during acute *Babesia bovis* infection in cattle, 567

L

- La³⁺**, effect of, on action of calcium on contractions produced by acetylcholine in soleus muscle, 627
- , effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607

- Labetolol**, has no effect on clonidine-induced sedation in rats, 468P
 —, cardiovascular and uterine effects of, on conscious normotensive rats, 505P
Lactation, two separate cholinergic mechanisms for regulation of release of oxytocin, 123P
Lead, haem biosynthesis and hepatic drug metabolism in rats poisoned with, 134P
Leucine-enkephalin, distribution of, in brain and peripheral tissues, 639
 —, a conformational analysis of, using activity and binding data of synthetic analogues, 351
Levorphanol tartrate, effect of, to show mechanism of action of narcotic analgesics in guinea-pig ileum, 541
Lignocaine, effects of, following direct perfusion into the dorsal raphe nucleus of the cat, 297
 —, structure-activity relationship of, for action on 5-hydroxytryptamine receptors on sympathetic nerves of rabbit heart, 499P
Lipid, dependence of the bilayer membrane: buffer partition coefficient of pentobarbitone on pH and, composition, 57
Lithium, inhibition of rabbit muscle pyruvate kinase by, 121P
Lithocholic acid, hepatotoxicity of, in male mice, 133P
Liver, haem biosynthesis and hepatic drug metabolism in lead poisoned rats, 134P
 —, hepatotoxicity of lithocholic acid in male mice, 133P
Locus coeruleus, rat, lack of serotonergic involvement in turning behaviour induced by unilateral lesion of, 482P
Lung, regional perfusion of airways of guinea-pig, a selective action of histamine on smooth muscle of small airways, 156P
 —, cat, effect of catecholamines on *in vivo* and *in vitro* responses of, during anaphylaxis, 533
 —, neonatal rabbit, *in vitro* and *in vivo* effects of oxotremorine on phosphatidylcholine content of washes of, 502P
Lymphocytes, T and B, distribution of, effects of vinblastine and mustine, 157P
 —, T, effects of phenytoin on total and active populations of, 454P
Lysosomal enzyme, effect of divalent cations on release of, from macrophages, 452P

M

- Macaca mulatta**, behavioural studies with sotalol and with (+), (±) and (–)-propranolol in, 474P
 —, behavioural and pharmacokinetic studies in, with diazepam, nordiazepam and related 1,4-benzodiazepines, 325
Macrophages, effect of divalent cations on lysosomal enzyme release from, 452P
 —, stimulation of, by carrageenin, 140P
Magnesium, effect of, on release of lysosomal enzyme from macrophages, 452P
 —, -stimulated ATPase activity in rat pancreas following chronic administration of D-penicillamine, 120P
Manganese ion, effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607
Mast cells, inhibition of histamine release from rat peritoneal, by non-steroid anti-inflammatory drugs and its reversal by calcium, 229

- Mecamylamine**, effect of, on milk-ejection reflex in the lactating rat, 123P
 —, effect of, on action of catechol on convulsive activity in mouse, 433
Mechanical activity, simultaneous recording of, and electrical activity, from intestinal and vascular smooth muscle, 491P
Mechanical responses, of guinea-pig taenia coli, effect of bradykinin on, 523
Meclofenamate, inhibits histamine release from rat peritoneal mast cells, 229
Melatonin, action of, on single amphibian pigment cells in tissue culture, 607
Mepyramine, inotropic response of guinea-pig isolated atria to histamine in presence of, 463P
3-Mercaptopropionic acid, use of, for assessment of actions of GABA-uptake blockers on convulsant activity in mice, 476P
Mesencephalic reticular formation, presynaptic site of action within, for (+)-amphetamine-induced electrocortical desynchronization, 331
 (–)-**Metaraminol**, blockade of uptake of, by various rabbit tissues induced by several tricyclic antidepressants, 307
Methacholine, increases histamine release and acid secretion from rat isolated gastric mucosa, 461P
 (+)-**Methacholine**, inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189
 (+)-**Methadone**, effect of, to show mechanism of action of narcotic analgesics on guinea-pig ileum, 541
Methamphetamine, potency of, in taste aversion in rats, 669
Methionine-enkephalin, distribution of, in brain and peripheral tissues, 639
 —, and its amide, effects of, on responses of cat to noxious and innocuous skin stimuli, 399
Methohexitone, effect of suxamethonium on mice, after anaesthesia with, 486P
Methoxamine, effects of methysergide and phentolamine on contractions of dog femoral artery and saphenous vein induced by, 465P
Methylatropinium, inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189
Methyldopa, effect of, on vascular response to sympathetic nerve stimulation, 460P
 β,γ -**Methylene adenosine triphosphate**, inhibits platelet aggregation caused by ADP, 87
Methylfurmethide, inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189
bis-4(Methyl-1-homopiperanzinyl-thio-carbonyl) disulphide, effect of, on effects of cannabis in rats, 371
3-Methylindole, effects of, in cattle, 285
 (–)- α -**Methylnoradrenaline**, electrocortical desynchronization induced by, 331
 α -**Methyl-p-tyrosine**, effect of, on turning behaviour induced by unilateral lesion of rat locus coeruleus, 482P
Methysergide, effects of, on contractions of dog femoral artery and saphenous vein induced by 5-HT and methoxamine, 465P
 —, effects of, on dog vasculature, 466P
Methysergide bimalate, effect of, on action of catechol on convulsive activity in mouse, 433
Metamide, antagonizes depressor and vasodilatory responses to dimaprit, 101

- , chronotropic and inotropic responses of guinea-pig isolated atria to histamine in presence of, 463P
- , effect of, on sleep produced by clonidine, 441
- Metoclopramide**, effects of, on cardiovascular dopamine receptors, 124P
- , structure-activity relationship of, for action on 5-hydroxytryptamine receptors on sympathetic nerves of rabbit heart, 499P
- Metoestrus**, unidentified neurotransmitter responsible for dilatation of isthmus at, 498P
- Metoprolol**, antagonizes adrenaline-induced responses in spontaneous hypertensive rats, 130P
- Mexiletine**, substrate selective inhibition of monoamine oxidase by, 118P
- Mianserin**, effects of, a new antidepressant on *in vitro* and *in vivo* uptake of monoamines, 307
- , simple model for detecting, in olfactory bulbectomized rat, 497P
- , modification by, of plasma corticosterone levels in stressed bulbectomized rats, 144P
- Microelectrode techniques**, intracellular, modular system of instruments for simple experiments on skeletal muscle using, 155P
- Microiontophoretic study**, of enkephalin and enkephalin analogues on brain stem neurones in rat, 147P
- , of effect of etorphine on rat brain stem neurones, 480P
- Miosomes**, depressed hepatic oxidase system in lead intoxication, 134P
- Miniature endplate potential**, effect of phospholipase A₂-crotopotin complex isolated from venom of South American rattlesnake on, at mouse neuromuscular junction, 597
- Modular system**, of instruments for simple experiments on skeletal muscle using intracellular microelectrode techniques, 155P
- Monkey**, rhesus, opiate-dependent, assessment of effectiveness of drugs to substitute for morphine in, 489P
- , behavioural and pharmacokinetic studies in, with diazepam, nordiazepam and related 1,4-benzodiazepines, 325
- Monoamine oxidase**, inhibition of human heart, 470P
- , substrate selective inhibition of, by mexiletine, 118P
- Monoamine oxidase inhibition**, effect of tetrabenazine on, 339
- Monoamines**, brain, effect of (±)-6-fluorotryptophan on, in hypertensive agent with interesting, 357
- , brain, effect of (±)-6-fluorotryptophan on, in rat, 485P
- Morphine**, effect of pretreatment with, on opiate binding to guinea-pig ileum, 271
- , exerts direct effect on spinal cord, resulting in altered thermoregulatory set point in the rat, 91
- , hyperthermic effects of, 91
- , suppression of transmission of nociceptive impulses by, 65
- , rats dependent on, reactions of, to changes in usual daily dose, 153P
- , assessment of effectiveness of drugs to substitute for, in opiate-dependent rhesus monkey, 489P
- , effect of, on effect of enkephalins on responses of cat to noxious and innocuous skin stimuli, 399
- , effect of, to show mechanism of action of narcotic analgesics in guinea-pig ileum, 541
- Mucosa**, gastric, erosions of, induced by indomethacin, and their inhibition by 16,16 dimethyl prostaglandin E₂ in rat, 507P
- , from human gastrointestinal tract, estimation and characterization of prostaglandins in, 579
- Multiple choice examinations**, measurement of facility of, 507P
- Muscarinic receptors**, ligand binding to, in intact longitudinal muscle strips from guinea-pig intestine, 189
- Muscle**, effects of Organon 6001 on action potential of human ventricular, 457P
- , taipoxin destroys mammalian skeletal, 133P
- , smooth vascular and intestinal, simultaneous recording of electrical and mechanical activity from, 491P
- , of human isolated intestine, contribution of prostaglandins in, to neurogenic responses, 573
- , smooth, relaxation of, following contraction elicited by sympathetic nerve stimulation *in vivo*, 551
- , arterial smooth, comparative evaluation of *in vitro* effects of hydralazine and hydralazine acetone on, 345
- , soleus, chronically denervated, role of extracellular calcium in contractions produced by acetylcholine in, 627
- , from human gastrointestinal tract, estimation and characterization of prostaglandins in, 579
- , skeletal, modular system of instruments for simple experiments on, using intracellular microelectrode techniques, 155P
- , smooth, a selective action of histamine on, of small airways, 156P
- Mustine**, effect of, on distribution of T and B lymphocytes, 157P
- Myenteric plexus**, mechanism of action of narcotic analgesics in guinea-pig, 541
- Myometrial strip**, action of bradykinin on, 506P
- Myometrium**, effects of *N*-benzyl-L-valine on contractions of guinea-pig, 109
- , spasmogenic and potentiating actions of some amino acids on guinea-pig, 217
- Myotoxins**, taipoxin is a presynaptically active neurotoxin and also a, 133P

N

- Na⁺-K⁺-ATPase**, of guinea-pig hearts, evidence for two different sodium ion-dependent [³H]-ouabain binding sites of a, 423
- Naloxone**, antagonizes hyperthermic effects of morphine, 91
- , effects of normorphine in presence or absence of, on normal and morphine-pretreated guinea-pig ileum, 271
- , effect of, on responses evoked by morphine to nociceptive impulses, 65
- , effect of, on effects of enkephalins on responses of cat to noxious and innocuous skin stimuli, 399
- , effect of, on mechanism of action of narcotic analgesics in guinea-pig ileum, 541
- Naphazoline**, effect of, on pre- and postsynaptic α -adrenoceptors in pithed rat, 559
- Narcotic analgesics**, mechanism of action of, in guinea-pig ileum, 541
- Neopisicaine**, structure-activity relationship of, for action on 5-hydroxytryptamine receptors of sympathetic nerves of rabbit heart, 499P
- Neostigmine**, effect of, on action of catechol on convulsive activity in mouse, 433
- Nerve terminals**, adrenergic, effect of uptake by, on sensitivity of arterial blood vessels to topically applied noradrenaline, 429

- Nerves**, atrial sympathetic, ultrastructural changes in, during perfusion with solutions deficient in sodium and compensated by potassium or urea, 494P
- , sympathetic, structure-activity relationship of compounds which block receptors for 5-hydroxytryptamine on, of rabbit heart, 499P
- Neuroeffector transmission**, method for studying, in nictitating membrane and nasal blood vessels of cat, 551
- Neurogenic responses**, contribution of prostaglandins in the muscle of human isolated small intestine to, 573
- Neuromuscular block**, comparison of efficacy of fazadinium and (+)-tubocurarine for, in the anaesthetized cat, 47
- Neuromuscular blockers**, pharmacological and chemical properties of AH 10407 a short-acting and competitive, 47
- Neuromuscular junction**, mouse, mode of action at, of the phospholipase A₂-crotopotin complex isolated from venom of South American rattlesnake, 597
- Neurones**, brain stem, microiontophoretic study of enkephalin and its analogues on, in rat, 147P
- , in guinea-pig myenteric plexus, mechanism of action of narcotic analgesics in, 541
 - , spinal cat, *in vivo* effects of GABA uptake inhibitors on response of, to GABA analogues, 148P
 - , dorsal horn, of cat, and enkephalins, 399
 - , cortical, effects of noradrenaline and dopamine on, 479P
 - , brain stem, effect of etorphine on, 480P
 - , dorsal horn, effects of noradrenaline and 5-hydroxytryptamine on responses of, to noxious and innocuous skin stimuli, 149P
- Neurotoxin**, taipoxin is a presynaptically active, 133P
- Neurotransmission**, a method for investigating, in basal ganglia using combined stimulation and intracerebral drug administration, 488P
- Neurotransmitter**, unidentified, responsible for dilatation of isthmus at metoestrus, 498P
- Nicotine**, mechanism of release of noradrenaline from adrenergic nerve endings induced by, 183
- , plasma, estimation of, by column gas chromatography-mass spectrometry, 159P
- Nicotinic acid**, effects of, on secretory processes and activities of adenylate cyclase and cyclic AMP phosphodiesterase in cat pancreas, 243
- Nictitating membrane**, of cat, a method for studying process of neuroeffector transmission in, 551
- Nipecotie acid**, effect of pretreatment with, on GABA uptake following 3-mercaptopyruvic acid in mice, 476P
- Nociceptive interneurons**, spinal, and non-nociceptive, correlation between effects of 5-hydroxytryptamine and noradrenaline on, and brain-stem stimulation, 149P
- Nomifensine**, effect of, on effects of cannabis on rats, 371
- Noradrenaline**, concentrations of central and peripheral, in the two kidney model of renovascular hypertension in the rat, 213
- , does not mediate responses of guinea-pig myometrium to certain amino acids, 217
 - , dopamine has no dilator effect on arterial smooth muscle constricted by, 291
 - , effect of castration on response of rat vas deferens to, 473P
 - , effect of cocaine on cardiac response of pithed rat to intravenous, 472P
 - , effects of (–) and (+)-cocaine on cardiac responses to, 130P
 - , effect of intrahypothalamic phentolamine on hypothermia in the pigeon produced by peripheral, 163
 - , effects of intravenous anaesthetics on cardiovascular response to, 199
 - , effect of lowered temperature on potency of, in rat left atrium, 167
 - , effect of prazosin on responses of pithed rat to, 116P
 - , electrocortical changes induced by perfusion of, and its antagonists directly into the dorsal raphe nucleus of the cat, 297
 - , inhibits electrically-evoked contractions of human bladder strips, 115P
 - , long-term propranolol treatment reduces adrenal levels of, in spontaneously hypertensive rats, 318
 - , mechanism of nicotine-induced release of, from adrenergic nerve endings, 183
 - , released by stimulation of the medial forebrain bundle may be methylated into adrenaline in the hypothalamus, 5
 - , response of rat anococcygeus muscle to, *in vitro*, 471P
 - , reverses endotoxin fever in young chickens following intrahypothalamic injection, 39
 - , twitch inhibitory effect of, in mouse vas deferens varies according to stimulation frequency, 128P
 - , release of, caused by electrical stimulation of rat atria, from adrenergic nerves, 157P
 - , effect of chronic (±)-propranolol on, in rat striatum, 152P
 - , effect of, on nociceptive and non-nociceptive spinal interneurons, correlation between brain-stem stimulation and, 149P
 - , effect of, on responses of dorsal horn neurones to noxious and innocuous skin stimuli, 149P
 - , an inhibitory role for, in mouse vas deferens, 649
 - , level of, in rat locus coeruleus, after unilateral lesion, 482P
 - , effect of, on cortical neurones, 479P
 - , role of, in neuroeffector transmission in cat nictitating membrane and blood vessels, 551
 - , topically applied, effect of uptake by adrenergic nerve terminals on sensitivity of arterial blood vessels to, 429
 - , cardiostimulation with, coronary reactions to, 381
 - , playing an inhibitory role in effect of cannabis on rapid eye movement sleep, 371
 - , in rat brain, effect of BRL 13776 on, 357
 - , effect of, on intraneuronal fluorescence, 339
- (–)-Noradrenaline**, inhibition of [³H]-dihydroalprenolol binding to rat lung membranes by, 459P
- , electrocortical desynchronization induced by, 331
- (±)-Noradrenaline**, effect of, on *in vivo* and *in vitro* responses of cat lung during anaphylaxis, 533
- Noradrenergic nerves**, peripheral, mode of action of tetra-benzazine on, 339
- Nordiazepam**, behavioural and pharmacokinetic studies in monkey with, 325
- Normorphine**, effects of, in the absence and presence of naloxone on normal and morphine-pretreated guinea-pig ileum, 271
- , effect of, to show mechanism of action of narcotic analgesics in guinea-pig ileum, 541
- Nortriptyline**, comparison of effect of, with that of mianserin on monoamine uptake, 307
- Nucleus accumbens**, rat, structural requirements for dopamine-like activity in homogenates of, 150P

O

- OPC-2009**, β -adrenoceptor stimulant properties of, 513
 —, assessment of selectivity of, a new β_2 -adrenoceptor stimulant in the dog, 9
- ORG 6001**, the antidysrhythmic aminosteroid, reduces ST-segment elevation produced by coronary occlusion in the dog, 315
 —, comparative effects of, a new orally active antidysrhythmic agent on cardiac action potential of human ventricular muscle and sheep Purkinje fibres, 457P
- Octopamine**, uptake of, into storage vesicles of intact human platelets, 223
- Oestradiol**, effect of, on inhibitory role for noradrenaline in mouse vas deferens, 649
- 17 β -Oestradiol**, effect of, on extensibility of rat cervix in late pregnancy, 501P
- Olfactory bulbs**, ability of local injection of 6-OHDA, 5,6-DHT and 5,7-DHT into, to mimic effects of bilateral bulbectomy in rat, 145P
 —, bulbectomy of, in rat, a simple model for detecting drugs with antidepressant potential, 497P
- Opiate receptors**, from rat brain, activity of leucine-enkephalin and some analogues assayed for binding to, 351
- Opiates**, binding of, and their effect in normal and morphine-pretreated guinea-pig ileum, 271
- Opioid peptides**, distribution of, in brain and peripheral tissues, 639
- Ouabain**, interdependence of ion transport and the action of, in heart muscle, 19
- [³H]-ouabain binding sites**, for a Na^+ - K^+ -ATPase of guinea-pig hearts dependent on sodium ion, evidence for two different, 423
- Ovariectomy**, changes in extensibility of rat cervix in late pregnancy produced by, 501P
- Oviduct**, rat, inhibition in, mediated by an unidentified transmitter, 498P
- Oxazepam**, behavioural and pharmacokinetic studies in monkey with, 325
- Oxotremorine**, inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189
 —, effects of atropine and pimozone on hypothermia induced by, 509P
 —, *in vivo* and *in vitro* effects of, on phosphatidylcholine content of washes of neonatal rabbit lungs, 502P
 —, effect of, on action of catechol on convulsive activity in mouse, 433
- Oxygen**, carotid arterial chemoreceptor reactivity to, effect of saxitoxin on, in cerebrospinal fluid, 679
- Oxymetazoline**, effect of, on pre- and postsynaptic α -adrenoceptors in pithed rat, 559
- Oxytocin**, two separate cholinergic mechanisms for regulation of release of, 123P
- Oxyuranus scutellatus**, taipoxin isolated from crude venom of, destroys mammalian skeletal muscle, 133P

P

- pH**, dependence of lipid bilayer membrane: buffer partition coefficient of pentobarbitone on, and lipid composition, 57

- , effect of, on plasma kininase levels in cattle during acute infection with *Babesia bovis*, 567
- Pain**, suppression of transmission of nociceptive impulses by morphine, 65
- Pancreas**, comparative inhibitory effects of QNB and atropine on amylase release from rat, 97
 —, effects of alloxanate, nicotinic acid and imidazole on secretory processes and enzyme activity in cat, 243
 —, effect of chronic administration of D-penicillamine on rat, 120P
- Pancrozoymine**, secretory response to, not blocked by atropine or QNB, 97
- Pancuronium bromide**, potentiation of cardiac sympathetic nerve responses *in vivo* by, 472P
- Papaverine**, effect of, on vascular response to sympathetic nerve stimulation, 460P
 —, inhibits histamine release from rat mast cells more potently in glucose-free than in complete medium, 237
 —, effect of, on blood flow and contractile responses of cat gastrocnemius, 587
 —, effect of, on coronary reactions, 381
- Parachlorophenylalanine**, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- Paraglyline**, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- Parathyroid hormone**, and the renal adenylate cyclase system, 657
- Pempidine**, effect of, on vascular response to sympathetic nerve stimulation, 460P
- Pempidine tartrate**, effect of, on action of catechol on convulsive activity in mouse, 433
- D-Penicillamine**, effect of chronic administration of, on rat pancreas, 120P
- Pentagastrin**, classification of β -adrenoceptors which mediate gastric acid secretion in the dog induced by, 462P
 —, effect of external calcium on acid secretion in response to, by isolated rat gastric mucosa, 124P
 —, effects of, on cardiovascular dopamine receptors in the rat, 124P
 —, increases histamine release and acid secretion from rat isolated gastric mucosa, 461P
- Pentobarbitone**, dependence of lipid bilayer membrane: buffer partition coefficient of, on pH and lipid composition, 57
 —, effects of anaesthesia with, on vagal component of bronchoconstriction induced by histamine aerosol in dog, 251
 —, enhances effects of noradrenaline and attenuates effects of sympathetic nerve stimulation of rabbit cardiovascular system, 199
- Peripheral noradrenergic nerves**, mode of action of tetra-benazine on, 339
- Peripheral tissues**, distribution of leucine-enkephalin and methionine-enkephalin in, 639
- Pethidine**, assessment of effectiveness of, to substitute for morphine, in opiate-dependent rhesus monkey, 489P
- Pharmacological responses**, influence of baseline on, a theoretical model, 492P
- Phenanthroline**, effect of, on plasma kininase levels in cattle during acute infection with *Babesia bovis*, 567
- Phenoxybenzamine**, at a dose which blocks pre-synaptic α -adrenoceptors abolished ergometrine-induced twitch inhibition, 129P
 —, ATP relaxations of guinea-pig taenia caecum persist after, 113P

- , effect of, on noradrenaline and isoprenaline induced electrocortical changes in dorsal raphe nucleus of the cat, 297
- , twitch potentiating effect of, in mouse vas deferens varies according to stimulation frequency, 128P
- , effect of, on neuroeffector transmission in cat nictitating membrane and blood vessels, 551
- Phentolamine**, α -adrenoceptor blocking action of, compared with that of prazosin, 116P
- , antagonizes pindolol or phenoxybenzamine-induced persistent ATP relaxations of guinea-pig taenia caecum, 113P
- , antagonizes sedative effect of clonidine in rats, 468P
- , blocks effects of noradrenaline and isoprenaline on dorsal raphe nucleus of the cat, 297
- , differentiates neurogenic from ATP responses in guinea-pig taenia caecum, 113P
- , effect of intrahypothalamic, on hypothermia produced by peripheral noradrenaline in the pigeon, 163
- , effect of lowered temperature on potency of, in rat left atrium, 167
- , effects of, on contractions of dog femoral artery and saphenous vein induced by 5-HT and methoxamine, 465P
- , effects of, on pre- and postsynaptic actions of clonidine compared with those of prazosin, 469P
- , effect of, on rat anococcygeus muscle response to noradrenaline, 471P
- , effect of, on vascular response to sympathetic nerve stimulation, 460P
- , effect of pretreatment with, on response to centrally administered adrenaline in spontaneously hypertensive rats, 130P
- , has no effect on dopamine-induced depression of adrenergic nerve-mediated contraction of smooth muscle, 291
- , has no effect on noradrenaline-induced inhibition of electrically-evoked contractions of human bladder strips, 115P
- , twitch potentiating effect of, in mouse vas deferens varies according to stimulation frequency, 128P
- , effect of, on inhibitory role for noradrenaline in mouse vas deferens, 649
- , pre-synaptic action of, use of rat atria for detecting, on adrenergic transmission, 157P
- , effect of, on inhibitory effects of clonidine on responses to sympathetic nerve stimulation in pithed rat, 559
- , effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607
- Phentolamine mesylate**, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- Phenylephrine**, effect of prazosin on responses of pithed rat to, 116P
- , effect of temperature on potency of, in frog ventricle and rat left atrium, 167
- β -Phenylethylamine**, as a substrate for monoamine oxidase activity in human left ventricles *in vitro*, 470P
- [14 C]- β -phenylethylamine**, as a substrate for selective inhibition of monoamine oxidase by mexiletine, 118P
- Phenytol**, effects of, on T-lymphocytes populations, 454P
- Phosphatidylcholine**, content of washes of neonatal rabbit lungs, *in vivo* and *in vitro* effects of oxotremorine, 502P
- Phosphodiesterase**, a model to test relative potencies of brain inhibitors of, *in vivo*, 119P
- , inhibitors of, effect of, on coronary vasodilation, 381
- Phospholipase A₂-crotopotin complex**, isolated from venom of South American rattlesnake, mode of action at mouse neuromuscular junction of, 597
- Physostigmine**, effect of, on action of catechol on convulsive activity in mouse, 433
- Picolinic acids**, relaxation of isolated aorta of the rabbit by, 263
- Picrotoxin**, effect of, on response of isolated frog spinal cord to GABA, 484P
- , effect of, on response of postsynaptic neurones to etomidate, 484P
- Pigment cells**, single amphibian, action of melatonin on, in tissue culture, 607
- Pilocarpine**, inhibition of binding of PrBCM to longitudinal muscle strips from guinea-pig intestine by, 189
- Pimozide**, antagonizes action of noradrenaline on rat anococcygeus muscle, 471P
- , pretreatment with, reduces temperature change in response to centrally injected dopamine and apomorphine, 83
- , effect of, on hypothermia induced by apomorphine or oxotremorine in rats, 509P
- Pindolol**, ATP relaxations of guinea-pig taenia caecum persist after, 113P
- Piperoxan**, antagonizes sedative effect of clonidine in rats, 468P
- Piracetam**, effects of, on acquisition and retention of habituation, 475P
- Pitressin**, effect of, in combination with other diuretics, on renal adenylate cyclase system, 657
- Pituitary**, accumulation of [3 H]-corticosterone by rat isolated, 122P
- Plaice**, skin of, presence of a prostaglandin-like substance in, 140P
- Plasma**, steady-state concentrations of salicylic acid in human, after chronic administration of soluble aspirin, 456P
- Plasma digoxin**, transient changes in concentration of, and the development of cardiotoxicity, 409
- Platelet thrombi**, formation of, effect of prostacyclin on, *in vivo*, 137P
- Platelets**, binding of 5-HT to human blood, 453P
- , inhibition by a stable analogue of ATP of aggregation of, caused by ADP, 87
- , uptake of various amines into storage vesicles of intact human, 223
- , accumulation of, at acute inflammatory sites, 158P
- , rat blood, transport of dopamine by, 142P
- , stimulation of, by carrageenin, 140P
- Pleuronectes platessa L.**, skin of, prostaglandin-like substance in, 140P
- Potassium**, activation of high-affinity choline uptake in sympathetic ganglia by depolarization by, 112P
- , influence of ionic, on contractility of ouabain in isolated left atria of the guinea-pig, 19
- , nicotine-induced release of noradrenaline potentiated in Krebs solution without, from isolated rat vas deferens, 183
- , ultrastructural changes in atrial sympathetic nerves during perfusion with solutions deficient in sodium and compensated by, or urea, 494P
- , contractions induced by, in arterial smooth muscle strips, effect of hydralazine on, 345
- , depolarization produced by, in guinea-pig taenia coli, effect of bradykinin, 523

- Potassium chloride**, level of response of rat descending colon to, 117P
- , effect of, on blood flow and contractile responses of cat gastrocnemius, 587
- Potassium ion**, effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607
- Practolol**, effects of (–)-isoprenaline and salbutamol on pentagastrin-induced acid secretion in the dog following, 462P
- , increases total lung resistance in guinea-pigs and rats, 469P
 - , effect of, on inhibitory role for noradrenaline in mouse vas deferens, 649
- (±)-Practolol**, inhibition of [³H]-dihydroalprenolol binding to rat lung membranes by, 459P
- Prazosin**, α -adrenoceptor blocking action of, compared with that of phentolamine, 116P
- , differential effects of, on pre- and postsynaptic α -adrenoceptors in the rat and dog, 469P
- Pre-synaptic actions**, of drugs on adrenergic transmission, use of rat atria as a simple and sensitive *in vitro* preparation for detecting, 157P
- Pregnancy**, late changes in extensibility of rat cervix in, produced by prostaglandin F_{2 α} ovariectomy and steroid replacement, 501P
- Procaine**, structure-activity relationship of, for action on 5-hydroxytryptamine receptors on sympathetic nerves of rabbit heart, 499P
- Progesterone**, effect of, on extensibility of rat cervix in late pregnancy, 501P
- Propanidid**, effect of suxamethonium on mice, after anaesthesia with, 486P
- (+)-Propoxyphene**, assessment of effectiveness of, to substitute for morphine, in opiate-dependent rhesus monkey, 489P
- Propranolol**, antagonizes actions of OPC-2009 in the dog, 9
- , antagonizes noradrenaline-induced inhibition of electrically-evoked contractions of human bladder strips, 115P
 - , differential effects of (+) and (–) isomers of, on binding of [³H]-dihydroalprenolol to rat lung membranes, 459P
 - , effect of lowered temperature on potency of, as isoprenaline antagonist in frog ventricle and rat left atrium, 167
 - , effect of pretreatment with, on interaction of prazosin with noradrenaline, 116P
 - , effect of pretreatment with, on response to centrally administered adrenaline in spontaneously hypertensive rats, 130P
 - , long-term treatment with, reduces adrenal amine synthesis in spontaneously hypertensive rats, 318
 - , pretreatment with, has no effect on 5-alkyl-picolinic acid induced relaxations of isolated rabbit aorta, 263
 - , assessment of effectiveness of, to substitute for morphine, in opiate-dependent rhesus monkey, 489P
 - , effect of, on inhibitory role for noradrenaline in mouse vas deferens, 649
 - , pre-synaptic action of, use of rat atria for detecting, on adrenergic transmission, 157P
- (±)-Propranolol**, effects of (–)-isoprenaline and salbutamol on pentagastrin-induced acid secretion in the dog following, 462P
- , effect of, on delayed differentiation behaviour in *Macaca mulatta*, 474P
 - , increases total lung resistance in guinea-pigs and rats, 469P
- , effects of chronic, on catecholamines and GABA in rat striatum, 152P
 - , effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- (+)-Propranolol**, effects of (–)-isoprenaline and salbutamol on pentagastrin-induced acid secretion in the dog following, 462P
- , effect of, on delayed differentiation behaviour in *Macaca mulatta*, 474P
 - , induces bronchoconstriction in guinea-pigs and rats, 469P
- (–)-Propranolol**, effect of, on delayed differentiation behaviour in *Macaca mulatta*, 474P
- , effect of prior perfusion of, into the dorsal raphe nucleus of the cat, on drug-induced electrocortical changes, 297
- Propylbenzylcholine mustard**, measurement of inhibition of irreversible binding of, to longitudinal muscle strips from guinea-pig intestine, 189
- N-propyl homologue**, of apomorphine, effect of, on ethanol withdrawal head twitches in mice, 700
- 2-n-Propyl-4-p-tolylamino-1,2,3-benzotriazinium iodide**, as a potential antiarrhythmic agent, 131P
- Prostacyclin (PGI₂)**, differential response of rabbit transverse stomach strip to, and other prostaglandins, 451P
- , cardiovascular actions of, in chloralose anaesthetized dogs, 136P
 - , effect of, on formation of platelet thrombi induced by ADP *in vivo*, 137P
 - , possible modulatory role for, in IgG_a-induced release of slow-reacting substance of anaphylaxis in rats, 697
- Prostaglandin**, differential production of, by microsomal fractions of rat pregnant uterus, 158P
- , -like substance, presence of, in skin of plaice, 140P
- Prostaglandin E₁**, comparison of effects of, on responses of rabbit heart to 5-HT, dimethylphenylpiperazinium and electrical stimulation, 467P
- , potentiation of ADPase activity of aortic rings by, 449P
 - , reverses endotoxin fever in young chickens following intrahypothalamic injection, 39
 - , some effects of, injected into the hypothalamus of young chicks, 39
 - , some effects of intravenous, and endotoxin in young chickens, 29
- Prostaglandin E₂**, comparison of effects of stable endoperoxide analogues with those of, on rat gastric secretion, 450P
- , effect of short wavelength ultraviolet C irradiation on concentration of, in human skin, 445P
 - , level of response of rat descending colon to, 117P
 - , reverses endotoxin fever in young chickens following intrahypothalamic injection, 39
 - , some effects of, injected into the hypothalamus of young chicks, 39
 - , effect of, on coronary reactions, 381
 - , 16,16 dimethyl, indomethacin-induced gastric mucosal erosions and their inhibition by, 507P
 - , 16,16 dimethyl, inhibition of bile salt-induced gastric mucosal erosions by, in rat, 139P
- Prostaglandin F_{2 α}** , blood levels of, increased by *E. coli* endotoxin, 175
- , 5-alkyl-picolinic acids relax isolated aorta of the rabbit contracted by, 263
 - , comparison of effects of stable endoperoxide analogues with those of, on rat gastric secretion, 450P

- , effect of short wavelength ultraviolet C irradiation on concentration of, in human skin, 445P
- , effect of, on blood pressure in dog during left ventricular bypass, 395
- , changes in extensibility of rat cervix in late pregnancy produced by, 501P
- , 16-aryloxy analogues of, effect of, on preparations responsive to prostaglandin endoperoxidases, 694
- , effect of, on *in vivo* and *in vitro* responses of cat lung during anaphylaxis, 533
- , pathways of, metabolism in mammalian kidneys, 615
- Prostaglandin H₂**, analogues of, effects of, on blood pressure in dog during left ventricular bypass, 395
- Prostaglandin I₂**, *see* prostacyclin, 451P
- , effect of, on platelet thrombi induced by ADP *in vivo*, 137P
- , cardiovascular actions of, in chloralose anaesthetized dogs, 136P
- , possible modulatory role for, in IgG_a-induced release of slow-reacting substance of anaphylaxis in rats, 697
- Prostaglandin endoperoxidases**, actions of 16-aryloxy analogues of prostaglandin F_{2α} on preparations responsive to, 694
- Prostaglandin endoperoxide**, analogues of, circulatory effects of, studied in dog during left ventricular bypass, 395
- Prostaglandin 9-hydroxy dehydrogenase**, in rat kidney, 615
- Prostaglandin synthetase**, potentiation of ADPase activity of aortic rings by inhibitors of, 449P
- Prostaglandins**, differential response of rabbit transverse stomach strip to various, 451P
- , do not mediate responses of guinea-pig myometrium to certain amino acids, 217
- , effect of anti-inflammatory drugs on, in human subcutaneous adipose tissue, 446P
- , modification by aspirin and indomethacin of, -releasing effects of *E. coli* endotoxin in the dog, 175
- , contribution of, in the muscle of human isolated small intestine to neurogenic responses, 573
- , production of, by porcine endothelial cells in culture, 504P
- , estimation and characterization of, in human gastrointestinal tract, 579
- , modulation of thrombus formation *in vivo* by, 138P
- Purkinje fibres**, effects of Organon 6001 on cardiac action potential of sheep, 457P
- 2-Pyridylethylamine**, comparison of potency of, with that of histamine on isolated working guinea-pig heart preparation, 125P
- Pyrogallol**, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- Pyruvate kinase**, inhibition of rabbit muscle, by lithium, 121P

Q

- Quinidine**, efficacy of, as antiarrhythmic agent similar to that of TnPB1, 131P
- 3-Quinuclidinyl benzilate**, comparative inhibitory effects of, and atropine on amylase release from rat pancreas, 97

R

- Rapid eye movement sleep**, cannabis, catecholamines and aggressive behaviour, 371

- Receptors**, for 5-hydroxytryptamine, structure-activity relationship of compounds which block, on sympathetic nerves of rabbit heart, 499P
- Reserpine**, effect of, on vascular response to sympathetic nerve stimulation, 460P
- , catecholamine depletion by, effect of, on coronary reactions, 381
- , effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- , effect of, on histofluorescence in iris, hepatic portal vein and other blood vessels, 339
- Respiratory depression**, effect of suxamethonium on, after anaesthesia, 486P
- Respiratory effects**, of saxitoxin in the cerebrospinal fluid, 679
- Respiratory rate**, in mouse, simple device for measurement of, 490P
- Responses**, pharmacological, influence of baseline on, a theoretical model, 492P

S

- Salbutamol**, effect of, on pentagastrin-induced acid secretion following (±)-propranolol (+)-propranolol or practolol in the dog, 462P
- , potency and selectivity of, compared with those of OPC-2009 in the dog, 9
- , effect of, on inhibitory role for noradrenaline in mouse vas deferens, 649
- , β-adrenoceptor stimulant properties of, 513
- (±)-**Salbutamol**, inhibition of [³H]-dihydroalprenolol binding to rat lung membranes by, 459P
- Salicylate**, chronic dose-ranging kinetic study of, in man, 456P
- Saline**, effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- Saliva**, steady-state concentrations of salicylic acid in human, after chronic administration of soluble aspirin, 456P
- Saxitoxin**, respiratory and circulatory effects of, in the cerebrospinal fluid, 679
- Secretin**, effects of alloxanate, nicotinic acid and imidazole on pancreatic adenylate cyclase activity stimulated by, 243
- , effects of, on cardiovascular dopamine receptors in the rat, 124P
- Secretion-excitation coupling**, implications for, of estimate of equilibrium dissociation constant for calcium as an antagonist of evoked acetylcholine release, 691
- Sedation**, characterization of α-adrenoceptors which mediate clonidine-induced, 468P
- Serotonergic involvement**, lack of, in turning behaviour induced by a unilateral lesion of locus coeruleus in rats, 482P
- Shigella dysenteriae**, evokes hyperthermia in young chickens following intrahypothalamic injection, 39
- , intravenous injection of antigen of, evokes hyperthermia in young chickens, 29
- Skeletal muscle**, modular system of instruments for simple experiments on, using intracellular microelectrode techniques, 155P
- Skin**, of plaice, presence of a prostaglandin-like substance in, 140P
- Skin stimuli**, noxious and innocuous, effects of enkephalins on responses of cat to, 399

- , noxious and innocuous, effects of noradrenaline and 5-hydroxytryptamine on responses of dorsal horn neurones to, 149P
- Sleep**, development of electrocortical, following intravenous PGE₁ in young chickens, 29
- , effect of (±)-6-fluorotryptophan on, in rat, 485P
- , rapid eye movement, aggressive behaviour, cannabis, and catecholamines, 371
- , produced by clonidine, and histamine receptors in brain, 441
- Slow-reacting substance of anaphylaxis**, IgG_a-induced release of, possible modulatory role for prostacyclin in, 697
- Small intestine**, isolated human, contribution of prostaglandins in muscle of, to neurogenic responses, 573
- Smooth muscle**, dopamine-induced depression of adrenergic nerve-mediated contraction of, 291
- , a selective action of histamine on, of small airways, 156P
- , intestinal and vascular, simultaneous recording of electrical and mechanical activity from, 491P
- Socioactography**, videotape recording of, in rats, 503P
- Sodium**, influence of ionic, on contractility of ouabain in isolated left atria of the guinea-pig, 19
- , involvement of, in uptake of choline into rat brain slices, 111P
- , nicotine-induced noradrenaline release from isolated rat vas deferens reduced or abolished in deficiency or absence of, from the medium, 183
- , evidence of two different [³H]-ouabain binding sites of a Na⁺-K⁺-ATPase of guinea-pig hearts dependent on, 423
- , effect of, on action of melatonin on single amphibian pigment cells in tissue culture, 607
- , ultrastructural changes in atrial sympathetic nerves during perfusion with solutions deficient in, and compensated by potassium or urea, 494P
- Sodium cromoglycate**, effects of, on histamine aerosol-induced reflex bronchoconstriction in the anaesthetized dog, 257
- NaH₂PO₄**, effect of, on blood flow and contractile responses of cat gastrocnemius, 587
- Sodium pentobarbitone**, effects of, on blood pressure, cardiac output and its distribution, 126P
- Soleus muscle**, chronically denervated, role of extracellular calcium in contractions produced by acetylcholine in, 627
- Sotalol**, antagonizes adrenaline-induced responses in spontaneous hypertensive rats, 130P
- , effect of, on delayed differentiation behaviour in *Macaca mulatta*, 474P
- , effect of prior perfusion of, into the dorsal raphe nucleus of the cat on drug-induced electrocortical changes, 297
- , effect of, on action of catechol on convulsive activity in anaesthetized mouse, 433
- South American rattlesnake**, venom from, mode of action at mouse neuromuscular junction of the phospholipase A₂-crotopotin complex isolated from, 597
- Spectrometry**, mass, estimation of plasma nicotine by, 159P
- Spermatogenesis**, effect of α-chlorohydrins on, 455P
- Spinal cord**, isolated frog, interactions of GABA antagonists on, 484P
- Spinal interneurons**, nociceptive and non-nociceptive, correlation between effects of 5-hydroxytryptamine and noradrenaline on, and brain-stem stimulation, 149P
- Spinal neurones**, cat, *in vivo* effects of GABA uptake inhibitors on response of, to GABA neurones, 148P
- Spine**, set point manipulation of hyperthermic effects of morphine by direct action on, 91
- Spiropiperidines**, xanthene-, a new group of centrally-active drugs, 146P
- Steroid replacement**, changes in extensibility of rat cervix in late pregnancy produced by, 501P
- Stomach**, transverse muscle strip from rabbit, a novel tissue for primary isolation of various prostaglandins, 451P
- , human, estimation and characterization of prostaglandins in, 579
- , guinea-pig, modified preparation of, 155P
- Stress**, in rats, effect of, on modification by antidepressant drugs of plasma corticosterone levels, 144P
- Striatum**, rat, effects of chronic (±)-propranolol on catecholamines and GABA in, 152P
- , rat, effects of indolalkylamines on uptake and release of 5-hydroxytryptamine in, 151P
- Structure-activity relationship**, of compounds which block receptors for 5-hydroxytryptamine on sympathetic nerves of rabbit heart, 499P
- Strychnine**, effect of, on response of postsynaptic neurones to etomidate, 484P
- Substantia gelatinosa**, selective antinociceptive effects of morphine administered in the region of, 65
- Substantia nigra**, effect of manipulating GABA in, on striatally mediated head-turning in rat, 483P
- Succinic dehydrogenase**, activity in rat pancreas following chronic administration of D-penicillamine, 120P
- Suxamethonium**, interactions between intravenous anaesthetic agents and, in mice, 486P
- Sympathetic ganglia**, activation of high-affinity choline uptake in, by potassium depolarization, 112P
- Sympathetic nerve**, stimulation of, inhibitory effects of clonidine on responses to, in pithed rat, 559
- , stimulation of, contraction elicited by, relaxation of smooth muscle following, 551
- Sympathetic nerves**, effects of vasodilators on vascular responses to stimulation of, 460P
- , striatal, ultrastructural changes in, during perfusion with solutions deficient in sodium and compensated by potassium or urea, 494P
- , structure-activity relationship of compounds which block receptors for 5-hydroxytryptamine on, in rabbit heart, 499P
- Synaptosomes**, rat brain, uptake of 2-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene into, 478P

T

- Tachycardia**, electrically induced, coronary reactions to, 381
- Taenia coli**, guinea-pig, effects of bradykinin and bradykinin potentiating peptide on mechanical and electrical responses of, 523
- Taipoxin**, a presynaptically active neurotoxin destroys mammalian skeletal muscle, 133P
- Taste aversion**, in rats, comparative potencies of amphetamine, fenfluramine and related compounds in, 669
- Temazepam**, behavioural and pharmacokinetic studies in monkey with, 325

Temperature, effects of autonomic drugs on response of guinea-pig isolated bladder to parasympathetic stimulation affected by, 115P

- , effect of lowered, on cardiac adrenoceptors, 167
- , effect of, on 5-HT binding to human platelets, 453P
- , influence of, on effects of hypothalamically injected prostaglandins in young chickens, 39
- , influence of, on effects of PGE₁ and endotoxin in young chickens, 29
- , core, an inexpensive method for transmitting and receiving changes in, in unrestrained animals, 496P

Testosterone, treatment with, reverses castration-induced responses of rat vas deferens to noradrenaline and motor nerve stimulation, 473P

Tetrabenazine, mode of action of, on peripheral noradrenergic nerves, 339

Δ⁹-Tetrahydrocannabinol, catecholamines, rapid eye movement sleep, and aggressive behaviour, 371

Tetrodotoxin, abolishes electrically-evoked contractions of human bladder strips, 115P

- , respiratory and circulatory effects of, in cerebrospinal fluid, 679

Theophylline, compared with ICI 63197 as phosphodiesterase inhibitors in brain, 119P

- , histamine release and acid secretion from rat isolated gastric mucosa stimulated by db cyclic AMP in presence of, 461P
- , inhibits dextran-induced histamine release from rat mast cells in complete or glucose-free medium, 237

Thermoregulation, do central dopamine receptors have a physiological role in?, 83

Thermoregulatory set point, direct spinal action of morphine alters, 91

Thiopentone, enhances effects of noradrenaline and sympathetic nerve stimulation of rabbit cardiovascular system, 199

- , effect of suxamethonium on mice, after anaesthesia with, 486P

Thrombi, platelet, formation of, effect of prostacyclin on, *in vivo*, 137P

Thrombocytopaenia, aspirin and indomethacin without effect on, following endotoxin, 175

Thrombus formation, modulation of, *in vivo* by prostaglandins, 138P

Thymoxamine, has no effect on clonidine-induced sedation in rats, 468P

Timer/alarm, a versatile laboratory, 503P

(-)-Timolol, inhibition of [³H]-dihydroalprenolol binding to rat lung membranes by, 459P

Tolazoline, antagonizes sedative effect of clonidine in rats, 468P

Trachea, guinea-pig isolated, β-adrenoceptor stimulant properties of OPC-2009, 513

Trifluoroperazine, compared with ICI 63197 as phosphodiesterase inhibitors in brain, 119P

Trimetoquinol, potency and selectivity of, compared with those of OPC-2009 in the dog, 9

Tropacocaine, structure-activity relationship of, for action on 5-hydroxytryptamine receptors of sympathetic nerves of rabbit heart, 499P

Tropine, structure-activity relationship of, for action on 5-hydroxytryptamine receptors of sympathetic nerves of rabbit heart, 499P

Tryptamine, selective blockade of presynaptic receptors for by (-) and (+)-cocaine, 130P

- , uptake of, into storage vesicles of intact human platelets, 223

L-Tryptophan, formation of 3-methylindole from, in rumen of cattle and involvement with fog fever, 285

- , effect of, on action of catechol on convulsive activity in mouse, 433

(+)-Tubocurarine, neuromuscular blocking properties of, compared with AH 10407, 47

- , effect of, on action of phospholipase A₂-crotaopotin complex isolated from venom of South American rattlesnake, at mouse neuromuscular junction, 597

Turning behaviour, lack of serotonergic involvement in, induced by a unilateral lesion of locus coeruleus in rats, 482P

Tyramine, as a substrate for monoamine oxidase activity in human left ventricles *in vitro*, 470P

- , effect of cocaine on cardiac response of pithed rat to, 472P
- , twitch inhibitory effect of, in mouse vas deferens varies according to stimulation frequency, 128P
- , uptake of, into storage vesicles of intact human platelets, 223

[³H]-tyramine, as a substrate for selective inhibition of monoamine oxidase by mexiletine, 118P

Tyrosine hydroxylase, long-term propranolol treatment reduces activity of, in spontaneously hypertensive rats, 318

U

Ultraviolet C, effect of short wavelength, irradiation on arachidonic acid and PGE₂ and PGF_{2α} concentrations in human skin, 445P

Upjohn 44069, effects of, an endoperoxide analogue on rat gastric secretion *in vivo* and *in vitro*, 450P

Upjohn 46619, effects of, an endoperoxide analogue on rat gastric secretion *in vivo* and *in vitro*, 450P

Urea, ultrastructural changes in atrial sympathetic nerves during perfusion with solutions deficient in sodium and compensated by potassium or, 494P

Urecholine, comparative inhibitory effects of QNB and atropine on pancreatic amylase secretion induced by, 97

Urine, identification and quantification of metabolites of bupivacaine in, in the rat, 135P

Uterine effects, of labetalol, in conscious normotensive rats, 505P

Uterus, isolated rat whole, action of bradykinin on, 506P

- , rat pregnant, differential production of prostaglandin by microsomal fractions of, 158P

V

Vas deferens, accumulation of [³H]-corticosterone by rabbit and mouse isolated, 122P

- , effects of castration on mechanical response to motor nerve stimulation of rat, 473P
- , nicotine-induced noradrenaline release from isolated rat, 183
- , mouse, an inhibitory role for noradrenaline in, 649
- , mouse, activity of leucine-enkephalin and some analogues assayed for binding to, 351

Vasoactive substances, influence of, on blood flow and contractile responses of cat gastrocnemius, 587

Vasodilators, effects on vascular response to sympathetic nerve stimulation, 460P

Vein, hepatic portal, effect of tetrabenazine on catecholamine-induced fluorescence in, 339

Vena cava, inferior, effect of tetrabenazine on catecholamine-induced fluorescence in, 339

Venom, of South American rattlesnake, mode of action at mouse neuromuscular junction of the phospholipase A_2 -crotopotin complex isolated from, 597

Ventricular bypass, left, circulatory effects of prostaglandin endoperoxide analogues studied in dog during, 395

Videotape recording, of socioactography in rats, 503P

Viloxazine, modification by, of plasma corticosterone levels in stressed bulbectomized rats, 144P

—, assessment of effectiveness of, to substitute for morphine in opiate-dependent rhesus monkey, 489P

—, simple model for detecting, in olfactory bulbectomized rat, 497P

Vinblastine, effect of, on distribution of T and B lymphocytes, 157P

Vinblastine sulphate, effect of, on acquisition of conditioned avoidance response in goldfish, 153P

Y

Yohimbine, antagonizes sedative effect of clonidine in rats, 468P

—, effect of, on ergometrine-induced twitch inhibition, 129P

—, twitch potentiating effect of, in mouse vas deferens varies according to stimulation frequency and calcium concentration, 128P

X

Xanthene-spiropiperidines, a new group of centrally-active drugs, 146P

Xenopus embryos, tissue cultured single pigment cells from, mode of action of melatonin on, 607

Z

Zymosan, effect of divalent cations on lysosomal enzyme release from macrophages incubated with, 452P

British Journal of Pharmacology

VOLUME 61 NUMBER 4 DECEMBER 1977

- 513 YABUUCHI, Y. The β -adrenoceptor stimulant properties of OPC-2009 on guinea-pig isolated tracheal, right atrial and left atrial preparations
- 523 AARSEN, P.N. The effects of bradykinin and the bradykinin potentiating peptide BPP_{5a} on the electrical and mechanical responses of the guinea-pig taenia coli
- 533 MITCHELL, H.W. & SPARROW, M.P. The effect of catecholamines on the *in vivo* and *in vitro* responses of the cat lung during anaphylaxis
- 541 NORTH, R.A. & TONINI, M. The mechanism of action of narcotic analgesics in the guinea-pig ileum
- 551 ECCLES, R. & MacLEAN, A.G. Relaxation of smooth muscle following contraction elicited by sympathetic nerve stimulation *in vivo*
- 559 DOXEY, J.C. & EVERITT, J. Inhibitory effects of clonidine on responses to sympathetic nerve stimulation in the pithed rat
- 567 WRIGHT, I.G. Kinin, kininogen and kininase levels during acute *Babesia bovis* (= *B. argentina*) infection of cattle
- 573 BENNETT, A. & STOCKLEY, HELEN L. The contribution of prostaglandins in the muscle of human isolated small intestine to neurogenic responses
- 579 BENNETT, A., STAMFORD, I.F. & STOCKLEY, HELEN L. Estimation and characterization of prostaglandins in the human gastrointestinal tract
- 587 HUDLICKA, O. & REIT, E. The influence of vasoactive substances on blood flow and contractile responses of cat gastrocnemius
- 597 HAWGOOD, BARBARA J. & SMITH, J.W. The mode of action at the mouse neuromuscular junction of the phospholipase A-crotopotin complex isolated from venom of the South American rattlesnake
- 607 MESSENGER, E. ANGELA & WARNER, ANNE E. The action of melatonin on single amphibian pigment cells in tissue culture
- 615 HOULT, J.R.S. & MOORE, P.K. Pathways of prostaglandin F_{2a} metabolism in mammalian kidneys
- 627 GALL, MOIRA T., MALEQUE, M.A. & WADSWORTH, R.M. The role of extracellular calcium in the contractions produced by acetylcholine in chronically denervated muscle
- 639 HUGHES, J., KOSTERLITZ, H.W. & SMITH, T.W. The distribution of methionine-enkephalin and leucine-enkephalin in the brain and peripheral tissues
- 649 JENKINS, D.A., MARSHALL, I. & NASMYTH, P.A. An inhibitory role for noradrenaline in the mouse vas deferens
- 657 DAWBORN, J.K., MACNEIL, S. & MARTIN, T.J. Diuretics and the renal adenylate cyclase system
- 669 BOOTH, D.A., D'MELLO, G.D., PILCHER, C.W.T. & STOLERMAN, I.P. Comparative potencies of amphetamine, fenfluramine and related compounds in taste aversion experiments in rats
- 679 BORISON, H.L. & MCCARTHY, L.E. Respiratory and circulatory effects of saxitoxin in the cerebrospinal fluid
- SHORT COMMUNICATIONS**
- 691 SILINSKY, E.M. An estimate of the equilibrium dissociation constant for calcium as an *antagonist* of evoked acetylcholine *release*: implications for excitation-secretion coupling
- 694 JONES, R.L. & MARR, C.G. Actions of 16-aryloxy analogues of prostaglandin F_{2a} on preparations responsive to prostaglandin endoperoxides
- 697 BURKA, J.F. & GARLAND, L.G. A possible modulatory role for prostacyclin (PGI₂) in IgG_a-induced release of slow-reacting substance of anaphylaxis in rats
- 700 PEARL, J. & WOODWARD, W.A. Effect of apomorphine and its *N*-propyl homologue on ethanol withdrawal head twitches in mice
