---

Papers will be considered for publication on all aspects of drug action, including chemotherapy.

Manuscripts (two copies) should be sent to Dr A. Ungar, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh EH8 9JZ. Authors should consult the instructions inside the back cover.

*The British Journal of Pharmacology* is published monthly by Macmillan Journals Ltd, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633, ISSN 0007-1188.

Annual subscription UK £57.50; USA & Canada, US \$130; Rest of world, US \$120; Airmail, US \$165 (or equivalent in any other currency). (Orders must be accompanied by remittance. Prices correct at time of publication.)

Cheques should be made payable to Macmillan Journals Limited: Subscription Department, Brunel Road, Basingstoke, Hampshire RG21 2XS, England. Where appropriate, overseas subscribers may make payments into UK Post Office Giro Account No. 519 2455. Full details must accompany the payment.

Enquiries concerning advertising space and rates should be addressed to: Advertisement Department, Macmillan Journals Limited, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

Copyright © 1979 by the *British Journal of Pharmacology*. All rights of reproduction are reserved in respect of all papers, articles, illustrations, etc., published in this journal in all countries of the world.

Second class postage paid at New York, N.Y.  
US Mailing Agent: Expeditors of the Printed Word, Inc.,  
Suite 1217, 527 Madison Avenue, New York, NY 10022.

## BRITISH MEDICAL BULLETIN

Each Issue a Symposium on an Important Aspect of Contemporary Medical Research

VOL. 35, NO. 2

MAY 1979

### REPRODUCTION

Scientific Editor: *R V Short*

Introduction	<i>R V Short</i>	Neuroendocrine control of gonadotrophin secretion	<i>G Fink</i>
Regulation of meiosis in mammalian oocytes	<i>R M Moor &amp; G M Warnes</i>	Gonadotrophic regulation of ovarian activity	<i>K M Henderson</i>
In-vitro fertilization, embryo transfer and storage	<i>D G Whittingham</i>	Pituitary control of testicular activity	<i>G A Lincoln</i>
Control of early development	<i>E D Adamson &amp; R L Gardner</i>	Prostaglandins in the control of animal and human reproduction	<i>Sultan M M Karim &amp; Keith Hillier</i>
Sex determination and differentiation	<i>R V Short</i>	The chromosomal basis of human infertility	<i>Ann C Chandley</i>
Role of embryonic signals in the establishment of pregnancy	<i>R B Heap, A P Flint &amp; J E Gadsby</i>	Endocrinology of male infertility	<i>D M de Kretser</i>
Growth of the fetus	<i>J S Robinson</i>	Endocrinology of female infertility	<i>David T Baird</i>
Initiation of parturition	<i>G C Liggins</i>	Contraceptive research and development	<i>R J Aitken</i>
Effects of lactation on fertility	<i>Alan S McNeilly</i>		

Price: UK, £5.00; Other countries, £6.00; USA and Canada, \$12.50

## British Journal of Pharmacology

British Journal of Pharmacology provides up-to-date research on all aspects of drug action essential to those involved in pharmacology. Ensure you receive this information each month by taking a subscription.

Subscription Dept, Macmillan Journals Ltd, Brunel Road, Basingstoke, Hants RG21 2XS, England.

Please enter me for a year's subscription to the **BRITISH JOURNAL OF PHARMACOLOGY** starting with the issue dated . . . . .

I enclose payment of £57.50; USA & Canada, US \$130; Rest of world, US \$120; Airmail, US \$165 (or equivalent in any other currency).

Prices correct at time of publication. Payment may be made in any currency at the current exchange rates. Orders can only be processed if accompanied by the correct remittance. Cheques should be made payable to Macmillan Journals Ltd.

# SUBJECT INDEX

## A

- A23187**, calcium ionophore, effect of, on release of histamine from rat peritoneal mast cells treated with compound 48/80 and peptide 401, 395
- , calcium ionophore, utilization of adenosine triphosphate in rat mast cells during histamine release induced by, 103
  - , calcium ionophore, effects of modulators of arachidonic acid metabolism on synthesis and release of slow-reacting substance of anaphylaxis from rat isolated peritoneal cells challenged with, 35
- AH 3474**, effect of, on  $\alpha$ -adrenoceptor in rat liver, to demonstrate effect of *N*-aralkyl substitution, 155
- Acetyl- $\beta$ -methyl choline**, effect of, on acetylcholine-induced excitation of rat subthalamic nucleus neurones, 511
- Acetylcholine**, catecholamine release induced by, from rat adrenal medulla, effects of verapamil, dantrolene and lanthanum on, 641
- , excitation of rat subthalamic nucleus neurones by, pharmacological properties of, 511
  - , neuromuscular transmission of, effects of (+)-tubocurarine, atropine and magnesium ion on, in isolated diaphragm of normal and dystrophic mice, 411
  - , effect of, on bladder and urethral activity of the dog, 367
  - , effect of microelectrophoretically applied, on single cortical neurones of cerebral cortex of rat, compared with (3,4-dihydroxy-phenylamino)-2-imidazoline, 701
  - , effect of, on blood flow through and salivation of dog salivary gland, compared with vasoactive intestinal peptide, glucagon and acetylcholine, 683
  - , effect of morphine on sensitivity of mouse deferens to, 623
  - , release of, from neuromuscular junction of cat, 249
  - , effects of procaine and extracellular calcium concentration on response of rat stomach fundus muscle to, 593
  - , effect of, on exocytotic release of catecholamines and dopamine- $\beta$ -hydroxylase from perfused adrenal gland of rabbit and cat, 117
  - , release of, from frog and chick nerve-muscle preparations, effect of 4-aminopyridine on, 53
  - , release of, from guinea-pig ileal segments, effect of kryptopyrrole on, 23
  - , effect of, on nerve-induced parotid secretion, effect of morphine on, 7
- [ $^3$ H]-acetylcholine**, release of, from isolated retina of rat by potassium depolarization: dependence on high affinity choline uptake, 271
- Acetylcholine antagonists**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- Acetylcholine receptor**, extrajunctional, in rat soleus muscle, action of colchicine and cytochalasin B on, 483
- Adenosine**, effect of, on contractions of rat urinary bladder, 97
- , effect of, on vasoconstrictor action of compound 48/80 in rat femoral vasculature, 363
- [ $^3$ H]-adenosine**, effect of, on release of  $^3$ H-adenyl compounds from longitudinal muscle of rabbit or guinea-pig portal vein induced by intramural nerve stimulation, 377
- Adenosine 5'-monophosphate**, effect of, on contractions of rat urinary bladder, 97
- Adenosine 3',5'-monophosphate**, cyclic, and the mechanism of action of three common anti-inflammatory drugs, 163
- , dibutyl cyclic, effect of, on effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
  - , cyclic, catecholamine release mediated by, dependence of, on calcium from intracellular sources in rat adrenal medulla, 641
  - , cyclic, involvement of, in inhibition of firing of single neurones from guinea-pig ileum myenteric plexus, 647
  - , dibutyl cyclic, involvement of, in inhibition of firing of single neurones from guinea-pig ileum myenteric plexus, 647
  - , dibutyl cyclic, steroidogenic response to, in rat adrenal cell suspensions, effect of opioid drugs and of lithium on, 671
- Adenosine 5'-triphosphatase**,  $\text{Na}^+$ ,  $\text{K}^+$ -, membrane, as a mechanism for transmembrane transport of cardiac glycosides, 403
- ,  $\text{Na}^+$ ,  $\text{K}^+$ , role of, in molecular mechanism for calorigenic actions of thyroid hormones in rat skeletal muscle membrane, 615
- Adenosine 5'-triphosphate**, effects of, on rat urinary bladder, 97
- , decreased capacity of vascular smooth muscle of rabbit isolated perfused femoral and renal arteries leading to loss of pressor response to noradrenaline produced by hypoxia and dinitrophenol, 587
  - , effect of, on longitudinal muscle of guinea-pig or rabbit portal vein, 377
  - , -independent binding of [ $^3$ H]-ouabain to brain and cardiac tissue *in vitro*, 403
  - , utilization of, in rat mast cells during histamine release induced by calcium ionophore A23187, 103
- Adenylate cyclase system**, of rabbit blood platelets, role of, in effect of Concanavalin A on 5-hydroxytryptamine uptake of, and on their ultrastructure, 557
- Adrenal gland**, perfused rabbit and cat, exocytotic release of catecholamines and dopamine- $\beta$ -hydroxylase from, 117
- , guinea-pig perfused, effect of veratridine on release of catecholamines from, 319
  - , rat, cell suspensions of, effects of opioid drugs and of lithium on steroidogenesis in, 671
- Adrenal medulla**, rat, effects of verapamil, dantrolene and lanthanum on catecholamine release from, 641
- Adrenaline**, exocytotic release of, from perfused adrenal gland of rabbit and cat, 117
- , effect of, on sodium and chloride permeability across frog skin epithelium, 579

- , response of cat to, used to compare pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction with vascular post-junctional  $\alpha$ -receptors in skeletal muscle, 249
- , and noradrenaline, appearance of, and the developmental changes in their concentrations in gut of chick, 257
- , evidence that it is released from adrenergic neurones in rectum of fowl, 261
- , effect of veratridine on release of, from guinea-pig perfused adrenal gland, 319
- , effect of morphine on sensitivity of mouse vas deferens to, 623
- , content and subcellular localization of, in human and animal blood platelets, monoamine distribution between platelets and plasma, 653
- Adrenergic drugs**, affinity of, for  $\alpha$ -adrenoceptor in rat liver, *N*-aralkyl substitution increases, 155
- Adrenergic neurones**, in rectum of fowl, evidence that adrenaline is released from, 261
- Adrenoceptor agonists**, affinity of, for  $\alpha$ -adrenoceptor in rat liver, effect of *N*-aralkyl substitution on, 155
- Adrenoceptor antagonists**,  $\alpha$ - and  $\beta$ -, effects of, on bladder and urethral activity of the dog, 367
- $\beta$ -Adrenoceptor antagonists**, prevention and reversal of isolation-induced systolic arterial hypertension in rats by treatment with, 205
- $\beta$ -Adrenoceptor blockade**, as major mechanism by which lysosome disruption is prevented by propranolol in anoxic myocardium of guinea-pig, 479
- $\beta$ -Adrenoceptor-blocking drugs**, central effects of, on cardiovascular parameters in rats, 389
- Adrenoceptors**, in preoptic/anterior hypothalamic area, role of, in temperature regulation of rats, 43
- , mediating catecholamine-induced hyperpolarization of isolated cervical sympathetic ganglia of the rat, characterization of, 435
- $\alpha$ -Adrenoceptors**, pre-junctional, at neuromuscular junction, comparison of, with vascular post-junctional  $\alpha$ -receptors in cat skeletal muscle, 249
- , in rat liver, *N*-aralkyl substitution increases affinity of adrenergic drugs for, 155
- $\beta$ -Adrenoceptors**, in detrusor muscle of man, 215
- $\alpha$ - and  $\beta$ -adrenoceptors**, in detrusor muscle and bladder base of pig, 215
- Adrenocorticotrophic hormone**, steroidogenic response to, in rat adrenal cell suspensions, effects of opioid drugs and of lithium on, 671
- Agglutinin**, wheat germ, effect of, on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- Aggressive behaviour**, in mice, effects of drugs on, 525
- Alanine**, effect of substance P on brain concentration of, after injection into rat substantia nigra, 423
- $\beta$ -Alanine**, response of guinea-pig olfactory cortex slice to, recorded with extracellular electrodes, 347
- , inhibitory effect of, on spike discharges in guinea-pig cerebellar slices, augmentation by chlordiazepoxide, 277
- , depolarization of neurones in isolated olfactory cortex of guinea-pig by, 339
- Alkaline earth cations**, effect of, on release of histamine from rat peritoneal mast cells treated with compound 48/80 and peptide 401, 395
- N*-alkyl substitution**, effect of, on affinity of adrenergic drugs for  $\alpha$ -adrenoceptor in rat liver, 155
- Amidephrine**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435
- $\beta$ -Amino-*n*-butyric acid**, response of guinea-pig olfactory cortex slice to, recorded with extracellular electrodes, 347
- , depolarization of neurones in isolated olfactory cortex of guinea-pig by, 339
- 2-Amino-6,7-dihydroxytetrahydro-naphthalene**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435
- Amino group**, substitution on, effect of, on affinity of adrenergic drugs for  $\alpha$ -adrenoceptor in rat liver, 155
- $\alpha$ -Amino-isobutyric acid**, response of guinea-pig olfactory cortex slice to, recorded with extracellular electrodes, 347
- $\gamma$ -Aminobutyric acid**, presynaptic responses to, in rat olfactory cortex, 223
- , responses of guinea-pig isolated olfactory cortex slice to, recorded with extracellular electrodes, 347
- , inhibitory effect of, on spike discharges in guinea-pig cerebellar slices, augmentation by chlordiazepoxide, 277
- , depolarization of neurones in isolated olfactory cortex of guinea-pig by, 339
- , effect of substance P on brain concentration of, after injection into rat substantia nigra, 423
- $\epsilon$ -Aminocaproic acid**, response of guinea-pig olfactory cortex slice to, recorded with extracellular electrodes, 347
- 3-Aminopropanesulphonic acid**, depolarization of neurones in isolated olfactory cortex of guinea-pig by, 339
- , response of guinea-pig isolated olfactory cortex slice to, recorded with extracellular electrodes, 347
- , effect of, on slices of rat olfactory cortex, 223
- 4-Aminopyridine**, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63
- , comparison of facilitatory actions of, and 4-aminopyridine methiodide on neuromuscular transmission in frog and chick, 53
- 4-Aminopyridine methiodide**, comparison of facilitatory actions of, and 4-aminopyridine on neuromuscular transmission in frog and chick, 53
- $\delta$ -Aminovaleric acid**, response of guinea-pig isolated olfactory cortex slice to, recorded with extracellular electrodes, 347
- Amitriptyline**, relative toxicity of, imipramine, maprotiline and mianserin in rabbits *in vivo*, 331
- Amphetamine**, effect of, on short- and long-term effects of reserpine on concentration of 1-(4-hydroxy-3-methoxyphenyl)-ethane-1,2-diol (MOPEG-SO<sub>4</sub>) in brain of rat, 573
- , effect of, on effect of substance P injected into rat substantia nigra on circling behaviour, 423
- , glycogenolysis induced by, in mouse brain, effect of pargyline and desmethylinipramine on, 489
- (+)-Amphetamine**, effect of, on behaviour in aggressive mice, 525

**Amylobarbitone.** effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63

**Anaesthetics.** depression of drug metabolism in mouse by a combination of, 111

**Angiotensin.** response of isolated splenic strips of cat to, effect of cocaine on, 689

**Angiotensin I.** metabolism of, by rat isolated lungs, effects of cigarette smoke on, 495

**Angiotensin II.** vascular sensitivity to, in pregnant rabbit, effects of deprivation of prostaglandins precursors on, 29

**Anoxia.** effect of, on stabilization of lysosomes in isolated myocardium of guinea-pig, by propranolol, 479

**Antazoline.** effect of, on longitudinal muscle of rabbit or guinea-pig portal vein, 377

**Anticholinesterase.** treatment of chick biventer cervicis muscle with, effect of, on reversal of tubocurarine block by 4-aminopyridine methiodide, 53

**Anticholinesterase activity.** effect of physostigmine on 5-hydroxytryptamine release from cerebral cortex of cat, not related to, 547

**Anticholinesterases.** actions of, on cat skeletal muscle, effects of muscarinic antagonists on, 565

**Antidepressant drugs.** potentiation of responses to monoamines by, after destruction of monoamine afferents, 501

—, relative toxicity of, in rabbits *in vivo*, 331

**Anti-inflammatory drugs.** effects of, on effect of arachidonic acid on metabolic coronary vaso-dilatation resulting from cardiac hyperactivity induced by noradrenaline, calcium chloride, tachycardia or glucagon in rat, 71

—, three common, mechanism of action of, and cyclic adenosine 3',5'-monophosphate, 163

**Antimycin A.** effect of, on utilization of adenosine triphosphate in rat mast cells during histamine release induced by calcium ionophore A23187, 103

**Antinociception.** drug-induced, on the role of 5-hydroxytryptamine in, in rat, 677

**Anti-oestrogens.** non-steroidal, binding of [<sup>3</sup>H]-oestradiol-17 $\beta$  in immature rat uterus during sequential administration of, 167

**Apomorphine.** effect of, on effect of substance P injected into rat substantia nigra on circling behaviour, 423

**Arachidonate.** metabolites of, role of histamine H<sub>1</sub>- and H<sub>2</sub>-receptors in generation of, in perfused guinea-pig lungs, 629

—, blood flow changes induced by, during inflammation of rabbit dorsal skin, effect of indomethacin on, 517

**Arachidonic acid.** effect of, on metabolic coronary vaso-dilatation resulting from cardiac hyperactivity induced by noradrenaline, calcium chloride, tachycardia or glucagon in rat, 71

—, metabolism of, modulators of, effects of, on synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum, 35

**N-aralkyl substitution.** increases the affinity of adrenergic drugs for the  $\alpha$ -adrenoceptor in rat liver, 155

**Arecoline.** effect of, on heart rate and blood pressure in cat, dog or rat treated with methylatropine, 15

**Arginine.** effect of, on DOPA-induced arousal in reserpine-treated rabbits, 303

**Arousal.** DOPA-induced, reversal of, by histidine, in reserpine-treated rabbits and mice, 303

**Arteries.** isolated rabbit, protective action of inosine on, in hypoxia, 587

**Arthritis.** urate, prostaglandin D<sub>2</sub> is the prevailing prostaglandin in acute inflammatory exudate of, 357

**Aspartate.** effect of substance P on brain concentration of, after injection into rat substantia nigra, 423

—, further observations of interaction between, and glutamate on lobster muscle, 287

**Aspartate aminotransferase.** effect of a combined oestrogen-progestin preparation on serum concentration of, in cat, 87

**Atenolol.** effect of, on isolation-induced systolic arterial hypertension in rats, 205

**Atria.** guinea-pig and cat, extraneuronal accumulation of isoprenaline in, a fluorescence histochemical study of, 175

**Atropine.** effect of, on effect of carbachol on temperature regulation of rats, 43

—, effect of, on effects of some hydrophobic gases on pulmonary surfactant system, 229

—, effect of, on effect of veratridine on release of catecholamines from guinea-pig perfused adrenal gland, 319

—, effect of, on bladder and urethral activity of the dog, 367

—, effect of, on relaxation of longitudinal muscle of rabbit or guinea-pig portal vein, 377

—, effect of, on twitch responses of isolated diaphragm of normal and dystrophic mice, 411

—, effect of, on acetylcholine-induced excitation of rat subthalamic nucleus neurones, 511

## B

**Bacitracin.** effect of, injected into rat substantia nigra, on circling behaviour, 423

**Barbitone.** effect of, on behaviour in aggressive mice, 525

—, tolerance induced by, to effects of sedative-hypnotics and related compounds on operant behaviour in rat, 183

**Barbiturates.** effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63

**Barium ion.** effect of, on release of histamine from rat peritoneal mast cells treated with compound 48/80 and peptide 401, 395

—, effect of, on exocytotic release of catecholamines and dopamine- $\beta$ -hydroxylase from perfused adrenal gland of rabbit and cat, 117

**Behaviour.** effects of drugs on, in aggressive mice, 525

—, circling, in rat, effects of substance P injected into substantia nigra, 423

**Behavioural effects.** of histidine, in rabbits and mice, assessment of, 303

**Bicuculline.** effect of, on effect of  $\gamma$ -aminobutyric acid on slices of rat olfactory cortex, 223

—, effect of, on responses of guinea-pig olfactory cortex slice to  $\gamma$ -aminobutyric acid recorded with extracellular electrodes, 347

**Bile acids.** biliary secretion of, in cat, effects of a combined oestrogen-progestin preparation on, 87

- Biliary secretion**, of bile salts, phospholipids and cholesterol in cat, effects of a combined oestrogen-progestin preparation on, 87
- Biventer cervicis nerve-muscle preparation**, from chick, comparison of facilitatory actions of 4-aminopyridine methiodide and 4-aminopyridine on neuromuscular transmission in, 53
- Bladder**, rat urinary, effects of adenosine 5'-triphosphate and  $\beta$ - $\gamma$ -methylene adenosine 5'-triphosphate on, 97
- , activity of, in dog, role of hypogastric nerve in, 367
- Bladder base**, of pig,  $\alpha$ - and  $\beta$ -adrenoceptors in, 215
- Blood flow**, changes in, during inflammation of rabbit dorsal skin, effects of prostaglandins on, 517
- , through, and salivation of dog salivary gland, assessment of effects of vasoactive intestinal peptide on, in comparison with those of secretin, glucagon and acetylcholine, 683
- Blood platelets**, rabbit, 5-hydroxytryptamine uptake by and ultrastructure of, effect of Concanavalin A on, 557
- , rabbit; shape change of, a model for cerebral 5-hydroxytryptamine receptors?, 601
- , human and animal, content and subcellular localization of catecholamines and 5-hydroxytryptamine in, monoamine distribution between platelets and plasma, 653
- Blood pressure**, basal, effects of deprivation of prostaglandin precursors on, in pregnant rabbit, 29
- , systolic, in rats during isolation-induced hypertension, effect of treatment with  $\beta$ -adrenoceptor antagonists, 205
- , central effects of  $\beta$ -adrenoceptor-blocking drugs and isoprenaline on, in rats, 389
- Bradykinin**, plasma exudation induced by, during inflammation of rabbit dorsal skin, effect of prostaglandins on, 517
- , metabolism of, by rat isolated lungs, effects of cigarette smoke on, 495
- Brain**, mouse, effect of pargyline and desmethylinipramine on monoamine concentrations and amphetamine-induced glycogenolysis in, 489
- , rat, effects of substance P injected into, 423
- , saturable adenosine 5'-triphosphate-independent binding of [ $^3$ H]-ouabain to, *in vitro*, 403
- , rabbit, shape change of blood platelets in, a model for 5-hydroxytryptamine receptors in?, 601
- , rat, short- and long-term effects of reserpine on concentration of 1-(4-hydroxy-3-methoxyphenyl)-ethane-1,2-diol (MOPEG-SO<sub>4</sub>) in brain of rat, 573
- , slices and homogenates, rat, comparison of binding of [ $^3$ H]-quinuclidinyl benzilate to muscarinic receptors in, 451
- , of rats treated chronically with morphine, synthesis rate and turnover time of 5-hydroxytryptamine in, 311
- Bromocresol green**, effect of, on prostaglandin uptake in rat isolated lung, 635
- Butoxamine**, relative potency of in smooth muscle of pig, 215
- C**
- Caffeine**, effect of, on prostaglandin uptake in rat isolated lung, 635
- Calcium chloride**, cardiostimulation induced by, continuous recording of cardiac contractions and coronary flow from isolated perfused rat heart used to study coronary reactions to, 71
- , response of rat isolated vas deferens and hepatic portal vein to, effect of pancuronium on, 473
- Calcium ion**, effect of, on effect of veratridine on release of catecholamines from guinea-pig perfused adrenal gland, 319
- , requirements for, for electrically induced release of an endogenous opiate receptor ligand from guinea-pig ileum, 3
- , extracellular concentration of, effect of, on response of rat stomach fundus muscle to acetylcholine and 5-hydroxytryptamine, 593
- , cell-fixed, role of, in histamine release induced by compound 48/80 from rat mast cells, 609
- , permeability to, in rat adrenal medulla, effects of verapamil and lanthanum on, leading to inhibition of catecholamine release, 641
- Calcium**, investigation of role of, in supersensitivity produced by cocaine in cat spleen strips, 689
- , effect of, on release of catecholamines from adrenergic neurones in rectum of fowl, 261
- , effect of, on release of histamine from rat peritoneal mast cells treated with compound 48/80 and peptide 401, 395
- , effect of, on hyperpolarization of isolated superior cervical sympathetic ganglia of the rat, 435
- Calcium ionophore**, A23187, effects of modulators of arachidonic acid metabolism on synthesis and release of slow-reacting substance of anaphylaxis from rat isolated peritoneal cells challenged with, 35
- , A23187, utilization of adenosine triphosphate in rat mast cells during histamine release induced by, 103
- , A23187, effect of, on release of histamine from rat peritoneal mast cells treated with compound 48/80 and peptide 401, 395
- Carbachol**, effect of, on temperature regulation of rats, 43
- , contractions of rat urinary bladder induced by, effects of adenosine 5'-monophosphate and adenosine on, 97
- , effect of, on slices of rat olfactory cortex, 223
- , effect of, on effect of 5-hydroxytryptamine in nerve-muscle preparations from guinea-pig small intestine and colon, 237
- Carbamate**, twitch augmentation induced by, effect of muscarinic antagonists on, in cat skeletal muscle, 565
- Carbon tetrafluoride**, effect of, on pulmonary surfactant system, 229
- Carbonyl cyanide *p*-trifluoromethoxy-phenylhydrazone**, effect of, on utilization of adenosine triphosphate in rat mast cells during histamine release induced by calcium ionophore A23187
- , effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63
- Cardiac glycosides**, Na<sup>+</sup>, K<sup>+</sup>-adenosine 5'-triphosphatase as a mechanism for transmembrane transport of, 403
- Cardiac output**, central effects of  $\beta$ -adrenoceptor-blocking drugs and isoprenaline on, in rats, 389
- Cardiac responses**, to sympathetic neurotransmitters, dependence of rate on ontogeny of, in pre-weanling rats, 431

- Cardiostimulation**, continuous recording of cardiac contractions and coronary flow from isolated perfused rat heart to study coronary reactions to, induced by noradrenaline, calcium chloride, tachycardia or glucagon, 71
- Cardiovascular changes**, consequent upon cigarette smoking, role of metabolic activity of rat isolated lung towards some vasoactive hormones in pulmonary circulation in, 495
- Cardiovascular parameters**, in rats, central effects of  $\beta$ -adrenoceptor-blocking drugs and isoprenaline on, 389
- Catechol-O-methyltransferase**, role of, in extraneuronal accumulation of isoprenaline in trachea and atria of guinea-pig and cat, 175
- Catecholamines**, exocytotic release of, from perfused adrenal gland of rabbit and cat, 117
- , affinity of, for  $\alpha$ -adrenoceptor in rat liver, effect of *N*-aralkyl substitution on, 155
  - , release of, from guinea-pig perfused adrenal gland, effect of veratridine on, 319
  - , release of, from rat adrenal medulla, effects of verapamil, dantrolene and lanthanum on, 641
  - , content and subcellular localization of, in human and animal blood platelets, monoamine distribution between platelets and plasma, 653
  - , receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia of the rat induced by, characterization of, 435
- Cc-25**, effect of, on  $\alpha$ -adrenoceptor in rat liver, to demonstrate effect of *N*-aralkyl substitution, 155
- Cerebellar slices**, guinea-pig, spike discharges in, augmentation by chlordiazepoxide of inhibitory effects of taurine,  $\beta$ -alanine and  $\gamma$ -aminobutyric acid on, 277
- Cerebral cortex**, cat, effects of morphine, physostigmine and Raphe nuclei stimulation on 5-hydroxytryptamine release from, 547
- Cervical sympathetic ganglia**, rat isolated superior, characterization of receptors mediating hyperpolarization of, by catecholamines, 435
- Chlordiazepoxide**, augmentation by, of inhibitory effects of taurine,  $\beta$ -alanine and  $\gamma$ -aminobutyric acid on spike discharges in guinea-pig cerebellar slices, 277
- , effect of, on behaviour in aggressive mice, 525
- Chloride ion**, effect of, on effect of  $\gamma$ -aminobutyric acid on slices of rat olfactory cortex, 223
- , passive mucosal to serosal permeability of, across frog skin, effect of 5-hydroxytryptamine on, 579
  - , permeability membrane to, role of, in effect of chlordiazepoxide on inhibitory effect of taurine,  $\beta$ -alanine and  $\gamma$ -aminobutyric acid on spike discharges in guinea-pig cerebellar slices, 277
- Chlorimipramine**, potentiation by, of responses to monoamines of cortical neurones after lesion of median forebrain bundle, 501
- , effect of, on effect of Raphe nuclei stimulation on 5-hydroxytryptamine release from cerebral cortex of cat, 547
- Chlorisondamine**, use of, to evaluate dependence of heart rate on sympathetic nerve development and on ontogeny of cardiac responses to sympathetic neurotransmitters in pre-weanling rats, 431
- Chloroform**, effect of, on pulmonary surfactant system, 229
- Chlorpheniramine**, effect of, on sedative effects induced by histidine after DOPA-induced arousal in reserpine-treated rabbits, 303
- Chlorpromazine**, effect of, on behaviour in aggressive mice, 525
- , effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- Cholesterol**, biliary secretion of, in cat, effects of a combined oestrogen-progestin preparation on, 87
- Choline**, high affinity uptake of, effect of, on release of [ $^3$ H]-acetylcholine from isolated retina of rat by potassium depolarization, 271
- , replacement of sodium by, in rat adrenal cell suspensions, effect of, on steroidogenesis, 671
- Cholinoceptors**, in anterior hypothalamus, role of, in temperature regulation of rats, 43
- Cigarette smoke**, effects of, on metabolism of vasoactive hormones in rat isolated lungs, 495
- Cimetidine**, effect of, on generation of arachidonate metabolites in perfused guinea-pig lungs, 629
- , use of, to differentiate roles of histamine  $H_1$ - and  $H_2$ -receptors in mediation of effects of histamine in isolated working heart of guinea-pig, 127
- Cinchocaine**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- Circling behaviour**, in rat, effects of substance P injected into substantia nigra, 423
- Citalopram**, effect of, on drug-induced antinociception in rat, 677
- Clonidine**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435
- , response of cat to, used to compare pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction with vascular post-junctional  $\alpha$ -receptors in skeletal muscle, 249
- Cocaine**, supersensitivity produced by, in cat spleen strips, role of calcium in, 689
- , response of rat isolated vas deferens to, effect of pancuronium on, 473
- Colchicine**, effect of, on concentration of cyclic adenosine 3',5'-monophosphate in leucocytes in rat, 163
- , effect of, on effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
  - , action of, on the extrajunctional acetylcholine receptor in rat soleus muscle, 483
- Colon**, guinea-pig, sites of action of 5-hydroxytryptamine in nerve-muscle preparations from, 237
- Compound 48/80**, role of cell-fixed calcium in histamine release from rat mast cells induced by, 609
- , role of 5-hydroxytryptamine in vasoconstrictor action of, in rat femoral vasculature, 363
  - , rat peritoneal mast cells treated with, effect of alkaline earth cations on release of histamine from, 395
- Concanavalin A**, effect of, on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- Contractile proteins**, role of, in effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- Coronary vasodilatation**, metabolic, resulting from cardiac hyperactivity induced by noradrenaline, calcium chloride, glucagon or tachycardia in rat, 71

- Cortical neurones**, single, in cerebral cortex of rat, action of microelectrophoretically applied (3,4-dihydroxyphenylamino)-2-imidazoline on, 701
- , effects of lesions of medial forebrain bundle on potentiation by antidepressant drugs of responses to monoamines of, 501
- Corticosterone**, secretion of, stress-induced, in mice, effects of opiate receptor agonists and antagonists on, 139
- Creatinine sulphate complex**, effect of, on sodium and chloride permeability across frog skin epithelium, 579
- Cyclic nucleotides**, inhibition of neuronal firing in single neurones of guinea-pig ileum myenteric plexus, by opiates as evidence against involvement of, 647
- Cytochalasin**, effect of, on effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- Cytochalasin B**, action of, on the extrajunctional acetylcholine receptor in rat soleus muscle, 483
- D**
- Dantrolene**, effect of, on catecholamine release from rat adrenal medulla, 641
- S-n-decyl-thiouronium**, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63
- Desipramine**, potentiation by, of responses to monoamines of cortical neurones after lesion of median forebrain bundle, 501
- Desmethylinipramine**, effect of, on monoamine concentrations and amphetamine-induced glycogenolysis in mouse brain, 489
- , effect of, on response of isolated splenic capsular strips of cat to (–)-noradrenaline, 689
- , effect of, on metabolism of 5-hydroxytryptamine and  $\beta$ -phenylethylamine by monoamine oxidase in perfused rat lung and *in vitro*, 147
- Detrusor muscle**, of man and pig,  $\alpha$ - and  $\beta$ -adrenoceptors in, 215
- Dexamethasone**, effect of, on synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum and isolated peritoneal cells, 35
- , effect of, on concentration of cyclic adenosine 3'-5'-monophosphate in leucocytes in rat, 163
- L-2,4-Diaminobutyric acid**, depolarization of neurones in isolated olfactory cortex of guinea-pig by, 339
- Diaphragm**, isolated, of the dystrophic (Rej 129) mouse, pharmacological aspects of neuromuscular transmission in, 411
- Diaphragm muscle**, rat, effects of 2,4-dinitrophenol and amylobarbitone on force of contraction of isolated curarized, 63
- Diazepam**, effect of, on behaviour in aggressive mice, 525
- Dichloroisoprenaline**, effect of, on sodium and chloride permeability across frog skin epithelium, 579
- 4',4'-Diformyl-2-bibenzyl oxyacetic acid**, and its bisulphite addition compound, species differences in binding of, to adult human and horse haemoglobins as reflected in oxygen dissociation curves, 535
- Digitalis**, contention that there are intracellular inotropic receptors for, 403
- [<sup>3</sup>H]-dihydroergocryptine**, use of, to study  $\alpha$ -adrenoceptor of rat liver plasma membranes, 155
- (3,4-Dihydroxyphenylamino)-2-imidazoline** action of microelectrophoretically applied, on single cortical neurones in cerebral cortex of rat, 701
- Dimaprit**, use of, to differentiate roles of histamine H<sub>1</sub>- and H<sub>2</sub>-receptors in mediation of effects of histamine in isolated working heart of guinea-pig, 127
- , effect of, on generation of thromboxane A<sub>2</sub> in perfused guinea-pig lungs, 629
- 2,4-Dimethyl-3-ethylpyrrole**, and its oxidation products, pharmacological properties of, on isolated sciatic nerve of rat and on guinea-pig ileum, 23
- 1,1-Dimethyl-4-phenylpiperazinium**, effect of, on effect of 5-hydroxytryptamine in nerve-muscle preparations from guinea-pig small intestine and colon, 237
- N',N'-dimethylated tryptamines**, effect of, on shape changes induced by tryptamine, 5-hydroxytryptamine, quipazine and mescaline, 601
- 4,6-Dinitro-o-cresol**, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63
- Dinitrophenol**, protective action of inosine on rabbit isolated perfused femoral and renal arteries treated with, during hypoxia, 587
- 2,4-Dinitrophenol**, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63
- Diphenhydramine**, effect of, on sedative effects induced by histidine after DOPA-induced arousal in reserpine-treated rabbits, 303
- Diphenylhydantoin**, tolerance induced by, to effects of sedative-hypnotics and related compounds on operant behaviour in rat, 183
- 2,3-Diphosphoglycerate**, species differences in binding of, to adult human and horse haemoglobins as reflected in oxygen dissociation curves, 535
- 5,5'-Dithio-bis-2-nitro-benzoic acid**, effect of, on prostaglandin uptake in rat isolated lung, 635
- Domoate**, effect of, on response of lobster muscle to aspartate, 287
- DOPA**, arousal induced by, in reserpine-treated rabbits and mice, reversal of, by histidine, 303
- DL-DOPA**, effect of, on 5-hydroxytryptamine release from cerebral cortex of cat, 547
- Dopamine**, effect of morphine on sensitivity of mouse vas deferens to, 623
- , content and subcellular localization of, in human and animal blood platelets, monoamine distribution between platelets and plasma, 653
- , effect of microelectrophoretically applied, on single cortical neurones in cerebral cortex of rat, compared with (3,4-dihydroxyphenylamino)-2-imidazoline, 701
- , turnover of, effect of substance P on, in rat brain, 423
- , characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435
- , in mouse brain, effect of pargyline and desmethylinipramine on, 489
- Dopamine- $\beta$ -hydroxylase**, exocytotic release of, from perfused adrenal gland of rabbit and cat, 117
- Duodenum**, chick, appearance of noradrenaline and adrenaline, and developmental changes in their concentrations in, 257

**Dystrophic mouse**, Rej 129, pharmacological aspects of neuromuscular transmission in isolated diaphragm of, 411

## E

**Eicosatetraynoic acid**, effect of, on synthesis and release of slow-reacting substance of anaphylaxis from rat isolated peritoneal cells, 35

**Electrical stimulation**, effect of, on short- and long-term effects of reserpine on concentration of 1-(4-hydroxy-3-methoxyphenyl)-ethane-1,2-diol (MOPEG-SO<sub>4</sub>) in brain of rat, 573

**Electrodes**, extracellular, use of, to record responses of guinea-pig isolated olfactory cortex slice to  $\gamma$ -aminobutyric acid, 347

**Endplate potentials**, in muscle fibres from isolated diaphragm of normal and dystrophic mice, 411

**Enkephalin**, methionine, effect of, on steroidogenesis in rat adrenal cell suspensions, 671

**Ephedrine**, effect of, on effects of some hydrophobic gases on pulmonary surfactant system, 229

**Ergoline derivatives**, effects of, on shape changes of rabbit blood platelets induced by tryptamine, 5-hydroxytryptamine, quipazine and mescaline, 601

**Ergometrine**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435

**Ethanol**, tolerance induced by, to effects of sedative-hypnotics and related compounds on operant behaviour in rat, 183

**Ether**, effect of, on pulmonary surfactant system, 229

**Ether vapour**, exposure to, effect of, on stress-induced secretion of corticosterone in mice, 139

**Ethinylloestradiol**, effect of, on gastric acid and pepsin secretion, serum gastrin concentration and biliary secretion of bile acids, phospholipids and cholesterol in cat, 87

**Ethyl amine side-chain**, of 5-hydroxytryptamine, substitution in, effect of, on frog skin epithelium receptor activity, 579

**N-ethyl maleimide**, effect of, on prostaglandin uptake in rat isolated lung, 635

**N-ethyl-2-pyrrolidylmethyl-cyclopentylphenyl glycollate**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565

**Ethylenediamine tetraacetic acid**, effect of, on release of histamine from rat peritoneal mast cells treated with compound 48/80 and peptide 401, 395

**Etorphine**, effect of, on steroidogenesis in rat adrenal cell suspensions, 671

## F

**Femoral artery**, rabbit isolated perfused, protective action of inosine on, in hypoxia, 587

**Femoral vasculature**, rat, role of 5-hydroxytryptamine in vasoconstrictor action of compound 48/80 in, 363

**Femoxetine**, effect of, on drug-induced antinociception, in rat, 677

**Fenoterol**, effect of, on  $\alpha$ -adrenoceptor in rat liver, to demonstrate effect of N-aralkyl substitution, 155

**Fistulae**, chronic gastric and intestinal, effects of a combined oestrogen-progestin preparation on gastric acid and pepsin secretion, serum gastrin concentration and biliary secretion of bile salts, phospholipids and cholesterol in cats with, 87

**Fluorescence histochemistry**, use of, to study extraneuronal accumulation of isoprenaline in trachea and atria of guinea-pig and cat, 175

**$\alpha$ -Flupenthixol**, effect of, on hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by (-)-noradrenaline, 435

**Frusemide**, effect of, on prostaglandin uptake in rat isolated lung, 629

—, comparative study of action of, and methyclothiazide on renin release by rat kidney slices and interaction with indomethacin, 193

**Fundus muscle**, rat stomach, effects of procaine and extracellular calcium concentration on response of, to acetylcholine and 5-hydroxytryptamine, 593

## G

**Gastric acid secretion**, effects of combined oestrogen-progestin preparation on, in cat, 87

**Gastrin**, serum concentration of, effects of a combined oestrogen-progestin preparation on, in cat, 87

**Gastrocnemius muscle**, rat, microsomal preparation from, stimulation of specific binding of [<sup>3</sup>H]-ouabain to, by thyroid hormones, effects of 6-hydroxydopamine on, 615

**Glucagon**, effect of, on blood flow through and salivation of dog salivary gland, compared with vasoactive intestinal peptide, glucagon and acetylcholine, 683

—, cardiostimulation induced by, continuous recording of cardiac contractions and coronary flow from isolated perfused rat heart used to study coronary reactions to, 71

**Glutamate**, further observations of interaction between, and aspartate on lobster muscle, 287

—, effect of, on slices of rat olfactory cortex, 223

—, effect of substance P on brain concentration of, after injection into rat substantia nigra, 423

**L-Glutamate**, response of guinea-pig olfactory cortex slice to, recorded with extracellular electrodes, 347

**Glycine**, effect of substance P on brain concentration of, after injection into rat substantia nigra, 423

—, effect of, on spike discharges in guinea-pig cerebellar slices, effect of chlordiazepoxide on, 277

—, effect of, on slices of rat olfactory cortex, 223

—, response of guinea-pig olfactory cortex slice to, recorded with extracellular electrodes, 347

—, depolarization of neurones in isolated olfactory cortex of guinea-pig by, 339

**Glycogenolysis**, amphetamine-induced, in mouse brain, effect of pargyline and desmethylinipramine on, 489

**Glycoproteins**, specific receptor, role of, in effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557

**Glycosides**, cardiac, Na<sup>+</sup>, K<sup>+</sup>-adenosine 5'-triphosphatase as a mechanism for transmembrane transport of, 403

- Gramine**, effect of, on sodium and chloride permeability across frog skin epithelium, 579
- Granulomatous inflammation**, in rats, time-dependent stimulatory and inhibitory effects of prostaglandin E<sub>1</sub> on exudative and tissue components of, 465
- Guanethidine**, effect of, on relaxation of longitudinal muscle of rabbit or guinea-pig portal vein, 377
- Guanosine 3',5'-monophosphate**, dibutyl cyclic, effect of, on effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557

## H

- Haemoglobin**, adult human, species differences in binding of compounds designed to fit a site of known structure in, 535
- Haloperidol**, effect of, on hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by (–)-noradrenaline, 435
- , effect of, on circling behaviour in rat, 423
- , effect of, on action of microelectrophoretically applied (3,4-dihydroxy-phenylamino)-2-imidazoline and dopamine on single cortical neurones in cerebral cortex of rat, 701
- Halothane**, effect of, on pulmonary surfactant system, 229
- Heart**, guinea-pig isolated, stabilization of lysosomes in anoxic myocardium of, by propranolol, 479
- , homogenates of, from rat and guinea-pig, saturable adenosine 5'-triphosphate-independent binding of [<sup>3</sup>H]-ouabain to, *in vitro*, 403
- , rat, microsomal preparation from, stimulation of specific binding of [<sup>3</sup>H]-ouabain to, by thyroid hormones, effects of 6-hydroxydopamine on, 615
- , isolated perfused rat, continuous recording of cardiac contractions and coronary flow from, in order to study coronary reactions to cardiostimulation induced by noradrenaline, calcium chloride, glucagon or electrically induced tachycardia, or to hypoxia, 71
- , isolated working, of guinea-pig, differentiation of roles of histamine H<sub>1</sub>- and H<sub>2</sub>-receptors in mediation of effects of histamine in, 127
- Heart rate**, in pre-weanling rat, presynaptic and postsynaptic contributions to ontogeny of sympathetic control of, 431
- , central effects of  $\beta$ -adrenoceptor-blocking drugs and isoprenaline on, in rats, 389
- Hemicholinium-3**, effect of, on dependence of release of [<sup>3</sup>H]-acetylcholine from rat isolated retina by potassium depolarization on high affinity choline uptake, 271
- Hepatic portal vein**, rat isolated, mechanism of pancuronium-induced supersensitivity to noradrenaline in, 473
- Hexafluoro-ethane**, effect of, on pulmonary surfactant system, 229
- Hexamethonium**, effect of, on effect of veratridine on release of catecholamines from guinea-pig perfused adrenal gland, 319
- , effect of, on bladder and urethral activity of the dog, 367
- Histamine**, release of, from rat peritoneal mast cells treated with compound 48/80 and peptide 401, effect of alkaline earth cations on, 395
- , effect of, on generation of thromboxane A<sub>2</sub> in perfused guinea-pig lung, 629
- , release of, from rat mast cells, induced by compound 48/80, role of cell-fixed calcium in, 609
- , mediation of effects of, in isolated working heart of guinea-pig, differentiation of roles of histamine H<sub>1</sub>- and H<sub>2</sub>-receptors in, 127
- , release of, utilization of adenosine triphosphate in rat mast cells during, induced by calcium ionophore A23187, 103
- , effect of, on DOPA-induced arousal in reserpine-treated rabbits, 303
- Histamine H<sub>1</sub>-receptor blockers**, effect of, on sedative effects induced by histidine after DOPA-induced arousal in reserpine-treated rabbits, 303
- Histamine receptors**, H<sub>1</sub>- and H<sub>2</sub>-, differentiation of the roles of, in the mediation of the effects of histamine in the isolated working heart of guinea-pig, 127
- , H<sub>1</sub>- H<sub>2</sub>-, role of, in generation of thromboxane A<sub>2</sub> in perfused guinea-pig lungs, 629
- Histidine**, reversal of DOPA-induced arousal in reserpine-treated rabbits and mice by, 303
- Hydrocortisone**, effect of, on effects of some hydrophobic gases on pulmonary surfactant system, 229
- 15-Hydroperoxy arachidonic acid**, effect of, on synthesis and release of slow-reacting substance of anaphylaxis from rat isolated peritoneal cells, 35
- Hydrophobic gases**, effects of, on pulmonary surfactant system, 229
- 1-(4-Hydroxy-3-methoxyphenyl)-ethane-1,2-diol**, (MOPEG-SO<sub>4</sub>), short- and long-term effects of reserpine on concentration of, in brain of rat, 573
- Hydroxybenzylpindolol**, effect of, on  $\alpha$ -adrenoceptor in rat liver, to demonstrate effect on *N*-aralkyl substitution, 155
- 6-Hydroxydopamine**, effect of, on formation of fluorescent nerve plexus of rabbit portal vein produced by quinaquine, 377
- , effects of, on stimulation of specific binding of [<sup>3</sup>H]-ouabain to microsomal preparations from rat heart and skeletal muscle by thyroid hormones, 615
- 5-Hydroxyindole**, effect of, on sodium and chloride permeability across frog skin epithelium, 579
- 5-Hydroxytryptamine**, potentiation of response to, by antidepressant drugs after destruction of monoamine afferents, 501
- , metabolism of, by rat isolated lungs, effects of cigarette smoke on, 495
- , in mouse brain, effect of pargyline and desmethylimipramine on, 489
- , turnover, effect of substance P on, in rat brain, 423
- , effect of, on bladder and urethral activity of the dog, 367
- , role of, in vasoconstrictor action of compound 48/80 in rat femoral vasculature, 363
- , on the role of, in drug-induced antinociception in rat, 677
- , content and subcellular localization of, in human and animal blood platelets, monoamine distribution between platelets and plasma, 653

- , sites of action of, in nerve-muscle preparations from guinea-pig small intestine and colon, 237
- , effects of procaine and extracellular calcium concentration on response of rat stomach fundus muscle to, 593
- , uptake of, by rabbit blood platelets, effect of Concanavalin A on, 557
- , release of, from cerebral cortex of cat, effects of morphine, physostigmine and Raphe nuclei stimulation on, 547
- , metabolism of, in perfused rat lung and *in vitro*, 147
- , synthesis rate and turnover time of, in brains of rats treated chronically with morphine, 311
- 5-Hydroxytryptamine receptors**, in frog skin epithelium, pharmacology of, 579
- , a model for?, in shape change of rabbit blood platelets, 601
- 6-Hydroxytryptamine**, creatinine sulphate complex, effect of, on sodium and chloride permeability across frog skin epithelium, 579
- 5-Hydroxytryptophan**, effect of, on sodium and chloride permeability across frog skin epithelium, 579
- , effect of, on DOPA-induced arousal in reserpine-treated rabbits, 303
- Hyoscine**, effect of, on effect of 5-hydroxytryptamine in nerve-muscle preparations from guinea-pig small intestine and colon, 237
- (-)-Hyoscyamine**, effect of, on effect of vasoactive intestinal peptide on blood flow through and salivation of dog salivary gland, 683
- Hyperpolarization**, receptors mediating catecholamine-induced, of isolated superior cervical sympathetic ganglia of the rat, characterization of, 435
- Hypertension**, pulmonary, lack of release of prostaglandins from isolated perfused guinea-pig, rabbit and rat lungs during, 197
- , isolation-induced systolic arterial, in rats, prevention and reversal of, by treatment with  $\beta$ -adrenoceptor antagonists, 205
- Hypogastric nerve**, role of, in bladder and urethral activity of the dog, 367
- Hypotension**, centrally mediated prolonged, produced by oxotremorine or pilocarpine, in cat, dog or rat treated with methylatropine, 15
- Hypothalamus**, role of cholinceptors and adrenoceptors in temperature regulation of rats, 43
- Hypothermia**, role of cholinceptors and adrenoceptors in temperature regulation of rats, 43
- Hypoxia**, continuous recording of cardiac contractions and coronary flow from isolated perfused rat heart to study coronary reactions to, 71
- , protective action of inosine on isolated rabbit arteries in, 587
- I**
- Ileum**, guinea-pig, sites of action of 5-hydroxytryptamine in nerve-muscle preparations from, 237
- , guinea-pig, pharmacological properties of kryptopyrrole and its oxidation products on, 23
- , guinea-pig, calcium requirements for electrically induced release of an endogenous opiate receptor ligand from, 3
- , myenteric plexus of, in guinea-pig, inhibition of neuronal firing in, by opiates, as evidence against involvement of cyclic nucleotides, 647
- Imidazoline**, (3,4-dihydroxy-phenylamino)-2-, action of microelectrophoretically applied, on single cortical neurones in cerebral cortex of rat, 701
- Imipramine**, relative toxicity of, amitriptyline, maprotiline and mianserin in rabbits *in vivo*, 331
- , effect of, on behaviour in aggressive mice, 525
- , arousal induced by, in reserpine-treated rabbits, effect of histidine on, 303
- Indomethacin**, effect of, on blood flow changes induced by bradykinin and arachidonate during inflammation of rabbit dorsal skin, 517
- , effect of, on longitudinal muscle of guinea-pig or rabbit portal vein, 377
- , effect of, on effect of temperature on release of prostaglandins during contraction of human umbilical vein, 360
- , effect of, on hind paw inflammation induced by injection of *Mycobacterium butyricum* in mineral oil, in mouse,
- , effect of, on effect of arachidonic acid on metabolic coronary vasodilatation resulting from cardiac hyperactivity induced by noradrenaline, calcium chloride, glucagon or tachycardia in rat, 71
- , effect of, on synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum, 35
- , effect of, on concentration of cyclic adenosine 3',5'-monophosphate in leucocytes in rat, 163
- , interaction of, with actions of frusemide and methylclothiazide on renin release by rat kidney slices, 193
- Inflammation**, of rabbit dorsal skin, vascular changes of, role of prostaglandins  $E_2$  and  $I_2$  in, 517
- , granulomatous, in rats, time-dependent stimulatory and inhibitory effects of prostaglandin  $E_1$  on exudative and tissue components of, 465
- , of hind paw of mouse, induced by injection of *Mycobacterium butyricum* suspended in mineral oil, effects of anaesthetics on, 111
- Inflammatory exudate**, acute, of urate arthritis in chicken, prostaglandin  $D_2$  is the prevailing prostaglandin in, 357
- Inosine**, protective action of, on isolated rabbit arteries in hypoxia, 587
- Inotropic receptors**, intracellular, contention that there are, for digitalis, 403
- Insulin**, effect of, on exocytotic release of catecholamines and dopamine- $\beta$ -hydroxylase from perfused adrenal gland of rabbit and cat, 117
- Intramural nerve stimulation**, used to induced release of [ $^3H$ ]-adenyl compounds from longitudinal muscle of rabbit or guinea-pig portal vein and test effects of drugs, 377
- 3-Isobutyl-1-methylxanthine**, involvement of, in inhibition of firing of single neurones from guinea-pig ileum myenteric plexus, 647
- Isoprenaline**, use of, to evaluate dependence of heart rate on sympathetic nerve development and on ontogeny of cardiac responses to sympathetic neurotransmitters in pre-weanling rats, 431
- , central effects of, on cardiovascular parameters in rats, 389

- , effect of, on bladder and urethral activity of the dog, 367
- , relative potency of, in smooth muscle of pig and human urinary bladder, 215
- , extraneuronal accumulation of, in trachea and atria of guinea-pig and cat, a fluorescence histochemical study of, 175
- , effect of, on  $\alpha$ -adrenoceptor in rat liver, to demonstrate effect of *N*-aralkyl substitution, 155
- ( $\pm$ )-**Isoprenaline**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435

## J

**Jejunum**, chick, appearance of noradrenaline and adrenaline and the developmental changes in their concentrations in, 257

## K

- Kainate**, effect of, on response of lobster muscle to aspartate, 287
- Ketamine**, sleeping time induced by, effect of hind paw inflammation induced by injection of *Mycobacterium butyricum* on, in mouse, 111
- , effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- Kidney**, rat, slices of, comparative study of action of frusemide and methylclothiazide on renin release by, and interaction with indomethacin, 193
- , of pregnant rabbit, effects of deprivation of prostaglandin precursors on, 29
- Kryptopyrrole**, and its oxidation products, pharmacological properties of, on isolated sciatic nerve of rat and on guinea-pig ileum, 23

## L

- Labetalol**, effect of, on  $\alpha$ -adrenoceptor in rat liver, to demonstrate effect of *N*-aralkyl substitution, 155
- Lanthanum**, effect of, on catecholamine release from rat adrenal medulla, 641
- Lectins**, effects of, on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- Lens culinaris**, lectin from, effect of, on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- L-Leucine**, response of guinea-pig olfactory cortex slice to, recorded with extracellular electrodes, 347
- Levorphanol**, effect of, on stress-induced secretion of corticosterone in mice, 139
- Lignocaine**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- Lipoxygenase**, role of, in synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum, 35
- Lithium ion**, effect of, on effect of veratridine on release of catecholamines from guinea-pig perfused adrenal gland, 319

- , effect of, on steroidogenesis in rat adrenal cell suspensions, 671

**Lobster muscle**, further observations on interaction between glutamate and aspartate on, 287

**Lung**, rat isolated, effects of cigarette smoke on metabolism of vasoactive hormones in, 495

- , rat isolated, action of prostaglandin dehydrogenase inhibitors on prostaglandin uptake in, 629
- , perfused guinea-pig, role of histamine  $H_1$ - and  $H_2$ -receptors in generation of thromboxane  $A_2$  in, 629
- , perfused rat, metabolism of 5-hydroxytryptamine and  $\beta$ -phenylethylamine in, 147
- , isolated guinea-pig, rabbit and rat, lack of release of prostaglandins from, during pulmonary hypertension and oedema, 197

**Lysergic acid diethylamide**, effect of, on behaviour in aggressive mice, 525

(+)-**Lysergic acid diethylamide**, effect of, on shape changes of rabbit blood platelets induced by tryptamine, 5-hydroxytryptamine, quipazine and mescaline, 601

**Lysosomes**, stabilization of, in isolated guinea-pig anoxic myocardium by propranolol, 479

## M

**Macrophages**, role of, in synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum, 35

**Magnesium ion**, effect of, on acetylcholine-induced excitation of rat subthalamic nucleus neurones, 511

- , effect of, on twitch responses of isolated diaphragm of normal and dystrophic mice, 411
- , effect of, on release of histamine from rat peritoneal mast cells treated with compound 48/80 and peptide 401, 395
- , effect of, on role of cell-fixed calcium in histamine release from rat mast cells induced by compound 48/80, 609
- , effect of, on effect of veratridine on release of catecholamines from guinea-pig perfused adrenal gland, 319
- , effect of, on release of catecholamines from adrenergic neurones in rectum of fowl, 261

**Maprotiline**, relative toxicity of, amitriptyline, imipramine and mianserin in rabbits *in vivo*, 331

**Mast cells**, role of, in synthesis and release of slow-reacting substance of anaphylaxis, 35

- , rat, utilization of adenosine triphosphate in, during histamine release induced by calcium ionophore A23187P
- , rat peritoneal, effect of alkaline earth cations on release of histamine from, treated with compound 48/80 and peptide 401, 395
- , rat, role of cell-fixed calcium in histamine release from, induced by compound 48/80, 609

**Mecamylamine**, effect of, on acetylcholine-induced excitation of rat subthalamic nucleus neurones, 511

**Medial forebrain bundle**, lesions of, effect of, on potentiation by antidepressant drugs of responses to monoamines of cortical neurones, 501

**Mescaline**, effect of, on shape change of rabbit blood platelets, 601

- Mepacrine**, effect of, on synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum and isolated peritoneal cells, 35
- Mepyramine**, use of, to differentiate roles of histamine  $H_1$ - and  $H_2$ -receptors in mediation of effects of histamine in isolated working heart of guinea-pig, 127
- Methadone**, antinociception induced by, effects of inhibitors of 5-hydroxytryptamine uptake on, in rat, 677
- Methionine-enkephalin**, effect of, on steroidogenesis in rat adrenal cell suspensions, 671
- Methoxamine**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435
- , response of cat to, used to compare pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction with vascular post-junctional  $\alpha$ -receptors in skeletal muscle, 249
- 5-Methoxytryptamine**, effect of, on sodium and chloride permeability across frog skin epithelium, 579
- Methylatropine**, effects of oxotremorine, methyloxotremorine, pilocarpine or arecoline on heart rate and blood pressure in cat, dog or rat treated with, 15
- Methylclothiazide**, comparative study of action of, and frusemide on renin release by rat kidney slices and interaction with indomethacin, 193
- Methylimidazole**, effect of, on synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum and isolated peritoneal cells, 35
- Methyloxotremorine**, effect of, on heart rate and blood pressure in cat, dog or rat treated with methylatropine, 15
- 2-Methyl-histamine**, effect of, on generation of thromboxane  $A_2$  in perfused guinea-pig lungs, 629
- $\alpha$ -Methyl-D-mannoside**, a specific inhibitor of Con A binding to glycoprotein, effect of, on effect of Con A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- $\alpha$ -Methyl-noradrenaline**, neuronal uptake of, in rat isolated vas deferens and hepatic portal vein, effect of pancuronium on, 473
- N-methyl-4-piperidyl-phenylcyclohexyl glycollate**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- 4'-N-methyl-piperidyl-1-phenyl-cyclopentane carboxylate**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- S-methyl-thiouonium**, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63
- $\beta$ - $\gamma$ -Methylene adenosine 5'-triphosphate**, effects of, on rat urinary bladder, 97
- Methysergide**, effect of, on shape changes of rabbit blood platelets induced by tryptamine, 5-hydroxytryptamine, quipazine and mescaline, 601
- , effect of, on bladder and urethral activity of the dog, 367
- , effect of, on vasoconstrictor action of compound 48/80 in rat femoral vasculature, 363
- Metoprolol**, effect of, on isolation-induced systolic arterial hypertension in rats, 205
- Mianserin**, relative toxicity of, amitriptyline, imipramine and maprotiline in rabbits *in vivo*, 331
- Microsomal preparations**, from rat heart and skeletal muscle by thyroid hormones, stimulation of specific binding of [ $^3H$ ]-ouabain to, by thyroid hormones, effects of 6-hydroxydopamine on, 615
- Microtubules**, role of, in effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- Miniature endplate potentials**, in muscle fibres from isolated diaphragm of normal and dystrophic mice, 411
- Mitochondrial preparations**, from rat lung, investigation of metabolism of 5-hydroxytryptamine and  $\beta$ -phenylethylamine by monoamine oxidase in, 147
- Monoamine afferents**, destruction of, potentiation of responses to monoamines by antidepressants after, 501
- Monoamine oxidase**, metabolism of 5-hydroxytryptamine and  $\beta$ -phenylethylamine in perfused rat lung and *in vitro*, 147
- , inhibitors of, effect of, on effect of amphetamine on animal behaviour, not mediated through a central action on noradrenaline release, 489
- Monoamines**, distribution of, between platelets and plasma in humans and animals, 653
- , concentrations of, in mouse brain, effects of pargyline and desmethylinipramine on, 489
- , potentiation of responses to, by antidepressants after destruction of monoamine afferents, 501
- Monocytes**, role of, in synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum, 35
- Monohydroxytamoxifen**, binding of [ $^3H$ ]-oestradiol-17 $\beta$  in immature rat uterus during sequential administration of, 167
- MOPEG-SO<sub>4</sub>**, short- and long-term effects of reserpine on concentration of, in brain of rat, 573
- Morphine**, plasma concentration of, in relation to ventilatory depression in naive and tolerant rats, 457
- , antinociception induced by, effects of inhibitors of 5-hydroxytryptamine uptake on, in rat, 677
- , effect of, on sensitivity of mouse vas deferens to neurotransmitters, 623
- , effect of, on 5-hydroxytryptamine release from cerebral cortex of cat, 547
- , effect of, on stress-induced secretion of corticosterone in mice, 139
- , depression by, and tolerance of, of nerve-induced parotid secretion, 7
- , chronic treatment with, effect of, on synthesis rate and turnover time of 5-hydroxytryptamine in brains of rats, 311
- , inhibition of neuronal firing by, in single neurones of guinea-pig myenteric plexus, as evidence against involvement of cyclic nucleotides, 647
- Muscarine**, effect of, on temperature regulation of rats, 43
- Muscarinic antagonists**, effects of, on actions of anticholinesterases on cat skeletal muscle, 565
- Muscarinic receptors**, in subthalamic nucleus neurones of rat, pharmacological properties of, 511
- , peripheral, use of methylatropine to block, to ascertain effects of oxotremorine, methyloxotremorine, pilocarpine or arecoline in cat, dog or rat, 15
- , in rat brain, comparison of binding of [ $^3H$ ]-quinuclidinyl benzilate to, in intact brain slices and homogenates, 451
- Muscimol**, effect of, on slices of rat olfactory cortex, 223
- Muscular dystrophy**, pharmacological aspects of neuro-

muscular transmission in isolated diaphragm of mice with, 411

**Mycobacterium butyricum**, depression of drug metabolism in mouse by a combination of, and anaesthetics, 111

**Myocardium**, anoxic, isolated guinea-pig, stabilization of lysosomes in, by propranolol, 479

—, rat isolated perfused, synthesis of prostaglandin-like substances by, 71

## N

**Naloxone**, effect of, on steroidogenesis in rat adrenal cell suspensions, 671

—, effect of, on stress-induced secretion of corticosterone in mice, 139

—, effect of, on nerve-induced parotid secretion, effect of morphine on, 7

—, effect of, on electrically induced contraction of guinea-pig ileum, 3

**Naltrexone**, effect of, on stress-induced secretion of corticosterone in mice, 139

—, effect of, on steroidogenesis in rat adrenal cell suspensions, 671

**Naproxen**, effect of, on effect of arachidonic acid on metabolic coronary vasodilatation resulting from cardiac hyperactivity induced by noradrenaline, calcium chloride, glucagon or tachycardia in rat, 71

**Neonatal rat**, presynaptic and postsynaptic contributions to ontogeny of sympathetic control of heart rate in, 431

**Neostigmine**, twitch augmentation induced by, effect of muscarinic antagonists on, in cat skeletal muscle, 565

**Nerve stimulation**, atropine-resistant, contractile responses of rat urinary bladder to, effect of theophylline on, 97

**Neuroleptic drugs**, effects of, on shape changes of rabbit blood platelets induced by tryptamine, 5-hydroxytryptamine, quipazine and mescaline, 601

**Neuromuscular junction**, comparison of pre-junctional  $\alpha$ -adrenoceptors at, with vascular post-junctional  $\alpha$ -receptors in cat skeletal muscle, 249

**Neuromuscular transmission**, comparison of facilitatory actions of 4-aminopyridine methiodide and 4-aminopyridine on, in frog and chick, 53

—, pharmacological aspects of, in isolated diaphragm of the dystrophic (Rej 129) mouse, 411

**Neuronal firing**, in single neurones of guinea-pig ileum myenteric plexus, inhibition of, by opiates: evidence against involvement of cyclic nucleotides, 647

**Neurones**, depolarization of, in isolated olfactory cortex of guinea-pig by  $\gamma$ -aminobutyric acid, 339

—, adrenergic, in rectum of fowl, evidence that adrenaline is released from, 261

**Neurotransmitters**, sensitivity of mouse vas deferens to, changes after morphine treatment, 623

—, sympathetic, cardiac responses to, dependence of heart rate on ontogeny of, in pre-weanling rats, 431

**Nialamide**, effect of, on circling behaviour in rat, 423

**Nicotine**, effect of, on acetylcholine-induced excitation of rat subthalamic nucleus neurones, 511

**Nitrous oxide**, effect of, on pulmonary surfactant system, 229

**Non-steroidal anti-oestrogens**, binding of [ $^3$ H]-oestradiol-17 $\beta$  in immature rat uterus during sequential administration of, 167

**Noradrenaline**, potentiation of response to, by antidepressant drugs after destruction of monoamine afferents, 501

—, in mouse brain, effect of pargyline and desmethyldimipramine on, 489

—, pancuronium-induced supersensitivity to, in rat smooth muscle, mechanism of, 473

—, content and subcellular localization of, in human and animal blood platelets, monoamine distribution between platelets and plasma, 653

—, effect of morphine on sensitivity of mouse vas deferens to, 623

—, release of, from adrenergic neurones in rectum of fowl, 261

—, and adrenaline, appearance of, and the developmental changes in their concentrations in gut of chick, 257

—, response of cat to, used to compare pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction with vascular post-junctional  $\alpha$ -receptors in skeletal muscle, 249

—, relative potency of, in smooth muscle of pig and human urinary bladder, 215

—, pressor response to, by isolated perfused femoral and renal arteries of rabbit, 587

—, short- and long-term effects of reserpine on concentration of, in brain of rat, 573

—, metabolism of, in perfused rat lung and *in vitro*, 147

—, cardiostimulation induced by, continuous recording of cardiac contractions and coronary flow from isolated perfused rat heart used to study coronary reactions to, 71

—, effect of, on temperature regulation of rats, 43

(+)-**Noradrenaline**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435

(-)-**Noradrenaline**, response of isolated splenic capsular strips of cat to, role of calcium in effect of cocaine on, 689

—, receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia of the rat induced by, characterization of, 435

**Norethisterone acetate**, effect of, on gastric acid and pepsin secretion, serum gastrin concentration and biliary secretion of bile acids, phospholipids and cholesterol in cat, 87

**Normorphine**, effect of, on stress-induced secretion of corticosterone in mice, 139

## O

**Oedema**, pulmonary, degree of, produced by some hydrophobic gases, 229

—, lack of release of prostaglandins from isolated perfused guinea-pig, rabbit and rat lungs during, 197

**Oestradiol-17 $\beta$** , effect of, on prostaglandin biosynthesis by guinea-pig skeletal muscle *in vitro*, 447

[ $^3$ H]-**oestradiol-17 $\beta$** , binding of, in immature rat uterus during sequential administration of non-steroidal anti-oestrogens, 167

**Oestrogen-progestin preparation**, effects of a combined, on gastric acid and pepsin secretion, serum gastrin concentration and biliary secretion of bile acids, phospholipids and cholesterol in cat, 87

**Olfactory cortex**, guinea-pig isolated depolarization of neurones in, by  $\gamma$ -aminobutyric acid, 339

—, guinea-pig isolated slice of, responses of, to  $\gamma$ -aminobutyric acid recorded with extracellular electrodes, 347

—, rat, presynaptic  $\gamma$ -aminobutyric acid responses in, 223

**Oligomycin**, effect of, on utilization of adenosine triphosphate in rat mast cells during histamine release induced by calcium ionophore A23187, 103

**Ontogeny**, of sympathetic control of heart rate in pre-weanling rat, presynaptic and postsynaptic contributions to, 431

**Operant behaviour**, in rat, barbitone-induced tolerance to effects of sedative-hypnotics and related compounds on, 183

**Opiate receptor agonists**, effects of, on stress-induced secretion of corticosterone in mice, 139

**Opiate receptor antagonists**, effects of, on stress-induced secretion of corticosterone in mice, 139

**Opiate receptor ligand**, electrically induced release of, from guinea-pig ileum, calcium requirements for, 3

**Opiates**, inhibition of neuronal firing in single neurones of guinea-pig ileum myenteric plexus by, as evidence against involvement of cyclic nucleotides, 647

**Opioid drugs**, effects of, and of lithium on steroidogenesis in rat adrenal cell suspensions, 671

**Orciprenaline**, effect of, on  $\alpha$ -adrenoceptor in rat liver, to demonstrate effect of *N*-aralkyl substitution, 155

**Org 6582**, effect of, on drug-induced antinociception in rat, 677

**Organophosphate**, twitch augmentation induced by, effect of muscarinic antagonists on, in cat skeletal muscle, 565

**Ouabain**, effect of, on effect of veratridine on release of catecholamines from guinea-pig perfused adrenal gland, 319

—, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63

[<sup>3</sup>H]-ouabain, specific binding of, stimulation of, to microsomal preparations from rat heart and skeletal muscle by thyroid hormones, effects of 6-hydroxydopamine on, 615

—, saturable adenosine 5'-triphosphate-independent binding of, to brain and cardiac tissue *in vitro*, 403

**Ovalbumin**, perfused lungs from guinea-pig sensitized to, effect of histamine and 2-methyl-histamine on generation of thromboxane A<sub>2</sub> in, 629

—, effects of modulators of arachidonic acid metabolism on synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum challenged with,

**Oxotremorine**, centrally mediated prolonged hypotension produced by, in cat, dog or rat treated with methyl-atropine, 15

—, effect of, on acetylcholine-induced excitation of rat subthalamic nucleus neurones, 511

**Oxygen consumption**, effects of 2,4-dinitrophenol and amylobarbitone on rate of, by isolated curarized diaphragm muscle of rat, 63

**Oxygen dissociation curves**, size of shifts in, reflects species

differences in binding of compounds designed to fit a site of known structure in adult human haemoglobin, 535

**Oxymetazoline**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435

—, response of isolated splenic capsular strips of cat to, effect of cocaine on, 689

—, response of cat to, used to compare pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction with vascular post-junctional  $\alpha$ -receptors in skeletal muscle, 249

## P

**Pancuronium**, supersensitivity to noradrenaline induced by, in rat smooth muscle, mechanism of, 473

**Papaverine**, effect of, on effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557

**Pargyline**, effect of, on monoamine concentrations and amphetamine-induced glycogenolysis in mouse brain, 489

**Parotid gland**, rat, secretion from, morphine depression and tolerance of nerve-induced, 7

**Pentazocine**, effect of, on stress-induced secretion of corticosterone in mice, 139

**Pentobarbitone**, sleeping time induced by, effect of hind paw inflammation induced by injection of *Myobacterium butyricum* on, in mouse, 111

—, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63

—, tolerance induced by, to effects of sedative-hypnotics and related compounds on operant behaviour in rat, 183

**Pentolinium**, effect of, on effect of 5-hydroxytryptamine in nerve-muscle preparations from guinea-pig small intestine and colon, 237

**Pepsin secretion**, effects of combined oestrogen-progestin preparation on, in rat, 87

**Peptide 401**, rat peritoneal mast cells treated with, effect of alkaline earth cations on release of histamine from, 395

**Periarterial nerve**, stimulation of, effect of, on release of adrenaline from adrenergic neurones in rectum of fowl, 261

**Peritoneum**, rat, mast cells from, treated with compound 48/80 and peptide 401, effect of alkaline earth cations on release of histamine from, 395

—, rat, effects of modulators of arachidonic acid metabolism on synthesis and release of slow-reacting substance of anaphylaxis from, 35

**Pethidine**, antinociception induced by, effects of inhibitors of 5-hydroxytryptamine uptake on, in rat, 677

**Phaseolus vulgaris**, lectin from, effect of, on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557

**Phenformin**, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63

**Phenobarbitone**, effects of, on rate of oxygen consumption and force of contraction of isolated curarized diaphragm muscle of rat, 63

- Phenoxybenzamine**, effect of, on effects of microelectrophoretically applied (3,4-dihydroxy-phenylamino)-2-imidazoline and phenylephrine on single cortical neurones in cerebral cortex of rat, 701
- , effect of, on extraneuronal accumulation of isoprenaline in trachea and atria of guinea-pig and cat, 175
- Phentolamine**, relative potency of, in smooth muscle of pig and human urinary bladder, 215
- , effect of, on effect of phenylephrine on pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction and vascular post-junctional  $\alpha$ -receptors in cat skeletal muscle, 249
  - , effect of, on effect of noradrenaline on temperature regulation of rats, 43
  - , effect of, and cocaine on response of isolated splenic capsular strips of cat to potassium, 689
  - , effect of, on bladder and urethral activity of the dog, 367
  - , effect of, on longitudinal muscle of rabbit or guinea-pig portal vein, 377
  - , effect of, on hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by (—)-noradrenaline, 435
- 1-Phenyl-3-pyrazolidone**, effect of, on synthesis and release of slow-reacting substance of anaphylaxis from rat peritoneum and isolated peritoneal cells, 35
- Phenylbutazone**, effect of, on effect of arachidonic acid on metabolic coronary vasodilatation resulting from cardiac hyperactivity induced by noradrenaline, calcium chloride, glucagon or tachycardia in rat, 71
- Phenyldiguanide**, effect of, on effect of 5-hydroxytryptamine in nerve-muscle preparations from guinea-pig small intestine and colon, 237
- Phenylephrine**, response of cat to, used to compare pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction with vascular post-junctional  $\alpha$ -receptors in skeletal muscle, 249
- , effect of microelectrophoretically applied, on single cortical neurones in cerebral cortex of rat, compared with (3,4-dihydroxy-phenylamino)-imidazoline, 701
  - , effect of, on bladder and urethral activity of the dog, 367
- (—)-**Phenylephrine**, characterization of receptors mediating hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by, 435
- $\beta$ -Phenylethylamine**, metabolism of, in perfused rat lung and *in vitro*, 147
- Phenytol**, tolerance induced by, to effects of sedative-hypnotics and related compounds on operant behaviour in rat, 183
- Phospholipids**, biliary secretion of, in cat, effects of a combined oestrogen-progestin preparation on, 87
- Physostigmine**, effect of, on 5-hydroxytryptamine release from cerebral cortex of cat, 547
- , effect of, on acetylcholine-induced excitation of rat subthalamic nucleus neurones, 511
- Picrotoxin**, effect of chlordiazepoxide on effect of, on inhibitory actions of taurine,  $\beta$ -alanine and  $\gamma$ -aminobutyric acid on spike discharges in guinea-pig cerebellar slices, 277
- , effect of, on responses of guinea-pig olfactory slice to  $\gamma$ -aminobutyric acid recorded with extracellular electrodes, 347
- Pilocarpine**, centrally mediated prolonged hypotension produced by, in cat, dog or rat treated with methylatropine, 15
- Pindolol**, central effects of, on cardiovascular parameters in rats, 389
- , effect of, on  $\alpha$ -adrenoceptor in rat liver, to demonstrate effect of *N*-aralkyl substitution, 155
- Plasma**, concentration of morphine in, ventilatory depression in naive and tolerant rats in relation to, 457
- , monoamine distribution between platelets and, from humans and animals, 653
- Plasma exudation**, during inflammation of rabbit dorsal skin, effects of prostaglandins on, 517
- Platelets**, blood, human and animal, content and subcellular localization of catecholamines and 5-hydroxytryptamine in, monoamine distribution between platelets and plasma, 653
- , rabbit blood, shape change of, a model for cerebral 5-hydroxytryptamine receptors?, 601
  - , rabbit blood, 5-hydroxytryptamine uptake by and ultrastructure of, effect of Concanavalin A on, 557
- Portal vein**, of rabbit but not guinea-pig, purinergic inhibitory innervation of, comparative pharmacological and histochemical evidence for, 377
- Postsynaptic contribution**, to ontogeny of sympathetic control of heart rate in pre-weanling rat, 431
- Potassium chloride**, effect of, on response of rat stomach fundus muscle to acetylcholine and 5-hydroxytryptamine, 593
- , effect of, on response of lobster muscle to aspartate, 287
  - , catecholamine release induced by, from rat adrenal medulla, effects of verapamil, dantrolene and lanthanum on, 641
- Potassium ion**, response of isolated splenic capsular strips of cat to, effect of phentolamine and cocaine on, 689
- , effect of, on hyperpolarization of isolated superior cervical sympathetic ganglia of the rat, 435
  - , increased membrane permeability to, role of, in effect of chlordiazepoxide on inhibitory effect of taurine,  $\beta$ -alanine and  $\gamma$ -aminobutyric acid on spike discharges in guinea-pig cerebellar slices, 277
  - , release of [ $^3$ H]-acetylcholine from isolated retina of rat by depolarization with, dependence of, on high affinity choline uptake, 271
  - , effect of, on exocytotic release of catecholamines and dopamine- $\beta$ -hydroxylase from perfused adrenal gland of rabbit and cat, 117
  - , effect of, on release of catecholamines from adrenergic neurones in rectum of fowl, 261
- Prazosin**, effect of, on hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by clonidine, oxymetazoline and ergometrine, 435
- Pregnancy**, in rabbits, effects of deprivation of prostaglandin precursors on vascular sensitivity to angiotensin II and on kidney during, 29
- Presynaptic contribution**, to ontogeny of sympathetic control of heart rate in pre-weanling rat, 431
- Pre-weanling rat**, presynaptic and postsynaptic contributions to ontogeny of sympathetic control of heart rate in, 431
- Prilocaine**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565

- Probenecid**, effect of, on short- and long-term effects of reserpine on concentration of 1-(4-hydroxy-3-methoxyphenyl)ethane-1,2-diol (MOPEG-SO<sub>4</sub>) in brain of rat, 573
- Procaine**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- , effects of, on response of rat stomach fundus muscle to acetylcholine and 5-hydroxytryptamine, 593
- Progesterone**, effect of, on prostaglandin biosynthesis by guinea-pig skeletal muscle *in vitro*, 447
- Progestin-oestrogen preparation**, effects of combined, on gastric acid and pepsin secretion, serum gastrin concentration and biliary secretion of bile acids, phospholipids and cholesterol in cat, 87
- Propranolol**, effect of, on isolation-induced systolic arterial hypertension in rats, 205
- , effect of, on bladder and urethral activity of the dog, 367
- , relative potency of, in smooth muscle of pig and human urinary bladder, 215
- , (+) and (–), central effects of, on cardiovascular parameters in rats, 389
- (±)-**Propranolol**, effect of, on hyperpolarization of isolated superior cervical ganglia in rat induced by (–)-noradrenaline, 435
- Prostaglandin D<sub>2</sub>**, is the prevailing prostaglandin in the acute inflammatory exudate of urate arthritis in chicken, 357
- Prostaglandin E<sub>1</sub>**, time-dependent stimulatory and inhibitory effects of, on exudative and tissue components of granulomatous inflammation in rats, 465
- Prostaglandin E<sub>2</sub>**, role of, in vascular changes of inflammation of rabbit dorsal skin, 517
- , involvement of, in inhibition of firing of single neurones from guinea-pig ileum myenteric plexus, 647
- , uptake of, in isolated rat lung, action of prostaglandin dehydrogenase inhibitors on, 635
- , metabolism of, by rat isolated lungs, effects of cigarette smoke on, 495
- Prostaglandin I<sub>2</sub>**, role of, in vascular changes of inflammation of rabbit dorsal skin, 517
- Prostaglandin dehydrogenase**, 15-hydroxy, inhibitors of, action of, on prostaglandin uptake in rat isolated lung, 635
- Prostaglandin synthetase**, inhibition of, effect of, on metabolic coronary vasodilatation resulting from cardiac hyperactivity induced by noradrenaline, calcium chloride, glucagon or tachycardia in rat, 71
- Prostaglandins**, lack of release of, from isolated perfused guinea-pig, rabbit and rat lungs during pulmonary hypertension and oedema, 197
- , precursors of, effects of deprivation of, on vascular sensitivity to angiotensin II and on the kidney in the pregnant rabbit, 29
- , substances like, myocardial synthesis of, in rat isolated perfused heart, 71
- , substances like, role of histamine H<sub>1</sub>- and H<sub>2</sub>-receptors in generation of, in perfused guinea-pig lungs, 629
- , release of, during contractions of human umbilical vein on reduction of temperature, 360
- , biosynthesis of, by guinea-pig skeletal muscle *in vitro* and the effect of oestradiol-17 $\beta$  and progesterone, 447

- Prostaglandins E<sub>1</sub> and E<sub>2</sub>**, effects of, on longitudinal muscle of guinea-pig or rabbit portal vein, 377
- Protokylol**, affinity of, for  $\alpha$ -adrenoceptor in rat liver, 155
- Psilocine**, effect of, on shape changes of rabbit blood platelets induced by tryptamine, 5-hydroxytryptamine, quipazine and mescaline, 601
- Pulmonary hypertension**, lack of release of prostaglandins from isolated perfused guinea-pig, rabbit and rat lungs during, 197
- Pulmonary minute volume**, effect of morphine on, in rats, 457
- Pulmonary surfactant system**, effects of some hydrophobic gases on, 229
- Purinergic inhibitory innervation**, of portal vein of rabbit but not of guinea-pig, comparative pharmacological evidence for, 377
- Purinergic innervation**, excitatory, hypothesis that rat urinary bladder receives, 97
- Purinergic nerves**, use of quinacrine fluorescence to localize, in rabbit portal vein, 377
- Purkinje cells**, spontaneous spike discharges of, evoked by electrical stimulation, amino acid inhibition of, effect of chlordiazepoxide on, 277
- 2-Pyridylethylamine**, use of, to differentiate roles of histamine H<sub>1</sub>- and H<sub>2</sub>-receptors in mediation of effects of histamine in isolated working heart of guinea-pig, 127
- Pyrilamine**, effect of, on generation of arachidonate metabolites in perfused guinea-pig lungs, 629

## Q

- Quipazine**, effect of, on shape change of rabbit blood platelets, 601
- Quinacrine fluorescence**, use of, to localize purinergic nerves in rabbit portal vein, 377
- Quinine**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- [<sup>3</sup>H]-**quinclidinyl benzilate**, binding of, to muscarinic receptors in rat brain, comparison of results from intact brain slices and homogenates, 451
- Quisqualate**, effect of, on response of lobster muscle to aspartate, 287

## R

- Raphe nuclei**, stimulation of, effect of, on 5-hydroxytryptamine release from cerebral cortex of cat, 547
- Rectum**, of fowl, evidence that adrenaline is released from adrenergic neurones in, 261
- Rej 129**, dystrophic mouse, pharmacological aspects of neuromuscular transmission in isolated diaphragm of, 411
- Remak's nerve**, stimulation of, effect of, on release of adrenaline from adrenergic neurones in rectum of fowl, 261
- Renal artery**, rabbit isolated perfused, protective action of inosine on, in hypoxia, 587
- Renin**, plasma levels of, effects of deprivation of prostaglandin precursors on, in pregnant rabbit, 29
- , release of, by rat kidney slices, comparative study of action of frusemide and methylclothiazine on, and interaction with indomethacin, 193

- Reserpine**, effect of, on effect of pancuronium on neuronal uptake of  $\alpha$ -methyl noradrenaline in rat isolated vas deferens and hepatic portal vein, 473
- , effect of, on vasoconstrictor action of compound 48/80 in rat femoral vasculature, 363
  - , a monoamine depletor, effect of, on content and subcellular localization of catecholamines and 5-hydroxytryptamine in human and animal blood platelets, monoamine distribution between platelets and plasma, 653
  - , rabbits and mice treated with, reversal of DOPA-induced arousal in, by histidine, 303
  - , short- and long-term effects of, on concentration of 1-(4-hydroxy-3-methoxyphenyl)-ethane-1,2-diol (MOPEG-SO<sub>4</sub>) in brain of rat, 573
  - , effect of, on exocytotic release of catecholamines and dopamine- $\beta$ -hydroxylase from perfused adrenal gland of rabbit and cat, 117
- Retina**, rat isolated, release of [<sup>3</sup>H]-acetylcholine from, by potassium depolarization: dependence on high affinity choline uptake, 271
- Ritodrine**, relative potency of, in smooth muscle of pig and human urinary bladder, 215
- ## S
- Salbutamol**, catecholamine release induced by, from rat adrenal medulla, effects of verapamil and lanthanum on, 641
- , relative potency of, in smooth muscle of pig and human urinary bladder, 215
- Salivary gland**, dog, blood flow through and salivation of, assessment of effects of vasoactive intestinal peptide on, in comparison with those of secretin, glucagon and acetylcholine, 683
- Salivation**, assessment of effects of vasoactive intestinal peptide on blood flow through and of dog salivary gland in comparison with those of secretin, glucagon and acetylcholine, 683
- Sarin**, twitch augmentation induced by, effect of muscarinic antagonists on, in cat skeletal muscle, 565
- Sartorius nerve-muscle preparation**, from frog, comparison of facilitatory actions of 4-aminopyridine methiodide and 4-aminopyridine on neuromuscular transmission in, 53
- Sciatic nerve**, rat isolated, pharmacological properties of kryptopyrrole and its oxidation products on, 23
- Scopolamine**, effect of, on behaviour in aggressive mice, 525
- , effect of, on acetylcholine-induced excitation of rat subthalamic nucleus neurones, 511
- Secretin**, effect of, on blood flow through and salivation of dog salivary gland, compared with vasoactive intestinal peptide, glucagon and acetylcholine, 683
- Sedation**, in rabbits and mice, effect of histidine on, 303
- Sedative-hypnotics**, and related compounds, barbitone-induced tolerance to effects of, on operant behaviour in rat, 183
- Skeletal muscle**, rat, microsomal preparation from, stimulation of specific binding of [<sup>3</sup>H]-ouabain to, by thyroid hormones, effects of 6-hydroxydopamine on, 615
- , cat, effects of muscarinic antagonists on actions of anticholinesterases on, 565
  - , guinea-pig, prostaglandin biosynthesis by, *in vitro*, and effect of oestradiol-17 $\beta$  and progesterone, 447
  - , cat, comparison of pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction with vascular post-junctional  $\alpha$ -receptors in, 249
- SKF 525A**, calcium flux inhibitor, effect of, on effect of cocaine on response of isolated splenic strips of cat to (–)-noradrenaline, 689
- Skin epithelium**, frog, pharmacology of 5-hydroxytryptamine receptors in, 579
- Slow-reacting substance of anaphylaxis**, synthesis and release of, from rat peritoneum, effects of modulators of arachidonic acid metabolism on, 35
- Small intestine**, guinea-pig, sites of action of 5-hydroxytryptamine in nerve-muscle preparations from, 237
- Smooth muscle**, rat, mechanism of pancuronium-induced supersensitivity to noradrenaline in, 473
- , vascular, pressor response of, to noradrenaline, effect of hypoxia and dinitrophenol on, in rabbit isolated perfused femoral and renal arteries, 587
- Sodium ion**, replacement of, effect of, on steroidogenesis in rat adrenal cell suspensions, 671
- , effect of, on effect of veratridine on release of catecholamines from guinea-pig perfused adrenal gland, 319
  - , dependence of high affinity choline uptake on, for release of [<sup>3</sup>H]-acetylcholine from rat isolated retina by potassium depolarization, 271
- Sodium nitroprusside**, effect of, on effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- Sodium transport**, active, across frog skin, effect of 5-hydroxytryptamine on, 579
- Soleus muscle**, rat, action of colchicine and cytochalasin B on the extrajunctional acetylcholine receptor in, 483
- Soman**, twitch augmentation induced by, effect of muscarinic antagonists on, in cat skeletal muscle, 565
- Spike discharges**, in guinea-pig cerebellar slices, augmentation by chlordiazepoxide of inhibitory effects of taurine,  $\beta$ -alanine and  $\gamma$ -aminobutyric acid on, 277
- Spleen**, cat, strips of, investigation of role of calcium in supersensitivity produced by cocaine in, 689
- St 91**, response of rat isolated vas deferens and hepatic portal vein to, effect of pancuronium on, 473
- Steroidogenesis**, effects of opioid drugs and of lithium on, in rat adrenal cell suspensions, 671
- Stomach fundus muscle**, rat, effects of procaine and extracellular calcium concentration on response of, to acetylcholine and 5-hydroxytryptamine, 593
- Stress**, secretion of corticosterone induced by, in mice, effects of opiate receptor agonists and antagonists on, 139
- Strontium ion**, effect of, on release of histamine from rat peritoneal mast cells treated with compound 48/80 and peptide 401, 395
- , effect of, on role of cell-fixed calcium in histamine release from rat mast cells induced by compound 48/80, 609
- Strychnine**, effect of, on effect of  $\gamma$ -aminobutyric acid on slices of rat olfactory cortex, 223
- , effect of chlordiazepoxide on effect of, on inhibitory actions of taurine,  $\beta$ -alanine and  $\gamma$ -aminobutyric acid in guinea-pig cerebellar slices, 277
  - , effect of, on responses of guinea-pig olfactory slice to

- $\gamma$ -aminobutyric acid recorded with extracellular electrodes, 347
- Substance P**, effects of, injected into the substantia nigra of rat, 423
- Substantia nigra**, rat, effects of substance P injected into, 423
- Subthalamic nucleus neurones**, rat, pharmacological properties of acetylcholine-induced excitation of, 511
- Sulphur hexafluoride**, effect of, on pulmonary surfactant system, 229
- Supersensitivity**, investigation of role of calcium in, produced by cocaine in cat spleen strips, 689
- , pancuronium-induced, to noradrenaline in rat smooth muscle, mechanism of, 473
- Surfactant system**, pulmonary, effects of some hydrophobic gases on, 229
- Sympathetic ganglia**, rat isolated superior cervical, characterization of receptors mediating hyperpolarization catecholamine-induced of, 435
- Sympathetic nerve**, control of heart rate by, in pre-weanling rats, presynaptic and postsynaptic contributions to ontogeny of, 431
- Synaptosomes**, from motor and somatosensory cortex, active uptake of noradrenaline and 5-hydroxytryptamine by, after lesion of medial forebrain bundle, 501

## T

- Tachycardia**, electrically induced, cardiostimulation induced by, continuous recording of cardiac contractions and coronary flow from isolated perfused rat heart used to study coronary reactions to, 71
- Tamoxifen**, binding of [ $^3$ H]-oestradiol-17 $\beta$  in immature rat uterus during sequential administration of, 167
- Taurine**, inhibitory effect of, on spike discharges in guinea-pig cerebellar slices, augmentation by chlorthalidopoxide, 177
- , effect of, on slices of rat olfactory cortex, 223
- Temperature**, effect of, on release of prostaglandins during contraction of human umbilical vein, 360
- Temperature regulation**, of rats, effects of noradrenaline and carbachol of, 43
- Tetrodotoxin**, effect of, on release of [ $^3$ H]-adenyl compounds from longitudinal muscle of rabbit or guinea-pig portal vein induced by intramural nerve stimulation, 377
- , effect of, on effect of veratridine on release of catecholamines from guinea-pig perfused adrenal gland, 319
- Theophylline**, catecholamine release induced by, from rat adrenal medulla, effects of verapamil and lanthanum on, 641
- , effect of, on effects of prostaglandin E<sub>1</sub> on exudative and tissue components of granulomatous inflammation in rats, 465
- , effect of, on effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557
- , effect of, on effects of adenosine and adenosine 5'-monophosphate on contractions of rat urinary bladder, 97
- Thromboxane A<sub>2</sub>**, generation of, in perfused guinea-pig lungs, role of H<sub>1</sub>- and H<sub>2</sub>-receptors in, 629

- $\beta$ -Thujaplicin**, effect of, on extraneuronal accumulation of isoprenaline in trachea and atria of guinea-pig and cat, 175
- Thymoxamine**, effect of, on pre-junctional  $\alpha$ -adrenoceptors at neuromuscular junction and vascular post-junctional  $\alpha$ -receptors in cat skeletal muscle, 249
- Thyroid hormones**, stimulation of specific binding of [ $^3$ H]-ouabain to microsomal preparations from rat heart and skeletal muscle by, effects of 6-hydroxydopamine on, 615
- Toxicity**, relative, of amitriptyline, imipramine, maprotiline and mianserin in rabbits *in vivo*, 331
- Trachea**, guinea-pig and cat, extraneuronal accumulation of isoprenaline in, a fluorescence histochemical study of, 175
- Trifluoromazine**, effect of, on actions of anticholinesterases on cat skeletal muscle, 565
- Triiodothyronine**, effect of, on specific binding of [ $^3$ H]-ouabain to microsomal preparations from rat heart and skeletal muscle, effects of 6-hydroxydopamine on, 615
- Tryptamine**, effect of, on shape change of rabbit blood platelets, 601
- , effect of, on sodium and chloride permeability across frog skin epithelium, 579
- Tryptophan**, effect of, on sodium and chloride permeability across frog skin epithelium, 579
- Tubocurarine**, neuromuscular block induced by, effects of 4-aminopyridine methiodide and 4-aminopyridine on, in frog and chick, 53
- (+)-**Tubocurarine**, effect of, on twitch responses of isolated diaphragm of normal and dystrophic mice, 411
- , blockade by, of contractions of cat tibialis anterior muscle, use of, to monitor pre-junctional activity, 249
- , effect of, on effect of 5-hydroxytryptamine in nerve-muscle preparations from guinea-pig small intestine and colon, 237
- Twitch response**, of cat skeletal muscle, effect of muscarinic antagonists on, induced by organophosphate or carbamate, 565
- Tyramine**, catecholamine release mediated by, independence of, on calcium from intra- or extracellular sources in rat adrenal medulla, 641

## U

- Umbilical vein**, human, release of prostaglandins during contraction of, on reduction of temperature, 360
- Uptake<sub>1</sub>**, blockade of, as mechanism of pancuronium-induced supersensitivity to noradrenaline in rat smooth muscle, 473
- Urate arthritis**, prostaglandin D<sub>2</sub> is the prevailing prostaglandin in acute inflammatory exudate of, 357
- Urethra**, activity of, in dog, role of hypogastric nerve in, 367
- Urinary bladder**, rat, effects of adenosine 5'-triphosphate and  $\beta$ - $\gamma$ -methylene adenosine 5'-triphosphate on, 97
- Uterus**, immature rat, binding of [ $^3$ H]-oestradiol-17 $\beta$  in, during sequential administration of non-steroidal anti-oestrogens, 167

## V

- Vas deferens**, rat isolated, mechanism of pancuronium-induced supersensitivity to noradrenaline in, 473  
 —, mouse, sensitivity of, to neurotransmitters, changes after morphine treatment, 623
- Vascular changes**, of inflammation of rabbit dorsal skin, role of prostaglandins  $E_2$  and  $I_2$  in, 517
- Vascular resistance**, peripheral, effects of  $\beta$ -adrenoceptor-blocking drugs and isoprenaline on, in rats, 389  
 —, cat hindlimb, use of increases in, to monitor post-junctional actions at  $\alpha$ -adrenoceptors, 249
- Vascular sensitivity**, to angiotensin II in pregnant rabbit, effects of deprivation of prostaglandin precursors on, 29
- Vasoactive hormones**, metabolism of, in rat isolated lungs, effects of cigarette smoke on, 495
- Vasoactive intestinal peptide**, assessment of effects of, on blood flow through and salivation in dog salivary gland in comparison with those of secretin, glucagon and acetylcholine, 683
- Vasoconstrictor action**, of compound 48/80 in rat femoral vasculature, role of 5-hydroxytryptamine in, 363
- Vasodilatation**, metabolic coronary, resulting from cardiac hyperactivity induced by noradrenaline, calcium chloride, tachycardia or glucagon, effect of prostaglandin  $E_2$  on, in rat, 71  
 —, induced by arachidonate, during inflammation of rabbit dorsal skin, effect of indomethacin on, 517
- Ventilatory depression**, in naive and tolerant rats in relation to plasma morphine concentration, 457
- Verapamil**, effect of, on catecholamine release from rat adrenal medulla, 641
- Veratridine**, effect of, on release of catecholamines from guinea-pig perfused adrenal gland, 319

**Viloxazine**, potentiation by, of responses to monoamines of cortical neurones after lesion of medial forebrain bundle, 501

**Vinblastine**, effect of, on effect of Concanavalin A on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557

## W

**Weanling**, pre-, rat, presynaptic and postsynaptic contributions to ontogeny of sympathetic control of heart rate in, 431

**Wheat germ agglutinin**, effect of, on 5-hydroxytryptamine uptake by rabbit blood platelets and on their ultrastructure, 557

## Y

**Yohimbine**, effect of, on sodium and chloride permeability across frog skin epithelium, 579

—, effect of, on hyperpolarization of isolated superior cervical sympathetic ganglia in rat induced by clonidine, oxymetazoline and ergometrine, 435

## Z

**Zimelidine**, effect of, on drug-induced antinociception in rat, 677

**Zymosan**, plasma exudation induced by, during inflammation of rabbit dorsal skin, effects of prostaglandins on, 517

# INSTRUCTIONS TO AUTHORS

Papers will be considered for publication on all aspects of drug action.

Before submitting a manuscript, authors must note the following points since failure to comply with instructions will lead to either delay or rejection of the manuscript.

1. **Manuscripts** (2 copies) should be sent to Dr. A. Ungar, Department of Pharmacology, 1 George Square, Edinburgh EH8 9JZ. The manuscript must be typed in double spacing on one side of paper, not larger than A4 (206 × 294 mm). There should be a separate title page with the names of authors (in alphabetical order) and their appropriate addresses. One first name of each author may be included.

2. **Style** Papers must be submitted in the style of the journal (see any recent issue of the journal) and in accordance with the Instructions to Authors published in *Br. J. Pharmac.* (1974) **50**, 3–23. (Copies of these instructions may be obtained from Dr. Ungar.)

3. **Statement** The manuscript must be accompanied by the following statement—‘This manuscript has not been nor will be published in whole or in part by any other journal’. The statement may be included as part of the accompanying letter which must be signed by all authors. No paper will be accepted without this statement and the signatures of each author.

4. **Summary** (2 copies) This should be a short summary of results and conclusions arranged in numbered paragraphs.

5. **Abstract** (2 copies) An abstract of not more than 100 words suitable for inclusion in an abstracting journal should be typed on a separate sheet, giving the author's name and address and the title of the paper.

6. **Short title** A short (running) title of not more than 50 letters and spaces should be submitted. This may be typed on the title page.

7. **Figures** These should not be larger than A4 (206 × 294 mm) and may be in the form of original drawings, recorded tracings or high quality photographic prints made from them. Negative prints of kymograph tracings (black on white) should be provided, and both ordinates and abscissae should be calibrated. Lettering on figures should be inserted in pencil. Symbols which are to appear in figures or legends should be chosen from the following:

○ ● □ ■ △ ▲ ▽ ▼

Photographs and photomicrographs should be printed on glossy paper and should be larger than the size required for reproduction. Each figure legend should be typed on a separate sheet of paper.

8. **Tables** These should generally have not more than 85 characters to a line (counting spaces between columns as 4 characters) and never more than 110 characters to a line. Each table should be typed on a separate sheet of paper.

9. **References** These must be collected in alphabetical order at the end of the paper. They should include the authors' names, year of publication (in brackets), title of article, title of publication (abbreviated in accordance with the fourth edition of the *World List of Scientific Periodicals*), volume number and first and last page numbers. References to books should, in addition, include the names of editors, the edition number (where appropriate), the town of origin then the name of publisher. Where citation is made to a paper ‘in press’ the paper should, if possible, accompany the manuscript, as an aid to the editor and referee.

10. **Short Communications** These will be accepted if they merit priority publication and do not require revision. They may contain up to 1,200 words of text and only one figure or table. The summary should be a single paragraph. An abstract and statement must be included.

**Two page proofs** will be supplied, one of which may be retained by the authors. The other should be corrected immediately and returned to the Press Editor. Corrections should be kept to a minimum.

**Twenty-five reprints** will be supplied to the authors free of charge. Additional reprints can be purchased. A reprint order form, which should be returned promptly, will be sent out with the proofs. If reprints will not be available from the author, a note to this effect may be added at the end of the text.
