

# INDEX TO VOLUME 77

## AUTHOR INDEX

### A

- ADCOCK, JOHN J. & GARLAND, LAWRENCE G. Modification of human airway smooth muscle reactivity by drugs that interfere with arachidonic acid metabolism, 570
- ADVENIER, C., BIDET, D., FLOCH-SAINT-AUBIN, A. & RENIER, A. Contribution of prostaglandins and thromboxanes to the adenosine and ATP-induced contraction of guinea-pig isolated trachea, 39
- AFARI, G., TENENHOUSE, A. & VACHON, C. The effects of theophylline and 4-(3-butoxy-4-methoxybenzyl)-imidazolidinone (Ro 20-1724) on protein secretion from rat parotid gland, 405
- AINSWORTH, GILLIAN, A., GARLAND, L.G. & PAYNE, A.N. Modulation of bronchoconstrictor responses to histamine in pithed guinea-pigs by sympathetic nerve stimulation, 249
- ALTURA, BURTON M. & TURLAPATY, PRASAD D.M.V. Withdrawal of magnesium enhances coronary arterial spasm produced by vasoactive agents, 649
- ANDERSSON, PER. Effects of inhibitors of anaphylactic mediators in two models of bronchial anaphylaxis in anaesthetized guinea-pigs, 301
- ANGERIO, ALLAN D., FITZPATRICK, THOMAS, M., KOT, PETER A., RAMWELL, PETER W., ROSE JOHN C. & SANTOIAN, EDWARD C. Effect of TMB-8 on the pulmonary vasoconstrictor action of prostaglandin  $F_{2\alpha}$  and the thromboxane mimic, U46619, 55
- ARIYOSHI, YASUO & TAKEUCHI, HIROSHI. Structure-activity relationships of N- $\beta$ -phenylpropionyl-L-tyrosine and its derivatives on the inhibition of an identifiable giant neurone of an African giant snail, 631
- ARONSTAM, ROBERT S. & CARRIER, GERALD O. Influence of N-ethylmaleimide on cholinceptors and responses in longitudinal muscles from guinea-pig ileum, 89

### B

- BADAWY, A.A.-B. & EVANS, M. Inhibition of rat liver tryptophan pyrrolase activity and elevation of brain tryptophan concentration by acute administration of small doses of antidepressants, 59
- BALLINGER, P.M., BROWN, B.S., GRIFFIN, M.M. & STEVEN, F.S. Evidence for carriage of silver by sulphadimidine: haemolysis of human erythrocytes, 141
- BALLINGER, P.M., GRIFFIN, M.M., ITZHAKI, S. & STEVENS, F.S. Evidence for the carriage of silver by sulphadimidine: inhibition of proteolytic enzymes, 147

- BARANY, E., BERRIE, C.P., BIRDSALL, N.J.M., BURGÉN, A.S.V. & HULME, E.C. The binding properties of the muscarinic receptors of the cynomolgus monkey ciliary body and the response to the induction of agonist subsensitivity, 731
- BARBER, H.E., KITTINGHAM, N.R. & PETRIE, J.C. The effect of chlorpromazine, metyrapone, imipramine and SKF 525-A on the hepatic first pass elimination of propranolol in the pithed rat, 667
- BARBER, N.D. & REID, J.L. Comparison of the actions of centrally and peripherally administered clonidine and guanfacine in the rabbit: investigation of the differences, 641
- BARLOW, R.B. & CHAN, MARGARET. The effects of pH on the affinity of pirenzepine for muscarinic receptors in the guinea-pig ileum and rat fundus strip, 559
- BARLOW, R.B. & KITCHEN, R. The actions of some esters of 4-hydroxyquinuclidine on guinea-pig ileum, atria and rat fundus strip, 549
- BENNETT, ALAN & SANGER, GARETH J. Pinane thromboxane  $A_2$  analogues are non-selective prostanoïd antagonists in rat and human stomach muscle, 591
- BERRIE, C.P. *see* BARANY, E., 731
- BERTACCINI, G. & SCARPIGNATO, C. Histamine  $H_2$ -antagonists modify gastric emptying in the rat, 443
- BIDET, D. *see* ADVENIER, C., 39
- BIRDSALL, N.J.M. *see* BARANY, E., 731
- BIRLEY, S., COLLINS, J.F., PERKINS, M.N. & STONE, T.W. The effects of cyclic dicarboxylic acids on spontaneous and amino acid-evoked activity of rat cortical neurones, 7
- BLANQUET, FRANCE, BOUVIER, MICHEL & GONELLA, JEAN. Effects of enkephalins and morphine on spontaneous electrical activity and junction potentials elicited by parasympathetic nerve stimulation in cat and rabbit colon, 419
- BLAIR, I.A., LEIGH, P.J. & MACDERMOT, J. Desensitization of prostacyclin receptors in a neuronal hybrid cell line, 121
- BOND, SUSAN M., CERVERO, F. & McQUEEN, D.S. Influence of neonatally administered capsaicin on baroreceptor and chemoreceptor reflexes in the adult, 517
- BOUVIER, MICHEL *see* BLANQUET, FRANCE, 419
- BRITAIN, R.T., DREW, G.M. & LEVY, G.P. The  $\alpha$ - and  $\beta$ -adrenoceptor blocking potencies of labetalol and its individual stereoisomers in anaesthetized dogs and in isolated tissues, 105
- BROWN, B.S. *see* BALLINGER, P.M., 141
- BROWNING, S., LAWRENCE, D., LIVINGSTON, A. & MORRIS, B. Interactions of drugs active at opiate receptors and drugs at  $\alpha_2$ -receptors on various test systems, 487

- BRYANT, ROSAMUNDE E., OLLEY, JEAN, E. & TYERS, M.B. Involvement of the median raphe nucleus in antinociception induced by morphine, buprenorphine and tilidine in the rat, 615

# SUBJECT INDEX

## A

**A 23187**, induction of histamine release from rat mast cells, effect of neurotensin, 531

**Acetylcholine**, effect of adenosine 5'-triphosphate on responses of guinea-pig ileum before and after addition of tetrodotoxin, 725

—, effect of bethanecol and atropine on release from bullfrog sympathetic nerve terminals, 75

—, effect of protease inhibitor homologues on release in isolated bioventer cervicis nerve-muscle preparations of the chick, 153

—, effect on contractions in guinea-pig isolated trachea induced by adenosine and adenosine 5'-triphosphate, 39

—, effect on electrical slow waves and tone of guinea-pig isolated trachealis muscle, 45

—, effect on muscle membrane of dog cerebral arteries, 197

—, induction of contractions, effect of *N*-ethylmaleimide in longitudinal muscles from guinea-pig ileum, 89

—, induction of contractions, effect of pinane thromboxane  $A_2$  in rat and human stomach muscle, 591

—, stimulation of ganglionic muscarinic receptors, production of increased postganglionic sympathetic activity and of pressor responses, in pithed rats, 233

**[ $^3H$ ]-acetylcholine synthesis**, effect of potassium depolarization and preganglionic nerve stimulation in rat isolated sympathetic ganglia, 581

**Acetylcholinesterase**, electric eel, effects of acetoxy compounds of 4-hydroxyquinuclidine, 549

—, measurement of activities in regions of rat brain after administration of paraoxon, 223

**Acetylcholinesterase poisoning**, effect on carbachol produced conductance responses, 405

**Achatina fulica** Féruccac, inhibitory effects of *N*- $\beta$ -phenylpropionyl-L-tyrosine and its derivatives on identifiable giant neurones of, 631

**Action potentials**, effect of salicylates on isolated atrial muscle of the rabbit, 285

—, guinea-pig ventricles, voltage- and time-dependent depression of maximum rate of depolarization by steroidal antiarrhythmic drugs, 541

**Acoustic startle reflex**, inhibition by clonidine in the rat, 217

**Adenosine**, effect on electrical slow waves and tone of guinea-pig isolated trachealis muscle, 45

—, induction of contraction of guinea-pig isolated trachea, 39

**Adenosine 5'-diphosphate**, role in thrombus formation, 29

**Adenosine 3', 5'-monophosphate**, cyclic, adenosine-stimulated accumulation in guinea-pig cerebral cortex, potentiation by histamine  $H_1$ -agonists, 347

—, cyclic, isoprenaline-dependent accumulation in superfused rat parotid gland, effect of theophylline and Ro 20-1724, 405

**Adenosine 5'-triphosphate**, ability to inhibit the action of analogues of adenosine 5' diphosphate on human platelets, 329

—, direct and indirect effects on guinea-pig ileum, 725

—, effect of chemical sympathectomy on production in mitochondria in isolated rabbit heart, 707

—, effect on electrical slow waves and tone of guinea-pig isolated trachealis muscle, 45

—, effect on isolated anococcygeus muscle of the mouse after indomethacin, 97

—, effect on muscle membrane of dog cerebral arteries, 197

—, induction of guinea-pig isolated trachea, 39

**Adenylate cyclase**, stimulation in human platelet, inhibition by adenosine 5'-diphosphate, 329

**Adrenal gland**, cat perfused, effect of muscarine on release of catecholamines, 455

**Adrenalectomy**, effect on modulation of bronchoconstrictor responses to histamine in pithed guinea-pigs by sympathetic nerve stimulation, 249

**Adrenaline**, effect on negative chronotropic effect of salicylates on isolated atrial muscle of the rabbit, 285

**Adrenergic nerves**, rabbit, release of noradrenaline or purines by ouabain and potassium chloride after preincubation with [ $^3H$ ]-noradrenaline or [ $^3H$ ]-adenosine, 625

$\alpha$ -**Adrenoceptor agonists**, effect on gluconeogenesis in tubules and [ $^3H$ ]-prazosin binding to membranes from rat renal cortex, 177

—, induction of contractions and  $^{45}Ca$  fluxes in the rat isolated aorta, 597

—, production of chronotropic responses in pithed rats, 319

$\alpha_2$ -**Adrenoceptor agonists**, effect on *in vivo* analgesic effects of opiates and displacement of opioid radioligand binding, 487

$\beta$ -**Adrenoceptor agonists**, production of chronotropic responses in pithed rats, 319

$\beta_1$ -**Adrenoceptor agonist**, cardiovascular action of ICI 118,587 in dogs, 381

$\alpha$ -**Adrenoceptor antagonists**, effect on depressant action of

- bethanechol on fast excitatory post synaptic potentials in bullfrog, 75
- , effect on gluconeogenesis in tubules and [ $^3\text{H}$ ]-prazosin binding to membranes from rat natal cortex, 177
  - , effect on pressor response to paraoxon in pithed rat, 233
- $\alpha$ -Adrenoceptors**, activation by dopamine, noradrenaline and phenylephrine in rat isolated vas deferens, 293
- , blockade by monoamine oxidase inhibitors against noradrenaline on rat denervated vas deferens, 13
  - , blocking potency of labetalol, in anaesthetized dogs and in isolated tissues, 105
  - , effects of monovalent and divalent cations in intact human platelets, 277
  - , extra junctional, blockade by K-351, phentolamine and prazosin in canine mesenteric artery, 679
  - , presynaptic, evidence against the unitary hypothesis of agonist and antagonist action in guinea-pig ureter, 373
  - , rat and rabbit aortae, characterization and differentiation using noradrenaline and imidazolines, 169
- $\alpha_1$ -Adrenoceptors**, a study in rat renal cortex, 177
- , blocking properties of raubasine, yohimbine and corynanthine in pithed rats, 449
- $\alpha_2$ -Adrenoceptors**, blocking properties of raubasine, yohimbine and corynanthine in pithed rats, 449
- , development of subsensitivity by chronic tricyclic antidepressant treatment in the rat, 217
- $\beta$ -Adrenoceptors**, blocking potency of labetalol, in anaesthetized dog and in isolated tissues, 105
- Amfonelic acid**, effects on mouse striatal tyramine, dopamine and homovanillic acid, 511
- Age**, effect on elimination of glyceryl trinitrate in rat and rabbit, 83
- Allopurinol**, effect on rat liver tryptophan pyrrolase activity, 59
- Alphaxalone/alphadolone**, effect on responses of reticulo-spinal neurones to inhibitory transmitters in the lamprey, 493
- Amidephrine**, production of positive and negative chronotropic effect in pithed rats, 319
- Amino acids**, excitatory, effect of cyclic dicarboxylic acids on responses to, in rat cortical neurones, 7
- 2-Amino-6,7-dihydroxy-1,2,3,5-tetrahydronaphthalene**, induction of stereotypy and contralateral circling in rats, 185
- 2-Amino-5-phosphono-valeric acid**, reduction of excitatory responses to quinolinic acid in rat cortical neurones, 7
- 3-Amino 1-[*m*-(trifluoromethyl) phenyl]-2-pyrazoline** see BW 755c
- $\gamma$ -Aminobutyric acid**, effects of injectable anaesthetics on responses of reticulo-spinal neurones of the lamprey, 493
- , effects of ketamine and high pressure on responses of rat superior cervical ganglion, 209
  - , effects on excitatory and inhibitory innervation of the rat anococcygeus muscle, 691
  - , effect on isolated rat anococcygeus muscle, 163
  - , responses of *Ascaris suum* somatic muscle, effect of diethyl-carbamazine, 255
- $\gamma$ -Aminobutyric acid agonist**, action of piperazine in *Ascaris suum* somatic muscle, 255
- $\gamma$ -Aminobutyric acid receptors**, in rat anococcygeus muscle and their antagonism by 5-aminovaleric acid, 163
- , involvement in inhibitory action of  $\gamma$ -aminobutyric acid on excitatory adrenergic innervation of rat anococcygeus muscle, 691
- N-(6-aminohexyl)-5-chloro-1-naphthalene-sulphonamide**, effect on tension and cellular calcium content in depolarized vascular and intestinal smooth muscle, 661
- 3-Aminopropane sulphonic acid**, effects on excitatory and inhibitory innervation of the rat anococcygeus muscle, 691
- 5-Aminovaleric acid**, antagonism of response of rat anococcygeus muscle to  $\gamma$ -aminobutyric acid, 163
- Amityriptiline**, effect on clonidine inhibition of acoustic startle reflex in rat, 217
- , effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59
- (+)-Amphetamine**, effects on mouse striatal tyramine, dopamine and homovanillic acid, 511
- , selective neurotoxicity on striatal dopamine nerve terminals in the mouse, 335
- Anaesthetics**, general, possible interactions with the effects of high pressure of helium in rat superior cervical ganglion, 209
- , influence on atrioventricular conduction in dogs, 309
  - , influences on the responses of reticulo-spinal neurones to inhibitory transmitters in the lamprey, 493
- Analgesia**, production by opiate receptor agonists and  $\alpha_2$ -adrenoceptor agonists, 487
- , role of median raphe nucleus in the rat, 615
- Angiotensin II**, production of coronary arterial spasm in the dog, effect of removal of magnesium from physiological salt solution, 649
- Anococcygeus muscle**, mouse, effects of vasoactive intestinal polypeptide and of adenosine 5'-triphosphate, 97
- , rat, effect of  $\gamma$ -aminobutyric acid, ethylenediamine, 3-aminopropane sulphonic acid and ( $\pm$ )-baclofen on inhibitory and excitatory innervation, 361
- Antidepressants**, effect rat liver on tryptophan pyrrolase activity and brain tryptophan concentrations, 59
- , tricyclic, effect on clonidine inhibition of acoustic startle reflex in rats, 217
- Antigen-antibody reaction**, induction of histamine release from rat mast cells, effect of neurotensin, 531
- Antimuscarinic drugs**, effect on pressor response to paraoxon in the anaesthetized and in the conscious rat, 223
- Antinociception**, induction by morphine, buprenorphine and tilidine, involvement of median raphe nucleus in the rat, 615
- Aorta**, rat and rabbit, characterization and differentiation of  $\alpha$ -adrenoceptors using noradrenaline and imidazolines, 169
- , rat isolated, selective  $\alpha_1$ - and  $\alpha_2$ -adrenoceptors agonist-induced contractions and  $^{45}\text{Ca}$  fluxes, 597
  - , rabbit, effect of calmodulin antagonists on tension and cellular calcium content in smooth muscle, 661
- Apamin**, effect on responses of mouse anococcygeus to field stimulation and relaxations to vasoactive intestinal polypeptide or adenosine 5'-triphosphate, 97
- Apomorphine**, induction of stereotypy and contralateral circling in rats, 185
- Arachidonic acid**, induction of bronchoconstriction in a model of bronchial anaphylaxis in anaesthetized

- guinea-pigs, 301
- , induction of platelet aggregation in experimental model of thrombosis, 29
  - , release of thromboxane A<sub>2</sub> and prostaglandin-like materials from guinea-pig lung, 267
  - , stimulation of metabolism by leukotrienes B<sub>4</sub>, C<sub>4</sub> and D<sub>4</sub> in guinea-pig lung *in vitro*, 267
- Aspirin**, effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
- , effect on platelet aggregation induced by arachidonic acid, 29
- Atrial potentials**, effect of salicylates in the rabbit, 285
- Atrioventricular conduction parameters**, influence of chloralose and pentobarbitone in dogs, 309
- Atrium**, guinea-pig, actions of some esters of 4-hydroxyquinuclidine, 549
- , guinea-pig, pharmacological studies with pirenzepine, 576
- Atropine**, blockade of negative chronotropic response to  $\alpha$ -agonists in pithed rats, 319
- , effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
  - , effect on action of ranitidine on gastric emptying of the rat, 443
  - , effect on atrioventricular conduction and heart rate reduction by chloralose and pentobarbitone in dog, 309
  - , effect on contractile responses of coronary arteries of dog evoked by vasoactive agents in different concentrations of magnesium, 649
  - , effect on excitatory junction potential in smooth muscle of dog cerebral arteries, 197
  - , effect on negative chronotropic effect of salicylates on isolated atrial muscle of the rabbit, 285
  - , effect on release of acetylcholine from sympathetic preganglionic nerve terminals of bullfrog, 75
  - , effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
  - , potentiation of effects of enkephalins and morphine on spike activity in cat and rabbit colon, 419
- 2-Azidoadenosine 5'-diphosphate**, actions on human platelets, 329

## B

- ( $\pm$ )-**Baclofen**, effect on excitatory and inhibitory innervation of the rat anococcygeus muscle, 361
- , effect on isolated rat anococcygeus muscle, 163
- Barium ions**, induction of contractions, effect of N-ethylmaleimide in longitudinal muscles from guinea-pig ileum, 89
- Baroreceptor reflexes**, influence of neonatally administered capsaicin in adult rat, 517
- BE2254**, effect on gluconeogenesis in tubules and [<sup>3</sup>H]-prazosin binding to membranes from rat neonatal cortex, 177
- Bethanechol**, effect on action of ranitidine on gastric emptying of the rat, 443
- , effect on release of acetylcholine from sympathetic preganglionic nerve terminals, 75

- Bicuculline**, effect on inhibitory action of  $\gamma$ -aminobutyric acid in rat anococcygeus muscle, 691
- , effect on response of rat anococcygeus muscle to  $\gamma$ -aminobutyric acid, 163
  - , induction of seizures, effect of ethylenediamine in mice, 525
- Blood flow**, increase by vasoactive intestinal polypeptide and by prostaglandin E<sub>2</sub> in rabbit skin, 505
- , renal and coronary, effect of dopamine and dopamine receptor agonists in anaesthetized dog, 23
- Blood pressure**, comparison of effects of centrally and peripherally administered guanfacine and clonidine in the rabbit, 641
- , dog effect of lysine-vasopressin and oxytocin, 69
  - , effect of paraoxon in anaesthetized and conscious rat, 223
  - , effect of paraoxon in pithed rat, 233
  - , effects of (–)-phenylephrine B-HT 933 and sympathetic stimulation, antagonism by raubasine, yohimbine and corynanthine in pithed rats, 449
- Bradykinin**, release of thromboxane A<sub>2</sub> and prostaglandin-like materials from guinea-pig lung, 267
- Brain**, rabbit, levels of guanfacine after central and peripheral administration, 641
- (–)-**Bremazocine**, inhibition of binding of opiates and opioid peptides in homogenates of rat brain, 461
- Bromamiloride**, action as photoligand for epithelial sodium channels of frog skin, 431
- Bromocriptine**, effect on renal and coronary blood flow in anaesthetized dog, 23
- 5-Bromosalicylate**, electrophysiological effects on isolated atrial muscle of the rabbit, 285
- Bronchial anaphylaxis**, effects of inhibitors of anaphylactic mediators in anaesthetized guinea-pigs, 301
- Bronchoconstriction**, histamine-induced in pithed guinea-pigs, effect of sympathetic nerve stimulation, 249
- $\beta$ -Bungarotoxin**, interaction with facilitatory toxins from mamba venoms, 153
- Buprenorphine**, induction of antinociception, involvement of median raphe nucleus in the rat, 615
- Burimamide**, modification of gastric emptying in the rat, 443
- BW 755c**, abolition of effect of indomethacin on tracheal contractions to histamine in the pig, 701
- , reduction of antigen-induced bronchoconstriction in guinea-pigs sensitized to produce IgE- and IgG-like antibodies, 301

## C

- Caesium**, in Tyrode solution, effects on the action of 5-bromo-salicylates on isolated atrial muscle of the rabbit, 285
- Calcium**, cellular content, effect of putative calmodulin antagonists in depolarized vascular and intestinal smooth muscles, 661
- , effect of increases in extracellular concentrations on the effects of salicylates on isolated atrial muscle of the rabbit, 285
  - , effect of low concentrations in medium on potassium depolarization-induced stimulation of [<sup>3</sup>H]-acetylcholine synthesis in rat isolated sympathetic ganglia, 581

- , importance in pulmonary vasoconstrictor action of prostaglandin  $F_{2\alpha}$  and U46619 in dog, 55
- Calcium channels**, inhibition by nifedipine and verapamil, effect on contractile effects of 5-hydroxytryptamine on rat isolated vas deferens, 605
- Calcium chloride**, production of coronary arterial spasm in the dog, effect of removal of magnesium from physiological salt solution, 649
- <sup>45</sup>**Calcium fluxes**, selective adrenoceptor agonist-induced in rat isolated aorta, 597
- Calcium-free medium**, effect on  $\alpha_1$ - and  $\alpha_2$ -adrenoceptor agonist-induced contractions and <sup>45</sup>calcium fluxes in rat isolated aorta, 597
- , effect on potassium activated uptake of [<sup>3</sup>H]-choline by isolated sympathetic ganglia of the rat, 573
- , effect on release of noradrenaline from vascular adrenergic nerves of the rabbit by ouabain, 625
- , effect on responses to 5-hydroxytryptamine in rat vas deferens, 605
- Calcium ion influx**, inhibition by propranolol and diltiazem in guinea-pig superior cervical ganglion, 359
- Calcium ion transport**, influence of magnesium in coronary arterial smooth muscle of the dog, 649
- Calcium ions**, effect of chemical sympathectomy on mitochondrial content in ischaemic and reperfused rabbit myocardium, 707
- , effect on binding of agonists and antagonists to  $\alpha$ -adrenoceptor of intact human platelets, 277
- , influence on the effect of Ro 20-1724 and theophylline on responses of superfused rat parotid gland to isoprenaline, 405
- Calmodulin antagonists**, effect on muscle tension and cellular calcium content in depolarized vascular and intestinal smooth muscles, 661
- Capsaicin**, neonatally administered, influence on baroreceptor and chemoreceptor reflexes in adult rat, 517
- Carbachol**, effect on height of miniature endplate currents and muscle membrane conductance, 405
- , induction of contractions, effect of  $\gamma$ -aminobutyric acid in rat anococcygeus muscle, 361
- , inhibition of [<sup>3</sup>H]-N-methylscopolamine binding in ciliary muscle of cynomolgus monkey, 731
- Carbacyclin**, activation of adenylate cyclase of NCB-20 neuronal somatic cell hybrid, 121
- Carbamylcholine**, binding to membranes prepared from longitudinal muscles of guinea-pig ileum, 89
- Carboxyheptylimidazole**, effect on leukotriene-induced contractions of guinea-pig parenchymal strips, 267
- Cardiovascular control**, effect of lysine-vasopressin and oxytocin in anaesthetized dog, 69
- Carotid artery occlusion**, pressor responses to, in adult rats pretreated neonatally with capsaicin, 517
- Cascade superfusion bioassay**, detection of mediator release in ovalbumin-induced contraction of guinea-pig trachea, 3
- Catecholamines**, effect of depletion on mitochondrial function in ischaemic and reperfused rabbit myocardium, 707
- , effect of muscarine on release from the perfused adrenal gland of the cat, 455
- Cations**, mono- and divalent, effect on  $\alpha$ -adrenoceptor of intact human platelets, 277
- CCI 22277**, voltage- and time-dependent depression of maximum rate of depolarization of guinea-pig ventricular action potentials, 541
- Cerebellar cortex**, rat brain, effect of methionyl-tyrosyl-lysine on single neurones, 477
- Cerebral arteries**, dog, membrane properties and excitatory neuromuscular transmission in the smooth muscle, 197
- Cerebral cortex**, guinea-pig, potentiation of adenosine-stimulated cyclic adenosine 3',5'-monophosphate accumulation and [<sup>3</sup>H]-mepyramine binding by histamine  $H_1$ -agonists, 347
- Chemical sympathectomy**, effect on mitochondrial function in the ischaemic and reperfused rabbit myocardium, 707
- Chemoreceptor reflexes**, influence of neonatally administered capsaicin in adult rat, 517
- Chloralose**, influence on heart rate and atrioventricular conduction in dogs, 309
- Chloride**, effect of low concentrations on electrophysiological effects of salicylates on the sinoatrial node of the rabbit, 285
- 2-Chloroadenosine 5'-diphosphate**, actions on human platelets, 329
- Chlorpromazine**, effect on hepatic first pass elimination of propranolol in the pithed rat, 667
- , effect on net fluxes of water and sodium in the ileum and colon in anaesthetized rat, 469
- , effect on rat liver tryptophan pyrrolase activity, 59
- , effect on tension and cellular calcium content in depolarized vascular and intestinal smooth muscles, 661
- [<sup>3</sup>H]-choline**, effect of potassium-depolarization and preganglionic nerve stimulation on metabolism in rat isolated sympathetic ganglia, 581
- , effect of potassium-depolarization on accumulation by isolated sympathetic ganglia of the rat, 573
- Cholinoceptors**, influence of N-ethylmaleimide in longitudinal muscles from guinea-pig ileum, 89
- Chronotropic responses**, production by  $\alpha$ - and  $\beta$ -adrenoceptor agonists in pithed rats, 319
- , responses, production by ICI 118,587 in dogs, 381
- Chymotrypsin**, inhibition, evidence for the carriage of silver by sulphadimidine, 147
- Cigarette smoke ventilation**, effect on pulmonary inactivation of 5-hydroxytryptamine in rat, 245
- Ciliary muscle**, cynomolgus monkey, binding properties of the muscarinic receptors, 731
- Cimetidine**, antagonism of effects of histamine  $H_1$  and  $H_2$  receptor agonists in canine cystic ducts, 717
- , modification of gastric emptying in the rat, 443
- Cinnarizine**, effect on  $\alpha_1$ - and  $\alpha_2$ -adrenoceptor agonist-induced contractions and calcium fluxes in rat isolated aorta, 597
- Circling**, contralateral, induction by dopamine agonists in the rat, potency, 185
- Clomipramine**, effect on rat liver tryptophan pyrrolase activity, 59
- Clonidine**, characterization and differentiation of  $\alpha$ -adrenoceptors of rat and rabbit aortae, 169
- , comparison of actions with guanfacine administered centrally and peripherally administered in the rabbit, 641
- , effect on *in vivo* analgesic effect of opiates and displacement of opioid radioligand binding, 487

- , induction of contractions and  $^{45}\text{Ca}$  fluxes in rat isolated aorta, 597
- , inhibition of acoustic startle reflex in the rat, 217
- Clonidine receptor binding**, displacement by  $\alpha_2$ -adrenoceptor agonists, 487
- Clorgyline**, effect on tyramine and noradrenaline contractile responses of rat isolated vas deferens, 13
- Clothiapine**, effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
- Clozapine**, effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129
- , effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
- Coaxial stimulation**, effects of adenosine 5'-triphosphate on responses of guinea-pig ileum, 725
- Cobalt ions**, antagonism of N-methyl D,L aspartic acid responses in amphibian spinal cord, 363
- Colon**, cat and rabbit, effects of enkephalins and morphine on spontaneous electrical activity and on junction potentials elicited by parasympathetic nerve stimulation, 419
- , rat, effect of chlorpromazine on net fluxes of water and sodium, 469
- Compound 48/80**, effect on contraction in guinea-pig taenia coli induced by substance P analogue, 697
- , interaction with same receptor as substance P and neurotensin in rat mast cells, 531
- Contractions**, adrenoceptor agonist-induced in rat isolated aorta, 597
- , histamine-induced in human airway smooth muscle, effect of arachidonic acid metabolism inhibitors, 570
- , induced by acetylcholine, potassium and barium, effect of N-ethylmaleimide, 89
- , induced by noradrenaline, phenylephrine, or carbachol, effect of  $\gamma$ -aminobutyric acid in rat anococcygeus muscle, 361
- , induced by perivascular nerve stimulation or noradrenaline, effects of K-351, phentolamine or prazosin in canine mesenteric artery, 679
- , ovalbumin-induced, in guinea-pig trachea, 3
- , prostaglandin-induced, effect of pinane thromboxane  $\text{A}_2$  in rat and human stomach muscle, 591
- , substance P-induced, effect of (D-Pro $^2$ , D-Trp $^{7,9}$ )-substance P in guinea-pig taenia coli, 697
- Contralateral rotation** *see* **Circling, contralateral**
- Convulsion thresholds**, to intravenous infusion of pentylenetetrazol, biculline and strychnine, effect of ethylenediamine in mice, 525
- Convulsions**, pentylenetetrazol-, bicuculline- and strychnine-induced, effect of ethylenediamine in mice, 525
- Coronary arteries**, dog, withdrawal of magnesium enhances spasms produced by vasoactive agents, 649
- Cortical neurones**, rat, effects of cyclic dicarboxylic acids on spontaneous and amino acid-evoked activity, 7
- Cortisol**, effect on antidepressant induced inhibition of rat liver tryptophan pyrrolase activity, 59
- Corynanthine**,  $\alpha$ -adrenoceptor blocking properties in pithed rats, 449
- Crotoxin**, interaction with facilitatory toxins from mamba venoms, 153
- Cyclic dicarboxylic acids**, effect on spontaneous and amino acid-evoked activity of rat neurones, 7

- Cyclic nucleotide phosphodiesterase inhibitors**, effect on protein secretion from superfused parotid gland, 395
- Cyclo-oxygenase inhibitors**, effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
- , effect on thrombus formation, 29
- Cyclo-oxygenase products**, role of thromboxane  $\text{A}_2$  in generation in guinea-pig lung, 267
- Cystic duct**, dog, identification of stimulatory and inhibitory histamine receptors, 717

## D

- D600** *see* **Methoxyverapamil**
- N $^2$ -dansyl-L-arginine-4-*t*-butylpiperidine amide**, effect on tension and cellular calcium content in depolarized vascular and intestinal smooth muscles, 661
- Dendrotoxin**, effect on acetylcholine release and interactions with presynaptic blocking toxins, 153
- Denervation**, effect on potassium activation of [ $^3\text{H}$ ]-choline accumulation by rat isolated sympathetic ganglia, 573
- (-)-Deprenyl**, effect on tyramine and noradrenaline contractile responses of rat isolated vas deferens, 13
- Desipramine**, effect on clonidine inhibition of acoustic startle reflex in rat, 217
- , effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59
- Dextemide**, effect on pressor response to paraoxon in anaesthetized and conscious rat, 223
- , effect on pressor response to paraoxon in pithed rat, 233
- Diclofenac**, effect on platelet aggregation induced by arachidonic acid in an experimental model for thrombosis, 29
- 8-(N,N-diethylamino)octyl-3,4,5 trimethoxybenzoate HCl** *see* **TMB-8**
- Diethylcarbamazepine**, effect on membrane potential, membrane current and input conductance in *Ascaris suum* somatic muscle, 255
- 3,4-Dihydro-8-(2-hydroxy-3-isopropylaminopropoxy)-3-nitroxy-2H-benzopyran** *see* **K-351**
- [ $^3\text{H}$ ]-dihydroergocryptine**, effect of monovalent and divalent cations and purine nucleotides on binding to  $\alpha$ -adrenoceptor, 277
- [ $^3\text{H}$ ]-dihydromorphine binding**, displacement by opioid receptor agonists and  $\alpha_2$ -adrenoceptor agonists, 487
- Diltiazem**, effect on ganglionic transmission in superior cervical ganglion of the guinea-pig, 359
- , effect on tension and cellular calcium content in depolarized vascular and intestinal smooth muscle, 661
- N $^*$ ,N $^*$ -dimethylhistamine**, effect on adenosine-stimulated accumulation of cyclic adenosine 3',5'-monophosphate and on [ $^3\text{H}$ ]-mepyramine binding in guinea-pig cerebral cortex, 347
- 2,4-Dinitrophenol**, inhibition of transport of 5-fluorouracil in rat liver, 413
- Diphenhydramine**, antagonism of effects of histamine  $\text{H}_1$  and  $\text{H}_2$  receptor agonists in canine cystic ducts, 717
- , effect on contractile responses of coronary arteries of the dog evoked by vasoactive agents in different concentrations of magnesium, 649
- N,N dipropyl 2-amino-5,6-dihydroxy-1,2,3,4-tetrahydronaphthalene**, induction of stereotypy and contralateral circling in rats, 185

- Dipyrimidole**, effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
- Dopamine**, action on same receptors as noradrenaline and phenylephrine in rat isolated vas deferens, 293
- , effect of (+)-amphetamine on regional levels in mouse striatum, 335
  - , effect of central stimulants on mouse striatal concentrations, 511
  - , effect on renal and coronary blood flow in anaesthetized dog, 23
  - , induction of delay in gastric emptying of the rat, 443
  - , production of stereotypy and contralateral circling in rats, 185
- Dopamine nerve terminals**, selective (+)-amphetamine neurotoxicity in the mouse, 335
- Dopamine receptor antagonists**, effect on contralateral circling and stereotypy induced in rats by dopamine receptor agonists, 185
- Dopamine receptors**, pharmacological evidence for subclassification in rat, 185
- Dothiepin**, effect on rat liver tryptophan pyrrolase activity, 59

## E

- 6,8,11,14-Eicosatetraenoic acid**, abolition of effect of indomethacin on tracheal contractions to histamine in the pig, 701
- Electrical activity**, guinea-pig isolated trachealis muscle, effect of drugs and temperature changes, 45
- Electrical stimulation**, elevation of blood pressure in pithed rats, effect of paraoxon, 233
- Electronic potentials**, effect of K-351, phentolamine or prazosin in canine mesenteric artery, 679
- Enkephalin**, D-Ala<sup>2</sup>, D-Leu<sup>5</sup>, inhibition of binding of opiates and opioid peptides in homogenates of rat brain, 461
- , D-Ala<sup>2</sup>, MePhe<sup>4</sup>, Gly-ol<sup>5</sup>, inhibition of binding of opiates and opioid peptides in homogenates of rat brain, 461
  - , Leu-, effect on spontaneous electrical activity and junction potentials elicited by parasympathetic nerve stimulation in cat and rabbit colon, 419
  - , Met-, effect on spontaneous electrical activity and junction potentials elicited by parasympathetic nerve stimulation in cat and rabbit colon, 419
  - , Met-, lack of effect on  $\alpha_2$ -agonist analgesia and of displacement of  $\alpha_2$ -agonist radioligand binding, 487
- Epithelium**, frog skin, irreversible inhibition of sodium channels by ultraviolet irradiation, 431
- Ergometrine**, effect on vasodilator responses to dopamine and SK&F 38393 in an anaesthetized dog, 23
- Ethylene glycol tetracetic acid**, influence on the effect of Ro 20-1724 on the responses of superfused rat parotid gland to isoprenaline, 405
- Ethylenediamine**, effect on excitatory and inhibitory innervation of the rat anococcygeus muscle, 691
- , inhibition of convulsive effects of pentylenetetrazol in mice, 525
- (-)-Ethylketazocine**, inhibition of binding of opiates and opioid peptides in homogenates of rat brain, 461
- N-ethylmaleimide**, influence on cholinceptors and re-

sponses in longitudinal muscles from guinea-pig ileum, 89

**Erythrocytes**, human, haemolysis, evidence for carriage of silver by sulphadimide, 141

## F

- Fibrin**, interactions with red cells and platelets in an experimental model of thrombosis, 29
- Field stimulation**, effect on isolated anococcygeus muscle of the mouse, 97
- , responses of rat anococcygeus muscle, effect of  $\gamma$ -aminobutyric acid, 691
- Firing rates**, spontaneous, effect of cyclic dicarboxylic acids in rat cortical neurones, 7
- First pass elimination**, of propranolol, effect of chlorpromazine, imipramine and SKF 525-A in pithed rat, 667
- Flare reactions**, human skin, induction by substance P, inhibition by neurotensin, 531
- 5-Flourouracil**, kinetics of uptake into rat liver, 413
- $\alpha$ -Flupenthixol**, effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59
- $\beta$ -Flupenthixol**, effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59
- Fluphenazine**, effect on rat liver tryptophan pyrrolase activity, 59
- , effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
- FPL 55712**, effect of pretreatment on contractant action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
- , effect on histamine-induced contraction of human airway smooth muscle, 570
  - , effect on leukotriene-induced contractions of guinea-pig parenchymal strips, 267
  - , inhibition of effects of leukotriene C<sub>4</sub> on mucin release into cat trachea *in vivo* and *in vitro*, 391
  - , reduction of anaphylactic bronchoreactivity in two models of bronchial anaphylaxis in anaesthetized guinea-pig, 301
- Fundus strip**, rat, actions of some esters of 4-hydroxyquinuclidine, 549
- , rat, effects of pH on the affinity of pirenzepine for muscarinic receptors, 559

## G

- G25671**, effect on platelet aggregation induced by arachidonic acid in an experimental model for thrombosis, 29
- Ganglionic transmission**, effect of propranolol and diltiazem in superior cervical ganglion of the guinea-pig, 359
- Gastric acid**, effect of pirenzepine on secretion from mouse stomach, 567
- Gastric emptying**, modification by histamine H<sub>2</sub>-antagonists, 443
- Gastric fundus**, rat, induction of contraction by pinane thromboxane A<sub>2</sub>, 591
- Giant neurones**, of *Achatina fulica* Férussac, inhibitory effect of N- $\beta$ -phenylpropionyl-L-tyrosine and its derivatives, 631

- Glucogenesis**, modulation by  $\alpha_1$ -adrenoceptor in rat renal cortex, 177
- Glutamate**, induction of excitation of rat cortical neurones, effect of cyclic dicarboxylic acids, 7
- Glyceryl trinitrate**, factors affecting elimination in rat and rabbit, 83
- Glycine**, effects of injectable anaesthetics on responses of reticulo-spinal neurones of the lamprey, 493
- Guanethidine**, denervation of rats, effect on contractile responses of rat vas deferens to 5-hydroxytryptamine, 605
- , effect on cardiovascular responses to lysine-vasopressin and oxytocin in anaesthetized dog, 69
  - , effect on excitatory junction potential in smooth muscle of dog cerebral arteries, 197
- Guanfacine**, comparison of actions with clonidine administered centrally and peripherally administered in the rabbit, 641
- Guanosine triphosphate analogue**, effect on pilocarpine and carbachol binding in ciliary muscle of cynomolgus monkey, 731

## H

- Haematin**, effect on antidepressant-induced inhibition of rat liver tryptophan pyrrolase activity, 59
- Haemolysed blood**, effect on responses of mouse anococcygeus to field stimulation and relaxations to vasoactive intestinal polypeptide or adenosine 5'-triphosphate, 97
- Haemolysis**, of human erythrocytes, evidence for carriage of silver by sulphadimine, 141
- Haloperidol**, effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129
- , effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
- Heart**, anaesthetized dog, effect of dopamine and dopamine agonists on blood flow, 23
- , dog, effects of ICI 118,587, a partial  $\beta_1$ -adrenoceptor agonist, 381
- Heart rate**, dog, effect of lysine-vasopressin and oxytocin, 69
- , effect of ICI 118, 587 in dogs, 381
  - , influence of chloralose and pentobarbitone in dogs, 309
  - , modification by  $\alpha_1$ -adrenoceptor activation in both directions, 319
- Hemicholinium-3**, effect on [ $^3$ H]-acetylcholine synthesis in rat isolated sympathetic ganglia, 581
- , effect on potassium activation of [ $^3$ H]-choline accumulation by rat isolated sympathetic ganglia, 573
  - , peripheral toxicity in mice, 239
- Hexamethonium**, blockade of negative chronotropic response to  $\alpha$ -agonists in pithed rats, 319
- High-pressure**, effect on responses to  $\gamma$ -aminobutyric acid of the rat superior cervical ganglion, 209
- High pressure liquid chromatography**, measurement of 5-flourouracil uptake into rat liver, 413
- Hippocampal formation**, rat brain, effect of methionyl-tyrosyl-lysine on single neurones, 477
- Histamine**, effect of adenosine 5'-triphosphate on responses of guinea-pig ileum before and after addition of hyoscine, 725
- , effect of mixed inhibitors of cyclo-oxygenase and lipoxygenase on concentration-response curve, 701
  - , effect on adenosine-stimulated accumulation of cyclic adenosine 3',5'-monophosphate and on [ $^3$ H]-mepyramine binding in guinea-pig cerebral cortex, 347
  - , effect on cystic duct resistance and circular muscle preparations in canine cystic ducts, 717
  - , effect on electrical slow waves and tone of guinea-pig isolated trachealis muscle, 45
  - , effect on membrane potential and input conductance in *Ascaris suum* somatic muscle, 255
  - , induction of bronchoconstriction in pithed guinea-pigs, effect of sympathetic nerve stimulation, 249
  - , induction of contractions in human airway smooth muscle, effect of arachidonic acid metabolism inhibitors, 570
  - , induction of release by substance P, effect of neurotensin in rat mast cells, 531
  - , involvement of release in contractions produced by substance P analogue in guinea-pig taenia coli, 697
- Histamine  $H_2$ -antagonists**, modification of gastric emptying in the rat, 443
- Histamine receptors**, effect of stimulation on resistance of canine cystic duct *in vivo* and on contractility of circular preparations of canine cystic duct *in vitro*, 717
- Histamine  $H_1$ -receptors**, mediation of responses to histamine analogues in guinea-pig cerebral cortex, 347
- HHV-II**, (protease inhibitor homologue) effect on acetylcholine release and interactions with prejunctional blocking toxins, 153
- DL-Homocysteic acid**, induction of firing in single neurones of regions of rat brain, effects of methionyl-tyrosyl-lysine, 477
- Homovanillic acid**, effect of central stimulants on mouse striatal concentrations, 511
- Hot plate test**, effect of morphine, buprenorphine and tilidine in the rat, 615
- (15S)-hydroxy-11 $\alpha$ ,9 $\alpha$  (epoxymethano) prosta-5z, 13E-dienoic acid** *see* U46619
- 6-Hydroxydopamine**, effect on mitochondrial function in ischaemic and reperfused rabbit myocardium, 707
- , effect on release of noradrenaline and purines from vascular adrenergic nerves of the rabbit by ouabain, 625
- 1-(p-Hydroxyphenoxy)-3- $\beta$ -(morpholinicarbon-amido) ethylamino-2-propranol fumarate** *see* ICI 118,587
- 4-Hydroxyquinuclidine esters**, actions on guinea-pig ileum, atria and rat fundus, 549
- 5-Hydroxytryptamine**, contractile effects on rat isolated vas deferens, 605
- , effect of adenosine 5'-triphosphate on responses of guinea-pig ileum before and after addition of tetrodotoxin, 725
  - , effect on (+)-amphetamine on regional levels in mouse, 335
  - , effect on muscle membrane of dog cerebral arteries, 197
  - , inactivation in isolated perfused rat lung, effect of cigarette ventilation, 245
  - , production of coronary arterial spasm in the dog, effect of removal of magnesium from physiological salt solution, 649

- 5-Hydroxytryptamine nerve terminals**, effect of (+)-amphetamine in mouse striatum, 335
- 5-Hydroxytryptamine receptor antagonists**, effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129
- 5-Hydroxytryptamine receptors**, mediation of 5-hydroxytryptamine-induced contractions of rat isolated vas deferens, 605
- Hyoscine**, effect on inhibitory effect of adenosine 5'-triphosphate on responses of guinea-pig ileum to prostaglandin E<sub>2</sub> and histamine, 725
- Hyperactivity syndrome**, induced by  $\beta$ -phenylethylamine in the mouse, pharmacological analysis, 129
- Hyper-reactivity**, pig trachea, indomethacin-induced, lipoxygenase-dependent component, 701
- Hypertension**, induction by (–)-phenylephrine, B-HT 933 and sympathetic stimulation, antagonism by raubasine, yohimbine and corynanthine in pithed rats, 449

## I

- ICI 118,587**, cardiovascular effects in dog, 381
- Ileum**, guinea-pig, actions of some esters of 4-hydroxyquinclidine, 549
- , guinea-pig, direct and indirect effect of adenosine 5'-triphosphate on guinea-pig ileum, 725
  - , guinea-pig, effects of pH on the affinity of pirenzepine for muscarinic receptors, 559
  - , guinea-pig, pharmacological studies with pirenzepine, 576
  - , rat, effect of chlorpromazine on net fluxes of water and sodium, 469
- Imidazole**, effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
- , effect on leukotriene-induced contractions of parenchymal strips of guinea-pig, 267
  - , inhibition of thromboxane A<sub>2</sub> release induced by leukotrienes C<sub>4</sub> and D<sub>4</sub> in guinea-pig lung *in vitro*, 267
- Imipramine**, effect on hepatic first pass elimination of propranolol in the pithed rat, 667
- , effect on rat liver tryptophan pyrrolase activity, 59
- Indomethacin**, effect of incubation with adenosine 5'-triphosphate on isolated anococcygeus muscle of the mouse, 97
- , effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
  - , effect on histamine-induced contraction of human airway smooth muscle, 570
  - , effect on ovalbumin-induced contraction of guinea-pig trachea, 3
  - , effect on platelet aggregation induced by arachidonic acid in an experimental model for thrombosis, 29
  - , effect on vasoactive intestinal polypeptide potentiation of oedema in rabbit skin, 505
  - , increased anaphylactic bronchoreactivity in two models of bronchial anaphylaxis in anaesthetized guinea-pigs, 301
  - , induction of hyper-reactivity in pig isolated trachea, effect of mixed cyclo-oxygenase and lipoxygenase inhibitors, 701

- Indoramin**, effect on gluconeogenesis in tubules and [<sup>3</sup>H]-prazosin binding to membranes from rat neonatal cortex, 177
- Innervation**, excitatory and inhibitory of rat anococcygeus muscle, inhibitory action of  $\gamma$ -aminobutyric acid, 691
- Inotropic effects**, of ICI 118, 587 in dogs, 381
- Input conductance**, *Ascaris suum* somatic muscle, effect of piperazine and diethyl-carbamazine, 255
- Iodoamiloride**, action as photoligand for epithelial sodium channels of frog skin, 431
- Ipindole**, effect on clonidine inhibition of acoustic startle reflex in rats, 217
- , effect on rat liver tryptophan pyrrolase activity, 59
- Ischaemia**, effect on mitochondrial function in presence and absence of 6-hydroxydopamine in the rabbit, 707
- Isocarboxazid**, effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59
- Isoprenaline**, effect on atrioventricular conduction and heart rate, reduction by chloralose and pentobarbitone in dog, 309
- , effect on heart and blood vessels of dog, antagonism by ICI 118,587, 381
  - , effects on muscle membrane of dog cerebral arteries, 197
  - , production of a positive chronotropic response in pithed rats, 319
  - , responses of superfused rat parotid gland, effect of Ro 20-1724 and theophylline, 405
- (–)-Isoprenaline**, effect on electrical slow waves and tone of guinea-pig isolated trachealis muscle, 45

## J

- Junction potentials**, effects of enkephalins and morphine in cat and rabbit colons, 419

## K

- K-351**, effects on the electrical and mechanical responses of smooth muscle cells and neuromuscular transmission in the canine mesenteric artery, 679
- Kainate**, induction of excitation of rat cortical neurones, effect of cyclic dicarboxylic acids, 7
- Ketamine**, effect on responses of reticulo-spinal neurones to inhibitory transmitters in the lamprey, 493
- , effect on responses to  $\gamma$ -aminobutyric acid of the rat superior cervical ganglion, 209
- Kidney**, anaesthetized dog, effect of dopamine and dopamine agonists on blood flow, 23
- Kinetics**, uptake of 5-flourouracil into rat liver, 413

## L

- Labetalol**, and its stereoisomers,  $\alpha$ - and  $\beta$ -adrenoceptor blocking potencies in anaesthetized dogs and in isolated tissues, 105
- Lamprey**, model for the study of the effects of anaesthetics, 493
- Leukotriene B<sub>4</sub>, C<sub>4</sub> and D<sub>4</sub>**, stimulation of arachidonic acid metabolism and generation of thromboxane A<sub>2</sub> in guinea-pig lung *in vitro*, 267

- Leukotriene C<sub>4</sub>**, effect on mucin release into cat trachea *in vivo* and *in vitro*, 391
- Lipoxygenase**, involvement in indomethacin-induced hyper-reactivity in pig trachea, 701
- Liver**, rat, kinetics of 5-flourouracil uptake, 413
- Longitudinal muscles**, guinea-pig ileum, influence of *N*-ethylmaleimide on responses, 89
- Lorazepam**, effect on rat liver tryptophan pyrrolase activity, 59
- Loxapine**, effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
- Ludiomil**, effect on rat liver tryptophan pyrrolase activity and tryptophan brain concentrations, 59
- Lung**, guinea-pig, stimulation of arachidonic acid metabolism and generation of thromboxane A<sub>2</sub> by leukotrienes B<sub>4</sub>, C<sub>4</sub> and D<sub>4</sub> *in vitro*, 267
- , rat isolated perfused, effect of cigarette smoke ventilation on inactivation of 5-hydroxytryptamine, 245
- Lung lobe**, dog, pulmonary action of prostaglandin F<sub>2α</sub> and U46619, effect of TMB-8, 55
- LY51641**, effect on tyramine and noradrenaline contractile responses of rat isolated vas deferens, 13
- Lysine-vasopressin**, effect on central cardiovascular control in anaesthetized dogs, 69

## M

- Magnesium**, effect of concentrations in medium on potassium activated uptake of [<sup>3</sup>H]-choline by isolated sympathetic ganglia of the rat, 573
- , low concentrations in medium, effect on potassium depolarization-induced stimulation of [<sup>3</sup>H]-acetylcholine synthesis in rat isolated sympathetic ganglia, 581
- Magnesium ions**, antagonism of *N*-methyl D,L aspartic acid responses in amphibian spinal cord, 363
- , effect on binding of agonists and antagonists to  $\alpha$ -adrenoceptor of intact human platelets, 277
- , influence on contractility of coronary arteries of the dog to vasoactive agents, 649
- Mamba venoms**, protease inhibitor homologues, facilitation of acetylcholine release and interactions with prejunctional blocking toxins, 153
- Manganese ions**, antagonism of *N*-methyl D,L aspartic acid responses in amphibian spinal cord, 363
- Mast cells**, rat, effect of neurotensin on substance P-induced histamine release, 531
- Mecamylamine**, effect on pressor response to paraoxon in anaesthetized and conscious rat, 223
- , effect on pressor response to paraoxon in pithed rat, 233
- Median raphe nucleus**, rat, involvement in antinociception induced by morphine, buprenorphine and tilidine, 615
- Mefanamic acid**, effect on rat liver tryptophan pyrrolase activity, 59
- Membrane current**, *Ascaris suum* somatic muscle, effect of piperazine and diethylcarbamazine, 255
- Membrane potential**, *Ascaris suum* somatic muscle, effect of piperazine and diethylcarbamazine, 255
- Membrane properties**, smooth muscles of dog cerebral arteries, 197
- Mepacrine**, effect on leukotriene-induced contractions of guinea-pig parenchymal strips, 267
- , inhibition of antigen-induced bronchoconstriction in guinea-pigs sensitized to produce IgE- and IgG-like antibodies, 301
- , inhibition of release of thromboxane A<sub>2</sub> and prostaglandin-like material induced by slow-reacting substance of anaphylaxis and bradykinin in guinea-pig lung *in vitro*, 267
- Mepyramine**, effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
- , effect on contraction in guinea-pig taenia coli induced by substance P analogue, 697
- , effect on potentiation of adenosine-stimulated accumulation of cyclic adenosine 3',5'-monophosphate and on [<sup>3</sup>H]-mepyramine binding in guinea-pig cerebral cortex, 347
- , effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
- , reduction of anaphylactic bronchoreactivity in two models of bronchial anaphylaxis in anaesthetized guinea-pig, 301
- [<sup>3</sup>H]-mepyramine**, effect of histamine H<sub>1</sub>-agonists on binding in guinea-pig cerebral cortex, 347
- Metaclopramide**, effect on dopamine-induced delay in gastric emptying in the rat, 443
- Methergoline**, effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129
- Methionyl-tyrosyl-lysine**, effect on single neurones in regions of rat brain, 477
- Methoxyverapamil**, effect on electrical slow waves and tone of guinea-pig isolated trachealis muscle, 45
- N*-methyl-D-aspartate**, induction of excitation of rat cortical neurones, effect of cyclic dicarboxylic acids, 7
- N*-methyl-D-aspartate receptors**, role in synaptic transmission in amphibian spinal cord, 363
- N*-methylatropine**, effect on pressor response to paraoxon in anaesthetized and conscious rat, 223
- , effect on pressor response to paraoxon in pithed rat, 233
- 2-Methylhistamine**, effect on adenosine-stimulated accumulation of cyclic adenosine 3',5'-monophosphate and on [<sup>3</sup>H]-mepyramine binding in guinea-pig cerebral cortex, 347
- 4-Methylhistamine**, effect on cystic duct resistance and on circular muscle preparations of canine cystic duct, 717
- N*<sup>6</sup>-methylhistamine**, effect on adenosine-stimulated accumulation of cyclic adenosine 3',5'-monophosphate and on [<sup>3</sup>H]-mepyramine binding in guinea-pig cerebral cortex, 347
- (-)- $\alpha$ -Methylnoradrenaline**, effect on gluconeogenesis in tubules and [<sup>3</sup>H]-prazosin binding to membranes from rat neonatal cortex, 177
- [<sup>3</sup>H]-*N*-methylscopolamine**, binding to ciliary muscle of cynomolgus monkeys, 731
- 2-Methylthioadenosine 5'-diphosphate**, actions on human platelets, 329
- Methysergide**, effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
- , effect on contractile responses of coronary arteries of dog evoked by vasoactive agents in different concentrations of magnesium, 649

- , effect on contractile responses of rat vas deferens to 5-hydroxytryptamine, 605
  - , effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129
  - , effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
  - Metamide**, modification by, of gastric emptying in the rat, 443
  - Metoclopramide**, effect on vasodilator responses to dopamine and SK&F 38393 in anaesthetized dog, 23
  - Metomidate**, effect on responses of reticulo-spinal neurones to inhibitory transmitters in the lamprey, 493
  - Metyrapone**, effect on hepatic first pass elimination of propranolol in the pithed rat, 667
  - Mianserin**, effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129
  - , effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59
  - Microiontophoretic application**, of methionyl-tyrosyllysine, effect on single neurones of regions of rat brain, 477
  - Miniature endplate currents**, effect of low concentrations of carbachol applied by local superfusion to mouse diaphragm endplates, 405
  - Mitochondrial function**, effect of chemical sympathectomy in ischaemic and reperfused rabbit myocardium, 707
  - Monoamine oxidase inhibitors**, effect on tyramine and noradrenaline contractile responses of rat isolated vas deferens, 13
  - Morphine**, effect on spontaneous electrical activity and junction potentials elicited by parasympathetic nerve stimulation in cat and rabbit colon, 419
  - , induction of antinociception, involvement of median raphe nucleus in the rat, 615
  - , lack of effect on  $\alpha_2$ -agonist analgesia and of displacement of  $\alpha_2$ -agonist radioligand binding, 487
  - Motor nerve terminals**, presence of  $\gamma$ -aminobutyric acid receptors, 163
  - Mucins**, effect of leukotriene  $C_4$  on release into cat trachea *in vivo* and *in vitro*, 391
  - Muscarine**, effect on release of catecholamines from the perfused adrenal gland of the cat, 455
  - Muscarinic receptors**, affinity of 4-hydroxyquinuclidine esters in guinea-pig ileum, atria and rat fundus, 549
  - , binding properties in ciliary muscle of cynomolgus monkeys, 731
  - , effects of pH on the affinity of pirenzepine in guinea-pig ileum and rat fundus strip, 559
  - , ganglionic, mediation of pressor effects of paraoxon in pithed rat, 233
  - , pharmacological studies on affinity of pirenzepine in ileum and atrium of guinea-pig and mouse stomach, 567
  - Muscarinic responses**, longitudinal muscle of guinea-pig ileum, effect of *N*-ethylmaleimide, 89
  - Muscle membrane conductance**, effect of low concentrations of carbachol applied by local superfusion to mouse diaphragm endplates, 405
  - Muscle tension**, effect of putative calmodulin antagonists in depolarized vascular and intestinal smooth muscles, 661
  - Myocardium**, rabbit, effect of chemical sympathectomy on mitochondrial function, 707
- N**
- Naloxone**, antagonism of effects of enkephalins and morphine in cat and rabbit colon, 419
  - , inhibition of ionic currents in frog node of Ranvier, 115
  - , lack of effect on  $\alpha_2$ -agonist analgesia and of displacement of  $\alpha_2$ -agonist radioligand binding, 487
  - Neostigmine**, potentiation of negative chronotropic responses to  $\alpha$ -agonists in pithed rats, 319
  - Neuromuscular junction**, mouse, fast desensitization of nicotinic receptor, 405
  - Neuromuscular junction potentials**, smooth muscles of dog cerebral arteries, 197
  - Neuronal hybrid cell lines**, desensitization of prostacyclin receptors, 121
  - Neurones**, rat cortical, effects of cyclic dicarboxylic acids on spontaneous and amino acid-evoked activity, 7
  - Neurotensin**, effect on histamine release induced by substance P in rat peritoneal mast cells, 531
  - Neurotensin analogues**, inhibition of substance P-induced histamine release in rat mast cells, 531
  - Nialamide**, effect on rat liver tryptophan pyrrolase activity and brain concentration of tryptophan, 59
  - Nickel ions**, antagonism of *N*-methyl-D,L aspartic acid responses in amphibian spinal cord, 363
  - 2-Nicotinamidoethyl nitrate**, effect on membrane potential in smooth muscle of dog cerebral arteries, 197
  - Nicotine**, effect of adenosine 5'-triphosphate on responses of guinea-pig ileum, 725
  - , responses of perfused adrenal gland of the cat, effect of muscarine perfusion, 455
  - Nicotinic receptor**, fast desensitization at mouse neuromuscular junction, 405
  - Nictindole**, effect of pretreatment with, on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
  - Nifedipine**, effect of pretreatment with, on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
  - , effect on contractile responses to 5-hydroxytryptamine in rat vas deferens, 605
  - NNV-II**, (protease inhibitor homologue) effect on acetylcholine release and interactions with prejunctional blocking toxins, 153
  - Node of Ranvier**, frog, inhibition of ionic currents by naloxone, 115
  - Nomifensine**, effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59
  - , effects on mouse striatal tyramine, dopamine and homovanillic acid, 511
  - Non-adrenergic, non-cholinergic inhibitory transmission**, in mouse anococcygeus, 97
  - Noradrenaline**, action on same receptors as dopamine and phenylephrine in rat isolated vas deferens, 293
  - , actions on and interactions with yohimbine on stimulation-induced  $^3\text{H}$ -transmitter efflux in guinea-pig ureter, 373
  - , characterization and differentiation of  $\alpha$ -adrenoceptors of rat and rabbit aortae, 169
  - , contractile responses of rat isolated vas deferens, effect of selective monoamine oxidase inhibitors, 13
  - , chronotropic effects in dog heart, antagonism by ICI 118,587, 381

- , effect of (+)-amphetamine on regional levels in mouse, 335
- , effect on muscle membrane of dog cerebral arteries, 197
- , effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129
- , induction of contractions, effect of  $\gamma$ -aminobutyric acid in rat anococcygeus muscle, 361
- , induction of contractions, effect of K-351, phen-  
tolamine or prazosin in canine mesenteric artery, 679
- , induction of contractions and  $^{45}\text{Ca}$  fluxes in rat isolated  
aorta, 597
- , release from vascular adrenergic nerves of the rabbit by  
ouabain, 625
- (-)-**Noradrenaline**, effect on gluconeogenesis in tubules  
and [ $^3\text{H}$ ]-prazosin binding to membranes from rat  
neonatal cortex, 177
- [ $^3\text{H}$ ]-**noradrenaline**, enhancement and inhibition of efflux,  
action at two separate loci, 373
- Noradrenaline nerve terminals**, effect of (+)-amphetamine  
in mouse striatum, 335
- Nortriptyline**, effect on rat liver tryptophan pyrrolase activi-  
ty and brain tryptophan concentrations, 59
- Notexin**, interaction with facilitatory toxins from mamba  
venoms, 153

## O

- Oedema**, induced by bradykinin and by C5a des Arg., effect  
of vasoactive intestinal polypeptide and prostaglandin  
E<sub>2</sub> in rabbit skin, 505
- Opiate binding sites**,  $\mu$ -,  $\delta$ - and  $\kappa$ -, spectrum in homogenates  
of rat brain, 461
- Opiate receptor agonists**, lack of effect on  $\alpha_2$ -agonist  
analgesia and of displacement of  $\alpha_2$ -agonist radioligand  
binding, 487
- Opiates**, binding characteristics on homogenates of rat  
brain, 461
- , effect on spontaneous electrical activity and junction  
potentials elicited by parasympathetic nerve stimula-  
tion, 419
- Opioid peptides**, binding characteristics on homogenates of  
rat brain, 461
- Org 6001**, voltage- and time-dependent depression of max-  
imum rate of depolarization of guinea-pig ventricular  
action potentials, 541
- Ouabain**, effect on membrane potential in smooth muscle of  
dog cerebral arteries, 197
- , release of purines and noradrenaline from vascular  
adrenergic nerves of rabbit, 625
- Ovalbumin**, induction of contraction of guinea-pig trachea,  
3
- Oxymetazoline**, characterization and differentiation of  $\alpha$ -  
adrenoceptors of rat and rabbit aortae, 169
- , effect on gluconeogenesis in tubules and [ $^3\text{H}$ ]-prazosin  
binding to membranes from rat neonatal cortex, 177
- , induction of contractions and  $^{45}\text{Ca}$  fluxes in rat  
isolated aorta, 597
- , inhibition of stimulation-induced transmitter efflux,  
lack of effect of yohimbine, 373
- Oxmetidine**, modification of gastric emptying in the rat, 443
- Oxytocin**, effect on central cardiovascular control in anaes-  
thetized dog, 69

## P

- Paraoxon**, effect on blood pressure in anaesthetized and  
conscious rat, 223
- , pressor effects in the pithed rat, 233
- Parasympathetic nerve stimulation**, effect on amplitude of  
junction potentials of cat and rabbit colon, facilitation  
by opiates, 419
- Parasympathetic nerves**, location of  $\alpha_1$ -adrenoceptors in  
pithed rats, 319
- Parenchymal strips**, guinea-pig, dose-related contractions  
induced by leukotrienes B<sub>4</sub>, C<sub>4</sub> and D<sub>4</sub>, 267
- Pargyline**, effect on rat liver tryptophan pyrrolase activity  
and brain tryptophan concentrations, 59
- Parotid gland**, rat, effect of theophylline and Ro 20-1724 on  
protein secretion, 405
- Paw pressure test**, effect of morphine, buprenorphine and  
tilidine in the rat, 615
- Pemoline**, effect on rat liver tryptophan pyrrolase activity  
and brain tryptophan concentrations, 59
- Pentobarbitone**, effect on responses of reticulo-spinal  
neurons to inhibitory transmitters in the lamprey, 493
- , influence on heart rate and atrioventricular conduction  
in dogs, 309
- Pentylentetrazol**, infused or administered intraperitone-  
ally
- , responses to, anticonvulsant effects of ethylenediamine  
in mice, 525
- Perivascular nerve stimulation**, induction of contractions,  
effect of K-351, phen-  
tolamine or prazosin in canine  
mesenteric artery, 679
- pH**, effect on the affinity of pirenzepine for muscarinic  
receptors in the guinea-pig ileum and rat fundus strip,  
559
- Phenelzine**, effect on rat liver tryptophan pyrrolase activity  
and brain tryptophan concentrations, 59
- Phenidone**, abolition of effect of indomethacin on tracheal  
contractions to histamine in the pig, 701
- Phenoxybenzamine**, effect on depressant action of  
bethanechol on fast excitatory postsynaptic potentials  
in bullfrog, 75
- , effect on  $\beta$ -phenylethylamine-induced hyperactivity in  
the mouse, 129
- Phentolamine**, effect of pretreatment on contractile action  
of adenosine and adenosine 5'-triphosphate on guinea-  
pig isolated trachea, 39
- , effect on contractile response evoked by vasoactive  
agents in different concentrations of magnesium in  
coronary arteries of the dog, 649
- , effect on contractile responses of rat vas deferens to  
5-hydroxytryptamine, 605
- , effect on depressant action of bethanechol on fast  
excitatory postsynaptic potentials in bullfrog, 75
- , effect on excitatory junction potential in smooth mus-  
cle of dog cerebral arteries, 197
- , effect on gluconeogenesis in tubules and [ $^3\text{H}$ ]-prazosin  
binding to membranes from rat neonatal cortex, 177
- , effect on inhibitory action of  $\gamma$ -aminobutyric acid in rat  
anococcygeus muscle, 691
- , effect on  $\beta$ -phenylethylamine-induced hyperactivity in  
the mouse, 129
- , effect on pressor response to paraoxon in the anaes-  
thetized and in the conscious rat, 223

- , effect on release of purines from vascular adrenergic nerves of the rabbit by ouabain, 625
- , inhibition of actions of dopamine, noradrenaline and phenylephrine in rat isolated vas deferens, 293
- Phenylephrine**, action on same receptors as dopamine and noradrenaline in rat isolated vas deferens, 293
- , induction of contractions and  $^{45}\text{Ca}$  fluxes in rat isolated aorta, 597
- , induction of contractions, effect of  $\gamma$ -aminobutyric acid in rat anococcygeus muscle, 361
- , production of positive and negative chronotropic effect in pithed rats, 319
- (-)-Phenylephrine**, effect on gluconeogenesis in tubules and [ $^3\text{H}$ ]-prazosin binding to membranes from rat neonatal cortex, 177
- $\beta$ -Phenylethylamine**, induction of hyperactivity in the mouse, pharmacological analysis, 129
- N- $\beta$ -phenylpropionyl-L-tyrosine**, and its derivatives, inhibitory effects on identifiable giant neurone of *Achatina fulica* Férrussac, 631
- Phenytol**, effect on rat liver tryptophan pyrrolase activity, 59
- Phosphate: oxygen ratio**, effect of chemical sympathectomy in ischaemic and reperfused rabbit myocardium, 707
- [ $^3\text{H}$ ]-phosphorylcholine**, effect of potassium depolarization and preganglionic nerve stimulation on synthesis in rat isolated sympathetic ganglia, 581
- Physalaemin**, effect on substance P-induced histamine release in rat mast cells, 531
- Picrotoxin**, effect on response of rat anococcygeus muscle to  $\gamma$ -aminobutyric acid, 163
- Pilocarpine**, inhibition of [ $^3\text{H}$ ]-N-methylscopolamine binding in ciliary muscle of cynomolgus monkey, 731
- Pimozide**, effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
- Pinane thromboxane A<sub>2</sub>**, effects in rat and human stomach longitudinal muscle, 591
- Piperazine**, effect on membrane potential membrane, current and input conductance in *Ascaris suum* somatic muscle, 255
- Piperazine-2,3-dicarboxylic acid**, effect on spontaneous and amino acid-evoked activity of rat cortical neurones, 7
- cis-2,3-Piperidine dicarboxylic acid**, effect on spontaneous and amino acid-evoked activity of rat cortical neurones, 7
- Pirenzepine**, affinity for muscarinic receptors, 567
- , effect of pH on the affinity for muscarinic receptors in guinea-pig ileum and rat fundus strip, 559
- , inhibition of [ $^3\text{H}$ ]-N-methylscopolamine binding in ciliary muscles of cynomolgus monkey, 731
- Pithed rats**,  $\alpha$ -adrenoceptor blocking properties of raubasine, yohimbine and corynanthine, 449
- , effect of chlorpromazine, metyrapone, imipramine and SKF 525-A on hepatic first pass elimination of propranolol, 667
- Plasma**, rabbit, levels of guanfacine after central and peripheral administration, 641
- Platelets**, human, actions of adenosine 5'-diphosphate analogues, inhibition by adenosine 5'-triphosphate, 329
- , human, effects of monovalent and divalent cations on  $\alpha$ -adrenoceptor, 277
- , interactions with fibrin and red cells in an experimental model of thrombosis, 29
- Potassium**, activation of [ $^3\text{H}$ ]-choline accumulation by isolated sympathetic ganglia of the rat, 573
- , effect of increased concentrations on the effects of salicylates on isolated atrial muscle of the rabbit, 285
- , influence of increased concentrations on the effects of 5-bromo salicylate on isolated atrial muscle of the rabbit, 285
- Potassium chloride**, production of coronary arterial spasm in the dog, effect of removal of magnesium from physiological salt solution, 649
- , release of purines and noradrenaline from vascular adrenergic nerves of rabbit, 625
- Potassium currents**, inhibition by naloxone in frog node of Ranvier, 115
- Potassium depolarization**, effect on metabolism of [ $^3\text{H}$ ]-choline in rat isolated sympathetic ganglia, 581
- Potassium free medium**, effect on membrane potential in smooth muscle of dog cerebral arteries, 197
- Potassium ion conductance**, effect of diethylcarbazine in *Ascaris suum* somatic muscle, 255
- Potassium ions**, high levels, responses of perfused adrenal gland of the cat, effect of muscarine perfusion, 455
- , induction of contractions, effect of N-ethylmaleimide in longitudinal muscles from guinea-pig ileum, 89
- Prazosin**, antagonism of stimulatory effects of histamine in cystic duct of dog, 717
- , effect on excitatory junction potential in smooth muscle of dog cerebral arteries, 197
- , effect on gluconeogenesis in tubules and [ $^3\text{H}$ ]-prazosin binding to membranes from rat neonatal cortex, 177
- , effect on pressor response to paraoxon in the anaesthetized and in the conscious rat, 223
- , effect on stereotypy and contralateral circling induced in rats by dopamine agonists, 185
- , inhibition of actions of dopamine, noradrenaline and phenylephrine in rat isolated vas deferens, 293
- [ $^3\text{H}$ ]-prazosin**, binding to tubules in rat renal cortex, 177
- Preganglionic nerve stimulation**, effect on metabolism of [ $^3\text{H}$ ]-choline in rat isolated sympathetic ganglia, 581
- Preynilamine**, effect on tension and cellular calcium content in depolarized vascular and intestinal smooth muscles, 661
- Pressor responses**, to bilateral carotid artery occlusion or noradrenaline in capsaicin treated adult rats, 517
- Promethazine**, inhibition of [ $^3\text{H}$ ]-mepyramine binding in guinea-pig cerebral cortex, 347
- Propranolol**, effect on contractile response of coronary arteries of the dog evoked by vasoactive agents in different concentrations of magnesium, 649
- , effect on ganglionic transmission in superior cervical ganglion of the guinea-pig, 359
- , effect on inhibitory action of  $\gamma$ -aminobutyric acid in rat anococcygeus muscle, 691
- , effect on modulation of bronchoconstrictor responses to histamine in pithed guinea-pigs by sympathetic nerve stimulation, 249
- , effect on negative chronotropic effect of salicylates on isolated atrial muscle of the rabbit, 285
- , effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129
- , effect on stereotypy and contralateral circling induced

- in rats by dopamine agonists, 185
- , first pass elimination, effect of chlorpromazine, metyrapone, imipramine and SKF 525-A in the pithed rat, 667
- Prostacyclin**, activation of adenylate cyclase of NCB-20 neuronal somatic cell hybrid, 121
- , induction of contractions, effect of pinane thromboxane  $A_2$  in rat and human stomach muscle, 591
- Prostacyclin receptors**, desensitization in neuronal hybrid cell line, 121
- Prostaglandin E-like material**, release in response to ovalbumin in guinea-pig trachea in the absence of indomethacin, 3
- Prostaglandin  $E_1$** , stimulation of changes in net fluxes of water and sodium in rat ileum and colon, effect of chlorpromazine, 469
- Prostaglandin  $E_2$** , effect of adenosine 5'-triphosphate on responses of guinea-pig ileum before and after addition of hyoscine, 725
- , vasodilatation and potentiation of oedema in rabbit skin, 505
- Prostaglandin  $F_{2\alpha}$** , pulmonary vasoconstrictor action, effect of TMB-8 in dog, 55
- Prostaglandins**, contribution to the adenosine and adenosine 5'-triphosphate-induced contraction of guinea-pig isolated trachea, 39
- , induction of contractions, effect of thromboxane  $A_2$  in human and rat stomach muscle, 591
- Protease inhibitor homologues**, effect on isolated biventer cervicis nerve-muscle preparations of chick, 153
- Protease of tumour cell surfaces**, inhibition by silver transported by sulphadimidine in the presence of chlorine ions, 147
- Protein secretion**, effect of theophylline and Ro 20-1724 in superfused rat parotid gland, 405
- Proteolytic enzymes**, inhibition, evidence for the carriage of silver by sulphadimidine, 147
- Protriptyline**, effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59
- Pulmonary arterial segment**, rabbit, release of noradrenaline or purines by ouabain and potassium chloride after preincubation with [ $^3H$ ]-noradrenaline or [ $^3H$ ]-adenosine, 625
- Purine nucleotides**, effect of binding of agonists and antagonists to  $\alpha$ -adrenoceptor of human intact platelets, 277
- Purines**, release from vascular adrenergic nerves of the rabbit by ouabain, 625
- 2,3-Pyridine dicarboxylic acid** *see* **Quinolinic acid**
- 2-Pyridylethylamine**, effect on adenosine-stimulated accumulation of cyclic adenosine 3', 5'-monophosphate in guinea-pig cerebral cortex, 347
- , effect on cystic duct resistance and on circular muscle preparations of canine cystic duct, 717
- 2-2'-Pyridylisatogen tosylate**, effect on muscle tone and inhibitory responses to field stimulation, vasoactive intestinal polypeptide or adenosine 5'-triphosphate in mouse anococcygeus, 97

## Q

- Quinolinic acid**, production of excitation of rat cortical neurones, effect of cyclic dicarboxylic acids, 7

- [ $^3H$ ]-3-quinuclidinyl benzilate**, inhibition of binding to membranes prepared from longitudinal muscles of guinea-pig ileum by carbamylcholine, 89
- Quisqualate**, production of excitation of rat cortical neurones, effect of cyclic dicarboxylic acids, 7

## R

- Ranitidine**, effect on dopamine-induced delay in gastric emptying in the rat, 443
- , modification of gastric emptying in the rat, 443
- Raubasine**,  $\alpha$ -adrenoceptor blocking properties in pithed rats, 449
- Red cells**, interactions with fibrin and platelets in an experimental model of thrombosis, 29
- Renal cortex**, rat, comparison of [ $^3H$ ]-prazosin binding with the  $\alpha_1$ -adrenoceptor modulating gluconeogenesis under physiological conditions, 177
- Reperfusion**, effect on mitochondrial function in presence and absence of 6-hydroxydopamine in the rabbit, 707
- Reserpine**, effect of treatment on contractile responses of rat vas deferens to 5-hydroxytryptamine, 605
- , effect on modulation of bronchoconstrictor responses to histamine in pithed guinea-pigs by sympathetic nerve stimulation, 249
- Respiration**, effect on neonatally administered capsaicin in adult rats, 517
- Respiratory control index**, effect of chemical sympathectomy in ischaemic and reperfused myocardium, 707
- Ro 15-1788**, effect on anticonvulsant action of diazepam or ethylenediamine in mice, 525
- Ro 20-1724**, effect on protein secretion from superfused rat parotid gland, 405
- Route of administration**, effect on elimination of glyceryl trinitrate in rat and rabbit, 83

## S

- Salicylate**, effect on rat liver tryptophan pyrrolase activity, 59
- Saliva**, comparison of effects of centrally and peripherally administered guanfacine and clonidine on flow in the rabbit, 641
- Sex**, effect on elimination of glyceryl trinitrate in rat and rabbit, 83
- Silver**, evidence for the carriage by sulphadimidine, inhibition of proteolytic enzymes, 147
- Silver**, evidence for carriage by sulphadimidine: haemolysis of human erythrocytes, 141
- SKF 515-A**, effect on hepatic first pass elimination of propranolol in the pithed rat, 667
- SK&F 38393**, effect on renal and coronary blood flow in anaesthetized dog, 23
- SK & F 38393**, induction of contralateral circling in rats, 185
- Skin**, human, inhibition by neurotensin of substance P-induced flare reaction, 531
- Slow reacting substance of anaphylaxis**, release by, of thromboxane  $A_2$  and prostaglandin-like materials from guinea-pig lung, 267
- Smooth muscle**, depolarized vascular and intestinal, effects

- of calmodulin antagonists on tension and cellular calcium content in rabbit and guinea-pig, 661
- Smooth muscle cells**, dog cerebral arteries, membrane properties and excitatory neuromuscular transmission, 197
- Sodium**, changes in net flux, induction by prostaglandin  $E_1$  and theophylline, effect of chlorpromazine, 469
- Sodium**, low concentrations in medium, effect on [ $^3H$ ]-acetylcholine synthesis in rat isolated sympathetic ganglia, 581
- Sodium 7-[3(4-acetyl-3-hydroxy-2-propylphenoxy)-2-hydroxypropoxy]-4 oxo-8-propyl-4H-1-benzopyran-2-carboxylate** *see* FPL 55712
- Sodium channels**, frog skin epithelium, effect of ultraviolet irradiation, 431
- Sodium currents**, inhibition by naloxone in frog node of Ranvier, 115
- Sodium ions**, effect on binding of agonists and antagonists to  $\alpha$ -adrenoceptor of intact human platelets, 277
- Sodium nitrate**, effect on electrical slow waves and tone of guinea pig isolated trachealis muscle, 45
- Sodium salicylate**, electrophysical effects on isolated atrial muscle of the rabbit, 285
- Sodium transport**, frog skin epithelium, effect of ultraviolet irradiation, 431
- Spike activity**, effect of morphine and enkephalins in cat and rabbit colon, 419
- Spinal cord**, frog, antagonism of N-methyl D,L aspartic acid responses by low concentrations of divalent cations, 363
- Spinal cortex**, rat brain, effect of methionyl-tyrosyl-lysine on single neurones, 477
- Spontaneous electrical activity**, effect of enkephalins and morphine in cat and rabbit colon, 419
- Stereotypy**, induction by dopamine agonists in the rat, potency, 185
- Smooth muscle**, human, effect of pinane thromboxane  $A_2$ , 591
- Striatum**, mouse, selective (+)-amphetamine neurotoxicity on dopamine nerve terminals, 335
- Strychnine**, induction of seizures, effect of ethylenediamine, in mice, 525
- Subsensitivity**, of ciliary muscles of cynomolgus monkey, induction by treatment with muscarinic agonists, effect on muscarinic receptor concentrations, 731
- Substance P**, contractile effects on guinea-pig isolated taenia coli, antagonism by (D-Pro<sup>2</sup>, D-Trp<sup>7,9</sup>)-substance P, 697
- , induction of histamine release from rat mast cells, inhibition by neurotensin, 531
- Substance P, (D-Pro<sup>2</sup>, D-Trp<sup>7,9</sup>)-**, antagonism of contractile effects of substance P on guinea-pig isolated taenia coli, 697
- Substance P analogues**, inhibition of substance P-induced histamine release in rat mast cells, 531
- Sulphadimidine**, evidence for carriage of silver, haemolysis of human erythrocytes, 141
- , evidence for carriage of silver, inhibition of proteolytic enzymes, 147
- Sulphinpyrazone**, effect on thrombus formation, 29
- Superior cervical ganglion**, guinea-pig, effect of diltiazem and propranolol on ganglionic transmission, 359
- , rat, effect of ketamine and of high pressure on responses to  $\gamma$ -aminobutyric acid, 209
- Sympathetic ganglia**, rat isolated, effect of potassium depolarization and pre-ganglionic nerve stimulation on the metabolism of [ $^3H$ ]-choline, 581
- , rat isolated, potassium activation of [ $^3H$ ]-choline accumulation, 573
- Sympathetic nerve stimulation**, effect on bronchoconstrictor responses to histamine in pithed guinea-pigs, 249
- Sympathetic nerve terminals**, bullfrog, effects of bethanechol and atropine on acetylcholine release, 75
- Synaptic transmission**, antagonism in bullfrog sympathetic ganglia by divalent cations, 363

## T

- Tachycardia**, association with modulation of bronchoconstrictor responses to histamine in pithed guinea-pigs by sympathetic nerve stimulation, 249
- , clonidine inhibition, antagonism by raubasine, yohimbine and corynanthine in pithed rats, 449
- , electrically-induced, inhibition by propranolol in pithed rat, 667
- Taenia coli**, guinea-pig, effect of calmodulin antagonists on tension and cellular calcium content in smooth muscle, 661
- , guinea-pig, mechanism of action of substance P analogue for production of contractions, 697
- Taipoxin**, lack of interaction with toxins from mamba venoms, 153
- Temperature**, effect of changes on electrical slow waves and tone of guinea-pig isolated trachealis muscle, 45
- , effect on inhibition of epithelial sodium channels by ultraviolet irradiation, 431
- Tetraethylammonium**, effect on electrical slow waves and tone of guinea-pig isolated trachealis muscle, 45
- , production of spike by outward current pulses after pretreatment, in smooth muscle of dog cerebral arteries, 197
- 2,3,4,5-Tetrahydro-7,8-dihydroxy-1-phenyl-1H-3-benzazepine** *see* SK&F 38393
- Tetrahydrozoline**, characterization and differentiation of  $\alpha$ -adrenoceptors of rat and rabbit aortae, 169
- Tetrodotoxin**, blockade of negative chronotropic response to  $\alpha$ -agonists in pithed rats, 319
- , effect on excitatory junction potential in smooth muscle of dog cerebral arteries, 197
- , effect on inhibitory effect of adenosine 5'-triphosphate on responses to 5-hydroxytryptamine and acetylcholine in guinea-pig ileum, 725
- Thalamus**, rat brain, effect of methionyl-tyrosyl-lysine on single neurones, 477
- Theophylline**, effect of pretreatment on contractile action of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39
- , effect on protein secretion from superfused rat parotid gland, 405
- , stimulation of changes in net fluxes of water and sodium in rat ileum and colon, effect of chlorpromazine, 469
- 2-Thiazolyethylamine**, effect on adenosine-stimulated accumulation of cyclic adenosine 3',5'-monophosphate and on [ $^3H$ ]-mepyramine binding in guinea-pig cerebra-

al cortex, 347

**Thioridazine**, effect on  $\beta$ -phenylethylamine-induced hyperactivity in the mouse, 129

**Thrombosis**, experimental model, fibrin, red cell and platelet interactions, 29

**Thromboxane A<sub>2</sub>**, generation by leukotrienes in guinea-pig lung *in vitro*, 267

**Thromboxane A<sub>2</sub> analogues**, effects as prostanoid antagonists in longitudinal strips of rat and human stomach, 591

**Thromboxane synthetase inhibitors**, effect of pretreatment on contraction of adenosine and adenosine 5'-triphosphate on guinea-pig isolated trachea, 39

—, effect on thrombus formation, 29

**Thromboxanes**, contribution to the adenosine and adenosine 5'-triphosphate-induced contraction of guinea-pig isolated trachea, 39

**Tilidine**, induction of antinociception, involvement of median raphe nucleus in the rat, 615

**Tiotidine**, effect on gastric emptying in the rat, 443

**TMB-8**, effect on pulmonary vasoconstrictor action of prostaglandin F<sub>2a</sub> and U46619, 55

**Tone**, guinea-pig trachealis muscle, effect of drugs and temperature changes, 45

**Toxicity**, of hemicholinium-3 in mice, 239

**Toxin I**, effect on acetylcholine release and interactions with prejunctional blocking toxins, 153

**Toxin K**, effect on acetylcholine release and interactions with prejunctional blocking toxins, 153

**Trachea**, cat, effect of leukotriene C<sub>4</sub> on release of mucins *in vivo* and *in vitro*, 391

—, guinea-pig, ovalbumin-induced contraction, 3

—, guinea-pig isolated, contribution of prostaglandins and thromboxanes to the adenosine and adenosine 5'-triphosphate-induced contractions, 39

**Trachealis muscle**, guinea-pig isolated, effect of drugs and temperature changes on electrical slow waves and tone, 45

**Tramazoline**, characterization and differentiation of  $\alpha$ -adrenoceptors of rat and rabbit aortae, 169

**Tranylcypromine**, effect on rat liver tryptophan pyrrolase activity and brain tryptophan concentrations, 59

—, effect on tyramine and noradrenaline contractile responses of rat isolated vas deferens, 13

**Trazodone**, effect on rat liver tryptophan pyrrolase activity, 59

**Tricyclic antidepressants**, effect on clonidine inhibition of acoustic startle reflex in rats, 217

**Trypsin**, inhibition, evidence for the carriage of silver by sulphadimidine, 147

**Tryptophan**, effect of small doses of antidepressants on brain concentrations in rat, 59

**Tryptophan pyrrolase**, inhibition of rat liver activity by acute administration of small doses of antidepressants, 59

**Tubocurarine**, effect on electrophysiological effects of piperazine and diethylcarbamazine on *Ascaris suum* somatic muscle, 255

**Twitch response**, electrically-evoked, inhibition by  $\gamma$ -aminobutyric acid in rat isolated anococcygeus muscle, 163

**Tyramine**, effect of central stimulants on mouse striatal concentrations, 511

**Tyramine potentiation**, relationship with selective inhibition of monoamine oxidase types A and B in the rat vas deferens, 13

## U

**U-44069**, induction of contractions, effect of pinane thromboxane A<sub>2</sub> in rat and human stomach muscle, 591

**U-46619**, induction of contractions, effect of pinane thromboxane A<sub>2</sub> in rat and human stomach muscle, 591

—, pulmonary vasoconstrictor action, effect of TMB-8 in dog, 55

**Ultraviolet irradiation**, irreversible inhibition of sodium channels by ultraviolet irradiation, 431

## V

**Vas deferens**, rat isolated, action of dopamine at the same receptors as noradrenaline, 293

—, rat isolated, contractile effects of 5-hydroxytryptamine, 605

—, rat isolated relationship between tyramine potentiation and selective inhibition of monoamine oxidase types A and B, 13

**Vascular smooth muscle**, effect of ICI 118,587 in dogs, 381

**Vasoactive intestinal polypeptide**, effect on isolated anococcygeus muscle of the mouse, 97

—, vasodilatation and potentiation of oedema in rabbit skin, 505

**Vasodilatation**, induced by vasoactive intestinal polypeptide and prostaglandin E<sub>2</sub> in rabbit skin, 505

**Vasopressin**, elevation of blood pressure in pithed rats, effect of paraoxon, 233

**Ventricle**, guinea-pig, voltage- and time-dependence of depression of the maximum rate of depolarization by steroidal antiarrhythmic drugs, 541

**Verapamil**, effect on contractile responses of rat vas deferens to 5-hydroxytryptamine, 605

—, effect on tension and cellular calcium content in depolarized vascular and intestinal smooth muscle, 661

**Veratridine**, responses of perfused adrenal gland in the cat, effect of muscarine perfusion, 455

**Viloxazine**, effect on rat liver tryptophan pyrrolase activity, 59

## W

**Warfarin**, effect on thrombus formation, 29

**Water**, changes in net flux, induction by prostaglandin E<sub>1</sub> and theophylline, effect of chlorpromazine, 469

**Wenckebach Point**, effect of pentobarbitone in dogs, 309

## X

**Xenopsin**, inhibition of substance P-induced histamine release in rat mast cells, 531

**Xylazine**, effect on *in vivo* analgesic effects of opiates and displacement of opioid radioligand binding, 487

—, production of a direct negative chronotropic response in heart of pithed rats, 319

## Y

- Yohimbine**,  $\alpha$ -adrenoceptor blocking properties in pithed rats, 449
- , effect on excitatory junction potential in smooth muscle of dog cerebral arteries, 197
  - , effect on *in vivo* analgesic effects of opiates and displacement of opioid radioligand binding, 487
  - , effect on pressor response to paraoxon in the anaesthetized and in the conscious rat, 223
  - , effect of stereotypy and contralateral circling induced in rats by dopamine agonists, 185
  - , inhibition of actions of noradrenaline and dopamine on the rat vas deferens in the presence of cocaine, oes-

tradiol, propranolol and prazosin, 293

- , production of increased transmitter efflux in guinea-pig ureter without reduction of inhibitory effect of exogenous noradrenaline, 375

**[<sup>3</sup>H]-yohimbine**, effect of monovalent and divalent cations and purine nucleotides on binding to  $\alpha$ -adrenoceptors, 277

## Z

**Zimelidine**, effect on rat liver tryptophan pyrrolase activity, 59

**FIRST WORLD CONGRESS ON  
CARDIOVASCULAR PHARMACOTHERAPY**  
**Geneva, Switzerland 11–15 April, 1983**

The main topics for discussion will be: (1) New cardiovascular drugs; (2) New indications for known drugs; (3) Clinical trials; (4) Haemodynamic and electrophysiological aspects of cardiovascular pharmacotherapy; (5) Regimens of treatment; (6) Side-effects and contraindications; (7) Cardiovascular side-effects of other medications; (8) Extending treatment to new population groups; (9) Cost/effectiveness ratio of various cardiovascular medications; (10) Comparative efficiency of drugs; (11) Pharmacokinetics and laboratory methods.

*Further information from:* Adam Schneeweiss, M.D., Scientific Secretary, 12 Ave. des Amazones, 1224 Chêne-Bourgeries, Geneva, Switzerland
