SUBJECT INDEX

A

- Acebutalol**, comparison of bronchoconstrictor and β -adrenoceptor-blocking activity of, and propranolol in the rat, 196
- , effect of, on left ventricular function and coronary haemodynamics in the conscious dog with myocardial ischaemia, 373
 - , effect of, on behaviour (delayed differentiation) in monkey, *Macaca mulatta*, 75
- (\pm)-**Acebutalol**, pharmacological and binding assays for, in rat heart and lung preparations, 563
- , pharmacological and binding assays for, in rat heart and lung preparations, 563
- 3-Acetoxy-N-methyl-piperidine methiodide**, an agonist of carbachol, affinity of, for muscarinic receptors, 141P
- 4-Acetoxy-N-methyl-piperidine methiodide**, an agonist of carbachol, affinity of, for muscarinic receptors, 141P
- Acetylcholine**, effect of, on isolated dog cerebral and mesenteric arteries contracted by prostaglandin, effect of reserpine on, 473
- , effect of, excitatory action of opiates in rat colon may be mediated by release of, 381
 - , effect of, on isolated mouse anococcygeus muscle, 178P
 - , comparison of effects of, on central and peripheral airways of rat and man *in vitro*, 633
 - , effect of (–)-hyoscyamine on salivary and blood flow responses in submandibular gland to, 651
 - , locally administered, effect of, on coronary vasoconstriction in isolated donor-perfused rat hearts, 625
 - , activity of single neurones in morphine-tolerant/dependent rat brain evoked by, effect of naloxone on, 585
 - , calcium-dependent depolarization by, blocked by methoxyverapamil (D600) and procaine in snail neurones, 235
 - , hypotensive response to, in unclipped renal hypertensive rats, 519
 - , role of, in contractile responses of canine intestinal circular and longitudinal muscles to electrical field stimulation, 393
 - , release of, at the rat neuromuscular junction, effects of glucocorticoids on, 144P
 - , contractions of guinea-pig and human alimentary muscle in response to, effects of fenamates on, 357
 - , effect of, on gastric ulceration in albino rats, 765
- [3 H]-**acetylcholine**, morphine sensitive release of, from guinea-pig myenteric plexus, kinetics of, 47
- Acetylcholine receptors**, muscarinic, in rat brain, binding of some antidepressant drugs to 541
- , inhibition of, by histrionicotoxin in denervated rat muscle, 611
 - , release-modulating, on cholinergic neurones of the guinea-pig ileum, 289
- γ -**Acetylenic γ -aminobutyric acid**, an irreversible inhibitor of GABA-transaminase, induction of analgesia and morphine potentiation by, in the mouse, 129P
- , effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- Acetylcholine methiodide**, affinity of, for muscarinic receptors, 141P
- Acrylates**, metabolism and toxicity of, in guinea-pig skin, 165P
- Adenine nucleotides**, effects of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , inhibitory effect of, on potassium-evoked efflux of [3 H]-noradrenaline from the rat isolated heart: lack of relationship to prostaglandins, 551
- Adenosine**, interaction of, with adenylate cyclase in rat fat cell membranes, 153P
- , potentiation by dilazep of the negative inotropic effect of, on guinea-pig atria, 343
 - , therapeutic concentrations of diazepam potentiate the effects of, on isolated cardiac and smooth muscle, 148P
 - , effect of, on potassium-evoked efflux of [3 H]-noradrenaline from rat isolated heart, effect of prostaglandins on, 551
 - , effect of, on effect of chronic morphine treatment on excitatory junction potentials in mouse vas deferens, 399
- Adenosine diphosphate**, negative inotropic effect of, on guinea-pig atria, effect of dilazep on, 343
- , effect of, on potassium-evoked efflux of [3 H]-noradrenaline from rat isolated heart, effect of prostaglandins on, 551
- Adenosine 5'-diphosphate**, effect of, on blood flow in cat submandibular gland, 485
- Adenosine monophosphate**, cyclic, negative inotropic effect of, on guinea-pig atria, effect of dilazep on, 343
- Adenosine 3',5'-monophosphate**, cyclic, formation of, in rat jejunum *in vivo*, inhibition by morphine by, 513
- , cyclic and dibutyryl cyclic, effect of, on blood flow in cat submandibular gland, 485
 - , dibutyryl cyclic, effect of, on potassium-evoked efflux of [3 H]-noradrenaline from rat isolated heart, effect of prostaglandins on, 551
 - , dibutyryl cyclic, effect of, on chemokinesis of rat polymorphonuclear leucocytes, 663
- Adenosine triphosphatase**, potassium-role of, in release of catecholamines and dopamine- β -hydroxylase from perfused cat adrenal gland, 571
- , $\text{Na}^+ + \text{K}^+$, effect of veratrine on, in guinea-pig ventricle, 5
- Adenosine triphosphate**, effect of, on human haemoglobin, as a model for drug-receptor interaction, 741

- , negative inotropic effect of, on guinea-pig atria, effect of dilazep on, 343
- , effect of, on potassium-evoked efflux of [^3H]-nor-adrenaline from rat isolated heart, effect of prostaglandins on, 551
- , effect of, on nerve-induced contractions of rat bisected vas deferens, 179P
- , effect of, on isolated mouse anococcygeus muscle, 178P
- Adenosine 5'-triphosphate**, effect of, on blood flow in cat submandibular gland, 485
- Adenylate cyclase**, interaction of, with adenosine in rat fat cell membranes, 153P
- Adrenaline**, hyperglycaemia induced by, blockade of, in the anaesthetized cat by continuous infusion of phentolamine and propranolol, 461
- , stimulating effect of, mediated by β_2 -adrenoceptors, on active electrogenic Na-K-transport in rat soleus muscle, 749
- , effect of, on binding of (–)-[^3H]-dihydroalprenolol to β -adrenoceptors in BC₃H1 nonfusing muscle cell line, 731
- , secretion of, role of, in effect of naloxone on blood pressure in cats anaesthetized with chloralose, 697
- , effect of, on gastric ulceration in albino rats, 765
- , effect of, on β -adrenoceptors in different chambers of canine heart, 57
- , receptors for, in cat thoracic spinal cord, 136P
- , inhibition of effects of, by *Haemophilus influenzae* vaccination, 146P
- , release of, evoked by ouabain from perfused cat adrenal gland, 571
- , effect of, on cardiovascular modulation by spinal α -adrenoceptors in rats, 185P
- , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , effect of, on nerve-induced contractions of rat bisected vas deferens, 179P
- (–)-**Adrenaline**, effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous vein, 139P
- , effect of, on release of histamine from guinea-pig lung mast cells, 152P
- Adrenal gland**, perfused cat, release of catecholamines and dopamine- β -hydroxylase evoked by ouabain in the perfused cat adrenal gland, 571
- Adrenal medulla**, spontaneously hypertensive rats with this removed, comparison of antihypertensive response to β -adrenoceptor-blocking drugs in intact rats and, 667
- Adrenalectomy**, effect of, on gastric ulcerogenesis in albino rats, 765
- , in spontaneously hypertensive rats, effects of, on antihypertensive response to β -adrenoceptor-blocking drugs, 667
- Adrenergic constrictor system**, parasympathetic influence of carbachol on local cerebral blood flow in rabbit by an inhibition, 449
- Adrenergic neurotransmitters**, overflow of, effects of α -adrenoceptor agonists and antagonists on, dog isolated saphenous veins, 139P
- Adrenergic neuromuscular transmission**, effects of dopamine on, in guinea-pig vas deferens, 505
- Adrenoceptors**, in bovine isolated bronchial artery strip, 283
- α -Adrenoceptors**, spinal, investigations into role of, in cardiovascular modulation in rats, 185P
- , effects of mianserin, amitriptyline, ciclazindol and viloxazine on, in isolated rat atria, 184P
- , ability of mianserin to antagonize, in rat anococcygeus muscle, 241
- , effects of prazosin and two of its derivatives (UK 18.596 and UK 33.274) on, in anaesthetized cats, 113P
- , factors influencing the time course of drug action at, an investigation of the effects of clonidine in the pithed rat, 225
- , cardiac presynaptic and vascular postsynaptic, in pithed normotensive rats, comparison of mianserin with desipramine, maprotiline and phentolamine on, 321
- , presynaptic, in isolated guinea-pig vas deferens, role of, in effects of dopamine and phentolamine on adrenergic neuromuscular transmission, 505
- α_1 -Adrenoceptors**, central, competition for, between prazosin and benzodioxan antihypertensives (R28935 and R29814), 138P
- β -Adrenoceptors**, effect of propranolol on, in rat hearts, 8
- , characterization of, in guinea-pig lung mast cells, 152P
- , binding of (–)-[^3H]-dihydroalprenolol to, relationship between, and transmembrane ^{86}Rb efflux of the BC₃H1 nonfusing muscle cell line, 731
- , distribution and function of, in different chambers of the canine heart, 57
- , cardiac, during normal growth of male and female rats, 65
- β_2 -Adrenoceptors**, mediate the stimulating effect of adrenaline on active electrogenic Na-K-transport in rat soleus muscle, 749
- Adrenoceptor agonists**, effects of, on effect of adrenaline on Na-K-transport in rat soleus muscle, 749
- α -Adrenoceptor agonists**, hypotensive and sedative properties of, relation to pre- and post-synaptic stimulation, 107P
- , effects of, on nerve-induced contractions of the rat bisected vas deferens, 179P
- α -Adrenoceptor agonists and antagonists**, effects of, on adrenergic neurotransmitter overflow from dog isolated saphenous veins, 139P
- β -Adrenoceptor agonists**, effects of, on nerve-induced contractions of rat bisected vas deferens, 179P
- , comparison of pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- , effects of, on binding of (–)-[^3H]-dihydroalprenolol in BC₃H1 nonfusing muscle cell line, 731
- β -Adrenoceptor antagonism**, selective, a study of some propranolol analogues for, using pA₂ values on isolated trachea and atria from guinea-pig, 705
- Adrenoceptor antagonists**, effects of, on effect of adrenaline on Na-K-transport in rat soleus muscle, 749
- α -Adrenoceptor antagonist**, phentolamine, effect of, on effects of endorphins on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
- α -Adrenoceptor antagonists**, cardiovascular effects of, in the conscious rabbit, 115P
- , effects of, in rat isolated atria, 184P
- β -Adrenoceptor antagonists**, effects of, on behaviour

- (delayed differentiation) in monkey, *Macaca mulatta*, 75
- , in L-tryptophan and L-DOPA induced behavioural syndromes in mice, 176P
 - , interaction of, with the central 5-hydroxytryptamine receptor, 173P
 - , effects of, on binding of (–)-[³H]-dihydroalprenolol in BC₃H1 nonfusing muscle cell line, 731
- α-Adrenoceptor binding**, in guinea-pig lung using [³H]-prazosin, 138P
- β-Adrenoceptor blockade**, prolonged, effect of, on heart weight and ultrastructure in young rabbits, 363
- β-Adrenoceptor-blocking activity**, comparison of, with bronchoconstrictor activity of propranolol and acebutalol in the rat, 196
- β-Adrenoceptor-blocking agents**, comparison of pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Adrenoceptor-blocking drugs**, effects of, on metabolic responses to adrenaline infusion in the anaesthetized fasted cat, 461
- β-Adrenoceptor-blocking drugs**, cardiovascular effects of, on left ventricular function and coronary haemodynamics in the conscious dog with myocardial ischaemia, 373
- , comparison of antihypertensive response to, in intact and adrenal medullated spontaneously hypertensive rats, 667
- β₁-Adrenoceptor selective agonist**, (R0363), *in vitro* activity of, 677
- Afferent neurones**, primary, decrease of substance P in, and impairment of neurogenic plasma extravasation by capsaicin in the rat, 207
- Airways**, human and rat central and peripheral, a comparison of effects of various drugs on, *in vitro*, 633
- (D-Ala²)met-enkephalin**, effects of, on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
- β-Alanine**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- , influence of cellular transport on the interaction of, with γ-aminobutyric acid receptors in guinea-pig isolated olfactory cortex, 251
 - , effect of, on potassium-induced release of [³H]-DA from rat striatal tissue, 162P
- Albino rats**, study of central neurotransmitters in stress-induced gastric ulceration in, 765
- Albumin**, chemokinetic properties of, on rat polymorphonuclear leucocytes, effect of dibutyl cyclic adenosine 3',5'-monophosphate on, 663
- Alimentary muscle**, guinea-pig and human, antagonism by fenamates of prostaglandin action in, 357
- Allosteric effectors**, interaction of human haemoglobin with, as a model for drug-receptor interactions, 741
- Alprenolol**, effect of, on binding of (–)-[³H]-dihydroalprenolol to β-adrenoceptors in BC₃H1 non-fusing muscle cell line, 731
- , interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
- (±)-Alprenolol**, pharmacological and binding assays for, in rat heart and lung preparations, 563
- Amidolysis**, catalysed by activated coagulation factor X/Xa, effects of heparin and cellulose sulphate on, 645
- Amidolytic activity**, of thrombin, effects of heparin cellulose sulphate on, 645
- Amino acids**, effects of some, on potassium-induced release of [³H]-DA from rat striatal tissue, 162P
- , influence of cellular transport on the interaction of, with γ-aminobutyric acid receptors in the isolated olfactory cortex of the guinea-pig, 251
- (±)-cis-3-Aminocyclohexane carboxylic acid**, influence of cellular transport on the interaction of, with γ-aminobutyric acid receptors in guinea-pig isolated olfactory cortex, 251
- 2-Amino-5,6-dihydronaphthalene**, some *N,N*-dialkylated derivatives of, effects of, after central and peripheral administration in rats, 188P
- DL-1-Amino-cis-1,3-dicarboxycyclopentane**, and *trans* isomer, excitatory effect of, on leech Retzius cells, compared with glutamate, 711
- γ-Aminobutyric acid**, brain levels of, in rats, effects of chronic oral administration of ethanolamine *O*-sulphate on, 130P
- , effect of, on conductance of Ascarid muscle, 128P
 - , effect of, on potassium-induced [³H]-DA release from rat striatal tissue, 162P
 - , nerve terminals in rat nucleus accumbens releasing, evidence for dopamine receptors on, 160P
 - , effects of *N*-methyl-D-aspartic acid and kainic acid on concentration of, in rat globus pallidus, 174P
 - , like mechanisms, intravenous bicuculline facilitates *in vivo* evaluation of drugs affecting, in mice, 177P
- [³H]-aminobutyric acid**, release of, from rat brain slices, effects of some anaesthetic agents on, 131P
- β-Amino-*n*-butyric acid**, influence of cellular transport on the interaction of, with γ-aminobutyric acid receptors in guinea-pig isolated olfactory cortex, 251
- γ-Aminobutyric acid receptors**, influence of cellular transport on the interaction of amino acids with, in the isolated olfactory cortex of the guinea-pig, 251
- γ-Aminobutyric acid transaminase**, inhibition of, by chronic oral administration of ethanolamine *O*-sulphate to rats, 130P
- , induction of analgesia and morphine potentiation by irreversible inhibitors of, in the mouse, 129P
- γ-Aminobutyric acid transaminase inhibitors**, intravenous bicuculline in mice facilitates *in vivo* evaluation of, 177P
- Amino-oxyacetic acid**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- 3-Aminopropanesulphonic acid**, influence of cellular transport on the interaction of, with γ-aminobutyric acid receptors in guinea-pig isolated olfactory cortex, 251
- Aminopyrine**, demethylation and binding of, to cytochrome P-450, inhibition of, by its main metabolites in rat liver microsomes, 121P
- , decreased hepatic metabolism of, during carrageenin-induced granulomatous inflammation in the rat, 123P
- 4-Aminopyridine**, actions of, on vascular smooth muscle tissues of guinea-pig, 99
- 5-Aminosalicyclic acid**, a metabolite of sulphasalazine, effect of, on prostaglandin synthesis, inactivation actions on rat gastrointestinal smooth muscle, 719

- Amitriptyline**, binding of, to rat brain muscarinic acetylcholine receptors, 541
- , effect of, on presynaptic α -receptors in isolated rat atria, 184P
- Amphetamine**, hypermotility of this type, induced by a constituent of khat leaves in rats, 11
- Ampicillin**, effect of chronic treatment with, on the enterohepatic circulation of ethinyloestradiol and gut microflora in the rat and rabbit, 118P
- Amygdala**, glucose utilization in, in kindled rats during convulsions, 133P
- Amygdaloid kindling**, rat, anti-epileptic properties of sodium valproate in, 134P
- Anaesthetic agents**, effects of, on [^3H]-GABA release from rat brain slices, 131P
- Analgesia**, induction of, by irreversible inhibitors of GABA-transaminase in the mouse, 129P
- Anaphylactic bronchoconstriction**, in rat, doubt about using, as a model for study of asthma in man, 633
- Anaphylaxis**, protracted, effect of metiamide on, in the guinea-pig, 168P
- , slow reacting substance of, promotion by, of release of thromboxane A_2 from isolated guinea-pig lungs, effect of stropine on, 467
- , slow reacting substance of, effect of, on bovine isolated bronchial artery strip, 283
- , slow reacting substance of, on the preparation of highly purified, from biological extracts, 33
- Angiotensin**, drinking induced by, inhibition of, by ergot alkaloids in the rat, 155P
- Angiotensin II**, effect of, on isolated dog cerebral and mesenteric arteries, effect of reserpine on, 473
- , 8-Leu, effect of, on effect on neurotensin on rat stomach strips and guinea-pig atria, 83
- Angiotensin II receptors**, role of, in facilitating release of [^3H]-noradrenaline from rabbit hypothalamus during experimental renal hypertension, 112P
- Anococcygeus muscle**, isolated mouse, pharmacology of, 178P
- , isometric tension response in, in pithed rat, time course of effects of clonidine on, 225
- , rat, effect of mianserin on noradrenergic transmission in, 241
- Antibiotics**, prophylactic administration of, compromises reticuloendothelial system function and exacerbates shock mortality in rats, 19
- , interaction with ethinyloestradiol in the rat and rabbit, 118P
- Anticholinergic side-effects**, in clinical usage of some antidepressant drugs, 541
- Anticoagulant activity**, of cellulose sulphate, evidence for antithrombin III involvement in, 645
- Anticonvulsant activity**, effects of sub-acute cannabinoid treatment on, in mice in electrically induced threshold seizure tests, 479
- Antidepressant drugs**, binding of, to rat brain acetylcholine receptors, 541
- Antidiuretic responses**, to oxytocin administration in the rat, 154P
- Antidysrhythmic agent**, new oral, (Org 6001), comparative electrophysiological effects of, and lignocaine on human ventricular muscle, 25
- Anti-epileptic properties**, of sodium valproate in rat amygdaloid kindling, 134P
- Antihypertensive response**, comparison of, to β -adrenoceptor-blocking drugs in intact and adrenal demedullated spontaneously hypertensive rats, 667
- Antihypertensives**, withdrawal of centrally acting, in conscious dogs, 183P
- , prazosin and benzodioxan, interaction between, competition for central α_1 -adrenoceptors, 138P
- Anti-inflammatory actions**, of dexamethasone in rat, effects of exogenous arachidonic acid on, 126P
- Anti-inflammatory drugs**, effects of, on cell migration, investigation of, should include separate assessment of their ability to influence both chemotaxis and chemokinesis, 663
- Anti-inflammatory steroids**, failure of, to inhibit prostaglandin production by rat polymorphonuclear leucocytes, 199
- Antimycin A**, effect of, on transmembrane transport of 5-hydroxytryptamine in isolated pancreatic islets of ob/ob mice, 773
- Anti-oestrogen**, modulation of nuclear oestrogen receptor levels by, in the rat, 170P
- Anti-oestrogenic activity**, reduced, in derivatives of tamoxifen unable to undergo metabolic *p*-hydroxylation, 171P
- Anti-oestrogenic derivatives**, of nafoxidine stimulate progesterone receptor synthesis *in vivo*, 156P
- Antipyrine**, clearance of, enhancement of, by 3-methylcholanthrene in rats, 120P
- , studies on different metabolic pathways of, as a tool in the assessment of the activity of different drug metabolizing enzyme systems in man, 121P
- Antipyrine 4-hydroxylation**, enhancement of, by 3-methylcholanthrene in rats, 120P
- Antithrombin II**, involvement of, in anticoagulant activity cellulose sulphate, 645
- Aorta**, rat isolated, effect of oxytocin on ^{45}Ca movements and contractile responses in, 153P
- , pig, dipyridamole as a potent stimulator of prostacyclin biosynthesis in, 71
- Aortic strip**, guinea-pig isolated, effects of dopamine antagonists on response of, to phenylephrine, 180P
- Apomorphine**, climbing behaviour induced by, in mouse, importance of mesolimbic mechanisms for control of, 175P
- , stereotyped climbing induced by, ability of some neuroleptics to antagonise, 172P
- Arachidonate metabolites**, formation of, in guinea-pig isolated lungs, promoted by histamine and slow reacting substance of anaphylaxis, effect of atropine on, 467
- Arachidonic acid**, attenuated depressor response to, in unclipped renal hypertensive rats, 519
- , exogenous, effects of, on anti-inflammatory actions of dexamethasone in the rat, 126P
- , metabolism and incorporation in the tissues of, in normal and essential fatty acid deficient rats, 126P
- Arteriovenous oxygen content**, difference, and shunting of, 15 μm microspheres over the cranial circulation of the cat, effect of dihydroergotamine on, 186P
- Ascarid muscle**, conductance of, effect of γ -aminobutyric acid on, 128P

- Aspartate receptors**, role of, within the central nervous system, 174P
- L-Aspartic acid**, excitatory effect of, on leech Retzius cells, compared with glutamate, 711
- Aspirin**, effect of, on prostaglandin synthesis in rabbit colon and kidney, 719
- Asthma**, a model for the study of, in man, doubt about using anaphylactic bronchoconstriction in rat as, 633
- Atenolol**, effect of, on behaviour (delayed differentiation) in monkey, *Macaca mulatta*, 75
- , comparison of antihypertensive response to, in intact and adrenal-medullated spontaneously hypertensive rats, 667
- (±)-**Atenolol**, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Atria**, guinea-pig isolated, activity of R0363, a β_1 -adrenoceptor selective agonist and (–)-isoprenaline in, 677
- , guinea-pig isolated, a study of some propranolol analogues for selective β -adrenoceptor antagonism using pA_2 values on, 705
- , guinea-pig, stimulatory effects of neurotensin and related peptides in, 83
- , guinea-pig, potentiation by dilazep of the negative inotropic effect of adenosine on, 343
- , isolated guinea-pig, therapeutic concentrations of diazepam potentiate the effects of adenosine on, 148P
- , kitten isolated, metabolism of [3H](±)-isoprenaline by, 499
- , rat isolated, effects of mianserin, amitriptyline, ciclazindol and viloxazine on, α -receptors in, 184P
- Atrium**, canine, distribution and function of β -adrenoceptors in, 57
- , guinea-pig, noradrenaline stores in, effect of reserpine on, 93
- , guinea-pig, enhancement of toxic effects of veratrine on, by threshold inotropic doses of ouabain, 5
- Atropine**, effect of, on effect of carbachol on bovine isolated bronchial artery strip, 283
- , effect of, on effect of parasympathetic nerve stimulation on vasodilatation in cat submandibular gland, 485
- , inhibits thromboxane A_2 generation in isolated lungs of the guinea-pig, 467
- , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , effect of, on gastric ulcerogenesis in albino rats, 765
- , effect of, on effects of locally administered acetylcholine, carbachol and bethanechol on coronary vasoconstriction in isolated donor-perfused rat hearts, 625
- , effect of, on effects of endorphins on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
- , effect of, on parasympathetic influence of carbachol on local cerebral blood flow in the rabbit by a direct vasodilator action and an inhibition of the sympathetic mediated vasoconstriction, 449
- , effect of, on bradycardia induced by prostacyclin (PGI_2) in anaesthetized dogs, 437
- , effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
- , effect of, on contractile responses of canine intestinal

circular and longitudinal muscles to electrical field stimulation, 393

- , effect of, on effects of noradrenaline and carbachol on isolated mouse anococcygeus muscle, 178P
- , binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- , effect of, on effect of neurotensin on rat stomach strips and guinea-pig atria, 83
- [3H]-**atropine**, displacement of, to measure binding of some antidepressant drugs to rat brain muscarinic acetylcholine receptors, 541
- Auricular artery**, dog isolated, evidence for two types of excitatory receptor for 5-hydroxytryptamine in, 215
- Auro-detoxin**, rats treated with, removal of internally deposited gold by 2,3-dimercaptopropane sodium sulphate (Dimaval) in, 607
- Autonomic effects**, of pancuronium and its monoquaternary derivative, Organon NC 45, in the pithed rat, 140P

B

- Baclofen**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- Barbiturates**, effects of, on [3H]-GABA release from rat brain slices, 131P
- Baroreceptor reflex sensitivity**, in conscious spontaneously hypertensive rat, effects of propranolol on, 109P
- BC₃H1 nonfusing muscle cell line**, relationship between the (–)-[3H]-dihydroalprenolol binding to β -adrenoceptors and transmembrane efflux of ^{86}Rb of, 731
- Behaviour**, (delayed differentiation), effects of β -adrenoceptor antagonists on, in monkey, *Macaca mulatta*, 75
- Behavioural studies**, in rats, with *N*-methyl-D-aspartic acid and kainic acid, 174P
- Behavioural syndromes**, in mice, induced by L-tryptophan and L-DOPA, role of β -adrenoceptor antagonists in, 176P
- Benzodiazepines**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- Benzodioxan**, interaction between, and prazosin antihypertensives (R28935 and R29814): a competition for central α_1 -adrenoceptors, 138P
- Bethanechol**, locally administered, effect of, on coronary vasoconstriction in isolated donor-perfused rat hearts, 625
- Bicuculline**, intravenous, in mice facilitates *in vivo* evaluation of drugs affecting GABA-like mechanisms, 177P
- Bicuculline methiodide**, effect of, on potassium-induced [3H]-DA release from rat striatal tissue, 162P
- Blood flow**, effects of isoprenaline, nifedipine and verapamil on, in tracheal musculature and vasculature of the dog, 595
- , in cat submandibular gland, effects of purine compounds on nerve-mediated changes in, 485
- , cerebral, effect of sodium salicylate on, in the baboon, 407
- , canine intestinal, effects of morphine on, 617
- , rabbit cerebral, parasympathetic influence of carbachol on, by a direct vasodilator action and an inhibition of the sympathetic mediated vasoconstriction, 449

- , some direct and reflex effects of prostacyclin (PGI₂) and prostaglandin E₂ on, in anaesthetized dogs, 437
- , coronary, effects of propranolol and acebutalol on, in the conscious dog with myocardial ischaemia, 373
- Blood flow responses**, pharmacological analysis of, to histamine of the submandibular gland of the dog, 651
- Blood pressure**, modulation of, in rats, investigations into role of spinal α -adrenoceptors in, 185P
- , effects of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydronaphthalene on, after central and peripheral administration in rats, 188P
- , in cat and dog, time dependence of interaction between histamine and histamine receptor antagonists on, 187P
- , in systemically isolated carotid sinus, relationship of, to inferior cardiac nerve activity in the cat during superfusion with propranolol, 779
- , in canine ileum, effects of morphine on, 617
- , effects of intravascular saxitoxin on, in the cat, 301
- , effects of mianserin, desipramine, maprotiline and phentolamine on, in pithed normotensive rats, 321
- , arterial, parasympathetic influence of carbachol on local cerebral blood flow in the rabbit by a direct vasodilator action on, and an inhibition of the sympathetic mediated vasoconstriction, 449
- , time course of effects of clonidine on, in the pithed rat, 225
- , in renal hypertensive rats, response of, to arachidonic acid and prostaglandins, 519
- , effect of propranolol on, in spontaneously hypertensive rat, 110P
- , effect of captopril on, in DOCA salt hypertensive rats, effect of indomethacin on, 117P
- , effects of α -adrenoceptor antagonists on, in the conscious rabbit, 115P
- , effect of isoprenaline on, in conscious normotensive and renal hypertensive rabbits, 116P
- , effect of naloxone on, in cats anaesthetized with chloralose, effects of morphine and opioid peptides on, 697
- , comparison of effects of β -adrenoceptor-blocking drugs on, in intact and adrenal-medullated spontaneously hypertensive rats, 667
- Bradycardia**, produced by prostacyclin (PGI₂), mechanism of, in anaesthetized dogs, 437
- , produced by central and peripheral administration of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydronaphthalene in rats, effects of yohimbine, prazosin, thymoxamine, fluphenazine, phentoamine or haloperidol on, 188P
- Bradykinin**, peptides which potentiate, structure-activity relationships of, 156P
- , effect of, on effect of neurotensin on rat stomach strips and guinea-pig atria, 83
- , hypotensive response to, in unclipped renal hypertensive rats, 519
- Brain**, baboon, effect of sodium salicylate on blood flow and metabolism in, 407
- , guinea-pig, effects of changes in the structure of enkephalins and of narcotic analgesic drugs on their interactions with μ - and δ -receptors in, 333
- , rabbit, blood flow in, parasympathetic influence of carbachol on, by a direct vasodilator action and an inhibitor of the sympathetic mediated vasoconstriction, 449
- , rat, enhancement of metabolism of a tryptophan load in, by chronic ethanol administration, 22
- , rat, morphine tolerant/opiate dependent, demonstration of naloxone-precipitated opiate withdrawal on single neurones in, 585
- , rat, effects of *p*-chloromercuribenzoate on muscarinic receptor binding in, 142P
- , rat, muscarinic acetylcholine receptors in, binding of some antidepressant drugs to, 541
- , rat, noradrenaline stores in, effect of reserpine on, 93
- , rat and guinea-pig, differences in ligand binding properties and regional distribution of histamine H₁-receptors in, 687
- , regional changes in glucose utilization by, in kindled rats during convulsions, 133P
- Brain slices**, rat, effects of prostaglandin E₂, indomethacin and U-44619 on, 134P
- , rat, effects of some anaesthetic agents on [³H]-GABA release from, 131P
- British Pharmacological Society**, Proceedings of, University of Leeds, 12-14 September, 1979, 107P-189P
- Bronchial artery strip**, bovine isolated, preliminary pharmacological characterization of, a new preparation, 283
- Bronchial muscle**, human, comparison of effects of various drugs on, with rat trachea and lung strip preparations *in vitro*, 633
- Bronchoconstriction**, anaphylactic, in rat, doubt about using, as a model for study of asthma in man, 633
- Bronchoconstrictor activity**, comparison of, with β -adrenoceptor blocking activity of propranolol and acebutalol in rat, 196
- α -Bungarotoxin**, effect of, on effects of high concentrations of carbachol on frog skeletal muscle, 143P
- Burimamide**, estimation of pK_B value for, using an *in vitro* acid secretion assay in mouse isolated stomach, 413
- , effect of, on effects of endorphins on different parts of the rat and pig gastrointestinal tract *in vitro*, 599
- , effect of, on twitch response in isolated mouse vas deferens, 149P
- Butoxamine**, effect of, on binding of (–)-[³H]-dihydroalprenolol to β -adrenoceptors in BC₃H1 non-fusing muscle cell line, 731
- (±)-**Butoxamine**, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563

C

- Cadmium ion**, effects of, on myogenic activity and the responsiveness of rat portal vein to perimural stimulation, noradrenaline and potassium ions, 181P
- Caerulein**, effect of, on neurogenic plasma extravasation in the rat, 207
- Caffeine**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- Calcium**, effect of, on effects of procaine and 4-aminopyridine on vascular smooth muscle tissues of guinea-pig, 99

- , role of, in the relaxation produced by hydralazine and verapamil in potassium-depolarized guinea-pig taenia coli, 275
- , vasodilators antagonistic to, nifedipine and verapamil, differential effects of, on tracheal musculature and vasculature of the dog, 595
- , release of lysosomal phospholipase A from rabbit neutrophil leucocytes by, 125P
- , an acetylcholine depolarization dependent on, which is blocked by methoxyverapamil (D600) and procaine in snail neurones, 235
- , extracellular concentration of, in rat portal vein, effects of sodium nitroprusside, methoxyverapamil and nifedipine on, 311
- , effect of, on release of catecholamines and dopamine- β -hydroxylase evoked by ouabain in perfused cat adrenal gland, 571
- , role of, in effects of adenosine and adenine nucleotides on potassium-evoked efflux of [3 H]-noradrenaline from rat isolated heart, 551
- ⁴⁵Calcium**, movements of, effect of oxytocin on, in the rat isolated aorta, 153P
- Calcium ion**, effect of, on effect of tetraethylammonium on response of rat vas deferens to transmural stimulation, 425
- , role of, in contractile process in smooth muscle, 182P
- , effect of, on transmembrane transport of 5-hydroxytryptamine in isolated pancreatic islets of *ob/ob* mice, 773
- Cannabidiol**, subacute treatment with, effects of, on anticonvulsant activity and withdrawal excitability in mice in electrically induced threshold seizure tests, 479
- Cannulae**, stereotaxic implantation of, for subsequent drug administration into third ventricles of conscious mice, 189P
- Capsaicin**, decrease of substance P in primary afferent neurones and impairment of neurogenic plasma extravasation by, 207
- Captopril**, indomethacin and the hypotensive action of, in DOCA salt hypertensive rats, 117P
- Carbachol**, dipsogenic response of rat to, effects of ergometrine and ergot alkaloids on, 155P
- , binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- , affinity of antagonists to, for muscarinic receptors, 141P
- , high concentrations of, effects of, on frog skeletal muscle in the presence of tubocurarine, 143P
- , effect of, on isolated mouse anococcygeus muscle, 178P
- , parasympathetic influence of, on local cerebral blood flow in the rabbit by a direct vasodilator action and an inhibition of the sympathetic mediated vasoconstriction, 449
- , locally administered, effect of, on coronary vasoconstriction in isolated donor-perfused rat hearts, 625
- , effect of cyproheptadine on response of rat colon to, 381
- , effect of, on formation of thromboxane A₂ and prostaglandins in guinea-pig isolated lungs, 467
- , effect of, on bovine isolated bronchial artery strip, 283
- Cardiac muscle**, isolated guinea-pig, therapeutic concentrations of diazepam potentiate the effects of adenosine on, 148P
- Cardiac nerve**, inferior, activity of, in cat during superfusion of the vascularly isolated carotid sinus with propranolol, 779
- Cardiac output**, some direct and reflex effects of prostacyclin (PGI₂) and prostaglandin E₂ on, in anaesthetized dogs, 437
- Cardiac presynaptic α -adrenoceptors**, comparison of mianserin with desipramine, maprotiline and phentolamine on, in pithed normotensive rats, 321
- Cardiac β -receptors**, distribution and function of in different chambers of canine heart, 65
- , during normal growth of male and female rats, 65
- Cardiovascular actions**, some direct and reflex, of prostacyclin (PGI₂) and prostaglandin E₂ in anaesthetized dogs, 437
- Cardiovascular effects**, of α -adrenoceptor antagonists in the conscious rabbit, 115P
- , of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydronaphthalene after central and peripheral administration in rats, 188P
- , of propranolol and acebutalol on left ventricular function and coronary haemodynamics in conscious dog with myocardial ischaemia, 373
- , of mianserin, desipramine, maprotiline and phentolamine in pithed normotensive rats, 321
- Cardiovascular modulation**, in rats, investigations into role of spinal α -adrenoceptors in, 185P
- Cardiovascular system**, cat and dog, time dependence of interaction between histamine and histamine receptor antagonists in, 187P
- Carotid artery**, dog isolated external, evidence for two types of excitatory receptor for 5-hydroxytryptamine in, 215
- Carotid sinus**, vascularly isolated, inferior cardiac nerve activity in cat during superfusion of, with propranolol, 779
- Carrageenin**, granulomatous inflammation induced by, in the rat, increased lipid peroxidation and decreased hepatic aminopyrine metabolism during, 123P
- , pleurisy induced, exudate from, chemotactic and chemokinetic properties of, on rat polymorphonuclear leucocytes, effect of dibutyl cyclic adenosine 3',5'-monophosphate on, 663
- Casein**, chemotactic and chemokinetic properties of, on rat polymorphonuclear leucocytes, effect of dibutyl cyclic adenosine 3',5'-monophosphate on, 663
- Catecholamine receptors**, in thoracic spinal cord of the cat, 136P
- Catecholamines**, effects of, on acute effects of morphine and opioid peptides on the motility and responses of rat colon to electrical stimulation, 381
- , release of, evoked by ouabain in the perfused cat adrenal gland, 571
- , effects of, on nerve-induced contractions of the rat bisected vas deferens, 179P
- Catechol-O-methyltransferase**, in isolated coronary arteries of kitten, inhibitors of, 499
- Catha edulis**, constituent of leaves of, hypermotility of the amphetamine type induced by, in rats, 11
- (-)-**Cathinone**, hypermotility of the amphetamine type induced by, in rats, 11

- Caudate nucleus**, rabbit, parasympathetic influence of carbachol on blood flow in, by a direct vasodilator action and an inhibition of the sympathetic mediated vasoconstriction, 449
- Cefoxitin**, effect of chronic treatment with, on enterohepatic circulation of ethinyloestradiol and gut microflora in the rat and rabbit, 118P
- Cell migration**, investigation of effects of anti-inflammatory drugs on, should include separate assessment of their ability to influence both chemotaxis and chemokinesis, 663
- Cellular transport**, influence of, on the interaction of amino acids with γ -aminobutyric acid receptors in the isolated olfactory cortex of the guinea-pig, 251
- Cellulose sulphate**, evidence for antithrombin II involvement in anticoagulant activity of, 645
- Central airways**, rat, an *in vitro* study of various drugs on, a comparison with human airways, 633
- Central nervous system**, in the rat, prostaglandin E_2 -mediated negative feedback of noradrenaline overflow in, 134P
- , rat, concentration of substance P in, effect of capsaicin in, 207
- Cephalothin**, prophylactic administration of, compromises reticuloendothelial system function and exacerbates shock mortality in rats, 19
- Cerebellum**, rat and guinea-pig, regional differences in ligand binding properties of histamine H_1 -receptors in, 687
- Cerebral arteries**, of the dog, effects of 5-hydroxytryptophol, a metabolite of 5-hydroxytryptamine, on, 17
- Cerebral artery**, responsiveness to vasoactive agents of, isolated from control and reserpine-treated dogs, 473
- Cerebral cortex**, rat, morphine-tolerant/dependent, demonstration of naloxone-precipitated opiate withdrawal on single neurones in, 585
- C-fragment of lipotropin**, role of, in pressor responses to surgical procedures in cats anaesthetized with chloralose, 697
- Chemokinesis**, of rat polymorphonuclear leucocytes and the effect of cyclic adenosine 3',5'-monophosphate, 663
- Chemokinetic properties**, of various substances on rat polymorphonuclear leucocytes, effect of dibutyl cyclic adenosine 3',5'-monophosphate on, 663
- Chemotactic properties**, of various substance on rat polymorphonuclear leucocytes, 663
- Chloralose**, cats anaesthetized with, effects of morphine and opioid peptides on effect of naloxone on blood pressure in, 697
- Chlordiazepoxide**, interactions between, and food deprivation determining choice in a food preference test, 157P
- p-Chloromercuribenzoate**, effects of, on muscarinic receptor binding in rat brain, 142P
- Chlorpheniramine**, effect of, on binding of mepyramine to histamine H_1 -receptors in rat and guinea-pig brain, 687
- Chlorpromazine**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- Choline**, effect of, on effect of (+)-tubocurarine at the rat neuromuscular junction, 144P
- Choline acetyltransferase**, effects of *N*-methyl-D-aspartic acid and kainic acid on activity of, in rat globus pallidus, 174P
- Cholinergic nerve terminals**, in cat adrenal gland, release of catecholamines and dopamine- β -hydroxylase evoked by ouabain from, 571
- Cholinergic neurones**, release modulating acetylcholine receptors on, of the guinea-pig ileum, 289
- Cholinesterase inhibitors**, effects of, on effect of (+)-tubocurarine at the rat neuromuscular junction, 144P
- Cholinoceptors**, non-muscarinic prejunctional, effect of activation of, on sympathetic fibres innervating vascular bed of caudate nucleus, 449
- Chorda-lingual nerve**, electrical stimulation of, salivary and blood flow responses of submandibular gland of the dog to, effect of tetrodotoxin on, 651
- Chromaffin cell membrane**, role of, in release of catecholamines and dopamine- β -hydroxylase evoked by ouabain in the perfused cat adrenal gland, 571
- Chromatography**, high pressure, liquid, use of, to prepare highly purified slow reacting substance of anaphylaxis from biological extracts, 33
- Chronotropic effect**, negative, of adenosine on guinea-pig atria, potentiation by dilazep on, 343
- Ciclazindol**, effect of, on presynaptic α -receptors in isolated rat atria, 184P
- Cimetidine**, effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
- , effect of, on effect of histamine on cardiovascular system of cat and dog, time dependence of, 187P
- , estimation of pK_a value for, using an *in vitro* acid secretion assay in mouse isolated stomach, 413
- , effect of, on twitch response in isolated mouse vas deferens, 149P
- , effect of, on effect of neurotensin on rat stomach strips and guinea-pig atria, 83
- Cinanserin**, effect of, on effects of 5-hydroxytryptophol, a metabolite of 5-hydroxytryptamine, on isolated cerebral arteries of the dog, 17
- , interaction of, with the central-5-hydroxytryptamine receptor and the LSD receptor, 173P
- Cinnamic aldehyde**, identification of two sulphur containing urinary metabolites of, in the rat, 165P
- Circular muscle**, canine intestinal, a possible negative feedback control of excitatory transmission via prostaglandins in, 393
- Circulatory depression**, central, caused by intravascular saxitoxin in the cat, 301
- Climbing**, stereotyped, ability of some neuroleptics to antagonize, 172P
- Climbing behaviour**, apomorphine-induced, in mouse, importance of mesolimbic mechanisms for control of, 175P
- Clonidine**, cardiovascular effects of, effects of mianserin, desipramine, maprotiline and phentolamine on, in pithed normotensive rats, 321
- , an investigation of the effects of, in the pithed rat, 225
- , effect of, on cardiovascular modulation by spinal α -adrenoceptors in rats, 185P
- , withdrawal of, in conscious dogs, rebound effect from, 183P
- , response of isolated rat atria to, effect of piperoxan, mianserin, amitriptyline, ciclazindol, viloxazine, desmethylimipramine on, in isolated rat atria, 184P

- , effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous veins, 130P
 - , hypotensive and sedative properties of, relation of pre- and post-synaptic stimulation, 107P
 - Clotting time**, effects of cellulose sulphate and heparin on, role of antithrombin in, 645
 - Coagulation factor X/Xa**, activation of, amidolysis catalysed by, effects of heparin and cellulose sulphate on, 645
 - Cocaine**, effect of, on effect of noradrenaline on isolated mouse anococcygeus muscle, 178P
 - Cocaine hydrochloride**, effect of, on vasoconstrictor responses of the mesenteric arterial vasculature from the chicken and duckling to nerve stimulation and to noradrenaline, 263
 - Colon**, guinea-pig, longitudinal muscle from, effects of fenamates on prostaglandin action on, 357
 - , rabbit, effects of sulphasalazine and its metabolites on prostaglandin synthesis in, 719
 - , rat, motility and responses of to electrical stimulation, acute effects of morphine and opioid peptides on, 381
 - , rat and guinea-pig, effects of endorphins on muscle tone in *in vitro*, 599
 - Compound 48/80**, effect of, on histamine release in rat mast cells and guinea-pig skin slices, 124P
 - Conductance**, effect of γ -aminobutyric acid on, of *Ascaris* muscle, 128P
 - Contractile responses**, in rat isolated aorta, effect of oxytocin on, 153P
 - , of rat anococcygeus muscle to field stimulation, effect of mianserin on, 241
 - Convulsions**, regional changes in cerebral glucose utilization in kindled rats during, 133P
 - Core temperature**, effect of histamine on, of the conscious restrained rat, 145P
 - Coronary artery**, occlusion of, effect of, on effects of β -adrenoceptor-blocking drugs on myocardial oxygen consumption and coronary blood flow in the conscious dog, 373
 - , kitten isolated, metabolism of [3 H]-(\pm)-isoprenaline by, 499
 - Coronary haemodynamics**, in the conscious dog with myocardial ischaemia, effects of propranolol and acebutalol on, 373
 - Coronary vasoconstriction**, by locally administered acetylcholine, carbachol and bethanechol in isolated donor-perfused rat hearts, 625
 - Cortisol**, effect of, on metabolism of [3 H]-(\pm)-isoprenaline by isolated atria and coronary arteries of kitten, 499
 - Cranial circulation**, in the cat, effect of dihydroergotamine on the arteriovenous oxygen content difference and shunting of 15 μ m microspheres over, 186P
 - Cyclic nucleotides**, role of, and related compounds in nerve-mediated vasodilation in the cat submandibular gland, 485
 - Cycloheximide**, effect of, on effect of hydrocortisone-induced inhibitory factor of prostaglandin biosynthesis in rat leucocytes, 14
 - , effect of, on nuclear levels of oestrogen receptors in the rat, 170P
 - Cyclo-oxygenase inhibitor**, 5,8,11,14-eicosatetraynoic acid, effect of, on vasoconstrictor effect of noradrenaline in rat isolated mesenteric blood vessels, 757
 - Cyproheptadine**, effect of, on effects of dopamine and 5-hydroxytryptamine on core temperature in the rat, 168P
 - , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
 - , effect of, on gastric ulcerogenesis in albino rats, 765
 - , effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
 - , effect of, on effects of endorphins on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
 - , interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
 - Cytochrome P-450**, inhibition of binding of aminopyrine to, by its main metabolites in rat liver microsomes, 121P
- ## D
- D600**, (methoxyverapamil), some effects of, on rat portal vein, 311
 - , (methoxyverapamil), calcium-dependent acetylcholine depolarization blocked by, in snail neurones, 235
 - C₅-decahydrohistriocotoxin**, inhibition of acetylcholine receptor in denervated rat muscle by, 611
 - Delayed differentiation**, in monkey, *Macaca mulatta*, effects of β -adrenoceptor antagonists on, 75
 - Dermatan sulphate**, anticoagulant activity of, role of antithrombin III in, 645
 - Desipramine**, comparison of mianserin with, on cardiac presynaptic and vascular postsynaptic α -adrenoceptors and noradrenaline reuptake in pithed normotensive rats, 321
 - , binding of, to rat brain muscarinic acetylcholine receptors, 541
 - Desmethyylimipramine**, effect of, on presynaptic α -receptors in isolated rat atria, 184P
 - Dexamethasone**, effect of, on prostaglandin production by rat polymorphonuclear leucocytes, 199
 - , effect of, on effect of (+)-tubocurarine at the rat neuromuscular junction, 144P
 - , anti-inflammatory actions of, in the rat, effects of exogenous arachidonic acid on, 126P
 - Dextrorphan tartrate**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
 - N,N-dialkylated derivatives**, of 2-amino-5,6-dihydronaphthalene, cardiovascular effects of, after central and peripheral administration in rats, 188P
 - Diaminobutyric acid**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
 - L-2,4-Diaminobutyric acid**, influence of cellular transport on the interaction between, and γ -aminobutyric acid receptors in guinea-pig isolated olfactory cortex, 251
 - Diazepam**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
 - , therapeutic concentrations of, potentiate the effects of adenosine on isolated cardiac and smooth muscle, 148P
 - Diazomethane**, effect of, on activity of slow reacting substance of anaphylaxis, 33

- Dibenzamine**, effect of, on effect of phenylephrine on bovine isolated bronchial artery strip, 283
- , effect of, on gastric ulcerogenesis in albino rats, 765
- (-)-[³H]-**dihydroalprenolol**, binding of, to β -adrenoceptors, relationship between, and transmembrane ⁸⁶Rb efflux of the BC₃H1 nonfusing muscle cell line, 731
- , binding assay involving, use of, to study β -adrenoceptors during normal growth in male and female rats, 65
 - , use of, in binding assay to study distribution and function of β -adrenoceptors in different chambers of canine heart, 57
- Dihydroalprenolol receptor**, interaction of β -adrenoceptor antagonists with, 173P
- Dihydroergotamine**, effect of, on arteriovenous oxygen content difference and shunting of 15 μ m microspheres over the cranial circulation of the cat, 186P
- Dihydrokainate**, neurotoxicity of, and inactivation of L-glutamate *in vivo*, 161P
- Dilazep**, potentiation by, of the negative inotropic effect of adenosine on guinea-pig atria, 343
- Dimaprit**, effect of, on cardiovascular system in cat and dog, 187P
- , effect of, on twitch response in mouse isolated vas deferens, 149P
- Dimaval**, (2,3-dimercaptopropane sodium sulphate), removal of internally deposited gold by, in rats, 607
- 1,1-Dimethyl-4-phenyl piperazinium**, changes in membrane potential in rabbit isolated superior cervical ganglion induced by, 525
- 2,3-Dimercaptopropane sodium sulphate**, (dimaval), removal of internally deposited gold by, in rats, 607
- 2,4-Dinitrophenol**, effect of, on transmembrane transport of 5-hydroxytryptamine in isolated pancreatic islets of ob/ob mice, 773
- Diphenhydramine**, effect of, on effect of neurotensin on rat stomach strips and guinea-pig atria, 83
- 4-Diphenylacetoxymethyl-N-methylpiperidine methiodide**, affinity of, for muscarinic receptors, 141P
- Diphoretin phosphate**, effect of, on prostaglandin synthesis in rabbit colon and kidney, 719
- 2,3-Diphosphoglycerate**, effect of, on human haemoglobin, as a model for drug-receptor interaction, 741
- Dipsogenic response**, to angiotensin and carbachol, in the rat, effects of ergometrine and ergot alkaloids on, 155P
- Dipyridamole**, a potent stimulator of prostacyclin (PGI₂) biosynthesis in rat stomach fundus, 71
- Diuretic responses**, to oxytocin administration in the rat, 154P
- DOCA salt hypertension**, rats with, indomethacin and the hypotensive action of captopril in, 117P
- Dodecyltrimethylammonium**, binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- Domperidone**, effect of, on response of guinea-pig isolated gastroesophageal junction to dopamine, 180P
- , ability of, to antagonize stereotyped climbing and hypothermia, 172P
- L-DOPA**, behavioural syndromes induced by, in mice, role of β -adrenoceptor antagonists in, 176P
- Dopamine**, receptors for, in cat thoracic spinal cord, 136P
- , effect of, on gastric ulceration in albino rats, 765
 - , effects of, on adrenergic neuromuscular transmission in the guinea-pig vas deferens, 505
 - , effect of, on gastric ulcerogenesis in albino rats, 765
 - , mechanism of action of, on guinea-pig isolated gastroesophageal junction, 180P
 - , effect of, on nerve-induced contractions of rat bisected vas deferens, 179P
- [³H]-**dopamine**, potassium-induced release of, from rat striatal tissue, effects of some amino acids on, 162P
- Dopamine- β -hydroxylase**, release of, evoked by ouabain in the perfused cat adrenal gland, 571
- Dopamine receptors**, evidence for, on GABA-releasing nerve terminals in rat nucleus accumbens, 160P
- , relative potency of some neuroleptics as antagonists at, *in vivo* compared with their reported ability to displace haloperidol binding *in vitro*, 172P
 - , regional changes in function of, during six months trifluoperazine administration to rats, 163P
 - , hypothermia in the rat mediated by, evidence *in vivo* for a 5-hydroxytryptamine link in, 168P
- Dopaminergic neurotransmission**, *in vitro* evidence for a 5-HT link in, in the anterior hypothalamic region of the rat: demonstration of a 5-HT link in dopaminergic thermoregulation?, 162P
- Dopaminergic thermoregulation**, demonstration of a 5-HT link in, in the rat, 162P
- Doxepin**, binding of, to rat brain muscarinic acetylcholine receptors, 541
- Drinking**, in rats, continuous monitoring of effects of fenfluramine on, 158P
- , induced by angiotensin, inhibition of, by ergot alkaloids in the rat, 155P
- Drug-receptor interactions**, interaction of human haemoglobin with allosteric effectors as a model for, 741
- Dysmenorrhoea**, therapeutic effects of fenamates in, 357

E

- 5,8,11,14-Eicosatetraenoic acid**, a cyclo-oxygenase inhibitor, effect of, on vasoconstrictor effect of noradrenaline in rat isolated mesenteric blood vessels, 757
- Electrical field stimulation**, contractile responses of canine intestinal circular and longitudinal muscles to, role of prostaglandins in, 393
- Electrical shock**, single, release of tritium from rat vas deferens preloaded with [³H]-noradrenaline in response to, effect of tetraethylammonium on, 425
- Electrical stimulation**, of chorda-lingual nerve, salivary and blood flow responses of submandibular gland of the dog to, effect of tetrodotoxin on, 651
- , transmural, effect of tetraethylammonium and phenoxylbenzamine on release of tritium from rat vas deferens, preloaded with [³H]-noradrenaline, in response to, 425
 - , transmural, twitch responses of guinea-pig ileum to, effect of acetylcholine on, 289
 - , acute effects of morphine and opioid peptides on the motility and responses of rat colon to, 381
- Electrogenic Na-K-transport**, active, in rat soleus muscle, β_2 -adrenoceptors mediate the stimulating effect of adrenaline on, 749

- Electroshock threshold test**, effects of subacute treatment with cannabidiol, Δ^9 -tetrahydrocannabinol, phenytoin and phenobarbitone on anticonvulsant activity and withdrawal excitability in mice in, 479
- Endoperoxide analogue**, U-46619, effect of, on effect of indomethacin on vasoconstrictor effect of noradrenaline in rat isolated mesenteric blood vessels, 757
- α -Endorphin**, effects of, on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
- β -Endorphin**, role of, in pressor response responses to surgical procedures in cats anaesthetized with chloralose, 697
- γ -Endorphin**, effects of, on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
- Endorphins**, effects of, on different parts of the gastrointestinal tract of rat and guinea-pig *in vitro*, 599
- Enkephalin**, (D-al²-, D-leu⁵), effect of, on nerve-induced contractions of rat bisected vas deferens, 179P
- Enkephalin analogue**, FK33-824, effect of, on neurogenic plasma extravasation in the rat, 207
- Enkephalin receptor**, in rabbit ileum, 193
- Enkephalins**, role of, in pressor responses after surgical procedures in cats anaesthetized with chloralose, 697
- , evidence of their function as neurotransmitters in rabbit ileum, 193
 - , leucine- and methionine-, acute effects of, on the motility and responses of rat colon to electrical stimulation, 381
 - , (D-al²)met- and leu-, effects of, on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
 - , effects of changes in the structure of, on their interactions with μ and δ -receptors, in guinea-pig ileum and mouse vas deferens, 333
- Enterohepatic circulation**, effect of chronic antibiotic treatment on, of ethinyloestradiol in the rat and rabbit, 118P
- Epilepsy**, effectiveness of sodium valproate in treatment of, in the rat, 134P
- Ergometrine**, inhibition of angiotensin-induced by drinking by, in the rat, 155P
- Ergot alkaloids**, inhibition of angiotensin-induced drinking by, in the rat, 155P
- Ergotamine**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- Erythrocyte lysates**, chemokinetic properties of, on rat polymorphonuclear leucocytes, effect of dibutyryl cyclic adenosine 3',5'-monophosphate on, 663
- Ethacrynic acid**, release of [³H]-noradrenaline from guinea-pig vas deferens by, 135P
- Ethanol**, chronic administration of, enhancement of a tryptophan load in rat brain by, 22
- Ethanolamine O-sulphate**, some neurochemical effects of chronic oral administration of, to rats, 130P
- Ethinyloestradiol**, interaction of antibiotics with, in the rat and rabbit, 118P
- Etorphine**, effect of, on μ - and δ -receptors in guinea-pig and mouse vas deferens, 333
- Evisceration**, effect of, on effect of naloxone on blood pressure in cats anaesthetized with chloralose, 697
- Excitatory junction potentials**, amplitude of, correlated with effect of dopamine on contractile responses of guinea-pig isolated vas deferens to adrenergic nerve stimulation, 505
- , effect of chronic morphine treatment on, in the mouse vas deferens, 399
- Excitatory receptor**, structure-activity studies on an, for glutamate on leech Retzius neurones, 711
- , evidence for two types of, for 5-hydroxytryptamine in dog isolated vasculature, 215
- Excitatory transmission**, a possible negative feedback control of, via prostaglandins in canine small intestine, 393
- Extravasation**, neurogenic plasma, impairment of, by capsaicin in the rat, 207

F

- Fat cell membranes**, rat, interaction of adenosine with adenylate cyclase in, 153P
- Fatty acids**, rat deficient in, metabolism and incorporation in the tissues of arachidonic acid in, 126P
- Feeding**, in rats, continuous monitoring of effects of fenfluramine on, 158P
- Femoral arterial bed**, of the anaesthetized dog, effect of sympathetic activity on vasomotor responses to methysergide in, 113P
- Femoral artery**, dog isolated, evidence for two types of excitatory receptor for 5-hydroxytryptamine in, 215
- Fenamates**, antagonism by, of prostaglandin action in guinea-pig and human alimentary muscle, 357
- Fenfluramine**, does 5-hydroxytryptamine influence the facilitating effect of, on glucose uptake into rat isolated hemidiaphragm?, 169P
- , continuous monitoring of effects of, on feeding and drinking in rats, 158P
- Fenoterol**, an agonist, to obtain pA₂ value for β -adrenoceptor antagonist in isolated guinea-pig trachea and atria, 705
- Fibrinogen degradation products**, dose-dependent nature of the interaction of, and 5-hydroxytryptamine on various vascular smooth muscle preparations, 151P
- Field stimulation**, effect of, on isolated mouse anococcygeus muscle, 178P
- , contractile responses of rat anococcygeus muscle to, effect of mianserin on, 241
- FK33-824**, an enkephalin analogue, effect of, on neurogenic plasma extravasation in the rat, 207
- Flufenamate**, effect of, on prostaglandin action in guinea-pig and human alimentary muscle, 357
- Flupenthixol**, binding of, to rat brain muscarinic acetylcholine receptors, 541
- Fluphenazine**, effect of, on cardiovascular effects of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydronaphthalene after central and peripheral administration in rats, 188P
- Food deprivation**, interactions between, and chlordiazepoxide determining choice in a food preference test, 157P
- N*-formyl-methionyl-leucyl-phenyl-alanine**, effect of administration of, on release of C5a in rat neutrophils, 167P
- Frusemide**, effect of, on prostaglandin synthesis in rabbit colon and kidney, 719

G

- Gabaculine**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- Gallamine triethiodide**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- Gas chromatography-mass spectrometry**, quantitative analysis of 6-keto-PGF_{1 α} in biological fluids by stable isotope dilution utilizing, 166P
- Gastric acid secretion assay**, *in vitro*, estimation of pK_B values for histamine H₂-receptor antagonist using, in mouse isolated stomach, 413
- Gastric ulceration**, stress-induced, in albino rats, study of neurotransmitters in, 765
- Gastroesophageal junction**, guinea-pig isolated, mechanism of action of dopamine on, 180P
- Gastrointestinal smooth muscle**, rat, effects of sulphasalazine and its metabolites on prostaglandin synthesis, inactivation and actions on, 719
- Gastrointestinal tract**, rat and guinea-pig *in vitro*, effects of endorphins on different parts of, 599
- Glucagon**, effect of, on effect of neurotensin on rat stomach strips and guinea-pig atria, 83
- Glucocorticoids**, direct effects of, at the rat neuromuscular junction, 144P
- , effects of, on acetylcholine release at the rat neuromuscular junction, 144P
- Glucose**, utilization of, in brain, regional changes in, in kindled rats during convulsions, 133P
- , uptake of, into rat isolated hemidiaphragm, does 5-hydroxytryptamine influence the facilitating effect of fenfluramine on, 169P
- Glutamate**, effects of *N*-methyl-D-aspartic acid and kainic acid on concentration of, in rat globus pallidus, 174P
- , L- and D-excitatory receptor for, on leech Retzius neurones, structure-activity studies on, 711
- L-Glutamate**, activity of single neurones in morphine-tolerant/dependent rat brain evoked by, effect of naloxone on, 585
- , neurotoxicity of kainate and the inactivation of, *in vivo*, 161P
- Glutamate receptors**, role of, within the central nervous system, 174P
- Glutamate decarboxylase**, effects of *N*-methyl-D-aspartic acid and kainic acid, on activity of, in rat globus pallidus, 174P
- β -CH₂-glutamic acid**, excitatory effect of, on leech Retzius cells, compared with glutamate, 711
- Glycine**, effect of, on potassium-induced release of [³H]-DA from rat striatal tissue, 162P
- Gold**, internally deposited, removal of, by 2,3-dimercaptopropane sodium sulphonate (Dimaval) in rats, 607
- Granulomatous inflammation**, in the rat, increased lipid peroxidation and decreased hepatic aminopyrine metabolism during, 123P
- Guanethidine**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , effect of, on effect of field stimulation on isolated mouse anococcygeus muscle, 178P
- , effect of, on effect of acetylcholine on twitch response

of guinea-pig ileum to electrical transmural stimulation, 289

- Guanfacine**, hypotensive and sedative properties of, relation of pre- and post-synaptic stimulation, 107P
- Guanosine 5'-diphosphate**, effect of, on blood flow in cat submandibular gland, 485
- Guanosine 3',5'-monophosphate**, cyclic, level of, in guinea-pig taenai coli, effects of hydralazine and verapamil on, 275
- , dibutyryl cyclic, effect of, on blood flow in cat submandibular gland, 485
- , dibutyryl cyclic, effect of, on potassium-evoked efflux of [³H]-noradrenaline from rat isolated heart, effect of prostaglandins on, 551
- Guanosine 5'-triphosphate**, effect of, on blood flow in cat submandibular gland, 485
- Gut microflora**, effect of chronic antibiotic treatment on, in the rat and rabbit, 118P

H

- H133/22**, a B₁ selective agonist, effect of, on Na-K-transport in rat soleus muscle, 749
- Haemodynamic changes**, regional, evoked by isoprenaline in conscious normotensive and renal hypertensive rabbits, 116P
- Haemodynamic effects**, some direct and reflex, of prostacyclin C(PGI₂) and prostaglandin E₂ in anaesthetized dogs, 437
- , acute, of propranolol in the spontaneously hypertensive rat, 110P
- Haemodynamics**, coronary, in the conscious dog with myocardial ischaemia, effects of propranolol and acebutalol on, 373
- Haemoglobin**, human, interaction of, with allosteric effectors as a model for drug-receptor interactions, 741
- Haemophilus influenzae**, experimental animal vaccinated with, facilitation of histamine release in, 147P
- , vaccination with, inhibition of effects of isoprenaline and adrenaline by, 146P
- Haloperidol**, effect of, on effects of dopamine and 5-hydroxytryptamine on core temperature in the rat, 168P
- , effect of, on response of guinea-pig isolated gastroesophageal junction to dopamine, 180P
- , effect of, on L-tryptophan and L-DOPA induced behavioural syndromes in mice, 176P
- , effect of, on cardiovascular effects of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydro naphthalene after central and peripheral administration in rats, 188P
- , binding of, *in vitro*, relative potency of some neuroleptics as antagonists at dopamine receptors *in vivo* compared with their reported ability to displace, 172P
- Heart**, rat isolated, potassium-evoked efflux of [³H]-noradrenaline from, inhibitory effect of adenosine and adenine nucleotides on, lack of relationship to prostaglandins, 551
- , isolated donor-perfused rat, coronary vasoconstriction by locally administered acetylcholine, carbachol and bethanechol in, 625

- , rat, effect of propranolol on β -adrenoceptors in, 8
- , weight and ultrastructure, in young rabbits, effect of prolonged β -adrenoceptor blockade on, 363
- , β -adrenoceptors in, during normal growth of male and female rats, 65
- , canine, distribution and function of β -adrenoceptors in different chambers of, 57
- , rat, noradrenaline stores in, effect of reserpine on, 93
- Heart membrane preparation**, rat, comparison of pharmacological and binding assays for ten β -adrenoceptor-blocking agents and two β -adrenoceptor agonists in, 563
- Heart rate**, modulation of, in rats, investigations into role of spinal α -adrenoceptors in, 185P
- , effects of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydronaphthalene on, after central and peripheral administration in rats, 188P
- , in cat and dog, time dependence of interaction between histamine and histamine receptor antagonists on, 187P
- , effects of locally administered acetylcholine, carbachol and bethanechol on, in isolated donor-perfused rat hearts, 625
- Heart rate**, effects of mianserin, desipramine, maprotiline and phentolamine on, in pithed normotensive rats, 321
- , some direct and reflex effects of prostacyclin (PGI_2) and prostaglandin E_2 on, in anaesthetized dogs, 437
- , time course of effects of clonidine on, in the pithed rat, 225
- , effect of propranolol on, in the spontaneously hypertensive rat, 110P
- , effects of α -adrenoceptor antagonists on, in the conscious rabbit, 115P
- , effect of isoprenaline on, in conscious normotensive and renal hypertensive rabbits, 116P
- , comparison of effects of β -adrenoceptor-blocking drugs on, in intact and adrenal-medullated spontaneously hypertensive rats, 667
- Hemidiaphragm**, rat isolated, does 5-hydroxytryptamine influence the facilitating effect of fenfluramine on glucose uptake into?, 169P
- Heparan sulphate**, anticoagulant activity of, role of antithrombin II in, 645
- Heparin**, anticoagulant activity of, role of antithrombin II in, 645
- Hepatic uptake**, of drugs and their pharmacodynamic effects in anaesthetized cats, a new method for studying the relationship between, 637
- Hexamethonium**, effect of, on effect of acetylcholine on twitch response of guinea-pig ileum to electrical transmural stimulation, 289
- , effect of, on effects of endorphins on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
- , effect of, on effects of locally administered acetylcholine, carbachol and bethanechol on coronary vasoconstriction in isolated donor-perfused rat hearts, 625
- , effect of, on salivary and blood flow responses to histamine of the submandibular gland of the dog, 651
- , effect of, on gastric ulcerogenesis in albino rats, 765
- , effect of, on effect of field stimulation on isolated mouse anococcygeus muscle, 178P
- , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , effect of, on formation of thromboxane A_2 induced by histamine and slow reacting substance of anaphylaxis in guinea-pig isolated lungs, 467
- Hippocampus**, glucose utilization in, in kindled rats during convulsions, 133P
- Histamine**, effect of, on bovine isolated bronchial artery strip, 283
- , time dependence of interaction between, and histamine receptor antagonists in cardiovascular system of cats and dogs, 187P
- , promotion by, of release of thromboxane A_2 from isolated guinea-pig lungs, effect of atropine and carbachol on, 467
- , effect of, on isolated mouse anococcygeus muscle, 178P
- , pharmacological analysis of salivary and blood flow responses to, of the submandibular gland of the dog, 651
- , comparison of effects of, on central and peripheral airways of rat and man *in vitro*, 633
- , effect of, on gastric ulcerogenesis in albino rats, 765
- , release of, from guinea-pig lung mast cells, antigen induced, inhibition of, 152P
- , release of, facilitation of, in the *Haemophilus influenzae*-vaccinated experimental animal, 147P
- , effect of, on core and tail skin temperatures of the conscious restrained rat, 145P
- , lymphokine-induced release of, in rat mast cells and guinea-pig skin slices, determination of, 124P
- , effect of, on gastric ulceration in albino rats, 765
- Histamine receptor antagonists**, time dependence of interaction between, and histamine in cardiovascular system of cat and dog, 187P
- Histamine H_1 -receptor antagonist**, metiamide, effect of, on salivary and blood flow responses of submandibular gland of dog to histamine, 651
- , mepyramine, effect of, on salivary and blood flow responses of submandibular gland of dog to histamine, 651
- Histamine H_2 -receptor antagonists**, in the mouse isolated vas deferens, 149P
- , estimation of pK_B values for, using an *in vitro* acid secretion assay, in mouse isolated stomach, 413
- Histamine H_1 -receptors**, in the brain of the guinea-pig and the rat, differences in ligand binding properties and regional distribution, 687
- Histronicotoxin**, inhibition of acetylcholine receptor by, in denervated rat muscle, 611
- Hydralazine**, effects of, on phosphorylase activity and guanosine cyclic 3',5'-monophosphate levels in guinea-pig taenia coli, 275
- Hydrocortisone**, effect of, on prostaglandin production by rat polymorphonuclear leucocytes, 199
- , inhibitor of prostaglandin biosynthesis in rat leucocytes induced by, 14
- 5-Hydroxy-*N,N*-dimethyltryptamine**, interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
- 6-Hydroxydopamine**, effect of, on gastric ulcerogenesis in albino rats, 765

- , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , effect of, on effects of mianserin, nortriptyline and phentolamine on noradrenergic transmission in rat anococcygeus muscle, 241
- 6-Hydroxydopamine lesions**, use of, to analyze relative roles of nucleus accumbens and striatum in apomorphine-induced climbing behaviour in mouse, 175P
- p-Hydroxylation**, metabolic, reduced antioestrogenic activity in derivatives of tamoxifen unable to undergo, 171P
- 5-Hydroxytryptamine**, effect of, on gastric ulceration in albino rats, 765
 - , interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
 - , metabolite of, (5-hydroxytryptophol), effects of, on isolated cerebral arteries of the dog, 17
 - , dose-dependent nature of the interaction of fibrinogen-degradation products and, on various vascular smooth muscle preparations, 151P
 - , evidence for two types of excitatory receptor for, in dog isolated vasculature, 215
 - , effect of, on effect of acetylcholine on twitch response of guinea-pig ileum to electrical transmural stimulation, 289
 - , comparison of effects of, on central and peripheral airways of rat and man *in vitro*, 633
 - , effect of, on isolated mouse anococcygeus muscle, 178P
 - , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
 - , effect of, on isolated dog cerebral and mesenteric arteries, effect of reserpine on, 473
 - , transmembrane transport of, characteristics of, in isolated pancreatic islets of non-inbred ob/ob mice, 773
 - , does it influence the facilitating effect of fenfluramine on glucose uptake into rat isolated hemidiaphragm?, 169P
 - , effect of, on bovine isolated bronchial artery strip, 283
- 5-Hydroxytryptamine antagonists**, methysergide and cyproheptadine, effects of, on effects of endorphins on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
- 5-Hydroxytryptamine link**, *in vitro* evidence for, in dopaminergic neurotransmission in the anterior hypothalamic region of the rat: demonstration of a 5-HT link in dopaminergic thermoregulation?, 162P
 - , evidence *in vivo* for a, in dopamine receptor-mediated hypothermia in the rat, 168P
- 5-Hydroxytryptamine receptor**, central, further evidence for an interaction of propranolol with, 173P
- 5-Hydroxytryptamine receptors**, in rabbit isolated superior cervical ganglion and in rat isolated spinal cord and stomach strip, antagonism by quipazine, 525
- 5-Hydroxytryptophol**, a metabolite of 5-hydroxytryptamine, effects of, on isolated cerebral arteries of the dog, 17
- (-)-Hyoscyamine**, effect of, on salivary and blood flow responses to histamine in submandibular gland of dog, 651
- Hypercapnia**, response of cerebral blood flow to, effect of sodium salicylate on, in the baboon, 407
- Hyperexcitability**, effects of subacute treatment with cannabidiol, Δ^9 -tetrahydrocannabinol, phenytoin and phenobarbitone on, in mice in electrically induced seizure-threshold tests, 479
- Hyperglycaemia**, blockade of, induced by adrenaline in the anaesthetized cat by continuous infusion of phentolamine and propranolol, 461
- Hypermotility**, in rats, of the amphetamine type induced by a constituent of that leaves, 11
- Hypertension**, renal, conscious rabbits with, regional haemodynamic changes evoked by isoprenaline in, 116P
 - , spontaneous, effects of propranolol on baroreceptor reflex sensitivity in conscious rat with, 109P
 - , DOCA salt, rats with, indomethacin and the hypotensive action of captopril in, 117P
 - , experimental renal, and [3 H]-noradrenaline release from rabbit hypothalamus: enhanced potassium-evoked overflow of tritium and lack of facilitation through presynaptic angiotensin II receptors, 112P
 - , spontaneous, rat with, acute haemodynamic effects of propranolol in, 110P
 - , rats with spontaneous, comparison of antihypertensive response to β -adrenoceptor-blocking drugs in intact rats and, 667
 - , unclipped, renal, rats with, attenuated depressor response to arachidonic acid and prostaglandins in, 519
- Hypotension**, produced by prostacyclin (PGI₂), mechanism of, in anaesthetized dogs, 437
- Hypotensive action**, of captopril in DOCA salt hypertensive rats, effect of indomethacin on, 117P
- Hypotensive properties**, of α -adrenoceptor agonists, relation to pre- and post-synaptic stimulation, 107P
- Hypothalamic region**, anterior, of the rat, evidence *in vitro* for a 5-HT link in dopaminergic neurotransmission in, demonstration of a 5-HT link in dopaminergic thermoregulation?, 162P
- Hypothalamus**, rabbit, overflow of tritium evoked by potassium from, during experimental renal hypertension, 112P
- Hypothermia**, ability of some neuroleptics to antagonize, 172P
 - , in the rat, mediated by dopamine receptors, evidence *in vivo* for a 5-hydroxytryptamine link in, 168P
- Hypoxanthine**, effect of dilazep on formation of, from adenosine in guinea-pig atria, 343

I

- Ibotenic acid**, excitatory effect of, on leech Retzius cells, compared with glutamate, 711
- ICI 81008**, effect of, on isolated longitudinal uterine smooth muscle of the rat and guinea-pig, 150P
- ICI 101187**, hypotensive and sedative properties of, relation of pre- and post-synaptic stimulation, 107P
- ICI 106270**, hypotensive and sedative properties of, relation of pre- to post-synaptic stimulation, 107P

- Ileum**, dog, effects of morphine on absorption and blood flow in, 617
- , guinea-pig, release-modulating acetylcholine receptors on cholinergic neurones of, 289
 - , guinea-pig, longitudinal muscle-myenteric plexus preparations from, kinetics of morphine-sensitive [^3H]-acetylcholine release from, 47
 - , guinea-pig, effects of changes in the structure of enkephalins and of narcotic analgesic drugs on their interactions with μ - and δ -receptors in, 333
 - , guinea-pig isolated, activity of RO363, a β_1 -adrenoceptor selective agonist, and (–)-isoprenaline in, 677
 - , rabbit, enkephalin receptor in, 193
 - , rat and guinea-pig, effects of endorphins on muscle tone in, *in vitro*, 599
 - , smooth muscle from rat, ligand binding properties of histamine H_1 -receptors in, compared with brain, 687
- Imipramine**, binding of, to rat brain muscarinic acetylcholine receptors, 541
- Implantation**, stereotaxic, of cannulae for subsequent administration of drugs into third ventricles of conscious mice, 189P
- Indomethacin**, effect of, on contractile and relaxant actions of prostaglandins on guinea-pig isolated trachea, 533
- , effect of, on effects of endorphins on different parts of rat and guinea-pig gastrointestinal tract, 599
 - , effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
 - , effect of, on contractile responses of canine intestinal circular and longitudinal muscles to electrical field stimulation, 393
 - , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
 - , effect of, on prostaglandin production by rat polymorphonuclear leucocytes, 199
 - , effect of, on effects of prostaglandins on adenosine and adenine nucleotides on potassium-evoked efflux of [^3H]-noradrenaline from rat isolated heart, 551
 - , effect of, on noradrenaline overflow in the central nervous system of the rat, 134P
 - , and the hypotensive action of captopril in DOCA salt hypertensive rats, 117P
 - , effect of, on effect of neurotensin on rat stomach strips and guinea-pig atria, 83
 - , effect of, on prostaglandin synthesis in rabbit colon and kidney, 719
 - , effect of, on vasoconstrictor effect of noradrenaline in rat isolated mesenteric blood vessels, effects of prostaglandins on, 757
- Inferior cardiac nerve**, activity of, in cat during superfusion of the vascularly isolated carotid sinus with propranolol, 779
- Inflammation**, granulomatous, in the rat, increased lipid peroxidation and decreased hepatic aminopyrine metabolism during, 123P
- Inflammatory exudate**, effect of dibutyl cyclic adenosine 3',5'-monophosphate on effect of, on rat polymorphonuclear leucocytes, 663
- Inflammatory skin reaction**, role of lymphokines in, 124P
- Information content**, of pharmacological experiments, 165P
- Intestinal absorption**, canine, effects of morphine on, 617
- Inosine**, effect of, on potassium-evoked efflux of [^3H]-noradrenaline from the rat isolated heart, effect of prostaglandins on, 551
- , effect of dilazep on formation of, from adenosine in guinea-pig atria, 343
- Inositol hexaphosphate**, effect of, on human haemoglobin, as a model for drug-receptor interaction, 741
- Intotropic effect**, negative, of adenosine on guinea-pig atria, potentiation by dilazep, 343
- Ipratropium bromide**, effect of, on formation of thromboxane A_2 induced by histamine and slow reacting substance of anaphylaxis in guinea-pig isolated lungs, 467
- Iprindole**, binding of, to rat brain muscarinic acetylcholine receptors, 541
- Ischaemia**, myocardial, conscious dog with, effects of propranolol and acebutalol on left ventricular function and coronary haemodynamics in, 373
- 3-Isobutyl-1-methylxanthine**, effect of, on vasodilatation in cat submandibular gland, 485
- Isogabaculine trifluoro-methane-sulphonate**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- Isometric tension responses**, of vas deferens and anococcygeous muscle in the pithed rat, time course of effects of clonidine on, 225
- Isoprenaline**, effect of, on bovine isolated bronchial artery strip, 283
- , effect of, on vasodilatation in tracheal vasculature and musculature of the dog, 595
 - , effect of, on isolated dog cerebral and mesenteric arteries contracted by prostaglandin, effect of reserpine on, 473
 - , effect of, on isolated mouse anococcygeus muscle, 178P
 - , relaxation of guinea-pig isolated gastroesophageal junction induced by, effects of dopamine antagonists on, 180P
 - , effect of, on isolated mouse anococcygeus muscle, 178P
 - , effect of, on nerve-induced contractions of rat bisected vas deferens, 179P
 - , effect of, on gastric ulcerogenesis in albino rats, 765
 - , positive chronotropic effects of, effects of desipramine, maprotiline, mianserin and phentolamine in pithed normotensive rats, 321
 - , effect of, on acute effect of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
 - , effect of, on binding of (–)-[^3H]-dihydroalprenolol to β -adrenoceptors in BC $_3$ H1 nonfusing muscle cell line, 729
 - , inhibition of effects of, by *Haemophilus influenzae* vaccination, 146P
 - , regional haemodynamic changes evoked by, in conscious normotensive and renal hypertensive rabbits, 116P
 - , use of, as agonist, to obtain pA_2 value for β -adrenoceptor antagonist in isolated guinea-pig trachea and atria, 705
- (–)-Isoprenaline**, β -adrenoceptor stimulant effects of, *in vitro*, 677

- , effect of, on release of histamine from guinea-pig lung mast cells, 152P
- [³H]-(±)-isoprenaline, metabolism of, by isolated atria and coronary arteries of the kitten, 499
- Isotope dilution, stable, quantitative analysis of 6-keto-PGF_{1α} in biological fluids by, utilizing gas chromatography-mass spectrometry, 166P

J

- JB-516, a monoamine oxidase inhibitor, effect of, on gastric ulcerogenesis in albino rats, 765
- Jejunum, rat, *in vivo*, inhibition by morphine of prostaglandin E₁-stimulated secretion and cyclic adenosine 3',5'-monophosphate formation in, 513
- , rat and guinea-pig, effects of endorphins on muscle tone in, *in vitro*, 599

K

- Kainate, neurotoxicity of, and inactivation of L-glutamate *in vivo*, 161P
- Kainic acid, excitatory effect of, on leech Retzius cells, compared with glutamate, 711
- , behavioural and biochemical studies with, in rats, 174P
- Kanamycin, prophylactic administration of, compromises reticuloendothelial system function and exacerbates shock mortality in rats, 19
- Ketobemidone, effect of, on μ- and δ-receptors in guinea-pig ileum and mouse vas deferens, 333
- Kinetic effects, of tubocurarine on frog skeletal muscle at high agonist concentrations, 143P
- Khat leaves, constituent of, hypermotility of the amphetamine type induced by, in rats, 11
- Kidney, effect of 2,3-dimercaptopropane sodium sulphinate (Dimaval) on concentration of gold in, in rats treated with Auro-Detoxin, 607
- , rabbit, effects of sulphasalazine and its metabolites on prostaglandin synthesis in, 719
- Kindled rats, regional changes in cerebral glucose utilization in, during convulsions, 133P
- Kindling, rat amygdaloid, anti-epileptic properties of sodium valproate in, 134P

L

- (±)-Labetalol, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Lactate, concentration of, in blood, increase in, induced by adrenaline in the anaesthetized cat, effects of phentolamine and propranolol on, 461

- Leech, Retzius neurones of, structure-activity studies on an excitatory receptor for glutamate on, 711
- Left ventricular function, effects of propranolol and acebutalol on, in the conscious dog with myocardial ischaemia, 373
- Left ventricular pressure, effects of locally administered acetylcholine, carbachol and bethanechol on, in isolated donor-perfused rat hearts, 625
- Leucocytes, polymorphonuclear rat, chemokinesis of, and the effect of cyclic adenosine 3',5'-monophosphate, 663
- Leucocytes, rat, hydrocortisone-induced inhibitor of prostaglandin biosynthesis in, 14
- , rat polymorphonuclear, failure of anti-inflammatory steroids to inhibit prostaglandin production by, 199
- , rabbit neutrophil, release of lysosomal phospholipase A from, 125P
- Leu-enkephalin, effects of, on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
- , acute effects of, on the motility and responses of rat colon to electrical stimulation, 381
- Levorphanol, effect of, on μ- and δ-receptors in guinea-pig ileum and mouse vas deferens, 333
- , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- Ligand binding properties, differences in, of histamine H₁-receptors in rat and guinea-pig brain, 687
- Lignocaine, comparative electrophysiological effects of Org 6001, a new orally active antidysrhythmic agent, and, on human ventricular muscle, 25
- Lincomycin, effect of chronic treatment with, on enterohepatic circulation of ethinyloestradiol and gut microflora in the rat and rabbit, 118P
- Lingual artery, dog isolated, evidence for two types of excitatory receptor for 5-hydroxytryptamine in, 215
- Lipid peroxidation, increased, during carrageenin-induced granulomatous inflammation in the rat, 123P
- Lipotropin, C-fragment of, role of, in pressor responses to surgical procedures in cats anaesthetized with chloralose, 697
- β-Lipotropin, spasmolytic and spasmogenic effects of, on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
- Liver, a new experimental method for excluding, from the general circulation by a portocaval shunt operation, use of, to study relationship between hepatic uptake of drugs and their pharmacodynamic effects in anaesthetized cats, 637
- , decreased metabolism of aminopyrine in, during carrageenin-induced granulomatous inflammation in the rat, 123P
- Liver microsomes, rat inhibition of aminopyrine demethylation and binding to cytochrome P-450 by its main metabolites in, 121P
- Locomotor activity, in rats, effects of N-methyl-D-aspartic acid and kainic acid on, 174P
- Lofexidine, hypotensive and sedative properties of, relation of pre- and post-synaptic stimulation, 107P
- Longitudinal muscle, canine intestinal, a possible negative feedback control of excitatory transmission via prostaglandins in, 393
- , human gastrointestinal and guinea-pig colon, effects of fenamates on prostaglandin action on, 357

- Lung**, guinea-pig, mast cells in, characterization of β -adrenoceptors in, 152P
- , guinea-pig, α -adrenoceptor binding in, using [3 H]-prazosin, 138P
- , rat and guinea-pig perfused, effects of sulphasalazine and its metabolites on prostaglandin synthesis in, 719
- Lung membrane preparation**, rat, comparison of pharmacological and binding assays for ten β -adrenoceptor-blocking agents and two β -adrenoceptor agonists in, 563
- Lung perfusate**, quantitative analysis of 6-keto-PGF $_{1\alpha}$ in, by stable isotope dilution utilizing gas chromatography-mass spectrometry, 166P
- Lung strip**, guinea-pig isolated, activity of R0363, a β_1 -adrenoceptor selective agonist, and (–)-isoprenaline in, 677
- , rat, comparison of effects of various drugs on, with human bronchial muscle *in vitro*, 633
- Lungs**, guinea-pig isolated, atropine inhibits thromboxane A $_2$ generation in, 467
- Luteinizing hormone-releasing factor**, and muscarinic agonists act on the same voltage-sensitive K $^+$ -current in bullfrog sympathetic neurones, 353
- Lymphokines**, histamine release induced by, *in vitro*, determination of, in rat mast cells and guinea-pig skin slices, 124P
- Lysergic acid diethylamide**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
- Lysergic acid diethylamide receptor**, interaction of β -adrenoceptor antagonists with, 173P
- Lysosomal phospholipase A**, release of, from rabbit neutrophil leucocytes, 125P

M

- Macaca mulatta**, effects of β -adrenoceptor antagonists on behaviour (delayed differentiation) in, 75
- Magnesium ion**, effect of, on transmembrane transport of 5-hydroxytryptamine in isolated pancreatic islets of ob/ob mice, 773
- Maprotiline**, binding of, to rat brain muscarinic acetylcholine receptors, 541
- , comparison of mianserin with, on cardiac presynaptic and vascular postsynaptic α -adrenoceptors and noradrenaline reuptake in pithed normotensive rats, 321
- Mass spectrometry-gas chromatography**, quantitative analysis of 6-keto-PGF $_{1\alpha}$ in biological fluids by stable isotope dilution utilizing, 166P
- Mast cells**, guinea-pig lung, characterization of β -adrenoceptors in, 152P
- , rat, determination of lymphokine-induced histamine release in, 124P
- Mecamylamine**, effect of, on catecholamine secretory effects of acetylcholine or ouabain perfusion in cat adrenal gland, 571
- Meclofenamate**, effect of, on prostaglandin action in guinea-pig and human alimentary muscle, 357
- Meclofenaminic acid**, effect of, on prostaglandin production by rat polymorphonuclear leucocytes, 199
- McN-A-343**, muscarinic agonist, modulation by, of noradrenaline release from sympathetic neurones in rabbit pulmonary artery, 136P
- Mefenamate**, effect of, on prostaglandin action in guinea-pig and human alimentary muscle, 357
- Melittin**, effect of, on histamine release in rat mast cells and guinea-pig skin slices, 124P
- Mepyramine**, binding of, to histamine H $_1$ -receptors in rat and guinea-pig brain, regional differences in, 687
- , effect of, on effects of histamine and 5-hydroxytryptamine on bovine isolated bronchial artery strip, 283
- , effect of, on effect of histamine on cardiovascular system of cat and dog, time dependence of, 187P
- , effect of, on gastric ulcerogenesis in albino rats, 765
- , effect of, on salivary and blood flow responses of submandibular gland of dog to histamine, 651
- , effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
- , effect of, on effects of endorphins on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
- , effect of, on twitch response in isolated mouse vas deferens, 149P
- Mesenteric arterial vasculature**, from chicken and duckling, a comparison *in vitro* of the vasoconstrictor responses of, to nervous stimulation and to noradrenaline, 263
- Mesenteric artery**, responsiveness to vasoactive agents of, isolated from control and reserpine-treated dogs, 473
- Mesenteric blood vessels**, rat isolated, prostaglandin action, release and inactivation by, 757
- Mesolimbic mechanisms**, importance of, for the control of apomorphine-induced climbing behaviour in mouse, 175P
- Met-enkephalin**, acute effects of, on the motility and responses of rat colon to electrical stimulation, 381
- (\pm)-**Methacholine**, an agonist of carbachol, affinity of, for muscarinic receptors, 141P
- Methacrylates**, metabolism and toxicity of, in guinea-pig skin, 165P
- Methadone**, effects of, on μ - and δ -receptors in guinea-pig ileum and mouse vas deferens, 333
- Methiothepin**, interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
- (\pm)-**Methoxamine**, effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous vein, 139P
- 5-Methoxy-N,N-dimethyltryptamine**, interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
- 5-Methoxytryptamine**, interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
- Methoxyverapamil**, (D600), calcium-dependent acetylcholine depolarization blocked by, in small neurones, 235
- , (D600), some effects of, on rat portal vein, 311
- N-methyl-D-aspartic acid**, behavioural and biochemical studies with, in rats, 174P
- N-methylation**, species variation in, of [14 C]-pyridine *in vivo*, 119P
- Methylatropine**, binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- 3-Methylcholanthrene**, enhancement of antipyrine clearance and induction of antipyrine 4-hydroxylation by, in rats, 120P

- 4-Methyl-histamine**, effect of, on twitch response in mouse isolated vas deferens, 149P
- (-)- α -Methylnoradrenaline**, effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous veins, 139P
- α -methylpropranolol**, pA_2 value for, as a β -adrenoceptor antagonist in isolated guinea-pig trachea and atria, 705
- N-methylscopolamine**, binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- Methysergide**, effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
- , effect of, on effects of endorphins on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
 - , effect of, on effect of 5-hydroxytryptamine on isolated mouse anococcygeus muscle, 178P
 - , interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
 - , effect of, on L-tryptophan and L-DOPA induced behavioural syndromes in mice, 176P
 - , effect of, on effects of dopamine and 5-hydroxytryptamine on core temperature in the rat, 168P
 - , effect of, on effects of histamine and 5-hydroxytryptamine on bovine isolated bronchial artery strip, 283
 - , effect of, on effect of neurotensin on rat stomach strips and guinea-pig atria, 83
 - , effect of sympathetic activity on vasomotor responses to, in the femoral arterial bed of the anaesthetized dog, 113P
- Metiamide**, effect of, on effect of histamine on bovine isolated bronchial artery strip, 283
- , effect of, on protracted anaphylaxis in the guinea-pig, 168P
 - , effect of, on salivary and blood flow responses of submandibular gland of dog to histamine, 651
 - , effect of, on gastric ulcerogenesis in albino rats, 765
 - , effect of, on twitch response in mouse isolated vas deferens, 149P
 - , estimation of pK_B value for, using an *in vitro* acid secretion assay in mouse isolated stomach, 413
- Metoclopramide**, effect of, on response of guinea-pig isolated gastroesophageal junction to dopamine, 180P
- Metoprolol**, effect of, on behaviour (delayed differentiation) in monkey *Macaca mulatta*, 75
- , effect of, on effect of adrenaline on Na-K-transport in rat soleus muscle, 749
 - , comparison of antihypertensive response to, in intact and adrenal-medullated spontaneously hypertensive rats, 667
- Mianserin**, effect of, on noradrenergic transmission in the rat anococcygeus muscle, 241
- , effect of, on presynaptic α -receptors in isolated rat atria, 184P
 - , interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
 - , binding of, to rat brain muscarinic acetylcholine receptors, 541
 - , comparison of, with desipramine, maprotiline and phentolamine on cardiac presynaptic and vascular postsynaptic α -adrenoceptors and noradrenaline reuptake in pithed normotensive rats, 321
- Microsomes**, rat liver, inhibition of aminopyrine demethylation and binding to cytochrome P-450 by its main metabolites in, 121P
- Monkey**, *Macaca mulatta*, effects of β -adrenoceptor antagonists on behaviour (delayed differentiation) in, 75
- Monoamine oxidase inhibitor**, JB-516, effect of, on gastric ulcerogenesis in albino rats, 765
- Monohydroxytamoxifen**, antioestrogenic activity of, in the rat, 171P
- , effect of, on nuclear levels of oestrogen receptors in the rat, 170P
- Morphine**, effect of, on effect of naloxone on blood pressure in cats anaesthetized with chloralose, 697
- , kinetics of [3 H]-acetylcholine release sensitive to, from guinea-pig myenteric plexus, 47
 - , effect of, on effect of histamine on bovine isolated bronchial artery strip, 283
 - , acute effects of, on the motility and responses of rat colon to electrical stimulation, 381
 - , and related compounds, effects of, on electrically induced contractions of myenteric plexus-longitudinal muscle strip of rabbit ileum, 193
 - , effects of, on canine intestinal absorption and blood flow, 617
 - , effect of, on μ - and δ -receptors in guinea-pig ileum and mouse vas deferens, 333
 - , effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
 - , inhibition by, of prostaglandin E_1 -stimulated secretion and cyclic adenosine 3',5'-monophosphate formation in the rat jejunum *in vivo*, 513
 - , effect of chronic treatment with, on excitatory junction potentials in the mouse vas deferens, 399
 - , demonstration of naloxone-precipitated opiate withdrawal on single neurones in rat brain tolerant to dependent on, 585
- Morphine potentiation**, induction of, by irreversible inhibitors of GABA-transaminase in the mouse, 129P
- Mr 2266**, effect of, on μ - and δ -receptors in guinea-pig and mouse vas deferens, 333
- Muscarinic acetylcholine receptors**, in rat brain, binding of some antidepressant drugs to, 541
- Muscarinic agonist**, McN-A-343, modulation by, of noradrenaline release from sympathetic neurones in rabbit pulmonary artery, 136P
- Muscarinic agonists**, and luteinizing hormone-releasing factor act on the same voltage-sensitive K^+ -current in bullfrog sympathetic neurones, 353
- Muscarinic antagonists**, some antidepressant drugs as potent, 541
- Muscarinic receptors**, role of, in effect of acetylcholine on twitch response of guinea-pig ileum to electrical transmural stimulation, 289
- , vascular, activation of, effect of, on local cerebral blood flow in the rabbit, 449
 - , role of, in coronary vasoconstriction induced by locally administered acetylcholine, carbachol and bethanechol in isolated donor-perfused rat hearts, 625
 - , binding to, effects of *p*-chloromercuribenzoate on, in rat brain, 142P
 - , three types of 141P
- Muscimol**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P

- Muscle tone**, changes in, in rat and guinea-pig gastrointestinal tract, effects of β -endorphins on, *in vitro*, 599
- Myasthenia gravis**, therapeutic effects of glucocorticoids on, 144P
- Myenteric plexus**, guinea-pig, kinetics of morphine-sensitive [^3H]-acetylcholine release from, 47
- Myenteric plexus-longitudinal muscle strip**, of rabbit ileum, effects of morphine-like compounds and opioid peptides on, 193
- Myocardial infarction**, developing, effects of propranolol and acebutalol on left ventricular function and coronary haemodynamics in the conscious dog with, 373
- , possible therapeutic use of dipyridamole in, 71
- Myocardial ischaemia**, conscious dog with, effects of propranolol and acebutalol on left ventricular function and coronary haemodynamics in, 373
- Myogenic activity**, of rat portal vein to perimural stimulation, noradrenaline and potassium ions, effects of cadmium ions on, 181P

N

- Nafoxidine**, antioestrogenic derivatives of, stimulate progesterone receptor synthesis *in vivo*, 156P
- Naloxone**, effect of, on blood pressure in cats anaesthetized with chloralose, effects of morphine and opioid peptides, 697
- , effect of, on acute effects of morphine and opioid peptides on the motility and responses of rat colon to electrical stimulation, 381
- , effect of, on effects of morphine-like compounds and opioid peptides on myenteric plexus-longitudinal muscle strip of rabbit ileum, 193
- , effect of, on effect of chronic morphine treatment on excitatory junction potentials in mouse vas deferens, 399
- , effect of, on effects of morphine on canine intestinal absorption and blood flow, 617
- , effect of, on μ -receptors and δ -receptors in guinea-pig ileum and mouse vas deferens, 333
- , effects of, on effects of endorphins on different parts of the rat and guinea-pig gastrointestinal tract *in vitro*, 599
- , effect of, on effect of morphine on prostaglandin E_1 -stimulated secretion and cyclic adenosine 3',5'-monophosphate formation in rat jejunum *in vivo*, 513
- , opiate withdrawal precipitated by, on single neurones in morphine-dependent/tolerant rat brain, 585
- , effect of, on effect of acetylcholine on twitch response of guinea-pig ileum to electrical transmural stimulation, 289
- Naltrexone**, effects of, on μ - and δ -receptors in guinea-pig ileum and mouse vas deferens, 333
- Narcotic analgesic drugs**, effects of changes in the structure of, on their interactions with μ - and δ -receptors, in guinea-pig ileum and mouse vas deferens, 333
- Neomycin**, effect of chronic treatment with, on the enterohepatic circulation of ethinyloestradiol and gut microflora in the rat and rabbit, 118P

- Nephrectomy**, effect of, on blood pressure response to arachidonic acid and prostaglandins in unclipped renal hypertensive rats, 519
- Nerve stimulation**, adrenergic, contractile responses of guinea-pig vas deferens to, effects of dopamine on, 505
- , a comparison *in vitro* of the vasoconstrictor responses of the mesenteric arterial vasculature from the chicken and the duckling to, 263
- Neurochemical effects**, of chronic oral administration of ethanolamine *O*-sulphate to rats, 130P
- Neurogenic plasma extravasation**, impairment of, by capsaicin in the rat, 207
- Neuroleptics**, relative potency of, as antagonists at dopamine receptors *in vivo* compared with their reported ability to displace haloperidol binding *in vitro*, 172P
- Neuromuscular junction**, rat, direct effects of glucocorticoids at, 144P
- , rat, effects of glucocorticoids on acetylcholine release at, 144P
- Neuromuscular transmission**, adrenergic, effects of dopamine on, in guinea-pig vas deferens, 505
- Neurotensin**, stimulatory effects of, in rat stomach strips and guinea-pig atria, 83
- Neurotoxicity**, of kainate and the inactivation of L-glutamate *in vivo*, 161P
- Neurotoxic properties**, of *N*-methyl-D-aspartic acid and kainic acid in rats, 174P
- Neurotransmission**, dopaminergic, *in vitro* evidence for a 5-HT link in, in the anterior hypothalamic region of the rat, demonstration of a 5-HT link in dopaminergic thermoregulation, 162P
- , effects of pancuronium and its monoquaternary derivative Organon NC 45 on, in the pithed rat, 140P
- Neurotransmitters**, central, study of, in stress-induced gastric ulceration in albino rats, 765
- , evidence that enkephalins function as, in rabbit ileum, 193
- Neutropenia**, transient, a model of, in the rat, 167P
- Neutrophil leucocytes**, rabbit, release of lysosomal phospholipase A from, 125P
- Nicotine**, effect of, on isolated dog cerebral and mesenteric arteries, effect of reserpine on, 473
- , effect of, on effect of acetylcholine on twitch response of guinea-pig ileum to electrical transmural stimulation, 289
- Nicotinic agonist**, changes in membrane potential in rabbit isolated superior cervical ganglion induced by, 525
- Nifedipine**, a calcium-antagonistic vasodilator, effect of, on tracheal musculature and vasculature of the dog, 595
- , some effects of, on rat portal vein, 311
- (\pm)-Nipeicotic acid**, influence of cellular transport on the interaction of, with γ -aminobutyric acid receptors in guinea-pig isolated olfactory cortex, 251
- Nomifensine**, binding of, to rat brain muscarinic acetylcholine receptors, 541
- Noradrenaline**, intra- and extra-vascular, a comparison of the vasoconstrictor responses of the mesenteric arterial vasculature from the chicken and the duckling to, 263
- , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381

- , electrical and mechanical activity induced by, in rat portal vein, effects of sodium nitroprusside, methoxy-verapamil (D600) and nifedipine on, 311
 - , reuptake of, in pithed normotensive rats, comparison of mianserin, with desipramine, maprotiline and phen-tolamine on,
 - , release of, evoked by ouabain from perfused cat adrenal gland, 571
 - , effect of, on nerve-induced contractions of rat bisected vas deferens, 179P
 - , relaxation of guinea-pig isolated gastroesophageal junction induced by, effects of dopamine antagonists on, 180P
 - , effects of cadmium ions on myogenic activity and responsiveness of rat portal vein to, 181P
 - , effect of, on effect of chronic morphine treatment on excitatory junction potentials in mouse vas deferens, 399
 - , in dog isolated cerebral and mesenteric arteries, effect of reserpine on, 473
 - , overflow of, from dog isolated saphenous veins, effects of α -adrenoceptor agonists and antagonists on, 139P
 - , receptors for, in cat thoracic spinal cord, 136P
 - , release of, from sympathetic neurones of rabbit pulmonary artery, modulation by the muscarinic agonist McN-A-343, 136P
 - , overflow of, in central nervous system, prostaglandin E₂-mediated negative feedback of, in the rat, 134P
 - , stores of, of peripheral and central noradrenergic neurones, comparison of rates of depletion and recovery of, after reserpine administration, 93
 - , effect of, on β -adrenoceptors in different chambers of canine heart, 57
 - , effect of, on gastric ulceration in albino rats, 765
 - , effect of prostaglandins on vasoconstrictor effect of, in rat isolated mesenteric blood vessels, 757
 - , effect of, on binding of (–)-[³H]-dihydroalprenolol to β -adrenoceptors in BC₃H1 nonfusing muscle cell line, 731
 - , effect of, on isolated mouse anococcygeus muscle, 178P
 - , response of isolated rat atria to, effect of piperoxan mianserin, antitriptyline, ciclazindol, viloxazine, desmethylimipramine on, in isolated rat atria, 184P
 - , use of, as agonist, to obtain pA₂ value for β -adrenoceptor antagonist in isolated guinea-pig trachea and atria, 705
 - [³H]-noradrenaline, rat vas deferens preloaded with, release of tritium from in response to a single electrical shock, effect of tetraethylammonium on, 425
 - , potassium-evoked efflux of, from isolated rat heart, inhibitory effect of adenosine and adenine nucleotides on, lack of relationship to prostaglandins, 551
 - , release of, from rabbit hypothalamus, and experimental renal hypertension, 112P
 - , release of, from guinea-pig vas deferens by ethacrynic acid, 135P
 - (–)-Noradrenaline, effect of, on release of histamine from guinea-pig lung mast cells, 152P
 - , effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous vein, 139P
 - , exogenously applied, contractile responses of rat anococcygeus muscle to, effect of mianserin on, 241
 - (–)-[³H]-noradrenaline, accumulation of, in rat anococcygeus muscle, effect of mianserin on, 241
 - Noradrenergic neurones, peripheral and central, comparison of rates of depletion and recovery of noradrenaline stores of, after reserpine administration, 93
 - Noradrenergic system, role of, in changes in muscle tone evoked by endorphins in different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
 - Noradrenergic transmission, effects of mianserin on, in rat anococcygeus muscle, 241
 - Normorphine, effect of, on effect of chronic morphine treatment on excitatory junction potentials in mouse vas deferens, 399
 - , effect of, on μ -receptors and δ -receptors in guinea-pig ileum and mouse vas deferens, 333
 - Nortryptiline, effect of, on noradrenergic transmission on the rat anococcygeus muscle, 241
 - Nucleus, oestrogen receptor levels in, modulation of, by oestrogen and antioestrogen in the rat, 170P
 - Nucleus accumbens, role of, in apomorphine-induced climbing behaviour in mouse, 175P
 - , rat, evidence for dopamine receptors on GABA-releasing nerve terminals in, 160P
- O**
- Octopamine, responses of neurones of rat thalamus to, 132P
 - Oestradiol-17 β , binding of, to oestrogen receptors in the rat, effects of tamoxifen derivatives on, 171P
 - Oestradiol benzoate, effect of, on nuclear levels of oestrogen receptors in the rat, 170P
 - Oestrogen, modulation of nuclear oestrogen receptor levels by, in the rat, 170P
 - Oestrogen receptors, binding of oestradiol-17 β to, effects of tamoxifen derivatives on, in the rat, 171P
 - , nuclear levels of, modulation of, by oestrogen and antioestrogen, in the rat, 170P
 - Oestrogenic activity, of tamoxifen derivatives, in the rat, 171P
 - Olfactory cortex, guinea-pig isolated, influence of cellular transport on the interaction of amino acids with γ -aminobutyric acid receptors in, 251
 - Opiate receptors, presence of, in rabbit ileum, which are not sensitive to morphine but to enkephalins, 193
 - Opiate withdrawal, naloxone-precipitated, on single neurones in morphine-tolerant/dependent rat brain, 585
 - Opioid peptides, release of, in anaesthetized cats? 697
 - , acute effects of, on the motility and responses of rat colon to electrical stimulation, 381
 - , effects of, on electrically induced contractions of myenteric plexus-longitudinal muscle strip of rabbit ileum, 193
 - , effects of, on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
 - Org 6368, effect of, using the tibialis muscle preparation and a new experimental method for excluding liver from the general circulation by a portocaval shunt operation in anaesthetized cat, 637
 - Org 6001, comparative electrophysiological effect of, a new orally active antidysrhythmic agent, and lignocaine on human ventricular muscle, 25

- Organon NC 45**, a comparison of relaxant and autonomic effects of, and pancuronium in the pithed rat, 140P
- Oxotremorine**, effect of methysergide and cyproheptadine on core temperature changes induced by, in the rat, 168P
- Oxprenolol**, effect of, on behaviour (delayed differentiation) in monkey *Macaca mulatta*, 75
- , effect of prolonged treatment with, on heart weight and ultrastructure in young rabbits, 363
 - , interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
 - , comparison of antihypertensive response to, in intact and adrenal-medullated spontaneously hypertensive rats, 667
- (±)-**Oxprenolol**, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Oxygen**, release of, from human oxyhaemoglobin by allosteric effectors as a model for drug-receptor interaction, 741
- Oxygen consumption**, cerebral, effect of sodium salicylate on cerebral blood flow and metabolism in the baboon, 407
- , myocardial, effect of β -adrenoceptor-blocking drugs on, in the conscious dog, 373
- Oxygen content**, arteriovenous, difference in, and shunting of 15 μ m microspheres over the cranial circulation of the cat, effect of dihydroergotamine on, 186P
- Oxyhaemoglobin**, human, release of oxygen from, by allosteric effectors as a model for drug-receptor interaction, 741
- Oxytetracycline**, effect of, on metabolism of [3 H]-(±)-isoprenaline by isolated atria and coronary arteries of kitten, 499
- Oxytocin**, diuretic and antidiuretic responses to, in the rat, 154P
- , effect of, on 45 Ca movements and contractile responses in the rat isolated aorta, 153P
- Ouabain**, release of catecholamines and dopamine- β -hydroxylase evoked by in the perfused cat adrenal gland, 571
- , enhancement of the toxic effects of veratrine on guinea-pig atrium by threshold inotropic doses of, 5

P

- pA₂ values**, a study of some propranolol analogues for selective β -adrenoceptor antagonism using, on isolated trachea and atria from guinea-pig, 705
- Pancreatic islets**, isolated from non-inbred *ob/ob* mice, characteristics of 5-hydroxytryptamine transport in, 773
- Pancuronium**, affinity of, as an antagonist of carbachol, for muscarinic receptors, 141P
- , a comparison of relaxant and autonomic effects of, and its monoquaternary derivative Organon NC 45 in the pithed rat, 140P
 - , effect of, using the tibialis muscle preparation and a new experimental method for excluding liver from the general circulation by a portocaval shunt operation in anaesthetized cat, 637
- Papaverine**, effect of, on vasoconstrictor effect of nor-

- adrenaline in rat isolated mesenteric blood vessels, effects of prostaglandins on, 757
- , effect of, on vasodilation in cat submandibular gland, 485
- Parasympathetic influence**, of carbachol on local cerebral blood flow in the rabbit by a direct vasodilator action and an inhibition of the sympathetic mediated vasoconstriction, 449
- Parasympathetic nerve**, stimulation of, effect of, on vasodilation in cat submandibular gland, 485
- Parietal cell receptors**, for histamine, pK_B values for antagonists at, in mouse isolated stomach, 413
- Pentapeptides**, potentiating bradykinin, structure-activity relationships of, 156P
- Peptides**, potentiating bradykinin, structure-activity relationships of, 156P
- Perimural stimulation**, effects of cadmium ions on myogenic activity and responsiveness of rat portal vein to, 181P
- Peripheral airways**, rat, an *in vitro* study of various drugs on, a comparison with human airways, 633
- Peripheral resistance**, total, in anaesthetized dogs, effects of prostacyclin (PGI₂) and prostaglandin E₂ on, 437
- Pharmacodynamic effects**, a new method for studying relationship between hepatic uptake of drugs and their, in anaesthetized cats, 637
- Phenobarbitone**, effects of subacute treatment with, on anti-convulsant activity and withdrawal excitability in mice in electrically induced seizure threshold tests, 479
- Phenoxybenzamine**, effect of, on release of tritium from rat vas deferens after preloading with [3 H]-noradrenaline, 425
- Phentolamine**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , effect of, on effect of dopamine on adrenergic nerve stimulation in guinea-pig vas deferens, 505
 - , effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
 - , blockade of adrenaline-induced hyperglycaemia in the anaesthetized cat by continuous infusion of, and propranolol, 461
 - , effect of, on effects of endorphins on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
 - , comparison of mianserin with, on cardiac presynaptic and vascular postsynaptic α -adrenoceptors and noradrenaline reuptake in pithed normotensive rats, 321
 - , effect of, on effects of locally administered acetylcholine, bethanechol and carbachol on coronary vasoconstriction in isolated donor-perfused rat hearts, 625
 - , effect of, on effect of isoprenaline on isolated mouse anococcygeus muscle, 178P
 - , effect of, on effects of noradrenaline and carbachol on isolated mouse anococcygeus muscle, 178P
 - , effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous vein, 139P
 - , effect of, on cardiovascular effects of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydro-naphthalene after central and peripheral administration in rats, 188P
 - , cardiovascular effects of, in the conscious rabbit, 115P
 - , effect of, on effects of procaine and 4-aminopyridine on vascular smooth muscle tissues of guinea-pig, 99

- , effect of, on binding of (–)-[³H]-dihydroalprenolol to β -adrenoceptors in BC₃H1 nonfusing muscle cell line, 731
- , effect of, on noradrenergic transmission in rat anococcygeus muscle, 241
- Phenylephrine**, effect of, on cardiovascular modulation by α -adrenoceptors in rats, 185P
- , effect of, on bovine isolated bronchial artery strip, 283
- , effect of, on binding of (–)-[³H]-dihydroalprenolol to β -adrenoceptors in BC₃H1 nonfusing muscle cell line, 731
- (–)-**Phenylephrine**, effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous veins, 139P
- Phenytoin**, effects of subacute treatment with, on anticonvulsant activity and withdrawal excitability in mice in electrically induced seizure threshold tests, 479
- Phosphodiesterase inhibitors**, effects of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , cyclic nucleotides, effects of, on vasodilatation in cat submandibular gland, 485
- Phospholipase A**, lysosomal, release of, from rabbit neutrophil leucocytes, 125P
- Phosphorylase**, activity of, effects of hydralazine and verapamil on, in guinea-pig taenia coli, 275
- Phrenic nerve-diaphragm preparation**, cat, central respiratory and circulatory depression caused by saxitoxin in, 301
- Physostigmine**, effect of, on catecholamine secretory effects of ouabain perfusion in cat adrenal gland, 571
- , effect of, on gastric ulcerogenesis in albino rats, 765
- Picrotoxin**, effect of, on effects of some amino acids on potassium-induced release of [³H]-DA from rat striatal tissue, 162P
- Pilocarpine**, binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- α -NH₂-**pimelic acid**, excitatory effect of, on leech Retzius cells, compared with glutamate, 711
- Pimozide**, effect of, on response of guinea-pig isolated gastroesophageal junction to dopamine 180P
- , ability of, to antagonize stereotyped climbing and hypothermia, 172P
- (±)-**Pindolol**, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Piperoxan**, effect of, on cardiovascular modulation by spinal α -adrenoceptors in rats, 185P
- Pithed rat**, normotensive, comparison of mianserin with desipramine, maprotiline and phentolamine on cardiac presynaptic and vascular postsynaptic α -adrenoceptors and noradrenaline reuptake in, 321
- , an investigation of the effects of clonidine in, 225
- pK_B values**, estimation of, for histamine H₂-receptor antagonists using an *in vitro* acid secretion assay, in mouse isolated stomach, 413
- Plasma**, effect of 2,3-dimercaptopropane sodium sulphate (Dimaval) on concentration of gold in, in rats treated with Auro-Detoxin, 607
- , levels of clonidine in, related to time course of effects of clonidine in the pithed rat, 225
- , quantitative analysis of 6-keto-PGF_{1 α} in, by stable isotope dilution utilizing gas chromatography-mass spectrometry, 166P
- Plasma extravasation**, neurogenic, impairment of, by capsaicin in the rat, 207
- Plasma renin activity**, role of, in attenuated depressor response to arachidonic acid and prostaglandins in unclipped renal hypertensive rats, 519
- Pleurisy**, exudate from carrageenan-induced, chemotactic and chemokinetic properties of, on rat polymorphonuclear leucocytes, effect of dibutyl cyclic adenosine 3',5'-monophosphate on, 663
- Polymorphonuclear leucocytes**, rabbit, release of phospholipase A from, 125P
- Polymorphonuclear leucocytes**, rat, chemokinesis of, and the effect of cyclic adenosine 3',5'-monophosphate, 663
- , rat, failure of anti-inflammatory steroids to inhibit prostaglandin production by, 199
- Polymyxin B**, Prophylactic administration of, compromises reticuloendothelial system function and exacerbates shock mortality in rats, 19
- Portal vein**, rat, some effects of sodium nitroprusside, methoxyverapamil (D600) and nifedipine on, 311
- , rat, effects of cadmium ions on myogenic activity and responsiveness of, to perimural stimulation, noradrenaline and potassium ions, 181P
- Portocaval shunt operation**, a new experimental method for excluding liver from the general circulation by, to study the relationship between hepatic uptake of drugs and their pharmacodynamic effects in anaesthetized cat, 637
- Potassium**, effect of, on comparative electrophysiological effects of Org 6001, a new orally active antidysrhythmic agent, and lignocaine on human ventricular muscle, 25
- , role of, in release of catecholamines and dopamine- β -hydroxylase evoked by ouabain from cat adrenal gland, 571
- , efflux of [³H]-noradrenaline evoked by, from rat isolated heart, inhibitory effect of adenosine and adenine nucleotides on, lack of relationship to prostaglandins, 551
- , overflow of tritium evoked by, from rabbit hypothalamus during experimental renal hypertension, 112P
- , guinea-pig taenia coli depolarized by, role of guanosine cyclic 3',5'-monophosphate and calcium in relaxation produced by hydralazine and verapamil in, 275
- , effect of, on effects of procaine and 4-aminopyridine on vascular smooth muscle tissues of guinea-pig, 99
- ⁴²**Potassium**, uptake of, by rat soleus muscle, effect of adrenaline on, 749
- Potassium chloride**, effect of cyproheptadine on response of rat colon to, 381
- Potassium ion**, response of rat vas deferens to, effect of tetraethylammonium on, 425
- , effects of cadmium ions on myogenic activity and responsiveness of rat portal vein to, 181P
- , effect of, on isolated dog cerebral mesenteric arteries contracted by prostaglandin, effect of reserpine on, 473
- , [³H]-DA release induced by, from rat striatal tissue, effects of some amino acids on, 162P
- , effect of, on transmembrane transport of 5-hydroxytryptamine in isolated pancreatic islets of ob/ob mice, 773
- Potassium ion current**, voltage-sensitive, luteinizing

- hormone-releasing factor and muscarinic agonists act on the same in bullfrog sympathetic neurones, 353
- Practolol**, comparison of antihypertensive response to, in intact and adrenal-medullated spontaneously hypertensive rats, 667
- , interaction of, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
 - , effect of, on effect of isoprenaline on bovine isolated bronchial artery strip, 283
 - , effect of, on binding of (–)-[³H]-dihydroalprenolol to β -adrenoceptors in BC₃H1 nonfusing muscle cell line, 731
 - , effect of, on effect of neurotensin on guinea-pig atria, 83
- (±)-**Practolol**, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Prazosin**, effects of, and two of its derivatives (UK 18.596 and UK 33.274) on α -adrenoceptors in anaesthetized cats, 113P
- , effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous vein, 139P
 - , effect of, on cardiovascular effects of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydro-naphthalene after central and peripheral administration in rats, 188P
 - , effect of, on cardiovascular modulation by spinal α -adrenoceptors in rats, 185P
 - , interaction between, benzodioxan antihypertensives (R28935 and R29814): a competition for central α_1 -adrenoceptors, 138P
 - , cardiovascular effects of, in the conscious rabbit, 115P
- [³H]-**prazosin**, α -adrenoceptor binding in guinea-pig lung using, 138P
- Prednisolone**, effect of, on effect of (+)-tubocurarine on acetylcholine release at the rat neuromuscular junction, 144P
- Pressor response**, with tachycardia, effect of naloxone on, in cats anaesthetized with chloralose, effects of morphine and opioid peptides on, 697
- Procaine**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , calcium-dependent acetylcholine depolarization blocked by, in snail neurones, 235
 - , effects of, on vascular smooth muscle of guinea-pig, 99
- Progesterone receptors**, synthesis of, *in vivo*, antioestrogenic derivatives of nafoxidine stimulate, 156P
- Promethazine**, effect of, on binding of mepyramine to histamine H₁-receptors in rat and guinea-pig brain, 687
- Propylbenzilylcholine**, binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- Propranolol**, effects of, on baroreceptor reflex sensitivity in the conscious spontaneously hypertensive rat, 109P
- , effect of, on behaviour (delayed differentiation) in monkey *Macaca mulatta*, 75
 - , effect of, on effect of adrenaline on Na-K-transport in rat soleus muscle, 749
 - , effect of, on binding of (–)-[³H]-dihydroalprenolol to β -adrenoceptors in BC₃H1 nonfusing muscle cell line, 731
 - , effect of, on effect of isoprenaline on bovine isolated bronchial artery strip, 283
 - , (–) and (+), effect of on L-tryptophan and L-DOPA induced behavioural syndromes in mice, 176P
 - , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
 - , effect of prolonged treatment with, on heart weight and ultrastructure in young rabbits, 363
 - , comparison of bronchoconstrictor and β -adrenoceptor-blocking activity of, and acebutalol in the rat, 196
 - , further evidence for an interaction between, and the central 5-hydroxytryptamine receptor, 173P
 - , acute haemodynamic effects of, in the spontaneously hypertensive rat, 110P
 - , inferior cardiac nerve activity in the cat during superfusion of the vascularly isolated carotid sinus with, 779
 - , effect of, on gastric ulcerogenesis in albino rats, 765
 - , effect of, on effects of endorphins on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
 - , blockade of adrenaline-induced hyperglycaemia in the anaesthetized cat by continuous infusion of, and phen-tolamine, 461
 - , effect of, on response of dog isolated vasculature to 5-hydroxytryptamine, 215
 - , effect of, on left ventricular function and coronary haemodynamics in the conscious dog with myocardial ischaemia, 373
 - , effect of, on β -adrenoceptors in rat hearts, 8
 - , effect of, on effect of acetylcholine on twitch response of guinea-pig ileum to electrical transmural stimulation, 289
 - , (+) and (–), comparison of antihypertensive response to, in intact and adrenal-medullated spontaneously hypertensive rats, 667
- (±)-**Propranolol**, pharmacological and binding assays for, in rat lung and heart membrane preparations, 563
- Propranolol analogues**, a study of, for selective β -adrenoceptor antagonism using *pA*₂ values on isolated trachea and atria from guinea-pig, 705
- Prostacyclin**, (PGI₂), some direct and reflex cardiovascular actions of, in anaesthetized dogs, 437
- , biosynthesis of dipyridamole as a potent stimulator of, in rat stomach fundus, 71
- Prostaglandin receptor**, are there two types of, mediating vasodilatation in the dog?, 114P
- Prostaglandin synthesis**, hydrocortisone-induced inhibitor of, in rat leucocytes, 14
- , inhibitors of, effects of, on response of cerebral circulation to hypercapnia, 407
 - , inhibitors of, therapeutic advantages of, 357
 - , role of phospholipase A in, 125P
- Prostaglandin E₁**, effect of, on bovine isolated bronchial artery strip, 283
- , secretion stimulated by, in rat jejunum *in vivo*, inhibition by morphine of, 513
- Prostaglandin E₂**, some direct and reflex cardiovascular actions of, in anaesthetized dogs, 437
- , effect of, on bovine isolated bronchial artery strip, 283
 - , negative feedback of noradrenaline overflow mediated by, in the central nervous system, in the rat, 134P
- Prostaglandin F_{1 α}** , 6-keto, quantitative analysis of, in bio-

- logical fluids by stable isotope dilution utilizing gas chromatography-mass spectrometry, 166P
- Prostaglandin F_{2α}**, effect of, on effects of 5-hydroxytryptophol, a metabolite of 5-hydroxytryptamine, on isolated cerebral arteries of the dog, dog, 17
- , effect of, on isolated dog cerebral and mesenteric arteries, effect of reserpine on, 473
- , effect of, on bovine isolated bronchial artery strip, 283
- Prostaglandin H₂**, compared with thromboxane A₂ and U-46619 for effects on isolated smooth muscle preparations, 127P
- Prostaglandin I₂**, biosynthesis of, dipyridamole as a potent stimulator of, in rat stomach fundus, 71
- Prostaglandins**, production of, failure of anti-inflammatory steroids to inhibit, by rat polymorphonuclear leucocytes, 199
- , comparison of various, on the *in vitro* longitudinal uterine smooth muscle of the rat and guinea-pig, 150P
- , a possible negative feedback control of excitatory transmission via, in canine small intestine, 393
- , attenuated depressor response to, in unclipped renal hypertensive rats, 519
- , contractile and relaxant actions of, on guinea-pig isolated trachea, 533
- , lack of relationship of, to inhibitory effect of adenosine and adenine nucleotides on potassium-evoked efflux of [³H]-noradrenaline from the rat isolated heart, 551
- , comparison of effects of, on central and peripheral airways of rat and man *in vitro*, 633
- , formation of, in guinea-pig isolated lungs, effect of carbachol, atropine and ipratropium bromide on, 467
- , contraction in isolated dog cerebral and mesenteric arteries produced by, effects of reserpine on effects of isoprenaline, acetylcholine and potassium ion on, 473
- , action of, in guinea-pig and human alimentary muscle, antagonism of, by fenamates, 357
- , action, release and inactivation of, by rat isolated perfused mesenteric blood vessels, 757
- , synthesis, inactivation and actions of, on rat gastrointestinal smooth muscle, effects of sulphasalazine and its metabolites of, 719
- Pulmonary artery**, guinea-pig, membrane and contractile properties of smooth muscle cells of, effects of 4-aminopyridine and procaine on, 99
- , rabbit, sympathetic neurones in, modulation by the muscarinic agonist McN-A-343 of noradrenaline release from, 136P
- Purine compounds**, effects of, on nerve-mediated vasodilatation in the cat submandibular gland, 485
- [¹⁴C]-pyridine, species variation in *N*-methylation and quaternization of, *in vivo*, 119P
- 2-Pyridylethylamine**, effect of, on cardiovascular system in cat and dog, 187P
- Q**
- Quaternization**, species variation in, of [¹⁴C]-pyridine *in vivo*, 119P
- Quinine**, effect of, on vasodilation in cat submandibular gland, 485
- 3-Quinuclidinylbenzilate**, binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- Quipazine**, antagonism by, of 5-hydroxytryptamine receptors in rabbit isolated superior cervical ganglion and in rat isolated spinal cord and stomach strip, 525
- Quisqualic acid**, excitatory effect of, on leech Retzius cells, compared with glutamate, 711
- R**
- R0363**, *in vitro* activity of, a β₁-adrenoceptor selective agonist, 677
- R28935**, interaction between, and R29814, (prazosin and benzodioxan antihypertensives), competition for central α₁-adrenoceptors, 138P
- R29814**, interaction between, and R28935, (prazosin and benzodioxan antihypertensives), competition for central α₁-adrenoceptors, 138P
- δ-Receptors**, in guinea-pig ileum and mouse vas deferens, effects of changes in the structure of enkephalins and of narcotic analgesics on their interactions with, 333
- μ-Receptors**, in guinea-pig ileum and mouse vas deferens, effects of changes in the structure of enkephalins and of narcotic analgesics on their interactions with, 333
- Rectum**, rat and guinea-pig, effects of endorphins on muscle tone in, *in vitro*, 599
- Relaxant effects**, of pancuronium and its monoquaternary derivative Organon NC 45 in the pithed rat, 140P
- Renal hypertension**, conscious rabbits with, regional haemodynamic changes evoked by isoprenaline in, 116P
- , experimental, and [³H]-noradrenaline release from rabbit hypothalamus: enhanced potassium-evoked overflow of tritium and lack of facilitation through presynaptic angiotensin II receptors, 112P
- , unclipped, rats with, attenuated depressor response to arachidonic acid and prostaglandins in, 519
- Reserpine**, administration of, comparison of rates of depletion and recovery of noradrenaline stores of peripheral and central noradrenergic neurones after, 93
- , dogs treated with, responsiveness to vasoactive agents of cerebral and mesenteric arteries isolated from, 473
- , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- , pretreatment with, effect of, on effects of locally administered acetylcholine, carbachol and bethanechol on coronary vasoconstriction in isolated donor-perfused rat hearts, 625
- Respiratory depression**, central, caused by intravascular saxitoxin in the cat, 301
- Reticuloendothelial system**, function of, prophylactic administration of antibiotics compromises, in rats, 19
- Retzius neurones**, leech, structure-activity studies on an excitatory receptor for glutamate on, 711
- **Rubidium**, transmembrane efflux of, of the BC₃H1 non-fusing muscle cell line, relationship between the (–)[³H]-dihydroalprenolol binding to β-adrenoceptors and, 731
- S**
- Salbutamol**, effect of, on Na-K-transport in rat soleus muscle, 749

- , effect of, on nerve-induced contractions of rat bisected vas deferens, 179P
- , effect of, on bovine isolated bronchial artery strip, 283
- (±) **Salbutamol**, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Salicylate**, sodium, effect of, on cerebral blood flow and metabolism in the baboon, 407
- Salivary gland**, rat, noradrenaline stores in, effect of reserpine on, 93
- Salivary responses**, pharmacological analysis of, to histamine of the submandibular gland of the dog, 651
- Salivation**, in submandibular gland of dog, pharmacological analysis of, as a response to histamine, 651
- Saphenous nerve**, concentration of substance P in, effect of capsaicin on, in rat, 207
- Saphenous vein**, dog isolated, evidence for two types of excitatory receptor for 5-hydroxytryptamine in, 215
- Saphenous veins**, dog isolated, effects of α -adrenoceptor agonists and antagonists on adrenergic neurotransmitter overflow from, 139P
- Saxitoxin**, intravascular, central respiratory and circulatory depression caused by, in the cat, 301
- Scopolamine**, binding of, to muscarinic receptors in rat brain, effects of *p*-chloromercuribenzoate on, 142P
- Sedative properties**, of α -adrenoceptor agonists, relation to pre- and post-synaptic stimulation, 107P
- Seizure threshold tests**, effects of subacute treatment with cannabidiol, Δ^9 -tetrahydrocannabinol, phenytoin and phenobarbitone on anticonvulsant activity and withdrawal excitability in mice in, 479
- Sensory nerves**, rat, concentration of substance P in, effect of capsaicin on, 207
- Septal region**, of brain, glucose utilization in, in kindled rats during convulsions, 133P
- Shock mortality**, in rats, prophylactic administration of antibiotics exacerbates, 19
- Sinus nerves**, tying of, effect of, on effect of naloxone on blood pressure in cats anaesthetized with chloralose, 697
- Skeletal muscle**, frog, kinetic effects of tubocurarine on, at high agonist concentrations, 143P
- Skin**, effect of 2,3-dimercaptopropane sodium sulphonate (Dimaval) on concentration of gold in, in rats treated with Auro-Detoxin, 607
- , guinea-pig, metabolism and toxicity of acrylates and methacrylates in, 165P
- , rat, concentration of substance P in, effect of capsaicin on, 207
- Skin slices**, guinea-pig, determination of lymphokine-induced histamine release in, 124P
- Slow reacting substance of anaphylaxis**, on the preparation of highly purified, from biological extracts, 33
- , effect of, on bovine isolated bronchial artery strip, 283
- , promotion by, of release of thromboxane A_2 from isolated guinea-pig lungs, effect of atropine on, 467
- Small intestine**, canine, a possible negative feedback control of excitatory transmission via prostaglandins in, 393
- Smooth muscle**, isolated preparations of, effects of prostaglandin H_2 , thromboxane A_2 and U-46619 on, 127P
- , arterial, parasympathetic influence of carbachol on local cerebral blood flow in rabbit by a direct action on, and an inhibition of the sympathetic mediated vasoconstriction, 449
- , longitudinal, of rat and guinea-pig isolated uterus, comparison of various prostaglandins on, 150P
- , mouse vas deferens, effect of chronic morphine treatment on excitatory junction potentials in, 399
- , rat gastrointestinal, effects of sulphasalazine and its metabolites on prostaglandin synthesis, inactivation and actions on, 719
- , rat intestinal, ligand binding properties of histamine H_1 -receptors in, compared with brain, 687
- , rat isolated, therapeutic concentrations of diazepam potentiate the effects of adenosine on, 148P
- , vascular, dose-dependent nature of the interaction of fibrinogen degradation products and 5-hydroxytryptamine on, 151P
- , vascular, direct relaxation of, as a component of hypotension induced by prostacyclin (PGI_2) in anaesthetized dogs, 437
- , vascular, of guinea-pig, actions of 4-aminopyridine on, 99
- Snail neurones**, a calcium-dependent acetylcholine depolarization blocked by methoxyverapamil (D600) and procaine in, 235
- Sodium**, effect of, on effect of calcium on release of catecholamines and dopamine- β -hydroxylase evoked by ouabain from perfused cat adrenal gland, 571
- ²²**Sodium**, efflux of, from rat soleus muscle, effect of adrenaline on, 749
- Sodium borohydride**, effect of, on activity of slow reacting substance of anaphylaxis, 33
- Sodium ion**, flux of, from saline perfused through ileal lumen of dog, effects of morphine on, 617
- , effect of, on transmembrane transport of 5-hydroxytryptamine in isolated pancreatic islets of ob/ob mice, 773
- Sodium nitroprusside**, some effects of, on rat portal vein, 311
- , cardiovascular effects of, in anaesthetized dogs, 437
- Sodium-potassium-transport**, active electrogenic, in rat soleus muscle, β_2 -adrenoceptors mediate stimulating effect of adrenaline on, 749
- Sodium salicylate**, effect of, on cerebral blood flow and metabolism in baboon, 407
- Sodium valproate**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P
- , anti-epileptic properties of, in rat amygdaloid kindling, 134P
- Soleus muscle**, rat, β_2 -adrenoceptors mediate the stimulating effect of adrenaline on active electrogenic Na-K-transport in, 749
- , rat, inhibition of acetylcholine receptor in, by histriocytotoxin, 611
- Somatostatin**, effect of, on effect of neurotensin on rat stomach strips, 83
- , effect of, on neurogenic plasma extravasation in the rat, 207
- Sotalol**, effect of, on behaviour (delayed differentiation) in monkey *Macaca mulatta*, 75
- (±) **Sotalol**, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Spasmogenic effects**, of β -lipotropin, on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599

- Spasmolytic effects**, of β -lipotropin, on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
- Spinal cord**, rat, investigations into role of α -adrenoceptors in, in cardiovascular modulation, 185P
- , rat isolated, 5-hydroxytryptamine receptors in, antagonism by quipazine, 525
- , cat thoracic, catecholamine receptors in, 136P
- Spinal transection**, effect of, on gastric ulcerogenesis in albino rats, 765
- Spiroperidol**, effect of, on response of guinea-pig isolated gastroesophageal junction to dopamine, 180P
- , ability of, to antagonize stereotyped climbing and hypothermia, 172P
- Spontaneous hypertension**, rats with, comparison of antihypertensive response to β -adrenoceptor-blocking drugs in intact rats and, 667
- Stellate ganglia**, removal of, effect of, on effect of naloxone on blood pressure in cats anaesthetized with chloralose, 697
- Stereotaxic implantation**, of cannulae for subsequent drug administration into third ventricles of conscious mice, 189P
- Steroids**, anti-inflammatory, failure of, to inhibit prostaglandin production by rat polymorphonuclear leucocytes, 199
- Stomach**, mouse isolated, estimation of pK_B values for histamine H_2 -receptor antagonists using an *in vitro* acid secretion assay in, 413
- , strips of rat, stimulatory effects of neurotensin and related peptides in, 83
- Stomach fundus**, rat, dipyrindamole as a potent stimulator of prostacyclin biosynthesis in, 71
- Stomach strip**, rat isolated, 5-hydroxytryptamine receptors in, antagonism by quipazine, 525
- Stress**, gastric ulceration induced by, in albino rats, study of central neurotransmitters in, 765
- , associated with surgical procedures in cats anaesthetized with chloralose, 697
- Striatal tissue**, rat, effects of some amino acids on potassium-induced [3H]-DA from, 162P
- Striatum**, rat, morphine-tolerant/dependent, demonstration of naloxone-precipitated opiate withdrawal on single neurones in, 585
- , role of, in apomorphine-induced climbing behaviour in mouse, 175P
- Strychnine**, effect of, on effects of some amino acids on potassium-induced release of [3H]-DA from rat striatal tissue, 162P
- Submandibular gland**, cat, role of cyclic nucleotides and related compounds in nerve-mediated vasodilation in, 485
- , dog, pharmacological analysis of salivary and blood flow responses to histamine of, 651
- Substance P**, decrease of, in primary afferent neurones and impairment of neurogenic plasma extravasation by capsaicin in the rat, 207
- , effect of, on effect of neurotensin on rat stomach strips and guinea-pig atria, 83
- Substantia nigra**, glucose utilization in, in kindled rats during convulsions, 133P
- Sulphapyridine**, a metabolite of sulphasalazine, effect of, on prostaglandin synthesis, inactivation and actions on rat gastrointestinal smooth muscle, 719
- Sulphasalazine**, effects of, and its metabolites on prostaglandin synthesis, inactivation and actions on gastrointestinal smooth muscle of rat, 719
- Sulphur**, identification of two urinary metabolites of cinnamic aldehyde containing, in the rat, 165P
- Sulpiride**, ability of, to antagonize stereotyped climbing and hypothermia, 172P
- Superior cervical ganglion**, rabbit isolated, 5-hydroxytryptamine receptors in, antagonism by quipazine, 525
- , rat, noradrenaline stores in, effect of reserpine on, 93
- Superior colliculus**, glucose utilization in, in kindled rats during convulsions, 133P
- Surgical procedures**, stress associated with, in cats anaesthetized with chloralose, 697
- Sympathetic activity**, effect of, on vasomotor responses to methysergide in the femoral arterial bed of the anaesthetized dog, 113P
- Sympathetic nerve**, stimulation of, effect of, on vasodilation in cat submandibular gland, 485
- , responses of pithed rat mediated by, time course of effects of clonidine on, 225
- Sympathetic neurones**, in rabbit pulmonary artery, modulation by the muscarinic agonist McN-A-343 of noradrenaline release from, 136P
- , bullfrog, luteinizing hormone-releasing factor and muscarinic agonists act on the same voltage-sensitive K^+ -current in, 353
- Sympathetic vasoconstriction**, parasympathetic influence of carbachol on local cerebral blood flow in the rabbit by a direct vasodilator action and, 449

T

- Tachycardia**, pressor response with, effect of naloxone on, in cats anaesthetized with chloralose, effects of morphine and opiod peptides on, 697
- Tachyphylaxis**, of salivary and blood flow responses to histamine in the submandibular gland of the dog, 651
- Taenia coli**, guinea-pig, effects of hydralazine and verapamil on phosphorylase activity and guanosine cyclic 3',5'-monophosphate levels in, 275
- Tail skin temperature**, effect of histamine on, in the conscious restrained rat, 145P
- Tamoxifen**, effect of, on nuclear levels of oestrogen receptors in the rat, 170P
- , reduced antioestrogenic activity in derivatives of, unable to undergo metabolic *p*-hydroxylation, 171P
- Taurine**, effect of, on potassium-induced release of [3H]-DA from rat striatal tissue, 162P
- Temperature**, core and tail skin, effects of histamine on, in the conscious restrained rat, 145P
- Terbutaline**, pharmacological and binding assays for, in rat heart and lung membrane preparations, 563
- Tetraethylammonium**, effect of, on effect of reserpine on noradrenaline stores of peripheral and central noradrenergic neurones in rat, 93
- , effect of, on release of tritium from rat vas deferens preloaded with [3H]-noradrenaline in response to a single electrical shock, 425
- Δ^9 -Tetrahydrocannabinol**, effects of subacute treatment with, on anticonvulsant activity and withdrawal excitability in mice in electrically induced threshold seizure tests, 479

- Tetrodotoxin**, effect of, on effect of field stimulation on isolated mouse anococcygeus muscle, 178P
- , effect of, on salivary and blood flow responses of submandibular gland of dog to electrical stimulation of chorda-lingual nerve, 651
 - , effect of, on effects of endorphins on different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
 - , effect of, on effect of tetraethylammonium on response of rat vas deferens to potassium ion, 425
 - , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- Thalamus**, rat, neurones in, octopamine responses of, 132P
- Theophylline**, effect of, on vasodilatation in cat submandibular gland, 485
- , effect of, on effects of adenosine and adenine nucleotides on potassium-evoked [³H]-noradrenaline from the rat isolated heart, 551
 - , effect of, on secretion and cyclic adenosine 3',5'-monophosphate formation in rat jejunum *in vivo*, 513
 - , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- Thermoregulation**, dopaminergic, demonstration of a 5-HT link in, in the rat, 162P
- Thioridazine**, ability of, to antagonize stereotyped climbing and hypothermia, 172P
- Thoracic spinal cord**, cat, catecholamine receptors in, 136P
- Thromboxane A₂**, generation of, in isolated lungs of the guinea-pig, atropine inhibits, 467
- , does U-46619 act like, as a selective agonist?, 172P
- Thymoxamine**, effect of, on cardiovascular modulation by spinal adrenoceptors in rats, 185P
- , effect of, on cardiovascular effects of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydro naphthalene after central and peripheral administration in rats, 188P
 - , effect of, on effect of acetylcholine on twitch response of guinea-pig ileum to electrical transmural stimulation, 289
- Tibialis muscle preparation**, use of, to study hepatic uptake of pancuronium and Org 6368 and their pharmacodynamic effects in anaesthetized cat with a new experimental method for excluding liver from the general circulation by a portocaval shunt operation, 637
- Timolol**, comparison of antihypertensive response to, in intact and adrenal-medullated spontaneously hypertensive rats, 667
- Tofenacine**, binding of, to rat brain muscarinic acetylcholine receptors, 541
- Tolazoline**, effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
- Trachea**, guinea-pig isolated, contractile and relaxant actions of prostaglandins on, 533
- , guinea-pig isolated, activity of R0363, a β_1 -adrenoceptor selective agonist, and (–)-isoprenaline in, 677
 - , guinea-pig isolated, a study of some propranolol analogues for selective β -adrenoceptor antagonism using pA₂ values on, 705
 - , rat, comparison of effects of various drugs on, with human bronchial muscle *in vitro*, 633
- Tracheal musculature**, dog, differential effects of calcium-antagonistic vasodilators nifedipine and verapamil on, 595
- Tracheal vasculature**, dog, differential effects of calcium-antagonistic vasodilators nifedipine and verapamil on, 595
- Transient neutropenia**, a model of, in the rat, 167P
- Transmural neural stimulation**, effect of, on isolated dog cerebral and mesenteric arteries, effect of reserpine on, 473
- Transmural stimulation**, effects of phenoxybenzamine and tetraethylammonium on release of tritium from rat vas deferens, preloaded with [³H]-noradrenaline, in response to, 425
- Tricyclic antidepressants**, mianserin and nortriptyline, effects of, on noradrenergic transmission in rat anococcygeus muscle, 241
- Trifluoperazine**, effects of six months administration of, to rats, on brain dopamine receptor function, 163P
- Trimethylammonium**, depolarizations in rabbit superior cervical ganglion induced by, effect of quipazine on, 525
- Tryptamine, interaction of**, with the central 5-hydroxytryptamine receptor and the LSD receptor, 173P
- Tryptaminergic system**, role of, in changes in muscle tone in different parts of rat and guinea-pig gastrointestinal tract *in vitro*, 599
- Tryptophan**, load, metabolism of, in rat brain, enhancement of, by chronic ethanol administration, 22
- L-Tryptophan**, behavioural syndromes induced by, in mice, role of β -adrenoceptor antagonists in, 176P
- Tubocurarine**, kinetic effects of, on frog skeletal muscle at high agonist concentrations, 143P
- (+)-Tubocurarine**, effect of, on effect of dexamethasone at rat neuromuscular junction, 144P
- , effect of, on effects of glucocorticoids on acetylcholine release at the rat neuromuscular junction, 144P
 - , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381
 - , effect of, on isolated mouse anococcygeus muscle, 178P
- Tyramine**, contractile responses of rat anococcygeus muscle to, effect of mianserin on, 241
- , effect of, on dog isolated cerebral and mesenteric arteries, effect of reserpine on, 473
 - , cardiovascular effects of, in pithed normotensive rats, effects of mianserin, desipramine, maprotiline and phentolamine on, 321
 - , effect of, on acute effects of morphine and opioid peptides on motility and responses of rat colon to electrical stimulation, 381

U

- U-0521**, effect of, on metabolism of [³H]-(±)-isoprenaline by isolated atria and coronary arteries of kitten, 499
- UK 18.596**, effect of, on α -adrenoceptors in anaesthetized cats, 113P
- UK 33.274**, effect of, on α -adrenoceptors in anaesthetized cats, 113P

- U-46619**, a selective thromboxane A₂-like agonist?, 127P
- , an endoperoxide analogue, effect of, on effect of indomethacin on vaso-constrictor effect of noradrenaline in rat isolated mesenteric blood vessels, 757
- , effect of, on noradrenaline overflow in rat central nervous system, 134P
- Ulceration**, gastric, stress-induced, in albino rats, study of central neurotransmitters in, 765
- Uterine strip**, guinea-pig isolated, activity of R0363, a β_1 -adrenoceptor selective agonist, and (–)-isoprenaline in, 677
- Uterus**, rat and guinea-pig isolated, longitudinal smooth muscle of, comparison of various prostaglandins on, 150P
- V**
- Vagi**, cutting of, effect of, on effect of naloxone on blood pressure in cats anaesthetized with chloralose, 697
- Vagotomy**, effect of, on cardiovascular effects of prostacyclin (PGI₂) and prostaglandin E₂ in anaesthetized dogs, 437
- , effect of, on gastric ulcerogenesis in albino rats, 765
- Vagus nerve**, concentration of substance P in, effect of capsaicin on, in rat, 207
- Vagus pathway**, role of, in bradycardia induced by prostacyclin (PGI₂) in anaesthetized dogs, 437
- Vas deferens**, guinea-pig, release of [³H]-noradrenaline from, by ethacrynic acid, 135P
- , rat, noradrenaline stores in, effect of reserpine on, 93
- , rat bisected, a comparison of the effects of agonist drugs on nerve-induced contractions of the, 179P
- , rat isolated, effect of verapamil on rhythmic contractions in, 182P
- , mouse, effects of changes in the structure of enkephalins and of narcotic analgesic drugs on their interaction with μ - and δ -receptors in, 333
- , rat, release of tritium from, in response to a single electrical shock after preloading with [³H]-noradrenaline, effect of tetraethylammonium on, 425
- , isometric tension response in, in pithed rat, time course of effects of clonidine on, 225
- , guinea-pig, effects of dopamine on adrenergic neuromuscular transmission in, 505
- , mouse, effect of chronic morphine treatment of excitatory junction potentials in, 399
- , isolated rat smooth muscle from, therapeutic concentrations of diazepam potentiate the effects of adenosine on, 148P
- , mouse isolated, histamine H₂-receptor antagonists in, 149P
- Vascular postsynaptic α -adrenoceptors**, in pithed normotensive rats, comparison of mianserin with desipramine, maprotiline and phentolamine on, 321
- Vascular smooth muscle**, guinea-pig, actions of 4-aminopyridine on, 99
- , various preparations of, dose-dependent nature of the interaction of fibrinogen degradation products and 5-hydroxytryptamine on, 151P
- Vasculature**, dog isolated, evidence for two types of excitatory receptor for 5-hydroxytryptamine in, 215
- Vasoactive agents**, responsiveness to, of cerebral and mesenteric arteries isolated from control and reserpine-treated dogs, 473
- Vasoconstriction**, coronary, by locally administered acetylcholine, carbachol and bethanechol in isolated donor-perfused rat hearts, 625
- , sympathetic mediated, parasympathetic influence of carbachol on local cerebral blood flow in the rabbit by a direct vasodilator action and an inhibition of, 449
- , 5-hydroxytryptamine-induced, evidence for two types of receptor mediating, in dog isolated vasculature, 215
- Vasoconstrictor effect**, of noradrenaline, in rat isolated mesenteric blood vessels, effects of prostaglandins on, 757
- Vasoconstrictor responses**, of the mesenteric arterial vasculature from the chicken and the duckling to nervous stimulation and to noradrenaline, a comparison *in vitro*, 263
- Vasodilators**, antagonistic to calcium, nifedipine and verapamil, differential effects of, on tracheal musculature and vasculature of the dog, 595
- Vasodilator action**, direct, parasympathetic influence of carbachol on local cerebral blood flow in the rabbit by, and an inhibition of sympathetic mediated vasoconstriction, 449
- Vasodilatation**, in the dog, are there two types of prostaglandin receptor mediating, 114P
- , nerve-mediated, in the cat submandibular gland, role of cyclic nucleotides and related compounds in, 485
- , reflex non-cholinergic, as a component of hypotension induced by prostacyclin (PGI₂) in anaesthetized dogs, 437
- Vasomotor responses**, effect of sympathetic activity on, to methysergide in the femoral arterial bed of the anaesthetized dog, 113P
- Vasopressin**, similarity of effects of, to oxytocin in the rat, 154P
- Ventricle**, canine, distribution and function of β -adrenoceptors in, 57
- Ventricle strips**, rat, guinea-pig and rabbit isolated, activity of R0363, a β_1 -adrenoceptor selective agonist, and (–)-isoprenaline in, 677
- Ventricles**, third, of conscious mice, stereotaxic implantation of cannulae for subsequent administration of drugs into, 189P
- Ventricular muscle**, human, comparative electrophysiological effects of Org 6001, a new orally active antidysrhythmic agent, and lignocaine on, 25
- Verapamil**, effects of, on phosphorylase activity and guanosine cyclic 3',5'-monophosphate levels in guinea-pig taenia coli, 275
- , effect of, on rhythmic contractions in isolated rat vasa deferentia, 182P
- , a calcium-antagonistic vasodilator, effect of, on tracheal musculature and vasculature of the dog, 595
- Veratrine**, enhancement of toxic effects of, on guinea-pig atrium by threshold inotropic doses of ouabain, 5
- Viloxazine**, effect of, on presynaptic α -receptors in isolated rat atria, 184P
- , binding of, to rat brain muscarinic acetylcholine receptors, 541
- γ -Vinyl- γ -aminobutyric acid**, effect of intravenous bicuculline in mice on *in vivo* evaluation of, 177P

- , an irreversible inhibitor of GABA-transaminase, induction of analgesia and morphine potentiation by,

W

- Water**, flux of, from saline perfused through ileal lumen of dog, effects of morphine on, 617
- Withdrawal excitability**, effects of sub-acute cannabinoid treatment on in mice in electrically induced threshold seizure tests, 479
- Wy 17186**, effect of, on guinea-pig isolated trachea, 533

Y

- Yohimbine**, effect of, on cardiovascular effects of some *N,N*-dialkylated derivatives of 2-amino-5,6-dihydro

naphthalene after central and peripheral administration in rats, 188P

- , effect of, on gastric ulcerogenesis in albino rats, 765
- , effect of, on cardiovascular modulation by spinal α -adrenoceptors in rats, 185P
- , cardiovascular effects of, in the conscious rabbit, 115P
- , effect of, on adrenergic neurotransmitter overflow from dog isolated saphenous veins, 139P

Z

- Zymosan**, serum activated by, effect of administration of, on release of Ca^{2+} in rat neutrophils, 167P
- Zymosan complement**, phagocytosis of, release of lysosomal phospholipase A from rabbit neutrophil leucocytes during, 125P
