

British Journal of Pharmacology

PAPERS

- LEANDER, J.D. Opioid agonist and antagonist behavioural effects of buprenorphine
- BOWMAN, S.P., JONES, C.A., LEAKE, A. & MORRIS, I.D. The biological activity of a single dose of tamoxifen in the adult ovariectomized rat
- DEVAUX, M.A., DIAZ, G.R., KUBOTA, K., MAGEE, D.F. & SARLES, H. The role of nicotinic receptors in dog pancreatic exocrine secretion
- KALSNER, S. The effect of magnesium deficiency and excess on bovine coronary artery tone and responses to agonists
- TAYLOR, S.E. Additional evidence against universal modulation of β -adrenoceptor responses by excessive thyroxine
- HEDLER, L., STARKE, K. & STEPPELER, A. Release of [^3H]-amezinium from cortical noradrenergic axons: a model for the study of the α -autoreceptor hypothesis
- DOCHERTY, J.R. An investigation of presynaptic α -adrenoceptor subtypes in the pithed rat heart
- BRYANT, R.M., OLLEY, J.E. & TYERS, M.B. Antinociceptive actions of morphine and buprenorphine given intrathecally in the conscious rat
- ANAND, P., BLOOM, S.R. & MCGREGOR, G.P. Topical capsaicin pretreatment inhibits axon reflex vasodilatation caused by somatostatin and vasoactive intestinal polypeptide in human skin
- CHURCH, M.K. & YOUNG, K.D. The characteristics of inhibition of histamine release from human lung fragments by sodium cromoglycate, salbutamol and chlorpromazine
- GRBOVIĆ, L. & RADMANOVIĆ, B.Z. The influence of substance P on the response of guinea-pig isolated ileum to periaxillary nerve stimulation
- DRAZEN, J.M., FANTA, C.H. & LACOUTURE, P.G. Effect of nifedipine on constriction of human tracheal strips *in vitro*
- KAMIKAWA, Y. & SHIMO, Y. Pharmacological characterization of the opioid receptor in the submucous plexus of the guinea-pig oesophagus
- AULT, B. & NADLER, J.V. Anticonvulsant-like actions of baclofen in the rat hippocampal slice
- KUDO, Y., TANAKA, A. & YAMADA, K. Dendrobine, an antagonist of β -alanine, taurine and of presynaptic inhibition in the frog spinal cord
- FREYSS-BEGUIN, M., GRIFFATON, G., LECHAT, P., PICKEN, D., QUENNEDEY, M.C., ROUOT, B. & SCHWARTZ, J. Comparison of the chronotropic effect and the cyclic AMP accumulation induced by β_2 -agonists in rat heart cell culture
- ANDEREGG, K., ANZEVENO, P., COOK, J.A., HALUSHKA, P.V., MCCARTHY, J., WAGNER, E. & WISE, W.C. Effects of a pyridine derivative thromboxane synthetase inhibitor and its inactive isomer in endotoxic shock in the rat
- KIMURA, T. & SATOH, S. Inhibition of cardiac sympathetic neurotransmission by histamine in the dog is mediated by H_1 -receptors
