

# INDEX TO VOLUME 74

## AUTHOR INDEX

### A

- ABDULLAH, F.M., FRENCH, A.M. & SCOTT, N.C. A comparison of histamine receptor distribution in atria from rats and guinea-pig, 937P
- ABRAHAMSEN, J. & NEDERGAARD, O.A. Effect of chlorpromazine on adrenergic neuroeffect or transmission in isolated blood vessels, 943P
- AHMAD, A.B., BENNETT, P.N. & ROWLAND, M. The influence of varying hepatic arterial flow contribution to the rat perfused liver on systemic availability of lignocaine, 244P
- AHTEE, LIISA & ATILA, L.M.J. Changes in limbic and striatal dopamine in rats treated with morphine for 40 and 60 days, 900P
- AINSWORTH, GILLIAN A., GARLAND, L.G. & PAYNE, A.N. Modulation of bronchoconstrictor responses to histamine in pithed guinea-pigs by sympathetic nerve stimulation, 855P
- AKAIKE, N., BROWN, A.M., NISHI, K. & TSUDA, Y. Actions of verapamil, diltiazem and other divalent cations on the calcium-current of *Helix* neurones, 87
- AKASU, T., HIRAI, K. & KONETSU, K. Increase of acetylcholine-receptor sensitivity by adenosine triphosphate: a novel action of ATP on ACh-sensitivity, 505
- AKHTAR-KHAVARI, FARZANEH, KHOYI, M.A. & REZAEI, EFFAT. Effects of amiloride on contractions and the release of tritium from rat vas deferens preloaded with [<sup>3</sup>H]-noradrenaline, 123
- AKHTAR-KHAVARI, FARZANEH, KHOYI, M.A. & REZAEI, EFFAT. Effects of guanidine, guanethidine and tetrodotoxin on the outflow of tritium from rat vas deferens preloaded with [<sup>3</sup>H]-noradrenaline, 863P
- AKPAFFIONG, M.J., REDFERN, P.H. & WOODWARD, B. Dopamine-induced natriuresis – an effect mediated via the adrenal gland, 304P
- AL-DAHAN, MUNA & THOMAS, P.J. The binding of [<sup>3</sup>H]-scopolamine to the brains of male and of female rats: the effects of ovariectomy versus the proestrous stage of the sexual cycle, 866P
- AL-HABOUBI, H.A. & ZEITLIN, I.J. The role of H<sub>1</sub>- and H<sub>2</sub>- receptors in histamine-induced rat paw oedema, 977P
- ALDINI, RITA, BARBARA, LUIGI, BENELLI, AUGUSTA, BORZATTA, VALERIO, GEMINIANI, STEFANIA, MASCELLANI, GUISEPPE, MORSELLI, ANTONIO, RODA, ALDO & RODA, ENRICO. Effects of a salt of cholestyramine and 2-[4-(*p*-chlorobenzoyl) phenoxy] 2-methyl propionic acid ( $\alpha$ -1081) on biliary lipid secretion in rats, 611
- ALSEN, C., HARRIS, J.B. & TESSERAUX, I. Mechanical and electrophysiological effects of sea anemone (*Anemonia sulcata*) toxins on rat innervated and denervated skeletal muscle, 61
- AMIT, T., BEN-HARARI, R.R. & YODIM, M.B.H. The presence and auto-regulation of prolactin receptor in the lung. Its significance, 955P
- ALTURA, BURTON, M. & CHAND, NARESH. Bradykinin-induced relaxation of renal and pulmonary arteries is dependent upon intact endothelial cells, 10
- ANDERSON, A.A., FOULKES, R., GOADBY, P., HOOPER, M. & THONOR, M. Cardiac effects of a series of 1-substituted dihydroiso-quinoline derivatives, 938P
- ANDERSSON, PER & BERGSTRAND, HÅKAN. Antigen-induced bronchial anaphylaxis in actively sensitized guinea-pigs: effect of long term treatment with sodium cromoglycate and aminophylline, 601
- ANDREWS, C.D. & CURZON, G. Relationships between behavioural and *in vivo* voltammetric responses to dopamine and 5-hydroxytryptamine releasers, 908P
- ANDREWS, C.D., CURZON, G. & FERNANDO, J.C.R. 5-Hydroxytryptamine-dependent behaviours induced by (+)-amphetamine have different relationships with dopamine, 213P
- ANTONELLI, T., BEANI, L., BIANCHI, C., PEDATA, F. & PEPEU, G. Changes in synaptosomal high affinity choline uptake following electrical stimulation of guinea-pig cortical slices: effect of atropine and physostigmine, 525
- ARBILLA, SONIA, GALZIN, ANNE-MARIE, LANGER, S.Z. & NOWAK, J.Z. Supersensitivity of central dopamine autoreceptors following chronic haloperidol treatment in the rabbit, 901P
- ARBILLA, SONIA, KAMAL, LINDA, A. & LANGER, S.Z. Inhibition by apomorphine of the potassium-evoked release of [<sup>3</sup>H]- $\gamma$ -aminobutyric acid from the rat substantia nigra *in vitro*, 389
- ARBILLA, SONIA, LANGER, S.Z. & LEHMANN, J. Dopamine autoreceptors inhibiting [<sup>3</sup>H]-dopamine release in the caudate nucleus of the cat: evidence for a role of endogenously released dopamine, 226P
- ARBILLA, SONIA, LANGER, S.Z. & MAURIN, Y.  $\alpha$ -Adrenoceptor binding and autoregulation of noradrenaline release in the brain of a convulsive mutant mouse, 233P
- ARCHER, D.M. (introduced by FOY, J.M.) *Hymenolepis microstoma* in a screening test for anthelmintics, 311P
- ARMSTRONG, J.M. Urethane attenuates pressor responses produced by  $\alpha$ -adrenoceptor agonists and some other vasoconstrictor agents in pithed rats, 826P
- ARMSTRONG, ROMA, A., JONES, R.L., PEESAPATI, V. & WILSON, N.H. Effect of the thromboxane antagonist EP045 on arachidonic acid responses in the rabbit, guinea-pig and sheep, 790P
- ARMSTRONG-JAMES, M., FOX, K., KRUK, Z.L. & MILLAR, J. Electrochemical detection of dopamine agonists, 224P

- ASHKENAZI, R., BEN-SHACHAR, D. & YODIM, M.B.H. Dopamine receptors and dopamine dependent behaviours in iron-deficient rats, 762P
- ASMAWI, M.Z., IRVING, G. & McCURRIE, JANICE R. (introduced by LEACH, G.D.H.) Effects of magnesium ions on responses of mesenteric arteries from normotensive and spontaneously hypertensive rats, 270P
- ATAL, C.K., GUPTA, O.P. & SINGH, G.B. (introduced by LEACH, G.D.H.) Salai guggal: a promising anti-arthritis and anti-hyperlipidaemic agent, 203P
- ATAL, C.K., GUPTA, O.P. & SINGH, G.B. (introduced by LEACH, G.D.H.) Studies on pangamic acid – a nutritional and therapeutic agent, 299P

## B

- BADAWY, A.A.-B. & EVANS, C.M. Naloxone-precipitated withdrawal symptoms in rats chronically treated with small concentrations of morphine in drinking water, 282P
- BADAWY, A.A.-B. & EVANS, M. Rapid reversal by naxalone of the chronic effects of morphine on rat liver and brain tryptophan metabolism, 511
- BADAWY, A.A.-B. & EVANS, M. The mechanism of the antagonism by naloxone of acute alcohol intoxication, 514
- BADAWY, A.A.-B., EVANS, M. & PUNJANI, N.F. Naloxone reversal of the chronic effects of morphine on rat liver and brain tryptophan metabolism, 211P

# SUBJECT INDEX

## A

- 48/80**, effect on histamine release from human dispersed lung and adenoidal mast cells, 979P
- $\alpha$ -1081**, effect on biliary lipid secretion in rats, 611
- A23187**, antagonism of calcitonin-induced analgesia, 857P
- , effect on histamine release from human dispersed lung and adenoidal mast cells, 979P
  - , induction of histamine release from mast cells, inhibition by ethacrynic acid, 976P
  - , stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, 723
- Acetylcholine**, blood pressure responses to, effect of mianserin, desipramine and maprotiline in rats, 143
- , changes in content of guinea-pig cortical slices after electrical stimulation, 525
  - , effect of adenosine on output from electrically stimulated brain slices, 764P
  - , effect of  $\gamma$ -aminobutyric acid agonists, glycine and neuropeptides on release from rabbit retina *in vivo*, 879P
  - , effect of catechol on uptake and release in slices of rat cerebral cortex and thalamus, 715
  - , effect of  $\alpha$ -flupenthixol on striatal levels, 904P
  - , effect of intra-arterial injection on plasma 'reciprocal coupling factor' in anaesthetized rats, 485
  - , effect on isolated rat colon, 681
  - , effect on smooth muscle membrane in guinea-pig basilar artery, 495
  - , induction of contractions, effects of vasodilator agents in smooth muscle cells of pig coronary artery, 455
  - , induction of contraction in urethra strips from guinea-pig, 353
  - , plus physostigmine, effect on body temperature in cats, 405
  - , release in synaptosomes from rat hippocampus, control by presynaptic autoreceptors, 220P
  - , responses of rat small intestine, effect of *N. brasiliensis* infection, 199P
- Acetylcholine autoreceptors**, control of acetylcholine release in synaptosomes from rat hippocampus, 220P
- , evidence for super- and subsensitivity after chronic drug treatment, 799P
- Acetylcholine receptors**, effect of age on, in singly and multiply innervated skeletal muscles of the chicken, 297P
- , increase in sensitivity by adenosine triphosphate in frog skeletal muscle end-plate, 505

- Action potentials**, decreased numbers after cyproheptadine in guinea-pig taenia coli, 651
- , effect of  $\alpha$ -aminobutyric acid on duration in embryonic sensory neurones of chick, 579
  - , effect of sea anemone toxin ATX-II on rat innervated and denervated skeletal muscle, 61
  - , effect of anthopleurin-A on duration in rabbit isolated ventricular muscle preparation, 29
  - , in slow- and fast-twitch mammalian skeletal muscle fibres, effect of *Anemonia sulcata* toxin ATX-II, 249P
  - , of guinea-pig atrial muscle, effect of harmine, dependence on external calcium concentrations, 415
- Adenine dinucleotide**, effects on isolated vas deferens, 951P
- Adenosine**, attenuation of positive chronotropic and inotropic responses to noradrenaline and adrenaline in guinea-pig isolated atria, 940P
- , effect on acetylcholine output from electrically stimulated brain slices, 764P
  - , effect on carotid chemoreceptor activity in the cat, 129
  - , effect on the isolated hemidiaphragm of the rat, 950P
  - , inhibition of vas deferens contractions, effects of 4-aminopyridine and quinidine, 296P
  - , structure-activity relations for negative chronotropic action in rat atria, 829P
- [<sup>3</sup>H]-adenosine**, effect of clonidine on uptake into segments of rabbit pulmonary artery, 709
- Adenosine diphosphate**, altered breakdown in isolated lungs of rats with streptozotocin-induced diabetes, 804P
- Adenosine 3',5'-diphosphate**, effect on shape of blood platelets of rabbit, 533
- Adenosine 3',5'-monophosphate**, assay in superfusates of mouse striatal tissue, 891P
- , cyclic, effect of looperamide on production in enterocytes of rat, 563
  - , cyclic, involvement in 5-hydroxytryptamine-induced relaxation of porcine vena cava, 800P
  - , cyclic, mediation of voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
  - , role of histamine H<sub>1</sub>-receptors on accumulation in guinea-pig cerebral cortical slices, 237P
- Adenosine nucleotide**, action of 2-phenylisatogen in mitochondria isolated from guinea-pig liver, 961P
- Adenosine receptors**, antagonism by methyl-substituted xanthines, 783P
- Adenosine triphosphatase**, calcium ion-, activity in peritoneal and pleural mast cells, 975P

- , sodium ion, potassium ion-, activity in brown adipose tissue, effect of drugs in rat, 539
- Adenosine triphosphate**, effect on smooth muscle membrane in guinea-pig basilar artery, 495
- , induction of contraction in bladder strips from guinea-pig, 353
- , relaxation of urethra strips from guinea-pig, 353
- , increase of acetylcholine-receptor sensitivity in frog skeletal muscle endplate, 505
- Adenosine 5'-triphosphate**, responses to, effect on nucleotide pyrophosphatase in guinea-pig isolated taenia coli, 319
- Adenylate cyclase**, dopamine stimulated in striatum, lack of inhibition by sulpiride, 287P
- , excitatory amino acid sensitive, evidence for location in rat brain membrane preparations, 236P
- Adipocytes**, human, method for studying lipolysis in cultures, 917P
- Adjuvant arthritis**, anti-inflammatory action of sponge exudate in relation to putrescine, 204P
- , appearance in inflamed tissues of enzymes acting on glandular kallikrein substrate, 805P
- Adrenal gland**, cat, potentiation of potassium ion-evoked catecholamine release after ouabain treatment, 673
- , cat perfused, correlation between catecholamine release and sodium pump inhibition, 665
- , isolated rabbit, release of [ $^3\text{H}$ ]-adrenaline from splanchnic nerve preparation, 801P
- , mediation of dopamine-induced natriuresis, 304P
- Adrenalectomy**, effect on propranolol-treated DOCA/salt rats, 985P
- Adrenaline**, cardiovascular responses to central administration, effect of  $\beta$ -blocking drugs, 934P
- , effect on membrane potential and resistance in guinea-pig myenteric neurones, 419
- , positive and chronotropic responses to, attenuation by adenosine in guinea-pig atria, 940P
- [ $^3\text{H}$ ]-adrenaline**, release in an isolated perfused adrenal gland splanchnic nerve preparation from the rabbit, 801P
- (-)-Adrenaline**, induction of [ $^3\text{H}$ ]-purine release, effect of clonidine in rabbit pulmonary artery, 709
- Adrenergic neuroeffector transmission**, effect of chlorpromazine in isolated blood vessels, 943P
- Adrenergic transmission**, effect of (-)-, ( $\pm$ )-, (+)-propranolol, atenolol, guanethidine, bretylium and tetracaine in rabbit ileum and pulmonary artery and guinea-pig vas deferens, 365
- $\alpha$ -**Adrenoceptor agonism**, role of respiratory acid-base<sup>2</sup> balance, 804P
- $\alpha$ -**Adrenoceptor agonists**, *in vivo* pressor responses to, on relation to *in vitro* receptor binding after phenoxybenzamine, 935P
- , pressor responses to, attenuation by urethane in pithed rats, 826P
- $\alpha_2$ -**Adrenoceptor agonists**, effect on pressor responses to sympathetic nerve stimulation in pithed rats, 927P
- $\alpha$ -**Adrenoceptor antagonists**, antagonism of responses to 2(N,N-dimethyl)-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene in guinea-pig ileum and pithed rat preparation, 254P
- , effect on baroreflex bradycardia in unanaesthetized rats, 948P
- , pre- and post-synaptic activity in rat vas deferens, 739
- , selectivity for  $\alpha_1$ - and  $\alpha_2$ -adrenoceptors, determination in rat, isolated, transversely bisected vas deferens preparation, 256P
- $\alpha_1$ -**Adrenoceptor antagonists**, effect on endogenous catecholamines in pithed rats, 258P
- $\alpha_2$ -**Adrenoceptor antagonists**, effect on endogenous catecholamines in pithed rats, 258P
- , study of 2-(2-imidazolyl methyl)-1,4-benzodioxans, 255P
- $\beta$ -**Adrenoceptor antagonists**, responses of isolated ring preparations of rat pulmonary artery, 547
- , role in prevention of early post infarction dysrhythmias, 195P
- $\alpha$ -**Adrenoceptor systems**, activation by antidepressants, screening test, 81
- $\alpha$ -**Adrenoceptors**, and contractile responses in isolated arterial smooth muscle, 264P
- , binding and autoregulation of noradrenaline release in brain of convulsive mutant mouse, 233P
- , blockade by R 28935, 844P
- , mediation of contractions in isolated saphenous vein of the dog, antagonism by diltiazem and verapamil, 942P
- , postsynaptic subtypes, mediation of nerve-evoked contractions in rabbit blood vessels *in vitro*, 803P
- , pre- and postsynaptic blocking activity of raubasine in rat vas deferens, 739
- , [ $^3\text{H}$ ]-yohimbine binding on intact human platelets, 802P
- $\alpha_1$ -**Adrenoceptors**, agonist action of clonidine, 757P
- , evaluation of selectivity of M7 for, 841P
- , involvement in cardiovascular effect of clonidine and R 28935 in the conscious cat, 190P
- , peripheral and central, antagonism by ifenprodil, 257P
- , postsynaptic vascular, investigation of possible function, 259P
- , potency of antagonists at, determination in rat, isolated, transversely bisected vas deferens preparation, 256P
- , selectivity of yohimbine diastereoisomers for, in anaesthetized dogs, 186P
- , stimulation, mediation of pressor responses, effect of diltiazem and verapamil in pithed rats, 839P
- $\alpha_2$ -**Adrenoceptors**, binding and effects of MPV-295 in the rat, 931P
- , effect of antidepressants chronically administered on binding in rat frontal cortex, 760P
- , evaluation of selectivity of M7 for, 841P
- , in rabbit vasculature, 846P
- , involvement in cardiovascular effect of clonidine and R 28935 in the conscious cat, 190P
- , peripheral and central, antagonism by ifenprodil, 257P
- , postsynaptic vascular, investigation of possible function, 259P
- , potency of antagonists at, determination in rat isolated transversely bisected vas deferens preparation, 256P
- , selectivity of yohimbine diastereoisomers for, in anaesthetized dogs, 186P
- , reduction in numbers in rat brain after repeated electroconvulsive shock, 885P
- , selective antagonism by RX 781094, 842P
- , selectivity of RS 21361 for, determined by *in vitro*, *in vivo* and ligand binding studies, 845P

- , stimulation, mediation of pressor responses, effect of diltiazem and verapamil in pithed rats, 839P
- $\beta$ -Adrenoceptors**, cardiac, *in vitro* and *ex vivo* examination of irreversible antagonism, 828P
- , effect of antidepressants on function in the rat pineal, 897P
- , effect of chronic antidepressants on binding in rat frontal cortex, 760P
- , peripheral presynaptic, effect of blockade on antihypertensive doses of ( $\pm$ )-propranolol and atenolol in adrenal demullated spontaneously hypertensive rats, 260P
- , number and affinity in cardiac membranes of hypertensive and normotensive rats, 517
- $\beta_1$ -Adrenoceptors**, activation by noradrenaline dilation of rat uterine arterioles, 941P
- , mediation of relaxation of isolated ring preparations of rat pulmonary artery, 547
- , partial agonist effects of medroxoalol, 847P
- $\beta_2$ -Adrenoceptors**, mediation of relaxation of isolated ring preparations of rat pulmonary artery, 547
- Adrenocorticotrophic hormone [4–10]**, septal administration, effect on social interaction between male rats, 277P
- ADTN** *see* **2-Amino 6,7 dihydroxy 1,2,3,4 tetrahydronaphthalene**
- Afferent nerves**, pressor effect of stimulation, potentiation by naloxone in anaesthetized dogs, 105
- Age**, effect on multiplicity of dopamine-mediated behaviours during six months phenothiazine neuroleptic treatment in rats, 225P
- , effect on properties of acetylcholine receptors in single and multiply innervated skeletal muscles of the chicken, 297P
- Aggressive behaviour**, effect of neurotoxin lesions of lateral septum, 766P
- Airways**, guinea-pig, binding of [ $^3$ H]-mepyramine to histamine  $H_1$ -receptors in guinea-pig airways, 982P
- , guinea-pig, hyperreactivity of smooth muscle, 180P
- , pharmacology of obstructions, package for independent study to enable learning in the context of clinical problem solving, 315P
- Albumin**, stabilization of prostacyclin, 206P
- Alcohol intoxication**, mechanism of antagonism by naloxone, 514
- Alcuronium**, selective muscarinic antagonist action, 784P
- S-alkylthiuroniums**, effect on fluidity of membrane proteins and lipids, 781P
- Allylglycine**, induction of seizures, enhancement of  $\alpha$ -receptor stimulated growth hormone release in the photosensitive baboon, 861P
- Alphadalone acetate**, potency alone or in mixtures with other short-acting intravenous anaesthetic agents in rats, 161
- Alphaxalone**, potency alone or in mixtures with other short-acting intravenous anaesthetic agents in rats, 161
- Alloxan**, induction of diabetes mellitus, structural and functional integrity of autonomic nerves in rats, 184P
- Amiloride**, effect on contractions and tritium release from rat vas deferens preloaded with [ $^3$ H]-noradrenaline, 123
- , effect on renal magnesium clearance in rats, 780P
- Amines**, blockade of uptake, effect on insulin reduction of positive inotropic response to noradrenaline, 325
- Amino acid antagonists**, behavioural effects of microinjection into midbrain of the rat, 235P
- Amino acid receptors**, two types mediate stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, 723
- Amino acids**, antagonism by urethane, 908P
- , effect of electrical kindling on brain concentrations in rats, 883P
- 2-Amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene**, effect on dopamine receptor binding in rat striatum, 759P
- [ $^3$ H]-2-amino-6,7-dihydroxy 1,2,3,4 tetrahydronaphthalene**, characteristics of binding to rat striatal tissue, 289P
- 3-Amino-1-hydroxypyrrolidine** *see* **HA 966**
- Amino-oxyacetic acid**, effect of pretreatment on circling and increased locomotor activity induced by ephedrine in rats, 119
- , lack of effect on oxolinic acid disruption of sleep wakefulness cycle in rat, 399
- 2-Amino-4-phosphonobutyrate**, effect on stimulation of guanosine 3',5'-cyclic monophosphate by excitant amino acids in rat cerebellar slices, 723
- (+)-2-Amino-4-phosphonobutyrate**, depressant action, 907P
- 2-Amino-3-phosphonopropionate**, effect on stimulation of guanosine 3',5'-cyclic monophosphate by excitant amino acids in rat cerebellar slices, 723
- 2-Amino-5-phosphonovalerate**, effect on stimulation of guanosine 3',5'-cyclic monophosphate by excitant amino acids in rat cerebellar slices, 723
- D- $\alpha$ -Aminoadipate**, effect on stimulation of guanosine 3',5'-cyclic monophosphate by excitant amino acids in rat cerebellar slices, 723
- $\gamma$ -Aminobutyric acid**, action of ethylenediamine on receptors and uptake sites, 274P
- , effect of catechol on uptake and release in slices of cerebral cortex and thalamus, 715
- , effect of different exogenous concentrations on spontaneous outflow of [ $^3$ H]- $\gamma$ -aminobutyric acid from rat substantia nigra *in vitro*, 389
- , effect of high pressure and ketamine on transmission *in vitro*, 880
- , effect of seizure on rat brain concentration and on benzodiazepine receptor number, 814P
- , induction of depolarizations in rat sympathetic neurones, 445
- , involvement in high pressure neurological syndrome, 221P
- , modification of synthesis and degradation rates, effect on synaptosomal release, 883P
- , study of uptake sites by means of [ $^3$ H]-nipecotic acid binding, 882P
- [ $^{14}$ C]- $\alpha$ -aminobutyric acid**, effect of ethanol on release from mouse cortical slices, 273P
- [ $^3$ H]- $\alpha$ -aminobutyric acid**, inhibition by apomorphine of potassium-evoked release from rat substantia nigra, 389
- , ligand for bicuculline-insensitive site on central nervous system synaptic membrane, 222P
- $\gamma$ -Aminobutyric acid agonists**, effect on release of acetylcholine from rabbit retina *in vivo*, 879P

- $\gamma$ -Aminobutyric acid inhibitors**, anticonvulsant activity in DBA/2 mice, 881P
- $\gamma$ -Aminobutyric acid receptors**, action of ethylenediamine, 274P
- , central, stimulation by isoguvacine propyl ester and isoarecaidine propyl ester, depressor effects in cats, 816P
  - , two types located on embryonic sensory neurones in chick, 579
- Aminogluthethimide**, effect on propranolol-treated DOCA/salt rats, 985P
- , metabolism in humans to *N*-formylaminogluthethimide and nitrogluthethimide, 243P
- Aminophylline**, effect of long-term treatment on antigen-induced bronchoconstriction in actively sensitized guinea-pigs, 601
- , effect on effects of adenosine on carotid chemoreceptor activity in cats, 129
  - , plasma protein binding and distribution in blood, 876P
- 4-Aminopyridine**, effect on adenosine inhibition of vas deferens contractions, 296P
- , effect on transmitter release from sympathetic nerve terminals in rabbit blood vessels 177P
- DL- $\alpha$ -Aminosuberate**, effect on stimulation of guanosine 3',5'-cyclic monophosphate by excitant amino acids in rat cerebellar slices, 723
- Amityptiline**, minimal dose to potentiate thyrotropin releasing hormone-induced hyperthermia, test for screening antidepressants which activate  $\alpha$ -adrenoceptor systems, 81
- Amphetamine**, acute effect on urinary excretion of biogenic amines and metabolites in monkeys, 571
- , behavioural effects on ethanol tolerant mice, 276P
  - , effect on sympathetic mechanisms in diet-induced thermogenesis in rat, 539
- (+)-Amphetamine**, effect on the acquisition of responding with conditioned reinforcement in rats, 149
- , induction of 5-hydroxytryptamine-dependent behaviours, relationship with dopamine, 213P
- Anaesthesia**, minaxolone or halothane, haemodynamic effect of labetalol and sodium nitroprusside in the dog, 947P
- , theories, 161
- Anaesthetics**, short-acting, additive and non-additive effect of mixtures and their significance for theories of anaesthesia, 161
- Analgesia**, calcitonin-induced, antagonism by ionophore A 23187, 857P
- , footshock-induced, effect of depletion of brain and spinal cord of 5-hydroxytryptamine, 218P
  - , footshock induced, involvement of dopamine in, 761P
  - , morphine-induced in chicken in relation to 5-hydroxytryptamine turnover, 811P
  - , production in mouse, role of interaction between naloxone and calcitonin, 279P
  - , response to footshock stimulation effect of coping behaviour in rats, 283P
  - , stimulation-produced, influence of circadian and circannual rhythms, 281P
- Anaphylactic reactions**, to L-asparaginase, effect of covalent attachment of dextran to the enzyme *in vivo* and *in vitro*, 966P
- Anaphylaxis**, contributions of prostaglandins and SRS-A in contractions of guinea-pig isolated stomach, 251P
- , to dextran, effect on leucopenia in rats, 201P
  - , to egg whites, protection by excretory ovalbumin in guinea-pig, 201P
- Anemonia sulcata toxin ATX-II**, effect on action potentials in slow- and fast-twitch mammalian skeletal muscle fibres, 249P
- , effects on rat innervated and denervated skeletal muscle, 61
- Angiotensin**, effect of intravenous infusion on output of prostacyclin-like substance in epicardial irrigation fluid in dog, 553
- Angiotensin II receptors**, stimulation, mediation of pressor responses, effect of diltiazem and verapamil in pithed rats, 839P
- Anisomycin**, effect on febrile responses to intracerebroventricular bacterial pyrogen and prostaglandin E<sub>2</sub> in cats, 786P
- , effect on substance P concentrations in the mouse nervous system, 234P
- Anococcygeus muscle**, rat, deamination of monoamines, 198P
- Anorectic drugs**, modification of sympathetic mechanisms in diet-induced thermogenesis, 539
- Anthopleurin-A**, electromechanical effects on rabbit ventricular muscle, 29
- Anthopleurin-B**, from sea anemone, excitatory effects on guinea-pig vas deferens, 23
- Anti-arrhythmic drugs**, effect on ventricular fibrillation in rat isolated heart, 195P
- Anti-arthritis drug**, Salai guggal, 203P
- Anti-hyperlipidaemic drug**, Salai guggal, 203P
- Anti-inflammatory drugs**, effect on type II collagen arthritis in the rat, 203P
- Anti-rheumatic drugs**, effect on type II collagen arthritis in the rat, 203P
- Antibiotics**, effect on autonomic neuroeffector transmission: similarities with neuromuscular junction, 848P
- Antibodies**, digoxin-specific, effect of passive immunisation on digoxin handling and response, 775P
- , IgE- and IgE-like, effect on long-term effects of sodium cromoglycate and aminophylline on antigen-induced bronchial anaphylaxis in guinea-pigs, 601
  - , to choline acetyltransferase, induction by small total amounts of purified antigen, 809P
- Anticonvulsant activity**, of  $\gamma$ -aminobutyric acid inhibitors in DBA/2 mice, 872P
- Anticonvulsant agents**, effect of prenatal exposure on maternal and foetal folate concentrations in the rat, 957P
- , effect on 5-hydroxytryptamine turnover in mouse brain, 812P
- Antidepressants**, activation of  $\alpha$ -adrenoceptor systems, screening test, 81
- , effect of chronic administration on rat frontal cortex  $\alpha_2$ - and  $\beta$ -adrenoceptor binding, 764P
  - , effect of treatment on  $\beta$ -adrenoceptor function in the rat pineal, 897P
- Antinociceptive activity**, of buprenorphine in rats, 627
- , of clonidine and 4-hydroxycyclonidine in the rat, 963P
- Antigen challenge**, late asthmatic challenge to, inhibition by non-steroidal anti-inflammatory drugs, 984P
- Aorta**, dog, effect of constriction on output of prostacyclin-like substance in epicardial irrigation fluid in dog, 553

- , rabbit, location for D-type 5-hydroxytryptamine receptors and  $\alpha$ -adrenoceptors, 619
- Apomorphine**, antagonism of stereotyped behaviour produced by metaclopramide in guinea-pig, 767P
- , inhibition of potassium-evoked release of [ $^3$ H]- $\gamma$ -aminobutyric acid from rat substantia nigra, 389
- Arachidonate lipooxygenase products**, effects on bradykinin-induced plasma exudation in rabbit skin, 429
- Arachidonate metabolites**, platelet, role in collagen-induced thrombocytopenia in mice, 915P
- Arachidonic acid**, effect on output of prostacyclin-like substance in epicardial irrigation fluid in dogs, 553
- , presence in human gastrointestinal tissues and actions on muscle layers, 435
- , responses of rabbit, sheep and guinea-pig to, effect of thromboxane antagonist EP 045, 790P
- Arrhythmias**, effect of potassium ion/calcium ion ratio and calcium slow channel antagonists in the isolated perfused coronary ligated heart, 834P
- Arterioles**, guinea-pig, mechanism of action of prazosin at the sympathetic nerve-muscle junction, 189P
- , rat uterus, dilatation by activating  $\beta_1$ -adrenoceptors by noradrenaline, 941P
- Artery**, blood pressure, effect of orally administered propranolol on uptake in conscious rats, 635
- , canine renal and pulmonary, induction of relaxation by bradykinin, dependence on intact endothelial cells, 10
- , effects of bepredil and verapamil on isolated smooth muscle, 832P
- , rabbit, receptor mechanisms for 5-hydroxytryptamine, 619
- , rabbit pulmonary, facilitation of purine release induced by high potassium chloride by clonidine, 709
- , rat, effect of propranolol on oxygen content, 643
- ,  $\alpha$ -adrenoceptors and contractile responses in isolated smooth muscle, 264P
- L-Asparaginase**, effect of covalent attachment of dextran on anaphylactic reaction to the enzyme *in vivo* and *in vitro*, 966P
- D-Aspartate**, effect of catechol on uptake and release in slices of rat cerebral cortex and thalamus, 715
- L-Aspartate**, stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, effect of amino acid antagonists, 723
- Aspirin**, effect on arrhythmias resulting from coronary artery ligation in rats, 155
- , effect on canine gastric mucosa during shock, 972P
- , effect on the release of thromboxane following acute myocardial ischaemia; relation to early arrhythmias, 205P
- Asthma**, inhibition of late response to antigen challenge by non-steroidal anti-inflammatory drugs, 984P
- Atenolol**, blockade of responses to  $\beta$ -adrenoceptor antagonists in isolated ring preparations of rat pulmonary artery, 547
- , effect of peripheral presynaptic  $\beta$ -adrenoceptor blockade on anti-hypertensive single dose in adrenal demululated spontaneously hypertensive rats, 260P
- , effect on adrenergic transmission in rabbit ileum and pulmonary artery and guinea-pig vas deferens, 365
- , mechanism of action on baroreceptor reflex in the anaesthetized cat, 904P
- Atrial muscle**, guinea-pig, influence of external concentrations of calcium on effects of harmine on action potential, 415
- Atrio-ventricular node**, effect of calcium antagonists on conduction in pithed rats, 926P
- Atrium**, guinea-pig, attenuation of positive chronotropic responses to noradrenaline and adrenaline by adenosine, 940P
- , guinea-pig, insulin-induced enhancement of noradrenaline, 325
- , human, release of histamine, 7
- , rat, structure-activity relations for negative chronotropic action of adenosine, 829P
- , rats and guinea-pig, comparison of distribution of histamine receptors, 937P
- Atropine**, abolition of effects of acetylcholine and physostigmine on body temperature in cats, 405
- , blockade of response to acetylcholine in isolated urinary tract of the guinea-pig, 353
- , effect after long-term treatment with sodium cromoglycate or aminophylline in sensitized guinea-pigs, 601
- , effect of pretreatment on contractile response of isolated rat colon to morphine, 681
- , effect on anthopleurin-B-induced rhythmic contractions of guinea-pig vas deferens, 23
- , effect on changes in synaptosomal high affinity choline uptake following electrical stimulation of guinea-pig cortical slices, 525
- , effect on effects of amiloride on contractions and the release of tritium from rat vas deferens preloaded with [ $^3$ H]-noradrenaline, 123
- , effect on electrically-induced excitatory contractions in isolated guinea-pig urinary bladder, 15
- , effect on ulcer formation in stressed rats, 593
- , suppression of acetylcholine effects on smooth muscle membrane in guinea-pig basilar artery, 495
- Atropine-methyl-nitrate**, blockade of peripheral muscarinic receptors in rabbit, 587
- ATX-II**, mechanical and electrophysiological effects on rat innervated and denervated skeletal muscle, 61
- Autofluorescence**, associated with fatty-acid peroxides, 918P
- Autonomic drugs**, effect on blood pressure responses of the spinal cat: a Biovideograph presentation, 313P
- Autonomic nerves**, rat, structural and functional integrity in rats with long-term alloxan-induced diabetes mellitus, 184P
- Autonomic nervous system**, role in control of heart rate in awake and anaesthetized dogs, 185P
- Autonomic neuroeffect transmission**, effect of antibiotics, 848P
- Autonomic pharmacology**, a self teaching and assessment package based on the treatment of glaucoma, 314P
- Autoradiography**, localization of cholecystokinin-receptor binding in rat brain and pancreas *in vitro*, 858P
- , localization of [ $^3$ H]-Ro 15-1788 in rat brain *in vitro*, 891P
- Autoreceptors**, acetylcholine, evidence for super- and sub-sensitivity after chronic drug treatment, 799P
- , dopamine, effect of chronic haloperidol treatment in rabbits, 901P
- Axonal transport**, of glycoprotein, protein and noradrenaline, effect of high extracellular glucose in li-

gated postganglionic sympathetic nerves of the cat, 960P

**Azepexole**, comparison of effect with that of clonidine on preganglionic sympathetic nerve activity on the cat, 178P

## B

**Baclofen**, effect on action potential in embryonic sensory neurones of chick, 579

**[<sup>3</sup>H]-baclofen**, ligand for bicuculline-insensitive site on central nervous system synaptic membrane, 222P

**Bacterial endotoxin**, effect on body temperature in cats, 405

**Baroreceptor reflex**, mechanism of action of atenolol in the anaesthetized cat, 904P

—, sensitivity of, effect on responses to pressor agents in man, 949P

**Baroreflex bradycardia**, effect of centrally administered  $\alpha$ -adrenoceptor antagonists in unanaesthetized rats, 948P

—, method for study in unanaesthetized rats, 308P

**Basal ganglia**, effect of lesions on tremorine-induced rigidity in rats, 910P

—, synaptic targets of drug action, 909P

**Basilar artery**, guinea-pig, electrical properties of membranes and neuromuscular transmission, 495

—, human, effect of prostanoids *in vitro*, 267P

—, human, mediation of relaxation by dopamine receptors, *in vitro*, 944P

**Bedding type**, effect on sleeping time of male, female and *Tfm* mice, 97

**Behavioural activity**, thyrotropin-releasing hormone induced, inhibition by histidylproline diketopiperazine, 291P

**Behavioural responses**, to amphetamine, mediation through the release of phenylethylamine in monkeys, 571

—, to dopamine and 5-hydroxytryptamine releasers in relation to *in vivo* voltammetric responses, 908

**Behaviours**, dopamine dependent, and dopamine receptors in iron-deficient rats, 762P

**Benoxapofen**, inhibition of late asthmatic response to antigen challenge, 984P

**Benserazide**, inhibition of clorgyline-resistant amine oxidase in rat cardiovascular tissues, 197P

—, with L-dihydroxyphenylalanine, induction of dopamine-dependent dyskinesias, 766P

**Benzimidazole**, effect on thromboxane B<sub>2</sub> and prostaglandin E<sub>2</sub> production and mitogen-induced lymphocyte proliferation in human blood mononuclear cells, 469

**Benzodiazepine antagonist**, localization in rat brain by autoradiography, 813P

**Benzodiazepine receptors**, effect of seizure on numbers and on  $\gamma$ -aminobutyric acid concentration in rat brain, 814P

**Benzodiazepines**, action on 5-hydroxytryptamine turnover in mouse brain, 812P

—, inhibition of site-specific binding of nitrobenzylthioinosine to human erythrocytes, 835P

—, reduction of gastric ulcers induced by stress in rats, 593

**2-(1,2,3-benzothiadiazol-5-yl)-7-chloro-4-hydroxy-1,2-dihydrophthalazin-1-ylacetic acid** *see* **BTS 39 542**

**4-[Benzoyloxy-3-ter-butylaminopropoxy]-2-methylindole**

**hydrogen malonate** *see* **Bopindolol**

**1-n-Benzylimidazole**, inhibition of 'thromboxane synthetase' *in vivo*, 911P

**Bepredil**, effects on isolated arterial smooth muscle, 832P

**Bicuculline**, effect on piperazine depolarization in rat sympathetic neurones, 445

**Bicuculline-insensitive receptor**, binding site for [<sup>3</sup>H]- $\gamma$ -aminobutyric acid and [<sup>3</sup>H]-baclofen on central nervous system synaptic membrane, 222P

**Bile**, effect of hypolipidaemic agents on lipid secretion in rats, 611

—, effect of 3,5,5-trimethylcyclohexanone on flow in the rat, 241P

**Bile acid**, effect on hypolipidaemic agents on secretion in rats, 611

**Binding inhibitors**, extraction from normal urine, 956P

**Binding sites**, for calcium ions, occupation by organic calcium antagonists at surface of soma membrane of *Helix* neurones, 87

—, for [<sup>3</sup>H]-imipramine, localisation on 5-hydroxytryptamine nerve terminals, 217P

**Binding sites**,  $\mu$ -,  $\delta$ - and  $\kappa$ -, activity profiles of opiates, 893P

**Biogenic amines**, urinary excretion in monkeys, effect of acute amphetamine administration, 571

**Biological fluids**, human, radioimmunoassay of glandular kallikreins, 806P

**Biovideograph**, evaluation, 312P

—, presentation of effects of autonomic drugs on blood pressure responses of autonomic drugs, 313P

**Bladder**, guinea-pig, electrical and mechanical activity, 353

**$\beta$ -Blocking drugs**, effect on cardiovascular responses to centrally-administered adrenaline in the rat, 934P

**Blood**, distribution of theophylline and aminophylline, 876P

—, dog, possible substitution with dextran-haemoglobin complex, 191P

**Blood flow**, adrenal, effect of indomethacin in anaesthetized, laparotomized dog, 824P

—, coronary, role of epicardial or pericardial prostacyclin on metabolic regulation, 553

—, gastric mucosal, effects of cimetidine and deglycyrhizinized liquorice in man, alone and in combination, 971P

—, hepatic artery, effect on clearance of lignocaine from rat perfused liver, 244P

—, measurement of changes in rat skin grafts by rapid xenon ion clearance technique, 964P

—, rat liver, time course of action of phenobarbitone, 779P

—, regional, determination by radioactively labelled microsphere technique, 314P

**Blood pressure**, arterial, effects of isoprenaline, angiotensin infusions and bilateral carotid occlusion in anaesthetized dog, 553

—, arterial, effects of noradrenaline and isoprenaline in aorta-coarcted hypertensive and normotensive rats, 517

—, effect of chronic ( $\pm$ )-propranolol in spontaneously hypertensive rats, 187P

—, effect of indomethacin in anaesthetized, laparotomized dog, 824P

—, effect of naloxone in anaesthetized dogs, 105

—, effect of orally administered propranolol in rats, 635

—, effect of oxotremorine in rabbits pretreated with

- atropine-methylnitrate, 587
- , effect of propranolol in normotensive and hypertensive rats, 932P
- , responses evoked by acetylcholine, histamine and 5-hydroxytryptamine in rats, effect of mianserin, desipramine and maprotiline, 143
- , responses of the spinal cat, effect of autonomic drugs: a Biovideograph presentation, 313P
- , right atrium, effect of *E. coli* endotoxin, protection by polymyxin B sulphate in cats, 701
- , systolic and diastolic, effect of *E. coli* endotoxin in cats pretreated with polymyxin B sulphate, 701
- , systolic and diastolic, effect of ORG 6001 and mexilitine in anaesthetized rats, 381
- Blood vessels**, cerebral, contracted with autologous blood, predilective relaxation by nimodipine, 268P
- , human isolated, effect of ketanserin, 831P
- , isolated, effect of chlorpromazine on adrenergic neuroeffector transmission, 943P
- , rabbit, action of 4-aminopyridine on transmitter release from sympathetic nerve terminals, 177P
- , rabbit, mediation of nerve-evoked contractions by postsynaptic  $\alpha$ -adrenoceptor subtypes *in vitro*, 803P
- , rat mesenteric, evidence against the involvement of prostaglandins in the vasoconstrictor action of calcium ions, 477
- Body temperature**, dissimilar effects of guanosine 3'5'-monophosphate, acetylcholine and bacterial endotoxin in the cat, 405
- Body wall**, control of tension by Retzius cells, pharmacological aspects, 983P
- Bohr effect**, action of propranolol on, in rat, 643
- Bopindolol**, pharmacological studies, 829P
- Bradycardia**, baroreflex, method for study in unanaesthetized rat, 308P
- , effect of centrally administered  $\alpha$ -adrenoceptor antagonists in unanaesthetized rats, 948P
- , induction by ORG 6001 in anaesthetized rats, 381
- , mechanism for production by pergolide in anaesthetized normotensive rats, 271P
- , prostacyclin-induced, dependence on basal heart rate, 252P
- , reflex vagal, clonidine-induced potentiation in anaesthetized cats, 265P
- Bradykinin**, induction of canine renal and pulmonary artery relaxation, dependence on intact endothelial cells, 10
- Brain**, comparative study of actions of opioids in single neurones in different brain regions, 285P
- , convulsive mutant mouse,  $\alpha$ -adrenoceptor binding and autoregulation of noradrenaline release, 233P
- , depletion of 5-hydroxytryptamine, effect on footshock-induced analgesia, 218P
- , effect of electrical kindling on brain amino acid concentrations, 883P
- , guinea-pig, cimetidine-histamine interactions, 978P
- , human, lisuride binding, 859P
- , mouse, effect of benzodiazepines and other anticonvulsant drugs on 5-hydroxytryptamine turnover, 812P
- , pig, effect of phospholipids and phospholipases on microtubules *in vitro*, 863P
- , rabbit, rat and human, comparative studies of dihydrofolate reductase, 860P
- , rat, autoradiographical localization of cholecysto-kinin-receptor binding, 858P
- , rat, binding of [ $^3$ H]-scopolamine, effects of ovariectomy versus the proestrous stage of the sexual cycle, 866P
- , rat, decline of tryptophan and 5-hydroxytryptamine after induction of liver tryptophan pyrrolase by hydrocortisone, 695
- , rat, effect of electroconvulsive shock on numbers of  $\alpha_2$ -adrenoceptors, 885P
- , rat, effect of naloxone on chronic effects of morphine on tryptophan metabolism, 511
- , rat, effect of seizures on benzodiazepine number and  $\gamma$ -aminobutyric acid concentration, 814P
- , rat, ethanol-induced alterations in phospholipid methylation in synaptosomal membranes, 874P
- , rat, evidence for excitatory amino acid sensitive adenylylate cyclase in membrane preparations, 236P
- , rat, *in vivo* receptor binding of [ $^3$ H]-buprenorphine in comparison with antinociceptive effect, 627
- , rat, metabolism of tryptophan, naloxone reversal of chronic effects of morphine, 211P
- , rat, neuronal development in discrete areas during neonatal thyroid deficiency, 763P
- , rat, reversal by naloxone of the effects of drugs of dependence on tryptophan metabolism, 489
- , rat, stimulation of endogenous dopamine release *in vitro* by thyrotrophin releasing hormone analogues, 227P
- , stressed rats, effect of chronic nicotine administration 5-hydroxyindole levels, 212P
- , visually related areas, depression of glucose utilization by quipazine, 858P
- Bretylum**, effect on adrenergic transmission in rabbit ileum and pulmonary artery and guinea-pig vas deferens, 365
- , effect on anthopleurin-B-induced rhythmic contractions in guinea-pig vas deferens, 23
- Bronchoconstriction**, antigen-induced, effect of long-term treatment with sodium cromoglycate and aminophylline in actively sensitized guinea-pig, 601
- , mediation by prostanoid receptors in the anaesthetized guinea-pig and dog, 913P
- Bronchoconstrictor responses**, to histamine, modulation by sympathetic nerve stimulation in pithed guinea-pigs, 855P
- , to  $\beta$ -phenylethylamine in guinea-pig isolated lung, 980P
- Bronchodilatation**, activity of methyl-substituted xanthines, 783P
- Brown adipose tissue**, sympathetic noradrenergic activation in diet-induced thermogenesis in rats, 539
- Browntail moth dermatitis**, mediators for, 993P
- BTS 39 542**, diuretic efficacy, comparison with frusemide, 359
- Buprenorphine**, *in vivo* receptor binding correlated with its agonistic and antagonistic actions in rats, 627
- , induction of hyperthermia in rats, selective development of sensitization and tolerance, 822P
- Butanol**, effect on shape changes caused by biologically active peptides and nerve growth factor on rabbit blood platelets, 533
- BW12C**, anti-sickling agent, 965P
- BW 755C**, stimulation of prostacyclin production from the rat gastric mucosa *in vitro*, 920P

## C

- C5a**, induction of increased vascular permeability, role of generation of lipoxygenase products, 921P
- , mediation of increased vascular permeability in response to zymosan in the peritoneal cavity of the rabbit, 787P
- Cadmium ions**, effect of chronic treatment on noradrenaline and dopamine- $\beta$ -hydroxylase contents of the tissues of the rat, 851P
- , effect on noradrenaline output and dopamine- $\beta$ -hydroxylase activity in isolated rat vas deferens, 261P
- Caffeine**, effect on fever produced in cats by bacterial endotoxin, 405
- , effect on frog heart ventricular strips incubated in calcium Ringer plus ouabain, 341
- , effect on rota-rod performance and Y-maze in mice, with and without chlordesmethyldiazepam, 822P
- Calcitonin**, induction of analgesia, antagonism by ionophore A23187, 857P
- , induction of hyperalgesia by subcutaneous injection, 280P
- , interaction, with naloxone in the production of analgesia in the mouse, 279P
- Calcium**, concentrations in medium, effect on anthopleurin-B-induced release of noradrenaline from guinea-pig vas deferens, 23
- , effect of extracellular concentrations on ventricular fibrillation thresholds in rat isolated heart and effects of verapamil, 193P
- , effect of insulin on uptake and accumulation in guinea-pig atrial strips, 325
- , effect of ouabain and 2,4-dinitrophenol on efflux from frog heart ventricular strips, 341
- , external concentrations, influence on effects of harmine on action potential of guinea-pig atrial muscle, 415
- , inhibition of mitochondrial transport by the nonsteroidal anti-inflammatory agent, diflunisal, 303P
- , release by caffeine, effect of vasodilator agents in smooth muscle cells of the coronary artery of the pig, 455
- , response of depolarized, calcium-free mouse uterus in different stage of the uterus cycle to, effect of cortisol, 304P
- <sup>45</sup>**Calcium**, effect of cyproheptadine on uptake into strips of taeni coli of guinea-pig, 651
- Calcium antagonists**, effects on alternation of the ST-T complex and associated conduction abnormalities during coronary occlusion in dogs, 371
- , effects on pulmonary haemodynamics, 946P
- , effects on heart rate and atrio-ventricular node conduction in pithed rats, 926P
- Calcium channels**, reduction by cyproheptadine of flow of calcium ions through, in smooth muscle cell membrane, 651
- Calcium-current**, of *Helix* neurones, effect of calcium antagonists and other divalent cations, 87
- Calcium-free medium**, effect on responses to piperazine in rat sympathetic neurones, 445
- 'Calcium-free' Ringer**, effect on contractile tension of frog heart ventricular strips, 341
- Calcium ion/potassium ion ratio**, effect on arrhythmias in the isolated perfused coronary ligated heart, 834P
- Calcium ions**, decreased external concentrations, abolition of contractile response of isolated rat colon to morphine, 681
- , effect of reintroduction on catecholamine output from cat adrenal glands treated with Krebs solution lacking potassium ions, ouabain or ionophore X537A, 665
- , external concentrations, effect on kainate stimulation of guanosine 3',5'-monophosphate in rat cerebellar slices, 723
- , external concentrations, effect on electrically-evoked purine release in cerebral cortex slices of rats and mice, 171
- , extracellular concentrations, effect on potassium ion-evoked secretory response in ouabain-treated cat adrenal glands, 673
- , vasoconstrictor action in rat mesenteric blood vessels, evidence that prostaglandin synthesis is not essential, 477
- Calcium slow channel antagonists**, effect on arrhythmias in isolated perfused coronary ligated heart, 834P
- Cancer**, enhanced therapeutic effect of cytotoxic drugs in combination with flurbiprofen, 208P
- , human lung, and prostaglandins, 207P
- Captopril**, comparison with the effects of prostacyclin on systemic and renal haemodynamics in conscious dogs, 945P
- Carbachol**, effect on the relaxant properties of isoprenaline and theophylline in guinea-pig contracted tracheal muscle, 73
- , induction of current, effect of adenosine triphosphate in frog skeletal muscle endplate, 505
- , induction of depolarizations in rat sympathetic neurones, 445
- Carbamylcholine**, effect on isolated rat colon, 681
- Carboxylic acids**, metabolic conjugation in the horse, 855P
- Carboxyphenylethidium**, orientation at B-DNA helical receptor, 47
- Cardiac contractility**, depression by ORG 6001 and mexilitine in anaesthetized rats, 381
- Cardiac muscle**, mammalian, positive inotropism and cyclic nucleotides, 939P
- Cardiac output**, effect of *E. coli* endotoxin, protection by polymyxin B sulphate in cats, 701
- , effect of orally administered propranolol in rats, 635
- Cardiovascular responses**, to central administration of adrena-line, effect of  $\beta$ -blocking drugs, 934P
- Cardiovascular system**, rat, effect of ifenprodil, 272P
- Cardiovascular tissues**, rat, inhibition of chlo-rgyline-resistant amine oxidase by benserazide, 197P
- Carotid artery**, bilateral occlusion, effect on output of prostacyclin-like substance in epicardial irrigation fluid in dog, 553
- , common, location for D-type 5-hydroxytryptamine receptors and  $\alpha$ -adrenoceptors, in rabbit, 619
- Carotid sinus nerve**, cat, effect of intracarotid injections or infusions of adenosine on chemoreceptor activity, 129
- Castration**, effect on hexobarbitone-induced sleeping times of male, female and *Tfm* mice, 97
- Catalepsy**, neuroleptic and non-neuroleptic induced, effect of cortical lesions in rats, 821P
- Catechol**, effect on uptake and potassium ion-stimulated release of neurotransmitters in rat brain slices, 715

- Catechol-*O*-methyl transferase**, effect of insulin on activities in guinea-pig cardiac tissue, 325
- Catecholamine receptors**, mechanisms for mediating relaxation and contraction of circular smooth muscle of guinea-pig muscle, 179P
- Catecholamines**, correlation between release and sodium pump inhibition in the perfused adrenal gland of the cat, 665
- , effect of depletion on positive inotropic response to insulin in guinea-pig atrial strips, 325
  - , effect of indomethacin on release in the anaesthetized, laparotomized dog, 824P
  - , endogenous, effect of  $\alpha_1$ - and  $\alpha_2$ -adrenoceptor antagonists in pithed rats, 258P
  - , involvement in arousing effect of oxolinic acid in rats, 399
  - , metabolism and release in rat nucleus accumbens *in vivo*, effect of thyrotrophin-releasing hormone analogues, 871P
  - , potentiation of potassium ion-evoked release in cat adrenal gland treated with ouabain, 673
- Cations**, effect on [ $^3$ H]-sulpiride binding, 228P
- Caudate**, bovine, immunoreactivity of Met-enkephalin [Arg<sup>6</sup>, Phe<sup>7</sup>] in, compared with chromaffin granules, 808P
- Caudate nucleus**, cat, inhibition of [ $^3$ H]-dopamine release by dopamine autoreceptors, role of endogenously released dopamine, 226P
- Central nervous system**, [ $^3$ H]- $\gamma$ -aminobutyric acid and [ $^3$ H]-baclofen binding on the same bicuculline-insensitive site on synaptic membranes, 222P
- , lack of stimulation, increase of resting metabolic rate by ciclazindol in rats, 770P
- Cerebellum**, rat, effects of amino acid antagonists on stimulation of guanosine 3',5'-cyclic monophosphate by excitant amino acids, 723
- , rat, neurotoxicity of methyltetrahydrofolate, 810P
- Cerebral artery**, dog, contracted by prostaglandin F<sub>2 $\alpha$</sub> , production of dose-related contraction by histamine, 111
- Cerebral cortex**, comparison of slow and fast depressant responses to ionophoretically applied histamine, 238P
- , effect of  $\alpha$ -flupenthixol on dopamine receptors, 904P
  - , gallamine regulation of muscarinic receptors, 798P
  - , guinea-pig, histamine H<sub>1</sub>-receptors and cyclic adenosine 3',5'-monophosphate accumulations, 237P
  - , rat, effect of catechol on neurotransmitter uptake and release in slices, 715
  - , rat, temperature-dependent characteristics of [ $^3$ H]-diazepam binding to, 886P
  - , rat and mouse, effect of morphine and Met-enkephalin on the release of purines from slices, 171
- Chemical irritants**, effect on the membrane of giant amoeba, *Chaos carolinense*, 333
- Chemoreceptors**, carotid, effect of adenosine on activity in cat, 129
- Chlordesmethyldiazepam**, effect on rota-rod performance and Y-maze in mice, with and without caffeine, 822P
- Chlordiazepoxide**, sedative and antiulcer activity in rats, 593
- 2-Chloro-dibenzoxazepine**, effect on membrane potential and input resistance in giant amoeba, 333
- 3-Chloro-dibenzoxazepine**, effect on membrane potential and input resistance in giant amoeba, 333
- 2-4-(p-Chlorobenzoyl) phenoxy 2-methyl propionic acid** *see*  $\alpha$ -1081
- $\alpha$ -Chlorobenzylidene malononitrile**, effect on membrane potential and input resistance in giant amoeba, 333
- 1-(2-Chloroethyl)-3 cyclohexyl-1-nitrosourea**, toxicity and anti-tumour activity, effect of nandrolene decanoate in experimental murine colon tumours, 295P
- Chlorpheniramine**, effect on anthopleurin-B-induced rhythmic contractions of guinea-pig vas deferens, 23
- , effect on different mechanisms of action of histamine in isolated arteries of the dog, 111
- Chlorpromazine**, antagonism of contractile effect of calcium on skinned muscle fibres, 455
- , behavioural effects on ethanol tolerant mice, 276P
  - , effect on adrenergic neuroeffector transmission in isolated blood vessels, 943P
- Cholecystokinin receptor**, localization of binding by autoradiography in rat brain and pancreas *in vitro*, 858P
- Cholesterogenesis**, effect of 3,5,5-trimethylcyclohexanol in the rat, 241P
- Cholesterol**, diet for rabbits, studies on 3,5,5-trimethylcyclohexanol, 242P
- , effect of hypolipidaemic agents on serum levels in rats, 611
- Cholestyramine**, effect on biliary lipids secretion in rats, 611
- Choline**, high affinity uptake, changes in synaptosomes following electrical stimulation of guinea-pig cortical slices, effect of atropine and physostigmine, 525
- Choline acetyltransferase**, antibodies to, induction by small total amounts of purified antigen, 809P
- Cholinergic link**, in neural control of the release of vasopressin, 239P
- Cholinergic neurotransmission**, evidence in pharmacological characterization of the excitatory innervation to the guinea-pig urinary bladder *in vitro*, 15
- Cholinoceptor blockade**, effects on detrusor electromyograms in the cat, 953P
- Chromaffin granules**, bovine, immunoreactivity of Met-enkephalin [Arg<sup>6</sup>, Phe<sup>7</sup>] in, compared with caudate, 808P
- Chronotropic responses**, of isolated atria to noradrenaline and isoprenaline in aorta-coarcted hypertensive and normotensive rats, 517
- , to noradrenaline and adrenaline in guinea-pig atria, attenuation by adenosine, 940P
- Ciclazindol**, effect on resting metabolic rate in rats in the absence of central nervous system stimulation, 770P
- , effect on sympathetic mechanisms in diet-induced thermogenesis, 539
- Cimetidine**, antagonism of inotropic response of human right atrium to exogenous histamine and compound 48/80, 7
- , effect on different mechanisms of action of histamine in isolated arteries of the dog, 111
  - , effect on resting gastric mucosal blood flow and acid secretion in man, alone and with deglycyrrhizinized liquorice, 971P
  - , effect on ulcer formation in stressed rats, 593
  - , interactions with histamine in guinea-pig heart and brain, 978P
  - , lack of reversal of effects of dimaprit and nordimaprit on mitogen-stimulated human lymphocyte proliferation, 137

- , suppression of histamine effects on smooth muscle membrane in guinea-pig basilar artery, 495
- Circadian rhythms**, influence of stimulation-produced analgesia, 281P
- Circannual rhythms**, influence of stimulation-produced analgesia, 281P
- Circling**, induction in 6-hydroxydopamine lesioned rats by ephedrine, 119
- Clindamycin**, pre- and post-junctional blocking action at snake neuromuscular junction, 298P
- Clinical problem solving**, teaching aids, 315P
- Clomipramine**, minimal dose to potentiate thyrotropin releasing hormone-induced hyperthermia, test for screening antidepressants which activated  $\alpha$ -adrenoceptor systems, 81
- Clonidine**, action as partial agonist of  $\alpha_1$ -adrenoceptors, 757P
  - , activation of membrane potassium conductance in myenteric neurones of guinea-pig, 419
  - , antinociceptive effects in the rat, 963P
  - , cardiovascular effects in conscious cat, involvement of central  $\alpha_1$  and  $\alpha_2$ -adrenoceptors, 190P
  - , comparison with the effect of azepexole on preganglionic sympathetic nerve activity, 178P
  - , dose-response curves in stimulated rat vas deferens, effect of increasing doses of  $\alpha$ -adrenoceptor antagonists, 739
  - , effect on [ $^3$ H]-adenosine uptake into segments of rabbit pulmonary artery, 709
  - , effect on cortical neurones, evidence for its action as partial agonist at  $\alpha_1$ -adrenoceptors, 757P
  - , effect on electrically-induced excitatory contractions in isolated guinea-pig urinary bladder, 15
  - , effect on physostigmine-induced vasopressor response in anaesthetized rats, 929P
  - , facilitation of [ $^3$ H]-purine release induced by potassium chloride or (–)-adrenaline from rabbit pulmonary artery, 709
  - , induction of potentiation of reflex vagal bradycardia in anaesthetized cats, 265P
  - , interactions of cardiovascular effects with yohimbine, rauwolfscine and corynanthine in conscious hypertensive rats, 933P
- Clorgyline-resistant amine oxidase**, inhibition by benzerazide in rat cardiovascular tissues, 197P
- Chlorine ion fluxes**, effect on prostaglandin  $E_2$  on rat intestinal sheets in the presence and absence of loperamide, 563
- Clotrimazole**, effect on thromboxane  $B_2$  and prostaglandin  $E_2$  production and mitogen-induced lymphocyte proliferation in human blood mononuclear cells, 469
- Cobalt cations**, effect on calcium-current of *Helix* neurones, 87
- Cocaine**, effect on the acquisition of responding with conditioned reinforcement in rats, 149
  - ,  $pA_2$  values for antagonism of 5-hydroxytryptamine and noradrenaline in rabbit arteries, 619
- Codeine**, effect on isolated rat colon, 681
- Collagen**, induction of thrombocytopenia role of platelet arachidonate metabolites in mice, 915P
- Collagen arthritis**, type II, effect of antirheumatic and anti-inflammatory drugs in the rat, 203P
- Colon**, mouse, effect of nandrolene decanoate on toxicity and anti-tumour activity of 1-(2-chlorethyl)-3-cyclohexyl-1-mitrosourea and 5 fluorouracil in experimental tumours, 295
- , rat, contractile effect of morphine and related opioid alkaloids,  $\beta$ -endorphin and Met-enkephalin on, 681
- Compound 48/80**, production of inotropic response in human right atrium, 7
- Conditioned reinforcement**, effects of cocaine, (+)-amphetamine and pipradrol in rats, 149
- Conduction**, effect of calcium antagonists on abnormalities during coronary occlusion in dogs, 371
- Contractile force**, effect of anthopleurin-A in rabbit isolated ventricular muscle preparation, 29
- Contractile responses**, in arterial smooth muscle, role of  $\alpha$ -adrenoceptors, 264P
- Contractile tension**, effect of ouabain and 2,4-dinitrophenol in frog heart ventricular strips, 341
- Contractions**,  $\alpha$ -adrenoceptor mediated, of isolated saphenous vein of the dog, antagonism of diltiazem and verapamil, 942P
  - , anaphylactic, role of prostaglandins and SRS-A in guinea-pig isolated stomach, 251P
  - , anthopleurin-B-induced in guinea-pig vas deferens, 23
  - , clonidine-evoked in rabbit pulmonary artery, effect of phentolamine, yohimbine or 6-hydroxydopamine denervation, 709
  - , effect of amiloride in rat vas deferens preloaded with [ $^3$ H]-noradrenaline, 123
  - , effect of insulin on force of, guinea-pig left atrial strips, 325
  - , morphine-induced, mediation by stereospecific, naloxone-sensitive opiate receptors in rat colon, 681
  - , naloxone-induced in relation to morphine dependence, in guinea-pig ileum treated with morphine, 807P
  - , nerve-evoked, mediation by postsynaptic  $\alpha$ -adrenoceptor subtypes in rabbit blood vessels *in vitro*, 803P
  - , of circular smooth muscle of guinea-pig stomach, mediation by catecholamine receptor mechanisms, 179P
  - , potassium- and acetylcholine-induced, effect of vasodilator agents in smooth muscle cells of pig coronary artery, 455
  - , production by field stimulation of guinea-pig isolated urinary bladder, 15
  - , spontaneous and potassium chloride-induced, effect of cyproheptadine in guinea-pig taenia coli, 651
  - , vas deferens, effect of verapamil and nifedipine in relation to their local anaesthetic activity, 296P
  - , vas deferens, inhibition by adenosine, effects of 4-aminopyridine and quinidine, 296P
- Coping behaviour**, effects on the analgesic response to footshock stimulation in rats, 283P
- Core temperature**, effect of electrical stimulation of mid-brain raphe nuclei and intrahypothalamic injection of tryptamine, 216P
- Coronary artery**, dog, contracted by prostaglandin  $F_{2\alpha}$ , production of dose-related relaxation by histamine, 111
  - , dog isolated, effect of 5-hydroxytryptamine, 191P
  - , pig, effect of vasodilator agents on mechanical and electrical activities of smooth muscles, 455
- Coronary artery ligation**, effect of prostaglandins and inhibitors of prostaglandin synthesis on resulting early

- arrhythmias in rats, 155
- , induction of ventricular arrhythmias, effect of orally-administered nifedipine, nisoldipine and niludipine in rats, 12
- Coronary occlusion**, in dogs, effect of calcium antagonists on ST-T complex alterations and associated conduction abnormalities, 371
- Coronary vasodilator mediator**, dissociation with oxygen tension in perfusate in guinea-pig isolated heart, 192P
- Coronary vasodilators**, inhibition by, of site-specific binding of nitrobenzylthioinosine to human erythrocytes, 835P
- Cortex**, effect of clonidine on neurones, evidence for its action as partial agonist at  $\alpha_1$ -adrenoceptors, 757P
- , effect of lesions on neuroleptic and non-neuroleptic induced catalepsy in rats, 821P
- , guinea-pig, electrical stimulation of, changes in synaptosomal high affinity choline uptake, effect of atropine and physostigmine, 525
- , rat, effect of chronic antidepressant administration on  $\alpha_2$ - and  $\beta$ -adrenoceptors, 760P
- , rat, effect of ethanol on release of [ $^{14}$ C]- $\gamma$ -aminobutyric acid in mouse, 273P
- Cortisol**, effect on response of the depolarized, calcium-free mouse uterus to calcium in different stage of the oestrous cycle, 304P
- Corticosterone**, effect of chronic nicotine on plasma levels in stressed rats, 212P
- , naloxone increases serum concentrations in rats chronically treated with drugs of dependence, 489
- Corynanthine**, interaction with the cardiovascular effects of clonidine in conscious spontaneously hypertensive rats, 933P
- , pre- and postsynaptic  $\alpha$ -adrenoceptor blocking activity in rat vas deferens, 739
- Current noise analysis**, of action of mecamlamine at the postsynaptic channels of cat skeletal muscle, 248P
- Cyclic nucleotides**, and positive inotropism in mammalian cardiac muscle, 939P
- Cyclooxygenase**, effect of prednisolone on activity, 789P
- Cyclosporin-A**, effect on tumour-promoting and non-promoting phorbol ester-induced human lymphocyte mitogenesis, 968P
- Cyproheptadine**, calcium antagonistic effects on contraction, membrane electrical events and calcium influx in guinea-pig taenia coli, 651
- , effect on pressor effects of 5-hydroxytryptamine in rats, 143
- Cytoskeleton**, involvement in biological activities of leukotriene B<sub>4</sub>, 923P
- Cytotoxic**, drugs, in combination with flurbiprofen, enhanced anti-cancer effect, 208P

## D

- D600**, abolition of potassium ion-evoked catecholamine release in ouabain-treated cat adrenal glands, 673
- Danazol**, aromatase inhibitory properties, 777P
- B-Deoxyribonucleic acid helical receptor**, orientation of ethidium and carboxyphenylethidium about one turn, 47

- Depolarization**, produced by piperazine in rat sympathetic neurones, 445
- Dermatitis**, browntail moth, mediators for, 983P
- Desipramine**, effect on blood pressure responses evoked by acetylcholine, histamine and 5-hydroxytryptamine in rats, 143
- Detrusor electromyograms**, effect of cholinceptor blockade in the cat, 953P
- Dexamethosone**, effects on rat uterine contractility *in vitro*, 986P
- Dextran**, comparison with haemoglobin and dextran-haemoglobin on the maintenance of cardiovascular function in anaesthetized cats, 266P
- , covalent attachment to L-asparaginase, effect on anaphylactic reaction to the enzyme *in vivo* and *in vitro*, 966P
- , effect on peritoneal cells from leucopenic rats, 201P
- Dextran-haemoglobin complex**, comparison with haemoglobin and dextran solution on the maintenance of cardiovascular function in anaesthetized cats, 266P
- , possible substitute for blood, 191P
- Dextropropoxyphene**, induction of glutathione depletion in isolated hepatocytes, in relation to inhibition or induction of drug-metabolism, 302P
- Dextrophan**, effect on isolated rat colon, 681
- Diabetes**, effect on vascular reactivity in experimental rats and effect of treatment with sulphonylureas, 188P
- Diabetes mellitus**, induced by alloxan, structural and functional integrity of autonomic nerves in rats, 184P
- [ $^3$ H]-**diazepam**, temperature dependent characteristics of binding to rat cerebral cortex, 886P
- Dibenzoxazepine**, effect on membrane potential and input resistance in giant amoeba, 333
- Dielectric inhomogeneities**, effect on drug-receptor recognition, 47
- , in region of receptor, modification of electrical field, 39
- Differential pulse voltammetry**, identification of a 5-hydroxyindoleamine oxidation peak in the striatum and frontal cortex of the anaesthetized rat, 219P
- Diflunisal**, inhibition of mitochondrial calcium transport, 303P
- Digoxin**, effect of passive immunisation with digoxin-specific antibodies on toxicity, 775P
- Digoxin-specific antibodies**, effect of passive immunisation on digoxin handling and response, 775P
- Dihydrofolate reductase**, comparative studies in rabbit, rat and human brain, 860P
- 5,12-Dihydroxy acid** *see* **Leukotriene B<sub>4</sub>**
- 3,4-Dihydroxyphenylacetic acid**, effect of acute amphetamine administration on urinary excretion in monkeys, 571
- L-Dihydroxyphenylalanine**, behavioural and neurochemical effects of chronic administration, 903P
- , with benzerazide, induction of dopamine-dependent dyskinesias, 766P
- Diltiazem**, antagonism of  $\alpha$ -adrenoceptor mediated contractions in isolated saphenous vein of the dog, 942P
- , effect on calcium-current of *Helix* neurones, 87
- , effect on electrical and mechanical activities of smooth muscles of pig coronary artery, 455
- , effect on pressor responses mediated by stimulation of  $\alpha_1$ -,  $\alpha_2$ -adrenoceptors, angiotensin II and 5-hydroxytryptamine receptors in pithed rats, 839P

- , effect on the alternation of the ST-T complex and associated conduction abnormalities during coronary occlusion in dogs, 371
- Dimapril**, effect on mitogen-stimulated human lymphocyte proliferation, 137
- , inhibition of gastric acid secretion in the conscious pylorus ligated dog, 974P
- 2-(N,N,-dimethyl)-amino, 6,7-dihydroxy-1,2,3,4 tetrahydronaphthalene**, responses to, antagonism by  $\alpha$ -adrenoceptor antagonists, 254P
- 2-[2-(5-Dimethylaminomethylfuran-2-ylmethylthio)ethyl-amino]-5-(6-methylpyrid-3-yl-methyl)pyrimid-4-one trihydrochloride** *see* SKF 93479
- Dimethylaminopropyl-N,N-dibutylisothiurea H<sub>2</sub>SO<sub>4</sub> H<sub>2</sub>O** *see* SKF 93390
- Dimethylaminopropylisothiurea di HCl** *see* SKF 91488
- N,N-dimethylformamide**, effects on coaxially stimulated ileum and the taenia caecum preparations of guinea-pig, 300P
- 2,4-Dinitrophenol**, differential effects on contractile tension of and on sodium and calcium efflux from frog heart ventricular strips, 341
- Diphenhydramine**, suppression of histamine effects on smooth muscle membrane in guinea-pig basilar artery, 495
- [<sup>3</sup>H]-disaturated phosphatidylcholines**, overflow from adult rat superfused lung slices, 981P
- Disopyramide**, effective antidyrrhythmic and haemodynamic doses, in anaesthetized rats, 381
- Distal diuretics**, effect on renal magnesium clearance in rats, 780P
- Dithiobisnitrobenzoic acid**, effect on voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- Diuresis**, comparison of activity of BTS 39 542 and frusemide in mice, rats, rabbits and dogs, 359
- , studies of a new drug fenquizone, 245P
- [<sup>3</sup>H]-domperidone**, study of binding in rat striatum, comparison with [<sup>3</sup>H]-spiperone, 231P
- Dopamine**, effect of discrete, chronic infusion into rat nucleus accumbens, 899P
- , effect of hypophysectomy on increased cerebral turnover following sulpiride administration, 288P
- , effect on spontaneous and potassium release of [<sup>3</sup>H]- $\gamma$ -aminobutyric acid from rat substantia nigra *in vitro*, 389
- , endogenous, release from regions of rat brain *in vitro*, stimulation by thyrotrophin releasing hormone analogues, 227P
- , induction of natriuresis, an effect mediated via the adrenal gland, 304P
- , involvement in the analgesic response induced by foot-shock, 761P
- , limbic and striatal, changes in rats treated with morphine, 900P
- , reduction of content of an insect salivary gland on incubation in 6-hydroxydopamine, 838P
- , relationship between behavioural and *in vivo* voltammetric responses to, 908P
- , relationship with (+)-amphetamine-induced 5-hydroxytryptamine-dependent behaviours, 213P
- , stimulation of striatal adenylate cyclase preparations, absence of sodium ions does not explain lack of inhibition by sulpiride, 287P
- , striatal denervation, effect on neuroleptic resistant motor responses, 898P
- [<sup>3</sup>H]-dopamine**, effect of ephedrine on uptake and release in rat brain synaptosomes, 119
- , effect of neuroleptics on striatal release, 902P
- , inhibition of release by dopamine autoreceptors, role of endogenously released dopamine, 226P
- Dopamine agonists**, electrochemical detection, 224P
- , motor inhibitory effects in the mouse, 275P
- Dopamine antagonists**, differential effects on nomifensine hyperalgesia in a modified tail immersion test, 278P
- Dopamine autoreceptors**, inhibition of [<sup>3</sup>H]-dopamine release in caudate nucleus of the cat, role of endogenously released dopamine, 226P
- , supersensitivity following chronic haloperidol treatment in the rabbit, 901P
- Dopamine- $\beta$ -hydroxylase**, effect of cadmium ions on activity in isolated rat vas deferens, 261P
- , effect of chronic cadmium ion treatment on tissue content in rat, 851P
- Dopamine-mediated behaviours**, after six months phenothiazine neuroleptic treatment to young and aged rats, 225P
- Dopamine receptor agonists**, effect on pressor responses to sympathetic nerve stimulation in pithed rats, 927P
- , mechanism for production of bradycardia in anaesthetized normotensive rats, 271P
- Dopamine receptors**, and dopamine dependent behaviours in iron-deficient rats, 762P
- , cerebral, effect of  $\alpha$ -flupenthixol, 904P
- , cerebral, effect of repeated sulpiride administration on supersensitivity, 229P
- , effect of 2-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene and its derivatives on binding in rat striatum, 759P
- , effect of hypophysectomy on supersensitivity induced by repeated neuroleptic treatment, 905P
- , mediation of relaxation of human basilar artery *in vitro*, 944P
- , pharmacological evidence for the subclassification, 758P
- , presynaptic, characterization of those which modify tyrosine hydroxylase activity in rat striatal synaptosomes, 896P
- , presynaptic, evidence against the occurrence in sympathetic neurones innervating the sinoatrial node of the rat, 838P
- Dopamine-O-sulphates**, synthesis and authentication, 837P
- Dopaminergic mechanisms**, mediation of increase in locomotion and circling induced by ephedrine in rats, 119
- B-DNA helical receptor** *see* **B-Deoxyribonucleic acid helical receptor**
- Driving frequency**, effect on electromechanical effects of anthopleurin-A on rabbit isolated ventricular muscle preparation, 29
- Drug conjugation**, comparison in male and female rat liver cubes and isolated microsomes, 773P
- Drug receptor recognition**, electrostatic features, 39
- , molecular orientation and dielectric effects, 47
- Drug receptors**, sorting and delivery of proteins, a model, 780P

- Drugs**, encapsulation in erythrocytes as an intravenous delivery system, 877P
- , inhibition or induction of metabolism in relation to dextropropoxyphene-induced glutathione depletion in isolated hepatocytes, 302P
  - , synaptic targets of action in basal ganglia, 909P
- Dyskinesias**, dopamine-dependent, induction by L-dihydroxyphenylalanine and benserazide in guinea-pig, 766P
- Dysrhythmias**, effects of ORG 6001 and mexilitine in anaesthetized rats, 381

## E

- E. coli* endotoxin**, acute response to, effect of prostaglandin  $F_{2\alpha}$  and thromboxane  $B_2$  in anaesthetized cats, 792P
- , haemodynamic and metabolic effects, protection of cats by polymyxin B sulphate, 701
- 13-Edienoic acid** *see* U-46619
- 5,8,11,14-Eicosatetraenoic acid**, effect on vasoconstrictor response to noradrenaline and calcium in rat mesenteric blood vessels, 477
- Electrical activities**, effects of vasodilator agents on smooth muscle cells of coronary artery of the pig, 455
- Electrical kindling**, effect on brain amino acid concentrations in rats, 883P
- Electrical responses**, elicited by 5-hydroxytryptamine, mediation by cyclic adenosine 3',5'-monophosphate in *Aplysia* neurones, 747
- , to prostaglandin  $E_2$ , effect of loperamide in rat intestinal sheets, 563
- Electrical stimulation**, effect of amiloride on responses of rat vas deferens, 123
- , effect on substance P concentrations in mouse nervous system, 234P
  - , of brain slices, effect of adenosine on acetylcholine output, 764P
  - , of guinea-pig cortical slices, effect on synaptosomal high affinity choline uptake, effect of atropine and physostigmine, 525
  - , of midbrain raphe nuclei, effect on core temperature in rats, 216P
- Electrochemistry**, detection of dopamine agonists, 224P
- , detection of neuropeptides, 292P
- Electroconvulsive shock**, effect on numbers of  $\alpha_2$ -adrenoceptors in rat brain, 885P
- Electroencephalogram**, effect of oxolinic acid in rat, 399
- Electrograms**, epicardial unipolar and bipolar, changes in control coronary occlusion in dogs, 371
- Electromyograms**, detrusor, effect of cholinergic blockade in the cats, 953P
- Electrostatic field lines**, in drug receptor recognition, 39
- Encapsulation**, of drugs in erythrocytes as an intravenous delivery system, 877P
- Endogenous opiate peptide**, extraction from human plasma, 247P
- , involvement in pressor responses elicited by stimulation of afferent nerves in anaesthetized dogs, 105
  - , modulation *in vivo* of peristaltic reflex, 953P
- $\beta$ -Endorphin**, effect on isolated rat colon, 681
- Endothelial cells**, effect on bradykinin-induced relaxation of canine renal and pulmonary arteries, 10
- Endotoxin**, *E. coli*, haemodynamic effects, protection of cats against, by polymyxin B sulphate, 701
- Endplate current**, frog skeletal, increase of acetylcholine-receptor sensitivity by adenosine triphosphate, 505
- Enkephalin**, degradation by guinea-pig ileum, 301P
- Enkephalin**, Met-, [ $Arg^6, Phe^7$ ], immunoreactivity in bovine chromaffin granules compared with caudate, 808P
- , Met-, effect on isolated rat colon, 681
  - , Met-, effect on the release of purines from cerebral cortex slices of rats and mice, 171
  - , ultrastructural localization in substantia gelatinosa of spinal trigeminal nucleus, 893P
- Environmental temperature**, effect on hypothermic effects of cyclic guanosine 3',5'-monophosphate and  $N^2$ -2'-O-dibutyl guanosine 3',5'-monophosphate in cats, 405
- Enzymes**, acting on kallikrein substrate, appearance in inflamed tissue from adjuvant arthritic rats, 805P
- EP 045**, effect on arachidonic acid responses in the rabbit, guinea-pig and sheep, 790P
- Ephedrine**, dopamine-like properties in rat brain, 119
- Epicardium**, dog, stimulation of prostacyclin release, 553
- Ergometrine**, induction of hyperactivity following injection into nucleus accumbens, 864P
- Ergot alkaloid derivatives**, induction of hyperactivity following injection into nucleus accumbens, 864P
- Erythro-DL-1(7-methylindan-4-yloxy)3-isopropylamino-butan-2-ol** *see* ICI 118, 551
- Erythrocyte-associated**, antagonist to inhibitory mechanisms in the bovine retractor muscle, 181P
- Erythrocytes**, encapsulation of drugs in, as an intravenous delivery system, 877P
- Ethacrynic acid**, inhibition of histamine release from mast cells induced by A23187, 976P
- Ethanol**, blood concentrations, lowering by naloxone, 514
- , effect of chronic administration on rat liver and brain tryptophan metabolism, reversal by naloxone, 489
  - , effect of chronic treatment on membrane lipids in the mouse, 958P
  - , effect of tolerance on glucose utilization in mouse tissues, 869P
  - , effect on [ $^{14}C$ ]- $\gamma$ -aminobutyric acid release from mouse cortical slices, 273P
  - , induction of alterations in phospholipid methylation in rat brain synaptosomal membranes, 874P
  - , preference after chronic drinking of ethanol in mice, 959P
  - , tolerance in mice, effect of muscimol, amphetamine and chlorpromazine, 276P
- Ethidium**, orientation at B-DNA helical receptor, 47
- Ethyl- $\beta$ -carboline-3-carboxylate**, differential *in vivo* and *in vitro* potencies, 223P
- 2-(1-Ethyl-2-imidazolyl methyl)-1,4-benzodioxan** *see* RS21361
- 2-O-ethyl-tyrosine analogues of oxytocin**, inhibitory actions on human myometrium *in vitro*, 305P
- Ethylene glycol bis-(-aminoethyl ether) tetraacetic acid Ringer**, effect on contractile tension of frog heart ventricular strips, 341
- Ethylenediamine**, action on  $\gamma$ -aminobutyric acid receptors and uptake sites, 274P
- , analogues and derivatives, iontophoretic study of

structure-activity relationships, 887P

**N-ethylmaleimide**, inhibition of catecholamine secretory response to potassium, acetylcholine, calcium ion reinforcement and ouabain and blockade of rubidium uptake in perfused cat adrenal glands, 665

**Ethinylestradiol**, inhibition of irreversible binding to rat liver microsomes *in vitro*, 240P

—, irreversible binding to rat liver protein *in vivo*, 987P

**Etomidate**, potency alone or in mixtures with other short-acting intravenous anaesthetic agents in rats, 161

**Etorphine**, effect on isolated rat colon, 681

**Excitatory innervation**, to guinea-pig urinary bladder *in vitro*, pharmacological characterization, 15

## F

**Fatty-acid peroxides**, autofluorescence, 918P

**Feedback control systems**, simple electrical model for teaching the properties of, 313P

**Femoral artery**, rabbit, location for D-type 5-hydroxytryptamine receptors and  $\alpha$ -adrenoceptors, 619

**Fenoterol**, effect on isolated ring preparations of rat pulmonary artery, 547

**Fenquizone**, studies on, 245P

**Fever**, induced by pyrogen and prostaglandin E<sub>2</sub>, effects of anisomycin in cats, 786P

**Field stimulation**, production of contractions in isolated guinea-pig urinary bladder, 15

—, rebound contraction response of rat gastric corpus muscle, inhibition by perivascular nerve stimulation, 849P

**FLA-63**, blockade of oxolinic acid-related increase of waking and decrease of slow wave sleep in rats, 399

**5-Flourouracil**, toxicity and anti-tumour activity, effect of nandrolene decanoate in experimental murine colon tumours, 295P

**$\alpha$ -Flupenthixol**, effect of chronic administration on cerebral dopamine receptors and striatal acetylcholine levels, 904P

[<sup>3</sup>H]- **$\alpha$ -flupenthixol**, effect of striatal kainic acid lesions on binding in rat striatum, 232P

**Fluphenazine**, effect on dopamine-mediated behaviours in six months treatment in young not aged rats, 225P

**Flurbiprofen**, effect on arrhythmias resulting from coronary artery ligation in rats, 155

—, in combination with cytotoxic drugs, enhanced anticancer effect, 208P

**Folate**, maternal and foetal concentrations, effect of prenatal exposure to anti-convulsant agents, 957P

**Footshock stimulation**, analgesic response to, effect of coping behaviour in rats, 283P

—, induction of analgesia, involvement of dopamine in, 761P

**N-formylaminogluthethimide**, metabolite of aminogluthethimide in humans, 243P

**FPL 555712**, effect on the actions of leukotrienes C<sub>4</sub> and D<sub>4</sub> in guinea-pig isolated hearts, 789P

**Frontal cortex**, identification by differential pulse voltammetry of oxidation peak in the anaesthetized rat, 219P

**Frusemide**, comparison with BTS 39 542 for diuretic efficacy, 359

## G

**Gallamine**, regulation of muscarinic receptors in the heart and cerebral cortex, 877P

**Ganglion blocking drugs**, use dependent effects, 876P

**Gas chromatography-mass spectrometry**, demonstration of presence of metabolites of arachidonic acid formed in human gastrointestinal tissues, 435

**Gastric acid**, basal and stimulated, effects of indomethacin and methylxanthines on secretion *in vitro*, 970P

—, determination of activity of muscarinic and H<sub>2</sub>-receptor antagonists on secretion *in vitro*, 969P

—, effect of cimetidine and deglycyrrhizinized liquorice on secretion in man, alone and in combination, 971P

—, effect of 5-hydroxytryptamine on secretion by rat isolated stomach, 253P

—, effect of phosphodiesterase inhibition on secretion in rat isolated stomach, 973P

—, inhibition of secretion by dimaprit in conscious pylorus ligated dog, 974P

**Gastric corpus muscle**, rat, rebound contraction response to field stimulation, inhibition by perivascular nerve stimulation, 849P

**Gastric mucosa**, dog, comparison of acute effects of aspirin and paracetamol during shock, 972P

—, effects of cimetidine and deglycyrrhizinized liquorice on blood flow in man, alone and in combination, 971P

—, rat, stimulation of production of prostacyclin by BW 755C *in vitro*, 920P

—, rat isolated, effect of chlordiazepoxide, atropine and cimetidine on secretion, 593

**Gastric ulcers**, induced in rats by stress, reduction by benzodiazepines, 593

**Gastric vasculature**, rabbit, mediation of vasoconstriction and vasodilatation by histamine receptors, 205P

**Gastroepiploic artery**, dog, contracted by prostaglandin F<sub>2 $\alpha$</sub> , production of dose-related relaxation by histamine, 111

**Gastrointestinal tissues**, human, formation of metabolites of arachidonic acid, 435

**Glandular kallikrein substrate**, enzymes acting on, appearance in inflamed tissue from adjuvant arthritic rats, 805P

**Glandular kallikreins**, radioimmunoassay in human biological fluids, 806P

**Glucose**, depression of utilization in primary visual areas by quipazine, 858P

—, high extracellular levels, effects on axonal transport of glycoprotein, protein and noradrenaline in ligated postganglionic sympathetic nerves of the cat, 961P

—, utilization in tissues of ethanol tolerant mice, 869P

**Glucuronidation**, of 4-hydroxybiphenyl in hepatocytes isolated from diabetic rats, 853P

**L-Glutamate**, stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, effect of amino acid antagonists, 723

**Glutamate diethylester**, effect on stimulation of guanosine 3',5'-cyclic monophosphate by excitant amino acids in rat cerebellar slices, 723

**$\gamma$ -D-Glutamylglycine**, effect on stimulation of guanosine 3',5'-cyclic monophosphate by excitant amino acids in rat cerebellar slices, 723

**Glutathione**, dextropropoxyphene-induced depletion in isolated hepatocytes, in relation to inhibition or induc-

tion of drug metabolism, 302P

**Glycine**, effect on release of acetylcholine from rabbit retina *in vivo*, 879P

**Glycoprotein**, effect of high extracellular glucose on axonal transport in ligated postganglionic sympathetic nerves of the cat, 960P

**Growth hormone**,  $\alpha$ -receptor stimulated release, enhancement after 7 allylglycine-induced seizures in the photosensitive baboon, 861P

**Guanethidine**, effect on adrenergic transmission in rabbit ileum and pulmonary artery and guinea-pig vas deferens, 365

—, effect on anthopleurin-B-induced rhythmic contractions of guinea-pig vas deferens, 23

—, effect on electrically-induced excitatory contractions in isolated guinea-pig urinary bladder, 15

—, effect on outflow of tritium from rat vas deferens preloaded with [ $^3$ H]-noradrenaline, 853P

**Guanidine**, effect on outflow of tritium from rat vas deferens preloaded with [ $^3$ H]-noradrenaline, 853P

**Guanosine 3',5'-monophosphate**, cyclic, effect on rectal temperature and behavioural and autonomic activities in cat, 405

—, cyclic, stimulation by excitant amino acid agonists, effect of amino acid antagonists in rat cerebellar slices, 723

—, N<sup>2</sup>-2'-O-dibutyl, effect on rectal temperature and behavioural and autonomic activities in cat, 405

**Guanlyl imidodiphosphate**, effect on voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747

## H

**HA 966**, effect of stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, 723

**Haemodynamics**, effects of labetalol and sodium nitroprusside during minaxolone or halothane anaesthesia in dogs, 947P

—, pulmonary, effects of calcium antagonists, 945P

—, systemic and renal, comparison of effects of prostacyclin and captopril in conscious dogs, 945P

**Haemoglobin**, comparison with dextran-haemoglobin and dextran solution on the maintenance of cardiovascular function in anaesthetized cats, 266P

—, effect of orally administered propranolol on arterial concentrations in rats, 635

**Haemoglobin-dextran complex**, possible substitute for blood, 191P

**Haemoglobin-oxygen affinity**, effect of propranolol *in vivo* and *in vitro* in rats, 643

**Haemorrhagic shock**, cardiovascular effects of meptazinol, morphine and naloxone in rats, 930P

**Haloperidol**, antagonism of apomorphine evoked release of [ $^3$ H]- $\gamma$ -aminobutyric acid from rat substantia nigra *in vitro*, 389

—, effect of repeated administration on cerebral dopamine receptor supersensitivity, 229P

—, effect on supersensitivity of dopamine autoreceptors after chronic treatment in rabbit, 901P

—, reversal of oxolinic acid-induced actions on waking and slow wave sleep in rats, 399

**Halothane anaesthesia**, haemodynamic effects of labetalol and sodium nitroprusside in the dog, 947P

**Harmine**, effect on the action potential of the guinea-pig atrial muscle, dependence on the external calcium concentrations, 415

**Heart**, acute effects of propranolol in conscious rats, 635

—, effect of hypertension on reactivity in rat, 517

—, effect of 1-substituted dihydroisoquinoline derivatives, 938P

—, gallamine regulation of muscarinic receptors, 798P

—, guinea-pig, cimetidine-histamine interactions, 978P

—, guinea-pig, effect of indomethacin and FPL 555712 on the actions of leukotrienes C<sub>4</sub> and D<sub>4</sub>, 789P

—, guinea-pig isolated, apparent dissociation between the release of coronary vasodilator mediator and perfusate pO<sub>2</sub>, 192P

—, innervated *in situ* Langendorff perfused guinea-pig, 310P

—, isolated perfused coronary ligated, effect of calcium ion/potassium ion ratio and calcium slow channel antagonists, 834P

—, manipulation, effect on output of prostacyclin-like substance in epicardial irrigation fluid in dog, 553

—, rabbit, pharmacological mapping, 827P

—, rat, effect of meptazinol, morphine and naloxone in haemorrhagic shock, 930P

—, rat isolated, calcium dependence of ventricular fibrillation thresholds and the effects of verapamil, 193P

—, rat isolated, effect of antiarrhythmic drugs on ventricular fibrillation, 195P

**Heart rate**, analysis of autonomic neural control of, in awake and anaesthetized dogs, 185P

—, basal, effect on prostacyclin-induced bradycardia, 252P

—, effect of *E. coli* endotoxin in cats pretreated with polymyxin B sulphate, 701

—, effect of calcium antagonists in pithed rats, 926P

—, effect of orally administered propranolol in rats, 635

—, effect of ORG 6001 and mexilitine in anaesthetized rats, 381

—, effects of isoprenaline, angiotensin infusions and bilateral carotid occlusion in anaesthetized dog, 553

**Hemicholinium-3**, intracerebroventricular administration, effect on learning of a passive avoidance task in mice, 865P

**Hemidiaphragm**, rat, effect of adenosine, 950P

**Heparin**, effect on shape changes in blood platelets caused by biologically active peptides and nerve growth factor in rabbits, 533

**Hepatic microsomal drug metabolizing enzymes**, prevention of indomethacin-induced decrease by prostaglandin, 914P

**Hepatic microsomes**, effect of castration, testosterone and phenobarbitone on protein levels of male, female and *Tfm* mice, 97

**Hepatocytes**, isolated, dextropropoxyphene-induced glutathione depletion in relation to inhibition or induction of drug metabolism, 302P

—, isolated from diabetic rats, deficient glucuronidation of 4-hydroxybiphenyl, 772P

**Hexamethonium**, effect of pretreatment on contractile response of isolated rat colon to morphine, 681

—, effect on electrically-induced excitatory contractions in

- isolated guinea-pig urinary bladder, 15
- , effect on piperazine depolarization in rat sympathetic neurones, 445
- Hexobarbitone**, metabolism and action in mice, sexual dimorphism and the effects of the X-linked *Tfm* locus on, 97
- Hexobarbitone hydroxylase**, activity in livers from male, female and *Tfm* mice, 97
- High affinity choline uptake**, changes following electrical stimulation of guinea-pig cortical slices, effect of atropine and physostigmine, 525
- High pressure**, effect on  $\gamma$ -aminobutyric acid transmission *in vitro*, 880P
- High pressure neurological syndrome**, involvement of  $\gamma$ -aminobutyric acid, 221P
- , neural origin, 820P
- Hippocampus**, rat, presynaptic autoreceptors control acetylcholine release in synaptosomes, 220P
- Histamine**, blood pressure responses to, effect of mianserin, desipramine and maprotiline in rats, 143
- , bronchoconstrictor responses to, modulation by sympathetic nerve stimulation in pithed guinea-pigs, 855P
- , different mechanisms of action in isolated arteries of the dog, 111
- , effect after long term treatment with sodium cromoglycate or aminophylline in sensitized guinea-pigs, 601
- , effect of intra-arterial injection on plasma 'reciprocal coupling factor' in anaesthetized rats, 485
- , effect of polyamines, 48/80 and A23187 on release from human dispersed lung and adenoidal mast cells, 979P
- , effect of sodium cromoglycate on release from rabbit chopped lung tissue after antigen challenge, 601
- , effect on isolated rat colon, 681
- , effect on smooth muscle membrane in guinea-pig basilar artery, 495
- , induction of tone in swine isolated tracheal smooth muscle, regulatory mechanisms, 796P
- , interactions with cimetidine in guinea-pig heart and brain, 978P
- , involvement in  $\Delta^9$ -tetrahydrocannabinol-induced hypothermia in rats, 862P
- , iontophoretically applied, comparison of slow and fast depressant responses of rat cerebral cortical neurones, 238P
- , release from human right atrium, 7
- , release in peritoneal and pleural mast cells, 975P
- Histamine H<sub>2</sub>-receptor antagonist**, determination of activity on gastric acid secretion *in vitro*, 969P
- , SK & F 93479, 200P
- Histamine receptors**, blockade by maprotiline and mianserin in rat cardiovascular system, 143
- , comparison of distribution in atria from rats and guinea-pigs, 937P
- , effect of animal maturity on activity in the rat uterus, 306P
- , interactions to produce potentiation of histamine-induced relaxations of mesenteric and gastroepiploic arteries in dogs, 111
- , mediation of vasoconstriction and vasodilatation in the gastric vasculature of the rabbit, 205P
- Histamine H<sub>1</sub>-receptors**, binding of [<sup>3</sup>H]-mepyramine in guinea-pig airways, 982P
- , effect of temperature on binding of [<sup>3</sup>H]-mepyramine, 818P
- , mediation of cerebroarterial contraction induced by histamine in dogs, 111
- , role in accumulation of cyclic adenosine 3',5'-monophosphate in guinea-pig cerebral cortical slices, 237P
- , role in histamine-induced rat paw oedema, 977P
- Histamine H<sub>2</sub>-receptors**, mediation of relaxations of coronary and renal arteries induced by histamine in dogs, 111
- , role in histamine-induced rat paw oedema, 977P
- Histidyl-proline diketopiperazine**, inhibition of thyrotropin-releasing hormone-induced behavioural activity, 291P
- Hormonogen**, investigation of effectiveness of triglycyl-oxytocin as, in conscious dog, 810P
- Hydrochlorothiazide**, effects on renal magnesium clearance in rats, 780P
- Hydrocortisone**, induction of liver tryptophan pyrrolase, reduction of brain tryptophan and 5-hydroxytryptamine in rat, 695
- , inhibition of prostaglandin biosynthesis in rat peritoneal leucocytes is correlated with intracellular macrocortin levels, 322
- 5-, 12-, 15-Hydroperoxy-5,8,10,14-eicosatetraenoic acid**, inflammatory effect on rabbit skin, 429
- 12-Hydroxy-eicosatetraenoic acid**, presence in human gastrointestinal tissues and its action on the muscle layers, 435
- 4-Hydroxybiphenyl**, deficient glucuronidation in hepatocytes isolated from diabetic rats, 772P
- $\gamma$ -Hydroxybutyrate**, lack of effect on oxolinic acid disruption of sleep-wakefulness cycle in rat, 399
- 4-Hydroxyclonidine**, antinociceptive effects in the rat, 963P
- 6-Hydroxydopamine**, effect of denervation of arterial segments on clonidine facilitation of potassium chloride-induced purine release and clonidine-evoked contractions in rabbit pulmonary artery, 709
- , effect of lesions on regional dopamine concentrations and 5-hydroxytryptamine-dependent behaviours, 213P
- , effect on anthopleurin-B-induced rhythmic contractions of guinea-pig vas deferens, 23
- , reduction of dopamine and octopamine content of an insect salivary gland, 838P
- 5-Hydroxyindoleamines**, identification by differential pulse voltammetry of the oxidation peak in the striatum and frontal cortex of the anaesthetized rat, 219P
- 5-Hydroxyindoles**, effect of chronic nicotine administration on brain levels in stressed rats, 212P
- p-Hydroxymandelic acid**, effect of acute amphetamine administration on urinary excretion in monkeys, 571
- p-Hydroxyphenylacetic acid**, effect of acute amphetamine administration on urinary excretion in monkeys, 571
- 5-Hydroxytryptamine**, allosteric interaction between uptake mechanism and [<sup>3</sup>H]-imipramine binding site, 817P
- , characterization of the effect on N1E-115 neuroblastoma cells, 294P
- , decline in rat brain after induction of liver tryptophan pyrrolase by hydrocortisone, 695
- , effect of benzodiazepines and other anticonvulsant

- drugs on turnover in mouse brain, 812P
- , effect of depleting brain and spinal cord on footshock-induced analgesia, 218P
- , effect of naloxone on morphine-induced increase of synthesis in rat brain, 511
- , effect on canine isolated coronary arteries, 191P
- , effect on gastric acid secretion by rat isolated stomach, 253P
- , effect on isolated rat colon, 681
- , effect on shape of blood platelets of rabbit, 533
- , effect on smooth muscle membrane in guinea-pig basilar artery, 495
- , enhanced synthesis in rat brain, after chronic administration of drugs of dependence, reversal by naloxone, 489
- , *in vivo* and *in vitro* effects in hypothalamus, 889P
- , induction of contraction in urethra strips from guinea-pig, 353
- , induction of depolarization of rabbit nodose ganglia, investigation by the sucrose-gap method, 867P
- , induction of relaxation of porcine vena cava, possible involvement of cyclic adenosine 3',5'-monophosphate, 800P
- , induction of smooth muscle relaxation, analysis of receptors involved, 850P
- , involvement in the  $\Delta^9$ -tetrahydrocannabinol-induced hyperthermia in rats, 862P
- , responses of rat small intestine, effect of *N. brasiliensis* infection, 199P
- , selective inhibition of uptake *in vivo*, 888P
- , turnover and analgesic effect of morphine in chicken, 811P
- , voltage-dependent response of RB and LB neurones of abdominal ganglion of *Aplysia*, mediation by cyclic adenosine 3',5'-monophosphate, 747
- , blood pressure responses to, effect of mianserin, desipramine and maprotiline in rats, 143
- 5-Hydroxytryptamine agonists**, indole-containing, induction of 5-hydroxytryptamine-dependent myoclonus, 906P
- 5-Hydroxytryptamine antagonists**, effect on human isolated blood vessels, 831P
- , withdrawal from chronic treatment enhances the behavioural response to 5-methoxy-N,N'-dimethyltryptamine, 215P
- 5-Hydroxytryptamine-dependent behaviours**, amphetamine-induced, relationships with dopamine, 213P
- 5-Hydroxytryptamine nerve terminals**, localisation of [ $^3$ H]-imipramine binding sites, 217P
- 5-Hydroxytryptamine neurone**, activation, involvement in muscular response to morphine, 681
- 5-Hydroxytryptamine receptors**, blocked by mianserin in rat cardiovascular system, 143
- , in rat raphe nucleus, 290P
- , mechanisms in rabbit arteries, 619
- , multiple occurrence in cerebral cortex, 906P
- , stimulation, mediation of pressor responses, effect of diltiazem and verapamil in pithed rats, 839P
- 5-Hydroxytryptamine releasers**, relationship between behavioural and *in vivo* voltammetric responses to, 908P
- Hyoscine**, effect on respiratory stimulant and pressor effect of oxotremorine in rabbit, 587
- Hyperactivity**, induction following injections of ergot al-

- kaloid derivatives into nucleus accumbens, 864P
- Hyperalgesia**, induction by subcutaneous induction of calcitonin, 280P
- , nomifensine-induced, differential effects of dopamine antagonists in a modified tail immersion test, 278P
- Hyperreactivity**, of guinea-pig isolated airway smooth muscle, 180P
- Hypertension**, effect on cardiac reactivity and  $\beta$ -adrenoceptor number and affinity in rats, 517
- , effect of MPV-295, 931P
- , pulmonary, endotoxin-induced, effect of polymyxin B sulphate in cats, 701
- , sustained renovascular, in relation to incidence of retinopathy in dogs, 267P
- Hyperthermia**, buprenorphine-induced in rats, selective development of sensitization and tolerance, 900P
- , thyrotropin releasing hormone-induced, correlation between potentiation and  $\alpha$ -adrenergic effect of antidepressants, 81
- Hypolipidaemic agents**, effect on biliary lipid secretion in rats, 611
- Hypophysectomy**, effect on increased cerebral dopamine turnover following sulpiride administration, 288P
- , effect on striatal dopamine receptor supersensitivity induced by repeated neuroleptic treatment, 905P
- Hypotension**, production by ORG 6001 and mexilitine in anaesthetized rats, 381
- , systemic, endotoxin-induced, effect of polymyxin B sulphate in cats, 701
- Hypothalamus**, comparisons of effects of 5-hydroxytryptamine and tryptamine *in vivo* and *in vitro*, 889P
- Hypothermia**,  $\Delta^9$ -tetrahydrocannabinol-induced, involvement of brain histamine and 5-hydroxytryptamine, 862P
- Hypoxia**, protective effect of  $\alpha$ -tocopherol, 941P

# I

- ( $\pm$ )-**Ibotenate**, stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, effect of amino acid antagonists, 723
- ICI 118,551**, blockade of responses to  $\beta$ -adrenoceptor antagonists in isolated ring preparations of rat pulmonary artery, 547
- Ifenprodil**, determination of relative selectivity for blocking peripheral and central  $\alpha_1$ - and  $\alpha_2$ -adrenoceptors, 257P
- , pharmacological effects on cardiovascular system of the rat, 272P
- Ileum**, guinea-pig, antagonism of responses to 2(N,N-dimethyl)amino, 6,7-dihydroxy-1,2,3,4 tetrahydronaphthalene by  $\alpha$ -adrenoceptor antagonists, 254P
- , guinea-pig, coaxially stimulated, effect of N,N-dimethylformamide, 300P
- , guinea-pig, degradation of enkephalin, 301P
- , guinea-pig, morphine-treated, relation between morphine-dependence and naloxone contractions, 807P
- , rabbit, effect of (-)-, ( $\pm$ )-, (+)- propranolol, atenolol, guanethidine, bretylium and tetracaine on adrenergic transmission, 365

- Imidazole**, effect on thromboxane B<sub>2</sub> and prostaglandin E<sub>2</sub> production and mitogen-stimulated transformation in human blood mononuclear cells, 469
- , effect on voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- 4-(2-[1H-imidazol-1-yl]ethoxy)benzoic acid** *see* UK 37248
- 2-(2-imidazolyl methyl)-1,4-benzodioxans**, a series of selective  $\alpha_2$ -adrenoceptor antagonists, 255P
- Imipramine**, inhibitory action on monoamine transport, 890P
- , minimal dose to potentiate thyrotropin releasing hormone-induced hyperthermia, screening test for antidepressants which activated  $\alpha$ -adrenoceptor systems, 81
- [<sup>3</sup>H]-imipramine binding sites**, allosteric interaction with 5-hydroxytryptamine uptake mechanism, 817P
- , localisation on 5-hydroxytryptamine nerve terminals, 217P
- Impromidine**, effect on mitogen-stimulated human lymphocyte proliferation, 137
- Indoleamine mechanisms**, pre- and post-synaptic, involvement in tryptamine-induced myoclonus in guinea-pig, 286P
- Indomethacin**, effect on anthopleurin-B-induced rhythmic contractions of guinea-pig vas deferens, 23
- , effect on basal and stimulated gastric secretion *in vitro*, 970P
  - , effect on blood pressure, catecholamine release and adrenal blood flow in the anaesthetized, laparotomized dog, 824P
  - , effect on effects of amiloride on contractions and the release of tritium from rat vas deferens preloaded with [<sup>3</sup>H]-noradrenaline, 123
  - , effect on output of prostacyclin-like substance in epicardial irrigation fluid in dog, 553
  - , effect on the actions of leukotrienes C<sub>4</sub> and D<sub>4</sub> in guinea-pig isolated hearts, 789P
  - , effect on vasoconstrictor responses to noradrenaline and calcium in rat mesenteric blood vessels, 477
  - , induction of decrease in hepatic microsomal drug metabolizing enzymes, prevention by prostaglandin, 914P
- Inhibitory mechanisms**, erythrocyte-associated antagonism in bovine retractor penis muscle, 181P
- Inotropic responses**, of isolated atria to noradrenaline and isoprenaline in aortacoarcted hypertensive and normotensive rats, 517
- , positive, and cyclic nucleotides in mammalian cardiac muscle, 939P
  - , to noradrenaline and adrenaline in guinea-pig atria, attenuation by adenosine, 940P
  - , to ouabain in ventricular strips of frog heart, 341
- Insulin**, induction of enhanced uptake of noradrenaline in guinea-pig atrial strips, 325
- Intestinal smooth muscle**, rat, changes in responsiveness to agonists after infection with *N. brasiliensis*, 199P
- Intestine**, rat, effect of loperamide on prostaglandin-induced secretion, 563
- , rat large, characterization of excitatory opiate receptors, 246P
- Intracranial self-stimulation**, effect of nicotine in non-tolerant rats, 212P
- Inward current**, voltage-dependent, elicited by 5-hydroxytryptamine, mediation by cyclic adenosine 3',5'-monophosphate in *Aplysia* neurones, 747
- Iontophoresis**, study of structure-activity relationships between analogues and derivatives of ethylenediamine, 887P
- Iron deficiency**, effect on dopamine receptors and dopamine-dependent behaviours in rats, 762P
- Isoarecaidine propyl ester**, depressor effects in the cat due to stimulation of central  $\gamma$ -aminobutyric acid receptors, 816P
- Isobutyl methylxanthine**, effect on voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- Isoguvacine propyl ester**, depressor effects in the cat due to stimulation of central  $\gamma$ -aminobutyric acid receptors, 816P
- Isolated-tissue bath**, suitable for automated control, 309P
- Isoprenaline**, decreased reactivity to, in isolated trachea from guinea-pigs sensitized to IgE- and IgG-like antibodies, effect of sodium cromoglycate and aminophylline, 601
- , effect of intravenous administration on plasma noradrenaline concentration in man and dog, 823P
  - , effect on isolated atria from aorta-coarcted hypertensive and normotensive rats, 517
  - , effect on isolated ring preparations of rat pulmonary artery, 547
  - , measurement of relaxant effects in guinea-pig contracted tracheal muscle in the presence and or absence of carbachol, 73
  - , relaxation of bladder strips from guinea-pig, 353
- [<sup>3</sup>H]-( $\pm$ )-Isoprenaline**, extraneuronal O-methylation by guinea-pig tracheal rings *in vitro*, 854P
- Isoquinoline derivatives**, cardiac effects, 938P

## K

- Kainate**, stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, effect of amino acid antagonists, 723
- Kainic acid lesion**, in right caudate nucleus, effect on ability of nigral cells to take up and retain [<sup>3</sup>H]- $\gamma$ -aminobutyric acid, 389
- , striatal, effect on [<sup>3</sup>H]-spiperone and [<sup>3</sup>H]- $\alpha$ -flupenthixol binding in rat striatum, 232P
- Kallikrein**, glandular, radioimmunoassay in human biological fluids, 806P
- Kallikrein substrate**, glandular, enzymes acting on, appearance in inflamed tissue from adjuvant arthritic rats, 805P
- Ketamine**, effect on  $\gamma$ -aminobutyric acid transmission *in vitro*, 880P
- Ketanserin**, effect on human isolated blood vessels, 831P
- Kidney**, rat, effect of distal diuretics on magnesium clearance, 780P
- Kindling**, electrical, effect on brain amino acid concentrations in rats, 883P
- Kynurenine**, role of synthesis in mechanism of decline in rat brain 5-hydroxytryptamine after induction of liver tryptophan pyrrolase by hydrocortisone, 695

## L

- Labetalol**, haemodynamic effects during mioxolone or halothane anaesthesia in dogs, 947P
- Lactic acid**, effect of oxotremorine on blood levels in rabbits pretreated with atropine-methyl-nitrate, 587
- Lanthanum cations**, effect on calcium-current of *Helix* neurones, 87
- Laparotomy**, effect on the effects of catecholamine on blood pressure, catecholamine release and adrenal blood flow in dogs, 824P
- Lateral septum**, effect of neurotoxin lesions on social and aggressive behaviours, 766P
- Leech**, control of body wall tension by Retzius cells, 983P
- Lesions**, basal ganglia, effect on tremorine-induced rigidity in rats, 910P
- , cortical, effect on neuroleptic and non-neuroleptic induced catalepsy in rats, 821P
  - , neurotoxin-induced in lateral septum, changes in social and aggressive behaviours, 766P
- Leucocytes**, effect of cytotoxic procedures on numbers in rats, 201P
- , effect of leukotriene B<sub>4</sub> and prostaglandin E<sub>1</sub> on accumulation in rabbit skin, 429
  - , polymorphonuclear, production of platelet-activating factor, 916P
  - , rat peritoneal, hydrocortisone inhibition of prostaglandin biosynthesis is correlated with intracellular macrocortin levels, 322
- Leucopenia**, and dextran anaphylactoid reaction in the rat, 201P
- Leukotriene B<sub>4</sub>**, biological activities and the cytoskeleton, 923P
- , effect on isolated smooth muscle preparations, 924P
  - , *in vivo* properties, 788P
  - , induction of neutrophil aggregation, 925P
  - , inflammatory effect on rabbit skin, 429
- Leukotriene B<sub>4</sub>-like material**, generation from rat basophilic leukaemia cells, and its action in guinea-pig lung *in vitro*, 922P
- Leukotriene C**, action on motility of guinea-pig stomach *in vivo* and *in vitro*, 926P
- Leukotriene C<sub>4</sub>**, actions in guinea-pig isolated hearts and the effect of indomethacin and FPL 55712, 789P
- Leukotriene D**, action on motility of guinea-pig stomach *in vivo* and *in vitro*, 926P
- Leukotriene D<sub>4</sub>**, actions in guinea-pig isolated hearts and the effect of indomethacin and FPL 55712, 789P
- Levorphanol**, effect on isolated rat colon, 681
- Lidocaine**, effect on electromechanical effects of antrophleurin-A on rabbit isolated ventricular muscle preparation, 29
- Lignocaine**, influence of varying hepatic arterial flow contribution to rat perfused liver on systemic availability, 244P
- Limbic forebrain**, effect of 40 and 60 day morphine treatment on dopamine in rats, 900P
- Lincomycin**, pre- and postjunctional blocking action at snake neuromuscular junction, 298P
- Lipid**, biliary secretion, effect of hypolipidaemic agents in rats, 611
- , biliary secretion, effect of 3,5,5-trimethylcyclohexanol in the rat, 241P
  - , effect of S-alkylthiuroniums on fluidity in membranes, 781P
  - , membrane, effect of chronic ethanol treatment in the mouse, 958P
- Lipogenesis**, inhibition in rat by Rowachol when measured *in vivo*, 878P
- Lipolysis**, method for studying in cultures of human adipocytes, 917P
- , negative feedback control by endogenous prostaglandins, 785P
- 15-Lipoxygenase**, assay for lipoxygenase inhibitors, 919P
- Lipoxygenase inhibitors**, assay using 15-lipoxygenase, 919P
- , stimulation of prostacyclin production from the rat gastric mucosa *in vitro*, 920P
- Lipoxygenase products**, role in C5a-induced vascular permeability, 921P
- Liquorice**, deglycyrrhizinated, effect on resting gastric mucosal blood flow and acid secretion in man, alone and in combination with cimetidine, 971P
- Lisuride**, binding to human brain, 859P
- Lithium ions**, extracellular concentrations, effect on [<sup>3</sup>H]-sulpiride binding, 228P
- Liver**, guinea-pig, action of 2-phenylisatogen on adenosine nucleotide and phosphate metabolism in mitochondria, 961P
- , rat, effect of (–)-mexiletine on irreversible inhibition of monoamine oxidase by histamine and some analogues, 962P
  - , rat, effect of naloxone on chronic effects of morphine on tryptophan metabolism, 511
  - , rat, irreversible binding of ethinyloestradiol to protein *in vivo*, 987P
  - , rat, metabolism of tryptophan, naloxone reversal of chronic effects of morphine, 211P
  - , rat, time course of action of phenobarbitone on blood flow, 779P
  - , rat, reversal by naloxone of the effects of drugs of dependence on tryptophan metabolism, 489
  - , rat perfused, influence of varying hepatic arterial flow contribution on systemic availability of lignocaine, 244P
- Liver cubes**, a comparison of drug conjugation in male and female rats, 773P
- Liver microsomes**, rat, inhibition of irreversible binding of ethinyloestradiol *in vitro*, 240P
- Locomotor activity**, changes in rats following acute and chronic treatments with nicotine, 765P
- , effect of thyrotrophin-releasing hormone analogues, 868P
  - , spontaneous, increase after intraperitoneal administration of ephedrine to rats, 119
- Loperamide**, inhibition of prostaglandin-induced intestinal secretion in the rat, 563
- Lorazepam**, sedative and antiulcer activity in rats, 593
- Lung**, guinea-pig, action of leukotriene B<sub>4</sub>-like material generated from rat basophilic leukotriene B<sub>4</sub>-like material, 922P
- , guinea-pig isolated, bronchoconstrictor response to  $\beta$ -phenylethylamine, 980P
  - , human, cancer and prostaglandins, 207P
  - , human dispersed cells, effects of polyamines, 48/80 and A23187 on histamine release, 979P
  - , presence and auto-regulation of prolactin receptor,

955P

- , rat, alteration of breakdown of adenosine disulphate in streptozocin-induced diabetes, 804P
- , rat, method for study of surfactant secretion, 981P
- , rat superfused slices, overflow of [ $^3\text{H}$ ]-disaturated phosphatidylcholines, 981P
- Lymphocytes**, effect of imidazole compounds on mitogen-stimulated proliferation in human blood mononuclear cells, 469
- , human, binding of [ $^3\text{H}$ ]-spiperone, 233P
- , human, effect of histamine on mitogen-stimulated proliferation, 137
- , human, induction of mitogenesis by tumour-promoting and non-promoting phorbol esters, effect of cyclosporin-A, 968P
- Lysine vasopressin**, inhibitory actions on human myometrium *in vitro*, 305P

## M

- M7**, evaluation of selectivity for  $\alpha_1$ - and  $\alpha_2$ -adrenoceptors *in vitro*, 841P
- Magnesium**, effect of distal diuretics on renal clearance in rats, 780P
- Magnesium ions**, effect on responses of mesenteric arteries from normotensive and spontaneously hypertensive rats, 270P
- , extracellular concentrations, effect on potassium-ion-evoked secretory response in ouabain-treated cat adrenal glands, 673
- Maprotiline**, effect on blood pressure responses evoked by acetylcholine, histamine and 5-hydroxytryptamine in rats, 143
- , minimal dose to potentiate thyrotropin releasing hormone-induced hyperthermia, test for screening anti-depressants which activate  $\alpha$ -adrenoceptor systems, 81
- Mast cells**, A23187-induced histamine release, inhibition by ethacrynic acid, 976P
- , human adenoidal, effects of polyamines, 48/80 and A23187 on histamine release, 979P
- , peritoneal and pleural, histamine release and  $\text{Ca}^{2+}$ -adenosine triphosphatase activities, 975P
- Maturity**, effect on histamine receptor activity in the rat uterus, 306P
- Mazindol**, effect on sympathetic mechanisms in diet-induced thermogenesis in rat, 539
- Mecamylamine**, action at the postsynaptic channels of cat skeletal muscle, noise analysis, 248P
- , effect on anthopleurin-B-induced rhythmic contractions of guinea-pig vas deferens, 23
- Mechanical activities**, effects of vasodilator agents on smooth muscle cells of coronary artery of the pig, 455
- Medrohalol**, partial agonist effects at  $\beta_1$ -adrenoceptors, 847P
- Membranes**, effect of chemical irritants on potential and input resistance in giant amoeba, 333
- , effect of chronic ethanol treatment on lipids in the mouse, 958P
- , effect of cyproheptadine on electrical properties of guinea-pig taenia coli, 651
- , effect of S-alkylthiuroniums on fluidity of proteins and lipids, 781P
- , effect of vasodilator agents on potential and conductance in smooth muscle cells of pig coronary artery, 455
- , potential and resistance, effect of clonidine and adrenaline in guinea-pig, 419
- , study of electrical properties in smooth muscle cells in guinea-pig basilar artery, 495
- Meptazinol**, binding to opiate receptors, 866P
- , cardiovascular effects in haemorrhagic shock in rats, 930P
- [ $^3\text{H}$ ]-mepyramine**, binding to histamine  $\text{H}_1$ -receptors in guinea-pig airways, 982P
- , effect of temperature on binding to histamine  $\text{H}_1$ -receptors, 818P
- Mesenteric artery**, effect of magnesium ions on, in normotensive and spontaneously hypertensive rats, 270P
- Mesenteric blood vessels**, rat, evidence against the involvement of prostaglandins in the vasoconstrictor action of calcium ion, 477
- Metabolic acidosis**, after *E. coli* endotoxin administration, effect of polymyxin B sulphate in cats, 701
- Metaclopramide**, induction of stereotyped behaviour, antagonism by apomorphine in the guinea-pig, 767P
- Methacholine**, effect after long-term treatment with sodium cromoglycate or aminophylline in sensitized guinea-pigs, 601
- (+)-**Methadone**, effect on isolated rat colon, 681
- (-)-**Methadone**, effect on isolated rat colon, 681
- Methergoline**, effect of pretreatment on circling and increased locomotor activity induced by ephedrine in rats, 119
- Methohexitone**, potency alone or in mixtures with other short-acting intravenous anaesthetic agents in rats, 161
- 5-Methoxy-N'-N'-dimethyltryptamine**, enhanced behavioural responses to, after withdrawal from chronic 5-hydroxytryptamine antagonist treatment, 215P
- 3-Methoxy-4-hydroxyphenylglycol**, effect of acute amphetamine administration on urinary excretion in monkeys, 571
- Methoxyverapamil**, effects on twitch responses to single pulse stimulation in the rat bisected vas deferens, 952P
- N-methyl-D-aspartate**, stimulation of guanosine 3',5'-cyclic monophosphate, effect of amino acid antagonists, 723
- Methyl- $\beta$ -carboline-3-carboxylate**, convulsant properties in mouse, 805P
- 3-Methyl histamine**, effect on mitogen-stimulated human lymphocyte proliferation, 137
- $\alpha$ -**Methyl- $\gamma$ -tyrosine**, antagonism of oxolinic acid on waking, slow wave and rapid eye movement sleep in rats, 399
- O-Methylation**, extraneuronal, of [ $^3\text{H}$ ]-( $\pm$ )-isoprenaline in guinea-pig tracheal rings *in vitro*, 854P
- 1-Methylimidazole**, effect on thromboxane  $\text{B}_2$  and prostaglandin  $\text{E}_2$  production and mitogen-induced lymphocyte proliferation in human blood mononuclear cells, 469
- 2-Methylimidazole**, effect on thromboxane  $\text{B}_2$  and prostaglandin  $\text{E}_2$  production and mitogen-induced lymphocyte proliferation in human blood mononuclear cells, 469
- Methyltetrahydrofolate**, neurotoxicity in rat cerebellum,

- 870P
- Methylxanthines**, effects on basal and stimulated gastric secretion *in vitro*, 970P
- Methysergide**, blockade of responses of guinea-pig urethra to 5-hydroxytryptamine, 353
- , effect of pretreatment on contractile response of isolated rat colon to morphine, 681
  - , effect on anthopleurin-B-induced rhythmic contractions of guinea-pig vas deferens, 23
  - , effect on shape changes in blood platelets caused by biologically active peptides and nerve growth factor in rabbits, 533
  - , effect on voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- Metiamide**, lack of reversal of effects of dimaprit and nordinaprit on mitogen-stimulated human lymphocyte proliferation, 137
- Mexiletine**, antidysrhythmic and haemodynamic effects in anaesthetized rats, 381
- (–)-**Mexiletine**, prevention of irreversible inhibition of rat liver monoamine oxidase by histamine and some analogues, 962P
- Mianserin**, effect on blood pressure responses evoked by acetylcholine, histamine and 5-hydroxytryptamine in rats, 143
- Micro-computer** system, collection and analysis of data from tissue bath experiments, 988P
- Microsomes**, comparison of drug conjugation with male and female rat liver cubes, 773P
- Microspheres**, radioactively labelled, determination of regional blood flow, 314P
- Microtubule assembly**, in brain, effects of phospholipids and phospholipases *in vitro*, 863P
- Midbrain**, rat, behavioural effects of microinjection of excitatory amino acid antagonists, 235P
- Midbrain raphe nuclei**, effect of electrical stimulation on core temperature in rats, 216P
- Migraine**, limited usefulness of rabbit as a research model due to absence of 5-hydroxytryptamine receptors in extracranial circulation, 619
- Minaxolone** anaesthesia, haemodynamic effects of labetalol and sodium nitroprusside in the dog, 947P
- Mitochondria**, action of 2-phenylisatogen on adenosine nucleotide and phosphate metabolism in guinea-pig liver, 961P
- Mitochondrial membrane**, inhibition of transport of calcium by diflunisal, 303P
- Mitogenesis**, induction in human lymphocytes by tumour-promoting and non-promoting phorbol esters, effect of cyclosporin-A, 968P
- Molecular orientation**, effect on drug-receptor recognition, 47
- Molybdenum cations**, effect on calcium-current of *Helix* neurones, 87
- Monoamine oxidase**, effect of insulin on activities in guinea-pig cardiac tissue, 325
- , irreversible inhibition by histamine, effect of (–)-mexiletine in rat liver, 962P
- Monoamines**, deamination in anococcygeus muscle of the rat, 198P
- , inhibitory action of imipramine on transport, 812P
- Monophasic action potential**, effect of verapamil and diltiazem during coronary occlusion in dogs, 371
- Monosynaptic pathways**, morphological studies in neuronal networks, 831P
- Morphine**, analgesic effect in chicken and 5-hydroxytryptamine turnover, 811P
- , antagonizing action of buprenorphine in rats on antinociceptive effects, 627
  - , cardiovascular effects in haemorrhagic shock in rats, 930P
  - , chronic application to rats in drinking water, naloxone precipitated withdrawal symptoms, 282P
  - , chronic effects on rat liver and brain tryptophan metabolism, reversal by naloxone, 211P, 511
  - , effect of chronic administration on rat liver and brain tryptophan metabolism, reversal by naloxone, 489
  - , effect on isolated rat colon, 681
  - , effect on limbic and striatal dopamine in rats, 822P
  - , effect on pressor responses to nerve stimulation in anaesthetized dogs, 105
  - , effect on release of purines from cerebral cortex slices of rats and mice, 171
  - , relationship of dependence with naloxone contractions in guinea-pig ileum treated with morphine, 807P
- Motility**, of guinea-pig stomach *in vitro* and *in vivo*, effect of leukotrienes C and D, 926P
- Motor inhibition**, effect of dopamine agonists in the mouse, 275P
- Motor responses**, neuroleptic resistant, changes after striatal dopamine denervation, 898P
- MPV-295**, acute effects on rat brain noradrenaline turnover, 819P
- , binding and effects at  $\alpha_2$ -adrenoceptors in the rat, 931P
- Muscarinic receptor antagonists**, determination of activity on gastric acid secretion *in vitro*, 969P
- Muscarinic receptors**, activation causes respiratory stimulation in conscious rabbit, 587
- , gallamine regulation in heart and cerebral cortex, 798P
  - , lack of antagonism by desipramine, maprotiline and mianserin in rat cardiovascular system, 143
  - , selective antagonist action of pancuronium and alcuronium, 784P
- Muscimol**, behavioural effects on ethanol tolerant mice, 276P
- , effect on resting membrane resistance in embryonic sensory neurones of chick, 579
  - , responses of rat superior colliculus, 815P
- Muscle**, rat skeletal, reconstruction of neuromuscular junctions after assault by notexin, 249P
- Muscle action potential**, effect of prazosin in guinea-pig, 189P
- Muscle fibres**, slow- and fast-twitch mammalian skeletal, effect of *Anemona sulcata* toxin ATX-II on action potentials, 249P
- Muscle layers**, human, effect of metabolites of human gastrointestinal tissues, 435
- Myenteric plexus**, guinea-pig, activation of membrane potassium conductance by clonidine, 419
- Myocardial ischaemia**, release of thromboxane, effect of aspirin, 205P
- , suppression by nifedipine, niludipine and nisoldipine of ventricular fibrillation, 830P
- Myoclonus**, 5-hydroxytryptamine-dependent, induction by indole-containing 5-hydroxytryptamine agonists, 906P
- , tryptamine-induced, involvement of pre- and post-

- synaptic indoleamine mechanisms in guinea-pig, 286P
- Myometrium**, human, inhibitory actions of 2-O-ethyl-tyrosine analogues of oxytocin and lysine vasopressin *in vitro*, 305P
- , rat pregnant, influence of stimulant relaxant drugs on prostacyclin production, 792P

## N

- N1E-115 neuroblastoma cells**, characterization of the effect of 5-hydroxytryptamine, 294P
- Nalorphine**, effect on isolated rat colon, 681
- Naloxone**, blockade of contractile response of isolated rat colon to opiates, 681
- , cardiovascular effects in haemorrhagic shock in rats, 930P
- , effect on depressant effect of morphine on chemoreceptor discharge and excitatory action of adenosine in cats, 129
- , effect on food and drink intake, 210P
- , effect on neophobia, 210P
- , induction of contractions in relation to morphine dependence, in guinea-pig ileum treated with morphine, 807P
- , interaction with calcitonin in the production of analgesia in the mouse, 279P
- , mechanism of antagonism of acute alcohol intoxication in rats, 514
- , potentiation of pressor responses elicited by stimulation of afferent nerves in anaesthetized dogs, 105
- , precipitation of withdrawal symptoms in rats chronically treated with small concentrations of morphine in drinking water, 282P
- , reversal of the chronic effects of morphine on the rat liver and brain tryptophan metabolism, 211P, 511
- , reversal of the effects of chronic administration of drugs of dependence on rat liver and brain tryptophan metabolism 489
- Naltrexone**, effect on antinociceptive effect of buprenorphine in rats, 627
- Nandrolone decanoate**, effects on toxicity and anti-tumour activity of 1-(2-chloroethyl)-3 cyclohexyl-1-nitrosourea and 5-flourouracil in experimental murine colon tumours, 295P
- Natriuresis**, dopamine-induced, an effect mediated via the adrenal gland, 304P
- Neophobia**, effect of naloxone, 210P
- Neostigmine**, effect on voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- Nerve growth factor**, effect on shape of blood platelets of rabbit, 533
- Nerve terminals**, 5-hydroxytryptamine, localization of [<sup>3</sup>H]-imipramine binding sites, 217P
- Nervous system**, mouse, effect of anisomycin and electrical stimulation on concentrations of substance P, 234P
- Neural control**, of vasopressin release, a central cholinergic link, 239P
- Neuroeffector transmission**, adrenergic, effect of chlorpromazine in isolated blood vessels, 943P
- , autonomic effect of antibiotics, 848P
- Neuroleptic drugs**, induction of supersensitivity in striatal

- dopamine receptors, effect of hypophysectomy, 905P
- , typical and atypical, effects on striatal [<sup>3</sup>H]-dopamine release, 902P
- Neuromuscular junctions**, pre- and postjunctional blocking actions of clindamycin and lincomycin in snake, 298P
- , reconstruction in rat skeletal muscle following assault by myotoxic neurotoxin, notexin, 249P
- Neuromuscular transmission**, in guinea-pig basilar artery, 495
- Neuronal networks**, morphological studies on monosynaptic pathways, 909
- Neurones**, comparative study of actions of opioids in different areas of brain, 285P
- , cortical, effects of clonidine, evidence of action as partial agonist at  $\alpha$ -adrenoceptors, 757P
- , development in discrete areas of rat brain during neonatal thyroid deficiency, 763P
- , effects of piperazine on rat sympathetic ganglia, 445
- , *Helix*, actions of calcium antagonists and other divalent cations on calcium-currents, 87
- , rat trigeminal nucleus caudalis, effect of iontophoretically administered peptide neurotransmitter candidates, 819P
- , sympathetic (in sinoatrial node of the rat), evidence against the occurrence of presynaptic dopamine receptors, 838P
- Neuropeptides**, effect on the release of acetylcholine from rabbit retina *in vivo*, 879P
- , electrochemistry, a novel method for assay and *in vivo* detection, 292P
- Neurotransmitters**, effect of catechol on uptake and release in rat brain slices, 715
- Neutrophils**, induction of aggregation by platelet activating factor and leukotriene B<sub>4</sub>, 925P
- Nickel cations**, effect on calcium-current of *Helix* neurones, 87
- Nicotinamide-adenine dinucleotide couples**, reversal of the disturbance of redox states in acute alcohol intoxication in rats by naloxone, 514
- Nicotine**, effect of acute and chronic treatments on rat locomotor activity, 765P
- , effect of chronic administration on rat liver and brain tryptophan metabolism, reversal by naloxone, 489
- , effect of chronic treatment on plasma corticosterone and brain 5-hydroxyindoles in stressed rats, 212P
- , effect on intracranial self-stimulation in non-tolerant rats, 212P
- Nifedipine**, effect on contractions of vas deferens in relation to its local anaesthetic activity, 296P
- , effect on early, life-threatening ventricular arrhythmias resulting from acute myocardial ischaemia, 12
- , effect on electromechanical effects of anthopleurin-A on rabbit isolated ventricular muscle preparation, 29
- , effect on twitch responses to single pulse stimulation in the rat bisected vas deferens, 948P
- , suppression of ventricular fibrillation resulting from acute myocardial ischaemia, 830P
- Niludipine**, effect on early, life-threatening ventricular arrhythmias resulting from acute myocardial ischaemia, 12
- , suppression of ventricular fibrillation resulting from acute myocardial ischaemia, 830P
- Nimodipine**, predilective relaxation of isolated cerebral blood vessels, contracted with autologous blood, 268P

- [<sup>3</sup>H]-nipecotic acid**, use of binding to study  $\gamma$ -aminobutyric acid uptake sites, 882P
- Nippostrongylus brasiliensis***, effect of infection on responsiveness of rat intestinal smooth muscle to agonists, 199P
- Nisoldipine**, effect on early, life-threatening ventricular arrhythmias resulting from acute myocardial ischaemia, 12
- , suppression of ventricular fibrillation resulting from acute myocardial ischaemia, 830P
- Nisoxetine**, minimal dose to potentiate thyrotropin releasing hormone-induced hyperthermia, test for screening anti-depressants which activate  $\alpha$ -adrenoceptor systems, 81
- Nitrobenzylthioinosine**, inhibition of site specific binding to human erythrocytes by coronary vasodilators and benzodiazepines, 835P
- Nitroglutethimide**, metabolite of aminoglutethimide in humans, 243P
- Nociceptive testing method**, determination of antinociceptive activity of some  $\mu$ - and  $\kappa$ -opiate agonists, 284P
- Nodose ganglia**, rabbit, 5-hydroxytryptamine induced depolarization, investigation by sucrose-gap method, 867P
- Nomifensine**, induction of hyperalgesia, differential effects of dopamine antagonists in a modified tail immersion test, 278P
- , minimal dose to potentiate thyrotropin releasing hormone-induced hyperthermia, test for screening anti-depressants which activate  $\alpha$ -adrenoceptor systems, 81
- Non-adrenergic non-cholinergic inhibitory nerves**, responses to stimulation, effect of nucleotide pyrophosphatase in guinea-pig isolated taenia coli, 319
- Non-adrenergic transmitter**, feedback regulation of the release in rat vas deferens, 183
- Non-cholinergic-non-adrenergic neurotransmission**, evidence in pharmacological characterization of the excitatory innervation to the guinea-pig urinary bladder *in vitro*, 15
- Non-steroidal anti-inflammatory drugs**, inhibition of late asthmatic response to antigen challenge, 984P
- Noradrenaline**, action of 4-aminopyridine on release from sympathetic nerve terminals in rabbit blood vessels, 177P
- , autoregulation of release in brain of convulsive mutant mouse and  $\alpha$ -adrenoceptor binding, 233P
- , changes in plasma concentration following intravenous isoprenaline in man and dogs, 823P
- , dilatation of rat uterine arterioles by activating  $\beta_1$ -adrenoceptors, 941P
- , dose-response curves in presence and absence of increasing doses of  $\alpha$ -adrenoceptor antagonists in isolated rat vas deferens, 739
- , effect of cadmium ions on output from isolated rat vas deferens, 261P
- , effect of catechol on uptake and release in slices of rat cerebral cortex and thalamus, 715
- , effect of chronic cadmium ion treatment on tissue content in rat, 851P
- , effect of high extracellular glucose on axonal transport in ligated postganglionic sympathetic nerves of the cat, 960P
- , effect of insulin on uptake in guinea-pig atrial strips, 325
- , effect of MPV-295 on rat brain turnover, 898P
- , effect on isolated atria from aorta-coarcted hypertensive and normotensive rats, 517
- , effect on isolated ring preparations of rat pulmonary artery, 547
- , effect on sodium ion, potassium ion-adenosine-triphosphatase activity in brown adipose tissue *in vitro* and *in vivo* oxygen consumption, 539
- , effect on smooth muscle membrane in guinea-pig basilar artery, 495
- , induction of contraction in urethra strips from guinea-pig, 353
- , inhibition of release by amiloride causes inhibition of contractions of rat vas deferens, 123
- , method for estimation of the negative feedback control of release from sympathetic nerves in rat vas deferens, 182P
- , positive and chronotropic responses to, attenuation by adenosine in guinea-pig atria, 940P
- , release from guinea-pig vas deferens, increase after anthopleurin-B, 23
- , uptake in brown adipose tissue, effect of citalizol and anorectic drugs, 539.
- Nordimaprit**, effect on mitogen-stimulated human lymphocyte proliferation, 137
- Nortryptiline**, minimal dose to potentiate thyrotropin releasing hormone-induced hyperthermia, test for screening anti-depressants which activate  $\alpha$ -adrenoceptor systems, 81
- Notexin**, assault on neuromuscular junctions in rat skeletal muscle, reconstruction, 249P
- Nucleotide pyrophosphatase**, antagonism of responses to adenosine 5'-triphosphate and non-adrenergic non-cholinergic inhibitory nerve stimulation in the guinea-pig isolated taenia coli, 319
- Nucleus accumbens**, rat, behavioural effects of discrete, chronic infusion of dopamine, 899P
- , rat, effect of thyrotrophin-releasing hormone analogues on catecholamine metabolism and release, 871P
- , rat, [<sup>3</sup>H]-spiperone binding to two sites in homogenates, 895P
- , induction of hyperactivity following injection of ergot alkaloid derivatives into, 864P

## O

- Octopamine**, reduction of content of an insect salivary gland on incubation in 6-hydroxydopamine, 838P
- Oestrogen**, inhibition of uterine responses to, in ovariectomized rats, 240P
- Olfactory cortex**, evidence for presynaptic inhibition, 890P
- Opiate receptor agonists**,  $\kappa$ - and  $\mu$ -, antinociceptive activity, determined by combined nociceptive testing method, 284P
- Opiate receptors**, binding of meptazinol, 866P
- , characterization in rat large intestine, 246P
- , naloxone-sensitive, mediation of opiate-induced contractile responses, 681

- Opiates**, activity profiles at  $\mu$ -,  $\delta$ - and  $\kappa$ -binding sites, 893P
- Opioids**, comparative study of actions on single neurones in different brain regions, 285P
- , difference in inhibitory potency in epididymal and prostatic halves of mouse vas deferens, 852P
  - , endogenous, extraction from human plasma, 247P
- ORG 2766**, septal administration effect on social interaction between male rats, 277P
- ORG 6001**, antidyrrhythmic and haemodynamic effects in anaesthetized rats, 381
- Ouabain**, differential effects on contractile tension of, and on sodium and calcium efflux from frog heart ventricular strips, 341
- , effect on catecholamine secretory response evoked by calcium ion reintroduction in cat adrenal glands, 665
  - , induction of purine release, effect of morphine or Met-enkephalin in cerebral cortex slices or rats and mice, 171
  - , treatment of cat adrenal glands, effect on potassium ion evoked catecholamine release, 673
- Ovalbumin**, excretory, protection against fatal anaphylaxis to egg-whites in guinea-pig, 201P
- Ovariectomy**, effect on [ $^3$ H]-scopolamine binding to male and female rats, 866P
- , effect on uterine responses to oestrogen in rats, 240P
- Oxolinic acid**, effect on the sleep-wakefulness cycle of the rat, 399
- Oxygen**, effect of cizlazindol and anorectic drugs on resting consumption in rat, 539
- , effect of orally administered propranolol on uptake in conscious rats, 635
  - , effect of propranolol on uptake and extraction in rat arteries, 643
- Oxygen-haemoglobin affinity**, effect of propranolol *in vivo* and *in vitro* in rats, 643
- Oxygen tension**, in perfusate, dissociation with spontaneous coronary vasodilator mediator release in guinea-pig isolated hearts, 192P
- Oxytocin analogues**, inhibitory actions on human myometrium *in vitro*, 305P

## P

- pA<sub>2</sub>**, determination of muscarinic and H<sub>2</sub>-receptor antagonists on gastric acid secretion *in vitro*, 969P
- PAF-acether** *see* **Platelet activating factor**
- Pancreas**, rat, autoradiographical localization of cholecystokinin-receptor binding, 858P
- Pancuronium**, selective muscarinic antagonist action, 784P
- Pangamic acid**, a nutritional and therapeutic agent, 299P
- Papaverine**, effects on electrical and mechanical activities of smooth muscle cells of pig coronary artery, 455
- Paracetamol**, effect on canine gastric mucosa during shock, 972P
- , effect on fever produced by bacterial endotoxin in cats, 405
- Passive avoidance tasks**, effect of intracerebroventricular administration of hemicholinium-3 on learning, 865P
- Paw oedema**, rat, histamine-induced, role of H<sub>1</sub>- and H<sub>2</sub>-receptors, 977P
- Peltiphyllum peltatum extract**, effect on binding of substance P and other peptides, 294P
- Pentazocine**, effect on isolated rat colon, 681
- Pentobarbitone**, mixture with alphaxalone depression of synaptic transmission in *in vitro* preparations of guinea-pig olfactory cortex, 161
- Peptide neurotransmitter candidates**, iontophoresis in the rat trigeminal nucleus caudalis, lack of correlation of effect with sensory responses of neurones, 819P
- Peptides**, effect of *Peltiphyllum peltatum* extract on binding, 294P
- , related to substance P, differential effects on smooth muscle preparations, 954P
- Pergolide**, mechanism for production of bradycardia in the anaesthetized normotensive rats, 271P
- Pericardectomy**, effect on output of prostacyclin-like substance from epicardial irrigation fluid in anaesthetized dogs, 553
- Peristaltic reflex**, modulation *in vivo* by endogenous opioids, 953P
- Peritoneal cavity**, rat, mediation of the vascular permeability responses to zymosan by the complement fragment C5a in the peritoneal cavity of the rabbit, 787P
- Perivascular nerve stimulation**, effect on smooth muscle membrane of guinea-pig basilar artery, 495
- , inhibition of rebound contraction of rat gastric corpus muscle to field stimulation, 849P
- Permeability**, vascular, C5a-induced dependence on lipoxygenase products, 921P
- , vascular, effect of platelet-activating factor on rabbit skin, 916P
- Peroxidase**, fatty-acid, autofluorescence, 918P
- Pethidine**, effect on isolated rat colon, 681
- PGI<sub>2</sub>** *see* **Prostacyclin**
- pH gradient**, contribution to uptake into synaptosomes and synaptic vesicles, 872P
- Pharmacological mapping**, of rabbit heart, 827P
- Pharmacy courses**, correlative study of entry qualifications and performance in pharmacology, 209P
- Phenobarbitone**, effect of chronic administration on rat liver and brain tryptophan metabolism, reversal by naloxone, 489
- , effect on hexobarbitone-induced sleeping times in male, female and *Tfm* mice, 97
  - , effect on rat liver and brain metabolism and serum corticosterone concentration, with and without naloxone, 489
  - , time course of action on liver blood flow in rat, 779P
- Phenothiazine neuroleptics**, effect on dopamine-mediated behaviours in six months' treatment in young and aged rats, 225P
- Phenoxybenzamine**, blockade of  $\alpha$ -adrenoceptors and neuronal and extraneuronal uptakes in rat pulmonary artery, 547
- , effect of pretreatment on circling and increased locomotor activity induced by ephedrine in rats, 119
  - , effect on the relationship between *in vivo* pressor responses to  $\alpha$ -adrenoceptor agonists and *in vitro* receptor binding, 935P
- Phentolamine**, abolition of excitatory junction potentials in smooth muscle membrane of guinea-pig basilar artery, 495
- , assessment of  $\alpha$ -adrenoceptor selectivity, 262P
  - , effect on anthopleurin-B-induced rhythmic contractions in guinea-pig vas deferens, 23

- , effect on clonidine facilitation of potassium-chloride-induced purine release and clonidine-evoked contractions in rabbit pulmonary artery, 709
- , effect on effects of amiloride on contractions and the release of tritium from rat vas deferens preloaded with [<sup>3</sup>H]-noradrenaline, 123
- , effect on electrically-induced excitatory contractions in isolated guinea-pig urinary bladder, 15
- , pA<sub>2</sub> values for antagonism of 5-hydroxytryptamine and noradrenaline in rabbit arteries, 619
- , reversal of clonidine and adrenaline effects on membrane potassium conductance in myenteric neurones in guinea-pig, 419
- Phenylacetic acid**, effect of acute amphetamine administration on urinary excretion in monkeys, 571
- Phenylephrine**, sensitivity of rat saphenous artery to, effect of thyroidectomy or propylthiouracil, 811P
- Phenylethylamine**, effect of acute amphetamine administration on urinary excretion in monkeys, 571
- β-Phenylethylamine**, bronchoconstrictor response of guinea-pig isolated lung, 980P
- 2-Phenylisatogen**, action on adenosine nucleotide and phosphate metabolism in mitochondria isolated from guinea-pig liver, 961P
- Phorbol esters**, tumour-promoting and non-promoting, effect of cyclosporin-A on induction of mitogenesis in human lymphocytes, 968P
- Phosphate**, action of 2-phenylisatogen on metabolism in mitochondria from guinea-pig liver, 961P
- Phosphatidylcholines**, [<sup>3</sup>H]-disaturated, overflow from rat superfused lung slices, 981P
- Phosphatidylinositol**, metabolism in GH<sub>3</sub> pituitary tumour cells stimulated by thyrotrophin releasing hormone, 967P
- Phosphodiesterase**, effect of inhibition on gastric acid secretion in the rat isolated stomach, 973P
- Phospholipases**, effects on brain microtubule assembly *in vitro*, 863P
- Phospholipid mediators**, effect on platelet activation, 965P
- Phospholipids**, effects on brain microtubule assembly *in vitro*, 863P
  - , ethanol-induced alterations in methylation in rat brain synaptosomal membranes, 874P
- Physostigmine**, effect on changes in synaptosomal high affinity choline uptake following electrical stimulation of guinea-pig cortical slices, 525
  - , effect on electrically-induced excitatory contractions in isolated guinea-pig urinary bladder, 15
  - , induction of vasopressor responses in anaesthetized rats, effects of clonidine, 929P
  - , plus acetylcholine, effect on body temperature in cats, 405
- Picrotoxin**, effect on piperazine depolarization in rat sympathetic neurones, 445
- Pimozide**, effect of pretreatment on circling and increased locomotor activity induced by ephedrine in rats, 119
- Pineal gland**, rat, effect of antidepressants on β-adrenoceptor function, 897P
- Piperazine**, effects on rat sympathetic neurones, 445
- Piperidine-2,3-dicarboxylic acid**, *cis*-, effect on stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, 723
- Pipradrol**, effect on the acquisition of responding with conditioned reinforcement in rats, 149
- Pithed rats**, antagonism of responses to 2(N,N-dimethyl) amino,6,7-dihydroxy-1,2,3,4 tetrahydronaphthalene by α-adrenoceptor antagonists, 254P
  - , effect of α<sub>1</sub>- and α<sub>2</sub>-adrenoceptor antagonists on endogenous catecholamines, 258P
- Pituitary tumour cells**, stimulation by thyrotrophin releasing hormone of phosphatidylinositol metabolism, 967P
- Pizotifen**, pA<sub>2</sub> values for antagonism of 5-hydroxytryptamine and noradrenaline in rabbit arteries, 619
- Plasma**, defective protein binding in uraemia, extraction of binding inhibitors from normal urine, 956P
  - , human, extraction of endogenous opioid, 247P
  - , human and dog, changes in noradrenaline concentration following intravenous isoprenaline, 823P
  - , protein binding of theophylline and aminophylline, 876P
  - , stressed rats, effect of chronic nicotine administration on corticosterone levels, 212P
- Plasma exudation**, effect of 5-, 12-, 15-eicosatetraenoic acid and leukotriene B<sub>4</sub> on rabbit skin, 429
- Platelet-activating factor**, effect on vascular permeability in rabbit skin, 916P
  - , induction of neutrophil aggregation, 925P
- Platelets**, human, medication of activation by phospholipid mediators, 965P
  - , human, [<sup>3</sup>H]-yohimbine binding to α-adrenoceptors, 802P
  - , rabbit, shape changes induced by biologically active peptides and nerve growth factor, 533
- Polyamines**, effect on histamine release from human dispersed lung and adenoidal mast cells, 979P
- Polymyxin B sulphate**, protection of cats against the haemodynamic and metabolic effects of *E. Coli* endotoxin, 701
- Polyornithine**, effect on shape of blood platelets in rabbits, 533
- Polypeptides**, excitatory effect on guinea-pig vas deferens, 23
- Positive inotropic response**, to insulin, effect of catecholamine depletion and propranolol in guinea-pig atrial strips, 325
- Postsynaptic channels**, of cat skeletal muscle, action of mecamlamine, noise analysis, 248P
- Potassium**, activation of membrane conductance in myenteric neurones by clonidine in guinea-pig, 419
  - , induction of contractions, effects of vasodilator agents in smooth muscle cells of pig coronary artery, 455
  - , induction of release of [<sup>3</sup>H]-γ-aminobutyric acid from rat substantia nigra *in vitro*, inhibition by apomorphine, 389
- Potassium chloride**, effect of amiloride on responses of rat vas deferens, 123
  - , effect of increased concentrations on acetylcholine content of guinea-pig cortical slices, 525
  - , induction of contractions in guinea-pig taenia coli, effect of cyproheptadine, 651
  - , induction of [<sup>3</sup>H]-purine release, effect of clonidine in rabbit pulmonary artery, 709
- Potassium ion/calcium ion ratio**, effect on arrhythmias in isolated perfused coronary ligated heart, 834P
- Potassium ions**, effect of deprivation on catecholamine

- release from perfused cat adrenal glands, 665
- , extracellular concentrations, effect on catecholamine release in cat adrenal glands treated with ouabain and perfused with Krebs-bicarbonate solution, 673
- , permeability of membrane of giant amoeba to, effect of chemical irritants, 333
- Prazosin**, assessment of  $\alpha$ -adrenoceptor selectivity, 262P
- , mechanism of action at the sympathetic nerve-muscle junction of arterioles of guinea-pig, 189P
- Prednisolone**, effect on cyclooxygenase activity, 789P
- Pressor agents**, effect of sensitivity of baroreceptor reflex in man, 949P
- Pressor responses**, elicited by stimulation of afferent nerves in anaesthetized dogs, potentiation by naloxone, 105
- , mediation by stimulation of  $\alpha_1$ -,  $\alpha_2$ -adrenoceptors, angiotensin II and 5-hydroxytryptamine receptors in pithed rats, effects of diltiazem and verapamil, 839P
- , to  $\alpha$ -adrenoceptor agonists and other vasoconstrictor agents in pithed rats, attenuation by urethane, 826P
- , to  $\alpha$ -adrenoceptor agonists in relation to *in vitro* receptor binding after phenoxybenzamine, 935P
- , to sympathetic nerve stimulation in pithed rats, differential effects of dopamine receptor and  $\alpha_2$ -adrenoceptor agonists, 927P
- Presynaptic inhibition**, evidence in olfactory cortex, 890P
- Probulcol**, studies into mechanism of action, 776P
- Procetofenic acid**, effect on biliary lipid secretion in rats, 611
- Proestrous stage**, of sexual cycle, effect on [ $^3\text{H}$ ]-scopolamine binding to brain of male and female rats, 866P
- Prolactin receptor**, presence and autoregulation in the lung, 955P
- Propafenone**, effective antidysrhythmic and haemodynamic doses, in anaesthetized rats, 381
- Propanid**, potency alone or in mixtures with other short-acting intravenous anaesthetic agents in rats, 161
- Propranolol**, acute effects on blood circulation and on oxygen uptake in conscious rats, 635
- , effect on conscious blood pressure and vascular responsiveness in normotensive and hypertensive rats, 932P
- , effect on effects of amiloride on contractions and the release of tritium from rat vas deferens, preloaded with [ $^3\text{H}$ ]-noradrenaline, 123
- , effect on electrically-induced excitatory contractions in isolated guinea-pig urinary bladder, 15
- , effect on lactic acidosis induced by oxotremorine in rabbit, 587
- , effect on output of prostacyclin-like substance in epicardial irrigation fluid in dog, 553
- , effect on positive inotropic response to insulin in guinea-pig atrial strips, 325
- , effect of pretreatment on circling and increased locomotor activity induced by ephedrine in rats, 119
- , inhibition of the first pass metabolism in the pithed rat, correlation of *in vitro* and *in vivo* pharmacokinetic parameters, 772P
- , treatment in DOCA/salt rats, effect of adrenalectomy or aminogluthethimide, 985P
- (+)-Propranolol**, effects on adrenergic transmission in rabbit ileum and pulmonary artery and guinea-pig vas deferens, 365
- (-)-Propranolol**, effects on adrenergic transmission in rabbit ileum and pulmonary artery and guinea-pig vas deferens, 365
- (±)-Propranolol**, effect of chronic treatment on blood pressure and tissue reactivity in spontaneously hypertensive rats, 187P
- , effect of peripheral presynaptic  $\beta$ -adrenoceptor blockade on anti-hypertensive single doses in adrenal demululated spontaneously hypertensive rats, 260P
- , effect on adrenergic transmission in rabbit pulmonary artery and ileum and guinea-pig vas deferens, 365
- Propylthiouracil**, effect on sensitivity of rat saphenous artery to phenylephrine, 811P
- Prostacyclin**, comparison with effects of captopril on systemic and renal haemodynamics in conscious dogs, 945P
- , effect on arrhythmias resulting from coronary artery ligation in rats, 155
- , effect on human muscle layers, 435
- , effect of intra-arterial injection on plasma 'reciprocal coupling factor' in anaesthetized rats, 485
- , induction of bradycardia, dependence on basal heart rate, 252P
- , potentiation of bradykinin-induced plasma exudation in rabbit skin, 429
- , production by rat pregnant myometrium, influence of stimulant and relaxant drugs, 794P
- , stabilization by serum albumin, 206P
- , stimulation of production by BW 755C from rat gastric mucosa *in vitro*, 920P
- , stimulation of release from epicardium of anaesthetized dogs, 553
- Prostaglandin 'reciprocal coupling factor'**, increase of plasma activity after intra-arterial injections of prostaglandins in anaesthetized rats, 485
- Prostaglandin A<sub>1</sub>**, effect on responses to calcium depressed by indomethacin and 5,8,11,14-eicosatetraenoic acid in rat mesenteric blood vessels, 477
- Prostaglandin D<sub>2</sub>**, presence in human gastrointestinal tissues and its actions on muscle layers, 435
- Prostaglandin E<sub>1</sub>**, effect of intra-arterial injection on plasma 'reciprocal coupling factor' in anaesthetized rats, 485
- , effect on shape changes caused by biologically active peptides and nerve growth factor on rabbit blood platelets, 533
- Prostaglandin E<sub>2</sub>**, 13,14-dihydro-15-keto, effect of intra-arterial injection on plasma 'reciprocal coupling factor' in anaesthetized rats, 485
- , effect of imidazole compounds on production in human blood mononuclear cells, 469
- , effect of intra-arterial injection on plasma 'reciprocal coupling factor' in anaesthetized rats, 485
- , effect on arrhythmias resulting from coronary artery ligation in rats, 155
- , failure to overcome the inhibitory effect of indomethacin and 5,8,11,14-eicosatetraenoic acid on responses to calcium in rat mesenteric blood vessels, 477
- , febrile responses to, effect of anisomycin in cats, 786P
- , generation in epicardium of anaesthetized dogs, 553
- , induction of intestinal secretion in rat, effect of loperamide, 563
- , potentiation of bradykinin-induced plasma exudation

- in rabbit skin, 429
- , presence in human gastrointestinal tissues and its action on muscle layers, 435
- , role in vasoconstrictor action of noradrenaline in rat mesenteric blood vessels, 477
- Prostaglandin F<sub>1α</sub>**, 6-keto, presence in human gastrointestinal tissues and its actions on muscle layers, 435
- , 6-oxo-, generation in epicardium of anaesthetized dogs, 553
- Prostaglandin F<sub>2α</sub>**, effect on arrhythmias resulting from coronary artery ligation in rats, 155
- , effect on the acute response to *E. coli* endotoxin in anaesthetized cats, 792P
- , presence in human gastrointestinal tissues and its action on muscle layers, 435
- Prostaglandin I<sub>2</sub>** *see* Prostacyclin,
- Prostaglandins**, and human lung cancer, 207P
- , endogenous, negative feedback control of lipolysis, 785P
- , evidence that synthesis is not essential to vasoconstrictor action of calcium ion in rat mesenteric blood vessels, 477
- , hydrocortisone inhibition of biosynthesis in rat peritoneal leucocytes is correlated with intracellular macrocortin levels, 322
- , prevention of indomethacin-induced decrease in hepatic microsomal drug metabolizing enzymes, 914P
- , role in anaphylactic contractions of the guinea-pig isolated stomach, 251P
- Prostanoid receptors**, mediation of bronchoconstriction in the anaesthetized guinea-pig and dog, 913P
- ‘ $\psi$ ’ **Prostanoid receptors**, antagonism by TR4979 in airways, 795P
- , selectivity of TR4979 for, 912P
- Prostanoids**, effect on human basilar artery *in vitro*, 267P
- , generation in epicardium of anaesthetized dogs, 553
- , tracheal relaxant effects are dependent on their contractile effects, 911P
- Protein**, defective binding in plasma in uraemia, extraction of binding inhibitors from normal urine, 956P
- , effect of high extracellular glucose on axonal transport in ligated post-ganglionic sympathetic nerves of the cat, 960P
- , effect of S-alkylthiuroniums on fluidity in membranes, 781P
- , rat liver, irreversible binding of ethynyloestradiol *in vivo*, 987P
- Protoveratrine**, stimulation of guanosine 3',5'-cyclic monophosphate effect of amino acid antagonists in rat cerebellar slices, 723
- Pulmonary artery**, rabbit, effect of (–), (±), (+)-propranolol, atenolol, guanethidine, bretylium and tetraacaine on adrenergic transmission, 365
- , rabbit, facilitation of potassium chloride-induced purine release by clonidine, 709
- , rat, mediation of relaxation of isolated ring preparations by  $\beta_1$ - and  $\beta_2$ -adrenoceptors, 547
- Pulmonary haemodynamics**, effect of calcium antagonists, 946P
- [<sup>3</sup>H]-**purine**, facilitation by clonidine of potassium chloride-induced release from rabbit pulmonary artery, 709
- Purines**, effect of morphine and Met-enkephalin on release from cerebral cortex of rats and mice, 171

- , mediation of effects of morphine in central nervous system, 171
- Putrescine**, relationship with the anti-inflammatory action of sponge exudate, 204P
- 2-Pyridylethylamine**, effect on mitogen-stimulated human lymphocyte proliferation, 137
- 4-Pyridylethylamine**, effect on mitogen-stimulated human lymphocyte proliferation, 137
- Pyrogen**, febrile responses to, effect of anisomycin in cats, 786P

## Q

- Quinidine**, effect on adenosine inhibition of vas deferens contractions, 296P
- , effect on responses to isolated urinary tract of guinea-pig to adenosine triphosphate, 353
- Quipazine**, depression of glucose utilization in primary visual areas, 858

## R

- R 28935**,  $\alpha$ -adrenoceptor blocking properties, 844
- , cardiovascular effects, involvement of central  $\alpha_1$  and  $\alpha_2$ -adrenoceptors in the conscious cat, 190P
- Radioimmunoassay**, of glandular kallikreins in human biological fluids, 806
- Raphé nucleus**, rat, location of 5-hydroxytryptamine receptors, 290P
- Rapid eye movement sleep**, effect of oxolinic acid in rats, 399
- Rat basophilic leukaemia cells**, generation of leukotriene B<sub>4</sub>-like material, and its action in guinea-pig lung *in vitro*, 922P
- Raubasine**, pre- and postsynaptic  $\alpha$ -adrenoceptor blocking activity in rat vas deferens, 739
- Rauwolscine**, interaction with cardiovascular effects of clonidine in conscious spontaneously hypertensive rats, 933P
- Rebound contraction**, of rat gastric corpus muscle in response to field stimulation inhibition by perivascular nerve stimulation, 849P
- Receptors**, binding *in vitro*, in relation to *in vivo* pressor responses to  $\alpha$ -adrenoceptors after phenoxybenzamine, 935P
- , involvement in 5-hydroxytryptamine-induced smooth muscle relaxation, 850P
- Reciprocal coupling factor**, plasma activity, effect of prostaglandins, acetylcholine and histamine in anaesthetized rats, 485
- Reflex vagal bradycardia**, clonidine-induced potentiation in anaesthetized cats, 265P
- Relaxant drugs**, effect of prostacyclin production in rat pregnant myometrium, 794P
- Relaxations**, induction in canine renal and pulmonary arteries, dependence on intact endothelial cells, 10
- , of circular smooth muscle of guinea-pig stomach, mediation by catecholamine receptor mechanisms, 179P
- Renal artery**, dog, contracted by prostaglandin F<sub>2α</sub>, production of dose-related relaxation by histamine, 111

- Renal haemodynamics**, comparison of effects of prostacyclin and captopril in conscious dogs, 945P
- Reserpine**, effect on anthopleurin-B-induced rhythmic contractions of guinea-pig vas deferens, 23
- , plus  $\alpha$ -methyl- $p$ -tyrosine, effect of pretreatment on circling and increased locomotor activity induced by ephedrine in rats, 119
- Respiration**, effect of oxotremorine on rate in rabbits pretreated with atropine-methyl-nitrate, 587
- Respiratory acid-base<sup>2</sup> balance**, role in  $\alpha_1$ - and  $\alpha_2$ -adrenoceptor agonism, 804P
- Resting membrane potential**, effect of sea anemone toxin ATX-II in innervated and denervated rat skeletal muscle, 61
- Resting membrane resistance**, effect of  $\gamma$ -aminobutyric acid in embryonic sensory neurones of chick, 579
- Resting metabolic rate**, increase by ciclazindol in rats in the absence of central nervous system stimulation, 770P
- Retina**, rabbit, effect of  $\gamma$ -aminobutyric acid agonists, glycine and neuropeptides on acetylcholine release *in vivo*, 879P
- Retinopathy**, low incidence in dogs with sustained renovascular hypertension, 267P
- Retractor penis muscle**, bovine, location of an erythrocyte-associated antagonist of inhibitory mechanisms, 181P
- Retzius cells**, control of leech body wall tension, pharmacological aspects, 983P
- Right atrium**, effect of *E. coli* endotoxin on pressure and filling pressure, protection by polymyxin B sulphate in cats, 701
- Righting reflex**, effect of short-acting intravenous anaesthetic agents in rats, 161
- Rigidity**, tremorine-induced, effect of basal ganglia lesions in rats, 910P
- [<sup>3</sup>H]-Ro 15-1788**, autoradiographical localization in rat brain *in vitro*, 813P
- Ro20-1724**, effect of voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- Rota-rod performance**, effect of caffeine and chlordesmethyldiazepam, together and separately, in mice, 822P
- Rowachol**, inhibition of lipogenesis in rat when measured *in vivo*, 878P
- RS 21361**, selectivity for  $\alpha_2$ -adrenoceptors as determined by *in vitro*, *in vivo* and ligand binding studies, 845P
- Rubidium**, uptake into cat perfused adrenal glands, effects of ouabain and N-ethylmaleimide, 665
- RX 781094**, neuropharmacological evaluation, 843P
- , selective antagonist for  $\alpha_2$ -adrenoceptors, 842P
- Ryanodine**, effect on electromechanical effects of anthopleurin-A on rabbit isolated ventricular muscle preparation, 29
- adrenoceptor mediated contractions by diltiazem and verapamil, 942P
- [<sup>3</sup>H]-scopolamine**, binding to brain of male and of female rats, effects of ovariectomy versus the progestrous stage of the sexual cycle, 866P
- Sea anemone toxin ATX-II**, mechanical and electrophysiological effects on rat innervated and denervated skeletal muscle, 61
- Second messenger**, role of cyclic 3',5'-adenosine monophosphate in voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- Secretion**, effect of chlordiazepoxide, atropine and cimetidine in rat isolated gastric mucosa, 593
- Sedation**, induction by benzodiazepines in stressed rats, 593
- Seizures**, allylglycine-induced, enhancement of  $\alpha$ -receptor stimulated growth hormone release in the photosensitive baboon, 861P
- , effect on benzodiazepine receptor number and  $\gamma$ -aminobutyric acid concentrations in rat brain, 814P
- Sensory neurones**, embryonic chick, location for two types of  $\gamma$ -aminobutyric acid receptor, 579
- Sexual dimorphism**, and the effects of the X-linked *Tfm* locus on hexobarbitone metabolism and action in mice, 97
- Sickle cell anaemia**, possible treatment with BW12C, 965P
- Single pulse stimulation**, twitch responses to, effects of methoxyverapamil, verapamil and nifedipine in the rat bisected vas deferens, 952P
- Sinoatrial node**, innervation by sympathetic neurones, evidence against occurrence of presynaptic dopamine receptors, 838P
- Skeletal muscle**, cat, action of mecamlamine at the post synaptic channels, noise analysis, 248P
- , chicken, singly and multiply innervated, age related changes in properties of acetylcholine receptors, 297P
- , rat, innervated and denervated, mechanical and electrophysiological effects of sea anemone (*Anemonia sulcata*) toxin ATX-II, 61
- SKF 91488**, effect on human lymphocyte proliferation, 137
- SKF 93390**, effect on human lymphocyte proliferation, 137
- SKF 93479**, a histamine H<sub>2</sub>-receptor antagonist, 200P
- Skin**, rabbit, effect of platelet-activating factor on vascular permeability, 916P
- Skin grafts**, rat, rapid xenon ion clearance technique to measure blood flow changes, 964P
- Sleep-wakefulness cycle**, rat, effect of oxolinic acid, 399
- Sleeping times**, hexobarbitone-induced in male, female and *Tfm* mice, 97
- Slow wave sleep**, effect of oxolinic acid in rats, 399
- Smooth muscle**, arterial,  $\alpha$ -adrenoceptors and contractile responses, 264P
- , arterial, comparative effects of bepredil and verapamil, 832P
- , differential effects of substance P and related peptides, 954P
- , effect of vasodilator agents on mechanical and electrical activities in pig coronary artery, 455
- , electrical properties of membrane in guinea-pig basilar artery, 495
- , guinea-pig isolated airway, hyperreactivity of, 180P
- , guinea-pig stomach, catecholamine receptor mediating relaxation and contraction, 179P
- , swine isolated tracheal, regulatory mechanism in

## S

- Salai guggal**, an anti-arthritis and anti-hyperlipidaemic agent, 203P
- Salivary gland**, insect, reduction of dopamine and octopamine content after incubation in 6-hydroxydopamine, 838P
- Saphenous artery**, rat, sensitivity to phenylephrine, effect of thyroidectomy or propylthiouracil, 811P
- Saphenous vein**, dog isolated, antagonism of  $\alpha$ -

- histamine-induced tone, 796P
- Smooth muscle cells**, electrical properties of membranes in guinea-pig basilar artery, 495
- Smooth muscle preparations**, effect of leukotriene B<sub>4</sub>, 924P
- Smooth muscle relaxation**, 5-hydroxytryptamine-induced, analysis of receptors involved, 850P
- Social behaviour**, effect of neurotoxin lesions of lateral septum, 766P
- Social interaction**, effect of adrenocorticotrophic hormone [4–10] and ORG 2766 administered septally, 277P
- Sodium**, effect of ouabain and 2,4-dinitrophenol on efflux from frog heart ventricular strips, 341
- Sodium channels**, effect of sea anemone toxin ATX-II in mammalian skeletal muscle fibres, 61
- Sodium citrate**, effect on responses to piperazine in rat sympathetic neurones, 445
- Sodium cromoglycate**, antagonism of prostacyclin-induced bradycardia, 252P
- , effect of long term treatment on antigen-induced bronchoconstriction in actively sensitized guinea-pigs, 601
- Sodium ion-calcium ion exchange system**, activation by ouabain, lack of involvement in potassium ion-evoked catecholamine secretory response in cat adrenal gland, 675
- , involvement in modulation in catecholamine secretion in perfused adrenal gland, 665
- Sodium ion fluxes**, effect of prostaglandin E<sub>2</sub> on rat intestinal sheets in the presence and absence of loperamide, 563
- Sodium ions**, effect of absence in dopamine stimulated striatal adenylate cyclase preparations on lack of inhibition by sulpiride, 287P
- , extracellular concentrations, effect on potassium ion evoked secretory response in ouabain-treated cat adrenal glands, 673
- , extracellular concentrations, effect on [<sup>3</sup>H]-sulpiride binding, 228P
- , extracellular concentrations, effect on the release of catecholamines evoked by calcium ion reintroduction in glands perfused with potassium ions and ouabain, 665
- Sodium nitroprusside**, effects on electrical and mechanical activities of smooth muscles of pig coronary artery, 455
- , haemodynamic effects during minaxolone or halothane anaesthesia in dogs, 947P
- Sodium pump**, correlation between inhibition and catecholamine release in the perfused adrenal gland of the cat, 665
- Soma membrane**, alteration of surface charge by divalent and trivalent cations, 87
- Spatial delayed alternation behaviour**, effect of triazolam and related 1,4-benzodiazepines in *Macaca mulatta*, 768P
- Spikes**, evoked in presence of tetraethylammonium, effect of vasodilator agents in smooth muscle of pig coronary artery, 455
- Spinal cord**, depletion of 5-hydroxytryptamine, effect on footshock-induced analgesia, 218P
- , neonatal rat, depolarizing actions of substance P 1–9amide, 293P
- Spinal trigeminal nucleus**, ultrastructural localization of substance P and enkephalin in substantia gelatinosa, 893P
- [<sup>3</sup>H]-spiperone**, binding to human lymphocytes, 233P
- , binding to two sites in homogenates of rat nucleus accumbens, 895P
- , effect of striatal kainic acid lesions on binding in rat striatum, 232P
- , study of binding in rat striatum, comparison with [<sup>3</sup>H]-domperidone, 231P
- Spiroperidol**, antagonism of oxolinic acid effects on light slow wave sleep in rat, 399
- Splanchnic nerve** preparation release of [<sup>3</sup>H]-adrenaline from isolated perfused rabbit adrenal gland, 801P
- Sponge exudate**, anti-inflammatory action, relationship to putrescine, 204P
- Spontaneous electrical activity**, in isolated lower urinary tract of guinea-pig, effects of noradrenaline, phenylephrine, acetylcholine, adenosine triphosphate, and isoprenaline, 353
- SRS-A**, role in anaphylactic contractions of the guinea-pig isolated stomach, 251P
- ST-T complex**, effect of calcium antagonists on alternative changes and associated conduction abnormalities during coronary occlusion in dogs, 371
- Stereotyped behaviour**, metaclopramide-induced, antagonism by apomorphine in the guinea-pig, 767P
- Stimulant drugs**, effect on prostacyclin production in rat pregnant myometrium, 794P
- Stomach**, guinea-pig, catecholamine receptor mechanisms mediating relaxation and contraction of circular smooth muscle, 179P
- , guinea-pig, effect of leukotrienes C and D on motility, 926P
- , guinea-pig isolated, prostaglandins and SRS-A in anaphylactic contractions, 251P
- , rat isolated, effect of 5-hydroxytryptamine on gastric acid secretion, 253P
- , rat isolated, effect of phosphodiesterase inhibition on gastric acid secretion, 973P
- Streptozotocin**, induction of diabetes, alteration of breakdown of adenosine diphosphate in isolated rat lungs, 804P
- Striatum**, dopamine denervation, effect on neuroleptic resistant motor responses, 898P
- , effect of  $\alpha$ -flupenthixol on acetylcholine levels, 904P
- , effect of hypophysectomy on development of supersensitivity in dopamine receptors, 826P
- , effect of morphine treatment on dopamine in rats, 900P
- , effects of typical and atypical neuroleptics on [<sup>3</sup>H]-dopamine release, 902P
- , identification by differential pulse voltammetry of oxidation peak in the anaesthetized rat, 219P
- , mouse, assay of adenosine 3',5'-monophosphate in superfusates of tissue, 891P
- , rat, binding properties of [<sup>3</sup>H]-2-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene, 289P
- , rat, effect of 2-amino-6,7-dihydroxy-1,2,3,4-tetrahydronaphthalene and its derivatives on dopamine receptor binding, 759P
- , rat, effect of kainic acid lesions on [<sup>3</sup>H]-spiperone and [<sup>3</sup>H]- $\alpha$ -flupenthixol binding in rat striatum, 232P
- , rat, study of binding of [<sup>3</sup>H]-domperidone and [<sup>3</sup>H]-spiperone, 231P
- Substance P**, and related peptides, differential effects on

- smooth muscle preparations, 954P
- , effect on anisomycin and electrical stimulation on concentrations in the mouse nervous system, 234P
  - , effect of *Peltiphyllum peltatum* extract on binding, 294P
  - , effect on shape of blood platelets of the rabbit, 533
  - , ultrastructural localization in substantia gelatinosa of spinal trigeminal nucleus, 893P
- Substance P1-9 amide**, depolarizing action on spinal cord of neonatal rat, 293P
- Substantia gelatinosa**, of spinal trigeminal nucleus, ultrastructural localization of substance P and enkephalin, 893P
- Substantia nigra**, rat, apomorphine inhibition of potassium-evoked release of [ $^3\text{H}$ ]- $\gamma$ -aminobutyric acid *in vitro*, 389
- Sucrose gap studies**, effect of cyproheptadine in guinea-pig taenia coli, 651
- , investigation of 5-hydroxytryptamine-induced depolarization of rabbit ganglia, 867P
- Sulphonylureas**, effect of treatment on vascular reactivity in the experimentally diabetic rat, 188P
- Sulpiride**, effect of repeated administration on cerebral dopamine receptor supersensitivity, 229P
- , effect on cerebral dopamine turnover, effect of hypophysectomy, 288P
  - , lack of inhibition of dopamine stimulation of striatal adenylate cyclase, lack of effect of absence of sodium ions, 287P
- [ $^3\text{H}$ ]-sulpiride**, effect of cations on binding, 228P
- Superior colliculus**, rat differences in response to muscimol and 4,5,6,7-tetrahydroisoxazolo-(5,4,-C)-pyridin-3-ol, 815P
- Superior mesenteric artery**, dog, contracted by prostaglandin  $\text{F}_{2\alpha}$ , production of dose-related relaxation by histamine, 111
- Surface potential responses**, effects of piperazine,  $\gamma$ -aminobutyric acid and carbachol in rat sympathetic neurones, 445
- Surfactant**, lung, method for study of secretion in rat, 981P
- Sympathetic ganglia**, rats, effects of piperazine on neurones, 445
- Sympathetic nerve stimulation**, modulation of bronchoconstrictor responses to histamine in pithed guinea-pigs, 855P
- , responses to, differential effects of dopamine receptor and  $\alpha_2$ -adrenoceptor agonists, 927P
- Sympathetic nerves**, comparison of effect of azepevole and clonidine on preganglionic activity in the cat, 178P
- , ligated postganglionic, effect of high extracellular glucose on the axonal transport of glycoprotein, protein and noradrenaline in the cat, 960P
  - , rabbit blood vessel, action of 4-aminopyridine on release from terminals, 177P
  - , rat vas deferens, method for estimation of negative feedback control of noradrenaline release from, 182P
  - , stimulation, blockade of responses of arterioles by prazosin in guinea-pig, 189P
- Synaptic vesicles**, contribution of pH gradient to uptake, 872P
- Synaptosomal membranes**, rat brain, ethanol-induced alterations in phospholipid methylation, 874P
- Synaptosomes**, contribution of pH gradient to uptake, 872P

- , rat striatal, modification of tyrosine hydroxylase activity by presynaptic synaptosomes, 896P
  - , release of acetylcholine, control by presynaptic autoreceptors, in rat hippocampus, 220P
- Systemic haemodynamics**, comparison of effects of prostacyclin and captopril in conscious dogs, 945P
- Syrosingopine**, effect of pretreatment on effects of mianserin on blood pressure in rats, 143

## T

- Taenia caecum**, guinea-pig, effect of N,N,-dimethylformamide, 300P
- Taenia coli**, guinea-pig, calcium antagonistic effects of cyproheptadine on contraction, membrane electrical events and calcium influx, 651
- , guinea-pig, nucleotide pyrophosphatase antagonism of responses to adenosine 5'-triphosphate and non-adrenergic non-cholinergic inhibitory nerve stimulation, 319
- Tail immersion test**, differential effects of dopamine antagonists on noninflammatory hyperalgesia, 278P
- Temperature**, changes following electrical stimulation of the midbrain raphe nuclei and intrahypothalamic injection of tryptamine in the rat, 216P
- , effect of [ $^3\text{H}$ ]-mepyramine binding to histamine  $\text{H}_1$ -receptors, 818P
- Testicular feminised mice**, sleeping times and hepatic hexobarbitone hydroxylase activity, 97
- Testosterone** effect on hexobarbitone-induced sleeping times of male, female and *Tfm* mice, 97
- Tetracaine**, effect on adrenergic transmission in rabbit ileum and pulmonary artery and guinea-pig vas deferens, 365
- Tetraethylammonium**, effect on membrane response to electrical stimulation of smooth muscle cells in guinea-pig basilar artery, 495
- , effect on potassium ion-evoked secretory response in ouabain-treated cat adrenal glands, 673
- $\Delta^1$ -**Tetrahydrocannabinol**, pharmacokinetics and metabolism in rabbits and mice, 771P
- $\Delta^9$ -**Tetrahydrocannabinol**, effect of intrahypothalamic and intracerebroventricular injection on thermoregulation in restrained mice, 813P
- , induction of hypothermia in rats, involvement of brain histamine and 5-hydroxytryptamine, 862P
- 4,5,6,7-Tetrahydroisoxazolo-(5-4-C)-pyridin-3-ol**, responses of rat superior colliculus, 815P
- Tetrodotoxin**, abolition of contractile response of rat colon to morphine, 681
- , abolition of excitatory junction potentials in smooth muscle membrane of guinea-pig basilar artery, 495
  - , effect on anaphylaxin-B-induced rhythmic contractions of, and noradrenaline release from guinea-pig vas deferens, 23
  - , effect on electrically-induced excitatory contractions in isolated guinea-pig urinary bladder, 15
  - , effect on electromechanical effects of anaphylaxin-A on rabbit isolated ventricular muscle preparation, 29
  - , effect on electrophysiological effects on sea anemone toxin ATX-II on rat innervated and denervated skeletal muscle, 61

- , effect on outflow of tritium from rat vas deferens preloaded with [ $^3\text{H}$ ]-noradrenaline, 853P
- , effect on potassium ion-evoked secretory response in ouabain-treated cat adrenal glands, 673
- Thalamus**, rat, effect of catechol on neurotransmitter uptake and release in slices, 715
- Theophylline**, effect on effects of adenosine on carotid chemoreceptor activity in cats, 129
- , effect on voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- , measurement of relaxant effects in guinea-pig contracted tracheal muscle in the presence and or absence of carbachol, 73
- , plasma protein binding and distribution in blood, 876P
- Thermogenesis**, diet-induced, modification of sympathetic mechanisms by ciclazindol and anorectic drugs, 539
- Thermoregulation**, dissimilar effects of guanosine 3',5'-monophosphate, acetylcholine and bacterial endotoxin in the cat, 405
- , effect of intrahypothalamic and intracerebroventricular injections of  $\Delta^9$ -tetrahydrocannabinol in restrained mice, 873P
- THIP** see 4,5,6,7-Tetrahydroisoxazolo-(5,4,-C)-pyridin-3-ol, 815P
- Thrombocytopenia**, collagen-induced, role of platelet arachidonate metabolites in mice, 915P
- Thromboxane**, involvement of release in genesis of early arrhythmias in rats, 155
- , release following acute myocardial ischaemia, effect of aspirin, 205P
- Thromboxane B<sub>2</sub>**, effect on the acute response to *E. coli* endotoxin in anaesthetized cats, 792P
- , presence in human gastrointestinal tissues and its actions on muscle layers, 435
- , effect of imidazole compounds on biosynthesis in human blood mononuclear cells, 469
- Thromboxane receptor**, effect on arachidonic acid responses in the rabbit, guinea-pig and sheep, 790P
- Thromboxane synthetase**, inhibition by 1-n-benzylimidazole *in vivo*, 791P
- Thymopoietin**, effect on shape of blood platelets of rabbit, 533
- Thyroid**, neonatal deficiency, effect on neuronal development in discrete areas of rat brain, 763P
- Thyroidectomy**, effect on sensitivity of the rat saphenous artery to phenylephrine, 811P
- Thyrotropin-releasing hormone**, induction of behavioural activity, inhibition by histidyl-proline diketopiperazine, 291P
- , induction of hyperthermia, correlation between potentiation and  $\alpha$ -adrenergic effect of antidepressants, 81
- , stimulation of phosphatidylinositol metabolism in GH<sub>3</sub> pituitary tumour cells, 967P
- Thyrotropin-releasing hormone analogues**, effect on catecholamine metabolism and release in rat nucleus accumbens, *in vivo*, 871P
- , locomotor stimulant actions, 868P
- , stimulation of *in vitro* release of endogenous dopamine from rat brain regions, 227P
- Tissue bath experiments**, collection and analysis of data with micro-computer system, 988P
- Tissue reactivity**, effect of chronic ( $\pm$ )propranolol treatment in spontaneously hypertensive rats, 187P
- Tissues**, rat, action of propranolol on factors concerned with the delivery of oxygen to, 643
- $\alpha$ -Tochopherol**, protective effect on vascular hypoxia, 941P
- Tolerance**, to morphine, effect on sensitivity of isolated rat colon to contractile effects of morphine and 5-hydroxytryptamine, 681
- TR4979**, selective ' $\psi$ '-prostanoid receptor agonist in the airways, 795P
- , selectivity for ' $\psi$ ' prostanoid receptors, 912P
- Trachea**, guinea-pig, measurement of relaxation by isoprenaline and theophylline in the presence and absence of carbachol, 73
- , relaxant effects of prostanoids are dependent on their contractile effects, 911P
- , swine isolated, regulatory mechanisms in histamine-induced tone in smooth muscle, 796P
- Tracheal rings**, guinea-pig, extraneuronal O-methylation of [ $^3\text{H}$ ]( $\pm$ )-isoprenaline *in vitro*, 854P
- Tremorine**, induction of rigidity in rats, effect of basal ganglia lesions, 910P
- Triazolam**, effect on spatial delayed alternation behaviour in *Macaca mulatta*, 768P
- Triazolo-1,4-benzodiazepines**, effect on spatial delayed alternation behaviour in *Macaca mulatta*, 768P
- Trigeminal nucleus caudalis**, rat, iontophoresis of peptide neurotransmitter candidates, lack of correlation of effect with sensory responses of neurones, 819P
- Triglycyl-oxytocin**, investigation as a hormonogen in conscious dog, 810P
- 3,5,5-Trimethylcyclohexanol**, effects on cholesterologenesis, bile flow and biliary lipid secretion in the rat, 241P
- , studies in cholesterol-fed rabbit, 242P
- Tritium**, effect of amiloride on release from rat vas deferens preloaded with [ $^3\text{H}$ ]-noradrenaline, 123
- Tryptamine**, effect of intrahypothalamic injection on core temperature in rats, 216P
- , *in vivo* and *in vitro* effects in hypothalamus, 889P
- , induction of myoclonus, involvement of pre- and post-synaptic indoleamine mechanisms in guinea-pig, 286P
- Tryptophan**, decline in rat brain after induction of liver tryptophan pyrrolase by hydrocortisone, 695
- , rat brain and liver metabolism, naloxone reversal of chronic effect of morphine, 211P, 511
- , rat liver and brain metabolism, reversal of the effects of chronic administration of drugs of dependence by naloxone, 489
- , role of catabolism in mechanism of decline in rat brain 5-hydroxytryptamine after induction of liver tryptophan pyrrolase by hydrocortisone, 695
- Tryptophan pyrrolase**, effect of naloxone on morphine-induced activity in rat liver, 511
- , rat liver, induction by hydrocortisone, reduction of brain tryptophan and 5-hydroxytryptamine, 695
- Tryptophan stores**, depletion by high activity of rat liver tryptophan pyrrolase, 695
- Tubocurarine**, effect on voltage-dependent response to 5-hydroxytryptamine in *Aplysia* neurones, 747
- Tumours**, mouse colon, effect of nandrolene decanoate on the toxicity and anti-tumour effect of 1-(2-chloroethyl)-3 cyclohexyl-1-nitrosourea and 5 flourouracil, 295P
- Twitch responses**, increase after application of sea anemone toxin ATX-II to rat hemidiaphragm, 61

—, to single pulse stimulation, comparison of effects of methoxyverapamil, verapamil and nifedipine in the rat bisected vas deferens, 952P

**p-Tyramine**, effect of acute amphetamine administration on urinary excretion in monkeys, 571

**Tyrosine hydroxylase**, modification of activity by presynaptic dopamine receptors in rat striatal synaptosomes, 896P

## U

**U-46619**, effect on human muscle layers, 435

—, effect on inhibitory effect of papaverine in rat mesenteric blood vessels, 477

—, effect on responses to calcium depressed by indomethacin and 5,8,11,14-eicosatetraenoic acid in rat mesenteric blood vessels, 477

**UK 37248**, effect on thromboxane B<sub>2</sub> and prostaglandin E<sub>2</sub> production and mitogen-stimulated lymphocyte transformation in human blood mononuclear cells, 469

**Ulcers**, gastric, effect of benzodiazepines on formation in stressed rats, 593

**Uraemia**, defective plasma protein binding in uraemia, extraction of binding inhibitors from normal urine, 956P

**Urethane**, amino acid antagonist properties, 908P

—, attenuation of pressor responses produced by  $\alpha$ -adrenoceptor agonists and other vasoconstrictor agents in pithed rats, 826P

**Urethra**, guinea-pig, electrical and mechanical activity, 353

**Urinary bladder**, guinea-pig isolated, effect of drugs on electrically-induced excitatory contractions, 15

**Urinary tract**, guinea-pig, electrical and mechanical activity, 353

**Urine**, excretion of biogenic amines and metabolites in monkeys, effect of acute amphetamine administration, 571

—, extraction of binding inhibitors: defective plasma protein binding in uraemia, 956P

**Uterus**, depolarized, calcium-free mouse, effect of cortisol on response to calcium in different stage of the oestrous cycle, 304P

—, inhibition of responses to oestrigen in the ovariectomized rat, 240P

—, rat, dilatation of arterioles by activating  $\beta_1$ -adrenoceptors by noradrenaline, 941P

—, rat, effect of animal maturity on histamine receptor activity, 306P

—, rat, effect of dexamethasone on contractility, *in vitro*, 986P

## V

**Vanilmandelic acid**, effect of acute amphetamine administration on urinary excretion in monkeys, 571

**Vas deferens**, contractions, effect of verapamil and nifedipine in relation to their local anaesthetic activity, 296P

—, guinea-pig, effect of (–)-, (±)-, (+)-propranolol,

atenolol, guanethidine, bretylium and tetracaine on adrenergic transmission, 365

—, guinea-pig, excitatory effect of Anthopleurin-B from sea anemone, 23

—, inhibition of contractions by adenosine, effects of 4-aminopyridine and quinidine, 296P

—, isolated, effects of adenine dinucleotide, 951P

—, mouse, difference in inhibitory potency of opioids in epididymal and prostatic halves, 852P

—, rat, feedback regulation of the release of the non-adrenergic transmitter, 183

—, rat, method for estimation of the negative feedback control of noradrenaline release from sympathetic nerves, 182P

—, rat, pre- and postsynaptic  $\alpha$ -adrenoceptor blocking activity of raubasine, 739

—, rat bisected, effects of methoxyverapamil, verapamil and nifedipine on twitch responses to single pulse stimulation, 952P

—, rat isolated, effect of cadmium ions on noradrenaline output and dopamine- $\beta$ -hydroxylase activity, 261P

—, rat isolated and transversely bisected, used for determining the potency of antagonists at both  $\alpha_1$ - and  $\alpha_2$ -adrenoceptors, 256P

**Vascular permeability**, C5a-induced, dependence on lipooxygenase products, 921P

—, effect of platelet activating factor on rabbit skin, 916P

—, mediation of responses to zymosan by complement fragment C5a in the peritoneal cavity of the rabbit, 787P

**Vascular reactivity**, in experimentally diabetic rat and the effect of treatment with sulphonylureas, 188P

**Vascular responsiveness**, effect of propranolol in normotensive and hypertensive rats, 932P

**Vasculature**, rabbit, location for  $\alpha_2$ -adrenoceptors, 846P

**Vasoconstriction**, in rat mesenteric blood vessels, evidence against involvement of prostaglandin synthesis in actions of calcium ions, 477

—, mediation by histamine receptors in gastric vasculature of the rabbit, 205P

**Vasoconstrictor agents**, pressor responses to, attenuation by urethane in pithed rats, 817P

**Vasodilation**, mediation by histamine receptors in gastric vasculature of the rabbit, 205P

**Vasodilator agents**, effects on smooth muscle cells of the coronary artery of the pig, 455

**Vasopressin**, a central cholinergic link in neural control of the release of, 239P

**Vasopressor responses**, to physostigmine in anaesthetized rats, effect of clonidine, 929P

**Veins**, blood pressure, effect of orally administered propranolol in rats, 635

**Vena cava**, porcine, involvement of cyclic adenosine 3',5'-monophosphate in 5-hydroxytryptamine-induced relaxation, 800P

**Ventricles**, rat, reduction by nifedipine, nisoldipine and niludipine of arrhythmias induced by coronary artery ligation in rats, 12

**Ventricular arrhythmias**, effect of orally-administered nifedipine, nisoldipine and niludipine in rats, 12

—, effect of prostaglandins E<sub>2</sub>, F<sub>2 $\alpha$</sub> , prostacyclin, flurbiprofen and aspirin in rats after coronary artery ligations, 155

- , in relation to effect of aspirin on the release of thromboxane after acute myocardial ischaemia, 205P
- Ventricular dysrhythmias**, early post infarction, role of  $\beta$ -adrenoceptor blocking drugs, 195P
- Ventricular fibrillation**, effects of antiarrhythmic drugs in rat isolated heart, 195P
- , resulting from acute myocardial ischaemia, suppression by nifedipine, niludipine and nisoldipine, 830P
- Ventricular fibrillation thresholds**, effects of extracellular calcium concentrations and of verapamil in rat isolated heart, 193P
- , effects of ORG 6001 and mexilitine in anaesthetized rats, 381
- Ventricular muscle**, rabbit, electromechanical effects of anthopleurin-A, 29
- Ventricular strips**, frog heart, differential effects of ouabain and 2,4-dinitrophenol on contractile tension of and sodium and calcium efflux from, 341
- Ventricular systolic pressure**, effect of ORG 6001 and mexilitine in anaesthetized rats, 381
- Verapamil**, antagonism of  $\alpha$ -adrenoceptor mediated contractions in isolated saphenous vein of the dog, 942P
- , effect on anthopleurin-B-induced rhythmic contractions of, and noradrenaline release from guinea-pig vas deferens, 23
- , effect on calcium-current of *Helix* neurones, 87
- , effect on calcium dependence of ventricular fibrillation thresholds in the rat isolated heart, 193P
- , effect on contractions of vas deferens in relation to its local anaesthetic activity, 296P
- , effect on electromechanical effects of anthopleurin-A on rabbit isolated ventricular muscle preparation, 29
- , effect on isolated arterial smooth muscle, 832P
- , effect on kainate-induced stimulation of guanosine 3',5'-cyclic monophosphate in rat cerebellar slices, 723
- , effect on pressor responses mediated by stimulation of  $\alpha_1$ - $\alpha_2$ -adrenoceptors, angiotensin II and 5-hydroxytryptamine receptors in pithed rats, 839P
- , effect on the alternation of the ST-T complex and associated conduction abnormalities during coronary occlusion in dogs, 371
- , effect on twitch responses to single pulse stimulation in the rat bisected vas deferens, 952P
- Veratridine**, induction of contraction in guinea-pig taenia coli, effect of cyproheptadine, 651
- Viloxazine**, minimal dose to potentiate thyrotropin releasing hormone-induced hyperthermia, test for screening anti-depressant drugs which activate  $\alpha$ -adrenoceptor systems, 81

**Voltammetric** responses, to dopamine and 5-hydroxytryptamine releasers in relation to behavioural responses, 908P

## W

- WB 4101**, assessment of  $\alpha$ -adrenoceptor selectivity, 262P
- Withdrawal symptoms**, naloxone precipitated in rats chronically treated with small concentrations of morphine in drinking water, 282P

## X

- X537A**, effect on catecholamine secretory response evoked by calcium ion reintroduction in cat adrenal glands, 665
- Xanthines**, adenosine-receptor antagonism and bronchodilator activity, 783P
- Xenon ion clearance technique**, measurement of blood flow changes in rat skin grafts, 964P

## Y

- Y-maze**, effect of caffeine and chloidesmethyldiazepam, together and separately, in mice, 822P
- Yohimbine**, effect on clonidine-evoked contractions in rabbit pulmonary arteries, 709
- , interaction with cardiovascular effects of clonidine in conscious spontaneously hypertensive rats, 933P
- , pre- and postsynaptic  $\alpha$ -adrenoceptor blocking activity in rat vas deferens, 739
- [<sup>3</sup>H]-yohimbine**, binding to  $\alpha$ -adrenoceptors on intact human platelets, 802P
- Yohimbine diastereoisomers**, selectivity for  $\alpha_1$  and  $\alpha_2$ -adrenoceptors in anaesthetized dog, 186P

## Z

- Zymosan**, effect on vascular permeability, mediation by the complement fragment C5a in the peritoneal cavity of the rabbit, 787P
