

# INDEX TO VOLUME 66

## AUTHOR INDEX

### A

- ABDELLATIF, M.M. & HOLLINGSWORTH, M. Mediation by adrenaline of lung surfactant secretion induced by oxotremorine in neonatal rabbits, 142P
- ABLAD, B. *see* HEDBERG, A., 505P
- AGUIREE, J., FALUTZ, J., PINTO, J.E.B. & TRIFARO, J.M. Effects of methoxy-verapamil on the stimulation by  $\text{Ca}^{2+}$ ,  $\text{Sr}^{2+}$  and  $\text{Ba}^{2+}$  and on the inhibition by  $\text{Mg}^{2+}$  of catecholamine release from the adrenal medulla, 591
- AHTEE, LIISA, HALMEKOSKI, J., HEINONEN, HELINA & KOSKIMIES, ANNA Comparison of the central nervous system actions of taurine and N-pivaloyltaurine, 480P
- ALI, B.H. & BARTLET, A.L. Inhibition of monoamine oxidase by furazolidone in the chicken: influence of the alimentary flora, 490P
- ALI, M. & LINDUP, W.E. Disposition and pharmacokinetics of phenytoin in rats with acute renal failure, 487P
- ALI, M., NICHOLLS, P.J. & YOOSUF, A. Influence of old age and of renal failure on hepatic glucuronidation in the rat, 498P
- ANDERSON, A., SHARMAN, D.F. & STEPHENS, D.B. An effect of haloperidol on the increased food and water intake induced in rabbits by 2-deoxy-D-glucose, 5
- ANDERSON, A.A., FLETCHER, THELMA C. & SMITH, G.M. Release of prostaglandin  $\text{E}_2$  from the skin of the plaice, *Pleuronectes platessa* L., 547
- ANDERSON, M.J., CAMBRIDGE, D., DAVEY, M.J., MASSINGHAM, R., VANHOUTTE, P.M. & VERBEUREN, T. Effect of a high dose of prazosin, and transmural stimulation, on the disposition of transmitter moradrenaline in the rabbit pulmonary artery and the dog saphenous vein, 151P
- ANDERSSON, R.G.G., LEWIS, D.H., POST, C. & RYRFELDT, A. (introduced by BAKHLE, Y.S.) Interaction between nortriptyline and lignocaine for uptake by lung in isolated lungs and *in vivo*, 440P
- ANDOH, B., IDLE, J.R., MAHGOUN, A., SLOAN, T.P., SMITH, R.L. & WOOLHOUSE, N. Polymorphic hydroxylation of debrisoquine in Ghanaians, 431P
- ANDRE, JOELLE N., DRING, L.G., GILLET, G. & MASCHAMBERLIN, CLAIRE Metabolism in rat of tiflorex, a *m*-trifluoromethylthio-substituted phenylisopropyl amine, 506P
- ANWAR, N. & MASON, D.F.J. Action of dopamine on constrictor responses in the perfused rat mesenteric artery, 497P
- ASCHER, P., LARGE, W.A. & RANG, H.P. Two modes of action of ganglionic blocking drugs, 79P
- ASHFORD, J.J., CARMICHAEL, D. & KIDNER, P.H. Pharmacokinetics of disopyramide administered by intramuscular, intravenous and oral routes to normal volunteers, 442P
- ATKINSON, L., BERGMAN, G., JACKSON, N., JEWITT, D.E. & METCALFE, J.M. (introduced by BARRETT, A.M.) Poten-

tial protective value of enhanced myocardial carbohydrate utilization with reduced free fatty acid uptake after UK25842 in patients with coronary artery disease, 444P

- ATTERWILL, C.K., COSTAIN, D.W. & GREEN, A.R. Some observations on the behavioural and biochemical effects of L-tryptophan plus a monoamine oxidase inhibitor in immature rats, 118P
- AUTHI, K.S. & TRAYNOR, J.R. Effects of antimalarial drugs on phospholipase  $\text{A}_2$ , 496P

### B

- BACK, D.J., BOLT, H.M., BRECKENRIDGE, A.M., CRAWFORD, F.E., MACIVER, M., ORME, M.L'E., ROWE, P.H., SCHINDLER, A.E. & SMITH, E. Pharmacokinetics of ethinyloestradiol in women, 441P
- BAKER, H.F. & RIDLEY, R.M. (introduced CROW, T.J.) Behavioural effects of chronic amphetamine and their reversal by haloperidol in the marmoset, 146P
- BAKHLE, Y.S. *see* ANDERSSON, R.G.G., 440P
- BALL, H.A., DAVIES, J.A. & NICOLSON, A.N. Effect of diazepam and its metabolites on the binding of L-tryptophan to human serum albumen, 92P
- BANGHAM, A.D. & MASON, W. Effect of some general anaesthetics on the surface potential of lipid monolayers, 259
- BARBER, H.E. *see* BURKE, M.D., 423P
- BARBER, H.E., CALVEY, T.N. & MUIR, K.T. Relationship between the pharmacokinetics, cholinesterase inhibition and facilitation of twitch tension of the quaternary ammonium anticholinesterase drugs, neostigmine, pyridostigmine, edrophonium and 3-hydroxyphenyl-trimethylammonium, 525
- BARBER, H.E., HAWKSWORTH, G.M. & TURNER, S.J. Transport of cimetidine across the rat small intestine *in vitro*, 496P
- BARLOW, R.B., BIRSDALL, N.J.M. & HULME, E.C. Temperature coefficients of affinity constants for the binding of antagonists to muscarinic receptors in the rat cerebral cortex, 587
- BARLOW, R.B. & BURSTON, K.N. Temperature coefficients of affinity and entropies of adsorption for enantiomeric pairs of compounds acting at muscarinic receptors in the guinea-pig ileum, 581
- BARNETT, D.B., NAHORSKI, S.R. & RUGG, ELIZABETH L.  $\beta$ -Adrenoceptor binding sites in rat spleen: pharmacological characteristics and effects of chemical sympathectomy, 91P
- BARNFIELD, D.J., BOURNE, G.R., LOWERY, C. & MOSS, S.R. Dose-dependent disposition of [ $^{14}\text{C}$ ]-ICI 89,406 in the male rat: Is this due to a capacity limited excretory pathway for the drug into bile? 492P
- BARRETT, A.M. *see* ATKINSON, L., 444P

- BARRITT, D.W. *see* ROBERTS, C.J.C., 65P
- BARTLET, A.L. *see* ALI B.H., 490P
- BASSIR, O. *see* CALDWELL, J., 156P

# SUBJECT INDEX

## A

- A23187**, calcium ionophore, inhibitory effect of, on the hydrolysis of fluorescein diacetate by human lymphocytes, 502P
- Abrac A**, effect of, on responses mediated by cholinceptors at the frog neuromuscular junction, 76P
- Acetylation**, aromatic amino, in the adult and neonatal marmoset, 419P
- Acetylcholine**, neurones containing, use of neurotoxic lesions to locate, in rat striatum, 124P
- , effect of, on frog rectus abdominus muscle after treatment with dithiothreitol, 135P
  - , release of, role of, in effect of tetraethylammonium on avian muscle treated with methohexitone, 391
  - , antagonism of contractions of the guinea-pig ileum induced by, temperature coefficients of affinity constants determined for muscarinic antagonists by, 587
  - , contractions of rat isolated oestrous uterus elicited by, effect of histamine on, 13
  - , effect of plasticizers on effect of, at isolated frog motor endplates, 76P
  - , effect of flurazepam and ACTH on release of, from rat brain slices, 115P
  - , effect of, on Purkinje cells in rat cerebellum, effect of  $\alpha$ -aminoadipic acid on, 291
  - , exogenous, neuro-muscular blocking activity of, functional relationship between, and acetylcholinesterase activity, 323
  - , negative inotropic action of, compared with somatostatin in beating isolated auricles of rats, rabbits and guinea-pigs, 251
  - , is the direct relaxing effect of, on vascular smooth muscle due to activation of  $\text{Na}^+/\text{K}^+$ -ATPase?, 150P
- [ $^3\text{H}$ ]-acetylcholine**, release of, from rabbit retina *in vivo*, 110P
- Acetylcholine receptors**, in the ciliary ganglion and in the iris muscle of the chick: specific binding and effect on the synaptic transmission of the neurotoxin from *Naja naja siamensis*, 33
- , action of ganglionic blocking drugs on, 79P
- Acetylcholinesterase**, inhibition of, relationship between the pharmacokinetics, and facilitation of twitch tension of the quaternary ammonium anticholinesterase drugs, neostigmine, pyridostigmine, edrophonium and 3-hydroxyphenyltrimethylammonium, 525
- , inhibition of, relationship between, and response of rat phrenic nerve-diaphragm preparation to indirect stimulation at higher frequencies, 323
- N-acetyltaurine**, action of, on the central nervous system in mice, 480P
- Adenosine**, interaction between, and a benzotriazinium salt on guinea-pig atria, 459P
- Adenosine 3',5'-diphosphate**, effect of, on contractions of guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states produced *in vivo*, 601
- Adenosine monophosphate**, dibutyl cyclic, effect of, on distribution and mobilization of arachidonic acid in fat cell ghosts, 99P
- , mediation by, of lung surfactant secretion induced by oxotremorine in neonatal rabbits, 142P
  - , effect of, on contractions of guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states produced *in vivo*, 601
- Adrenergic nerve terminals**, presynaptic receptor hypothesis applied to, in guinea-pig vas deferens, 343
- Adrenergic neuroeffector interaction**, in the blood vessel wall, effect of profound cooling on, 149P
- $\alpha$ -Adrenoceptor agonists**, effects of, on peripherally evoked parasympathetic submaxillary salivation in the cat, 133P
- Adenosine triphosphatase**, ( $\text{Na}^+ + \text{K}^+$ ), from human heart, parameters of [ $^3\text{H}$ ]-ouabain binding to, 471P
- , is the direct relaxing effect of acetylcholine on vascular smooth muscle due to activation of, ?, 150P
- Adenosine triphosphate**, use of, in mouse brain, effect of phosphatidylserine liposomes on, 167
- Adenyl-imidodiphosphate**, a nucleotide with characteristic platelet aggregation and inhibition properties similar to 5-hydroxytryptamine, 94P
- Adenylate cyclase**, activity of, in mouse brain, effect of phosphatidyl-serine liposomes on, 167
- Adjuvant arthritis**, in the rat, inhibitory effects of gold salts on, 141P
- Adsorption**, entropies of, for enantiomeric pairs of compounds acting at muscarinic receptors in the guinea-pig ileum, 581
- Adrenal medulla**, bovine, effect of methoxyverapamil on the stimulation by calcium, strontium and barium ions and on the inhibition by magnesium ion of catecholamine release from, 591
- Adrenalectomy**, effect of, on enkephalin content of rat hypothalamus, 130P
- Adrenaline**, effect of, on negative inotropic effect of lanthanum, 85P
- , intra-arterial infusion of, responses of hepatic arterial and portal venous vascular bed to, inhibition of the hepatic arterial vasoconstrictor responses to intraportal infusion of glucagon, 82P
- $\alpha$ -allophanyl- $\alpha$ -allyl- $\gamma$ -valerolactone**, (valofan), central properties of, 478P
- Allergic asthma**, pharmacology of Schultz-Dale reaction in canine lung strip *in vitro* as a possible model for, 511
- Allergic reactions**, of canine lung, involvement of slow reacting substance of anaphylaxis and endoperoxides (thromboxanes) in, 511
- Allylglycine**, effect of, *in vivo* in the mouse, 123P
- Alprenolol**, geometry of, 503P
- Amphetamine**, chronic administration of, behavioural effects of, and their reversal by haloperidol in the marmoset, 146P
- , effect of, on backward walking and circling in the rat, 119P

- , fate of, in vervet and patas monkey, as metabolic models for man, 156P
- Amphetamine psychosis**, relevance to, of findings on behavioural responses induced by drug treatments which cause simultaneous release of catecholamines and 5-hydroxytryptamine in the rat, 573
- (+)-Amphetamine**, effect of, on rat caudate nucleus, 127P
- , monoamine oxidase inhibition by, *in vivo*, 435P
- , behavioural responses to, in the rat, 573
- , effect of, on effect of spiperone on feeding parameters in the rat, 147P
- Amygdala**, rat, central and medial nuclei in, exploratory behaviour and aversive thresholds in rats following microinjection of morphine into, 145P
- Amine storage**, drugs impairing, effects of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- Amino acetylation**, aromatic, in the adult and neonatal marmoset, 419P
- Amino acid transmitters**, candidates for, in rat olfactory cortex, 109P
- Amino acids**, release of, from rabbit retina *in vivo*, 110P
- $\alpha$ -Aminoadipic acid**, effect of, on effect of glutamate on excitation of Purkinje cells in rat cerebellum, 291
- p-Aminobenzoic acid**, acetylation of, in the adult and neonatal marmoset, 419P
- $\gamma$ -Aminobutyric acid**, comparison of effects of, and glycine on the release of [ $^3$ H]-dopamine from rat striatal slices, 106P
- , reduces the evoked release of [ $^3$ H]-noradrenaline from sympathetic nerve terminals, 108P
- , presynaptic effects of, in isolated rat superior cervical ganglia, 108P
- , as a candidate for transmitter of the rat olfactory cortex, 109P
- , putative compounds like, determination of *in vivo* activity of, 123P
- , neurones containing, use of neurotoxic lesions to locate, in rat striatum, 124P
- , efflux of, from rat raphe nuclei, effect of putative neurotransmitters on, 477P
- , striatonigral pathway for, behavioural and neurochemical studies on, 477P
- , animal model dependent on, effects of benzodiazepines and barbiturates in, interactions with muscimol in the globus pallidus, 493P
- , interaction of, with benzodiazepines in rat hippocampal slice preparation, 507P
- , effect of flurazepam and ACTH on release of, from rat brain slices, 115P
- , effect of, on Purkinje cells in rat cerebellum, effect of glutamate on, 291
- 2-Amino-6,7-dihydroxy-1,2,3,4-tetra hydronaphthalene**, use of, as a ligand for brain dopamine receptors in calf striatal slices, 87P
- $\epsilon$ -Aminocaproic acid**, effect of, on degradation of parathyroid hormone and calcitonin injected subcutaneously in chick, 25
- 2-(2-Aminoethyl)thiazole**, action of, on rat isolated oestrous uterus, 13
- delta-Aminolaevulinic acid synthase**, activity of, in leucocytes, during diphenylhydantoin anti-convulsant therapy, 424P
- Amino-oxyacetic acid**, effect of, *in vivo* in the mouse, 123P
- 4-Aminopyridine**, effect of, on muscle contractility in the cat, 466P
- Aminopyrine**, hepatic microsomal oxidative N-demethylation of, in rats with renal failure, 74P
- , demethylation kinetics for, comparison of plasma and exhaled metabolites, 429P
- Aminosteroid**, ORG 6001, effect of, on hypothermia-induced ventricular fibrillation in the cat, 609
- Anaesthetics**, effects of some general, on the surface potential of lipid monolayers, 259
- Analgesia**, *in vivo* antagonism of, induced by proposed  $\mu$  and  $\kappa$  opiate agonists, 473P
- , failure of substance P to produce, in the mouse, 129P
- Anaphylaxis**, slow reacting substance of, involvement of, in allergic reactions of canine lung, 511
- , slow reacting substance of, effect of arachidonic lipooxygenase substrates and inhibitors on release of, in guinea-pig lung, 452P
- , slow reacting substance of, involvement of, in the Schultz-Dale response of the guinea-pig small intestine, 385
- , pharmacological study of the mediators released following, of the sensitized hind quarters of the guinea-pig, 143P
- Angiotensin**, pressor responses to, in the pithed rat, influence of the oestrous cycle and of acute  $17\beta$ -oestradiol on, 462P
- Anococcygeus muscle**, rat, effects of cadmium ion on the responsiveness of, to electrical stimulation, noradrenaline, tyramine and potassium ion, 495P
- Anorectic agent**, new, tiflorex, metabolism of, in rat, 506P
- Anti-aggregatory effect**, of prostacyclin in rabbit, *in vivo*, 10
- Anti-allergy agent**, differences in toxicity due to species variations in the metabolism of an, 422P
- Anti-arrhythmic actions**, of a benzotriazinium iodide, on guinea-pig heart, 19
- Anti-arrhythmic drugs**, geometry of, like quinidine, 503P
- Anticholinesterase drugs**, origin of repetitive firing of mammalian skeletal muscle after, 466P
- , quaternary ammonium, (neostigmine, pyridostigmine, edrophonium and 3-hydroxyphenyltrimethylammonium), relationship between the pharmacokinetics, cholinesterase inhibition and facilitation of twitch tension of, 525
- Anticholinesterases**, effect of dithiothreitol on the action of, at the rat neuromuscular junction, 76P
- Anticonvulsant therapy**, with diphenylhydantoin, activity of delta-aminolaevulinic acid synthase during, 424P
- Antidiabetic sulphonylurea**, effects of, on liver membrane insulin receptors from obese hyperglycaemic mice, an improved assay for insulin receptors, 317
- Antidiabetic sulphonylurea drug**, oral, stimulant effect of, on assay of liver membrane insulin in obese, hyperglycaemic (ob/ob) mice, 86P
- Antidiarrhoeal activity**, of loperamide, naloxone inhibits, in rat, 373
- Antidysrhythmic activity**, coronary artery ligation in anaesthetized rats as a model for the assessment of, 463P
- Antidysrhythmic effect**, of the aminosteroid, ORG 6001, on hypothermia-induced ventricular fibrillation in the cat, 609

- Antidysrhythmic effects**, of disopyramide phosphate in the anaesthetized greyhound, 241
- Anti-epileptic drugs**, relative potency of, in mice, 423P
- Antihypertensive properties**, and effects on urate and electrolyte excretion of tienilic acid, bendrofluazide and spironolactone, 65P
- Anti-inflammatory protein**, endogenous, some possible mechanisms of action of an, 455P
- Anti-inflammatory steroids**, mechanism of action of, on membrane fluidity and phospholipase activity, 453P
- , stimulatory action of, on plasma  $\alpha_1$ -antitrypsin levels in the rat, 454P
- Antimalarial drugs**, effects of, on phospholipase  $A_2$ , 496P
- Antinociceptive actions**, of morphine and buprenorphine given intrathecally in conscious rats, 472P
- Anti-oestrogenic therapies**, control of experimental breast cancer by, 66P
- Antihistamines**, phenothiazine, effects of, on histamine release from human lung *in vitro*, 68P
- Antipsychotic drugs**, effects of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- Antisecretory actions**, gastric, of prostaglandins, some characteristics of, in mammalian perfused whole-stomachs *in vitro*, 153P
- Anti-sickling activity**, of a series of aromatic aldehydes, 70P
- $\alpha_1$ -Antitrypsin**, plasma levels of, in the rat, stimulatory action of steroidal anti-inflammatory drugs on, 454P
- Apomorphine**, effect of, on rat striatonigral GABA pathway, 477P
- , effect of, on piperone binding sites on rat corpus striatum membranes, 136P
- , effect of, on release of noradrenaline in canine gracilis muscle, 489P
- , effect of, on effect of (+)-amphetamine on [ $^3$ H]-noradrenaline overflow in perfused cat spleen, 460P
- , effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- Aprotinin**, effect of, on degradation of parathyroid hormone and calcitonin injected subcutaneously in chick, 25
- Arachidonate lipoxygenase**, substrates and inhibitors of, effect of, on SRS-A release in the guinea-pig lung, 452P
- Arachidonic acid**, distribution and mobilization of, in fat cell ghosts and its modification by glucocorticoids, 99P
- , effect of, on SRS-A release in guinea-pig lung, 452P
- , effect of high doses of, in rabbit *in vivo*, effect of prostacyclin on, 10
- , action of, on conduction time and refractory period in the cat heart *in situ*, 191
- Aromatic aldehydes**, anti-sickling activity of a series of, 70P
- Aromatic amino acetylation**, in the adult and neonatal marmoset, 419P
- Arthritis**, adjuvant, in the rat, inhibitory effects of gold salts on, 141P
- , experimental, in the rat, investigations of *Harpagophytum procumbens* in the treatment of, 140P
- Artery ligation**, early post-coronary, dysrhythmias produced by, in the anaesthetized dog, effects of disopyramide phosphate on, 241
- Aspartate**, effect of photic stimulation on release of, from rabbit retina *in vivo*, 110P
- , as a candidate for transmitter of the rat olfactory cortex, 109P
- Asthma**, allergic, pharmacology of Schultz-Dale reaction in canine lung strip *in vitro* as a possible model for, 511
- Atenolol**, effect of, on airways resistance and dynamic lung compliance in the guinea-pig and rat, 409
- Atria**, guinea-pig isolated, functional antagonism as a means of determining dissociation constants and relative efficacies of sympathomimetic amines in, 397
- , guinea-pig, interactions between adenosine and a benzotriazinium salt on, 459P
- , guinea-pig isolated, stimulation and inhibition of the sodium pump by cardioactive steroids in relation to their inotropic effect of, 175
- Atrium**, right, of cat and guinea-pig heart, regional distribution of  $\beta_1$ - and  $\beta_2$ -adrenoceptors in, 505P
- Atropine**, effect of, on effect of oxotremorine on lung surfactant secretion in neonatal rabbits, 142P
- , effect of, on hypothalamic blood flow in conscious rabbits, 217
- , effect of, on colonic mucus output in the rat, 456P
- , effect of, on depolarization of guinea-pig circular smooth muscle, effect of temperature on, 355
- , effect of, on locomotor activity in the rat, 121P
- , effect of, on actions of 5-hydroxytryptamine and histamine on the isolated ileum of the tree shrew (*Tupaia glis*), 405
- , effect of, on inotropic action of (–)-noradrenaline and (–)-isoprenaline in guinea-pig atria, 77P
- , effect of, on effect of 5-hydroxytryptamine on goat isolated trachea, 331
- , effect of, on negative inotropic action of somatostatin in beating isolated auricles of rabbits, rats, and guinea-pigs, 251
- Auricles**, isolated beating, of rats, guinea-pigs and rabbits, an analysis of the negative inotropic action of somatostatin in, 251
- Autonomic effects**, comparison of, of some currently-used neuromuscular blocking agents, 77P
- Aversive thresholds**, in rats following microinjection of morphine into central and medial nuclei of the amygdala, 145P
- Avian muscle**, contractures elicited by tetraethylammonium in, treated with methohexitone, 391
- Azapetine**, effect of, on response of transmurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553
- Azathioprine**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P
- , presynaptic, inhibitory effects of, on contractions of guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states produced *in vivo*, 601
- , antagonism by (+)-amphetamine of the inhibition of [ $^3$ H]-noradrenaline overflow obtained by, in the perfused cat spleen, 460P
- , effects of, on responses of transmurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553
- $\alpha$ -Adrenoceptor antagonist properties**, absence of, of metiamide, in the pithed rat, 133P

**$\beta$ -Adrenoceptor antagonist**, cardioselective, preliminary studies on SL75212, a new potent, 445P

**$\alpha$ -Adrenoceptor antagonists**, effect of, on clonidine-induced locomotor stimulation in the infant rat, 531

—, effects of, on responses of transmurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553

**Adrenoceptor blockade**, effect of, on blood flow in the hypothalamus of conscious rabbits, 217

**$\beta$ -Adrenoceptor-blocking drugs**, cardioselective, effects of, on airways resistance and dynamic lung compliance in the guinea-pig and rat, 409

**$\alpha$ -Adrenoceptor feedback**, at the sympathetic junction in the rat heart, an analysis of some factors influencing, 55

**$\beta_2$ -Adrenoceptor stimulation**, effects of, on cardiac metabolism in the conscious dog, 229

**$\alpha$ -Adrenoceptors**, binding studies on, in rat heart ventricle, effect of chemical sympathectomy on, 90P

—, binding of [ $^3$ H]-dihydroergocryptine to, on intact human platelets, 89P

—, cardiac presynaptic and vascular postsynaptic, in rats, effects of mianserin on, 132P

—, role of, in clonidine-induced locomotor stimulation in the infant rat, 531

—, pre- and postsynaptic, effects of agents acting at, on haloperidol catalepsy, 474P

**$\beta$ -Adrenoceptors**, binding sites for, in rat spleen, pharmacological characteristics and effects of chemical sympathectomy on, 91P

—, characterization of, of the BC<sub>3</sub>H1 nonfusing muscle cell line, 91P

—, pitfalls in the assessment of the specific binding of (–)-[ $^3$ H]-dihydroalprenolol to, 469P

—, vasodilator action of muscarinic receptor agonists on hypothalamic resistance vessels mediated via, 217

**$\beta_1$ - and  $\beta_2$ -Adrenoceptors**, regional distribution of, in the right atrium and left ventricle of the cat and guinea-pig heart, 505P

**Adrenocorticotrophic hormone**, effect of, on distribution and mobilization of arachidonic acid in fat cell ghosts, 99P

—, a functional antagonism between, and benzodiazepines?, 115P

**Age**, old, influence of, on hepatic glucuronidation in the rat, 498P

**Aggregometer**, electronic, for platelets, 138P

**AH19065**, (ranitidine), a new potent selective histamine H<sub>2</sub>-receptor antagonist, 464P

**Airways resistance**, effect of propranolol on, in guinea-pig and rat, 409

**Ajmaline**, geometry of, 503P

**$\beta$ -Alanine**, effect of, on efflux of 5-hydroxytryptamine and  $\gamma$ -aminobutyric acid from rat raphe nuclei, 477P

**Albumin**, plasma, binding of kynurenine to, 483P

**Alimentary flora**, influence of, on inhibition of monoamine oxidase by furazolidone in the chicken, 490P

**Alkaline earth ions**, and the secretion of enzymes from human neutrophil leucocytes, 69P

**n-Alkyl alcohols**, anaesthesia with, effect of, on surface potential of lipid monolayers, 259

**n-Alkyl carbamates**, rapid absorption of a series of, from the rat urinary bladder, a route for the recirculation of drugs, 283

## B

**Backward circling**, and walking, a behavioural response to concurrent catecholamine and 5-hydroxytryptamine release in the rat, 119P

**Backward walking**, behavioural responses induced by drug treatments which cause simultaneous release of catecholamines and 5-hydroxytryptamine, in the rat, 573

**Baclofen**, effect of, *in vivo* in the mouse, 123P

**Bacteria**, oxygen consumption by, effect of light on the enhancement of, by formyl tetrahydrofolic acid, 71P

**Bacterial endotoxin**, study of possible entry of, into central nervous system from the blood, in the cat, 565

**Barbiturates**, effects of, in a GABA-dependent animal model: interactions with muscimol in the globus pallidus, 493P

**Barium ion**, effect of methoxyverapamil on the stimulation by, of catecholamine release from bovine adrenal medulla, 591

**BC<sub>3</sub>H1**, nonfusing muscle cell line, characterization of  $\beta$ -adrenoceptors of the, 91P

**Behaviour**, circling, dopamine-mediated, superior coliculus lesions do not alter, 479P

—, circling, in rats, evidence for metabolite involvement in, induced by bromocryptine, 103P

**Behavioural assay**, sensitivity of, for measuring the action of drugs on feeding, effects of tryptophan and 5-hydroxytryptophan on, 482P

**Behavioural effects**, of chronic amphetamine and their reversal by haloperidol in the marmoset, 146P

**Behavioural reactions**, evidence from, to fenfluramine, 5-hydroxytryptophan, and 5-methoxy-*N,N*-dimethyltryptamine for differential effects of short-term and long-term lithium on indoleaminergic mechanisms in rats, 144P

**Behavioural responses**, induced by drug treatments which cause simultaneous release of catecholamines and 5-hydroxytryptamine, in the rat, 573

**Behavioural stimulation**, dose-dependent, after local infusion of substance P into ventral tegmental area in the rat, 113P

**Behavioural studies**, on the striatonigral GABA pathway, 477P

**Behavioural thermoregulation**, in mice, effects of  $\Delta^9$ -tetrahydrocannabinol, 2,4-dinitrophenol and pentolinium tartrate on, 39

**Bendrofluazide**, antihypertensive properties of, and effect of, on urate and electrolyte excretion, 65P

**Benzodiazepines**, effect of, on binding of L-tryptophan to human serum albumen, 92P

—, effects of, in a GABA-dependent animal model; interactions with muscimol in the globus pallidus, 493P

—, use of an *in vitro* hippocampal slice preparation in studies of the actions of, 507P

—, a functional antagonism between, and ACTH?, 115P

**Benzotriazinium iodide**, comparison of effects of, and quindine on guinea-pig heart, 19

**Benzotriazinium salt**, interaction between adenosine and a, on guinea-pig atria, 459P

**Betamethasone-17-valerate**, *in vitro* metabolism of, by human skin, 441P

**Bicuculline**, effect of, *in vivo* in the mouse, 123P

- Bile**, is dose-dependent disposition of [ $^{14}\text{C}$ ]-ICI 89,406 in the male rat due to a capacity limited excretory pathway for the drug into, 492P
- Biventer cervicis muscle**, chick, contractures elicited by tetraethylammonium in, treated with methohexitone, 391
- Bladder**, urinary, rat, rapid absorption from, of a series of *n*-alkyl carbamates: a route for the recirculation of drugs, 283
- Blood**, human and rabbit whole, study of platelet aggregation in, 94P
- , study of possible entry of bacterial endotoxin and prostaglandin  $\text{E}_2$  into central nervous system from the, in the cat, 565
- Blood flow**, gastric mucosal, effects of histamine and histamine antagonists on, in the dog, 458P
- , myocardial, effect of disopyramide on, in the anaesthetized dog, 241
- , coronary, effect of, salbutamol on, in the conscious dog, 229
- , evidence for an indirect cholinergic regulation of, in the hypothalamus of conscious rabbits, 217
- , alterations in changes in, in granulation tissue induced by prostaglandin  $\text{E}_1$ , 99P
- Blood sampling**, mode of, influence of, on the immunoreactive insulin concentration in serum of *Bordetella pertussis*-treated mice, 138P
- Blood vessel**, wall of, effect of profound cooling on adrenergic neuroeffector interaction in, 149P
- Blood pressure**, effects of mianserin on, in rats, 132P
- , effect of dopamine on, when injected into cerebral ventricles of the unanaesthetized dog, 235
- , effect of hypotonic and hypertonic sodium chloride solutions on, injected into the liquor space of anaesthetized cats, 51
- Bordetella pertussis**, serum from mice treated with, influence of mode of blood sampling on the immunoreactive insulin concentration in, 138P
- Botulinum toxin**, effect of, on contractures elicited by tetraethylammonium in avian muscle treated with methohexitone, 391
- Bradykinin**, prostacyclin release by, *in vivo* in the dog, 96P
- , effect of, on distribution and mobilization of arachidonic acid in fat cell ghosts, 99P
- , prostaglandins and the response of rat isolated ileum and duodenum to, 447P
- , effect of, on canine lung strip *in vitro*, 511
- Brain**, calf, characterization of dopamine receptors in, 88P
- , calf, dopamine receptors in, use of 2-amino-6,7-dihydroxy-1,2,3,4-tetrahydro naphthalene as a ligand for, 87P
- , guinea-pig, effect of 5-hydroxytryptamine on myoclonus induced by 1,2-dihydroxybenzene (catechol) in, 358
- , *Helix aspersa*, further studies on dopamine receptors in, 127P
- , mouse, uptake of kynurenine into, 484P
- , mouse, effect of methionine-enkephalin administered intracerebroventricularly to, on the stress-induced secretion of corticosterone, 164
- , mouse, regulation of glycolysis and energy level in, 167
- , possible entry of bacterial endotoxin and prostaglandin  $\text{E}_2$  into, in anaesthetized cat, 565
- , rat, a prostacyclin-like substance in, 95P
- , rat, changes in homovanillic acid content following discrete modulation of striatal dopamine systems, 105P
- , rat, effect of 5-hydroxytryptamine on protein synthesis in, 211
- , rat, effect of kynurenine on tryptophan and 5-hydroxytryptamine metabolism in, 483P
- , rat, muscarinic receptors in, ionic perturbation of agonist binding to, 470P
- , rat, pyruvate kinase purified from, effects of lithium on, 70P
- , rat, medullary neurones in, further evidence for coexistence of 5-hydroxytryptamine and substance P in, 112P
- , rat, guinea-pig and calf, on the distribution of [ $\text{met}^5$ ] and [ $\text{leu}^5$ ]-enkephalins in, 297
- , rat, frog and guinea-pig, a study of muscarinic receptors in, by gel electrophoresis, 337
- , rat, regional variations in [ $^3\text{H}$ ]-prazosin and [ $^3\text{H}$ ]-noradrenaline binding in, 153P
- , guinea-pig and rat, binding studies of [ $^3\text{H}$ ]-mepyramine in, 93P
- Breast cancer**, experimental, control of, by anti-oestrogenic therapies, 66P
- Breast cancers**, human, survival time is inversely related to the amounts of prostaglandins extracted from, 451P
- Bretylium**, antagonism by (+)-amphetamine of the inhibition of [ $^3\text{H}$ ]-noradrenaline overflow obtained by, in perfused cat spleen, 460P
- British Pharmacological Society**, Proceedings of, Guy's Hospital Medical School, London, 3rd-5th January, 1979, 65P-157P
- , Proceedings of, University of Aston, 4-6 April, 1979, 419P-507P
- Bromocresol green**, binding of, to plasma proteins from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol on, 275
- Bromocryptine**, evidence for metabolite involvement in circling behaviour induced by, in rats, 103P
- Bronchoconstriction**, induced by propranolol, in guinea-pig and rat, investigation of, 409
- $\alpha$ -Bungarotoxin**, binding sites of, in the rat hippocampus, relationship between cholinergic axon terminals and, 136P
- Buprenorphine**, antinociceptive actions of, given intrathecally in conscious rats, 472P
- Bupropion**, a new antidepressant, involvement of dopamine in the actions of, 104P
- Burimamide**, effect of, on effect of histamine on guinea-pig lymphocytes stimulated by concanavalin A, tuberculin, or syngeneic hepatoma cells, 365
- (+)-Butaclamol**, effect of, on spiperone binding sites on rat corpus striatum membranes, 136P
- , effect of, on the formation, storage and metabolism of tyramine in the mouse, 377
- , effects of methoxyverapamil on the stimulation by, of catecholamine release from bovine adrenal medulla, 591
- Butyl carbamate**, rapid absorption of, from the rat urinary bladder, a route for the recirculation of drugs, 283

## C

- Calcium ionophore**, A23187, inhibitory effect of, on the hydrolysis of fluorescein diacetate by human lymphocytes, 502P
- Cancer**, experimental breast, control of, by anti-oestrogenic therapies, 66P
- Cancers**, human breast, survival time is inversely related to the amounts of prostaglandins extracted from, 451P
- Carbachol**, effect of, on locomotor activity in the rat, 121P
- , effect of, on frog rectus abdominus muscle after treatment with dithiothreitol, 135P
  - , effect of, on colonic mucus output in the rat, 456P
  - , effect of, on effect of (+)-amphetamine on [<sup>3</sup>H]-noradrenaline overflow in perfused cat spleen, 460P
  - , ionic perturbation of binding of, to muscarinic receptors in rat brain, 470P
  - , effect of, on positive inotropic and chronotropic responses of guinea-pig isolated atria to sympathomimetic amines, 397
  - , effect of, on canine lung strip *in vitro*, 511
  - , effect of plasticizers on effect of, at isolated frog motor endplates, 76P
  - , effect of, on temperature regulation of cold-stressed and cold-acclimated rats 307
  - , effect of, on goat isolated trachea, 331
- Carbamylcholine**, effect of, on effect of neurotoxin from *Naja naja siamensis* on contraction of iris muscle of the chick, 33
- Carbinolamine metabolites**, of cytotoxic dimethyltriazenes, *in vitro* biotransformation of, 434P
- Carbohydrate utilization**, enhanced myocardial, potential protective value of, with reduced free fatty acid uptake after UK 25842 in patients with coronary artery disease, 444P
- , protection against experimental myocardial ischaemia by L-4-hydroxy-phenylglycine, a new agent which alters myocardial metabolic balance in favour of, 443P
- Cardiac metabolism**, in the conscious dog, effects of  $\beta_2$ -adrenoceptor stimulation on, 229
- Cardioactive steroids**, stimulation and inhibition of the sodium pump by, in relation to their binding sites and their inotropic effect on guinea-pig isolated atria, 175
- Cardioselective  $\beta$ -adrenoceptor antagonist**, preliminary studies on SL75212, a new potent, 445P
- Cardiovascular effects**, of 5-hydroxytryptamine in ganglion-blocked anaesthetized dogs, 81P
- , of hypotonic and hypertonic sodium chloride solutions when injected into the liquor space of anaesthetized cats, 51
- CA1 neurones**, excitation of, in rat hippocampus by the octacosapeptide, vasoactive intestinal peptide, 125P
- Caffeine**, effect of plasticizers on effect of, on cholinceptors at the frog neuromuscular junction, 76P
- Caffeine**, effect of, on sleep in man, 476P
- Cadmium ion**, effects of, on the responsiveness of the rat anococcygeus muscle and vas deferens to electrical stimulation, noradrenaline, tyramine and potassium ion, 495P
- Calcitonin**, injected subcutaneously, evidence that protease inhibitors reduce the degradation of, in chick, 25
- , salmon, action of, on indomethacin-induced gastric ulceration in the mouse, 154P
- Calcium ion**, effect of, on effect of guanidine on release of noradrenaline from the perfused spleen of the cat, 537
- , effect of, on secretion of enzymes from human neutrophil leucocytes, 69P
  - , concentration of, effect of, on negative inotropic action of somatostatin in beating isolated auricles of rats, rabbits and guinea-pigs, 251
  - , effect of, on effect of labetalol on release of [<sup>3</sup>H]-noradrenaline from dog isolated saphenous vein, 151P
  - , effect of, on effect of ultraviolet light on rat isolated duodenum, 197
- Cardiovascular responses**, produced by the injection of dopamine into the cerebral ventricles of the unanaesthetized dog, 235
- Catalepsy**, induced by haloperidol, effects of agents acting at pre- and postsynaptic  $\alpha$ -adrenoceptors on, 474P
- Catechol**, myoclonus induced by, in the guinea-pig, effect of 5-hydroxytryptamine on, 358
- Catecholamines**, behavioural responses induced by drug treatments which cause simultaneous release of, and 5-hydroxytryptamine, in the rat, 573
- , release of, concurrent with 5-hydroxytryptamine in the rat, backward walking and circling as a behavioural response to, 119P
  - , release of, from bovine adrenal medulla, effects of methoxyverapamil on the stimulation by calcium, strontium and barium ions and on the inhibition by magnesium ion of, 591
- Caudate nucleus**, rat, effects of stressful manipulations and drugs on, 127P
- Central nervous system**, actions of taurine and N-pivaloyl-taurine on, in mice, 480P
- , study of possible entry of bacterial endotoxin and prostaglandin E<sub>2</sub> into, from the blood, in the cat, 565
- Cerebellar granule cells**, electrophysiological evidence for glutamate as the neurotransmitter of, in the rat, 291
- Cerebellum**, rat, biochemical and morphological aspects of kainic acid injection into, 117P
- , rat, Purkinje cells in, effect of  $\alpha$ -aminoadipic acid on effect of glutamate on, 291
  - , distribution of enkephalin in, in rat, guinea-pig and calf, 297
- Cerebral circulation**, in the cat, possible entry of bacterial endotoxin and prostaglandin E<sub>2</sub> into central nervous system from, 565
- Cerebral cortex**, rat, muscarinic receptors in, temperature coefficients of affinity constants for the binding of antagonists to, 587
- Cerebral ventricle**, lateral, of anaesthetized cats, cardiovascular effects of hypotonic and hypertonic sodium chloride solutions injected into, 51
- Cerebral ventricles**, cardiovascular responses produced by the injection of dopamine into, of the unanaesthetized dog, 235
- Cerebrospinal fluid**, possible entry of bacterial endotoxin and prostaglandin E<sub>2</sub> into, in anaesthetized cat, 565
- Chandonium**, effect of, on action of (–)-noradrenaline and (–)-isoprenaline in guinea-pig atria, 77P
- Chick muscle**, contractures elicited by tetraethylammonium in, treated with methohexitone, 391

- Chemical sympathectomy**, with 6-hydroxydopamine, effect of, on blood flow in the hypothalamus of conscious rabbits, 217
- Cholesterol**, effect of, on membrane fluidity and phospholipase activity, 453P
- Choline**, phenylcyclohexylglycolic esters of, temperature coefficient of affinity constant for, acting at muscarinic receptors in the rat cerebral cortex, 587
- Cholinergic transmission**, role of prostaglandins in, in guinea-pig ileum, 446P
- Chlorambucil**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P
- Chlordiazepoxide**, effect of, in a GABA-dependent animal model, interaction with muscimol in globus pallidus, 493P
- , effect of, on spontaneous activity of neurones in cortical medial region of rat amygdala, 115P
- Chlorimipramine**, effect of, on 5-hydroxytryptamine release induced by *p*-methoxyamphetamine-5 in the rat, 185
- , effect of, on uptake and release of 5-hydroxytryptamine by guinea-pig enteric 5-hydroxytryptaminergic neurones, 7
- p*-Chloroamphetamine**, behavioural responses to, in the rat, 573
- , long term effects of, on hippocampal 5-hydroxytryptamine release in the rat, 120P
- , effect of, on backward walking and circling in the rat, 119P
- p*-Chlorophenylalanine**, effect of, on effect of 5-hydroxytryptamine on myoclonus induced by catechol in guinea-pig, 358
- , effect of, on backward walking and circling in the rat, 119P
- Chloroquine**, effect of, on phospholipase A<sub>2</sub>, 496P
- Chlorpheniramine**, effect of, on histamine release from human lung *in vitro*, 68P
- , effect of, on total lung resistance, dynamic lung compliance and irritant receptor discharge in the anaesthetized dog, 203
- , effect of, on binding of [<sup>3</sup>H]-mepyramine in the brain of guinea-pig and rat, 93P
- Chlorpromazine**, effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- , effect of, on colonic mucus output in the rat, 456P
- , effect of, on cardiovascular responses produced by dopamine injected into the cerebral ventricles of unanaesthetized dog, 235
- , effect of, on binding of [<sup>3</sup>H]-mepyramine in brain of guinea-pig and rat, 93P
- Choline**, metabolism of, in rabbit cortical slices, 137P
- Choline acetyltransferase**, binding of, to membrane as part of metabolism of choline in rabbit cortical slices, 137P
- Cholinergic axon terminals**, relationship between, and  $\alpha$ -bungarotoxin binding sites in the rat hippocampus, 136P
- Cholinergic false transmitter**, 1,1-dimethyl-3-acetoxypiperidine, a new, 465P
- Cholinergic mechanism**, relationship between, and dopaminergic mechanism in the nucleus accumbens for the control of locomotor activity, 121P
- Cholinergic regulation**, indirect, evidence for, of blood flow in the hypothalamus of conscious rabbits, 217
- Cholinoceptive properties**, of respiratory neurones in the rat medulla, an iontophoretic study of, 111P
- Cholinoceptors**, muscarinic, binding studies on, in rat heart ventricle, effect of chemical sympathectomy on, 90P
- , effect of plasticizers on responses mediated by, at the frog neuromuscular junction, 76P
- Chronotropic action**, of isoprenaline in man, effect of large oral doses of vitamin C on, 460P
- , of somatostatin, an analysis of, in beating isolated auricles of rabbits, rats and guinea-pigs, 251
- Chronotropic response**, positive, to sympathomimetic amines, in guinea-pig isolated atria, 397
- Ciliary ganglion**, acetylcholine receptors in, of the chick, specific binding and effect on the synaptic transmission of the neurotoxin from *Naja naja siamensis*, 33
- Cimetidine**, effect of, on total lung resistance, dynamic lung compliance and irritant receptor discharge in the anaesthetized dog, 203
- , sensitivity of the parietal cell and gastric microvasculature to, in the dog, 458P
- , transport of, across rat small intestine *in vitro*, 496P
- , effect of, on effect of 5-hydroxytryptamine on goat isolated trachea, 331
- , effect of, on negative inotropic action of somatostatin in beating isolated auricles of rabbits, rats and guinea-pigs, 251
- Circling behaviour**, in rats, evidence for metabolite involvement in, induced by bromocryptine, 103P
- , dopamine-mediated, superior colliculus lesions do not alter, 479P
- , behavioural responses induced by drug treatments which cause simultaneous release of catecholamines and 5-hydroxytryptamine, in the rat, 573
- , backward, a behavioural response to concurrent catecholamine and 5-hydroxytryptamine release in the rat, 119P
- Circling model**, mouse, use of, to demonstrate enhanced striatal actions for oxiperomide and tiapride following denervation, 121P
- Cisterna magna**, of anaesthetized cats, cardiovascular effects of hypotonic and hypertonic sodium chloride solutions injected into, 51
- Citroflex A4**, effect of, on responses mediated by cholinceptors at the frog neuromuscular junction, 76P
- Clofibric acid**, species variation in taurine conjugation of, 421P
- Clonazepam**, effect of, in a GABA-dependent animal model, interaction with muscimol in globus pallidus, 493P
- Clonidine**, effect of, on heart rate, in rats, 132P
- , effect of, on peripherally evoked parasympathetic submaxillary salivation in the cat, 133P
- , inhibitory effects of, on contractions of guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states produced *in vivo*, 601
- , effect of, on haloperidol catalepsy, 474P
- , locomotor stimulation induced by, in the infant rat, effect of  $\alpha$ -adrenoceptor antagonists and metiamide on, 531
- , effect of, on responses of transmurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553
- , effect of yohimbine on cardio-acceleration responses to sympathetic stimulation by, in the pithed rat, 55

**Clorgyline**, effect of, on effects of antipsychotic drugs on the formation, storage and metabolism of tyramine in mouse striatum, 377

**Clorgyline**, effect of, on effects of antipsychotic drugs on the formation, storage and metabolism of tyramine in mouse striatum, 377

—, effect of pretreatment with, on metabolites of intraduodenally instilled histamine, 73P

**Cocaine**, effect of, on release of noradrenaline in canine gracilis muscle, 489P

—, effect of, on effect of (+)-amphetamine on [ $^3\text{H}$ ]-noradrenaline overflow in perfused cat spleen, 460P

—, effect of, on action of (–)-noradrenaline and (–)-isoprenaline in guinea-pig atria, 77P

—, effect of, on inactivation of released noradrenaline in rat tail artery by neuronal uptake, 116P

—, effect of, on effect of labetalol on release of [ $^3\text{H}$ ]-noradrenaline from dog isolated saphenous vein, 151P

**Cold-acclimation**, rats undergoing, effects of noradrenaline and carbachol on temperature regulation in, 307

**Cold-stress**, prolonged, noradrenaline release in rats during, 521

—, rats suffering from, effects of noradrenaline and carbachol on temperature regulation in, 307

**Colon**, rat, effect of 5-hydroxytryptamine on protein synthesis in, 211

—, guinea-pig, studies on a cell-mediated immune response in, 499P

—, rat, mucosa, output of, stimulation of, 456P

**Concanavalin A**, effect of, on guinea-pig lymphocytes, effect of histamine on, 365

**Conduction time**, in the cat heart *in situ*, actions of prostaglandin precursors and other unsaturated fatty acids on, 191

**Constrictor responses**, action of dopamine on, in the perfused rat mesenteric artery, 497P

**Contractility**, muscle, effect of 4-aminopyridine on, in the cat, 466P

**Convulsions**, induced by penicillin, and the inhibition of glutamate decarboxylase, 72P

**Cooling**, effect of, on efflux of [ $^3\text{H}$ ]-noradrenaline in canine cutaneous veins, 148P

—, profound, effect of, on adrenergic neuroeffector interaction in the blood vessel wall, 149P

**Coronary artery**, occlusion of, influence of, on the myocardial distribution of digoxin, 65P

**Coronary artery disease**, potential protective value of enhanced myocardial carbohydrate metabolism with reduced free fatty acid uptake after UK 25842 in patients with, 444P

**Coronary artery ligation**, in anaesthetized rats as a model for the assessment of antidysrhythmic activity, 463P

**Corpus striatum**, rat, membranes of, agonist interactions with [ $^3\text{H}$ ]-spiperone binding sites on, 136P

**Corpus striatum membranes**, rat, analysis of interaction of dopamine with [ $^3\text{H}$ ]-spiperone binding sites on, 468P

**Corti**, organ of, guinea-pig, drug-damaged, methods for the histological study of, 507P

**Cortical neurones**, dopamine receptors on, does (3,4-dihydroxy-phenylamino)-2-imidazoline act at, 126P

**Cortical slices**, rabbit, binding of choline acetyltransferase to membrane in, as part of metabolism of choline, 137P

**Corticosteroids**, treatment with, effect of, on enkephalin content of rat hypothalamus, 130P

**Corticosterone**, effect of, on enkephalin content of rat hypothalamus, 130P

—, stress-induced secretion of, in mice, effect of intracerebroventricular administration of methionine-enkephalin on, 164

**Current strength**, different effects of, on inhibitory responses of the mouse vas deferens to methionine- and leucine-enkephalin, 361

**Cutaneous veins**, canine, effect of cooling on efflux of [ $^3\text{H}$ ]-noradrenaline in, 148P

**Cyclizine**, effect of, on histamine release from human lung *in vitro*, 68P

**Cycloleucine**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P

**Cyclophosphamide**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P

**Cyclosporin A**, studied on the mechanism of action of, 66P

**Cyproheptadine**, effect of, on effect of 5-hydroxytryptamine on pressor responses in ganglion-blocked anaesthetized dogs, 81P

—, effect of, on backward walking and circling in the rat, 119P

**Cytochrome P-450**, Hepatic, resolution and reconstitution of two forms of, from rabbits, 427P

## D

**Debrisoquine**, polymorphic hydroxylation of, in Ghanaians, 431P

—, hydroxylation of, application of phenotype panel approach to the detection of polymorphism of, 430P

**Decamethonium**, effect of, on frog rectus abdominus muscle after treatment with dithiothreitol, 135P

—, tachyphylaxis after repeated dosage of, in anaesthetized man, 467P

—, action of, in rat submandibular ganglion cells, 79P

**Decyl carbamate**, rapid absorption of, from rat urinary bladder, a route for the recirculation of drugs, 283

**N-demethylation**, hepatic microsomal oxidative, in rats with renal failure, 74P

**Denervation**, of lateral hypothalamus, changes in dopamine receptor status after, 493P

**2-Deoxy-D-glucose**, effect of haloperidol on increased water and food intake induced in rabbits by, 5

**Deprenyl**, effect of pretreatment with, on metabolites of intraduodenally instilled histamine, 73P

**Desipramine**, effect of, on heart rate in rats, 132P

—, effect of, on 5-hydroxytryptamine release induced by *p*-methoxyamphetamine in the rat, 185

**Desmethylimipramine**, effect of, on noradrenaline release during prolonged cold-stress in rats, 521

**Dexamethasone**, effect of, on distribution and mobilization of arachidonic acid in fat cell ghosts, 99P

—, effect of, on enkephalin content of rat hypothalamus, 130P

—, stimulatory action of, on plasma  $\alpha_1$ -antitrypsin levels in the rat, 454P

- Dextrorphan**, effect of, on inhibitory effects of presynaptic  $\alpha$ -adrenoceptor agonists on contractions of the guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states *in vivo*, 601
- Devil's Claw**, (*Harpagophytum procumbens*), investigations of, in the treatment of experimental inflammation and arthritis in the rat, 140P
- Diarrhoea**, induced by prostaglandin E<sub>2</sub>, effect of naloxone on effect of loperamide on, in the rat, 373
- Diazepam**, effect of, in a GABA-dependent animal model, interaction with muscimol in globus pallidus, 493P  
 —, effect of *in vivo* in the mouse, 123P  
 —, facilitates the potassium-stimulated release of [<sup>3</sup>H]-dopamine from rat striatal tissue, 107P  
 —, effect of, and its metabolites on the binding of L-tryptophan to human serum albumen, 92P
- Diazoxide**, effects of, on total lung resistance, in the guinea-pig, 143P
- Dibenzamine**, effect of, on effects of 5-hydroxytryptamine and isoprenaline on goat isolated trachea, 331
- Dibenzylamine**, effect of, on effects of 5-hydroxytryptamine and isoprenaline on goat isolated trachea, 331
- Diethyl-4-nitrophenyl phosphate**, effect of dithiothreitol on action of, on rat neuromuscular junction, 76P
- $\alpha$ -Difluoromethyl ornithine**, inhibition of early embryogenic development in mice by, an enzyme-activated irreversible inhibitor of L-ornithine decarboxylase, 436P
- Digoxin**, distribution of, in myocardium, influence of coronary artery occlusion on, 65P
- Dihomo- $\gamma$ -linolenic acid**, action of, on conduction time and refractory period in the cat heart *in situ*, 191
- Dihydroalprenolol**, binding of, to  $\beta$ -adrenoceptors in rat spleen, effect of chemical sympathectomy on, 91P
- (-)-[<sup>3</sup>H]-**dihydroalprenolol**, pitfalls in the assessment of the specific binding of, to  $\beta$ -adrenoceptors, 469P
- Dihydroergocryptine**, binding of, to  $\alpha$ -adrenoceptors in rat heart ventricle, effect of chemical sympathectomy on, 90P
- [<sup>3</sup>H]-**dihydroergocryptine**, binding of, to  $\alpha$ -adrenoceptors on intact human platelets, 89P
- Dihydromorphine**, binding characteristic of, in guinea-pig brain, 86P
- Dihydro-ouabain**, effect of, on contractility and ionic content of guinea-pig isolated atria, 175
- 1,2-Dihydroxybenzene**, myoclonus induced by, in the guinea-pig, effect of 5-hydroxytryptamine on, 358
- (3,4-Dihydroxy-phenylamino)-2-imidazoline**, does it act at dopamine receptors on cortical neurones?, 126P
- 5,7-Dihydroxytryptamine**, lesions produced by, in median and in dorsal raphe nuclei, effects of, on social interaction in the rat, 114P
- Dimaprit**, action of, on rat isolated oestrous uterus, 13  
 —, effect of, on effect of carbachol on goat isolated trachea, 331
- 2-(2',6'-Dimethoxy)phenoxyethylamine-methylbenzodioxan**, binding of, to  $\alpha$ -adrenoceptors in rat heart ventricle, effect of chemical sympathectomy on, 90P
- 1,1-Dimethyl-3-acetoxypiperidine**, a new cholinergic false transmitter, 465P
- Demethylation kinetics**, for aminopyrene, comparison of plasma and exhaled metabolites, 429P
- Dimethylbenz(a)anthracene**, experimental breast cancer induced by control of, by anti-oestrogenic therapies, 66P
- N,N-dimethyleclonidine**, metabolism of, by rat liver microsomes, 425P
- N'-N'-dimethylhistamine**, action of, on rat isolated oestrous uterus, 13
- Dimethyltriazenes**, cytotoxic, *in vitro* biotransformation of carbinolamine metabolites of, 434P
- 2,4-Dinitro-1-chlorobenzene**, contact allergen, hypersensitivity reaction to, in guinea-pig colon, 499P
- 2,4-Dinitrophenol**, effect of, on behavioural thermoregulation in mice, 39  
 —, effect of, on effect of ultraviolet light on rat isolated duodenum, 197
- Dipalmitoyl lecithin**, effect of, on membrane fluidity and phospholipase activity, 453P
- Diphenhydramine**, effect of, on negative inotropic action of somatostatin in beating isolated auricles of guinea-pigs, rats and rabbits, 251  
 —, effect of, on actions of 5-hydroxytryptamine and histamine on the isolated ileum of the tree shrew (*Tupaia glis*), 405  
 —, effect of, on histamine release from human lung *in vitro*, 68P
- Diphenylhydantoin**, anti-convulsant therapy with, activity of leucocyte delta-aminolaevulinic acid synthase during, 424P
- Disodiumcromoglycate**, effect of, on anaphylactic reaction of guinea-pig ileum, 385
- Disopyramide**, pharmacokinetics of, administered by intramuscular, intravenous and oral routes to normal volunteers, 442P
- Disopyramide phosphate**, effects of, on early post-coronary artery ligation dysrhythmias and on epicardial ST-segment elevation in anaesthetized dogs, 241
- Dissociation constants**, functional antagonism as a means of determining, of sympathomimetic amines in guinea-pig isolated atria, 397
- Disulphide bond reduction**, effect of, on agonist activity on the frog rectus abdominus muscle, 135P
- Dithiobisnitrobenzoic acid**, effect of, on response mediated by cholinergic receptors at the frog neuromuscular junction, effect of plasticizers on, 76P
- Dithiothreitol**, effect of, on responses mediated by cholinergic receptors at the frog neuromuscular junction, effect of plasticizers on, 76P  
 —, effect of, on the action of anticholinesterases on the rat neuromuscular junction, 76P
- 4,7,10,13,16,19-Docosahexaenoic acid**, effect of, on SRS-A release in guinea-pig lung, 452P
- DOPA**, radiolabelled, covalent binding of, to liver and lung microsomal protein, effect of paraquat on, 425P
- L-DOPA**, abnormal movements due to treatment with, relevance to, of findings on behavioural responses induced by drug treatments which cause simultaneous release of catecholamines and 5-hydroxytryptamine in the rat, 573
- Dopamine**, neurones containing, use of neurotoxic lesions to locate, in rat striatum, 124P  
 —, involvement of, in the central actions of bupropion, a new antidepressant, 104P  
 —, effect of, on locomotor activity in the rat, 121P  
 —, inhibition by, of the twitch response of the mouse isolated vas deferens, 131P

- , effect of, on spiperone binding sites on rat corpus striatum membranes, 136P
  - , release of, concurrent with 5-hydroxytryptamine in the rat, backward circling and walking as a behavioural response to, 119P
  - , action of, on constrictor responses in the perfused rat mesenteric artery, 497P
  - , behavioural responses dependent on, effects of (+)-amphetamine, chloroamphetamine and fenfluramine on, in the rat, 573
  - , interaction of, with [<sup>3</sup>H]-spiperone binding sites on rat corpus striatum membranes, 468P
  - , effect of, on release of noradrenaline in canine gracilis muscle, 489P
  - , cardiovascular responses produced by, injected into the cerebral ventricles of the unanaesthetized dog, 235
  - , effect of, on efflux of 5-hydroxytryptamine and  $\gamma$ -aminobutyric acid from rat raphe nuclei, 477P
  - , circling behaviour mediated by, superior colliculus lesions do not alter, 479P
  - [<sup>3</sup>H]-dopamine**, release of, stimulated by potassium, from rat striatal tissue, diazepam facilitates, 107P
  - , release of, from rat striatal slices, comparison of effects of glycine and GABA on, 106P
  - Dopaminergic inhibition**, of transmitter release as a mechanism of vasodilatation in the dog hindlimb, 489P
  - Dopamine receptors**, in calf brain, use of 2-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene as a ligand for, 87P
  - , in calf brain, characterization of, 88P
  - , in the brain of *Helix aspersa*, further studies on, 127P
  - , does (3,4-dihydroxy-phenylamino)-2-imidazoline act at, on cortical neurones?, 126P
  - , status of, changes in, after denervation or chronic receptor stimulation, 492P
  - Dopamine systems**, striatal, changes in mesolimbic homovanillic acid content after discrete modulation of, 105P
  - Dopamine turnover**, drugs reducing, effects of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
  - Dopaminergic mechanism**, relationship between, and cholinergic mechanism in the nucleus accumbens for the control of locomotor activity, 121P
  - Dopaminergic neurones**, control of, by tyramines in mouse striatum, 377
  - Drinking**, sedation, stereotypy and the inhibition of, after administration of ET495 in the rat, 481P
  - Duodenum**, rat isolated, characterization of ultraviolet light-induced relaxation of, 197
  - , rat isolated, prostaglandins and the response of, to bradykinin, 447P
  - Dyes**, decreased binding of, to plasma proteins from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol of, 275
  - Dysrhythmias**, produced by early post-coronary ligation, in the anaesthetized dog, effects of disopyramide phosphate on, 241
- E**
- Ecothiopate**, origin of repetitive firing of mammalian skeletal muscle after, 466P
  - Edrophonium**, relationship between the pharmacokinetics, cholinesterase inhibition and facilitation of twitch tension of, 525
  - 5,8,11,14,17-Eicosapentaenoic acid**, effect of, on SRS-A release in guinea-pig lung, 452P
  - Electrical stimulation**, single pulse, of the guinea-pig vas deferens and the presynaptic receptor hypothesis, 343
  - , at higher frequencies, relationship between inhibition of acetylcholinesterase and response of the rat phrenic nerve-diaphragm preparation to, 323
  - , field, different effects of current strength on inhibitory responses of mouse vas deferens to methionine- and leucine-enkephalin, 361
  - , effects of cadmium ion on the responsiveness of the rat anococcygeus muscle and vas deferens to, 495P
  - , noradrenaline overflow induced by, in the rat salivary gland, effect of guanethidine on, 223
  - Electroconvulsive therapy**, on the mechanism of action of, some behavioural and biochemical consequences of repeated electrically induced seizures in rats, 111P
  - Electrolyte excretion**, effects of, on tienilic acid, bendrofluzide and spironolactone, 65P
  - Electronic platelet aggregometer**, 138P
  - Embryogenic development**, early, inhibition of, in mice, by  $\alpha$ -difluoromethyl ornithine, an enzyme-activated irreversible inhibitor of L-ornithine decarboxylase, 436P
  - Enantiomeric pairs**, of compounds acting at muscarinic receptors in the guinea-pig ileum, temperature coefficients of affinity and entropies of adsorption for, 581
  - Endotoxin**, bacterial, study of possible entry of, into central nervous system from the blood, in the cat, 565
  - Endoperoxides**, involvement of, in allergic reactions of canine lung, 511
  - Energy level**, regulation of, in mouse brain, 167
  - Enkephalin**, content of, in rat hypothalamus, effect of adrenalectomy, laparotomy and corticosteroid treatment on, 130P
  - , methionine- and leucine-, different effects of current strength on inhibitory responses of the mouse vas deferens to, 361
  - , methionine-, effect of intracerebroventricular administration of, on the stress-induced secretion of corticosterone in mice, 164
  - Enkephalins**, [leu<sup>5</sup>]- and [met<sup>5</sup>]-, distribution of, on the brain of the rat, guinea-pig and calf, 297
  - , comparison of binding characteristics of, in guinea-pig brain, 86P
  - Entropies of adsorption**, for enantiomeric pairs of compounds acting at muscarinic receptors in the guinea-pig ileum, 581
  - Epididymal portion**, of rat isolated vas deferens, effects of  $\alpha$ -adrenoceptor agonists and antagonists on responses of transmurally stimulated, 553
  - Epoxymethano analogues**, of PGH<sub>2</sub>, trimethoquinol selectively antagonises longitudinal muscle contractions of rat isolated gastric fundus to, 450P
  - Ergometrine**, effect of, on cardiovascular responses produced by dopamine injected into the cerebral ventricles of unanaesthetized dog, 235
  - Eserine**, effect of, on locomotor activity in the rat, 121P
  - ET495**, sedation, stereotypy and the inhibition of drinking after administration of, in the rat, 481P

- Ethanol**, anaesthesia with, effect of, on surface potential of lipid mono-layers, 259
- Ethinylloestradiol**, pharmacokinetics of, in women, 441P
- Ethoxycoumarin**, metabolism of, biphasic Michaelis-Menten kinetics for, by human and rat hepatic mono-oxygenases, 428P
- Ethyl carbamate**, rapid absorption of, from the rat urinary bladder, a route for the recirculation of drugs, 283
- Ethylketazocine**, effect of, on inhibitory effects of presynaptic  $\alpha$ -adrenoceptor agonists on contractions of the guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states produced *in vivo*, 601
- Ethylketocyclazocine**, effect of, on analgesia and respiratory depression *in vivo* in mice, 473P
- Ethyl morphine**, hepatic microsomal oxidative N-demethylation of, in rats with renal failure, 74P
- Etorphine**, binding characteristic of, in guinea-pig brain, 86P
- Exploratory behaviour**, in rats following microinjection of morphine into central and medial nuclei in the amygdala, 145P

## F

- Fat cell ghosts**, distribution and mobilization of arachidonic acid in, and its modification by glucocorticoids, 99P
- Fatty acids**, free, reduced uptake of, potential protective value of enhanced myocardial utilization with, after UK25842 in patients with coronary artery disease, 444P
- , free, metabolism of, effect of salbutamol on, in the conscious dog, 229
  - , unsaturated, actions of, on conduction time and refractory period in the cat heart *in situ*, 191
  - , non-esterified, plasma concentrations of, in cold-stressed and cold-acclimated rats, effects of noradrenaline and carbachol on, 307
- Fazadinium**, effect of, on action of (–)-noradrenaline and (–)-isoprenaline in guinea-pig atria, 77P
- Fazadinium bromide**, metabolism of, 433P
- Feeding**, sensitivity of the behavioural assay for measuring the action of drugs on, effects of tryptophan and 5-hydroxytryptophan on, 482P
- Feeding parameters**, effects of spiperone on, in the rat, and interactions with (+)-amphetamine, mazindol or ( $\pm$ )-fenfluramine, 147P
- Fencamfamine hydrochloride**, effect of, on sleep in man, 476P
- Fenfluramine**, evidence from behavioural reactions to, for differential effects of short-term and long-term lithium on indoleaminergic mechanisms in rats 144P
- , effect of, on backward walking and circling in the rat, 119P
  - , behavioural responses to, in the rat, 573
- ( $\pm$ )-**Fenfluramine**, effect of, on effect of spiperone on feeding parameters in the rat, 147P
- Fenoterol**, functional antagonism as a means of determining dissociation constant and efficacy of, in guinea-pig atria, 397
- Firing**, repetitive, origin of, of mammalian skeletal muscle after anticholinesterase drugs, 466P
- Flufenamate**, sodium, antagonises the potentiation by prostaglandins of noradrenaline-induced vasoconstriction in rat mesentery, 449P
- Fluorescein diacetate**, inhibitory effect of calcium ionophore A23187 on hydrolysis of, by human lymphocytes, 502P
- Fluoxetine**, (Lilly 110140), effect of, on uptake and release of 5-hydroxytryptamine by guinea-pig enteric hydroxytryptaminergic neurones, 7
- , effect of, on 5-hydroxytryptamine release induced by *p*-methoxyamphetamine in the rat, 185
  - , effect of, on backward walking and circling in the rat, 119P
- $\alpha$ -**Flupenthixol**, effect of, on rat caudate nucleus, 127P
- , effect of, on spiperone binding sites on rat corpus striatum membranes, 136P
  - , effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
  - , effect of, on backward walking and circling in the rat, 119P
- Fluphenazine**, effect of, on mesolimbic homovanillic acid content, 105P
- Flurazepam**, a functional antagonism between, and ACTH?, 115P
- Food intake**, increased, effect of haloperidol on, induced in rabbits by 2-deoxy-D-glucose, 5
- Formyl tetrahydrofolic acid**, effect of light on the enhancement of bacterial respiration by, 71P
- FPL55712**, effect of, on anaphylactic reaction of guinea-pig ileum, 385
- FPL 57787**, differences in toxicity due to species variations in the metabolism of, and anti-allergy agent, 422P
- Free fatty acids**, metabolism of, effect of salbutamol on, in the conscious dog, 229
- Fructose-1,6-diphosphate**, regulation of, in mouse brain, effect of phosphatidylserine liposomes on, 167
- Functional antagonism**, as a means of determining dissociation constants and relative efficacies of sympathomimetic amines in guinea-pig isolated atria, 397
- Furazolidone**, inhibition of monoamine oxidase by, in the chicken, influence of the alimentary flora on, 490P

## G

- Gallamine**, modes of action of, at mouse neuromuscular junction, 78P
- Gastric acid**, output of, effects of histamine and histamine antagonists on, in the dog, 458P
- Ganglion blockade**, in anaesthetized dogs, mechanism of 5-hydroxytryptamine-induced pressor responses in, 81P
- Ganglionic blocking drugs**, two modes of action of, 79P
- Ganglion cells**, rat submandibular, modes of action of ganglionic blocking drugs at, 79P
- Gastric fundus**, rat isolated, trimethoquinol selectively antagonises longitudinal muscle contractions of, to thromboxane B<sub>2</sub> and epoxymethano analogues of PGH<sub>2</sub>, 450P

**Gastric microvasculature**, sensitivity of, to histamine and histamine antagonists in the dog, 458P

**Gastric relaxation**, vagal, a hyoscine sensitive component of, 457P

**Gastric ulceration**, indomethacin-induced, in the mouse, action of salmon calcitonin on, 154P

**Gastrin**, serum concentration of, in rats, effect of 5-hydroxytryptamine on, 211

**Gastrointestinal tissues**, rat, effect of 5-hydroxytryptamine on protein synthesis in, 211

**Gelatine**, effect of, on degradation of parathyroid hormone and calcitonin injected subcutaneously in chick, 25

**General anaesthetics**, effects of some, on the surface potential of lipid monolayers, 259

**Globus pallidus**, interaction with muscimol in, effects of benzodiazepines and barbiturates in a GABA-dependent animal model, 493P

**Glucagon**, intraportal infusion of, inhibition of the hepatic arterial vasoconstrictor responses by, 82P

**Glucocorticoids**, modification of distribution and mobilization of arachidonic acid in fat cell ghosts by, 99P

**Glucose**, arterial, effect of salbutamol on, in the conscious dog, 229

- hypotonic and hypertonic solutions of, cardiovascular effects of, injected into liquor space of anaesthetized cats, 51
- accumulation of, in mouse brain, regulation of, by phosphatidylserine liposomes, 167

**Glucose-6-phosphate**, regulation of, in mouse brain, effect of phosphatidylserine liposomes on, 167

**$\beta$ -Glucuronidase**, secretion of, from human neutrophil leucocytes, effect of calcium ion on, 69P

**Glucuronidation**, in rat liver, influence of old age and of renal failure on, 498P

**Glutamate**, neurones containing, use of neurotoxic lesions to locate, in rat striatum, 124P

- electrophysiological evidence for, as the neurotransmitter of cerebellar granule cells in the rat, 291

**Glutamate decarboxylase**, inhibition of, and penicillin-induced convulsions, 72P

**Glutamatergic neuromuscular junctions**, on locust skeletal fibres, responses to DL-ibotenic acid at, 267

**L-Glutamic acid**, responses to, at locust glutamatergic neuromuscular junctions on skeletal muscle fibres, 267

**Glycerol**, intramuscular injection of, effect of, on decreased binding of drugs and dyes to plasmaproteins from rats with acute renal failure, 275

**Glycerol monoleate**, monolayers of, effect of some general anaesthetics on surface potential of, 259

**Glycine**, comparison of effects of, and GABA on release of [ $^3$ H]-dopamine from rat striatal slices, 106P

- effect of, on efflux of 5-hydroxytryptamine and  $\gamma$ -aminobutyric acid from rat raphe nuclei, 477P

**Glycolysis**, regulation of, in mouse brain, 167

**Gold salts**, inhibitory effects of, in adjuvant arthritis and on lysosomal enzyme activity in the rat, 141P

**Gracilis muscle**, canine, dopaminergic inhibition of transmitter release as a mechanism of vasodilatation in the dog hindlimb, 489P

**Granulation tissue**, alterations in prostaglandin  $E_1$ -induced blood flow changes in, 99P

**Guanethidine**, relationship between accumulation, storage

and overflow of noradrenaline in the rat salivary gland after chronic treatment with, 223

**Guanidine**, effect of, on release of noradrenaline from the perfused spleen of the cat, 537

## H

**Haemodynamic effects**, of disopyramide in the anaesthetized greyhound, 241

**Hallucinogenic activity**, relevance to, of findings on behavioural responses induced by drug treatments which cause simultaneous release of catecholamines and 5-hydroxytryptamine in the rat, 573

**Haloperidol**, effect of, on locomotor activity in the rat, 121P

- effect of, on increased food and water intake induced in rabbit by 2-deoxy-D-glucose, 5

- catalepsy induced by, effect of GABA antagonists and agonists on, *in vivo* in the mouse, 123P

- behavioural effects of chronic amphetamine and their reversal by haloperidol in the marmoset, 146P

- effect of, on cardiovascular responses produced by dopamine injected into the cerebral ventricles of unanaesthetized dog, 235

- effect of, on tardive dyskinesia, 475P

- catalepsy induced by, effects of agents acting at pre- and postsynaptic  $\alpha$ -adrenoceptors on, 474P

- effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377

- binding sites for, in rat brain, effect of denervation and dopamine on, 493P

**Harmaline**, could it generate whole body tremor by affecting 5-hydroxytryptamine release from synapses?, 116P

- tremor induced by, effect of GABA antagonists and agonists on, *in vivo* in the mouse, 123P

**Harpagophytum procumbens**, (Devil's Claw), investigations of, in the treatment of experimental inflammation and arthritis in the rat, 140P

**Heart**, cat, *in situ*, actions of prostaglandin precursors and other unsaturated fatty acids on conduction time and refractory period in, 191

- cat and guinea-pig, right atrium and left ventricle of, regional distribution of  $\beta_1$ - and  $\beta_2$ -adrenoceptors in, 505P

- human, parameters of ( $^3$ H)-ouabain binding to [ $\text{Na}^+ + \text{K}^+$ ]-ATPase from, 471P

- guinea-pig, comparison of effects of a benzotriazinium iodide and quinidine on, 19

- guinea-pig isolated, stimulation and inhibition of the sodium pump by cardioactive steroids in relation to their binding sites and to their inotropic effect, 175

- rat, effect of 5-hydroxytryptamine on protein synthesis in, 211

- rat, sympathetic junction in, an analysis of some factors influencing  $\alpha$ -adrenoceptor feedback at, 55

**Heart rate**, in rats, effects of mianserin on, 132P

- effect of dopamine on, when injected into cerebral ventricles of the unanaesthetized dog, 235

- effect of hypotonic and hypertonic sodium chloride solutions on, injected into the liquor space of anaesthetized cats, 51

- Heart ventricle**, rat, binding studies on  $\alpha$ -adrenoceptors and muscarinic cholinergic receptors in, effect of chemical sympathectomy on, 90P
- Helix aspersa**, brain of, further studies on dopamine receptors in, 127P
- Hepatic artery**, venous vascular bed of, responses of, to intra-arterial infusions of noradrenaline and adrenaline, (inhibition of the hepatic arterial vasoconstrictor responses by intraportal infusions of glucagon, 82P
- Hepatoma cells**, syngeneic, effect of, on guinea-pig lymphocytes, effect of histamine on, 365
- Hexamethonium**, action of, in rat submandibular ganglion cells, 79P
- , effect of, on vagal gastric relaxation in guinea-pig, 457P
- , effect of, on actions of 5-hydroxytryptamine and histamine on the isolated ileum of the tree shrew (*Tupaia glis*), 405
- , effect of, on effect of intracerebroventricularly injected dopamine on cardiovascular parameters in the unanaesthetized dog, 235
- Hexose**, output of, from rat colonic mucosa, 456P
- Hexyl carbamate**, rapid absorption of, from the rat urinary bladder, a route for the recirculation of drugs, 283
- Hindlimb**, dog, dopaminergic inhibition of transmitter release as a mechanism of vasodilatation in, 489P
- Hind paw oedemas**, in the guinea-pig, an evaluation of, 139P
- Hindquarters**, autoperfused, of anaesthetized rats, vascular histamine receptors in, 517
- , sensitized, of the guinea-pig, pharmacological study of the mediators released following anaphylaxis of, 143P
- Hippocampus**, rat, excitation of CA1 neurones of, by the octacosapeptide, vasoactive intestinal peptide, 125P
- , rat,  $\alpha$ -bungarotoxin binding sites in, relationship between, and cholinergic axon terminals, 136P
- , rat, slice preparation of, use of, in studies of the actions of benzodiazepines *in vitro*, 507P
- , rat, 5-hydroxytryptamine release from, long term effects of *p*-chloroamphetamine on, 120P
- , distribution of enkephalin in, in rat, guinea-pig and calf, 297
- Histamine**, release of, from guinea-pig hind quarters following anaphylaxis, 143P
- , effect of, on total lung resistance, dynamic lung compliance and irritant receptor discharge in the anaesthetized dog, 203
- , effect of, on colonic mucus output in the rat, 456P
- , sensitivity of the parietal cell and gastric microvasculature to, in the dog, 458P
- , and histamine analogues, inhibition by, of guinea-pig lymphocyte activation, 365
- , action of, on the isolated ileum of the tree shrew (*Tupaia glis*), 405
- , effect of propranolol on bronchoconstrictor effects of, in the guinea-pig and rat, 409
- , effect of, on canine lung strip *in vitro*, 511
- , effect of, on vascular responses in autoperfused hindquarters of anaesthetized rats, 517
- , action of, on rat isolated oestrous uterus, 13
- , release of, from human lung *in vitro*, effects of histamine  $H_1$  antagonists on, 68P
- , metabolites of intraduodenally instilled, after pretreatment with monoamine oxidase inhibitors, 73P
- , effect of, on goat isolated trachea, 331
- Histamine antagonists**, sensitivity of the parietal cell and gastric microvasculature to, in the dog, 458P
- Histamine  $H_1$  antagonists**, and histamine release from human lung *in vitro*, 68P
- Histamine receptor agonists and antagonists**, action of, on rat isolated oestrous uterus, 13
- Histamine  $H_1$ - and  $H_2$ -receptor agonists and antagonists**, effects of, on total lung resistance, dynamic lung compliance and irritant receptor discharge in the anaesthetized dog, 203
- Histamine  $H_2$ -receptor antagonist**, ranitidine (AH19065), a new potent selective, 464P
- Histamine  $H_2$ -receptor blocker**, (metiamide), effect of, on clonidine-induced locomotor stimulation in the infant rat, 531
- Histamine receptors**, vascular, characterization of, in the rat, 517
- Histamine  $H_1$ -receptors**, in brain of guinea-pig and rat, binding of [ $^3H$ ]-mepyramine to, 93P
- Histamine  $H_2$ -receptors**, role of, in clonidine-induced locomotor stimulation in the infant rat, 531
- Histological study**, methods for, of the drug-damaged guinea-pig organ of Corti, 507P
- Homovanillic acid**, changes in mesolimbic content of, after discrete modulation of striatal dopamine systems, 105P
- Horse plasma**, effect of, on canine lung strip *in vitro*, 511
- Hydrocortisone**, effect of, on distribution and mobilization of arachidonic acid in fat cell ghosts, 99P
- , mechanism of inhibition of prostaglandin biosynthesis by, in rat leucocytes, 161
- , stimulatory action of, on plasma  $\alpha_1$ -antitrypsin levels in the rat, 454P
- Hydrogen ions**, effect of, on Purkinje cells in rat cerebellum, effect of  $\alpha$ -aminoadipic acid on, 291
- Hydroxylation**, of debrisoquine in Guanaians, 431P
- , of debrisoquine in man, 430P
- 2-(4-Hydroxybenzeneazo)benzoic acid**, binding of, to plasma proteins from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol on, 275
- 6-Hydroxydopamine**, chemical sympathectomy of hypothalamus with, effect of, on blood flow in the conscious rabbit, 217
- , lesions of rat striatum by, use of, to determine neuronal systems, 124P
- , chemical sympathectomy by, effect of, on binding of dihydroalprenolol to  $\beta$ -adrenoceptors in rat spleen, 91P
- , destruction of noradrenergic nerve terminals in rat heart ventricle by, effect of, on binding studies on  $\alpha$ -adrenoceptors and muscarinic cholinergic receptors, 90P
- L-4-Hydroxyphenylglycine**, a new agent which alters myocardial metabolic balance in favour of carbohydrate utilization, protection against experimental myocardial ischaemia by, 443P
- 5-Hydroxyindoleacetic acid**, effect of catechol on levels of, in guinea-pig brain, 358
- 3-Hydroxyphenylmethylammonium**, relationship between the pharmacokinetics, cholinesterase inhibition and facilitation of twitch tension of, 525

- 5-Hydroxytryptamine**, pressor responses in ganglion-blocked anaesthetized dogs induced by, mechanism of, 81P
- , a nucleotide with characteristic platelet aggregation and inhibition properties similar to, 94P
  - , effect of, on protein synthesis in gastrointestinal and other tissues and on serum gastrin concentrations in rats, 211
  - , output of, from rat colonic mucosa, 456P
  - , efflux of, from rat raphe nuclei, effect of putative neuro-transmitters on, 477P
  - , and myoclonus induced by 1,2-dihydroxybenzene (catechol) in the guinea-pig, 358
  - , metabolism of, in rat brain, effect of kynurenine on, 483P
  - , action of, on the isolated ileum of the tree shrew (*Tupaia glis*), 405
  - , effect of propranolol on bronchoconstrictor effects of, in the guinea-pig and rat, 409
  - , effect of, on canine lung strip *in vitro*, 511
  - , effect of, on canine lung strip *in vitro*, 511
  - , behavioural responses induced by drug treatments which cause simultaneous release of catecholamines and, in the rat, 573
  - , uptake and release of, by guinea-pig enteric 5-hydroxytryptaminergic neurones, effects of fluoxetine (Lilly 110140) and cholimipramine of, 7
  - , further evidence for coexistence of, and substance P in medullary raphe neurones in rat brain, 112P
  - , effect of flurazepam and ACTH on release of, from rat brain slices, 115P
  - , release of, from synapses, could harmaline generate whole body tremor by affecting?, 116P
  - , brain levels of, in immature rats after injection of L-tryptophan and tranlycypromine, 118P
  - , release of, concurrent with catecholamines in the rat, backward circling and walking as a behavioural response to, 119P
  - , release of, from rat hippocampus, long term effects of *p*-chloroamphetamine on, 120P
  - , relaxant response of goat trachea to, mediated by D-tryptamine receptors, 331
  - , release of, in the rat, 5-HT uptake inhibitors block, induced by *p*-methoxyamphetamine-5, 185
- 5-Hydroxytryptamine receptors**, blockade of, by quipazine, 80P
- 5-Hydroxytryptamine uptake inhibitors**, block *p*-methoxyamphetamine-induced 5-HT release, in the rat, 185
- 5-Hydroxytryptaminergic neurones**, enteric, of guinea-pig, uptake and release of 5-hydroxytryptamine by, effects of fluoxetine (Lilly 110140) and chlorimipramine on, 7
- 5-Hydroxytryptophan**, evidence from behavioural reactions to, for differential effects of short-term and long-term lithium on indoleaminergic mechanisms in rats, 144P
- , effect of, on behavioural assay for measuring the action of drugs on feeding, 482P
  - , effect of, on 5-hydroxytryptamine release induced by *p*-methoxyamphetamine-5 in the rat, 185
- L-5-Hydroxytryptophan**, output of, from rat colonic mucosa, 456P
- Hyoscine**, a component sensitive to, of vagal gastric relaxation, 457P

- Hyoscyamine methiodide**, enantiomeric pairs of, temperature coefficients of affinity and entropies of adsorption for, acting at muscarinic receptors in the guinea-pig ileum, 581
- Hyperglycaemia**, ob/ob mice suffering from, assay of liver membrane insulin in, stimulant effect of an oral anti-diabetic sulphonylurea drug on, 86P
- , induced by subcutaneously injected parathyroid hormone in chick, effect of protease inhibitors on, 25
  - , mice suffering from, effects of antidiabetic sulphonylurea on liver membrane insulin receptors from, an improved assay for insulin receptors, 317
- Hypothalamus**, rat, enkephalin content of, effect of adrenalectomy, laparotomy and corticosteroid treatment on, 130P
- , of conscious rabbits, evidence for an indirect cholinergic regulation of blood flow in, 217
  - , preoptic-anterior, possible entry of bacterial endotoxin and prostaglandin E<sub>2</sub> into, in anaesthetized cat, 565
  - , distribution of enkephalin in, in rat, guinea-pig and calf, 297
- Hypothermia**, ventricular fibrillation in the cat induced by, effect of the aminosteroid, ORG 6001, on, 609

## I

- DL-Ibotenic acid**, responses to, at the locust glutamatergic neuromuscular junctions on skeletal muscle fibres, 267
- [<sup>14</sup>C]-ICI 89,406**, dose-dependent disposition of, in the male rat, 492P
- Ileum**, guinea-pig, muscarinic receptors in, temperature coefficients of affinity and entropies of adsorption for enantiomeric pairs of compounds acting at, 581
- , guinea-pig, involvement of SRS-A in the Schultz-Dale response of, 385
  - , guinea-pig, inhibitory effects of presynaptic  $\alpha$ -adrenoceptor agonists on contractions of, in the morphine-dependent and withdrawn states produced *in vivo*, 601
  - , guinea-pig, role of prostaglandins in cholinergic transmission in, 446P
  - , isolated, of the tree shrew (*Tupaia glis*), actions of 5-hydroxytryptamine and histamine on, 405
  - , rat, effect of 5-hydroxytryptamine on protein synthesis in, 211
  - , rat isolated, prostaglandins and the response of, to bradykinin, 447P
- Imidazole acetic acid**, effects of, *in vivo* in the mouse, 123P
- Immune response**, cell-mediated, studies on, in the guinea-pig colon, 499P
- Immunoreactive insulin**, concentration of, in serum from *Bordetella pertussis*-treated mice, influence of mode of blood sampling on, 138P
- Immunity**, humoral and cell mediated, a model of, in the mouse, effect of several immunomodulating agents on, 67P
- Immunomodulating agents**, effects of, on a model of humoral and cell mediated immunity in the mouse, 67P
- Idoleaminergic mechanisms**, in rats, evidence from behavioural reactions to fenfluramine, 5-hydroxytryptophan and 5-methoxy-*N,N*-dimethyltryptamine for differen-

- tial effects of short-term and long-term lithium on, 144P
- Indomethacin**, effect of, on release of prostaglandins from guinea-pig hind quarters, 143P
- , effect of, on SRS-A release in guinea-pig lung, 452P
  - , effect of, on erythema produced by fungal extract in skin of plaice, *Pleuronectes platessa* L., 547
  - , effect of, on effect of prostacyclin on effect of high doses of arachidonic acid in rabbit *in vivo*, 10
  - , effect of, on a model of humoral and cell mediated immunity in the mouse, 67P
  - , effect of, on effects of histamine and carbachol on goat isolated trachea, 331
  - , effect of, on negative inotropic action of somatostatin in beating isolated auricles of rabbits, rats and guinea-pigs, 251
  - , gastric ulceration in the mouse induced by, action of salmon calcitonin on, 154P
  - , effect of, on actions of prostaglandin precursors and other unsaturated fatty acids on conduction time and refractory period in the cat heart *in situ*, 191
- Inflammation**, experimental, in the rat, investigations of *Harpagophytum procumbens* in the treatment of, 140P
- Inhibitory junctional transmission**, and temperature, in guinea-pig ileum, 355
- Injury**, production of prostaglandin-like materials by rat tail skin in response to, 448P
- Insecticide**, organophosphorus, (Abate), sub-cellular effects of, 72P
- Inotropic action**, negative, of somatostatin, an analysis of, in isolated beating auricles of rats, rabbits and guinea-pigs, 251
- Inotropic agents**, positive, modification of the negative inotropic effect of lanthanum by, 85P
- Inotropic effect**, stimulation and inhibition of the sodium pump by cardioactive steroids in relation to their, on guinea-pig isolated atria, 175
- , negative, modification of, of lanthanum by ouabain and some other positive inotropic agents, 85P
- Inotropic effects**, of (–)-noradrenaline and (–)-isoprenaline in guinea-pig atria, 77P
- Inotropic response**, positive, to sympathomimetic amines, in guinea-pig isolated atria, 397
- Insulin**, immunoreactive, concentration of, in serum from *Bordetella pertussis*-treated mice, influence of mode of blood sampling on, 138P
- , arterial, effect of salbutamol on, in the conscious dog, 229
  - , antagonistic action of, accompanies effect of salbutamol infused into the conscious dog, 229
  - , assay of, in liver membrane, in obese, hyperglycaemic (ob/ob) mice: stimulant effect of an oral antidiabetic sulphonylurea drug, 86P
- Insulin receptors**, improved assay for, effects of an antidiabetic sulphonylurea on liver membrane insulin receptors from obese hyperglycaemic mice, 317
- Intestine**, rat, effect of 5-hydroxytryptamine on protein synthesis in, 211
- , rabbit and guinea-pig, intramural inhibitory nerve activity in, theophylline is not an antagonist of, 84P
- Intramural inhibitory nerve activity**, in rabbit and guinea-pig intestine, theophylline is not an antagonist of, 84P
- Iodoacetic acid**, effect of, on effect of ultraviolet light on rat isolated duodenum, 197
- Iris muscle**, acetylcholine receptors in, of the chick, specific binding and effect of the synaptic transmission of the neurotoxin from *Naja naja siamensis*, 33
- Irritant receptor discharge**, in the anaesthetized dog, effects of H<sub>1</sub>- and H<sub>2</sub>-receptor agonists and antagonists on, 203
- Ischaemia**, experimental myocardial, protection against, by L-4-hydroxy-phenylglycine, a new agent which alters myocardial metabolic balance in favour of carbohydrate utilization, 443P
- N-n-Pr-epi-isoajmalinium**, geometry of, 503P
- Isoprenaline**, effect of, on effect of horse plasma, carbachol and histamine on canine lung strip *in vitro*, 511
- , effect of, on goat isolated trachea, 331
  - , functional antagonism as a means of determining dissociation constant and efficacy of, in guinea-pig isolated atria, 397
  - , chronotropic action of, in man, effect of large oral doses of vitamin C on, 460P
  - , effect of, on colonic mucis output in the rat, 456P
- (–)-**Isoprenaline**, inotropic action of, in guinea-pig atria, effects of neuro-muscular blocking agents on, 77P

## J

**Jejunum**, rat, effect of 5-hydroxytryptamine on protein synthesis in, 211

## K

- Kainic acid**, lesions of rat striatum by, use of, to determine neuronal systems, 124P
- , injection of, into rat cerebellum, biochemical and morphological aspects of, 117P
- Ketazocine**, effect of, on inhibitory effects of presynaptic  $\alpha$ -adrenoceptors agonists on contractions of the guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states *in vivo*, 601
- Ketocyclazocine**, effect of, on analgesia and respiratory depression *in vivo* in mice, 473P
- Kidneys**, regenerating, decreased nephrotoxic effect of mercuric chloride in the, 437P
- Kynurenine**, uptake of, into mouse brain, 484P
- , effect of, on brain tryptophan and 5-hydroxytryptamine metabolism, 483P

## L

- Levamisole**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P
- Levorphanol**, effect of, on inhibitory effect of presynaptic  $\alpha$ -adrenoceptor agonists on contractions of guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states produced *in vivo*, 601
- , tolerance to, of mouse vas deferens, 131P
- Ligation**, artery, early post-coronary, dysrhythmias produced by, in the anaesthetized dog, effects of disopyramide phosphate on, 241

- Light**, effect of, on the enhancement of bacterial respiration by formyl tetrahydrofolic acid, 71P
- Lignocaine**, geometry of, 503P
- , anti-dysrhythmic activity of, in anaesthetized rats during coronary artery ligation, 463P
  - , interaction between, and nortriptyline for uptake by lung in isolated lungs and *in vivo*, 440P
- Lilly 110140**, (fluoxetine), effect of, on uptake and release of 5-hydroxytryptamine by guinea-pig enteric 5-hydroxytryptaminergic neurones, 7
- $\alpha$ -Linolenic acid**, action of, on conduction time and refractory period in the cat heart *in situ*, 191
- Linoleic acid**, action of, on conduction time and refractory period in the cat heart *in situ*, 191
- Lipid monolayers**, effects of some general anaesthetics on the surface potential of, 259
- Liposomes**, phosphatidylserine, pharmacological effects of, regulation of glycolysis and energy level in mouse brain, 167
- Liquor space**, of anaesthetized cats, cardiovascular effects of hypotonic and hypertonic sodium chloride solutions injected into, 51
- Lithium ion**, perturbation by, of binding of carbachol to muscarinic receptors in rat brain, 470P
- , effects of, on purified rat brain pyruvate kinase, 70P
  - , differential effects of short-term and long-term on indolaminergic mechanisms in rats, evidence for, from behavioural reactions to fenfluramine, 5-hydroxytryptophan and 5-methoxy-*N,N*-dimethyltryptamine, 144P
- Liver**, rat, effect of 5-hydroxytryptamine on protein synthesis in, 211
- , rat, influence of old age and of renal failure on glucuronidation in, 498P
- Liver membrane**, assay of insulin in, in obese, hyperglycaemic (ob/ob) mice: stimulant effect of an oral antidiabetic sulphonylurea drug, 86P
- Labetalol**, effect of, on responses of transurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553
- , effect of, on the release of [ $^3$ H]-labelled noradrenaline and its metabolites from dog isolated saphenous vein, 151P
- Lankro Q152**, effect of, on responses mediated by cholinergic receptors at the frog neuromuscular junction, 76P
- Lanthanum**, modification of the negative inotropic effect of, by ouabain and some other positive inotropic agents, 85P
- Laparotomy**, effect of, on enkephalin content of rat hypothalamus, 130P
- Lergotril**, effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- [ $^3$ H]-leucine**, incorporation of, into total tissue protein *in vivo* in rats, as a measure of effect of 5-hydroxytryptamine on, 211
- [Leu $^5$ ]-enkephalin**, distribution of, in the brain of the rat, guinea-pig and calf, 297
- Leucine-enkephalin**, different effects of current strength on inhibitory response of mouse vas deferens to, 361
- Leucocytes**, activity of delta-aminolaevulinic acid synthase in, during diphenylhydantoin anti-convulsant therapy, 424P
- , rat, mechanism of inhibition of prostaglandin biosynthesis by hydrocortisone in, 161
  - , insulin receptors on, effects of antidiabetic sulphonylurea on, from obese hyperglycaemic mice, an improved assay for insulin receptors, 317
- Liver microsomal protein**, effect of paraquat on the covalent binding of radiolabelled DOPA to, 425P
- Liver microsomes**, human and rat, monooxygenases in, biphasic Michaelis-Menten kinetics for ethoxycoumarin and phenacetin metabolism by, 428P
- , rat, metabolism of *N,N*-dimethylclonidine, 425P
  - , human, environmental factors affecting monooxygenase activity of, 426P
  - , metabolism in, of harmine, induction by pheobarbital or 3-methylcholanthrene of, 423P
- Locomotor activity**, relationship between cholinergic and dopaminergic mechanisms in the nucleus accumbens for the control of, 121P
- Locomotor stimulation**, clonidine-induced, in the infant rat, effect of  $\alpha$ -adrenoceptor antagonists and metiamide on, 531
- Locust**, glutamatergic neuromuscular junctions on skeletal muscle fibres of, responses of DL-ibotenic acid at, 267
- Longitudinal muscle**, contractions of, in rat isolated gastric fundus, trimethoquinol selectively antagonises, to thromboxane B<sub>2</sub> and epoxymethano analogues of PGH<sub>2</sub>, 450P
- Loperamide**, anti-diarrhoeal activity of, naloxone inhibits, in rat, 373
- Lorazepam**, effect of, in a GABA-dependent animal model, interaction with muscimol in globus pallidus, 493P
- Lung**, guinea-pig, effect of arachidonic lipoxygenase substrates and inhibitors on SRS-A release in, 452P
- , human, *in vitro*, histamine H<sub>1</sub> antagonists and histamine release from, 68P
  - , rat, interaction between nortriptyline and lignocaine for uptake by, in isolated lungs and *in vivo*, 440P
  - , rat, *in vitro* accumulation of ( $\pm$ )-oxprenolol by, 439P
  - , isolated perfused rat, nicotine causes prostaglandin efflux from, 101P
  - , surfactant secretion by, mediation by adrenaline of, induced by oxotremorine in neonatal rabbits, 142P
- Lung compliance**, dynamic, effects of diazoxide on, in the guinea-pig, 143P
- , dynamic, in the anaesthetized dog, effects of H<sub>1</sub>- and H<sub>2</sub>-receptor agonists and antagonists on, 203
  - , dynamic, effect of propranolol on, in guinea-pig and rat, 409
- Lung microsomal protein**, effect of paraquat on the covalent binding of radiolabelled DOPA to, 425P
- Lung resistance**, total, effects of diazoxide on, in the guinea-pig, 143P
- , total, in the anaesthetized dog, effects of H<sub>1</sub>- and H<sub>2</sub>-receptor agonists and antagonists on, 203
- Lung strip**, canine, *in vitro*, pharmacology of Schultz-Dale reaction in, as a possible model for allergic asthma, 511
- , guinea-pig, contractile action of slow reacting substance of anaphylaxis on, 83P
- Lysosomal enzyme activity**, in the rat, inhibitory effects of gold salts on, 141P
- Lysosome**, secretion of, from human neutrophil leucocytes, effect of calcium ion on, 69P
- Lymphocyte activation**, in guinea-pig, inhibition of, by histamine and histamine analogues, 365

**Lymphocytes**, human, inhibitory effect of calcium ionophore A23187 on the hydrolysis of fluorescein diacetate by, 502P

## M

**Macrophages**, rat, prostaglandin and thromobane production by, 98P

**Magnesium ion**, perturbation by, of binding of carbachol to muscarinic receptors in rat brain, 470P

—, effect of methoxyverapamil on the inhibition by, of the release of catecholamine from bovine adrenal medulla, 591

**Marmoset**, behavioural effects of chronic administration of amphetamine and their reversal by haloperidol in the, 146P

**Mazindol**, effect of, on effect of spiperone on feeding parameters in the rat, 147P

**Mecamylamine**, effect of, on locomotor activity in the rat, 121P

**Mechanical response**, to single pulse excitation, of guinea-pig vas deferens, effect of phenoxybenzamine on, 343

**Mebanazine**, effect of pretreatment with, on metabolites of intraduodenally instilled histamine, 73P

**Medulla**, rat, an iontophoretic study of the cholinceptive properties of respiratory neurones in, 111P

**Melphalan**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P

**Membrane fluidity**, mechanism of action of anti-inflammatory steroids on, 453P

**Mepacrine**, effect of, on membrane fluidity and phospholipase activity, 453P

—, effect of, on phospholipase A<sub>2</sub>, 496P

**Mepyramine**, effect of, on release of mediators from guinea-pig hind quarters, 143P

—, sensitivity of the parietal cell and gastric microvasculature to, in the dog, 458P

—, effect of, on anaphylactic reaction of guinea-pig ileum, 385

—, effect of, on effect of histamine on canine lung strip *in vitro*, 511

—, effect of, on vascular responses in autoperfused hind-quarters of anaesthetized rats, 517

—, effect of, on histamine release from human lung *in vitro*, 68P

—, effect of, on effects of histamine and 2-pyridylethylamine on goat isolated trachea, 331

[<sup>3</sup>H]-**mepyramine**, binding studies of, in the brain of the guinea-pig and the rat, 93P

**3-Mercaptopropionic acid**, seizures induced by, effect of GABA antagonists and agonists on, *in vivo* in the mouse, 123P

**Mercuric chloride**, decreased nephrotoxic effect of, on the regenerating kidneys, 437P

**Mesenteric artery**, perfused rat, action of dopamine on constrictor responses in, 497P

**Mesentery**, rat, sodium flufenamate antagonises the potentiation by prostaglandins of noradrenaline-induced vasoconstriction in, 449P

[Met<sup>5</sup>]-**enkephalin**, distribution of, in the brain of the rat, guinea-pig and calf, 297

**Metabolic models**, monkeys as, for man, the fate of amphetamine in the vervet and patas monkey, 156P

**Methacholine**, effect of, on hypothalamic blood flow in conscious rabbits, 217

**Methadone**, effect of, on analgesia and respiratory depression *in vivo* in mice, 473P

**Methergoline**, effect of, on backward walking and circling in the rat, 119P

**Methionine-enkephalin**, different effects of current strength on inhibitory response of mouse vas deferens to, 361

—, effect of intracerebroventricular administration of, on the stress-induced secretion of corticosterone in mice, 164

**Methohexitone**, avian muscle treated with, contractures elicited by tetraethylammonium in, 391

**Methotrexate**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P

**Methoxamine**, effect of, on haloperidol catalepsy, 474P

—, effect of, on peripherally evoked parasympathetic submaxillary salivation in the cat, 133P

**p-Methoxyamphetamine**, 5-hydroxytryptamine release induced by, effect of 5-HT uptake inhibitors on, in the rat, 185

**5-Methoxy-N,N-dimethyltryptamine**, evidence from behavioural reactions to, for differential effects of short-term and long-term lithium on indoleaminergic mechanisms in rats, 144P

**Methoxyverapamil**, effects of, on the stimulation by calcium, strontium and barium ions and on the inhibition by magnesium ion of catecholamine release from bovine adrenal medulla, 591

(-)-**S-methylatropine**, temperature coefficient of affinity constant for, acting at muscarinic receptors in rat cerebral cortex, 587

**3-Methylcholanthrene**, induction by, of the hepatic microsomal metabolism by harmine, 423P

**2-Methylhistamine**, effect of, on guinea-pig lymphocytes stimulated by concanavalin A, tuberculin or syngeneic hepatoma cells, 365

**3-Methylhistamine**, effect of, on guinea-pig lymphocytes stimulated by concanavalin A, tuberculin or syngeneic hepatoma cells, 365

**4-Methylhistamine**, effect of, on guinea-pig lymphocytes stimulated by concanavalin A, tuberculin or syngeneic hepatoma cells, 365

—, effect of, on total lung resistance, dynamic lung compliance and irritant receptor discharge in the anaesthetized dog, 203

—, effect of, on vascular responses in autoperfused hind-quarters of anaesthetized rats, 517

—, effect of, on effect of carbachol on goat isolated trachea, 331

**5-Methylhistamine**, action of, on rat isolated oestrous uterus, 13

**N'-methylhistamine**, action of, on rat isolated oestrous uterus, 13

**5-Methyl-N'-methylhistamine**, action of, on rat isolated oestrous uterus, 13

**Methylhyoscamine**, temperature coefficient of affinity constant for, acting at muscarinic receptors in rat cerebral cortex, 587

**Methylhyoscine**, temperature coefficient of affinity constant

- for, acting at muscarinic receptors in rat cerebral cortex, 587
- Methyl orange**, binding of, to plasma proteins from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol on, 275
- Methylphenidate hydrochloride**, effect of, on sleep in man, 476P
- o*-Methyl red**, binding of, to plasma proteins from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol on, 275
- (-)-S-methylscopolamine**, temperature coefficient of affinity constant for, acting at muscarinic receptors in the rat cerebral cortex, 587
- $\alpha$ -Methyltropic acid**, enantiomeric pairs of esters of, temperature coefficients of affinity and entropies of adsorption for, at muscarinic receptors in guinea-pig ileum, 581
- $\alpha$ -Methyl-*p*-tyrosine**, effect of, on rat caudate nucleus, 127P
- , effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- Methysergide**, effect of, on colonic mucus output in the rat, 456P
- , effect of, on negative inotropic action of somatostatin in beating isolated auricles of rats, rabbits and guinea-pigs, 251
- , effect of, on actions of 5-hydroxytryptamine and histamine on the isolated ileum of the tree shrew (*Tupaia glis*), 405
- , effect of, on effect of 5-hydroxytryptamine on pressor responses in ganglion-blocked anaesthetized dogs, 81P
- , effect of, on effect of 5-hydroxytryptamine on goat isolated trachea, 331
- Metiamide**, absence of presynaptic  $\alpha$ -adrenoceptor antagonist properties of, in pithed rat, 133P
- , metabolism of, oxidation phenotype and, 432P
- , effect of, on effect of histamine on guinea-pig lymphocytes stimulated by concanavalin A, turberculin, or syngeneic hepatoma cells, 365
- , effect of, on effects of horse plasma, carbachol and histamine on canine lung strip *in vitro*, 511
- , effect of, on vascular responses in autoperfused hind-quarters of anaesthetized rats, 517
- , effect of, on clonidine-induced locomotor stimulation in the infant rat, 531
- , effect of, on effect of 5-hydroxytryptamine on goat isolated trachea, 331
- Metoclopramide**, effect of, on tardive dyskinesia, 475P
- Mianserin**, effects of, on noradrenaline uptake, cardiac presynaptic and vascular postsynaptic  $\alpha$ -adrenoceptors in rats, 132P
- Michaelis-Menten kinetics**, biphasic, for ethoxycoumarin and phenacetin metabolism by human and rat hepatic monooxygenases, 428P
- Microsomes**, hepatic, oxidative N-demethylation in, in rats with renal failure, 74P
- MK-486**, action of, on feeding, in the rat, 482P
- Monkeys**, as metabolic models for man, the fate of amphetamine in the vervet and patas monkey, 156P
- Monoamine oxidase inhibition**, by (+)-amphetamine *in vivo*, 435P
- , by furazolidone in the chicken, influence of the alimentary flora on, 490P
- Monoamine oxidase inhibitor**, some observations of the behavioural and biochemical effects of, and L-tryptophan in immature rats, 118P
- Monoamine oxidase inhibitors**, effects of pretreatment with, on metabolites of intraduodenally instilled histamine, 73P
- Monooxygenase activity**, environmental factors affecting, of microsomal fractions of human liver biopsies, 426P
- Monooxygenases**, human and rat hepatic, biphasic Michaelis-Menten kinetics for ethoxycoumarin and phenacetin metabolism by, 428P
- Morphine**, tolerance to, of mouse vas deferens, 131P
- , binding characteristic of, in guinea-pig brain, 86P
- , dependent and withdrawn states produced *in vivo*, inhibitory effects of presynaptic  $\alpha$ -adrenoceptor agonists on contractions of guinea-pig ileum and mouse vas deferens in, 601
- , microinjection of, into central and medial nuclei of the amygdala, exploratory behaviour in rats following, 145P
- , effect of, on colonic mucus output in the rat, 456P
- , effect of, on analgesia and respiratory depression *in vivo* in mice, 473P
- , antinociceptive actions of, given intrathecally in conscious rats, 472P
- , effect of, actions of 5-hydroxytryptamine and histamine on the isolated ileum of the tree shrew (*Tupaia glis*), 405
- Mucosa**, rat colonic, output of, stimulation of, 456P
- Muscarinic cholinceptors**, binding studies on, in rat heart ventricle, effect of chemical sympathectomy on, 90P
- Muscarinic receptor**, a study of, by gel electrophoresis, 337
- Muscarinic receptor agonists**, vasodilator action of, on hypothalamic resistance vessels, mediated by  $\beta$ -adrenoceptors, 217
- Muscarinic receptors**, in the rat cerebral cortex, temperature coefficients of affinity constants for the binding of antagonists to, 587
- , in guinea-pig ileum, temperature coefficients of affinity and entropies of adsorption for enantiomeric pairs of compounds acting at, 581
- , in rat brain, ionic perturbation of agonist binding to, 470P
- Muscimol**, effect of, in the globus pallidus, on effects of benzodiazepines and barbiturates in a GABA-dependent animal model, 493P
- , effect of, on rat striatonigral GABA pathway, 477P
- , effect of, *in vivo* in the mouse, 123P
- Muscle cell line**, nonfusing, (BC<sub>3</sub>H1), characterization of  $\beta$ -adrenoceptors of the, 91P
- Myocardial carbohydrate utilization**, potential protective value of enhanced, with reduced free fatty acid uptake after UK 25842 in patients with coronary artery disease, 444P
- Myocardial depression**, effect of disopyramide phosphate on, in the anaesthetized dog, 241
- Myocardial energy metabolism**, effect of salbutamol on, in the conscious dog, 229
- Myocardial ischaemia**, experimental, protection against, by L-4-hydroxyphenylglycine, a new agent which alters myocardial metabolic balance in favour of carbohydrate utilization, 443P
- Myocardial metabolism**, protection against experimental myocardial ischaemia by L-4-hydroxy-phenylglycine, a

new agent which alters, in favour of carbohydrate utilization, 443P

**Myocardium**, distribution of digoxin in, influence of coronary artery occlusion on, 65P

**Myoclonus**, induced by 1,2-dihydroxybenzene (catechol) in the guinea-pig, effect of 5-hydroxytryptamine on, 358

## N

***Naja naja siamensis***, neurotoxin from, specific binding and effect of, on the synaptic transmission, (acetylcholine receptors in the ciliary ganglion and in the iris muscle of the chick), 33

**Naloxone**, inhibits the anti-diarrhoeal activity of loperamide, in rat, 373

**Naltrexone**, effect of, on effect of intracerebroventricular administration of methionine-enkephalin on the stress-induced secretion of corticosterone in mice, 164

**Naphazoline**, effect of, on peripherally evoked parasympathetic submaxillary salivation in the cat, 133P

**Neostigmine**, relationship between the pharmacokinetics, cholinesterase inhibition and facilitation of twitch tension of, 525

**Nephrotoxic effect**, decreased, of mercuric chloride on the regenerating kidneys, 437P

**Neuromuscular blocking agents**, comparison of the autonomic effects of some currently-used, 77P

**Neuromuscular junction**, frog, effect of plasticizers on responses mediated by cholinergic receptors at, 76P

—, mouse, modes of action of gallamine at, 78P

**Neuromuscular junctions**, glutamatergic, on locust skeletal fibres, responses to DL-isotonic acid at, 267

**Neuronal systems**, effect of neurotoxic lesions on, in rat striatum, 124P

**Neuronal uptake**, role of, in the disposition of released [<sup>3</sup>H]-noradrenaline in the dog's saphenous vein, 149P

**Neurotransmitter**, electrophysiological evidence for glutamate as, of cerebellar granule cells in the rat, 291

**Neurotransmitters**, putative, interactions of, in the region of the raphe nuclei of the rat, 477P

—, in rat olfactory cortex, amino acids as candidates for, 109P

**Neurotensin**, electrophysiological studies of action of, on guinea-pig taenia coli, 122P

—, positive inotropic action of, effect of somatostatin on, in beating isolated auricles of rats, rabbits and guinea-pigs, 251

**Neurotoxic lesions**, effect of, on neuronal systems in rat striatum, 124P

**Neurotoxin**, from *Naja naja siamensis*, specific binding and effect of, on synaptic transmission, (acetylcholine receptors in the ciliary ganglion and in the iris muscle of the chick), 33

**Neutrophil leucocytes**, human, alkaline earth ions and the secretion of enzymes from, 69P

**Nialamide**, effect of pretreatment with, on metabolites of intraduodenally instilled histamine, 73P

—, effect of, on locomotor activity in the rat, 121P

**Nicotine**, effect of, on frog rectus abdominus muscle after treatment with dithiothreitol, 135P

—, causes prostaglandin efflux from isolated perfused rat lung, 101P

**NO<sub>2</sub> ion**, effect of, on effect of ultraviolet light on rat isolated duodenum, 197

**Nociception**, in the rat and mouse, effects of intrathecal and intracerebroventricular injections of substance P on, 488P

**Noradrenaline**, and prostaglandin interactions in rat brain synaptosomes, 102P

—, uptake of, effects of mianserin on, in rats, 132P

—, effect of, on peripherally evoked parasympathetic submaxillary salivation in the cat, 133P

—, effect of yohimbine on cardio-acceleration responses to sympathetic stimulation by, in the pithed rat, 55

—, effect of flurazepam and ACTH on release of, from rat brain slices, 115P

—, effect of, on temperature regulation of cold-stressed and cold-acclimated rats, 307

—, relationship between accumulation, storage and overflow of, in the rat salivary gland after chronic treatment with guanethidine, 223

—, effect of, on temperature on blood vessel wall, 149P

—, transmitter, effect of a high dose of prazosin, and transmural stimulation, on the disposition of, in the rabbit pulmonary artery and the dog saphenous vein, 151P

—, vasoconstriction induced by, in rat mesentery, effect of sodium flufenamate on the potentiation by prostaglandins of, 449P

—, effects of cadmium ion on the responsiveness of the rat anococcygeus muscle and vas deferens to, 495P

—, release of, in canine gracilis muscle, effects of dopamine and apomorphine on, 489P

—, intra-arterial infusion of, responses of hepatic arterial and portal venous vascular bed to, (inhibition of the hepatic arterial vasoconstrictor responses to intraportal infusion of glucagon, 82P

—, pressor responses to, in the pithed rat, influence of the oestrous cycle and of acute 17 $\beta$ -oestradiol on, 462P

—, release of, during prolonged cold-stress and repeated swim-stress, 521

—, release of, from the perfused spleen of the cat, effect of guanidine on, 537

—, inactivation of released, in rat tail artery by neuronal uptake, 116P

(-)-**Noradrenaline**, inotropic action of, in guinea-pig atria, effects of neuromuscular blocking agents on, 77P

[<sup>3</sup>H]-**Noradrenaline**,  $\gamma$ -aminobutyric acid reduces evoked release of, from sympathetic nerve terminals, 108P

—, efflux of, effect of phenoxybenzamine on, in superfused guinea-pig vas deferens, 343

—, efflux of, in canine cutaneous veins, effect of cooling on, 148P

—, disposition of released, role of neuronal uptake in, in the dog's saphenous vein, 149P

—, effect of labetalol on the release of, and its metabolites from dog isolated saphenous vein, 151P

—, binding of, regional variations in, in rat brain, 153P

—, overflow of, antagonism by d-amphetamine of the inhibition of, obtained by  $\alpha$ -adrenoceptor agonists or bretylium in the perfused cat spleen, 460P

**L-noradrenaline**, effect of, on efflux of 5-hydroxytryptamine and  $\gamma$ -aminobutyric acid from rat raphe nuclei, 477P

- Noradrenergic system**, integrity, necessity for, for vasodilator action of muscarinic receptor agonists on hypothalamic resistance vessels, 217
- Nordiazepam**, effect of, on binding of L-tryptophan to human serum albumen, 92P
- Normetanephrine**, effect of, on noradrenaline release during prolonged cold-stress in rats, 521
- Nortiflores**, metabolism of, in rat, 506P
- Nortriptyline**, interaction between, and lignocaine for uptake by lung in isolated lungs and *in vivo*, 440P
- Nucleus accumbens**, rat, relationship between dopaminergic and cholinergic mechanisms in, for the control of locomotor activity, 121P

## O

- Ob/ob mice**, suffering from obesity and hyperglycaemia, assay of liver membrane insulin in, stimulant effect of an oral antidiabetic sulphonylurea drug on, 86P
- , obese hyperglycaemic, effects of an antidiabetic sulphonylurea on liver membrane insulin receptors from, an improved assay for insulin receptors, 317
- Obesity**, ob/ob mice suffering from, assay of liver membrane insulin in, stimulant effect of an oral antidiabetic sulphonylurea drug on, 86P
- , mice suffering from, effects of antidiabetic sulphonylurea on liver membrane insulin receptors from, an improved assay for insulin receptors, 317
- 6,9,12-Octadecatrienoic acid**, effect of, on SRS-A release in guinea-pig lung, 452P
- Octyl carbamate**, rapid absorption of, from the rat urinary bladder, a route for the recirculation of drugs, 283
- Oedema**, hind paw, in the guinea-pig, an evaluation of different types of, 139P
- 17 $\beta$ -Oestradiol**, influence of acute, upon pressor responses in the pithed rat to noradrenaline, angiotensin and stimulation of spinal sympathetic outflow, 462P
- Oestrous cycle**, influence of, upon pressor responses in the pithed rat to noradrenaline, angiotensin and stimulation of spinal sympathetic outflow, 462P
- Oleic acid**, action of, on conduction time and refractory period in the cat heart *in situ*, 191
- Olfactory cortex**, rat, amino acid transmitter candidates of, 109P
- Onium group**, role of, in temperature coefficients of affinity and entropies of adsorption for enantiomeric pairs of esters of phenylcyclohexylglycolic acid acting at muscarinic receptors in the guinea-pig ileum, 581
- $\mu$  and  $\kappa$  **opiate agonists**, *in vivo* antagonism of analgesia and respiratory depression induced by proposed, 473P
- Opiate receptor**, role of, in anti-diarrhoeal activity of loperamide, 373
- Opiate tolerance**, and cross-tolerance in mouse vas deferens, 131P
- Opiates**, tritiated, comparison of binding characteristics of, and opioid peptides, 86P
- Opioid peptides**, comparison of binding characteristics of, and tritiated opiates, 86P
- , effects of, on inhibitory effects of presynaptic  $\alpha$ -adrenoceptor agonists on contractions of the guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states produced *in vivo*, 601
- Orciprenaline**, functional antagonism as a means of determining dissociation constant and efficacy of, in guinea-pig isolated atria, 397
- ORG 6001**, antidysrhythmic activity of, in anaesthetized rats during coronary artery ligation, 463P
- , aminosteroid, effect of, on hypothermia-induced ventricular fibrillation in the cat, 609
- Organ of Corti**, guinea-pig, drug-damaged, methods for the histological study of, 507P
- Organophosphorus insecticide**, (Abate), sub-cellular effects of, 72P
- L-Ornithine decarboxylase**, inhibition of early embryonic development in mice by  $\alpha$ -difluoromethyl ornithine, an enzyme-activated inhibitor of, 436P
- Ovalbumin**, as antigen, dose-response curves with, for contractions of anaphylactic reaction of guinea-pig ileum, 385
- Ovariectomy**, effect of, on experimental breast cancer induced by dimethyl(a)anthracene, 66P
- Overdoses**, non-fatal drug, in a region of Birmingham, 489P
- Ouabagenin**, effect of, on contractility and ionic content of guinea-pig isolated atria, 175
- Ouabain**, modification of the negative inotropic effect of lanthanum by, 85P
- , effect of, on contractility and ionic content of guinea-pig isolated atria, 175
- , effect of, on effect of potassium on frog stomach muscle, 303
- [ $^3$ H]-ouabain**, binding of, to human heart ( $\text{Na}^+ + \text{K}^+$ )-ATPase, parameters of, 471P
- Oxazepam**, effect of, on binding of L-tryptophan to human serum albumen, 92P
- Oxipromide**, use of mouse circling model to demonstrate enhanced striatal actions for, following denervation, 121P
- Oxisuran**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P
- Oxotremorine**, mediation by adrenaline of lung surfactant secretion induced by, in neonatal rabbits, 142P
- ( $\pm$ )-Oxprenolol**, *in vitro* accumulation of, by rat lung, 439P
- Oxygen consumption**, by bacteria, effect of light on the enhancement of, by formyl tetrahydrofolic acid, 71P
- Oxymetazoline**, inhibitory effects of, on contractions of guinea-pig ileum and mouse vas deferens in the morphine-dependent and withdrawn states produced *in vivo*, 601
- , effect of, on effect of (+)-amphetamine on [ $^3$ H]-noradrenaline overflow in the perfused cat spleen, 460P
- , effect of, on responses of transmurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553
- Oxyntic gland area**, of rat stomach, effect of 5-hydroxytryptamine on protein synthesis in, 211
- Oxypertine**, effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377

## P

- Pancuronium**, effect of, on action of (—)-noradrenaline and (—)-isoprenaline in guinea-pig atria, 77P

- Papaverine**, effect of, on effect of potassium on frog stomach muscle, 303
- Paraoxon**, effect of dithiothreitol on action of, on rat neuromuscular junction, 76P
- , inhibition of acetylcholinesterase by, relationship between, and response of the rat phrenic nerve-diaphragm preparation to indirect stimulation at higher frequencies, 323
- Paraquat**, effect of, on the covalent binding of radiolabelled DOPA to liver and lung microsomal protein, 425P
- Parathyroid hormone**, injected subcutaneously, evidence that protease inhibitors reduce the degradation of, in chick, 25
- Pargyline**, effect of, on 5-hydroxytryptamine release induced by *p*-methoxyamphetamine in the rat, 185
- Parietal cell**, sensitivity of, to histamine and histamine antagonists in the dog, 458P
- Parietal cells**, canine isolated, activity of prostacyclin, a stable analogue, 6 $\beta$ -PGI<sub>1</sub> and 6-oxo-PGE<sub>1</sub>, on, 97P
- Patas monkey**, fate of amphetamine in, as metabolic model for man, 156P
- Pempidine**, effect of, on vagal gastric relaxation in guinea-pig, 457P
- Penicillin**, convulsions induced by, and the inhibition of glutamate decarboxylase, 72P
- Pentobarbitone**, effect of, in a GABA-dependent animal model, interaction with muscimol in globus pallidus, 493P
- , anaesthesia with, effect of, on surface potential of lipid monolayers, 259
- Pentolinium tartrate**, effect of, on behavioural thermoregulation in mice, 39
- Pentyl carbamate**, rapid absorption of, from the rat urinary bladder, a route for the recirculation of drugs, 283
- Phenacetin**, metabolism of, biphasic Michaelis-Menten kinetics for, by human and rat hepatic monooxygenases, 428P
- Phenobarbitone**, induction by, of the hepatic microsomal metabolism of harmine, 423P
- , effect of, in a GABA-dependent animal model, interaction with muscimol in globus pallidus, 493P
- Phenothiazine antihistamines**, effects of, on histamine release from human lung *in vitro*, 68P
- Phenotyped panel approach**, application of, to the detection of polymorphism of drug oxidation in man, 430P
- Phenoxybenzamine**, effect of, on clonidine-induced locomotor stimulation in the infant rat, 531
- , effect of, on effect of guanethidine on accumulation, storage and overflow of noradrenaline in the rat salivary gland, 223
  - , effect of, on blood flow in the hypothalamus of conscious rabbits, 217
  - , effect of, on efflux of [<sup>3</sup>H]-noradrenaline and mechanical response to single pulse excitation of superfused guinea-pig vas deferens, 343
  - , effect of, on frog stomach muscle, 303
- Phentolamine**, effect of, on heart rate in rats, 132P
- , effect of, on peripherally evoked parasympathetic submaxillary salivation in the cat, 133P
  - , effect of, on cardiovascular responses produced by dopamine injected into the cerebral ventricles of unanaesthetized dog, 235
  - , effect of, on negative inotropic action of somatostatin in beating isolated auricles of rats, rabbits and guinea-pigs, 251
  - , effect of, on effect of temperature on blood vessel wall, 149P
  - , effect of, on release of [<sup>3</sup>H]-noradrenaline from dog isolated saphenous vein, 151P
  - , effect of, on colonic mucus output in the rat, 456P
  - , effect of, on effect of (+)-amphetamine on [<sup>3</sup>H]-noradrenaline overflow in perfused cat spleen, 460P
  - , effect of, on release of noradrenaline in canine gracilis muscle, 489P
  - , effect of, on effect of 5-hydroxytryptamine on pressor responses in ganglion-blocked anaesthetized dogs, 81P
  - , effect of, on clonidine-induced locomotor stimulation in the infant rat, 531
  - , effect of, on responses of transmurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553
- Phenylcyclohexylglycollic acid**, enantiomeric pairs of esters of, temperature coefficients of affinity and entropies of adsorption for, at muscarinic receptors in guinea-pig ileum, 581
- Phenylcyclohexylglycollic esters**, of choline, temperature coefficient of affinity constant for, acting at muscarinic receptors in rat cerebral cortex, 587
- Phenylephrine**, effect of, on goat isolated trachea, 331
- Phenylhydantoin**, geometry of, 503P
- Phenylisopropylamine**, *m*-trifluoromethylthio-substituted, (fillorex) metabolism of, in rat, 506P
- Phenytol**, disposition and pharmacokinetics of, in rats with acute renal failure, 487P
- , metabolism of, in man, 430P
  - , binding of, to plasma proteins from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol on, 275
- Phosphatidylcholine**, monolayers of, effect of some general anaesthetics on surface potential of, 259
- Phosphatidylcholines**, lung secretion of, mediation by adrenaline of, induced by oxotremorine in neonatal rabbits, 142P
- Phosphatidylserine liposomes**, pharmacological effects of, regulation of glycolysis and energy level in the brain of the mouse, 167
- Phosphofructokinase**, activity of, in mouse brain effect of phosphatidylserine liposomes on, 167
- Phospholipase activity**, mechanism of action of anti-inflammatory steroids on, 453P
- , a simple method for, 500P
- Phospholipase A<sub>2</sub>**, effects of antimalarial drugs on, 496P
- Photoreceptor transmitter**, evidence for, in rabbit retina, 110P
- Phrenic nerve-diaphragm preparation**, rat, response of, to indirect stimulation at higher frequencies, relationship between, and inhibition of acetylcholinesterase, 323
- , rat, origin of repetitive firing of muscle in, 466P
- Physostigmine**, effect of, on contractures elicited by tetraethylammonium in avian muscle treated with methohexitone, 391
- Picrotoxin**, effect of, *in vivo* in the mouse, 123P
- , effect of, on efflux of 5-hydroxytryptamine and  $\gamma$ -aminobutyric acid from rat raphe nuclei, 477P
- Pimozide**, effect of, on backward walking and circling in the rat, 119P

- Piperoxan**, effect of, on clonidine-induced locomotor stimulation in the infant rat, 531  
 —, effect of, on haloperidol catalepsy, 474P
- Piribedil**, effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- N-pivaloyltaurine**, action of, on the central nervous system in mice, 480P
- Plaice**, *Pleuronectes platessa* L., skin of, release of prostaglandin E<sub>2</sub> from, 547
- Plasma proteins**, decreased binding of drugs and dyes to, from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol on, 275
- Plasticizers**, effect of, on responses mediated by cholinergic receptors at the frog neuromuscular junction, 76P
- Platelet aggregation**, study of, in human and rabbit whole blood, 94P
- Platelet aggregation properties**, of adenylyl-imidodiphosphate, 94P
- Platelet aggregometer**, electronic, 138P
- Platelet inhibition properties**, of adenylyl-imidodiphosphate, 94P
- Platelets**, human intact, binding of [<sup>3</sup>H]-dihydroergocryptine to  $\alpha$ -adrenoceptors on, 89P
- Pleuronectes platessa* L., plaice, skin of, release of prostaglandin E<sub>2</sub> from, 547
- Polyacrylamide gel electrophoresis**, SDS-, a study of the muscarinic receptor by, 337
- Polymorphism**, of drug oxidation in man, application of the phenotyped panel approach to the detection of, 430P  
 —, in hydroxylation of debrisoquine in Ghanaians, 431P
- Polyvinylpyrrolidone**, effect of, on degradation of parathyroid hormone and calcitonin injected subcutaneously in chick, 25
- Polyvinylchloride**, effect of, on responses mediated by cholinergic receptors at the frog neuromuscular junction, 76P
- Portal vein**, vascular bed of, responses of, to intra-arterial infusions of noradrenaline and adrenaline, (inhibition of the hepatic arterial vasoconstrictor responses by intraportal infusions of glucagon, 82P
- Potassium cyanide**, effect of, on effect of ultraviolet light on rat isolated duodenum, 197
- Potassium ion**, effects of cadmium ion on the responsiveness of the rat anococcygeus muscle and vas deferens to, 495P  
 —, effect of, on effect of guanidine on release of noradrenaline from the perfused spleen of the cat, 537  
 —, effect of, on efflux of 5-hydroxytryptamine and  $\gamma$ -aminobutyric acid from rat raphe nuclei, 477P  
 —, effect of, on effect of ultraviolet light on rat isolated duodenum, 197  
 —, concentration of, effect of cardioactive steroids on, in guinea-pig isolated atria, 175  
 —, effect of, on effect of temperature on blood vessel wall, 149P  
 —, egress of, in the anaesthetized dog, effect of disopyramide phosphate on, 241  
 —, excess, noradrenaline overflow induced by, in the rat salivary gland, effect of guanethidine on, 223  
 —, effect of, on frog stomach muscle, 303  
 —, release of [<sup>3</sup>H]-dopamine stimulated by, from rat striatal tissue, diazepam facilitates, 107P
- Practolol**, effect of, on negative inotropic action of somatostatin in beating isolated auricles of rats, guinea-pigs, and rabbits, 251  
 —, effect of, on airways resistance and dynamic lung compliance in the guinea-pig and rat, 409  
 —, distribution and irreversible tissue binding of, and its metabolites in the hamster, 504P
- Prazosin**, effect of a high dose of, on the disposition of transmitter noradrenaline in the rabbit pulmonary artery and the dog saphenous vein, 151P  
 —, effect of, on haloperidol catalepsy, 474P  
 —, effect of, on responses of transmurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553
- [<sup>3</sup>H]-**prazosin**, finding of, regional variations in, in the rat brain, 153P
- Prednisolone**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P  
 —, stimulatory action of, on plasma alpha<sub>1</sub>-antitrypsin levels in the rat, 454P
- Pressor responses**, influence of the oestrous cycle and of acute 17 $\beta$ -oestradiol on, in the pithed rat to noradrenaline, angiotensin and stimulation of spinal sympathetic outflow, 462P
- Presynaptic receptor hypothesis**, single pulse stimulation of guinea-pig vas deferens and, 343
- Primaquine**, effect of, on phospholipase A<sub>2</sub>, 496P
- Procaine**, effect of, on effect of potassium on frog stomach muscle, 303  
 —, geometry of, 503P
- Procarbazine**, effect of, on a model of humoral and cell mediated immunity in the mouse, 67P
- Promethazine**, effect of, on histamine release from human lung *in vitro*, 68P  
 —, effect of, on binding of [<sup>3</sup>H]-mepyramine in brain of guinea-pig and rat, 93P
- N-propionyltaurine**, action of, on the central nervous system in mice, 480P
- Propranolol**, effect of, on effects of isoprenaline and phenylephrine on goat isolated trachea, 331  
 —, effect of, on blood flow in the hypothalamus of conscious rabbits, 217  
 —, effect of, on cardiovascular responses produced by dopamine injected into the cerebral ventricles of unanaesthetized dog, 235  
 —, effect of, on release of [<sup>3</sup>H]-noradrenaline from dog isolated saphenous vein, 151P  
 —, antidysrhythmic activity of, in anaesthetized rats during coronary artery ligation, 463P  
 —, bronchoconstriction induced by, in guinea-pig and rat, investigation of, 409  
 —, geometry of, 503P
- ( $\pm$ )-**Propranolol**, effect of, on effect of oxotremorine on lung surfactant secretion in neonatal rabbits, 142P
- Propylbenzilylcholine**, temperature coefficient of affinity constant for, acting at muscarinic receptors in rat cerebral cortex, 587
- Propylbenzilylcholine mustard**, labelling of muscarinic receptors from brain of rat, guinea-pig and frog, use of in electrophoretic study, 337
- Propyl carbamate**, rapid absorption of, from rat urinary bladder, a route for the recirculation of drugs, 283

- 2-n-Propyl-4-p-tolylamino-1,2,3-benzotriazinium iodide**, comparison of the effects of, and quinidine on guinea-pig heart, 19
- Prostacyclin**, anti-aggregatory effect of, in rabbit *in vivo*, 10
- , activity of, on canine isolated parietal cells, 97P
  - , release of, by bradykinin *in vivo* in the dog, 96P
  - , substance like, in rat brain, 95P
- Prostaglandin E<sub>1</sub>**, alterations in blood flow changes in granulation tissue induced by, 99P
- Prostaglandin E<sub>2</sub>**, diarrhoea induced by, in the rat, effect of naloxone on effect of loperamide on, 373
- , study of possible entry of, into central nervous system from the blood, in the cat, 565
  - , release of, from the skin of the plaice, *Pleuronectes platessa* L., 547
- Prostaglandin F<sub>2α</sub>**, effect of, on canine lung strip *in vitro*, 511
- 6-oxo-Prostaglandin F<sub>1α</sub>**, activity of, on canine isolated parietal cells, 97P
- Prostaglandin H<sub>2</sub>**, epoxymethano analogues of, trimethoquinol selectively antagonises longitudinal muscle contractions of rat isolated gastric fundus to,
- 6β-Prostaglandin I<sub>1</sub>**, activity of, on canine isolated parietal cells, 97P
- Prostaglandin I<sub>2</sub>**, anti-aggregatory effect of, in rabbit *in vivo*, 10
- Prostaglandin precursors**, actions of, on conduction time and refractory period in the cat *in situ*, 191
- Prostaglandins**, production of, by rat macrophages, 98P
- , efflux of, from isolated perfused rat lung, nicotine causes, 101P
  - , pulmonary inactivation of, in the rat *in vivo*, sulphasalazine inhibits, 101P
  - , and noradrenaline interactions in rat brain synaptosomes, 102P
  - , some characteristics of the gastric antiseecretory actions of, in mammalian perfused whole-stomachs *in vitro*, 153P
  - , biosynthesis of, in rat leucocytes, mechanism of inhibition of, by hydrocortisone, 161
  - , and the response of rat isolated ileum and duodenum to bradykinin, 447P
  - , materials like, production of, by rat tail skin in response to injury, 448P
  - , role of, in cholinergic transmission in guinea-pig ileum, 446P
  - , sodium flufenamate antagonises the potentiation by, of noradrenaline-induced vasoconstriction in rat mesentery, 449P
  - , survival time after surgery is inversely related to the amounts of, extracted from human breast cancers, 451P
- Prostaglandins E<sub>1</sub> and E<sub>2</sub>**, effect of, on effect of horse plasma, carbachol and histamine on canine lung strip *in vitro*, 511
- Prostaglandins E<sub>1</sub> and D<sub>2</sub>**, effects of, on effect of high doses of arachidonic acid in rabbit *in vivo*, 10
- Prostaglandins E<sub>2</sub> and F<sub>2α</sub>**, release of, from guinea-pig hind quarters following anaphylaxis, 143P
- Prostatic portion**, of rat isolated vas deferens, effects of α-adrenoceptor agonists and antagonists on responses of transmurally stimulated, 553

- Protease inhibitors**, evidence that they reduce the degradation of parathyroid hormone and calcitonin injected subcutaneously, in chick, 25
- Protein synthesis**, effect of 5-hydroxytryptamine on, in gastrointestinal and other tissue and on serum gastrin concentrations in rats, 211
- Pulmonary artery**, rabbit, effect of a high dose of prazosin, and transmural stimulation, on the disposition of transmitter noradrenaline in, 151P
- Pulmonary flow resistance**, effects of diazoxide on, in the guinea-pig, 143P
- Pulmonary inactivation**, of prostaglandins in the rat *in vivo*, sulphasalazine inhibits, 101P
- Purkinje cells**, in rat cerebellum, effect of α-amino adipic acid on effect of glutamate on, 291
- Pyridostigmine**, relationship between the pharmacokinetics, cholinesterase inhibition and facilitation of twitch tension of, 525
- 2-Pyridylethylamine**, effect of, on goat isolated trachea, 331
- 2-(2-Pyridyl)ethylamine**, effect of, on vascular responses in autoperfused hindquarters of anaesthetized rats, 517
- Pyruvate kinase**, purified from rat brain, effects of lithium on, 70P

## Q

- Quaternary ammonium anticholinesterase drugs**, (neostigmine, pyridostigmine, edrophonium and 3-hydroxyphenyltrimethylammonium), relationship between the pharmacokinetics, cholinesterase inhibition of twitch tension of, 525
- Quinidine**, antiarrhythmic drugs like, geometry of, 503P
- , comparison of effects of, and a benzotriazinium iodide on guinea-pig heart, 19
- Quinidinium**, geometry of, 503P
- Quinuclidinyl benzilate**, binding of, to muscarinic cholinceptors in rat heart ventricle, effect of chemical sympathectomy on, 90P
- Quipazine**, blockade by, of 5-hydroxytryptamine receptors, 80P

## R

- Ranitidine**, (AH19065), a new potent selective histamine H<sub>2</sub>-receptor antagonist, 464P
- Raphe neurones**, medullary, in rat brain, further evidence for coexistence of 5-hydroxytryptamine and substance P in, 122P
- Raphe nuclei**, median and dorsal, effects of 5,7-dihydroxytryptamine lesions of, on social interaction in the rat, 114P
- , rat, interactions of putative neurotransmitters in the region of, 477P
- Receptor quantification**, a comparison of linear and non-linear parameter estimates in, 501P
- Rectus abdominus muscle**, frog, effect of disulphide bond reduction on agonist activity on, 135P
- Refractory period**, in the cat heart *in situ*, actions of prostaglandin precursors and other unsaturated fatty acids on, 191

- Renal failure**, acute, rats with, decreased binding of drugs and dyes to plasma proteins from, effects of rureter ligation and intramuscular injection of glycerol on, 275
- , influence of, on hepatic glucuronidation in the rat, 498P
  - , rats with, hepatic microsomal oxidative *N*-demethylation in, 74P
  - , acute, disposition and pharmacokinetics of phenytoin in rats with, 487P
- Reserpine**, effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- Respiratory depression**, *in vivo* antagonism of, induced by proposed  $\mu$  and  $\kappa$  opiate agonists, 473P
- Respiratory neurones**, in the rat medulla, an iontophoretic study of the cholinceptive properties of, 111P

## S

- Salbutamol**, functional antagonism as a means of determining dissociation constant and efficacy of, in guinea-pig isolated atria, 397
- , effect of, on cardiac metabolism in the conscious dog, 229
- Salicylic acid**, binding of, to plasma proteins from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol on, 275
- Salivary gland**, rat, relationship between accumulation, storage and overflow of noradrenaline in, after chronic treatment with guanethidine, 223
- Salivation**, peripherally evoked parasympathetic submaxillary, effects of  $\alpha$ -adrenoceptor agonists on, in the cat, 133P
- Salmon calcitonin**, action of, on indomethacin-induced gastric ulceration in the mouse, 154P
- Saphenous vein**, dog, effect of a high dose of prazosin, and transmural stimulation, on the disposition of transmitter noradrenaline in, 151P
- , dog isolated, effect of labetalol on the release of [ $^3$ H]-noradrenaline and its metabolites from, 151P
  - , dog, role of neuronal uptake in the disposition of released [ $^3$ H]-noradrenaline in, 149P
- Schizophrenia**, relevance to, of findings on behavioural responses induced by drug treatments which cause simultaneous release of catecholamines and 5-hydroxytryptamine in the rat, 573
- Schultz-Dale reaction**, pharmacology of, in canine lung *in vitro*, as a possible model for allergic asthma, 511
- , of the guinea-pig small intestine, involvement of SRS-A in, 385
- SDS-polyacrylamide gel electrophoresis**, a study of the muscarinic receptor by, 337
- Sedation**, stereotypy and the inhibition of drinking after administration of ET495 in the rat, 481P
- Serum albumen**, human, effect of diazepam and its metabolites on binding of L-tryptophan to, 92P
- Sickle cell anaemia**, human, therapy of, with a series of aromatic aldehydes, 70P
- Skeletal muscle**, mammalian, origin of the repetitive firing of, after anticholinesterase drugs, 466P
- Skeletal muscle fibres**, locust, glutamatergic neuromuscular junctions on, responses to DL-ibotenic acid at, 267

- Skin**, dog, veins of, effect of cooling on efflux of [ $^3$ H]-noradrenaline in, 148P
- , human, *in vitro* metabolism of betamethasone-17-valerate by, 441P
  - , plaice, *Pleuronectes platessa* L., release of prostaglandin  $E_2$  from, 547
  - , rat tail, production of prostaglandin-like materials by, in response to injury, 448P
- SL75212**, preliminary studies on, a new potent cardioselective  $\beta$ -adrenoceptor antagonist, 445P
- Sleep**, effect of some stimulants on, in man, 476P
- Slow reacting substance of anaphylaxis**, effect of arachidonate lipoxygenase substrates and inhibitors on release of, in the guinea-pig lung, 452P
- , involvement of, in allergic reactions of canine lung, 511
  - , involvement of, in the Schultz-Dale response of the guinea-pig small intestine, 385
  - , contractile action of, on guinea-pig isolated lung strip, 83P
- Small intestine**, guinea-pig, involvement of SRS-A in the Schultz-Dale response of, 385
- , rat, transport of cimetidine across, *in vitro*, 496P
- Smooth muscle**, circular, of guinea-pig ileum, effect of temperature on inhibitory junctional potential of, 355
- , vascular, is the direct relaxing effect of acetylcholine on, due to activation of  $Na^+/K^+$ -ATPase?, 150P
- Social interaction**, in the rat, effects of 5,7-dihydroxytryptamine lesions of median and dorsal raphe nuclei on, 114P
- Sodium azide**, effect of, on effect of ultraviolet light on rat isolated duodenum, 197
- Sodium chloride**, hypotonic and hypertonic solutions of, cardiovascular effects of, when injected into the liquor space of anaesthetized cats, 51
- Sodium flufenamate**, antagonises the potentiation by prostaglandins of noradrenaline-induced vasoconstriction in rat mesentery, 449P
- Sodium fluoride**, effect of, on effect of ultraviolet light on rat isolated duodenum, 197
- Sodium ion**, effect of, on effect of ultraviolet light on rat isolated duodenum, 197
- , perturbation by, of binding of carbachol to muscarinic receptors in rat brain, 470P
  - , effect of, on effect of guanidine on release of noradrenaline from the perfused spleen of the cat, 537
  - , effect of, on negative inotropic effect of lanthanum, 85P
- Sodium pump**, stimulation and inhibition of, by cardioactive steroids in relation to their binding sites and their inotropic effect of guinea-pig isolated atria, 175
- , effects of potassium on frog stomach muscle mediated through, 303
- Sodium valproate**, effect of, *in vivo* in the mouse, 123P
- Soleus muscle**, cat, contractility of, effect of 4-aminopyridine on, 466P
- Somatostatin**, an analysis of the negative inotropic action of, in beating isolated auricles of rats, guinea-pigs and rabbits, 251
- Species variation**, differences in toxicity due to, in the metabolism of an oral anti-allergy agent, 422P
- , in the taurine conjugation of clofibrate acid, 421P
- Spinal sympathetic outflow**, pressor responses to, in the pithed rat, influence of the oestrous cycle and of acute  $17\beta$ -oestradiol on, 462P

- Spiroperone**, effects of, on feeding parameters in the rat and interactions with (+)-amphetamine, mazindol or (±)-fenfluramine, 147P
- [<sup>3</sup>H]-spiroperone**, binding sites of, on rat corpus striatum membranes, agonist interactions with, 136P
- , binding sites for, in rat corpus striatum membranes, interaction of dopamine with, 468P
- Spiroinolactone**, antihypertensive properties of, and effect of, on urate and electrolyte excretion, 65P
- Spiroperidol**, effect of, on the formation, storage and metabolism of tyramine in the mouse striatum, 377
- Spleen**, perfused cat, antagonism by (+)-amphetamine of the inhibition of [<sup>3</sup>H]-noradrenaline overflow obtained by  $\alpha$ -adrenoceptor agonist or bretylium in, 460P
- , perfused cat, effect of guanidine on release of noradrenaline from, 537
- , rat,  $\beta$ -adrenoceptor binding sites in, pharmacological characteristics and effects of chemical sympathectomy on, 91P
- ST-segment**, elevation of, in the anaesthetized dog, effect of, disopyramide phosphate on, 241
- Steroids**, anti-inflammatory, mechanism of action of, on membrane fluidity and phospholipase activity, 453P
- , anti-inflammatory, stimulatory action of, on plasma  $\alpha$ -antitrypsin levels in the rat, 454P
- , cardioactive, stimulation and inhibition of the sodium pump by, in relation to their binding sites and to their inotropic effect on guinea-pig isolated atria, 175
- Stomach**, dog, effects of histamine and histamine antagonists on gastric acid output of, and mucosal blood flow in, 458P
- , guinea-pig, relaxation of, a hyoscine component of, 457P
- , mammalian perfused whole, some characteristics of the gastric antisecretory actions of prostaglandins in, 153P
- , rat, effect of 5-hydroxytryptamine on protein synthesis in, 211
- Stomach muscle**, frog, effect of potassium on, 303
- Stressful manipulations**, effects of, on the caudate nucleus of the rat, 127P
- Striatal slices**, rat, diazepam facilitates the potassium-stimulated release of [<sup>3</sup>H]-dopamine from, 107P
- , rat, comparison of effects of glycine and GABA on release of [<sup>3</sup>H]-dopamine from, 106P
- Striatonigral pathway**, for  $\gamma$ -aminobutyric acid, behavioural and neurochemical studies on, 477P
- Striatum**, distribution of enkephalins in, in rat, guinea-pig and calf, 297
- , mouse, drug-induced changes in the formation, storage and metabolism of tyramine in, 377
- , rat, neuronal systems in, effect of neurotoxic lesions in, 124P
- Strontium ion**, effect of, on secretion of enzymes from human neutrophil leucocytes, 69P
- , effects of methoxy-verapamil on the stimulation by, of catecholamine release from bovine adrenal medulla, 591
- Strychnine**, effect of, on efflux of 5-hydroxytryptamine and  $\gamma$ -aminobutyric acid from rat raphe nuclei, 477P
- Substance P**, failure of, to produce analgesia in the mouse, 129P
- , dose-dependent behavioural stimulation after local infusion of, into ventral tegmental area in the rat, 113P
- , further evidence for coexistence of 5-hydroxytryptamine and, in medullary raphe neurones in rat brain, 112P
- , effects of intrathecal and intracerebroventricular injections of, on nociception in the rat and mouse, 488P
- Sucrose**, hypotonic and hypertonic solutions of, cardiovascular effects of, injected into the liquor space of anaesthetized cats, 51
- Sulphadiazine**, acetylation of, in the adult and neonatal marmoset, 419P
- Sulphadimidine**, acetylation of, in the adult and neonatal marmoset, 419P
- Sulphasalazine**, inhibits the pulmonary inactivation of prostaglandins in the rat *in vivo*, 101P
- Sulphonylurea**, antidiabetic, effects of, on liver membrane insulin receptors from obese hyperglycaemic mice, an improved assay for insulin receptors, 317
- Sulphonylurea drug**, oral antidiabetic, stimulant effect of, on assay of liver membrane insulin in obese, hyperglycaemic (ob/ob) mice, 86P
- Superior cervical ganglia**, isolated rat, presynaptic effects of  $\gamma$ -aminobutyric acid in, 108P
- Superior colliculus**, lesions of, do not alter dopamine-mediated circling behaviour, 479P
- Suprahyoid muscle**, rat, 5-hydroxytryptamine uptake inhibitors block *p*-methoxyamphetamine-induced 5-HT release from, 185
- Surface potential**, of lipid monolayers, effects of some general anaesthetics on, 259
- Surfactant secretion**, lung, mediation by adrenaline of, induced by oxotremorine in neonatal rabbits, 142P
- Surugatoxin**, action of, in rat submandibular ganglion cells, 79P
- Swim-stress**, repeated, noradrenaline release in rats during, 521
- Symmetry**, in drug molecules, 80P
- Sympathectomy**, chemical, effect of, on binding studies on  $\alpha$ -adrenoceptors and muscarinic cholinceptors in rat heart ventricle, 90P
- , chemical, effect of, on  $\beta$ -adrenoceptor binding sites in rat spleen, 91P
- Sympathetic junction**, in the rat heart, an analysis of some factors influencing  $\alpha$ -adrenoceptor feedback at the, 55
- Sympathetic nerve terminals**,  $\gamma$ -aminobutyric acid reduces the evoked release of [<sup>3</sup>H]-noradrenaline from, 108P
- , prolonged and repeated activation of, during cold-stress and swim stress, in rats, effect of, on noradrenaline release, 521
- Sympathetic outflow**, spinal, pressor responses to, in the pithed rat, influence of the oestrous cycle and of acute 17 $\beta$ -oestradiol on, 462P
- Sympathomimetic amines**, functional antagonism as a means of determining dissociation constants and relative efficacies of, in guinea-pig isolated atria, 397
- Synaptic transmission**, specific binding and effect of the neurotoxin from *Naja naja siamensis* on, (acetylcholine receptors in the ciliary ganglion and in the iris muscle of the chick), 33
- Synaptosomes**, rat brain, prostaglandin and noradrenaline interactions in, 102P

## T

- Taurine**, action of, on the central nervous system in mice, 480P
- Taurine conjugation**, species variation in the, of clofibrate acid, 421P
- Temazepam**, effect of, on binding of L-tryptophan to human serum albumen, 92P
- Temperature**, effect of, on efflux of [ $^3\text{H}$ ]-noradrenaline in canine cutaneous veins, 148P
- , effect of, on adrenergic neuroeffector interaction in the blood vessel wall, 149P
- , and inhibitory junctional transmission in guinea-pig ileum, 355
- Temperature coefficients of affinity**, for enantiomeric pairs of compounds acting at muscarinic receptors in the guinea-pig ileum, 581
- , for the binding of antagonists to muscarinic receptors in the rat cerebral cortex, 587
- Temperature regulation**, effects of noradrenaline and carbachol on, in cold-stressed and cold-acclimated rats, 307
- Terbutaline**, functional antagonism as a means of determining dissociation constant and efficacy of, in guinea-pig atria, 397
- Tetrabenazine**, effect of, on the formation, storage and metabolism of tyramine in mouse striatum, 377
- Tetraethylammonium**, contractions elicited by, in avian muscle treated with methohexitone, 391
- , effect of, on release of noradrenaline from the perfused spleen of the cat, 537
- $\Delta^9$ -**Tetrahydrocannabinol**, effect of, on behavioural thermoregulation in mice, 39
- Tetramethylammonium**, effect of, on frog rectus abdominus muscle after treatment with dithiothreitol, 135P
- Tetrodotoxin**, effect of, on actions of 5-hydroxytryptamine and histamine on the isolated ileum of the tree shrew (*Tupaia glis*), 405
- Theophylline**, effect of, on distribution and mobilization of arachidonic acid in fat cell ghosts, 99P
- , is not an antagonist of intramural inhibitory nerve activity in rabbit and guinea-pig intestine, 84P
- Thermoregulation**, research in, tributyl S.S.S-phosphotri-thiolate as a potential tool in, 438P
- , behavioural, in mice, effects of  $\Delta^9$ -tetrahydrocannabinol, 2,4-dinitrophenol and pentolinium tartrate on, 39
- Thromboxane**, production of, by rat macrophages, 98P
- Tachyphylaxis**, after repeated dosage of decamethonium in anaesthetized man, 467P
- Taenia coli**, guinea-pig, electro-physiological studies of action of neurotensin on, 122P
- Tail artery**, rat, inactivation, of released norepinephrine in, by neuronal uptake, 116P
- Tail skin**, rat, production of prostaglandin-like materials by, in response to injury, 448P
- Tamoxifen**, effect of, on experimental breast cancer induced by dimethyl(a)anthracene, 66P
- Tardive dyskinesia**, effects of metoclopramide and haloperidol on, 475P
- Taurine**, as a candidate for transmitter of the rat olfactory cortex, 109P
- , effect of photic stimulation on release of, from rabbit retina *in vivo*, 110P
- , effect of, on efflux of 5-hydroxytryptamine and  $\gamma$ -aminobutyric acid from rat raphe nuclei, 477P
- Thromboxane B<sub>2</sub>**, trimethoquinol selectively antagonises longitudinal muscle contractions of rat isolated gastric fundus to, 450P
- Thromboxanes**, involvement of, in allergic reactions of canine lung, 511
- [ $^3\text{H}$ ]-**thymidine**, incorporation of, into guinea-pig lymphocytes stimulated by concanavalin A, tuberculin, or syngeneic hepatoma cells, effect of histamine on, 365
- Tiaproide**, use of mouse circling model to demonstrate enhanced striatal actions for, following denervation, 121P
- Tibialis anterior muscle**, cat, contractility of, effect of 4-aminopyridine on, 466P
- Tienilic acid**, antihypertensive properties of, and effect of, on urate and electrolyte excretion, 65P
- Tiflorex**, metabolism of, in rat, 506P
- Tolbutamide**, metabolism of, in man, 430P
- Trachea**, goat relaxant response of, to 5-hydroxytryptamine mediated by D-tryptamine receptors, 331
- Tramazoline**, effect of, on peripherally evoked parasympathetic submaxillary salivation in the cat, 133P
- Transmural stimulation**, effect of, on the disposition of transmitter noradrenaline in the rabbit pulmonary artery and the dog saphenous vein, 151P
- Tranylcypromine**, effect of pretreatment with, on metabolites of intra-duodenally instilled histamine, 73P
- , effect of, on effects of antipsychotic drugs on the formation, storage and metabolism of tyramine in mouse striatum, 377
- , some observations of the behavioural and biochemical effects of, and L-tryptophan in immature rats, 118P
- Tree shrew**, *Tupaia glis*, actions of 5-hydroxytryptamine and histamine on the isolated ileum of, 405
- Tremor**, whole body, could harmaline generate, by affecting 5-hydroxy-tryptamine from synapses?, 116P
- Tributyl S.S.S.-phosphotriethiolate**, a potential tool in thermoregulation research, 438P
- Triethylcholine**, phenylcyclohexylglycolic esters of, temperature coefficient of affinity constant for, acting at muscarinic receptors in rat cerebral cortex, 587
- ( $\pm$ )-1-(*m*-Trifluoromethylthiophenyl)-1-[ $^{14}\text{C}$ ]-2-ethylamino-propane hydrochloride, (tiflorex), metabolism of, in rat, 506P
- Trimetaphan**, action of, on rat submandibular ganglion cells, 79P
- Trimethoquinol**, selectively antagonises longitudinal muscle contractions of rat isolated gastric fundus to thromboxane B<sub>2</sub> and epoxymethano analogues of PGH<sub>2</sub>, 450P
- Trimethyl-(+)-tubocurarine**, symmetry in, 80P
- D-tryptamine receptors**, relaxant response of goat trachea to 5-hydroxytryptamine mediated by, 331
- Tryptophan**, effect of, on behavioural assay for measuring the action of drugs on feeding, 482P
- , metabolism of, in rat brain, effect of kynurenine on, 483P
- L-Tryptophan**, binding of, to human serum albumen, effect of diazepam and its metabolites on, 92P
- , output of, from rat colonic mucosa, 456P
- , effect of, on backward walking and circling in the rat, 119P

- , some observations of the behavioural and biochemical effects of, plus a monoamine oxidase inhibitor in immature rats, 118P
- Tuberculin**, effect of, on guinea-pig lymphocytes, effect of histamine on, 365
- Tubocurarine**, effect of, on contractures elicited by tetraethylammonium in avian muscle treated with methohexitone, 391
- , action of, in rat submandibular ganglion cells, 79P
- (+)-Tubocurarine**, effect of, on action of (–)-noradrenaline and (–)-isoprenaline on guinea-pig atria, 77P
- , effect of, on dithiothreitol on frog rectus abdominus muscle, 135P
- Tupaia glis**, tree shrew, actions of 5-hydroxytryptamine and histamine on the isolated ileum of, 405
- Twitch activity**, myoclonic, in the rat suprahyoideal muscle, 5-hydroxytryptamine uptake inhibitors block *p*-methoxyamphetamine-5-induced 5-HT release from, 185
- Twitch response**, of mouse isolated vas deferens, inhibition of, by dopamine, 131P
- Twitch tension**, relationship between the pharmacokinetics, cholinesterase inhibition and facilitation of, of the quaternary ammonium anticholinesterase drugs, neostigmine, pyridostigmine, edrophonium and 3-hydroxyphenyltrimethylammonium, 525
- , of the quaternary ammonium anticholinesterase drugs, (neostigmine, pyridostigmine, edrophonium and 3-hydroxyphenylmethylammonium), relationship between the pharmacokinetics, cholinesterase inhibition and facilitation of, 525
- Tyramine**, effects of cadmium ion on the responsiveness of the rat anococcygeus muscle and vas deferens to, 495P
- , effect of, on effect of guanidine on release of noradrenaline from the perfused spleen of the cat, 537
- , drug-induced changes in the formation, storage and metabolism of, in the mouse, 377

## U

- UK 25842**, potential protective value of enhanced myocardial carbohydrate utilization with reduced free fatty acid uptake after, in patients with coronary artery disease, 444P
- Ulceration**, gastric, indomethacin-induced, in the mouse, action of salmon calcitonin on, 154P
- Ultraviolet light**, relaxation of the isolated duodenum of the rat induced by, characterization of, 197
- Unsaturated fatty acids**, actions of, on conduction time and refractory period in the cat heart *in situ*, 191
- Urate excretion**, effect on, of tienilic acid, bendrofluazide and spironolactone, 65P
- Ureter ligation**, effect of, on decreased binding of drugs and dyes to plasma proteins from rats with acute renal failure, 275
- Urinary bladder**, rat, rapid absorption from, of a series of *n*-alkyl carbamates: a route for the recirculation of drugs, 283
- Uterus**, rat isolated oestrous, action of histamine receptor agonists and antagonists on, 13

## V

- Vagal gastric relaxation**, a hyoscine sensitive component of, 457P
- Valofan**, central properties of, 478P
- Vas deferens**, rat isolated, effects of  $\alpha$ -adrenoceptor agonists and antagonists on responses of transmurally stimulated prostatic and epididymal portions of, 553
- , mouse, different effects of current strength on inhibitory responses of the, to methionine- and leucine-enkephalin, 361
- , rat, effects of cadmium ion on the responsiveness of, to electrical stimulation, noradrenaline, tyramine and potassium ion, 495P
- , mouse, inhibitory effects of presynaptic  $\alpha$ -adrenoceptor agonists on contractions of, in the morphine-dependent and withdrawn states produced *in vivo*, 601
- , guinea-pig, single pulse stimulation of, and the presynaptic receptor hypothesis, 343
- , mouse, opiate tolerance and cross-tolerance in, 131P
- , mouse isolated, dopamine inhibition of twitch response of, 131P
- Vascular bed**, of hepatic artery and portal vein, responses of, to intra-arterial infusions of noradrenaline and adrenaline, (inhibition of the hepatic arterial vasoconstrictor responses by intraportal infusion of glucagon, 82P
- Vascular responses**, in autoperfused hindquarters of anaesthetized rats, effects of histamine, mepyramine and metiamide on, 517
- Vasoactive intestinal peptide**, excitation of CA1 neurones of rat hippocampus by, 125P
- Vasoconstriction**, noradrenaline-induced, in rat mesentery, sodium flufenamate antagonises the potentiation by prostaglandins of, 449P
- Vasoconstrictor responses**, of hepatic artery to intraportal infusion of glucagon, inhibition of, 82P
- Vasodilatation**, effect of methacholine, atropine and adrenoceptor blockade on, in the hypothalamus of conscious rabbits, 217
- , in autoperfused hindquarters of anaesthetized rats, effects of histamine, mepyramine and metiamide on, 517
- , in the dog hindlimb, dopaminergic inhibition of transmitter release as a mechanism of, 489P
- Ventral tegmental area**, in the rat, dose-dependent behavioural stimulation after local infusion of substance P into, 113P
- Ventricle**, left, of cat and guinea-pig heart, regional distribution of  $\beta_1$ - and  $\beta_2$ -adrenoceptors in, 505P
- Ventricular fibrillation**, hypothermia-induced, in the cat, effect of the aminosteroid, ORG 6001, on, 609
- Veratrine**, effect of, on negative inotropic effect of lanthanum, 85P
- Vervet monkey**, fate of amphetamine in, as metabolic model for man, 156P
- Vitamin C**, effect of large oral doses of, on the chronotropic action of isoprenaline in man, 460P
- Voltammetry**, *in vivo*, effect of stressful manipulations and drugs on the caudate nucleus of the rat, 127P

## W

- Walking behaviour**, backward, a behavioural response to concurrent catecholamine and 5-hydroxytryptamine release in the rat, 119P
- Warfarin**, binding of, to plasma proteins from rats with acute renal failure, effects of ureter ligation and intramuscular injection of glycerol on, 275
- Water intake**, increased, effect of haloperidol on, induced in rabbits by 2-deoxy-D-glucose, 5
- WB4101**, binding of, to  $\alpha$ -adrenoceptors in rat heart ventricle, effect of chemical sympathectomy on, 90P

## Y

- Yohimbine**, effect of, on peripherally evoked parasympathetic submaxillary salivation in the cat, 133P
- , effect of, on cardio-acceleration responses to sympathetic stimulation in the pithed rat, 55
  - , effect of, on haloperidol catalepsy, 474P
  - , effect of, on clonidine-induced locomotor stimulation in the infant rat, 531
  - , effect of, on responses of transmurally stimulated prostatic and epididymal portions of the isolated vas deferens of the rat, 553
