

- 2 VANE, J.R. J.H. Burn: an appreciation

SHORT COMMUNICATION

- 9 POTTER, ERICA K. Angiotensin inhibits action of vagus nerve at the heart

PAPERS

- 13 HAMILTON, T.C. & LONGMAN, SUSAN D. A comparison of the cardiovascular and sedative actions of the α -adrenoceptor agonists, FLA-136 and clonidine, in the rat
- 23 BISCOE, T.J. & FRY, J.P. Some pharmacological studies on the spastic mouse
- 37 JALILIAN-TEHRANI, MOHAMMAD H., KARAKIULAKIS, GEORGE, LE BLOND, CHRISTINE B., POWELL, RUTH & THOMAS, PATRICK J. Androgen-induced sexual dimorphism in high affinity dopamine binding in the brain transcends the hypothalamic-limbic region
- 49 ADEAGBO, A.S.O. & OKPAKO, D.T. Restoration of vasoconstrictor responses to noradrenaline by prostaglandin E_2 after α -adrenoceptor blockade in rat isolated mesenteric artery
- 57 RAND, M.J., STORY, D.F. & WONG-DUSTING, H.K. Effects of histamine on the resting and stimulation-induced release of [3 H]-noradrenaline in guinea-pig isolated atria
- 65 EVANS, R.H., FRANCIS, A.A., JONES, A.W., SMITH, D.A.S. & WATKINS, J.C. The effects of a series of ω -phosphonic α -carboxylic amino acids on electrically evoked and excitant amino acid-induced responses in isolated spinal cord preparations
- 77 COLQUHOUN, D. & SHERIDAN, R.E. The effect of tubocurarine competition on the kinetics of agonist action on the nicotinic receptor
- 87 KUROKAWA, HIROSHI & SAKAMOTO, KIMIKO Effects of aspirin, prednisolone and indomethacin on nephrotoxic serum nephritis in the rat
- 93 PERKINS, M.N. & STONE, T.W. Comparison of the effects of ethylenediamine analogues and γ -aminobutyric acid on cortical and pallidal neurones
- 101 BROWN, C., BURNSTOCK, G., CUSACK, N.J., MEGHJI, P. & MOODY, C.J. Evidence for stereospecificity of the P_1 -purinoceptor
- 109 MILLAR, J.S. & VAUGHAN WILLIAMS, E.M. Differential actions on rabbit nodal, atrial, Purkinje cell and ventricular potentials of melperone, a bradycardic agent delaying repolarization: effects of hypoxia
- 123 DAMEN, FRANK J.M. & MIER, P.D. Cytochrome P-450-dependent O-dealkylase activity in mammalian skin
- 129 MITCHELL, H.W. The effect of inhibitors of arachidonic acid metabolism on drug-induced contractions in isolated tracheal smooth muscle of the pig
- 137 MCGIFF, JOHN C., SPOKAS, ERIC G. & WONG PATRICK Y-K. Stimulation of renin release by 6-oxo-prostaglandin E_1 and prostacyclin
- 145 DHAWAN, B.N., SHUKLA, R. & SRIMAL, R.C. Analysis of histamine receptors in the central thermoregulatory mechanism of *Mastomys natalensis*
- 151 RANG, H.P. With an appendix by D. COLQUHOUN & H.P. RANG. The action of ganglionic blocking drugs on the synaptic responses of rat submandibular ganglion cells
- 169 CARTER, R.J. & SHUSTER, S. The association between the melanocyte-stimulating hormone receptor and the α_2 -adrenoceptor on the *Anolis* melanophore
- 177 ANWAR, N. & MASON, D.F.J. Two actions of γ -aminobutyric acid on the responses of the isolated basilar artery from the rabbit
- 183 ELLORY, J.C. & STEWART, G.W. The human erythrocyte Cl-dependent Na-K cotransport system as a possible model for studying the action of loop diuretics
- 189 GILLESPIE, J.S., HUNTER, J.C. & MCKNIGHT, A.T. The effect of ethanol on inhibitory and motor responses in the rat and rabbit anococcygeus and the bovine retractor penis muscles
- 199 GINTZLER, ALAN R. & SCALISI, JENNIE A. Effects of opioids on noncholinergic excitatory responses of the guinea-pig isolated ileum: inhibition of release of enteric substance P
- 207 CARPENTIER, ROBERT G. Effects of harmala alkaloids on transmembrane potentials of guinea-pig papillary muscles
- 213 ATLAS, DAPHNE, FRIEDMAN, ZEEV, LITVIN, YAIR, STEER, MICHAEL L. Synthesis of new haloperidol analogues and characterization of their interactions with α -adrenoceptors in rat parotid slices and human platelet membranes
- 219 KENDALL, T.J.G. & MINCHIN, M.C.W. The effects of anaesthetics on the uptake and release of amino acid neurotransmitters in thalamic slices
- 229 GODFRAIND, T. & MILLER, R.C. Actions of prostaglandin $F_{2\alpha}$ and noradrenaline on calcium exchange and contraction in rat mesenteric arteries and their sensitivity to calcium entry blockers
- 237 COSTA, J.L., KIRK, K.L. & STARK, H. Uptake of 6-fluoro-5-hydroxytryptamine and 4,6-difluoro-5-hydroxytryptamine into releasable and non-releasable compartments of human platelets
- 243 CHIAVARELLI, M., MONCADA, S. & MULLANE, K.M. Prostacyclin can either increase or decrease heart rate depending on the basal state
