

ROUTE OF HEPATIC ADMINISTRATION AND DRUG AVAILABILITY: FUNCTIONALLY SEPARATE HEPATIC ARTERIAL AND PORTAL VENOUS VASCULATURE

A.B. Ahmad¹, P.N. Bennett^{1*} & M. Rowland², ¹School of Pharmacy and Pharmacology, University of Bath, Bath BA2 7AY, and ²Department of Pharmacy, University of Manchester, Oxford Road, Manchester M13 9PL

A PHYSICAL BASIS FOR AGONIST EFFICACY MEASUREMENTS?

D. Colquhoun^{*}, D.C. Ogden & B. Sakmann, Department of Pharmacology, University College London, London WC1E 6BT and Max Planck Institute für biophysikalische Chemie, D3400 Göttingen, F.R.G.

CHARACTERISATION OF PORCINE BRONCHIAL β -ADRENOCEPTORS AND THE EFFECTS OF STEROIDS ON RESPONSES TO ISOPRENALINE

J.W. Paterson^{*}, R.G. Goldie, P.S. Foster & J.L. Wale, Department of pharmacology, University of Western Australia, Nedlands, Perth 6009

VOLTAGE-CLAMPING NEURONES IN BRAIN SLICES

J.V. Halliwell (introduced by D.A. Brown), Department of Pharmacology, School of Pharmacy, 29/39 Brunswick Square, London, WC1N 1AX

VOLTAGE-CLAMPING MAMMALIAN UNMYELINATED FIBRE BUNDLES

C.J. Courtice & S.J. Marsh (introduced by D.A. Brown), Department of Pharmacology, School of Pharmacy, 29/39 Brunswick Square, London, WC1N 1AX

TRANSMITTER RELEASE FROM THE RABBIT RETINA IN VIVO

J. Cunningham, C. Dawson & M.J. Neal, Department of Pharmacology, School of Pharmacy, 29/39 Brunswick Square, London, WC1N 1AX

ASYMMETRIC BUDDING OF INFLUENZA VIRUS FROM MDCK CELL MONOLAYERS

J.M. Edwardson (introduced by D.A. Brown), Department of Pharmacology, School of Pharmacy, 29/39 Brunswick Square, London, WC1N 1AX

A METHOD FOR STUDYING AMINO ACID DOSE-RESPONSE RELATIONSHIPS IN ISOLATED NEURONAL PREPARATIONS

D. Barlow, N.L. Harrison & M.A. Simmonds, Department of Pharmacology, School of Pharmacy, 29/39 Brunswick Square, London, WC1N 1AX
