SUBJECT INDEX

A

- Acetyl (–)-carnitine chloride**, anti-arrhythmic effects on canine late ventricular arrhythmia, 533
- Acetylcholine**, effect of α_2 -adrenoceptor antagonists on excitatory responses of rat cerebral cortex, 453
- , effect of cyclo-oxygenase inhibitors on release from guinea-pig longitudinal muscle strips, 577
 - , effect of guanethidine on content of rat sympathetic ganglia, 827
 - , effect of ketamine and pentobarbitone on rat cerebral cortex concentrations, 339
 - , effect of *Nippostrongylus brasiliensis* infection on responses of rat intestine, 883
 - , effect on cysteamine-induced contractions in guinea-pig ileum, 791
 - , effect on mechanical and electrical activities of rat uterine smooth muscle in calcium free medium, 735
 - , induction of contractions, effects of organic calcium antagonists in guinea-pig isolated trachea, 727
 - , induction of contractions in guinea-pig intestinal smooth muscle, effect of pardaxin, 43
 - , induction of endothelium-dependent relaxation of rabbit aorta, effects of antioxidants and hydroxylated eicosatetraenoic acid, 765
 - , induction of ionic currents, mechanism of alphaxalone block, 783
 - , induction of muscarinic depolarization, time course in guinea-pig myenteric neurones, 85
 - , muscarinic responses of guinea-pig myenteric plexus, effect of GABA, 101
 - , overflow accompanying RT stimulation in chicken rectum, 73
 - , production of end-plate depolarization, effect of lophotoxin in rat phrenic nerve-hemidiaphragm preparations, 667
 - , responses of rat submandibular ganglion cells to iontophoretic pulses, effect of methonium compounds, 623
- Acetylcholine receptors**, blocking activity of neurotoxin homologues from Elapid snake venoms, 709
- Acetylsalicylic acid**, effect on renal function in the Pekin duck, 329
- , suppression of Paf-acether-induced bronchoconstriction and thromboxane A_2 release from guinea-pig lungs, 565
- Action potentials**, effect of amiodarone on duration in atrial muscle of rat heart, 191
- , effects of amines on duration in embryonic chick sensory neurones, 557
 - , relationship with mechanical activity in rat uterine smooth muscle in calcium-free solution, 735
- Adenosine**, production of presynaptic inhibition of neurogenic contractions of rabbit and rat portal vein, 359
- Adenosine 5'-diphosphate phosphorothioate analogues**, effect on guinea-pig taenia coli and urinary bladder, 369
- Adenosine 3',5'-monophosphate**, cyclic, effect of α_2 -adrenoceptor agonists on human platelet levels, 467
- , cyclic, effect of β -blockers on responses after long term treatment of intact rat heart cells, 745
 - , cyclic, effect of kinin or prostaglandin E_1 on content of rat colon epithelium, in the presence of phosphodiesterase, 597
 - , cyclic, effect of phenylephrine in the presence of propranolol on bovine heart concentrations, 223
 - , dibutyl cyclic, responses of rat colon epithelium, effect of calcium removal, 587
 - , N^6 -O²-dibutylcyclic, anti-ulcerogenic activity, 107
- Adenosine 5'-monophosphate phosphorothioate analogues**, effect on guinea-pig taenia coli and urinary bladder, 369
- Adenosine triphosphatase**, cellular and subcellular distribution in guinea-pig isolated and parietal cells, 651
- , sodium, potassium, effect of ouabain on activity in rat and guinea-pig heart, 135
- Adenosine triphosphate**, production of presynaptic inhibition of neurogenic contractions of rabbit and rat portal veins, 359
- , responses of guinea-pig urinary bladder, effect of ATP analogues, 161
 - , vasodilator responses in Krebs-perfused duck foot, 801
- Adenosine triphosphate analogues**, pharmacological and biochemical interactions with guinea-pig urinary bladder, 155
- Adenosine triphosphate phosphorothioate analogues**, effect on guinea-pig taenia coli and urinary bladder, 369
- Adenylate cyclase**, effect of α_2 -adrenoceptor agonists on activity in human platelets, 467
- Adenylyl 5'-(β , γ -methylene)-diphosphonate**, pharmacological and biological interactions with guinea-pig urinary bladder, 155
- , —, enantiomers, desensitization of guinea-pig urinary bladder, 161
- Adrenaline**, extraneuronal uptake in guinea-pig trachealis smooth muscle, 757
- Adrenergic neurones**, effect of chemical destruction on cholinergic mechanism in adult rat sympathetic ganglia, 827
- α -Adrenoceptor agonists**, responses of rat anococcygeus, effect of α -adrenoceptor antagonists, 769
- α_2 -Adrenoceptor agonists**, effect on aggregation of and adenylate cyclase activity in human platelets, 467
- Adrenoceptor antagonists**, effects on action of dopamine and bromocriptine on colonic motility in the dog, 35
- α -Adrenoceptor antagonists**, effect on response to lymphocytes incubated in methoxamine in rat vas deferens, 863

- α_1 -Adrenoceptor antagonist**, effect on small intestine transit in the rat, 547
- α_2 -Adrenoceptor antagonists**, effect on stimulation-induced efflux of [^3H]-noradrenaline, 515
- β -Adrenoceptor antagonists**, effect of long term treatment to intact rat heart cells on recovery of receptor binding and cyclic AMP response, 745
- α -Adrenoceptors**, action of cirazoline in rat vas deferens, 9
- , effects of stimulation on force of contraction, slow inward current and cyclic AMP content of bovine heart, 223
 - , mediation of secretion of kallikrein-like esterase and tonin in rat submandibular gland, 175
 - , subtypes in pithed rat heart and vas deferens, 15
- α_2 -Adrenoceptors**, investigation of selectivity of novel benzoquinolizines *in vivo*, 127
- , lack of involvement in neuronal response to noradrenaline in rat cerebral cortex, 453
- β -Adrenoceptors**, action of Ro 03-7894 in guinea-pigs, 501
- , efficacy and affinity of isoprenaline and Ro 363 in guinea-pig atrial and uterine preparations, 897
 - , recovery of binding after long term treatment of intact rat heart cells with β -blockers, 745
- Age**, effect on salicylate pharmacokinetics in rats, 241
- AH neurones**, effect of GABA on duration of action potentials, 101
- Albumin**, influence on thiopentone-induced changes in the contraction of vascular smooth muscle, 643
- , role in aggregation of washed human platelets, 61
- Alphaxalone**, effect on responses to L-glutamate and on spontaneous synaptic activity in lamprey reticulospinal neurones, 659
- , mechanism of blockade of ACh-induced ionic currents, 783
- Aluminium hydroxide**, anti-ulcerogenic activity, 107
- Amidephrine**, cardio-inhibitory effects in pithed rats, 15
- , responses of rat anococcygeus, effect of α -adrenoceptor antagonists, 769
- Amine receptors**, characterization on embryonic chick sensory neurones, 557
- γ -Aminobutyric acid**, actions on neurones of guinea-pig myenteric plexus, 93
- , effect at neuromuscular junction, effect of matriline, 523
 - , effect on duration of action potentials in embryonic chick sensory neurones, 557
 - , inhibition of calcium spikes and transmitter release in guinea-pig myenteric plexus, 101
- γ -Aminobutyric acid receptors**, identification of subtypes in endocrine cells of rat intermediate lobes, 183
- Amiodarone**, effect on electrical activity of atrial muscle isolated from the rat heart, 191
- , effect on guinea-pig heart rate, 275
- Anaesthetics**, effect on response to L-glutamate and on spontaneous synaptic activity in lamprey reticulospinal neurones, 659
- Analgesics**, site of action after micro-injection into rat brainstem, 877
- Anaphylaxis**, bronchial, changes induced by long-term treatment with histamine H_2 -agents, 207
- Angiotensin II**, effect on dog and monkey coronary isolated arteries, 295
- , effect on vagally-induced bradycardia or gastric contractions in the anaesthetized ferret, 833
 - , induction of renal vascular reactivity and prostaglandin synthesis, effect of glucocorticoids in rat isolated kidney, 679
 - , sites of interaction with verapamil and PY 108-068 in anaesthetized cats, 51
 - , [Sar^1 , Ile^5 , Ala^8]-, effect of pretreatment on responses to substance P analogues, histamine, 5-HT and angiotensin II in rat colon, 441
- Angiotensin II receptors**, location on rat kidney cortex epithelial cells, 891
- Anococcygeus**, rat, α -adrenoceptor antagonism of several test drugs, 769
- Anti-sickling agents**, design, 397
- Antiarrhythmic drugs**, effect on reperfusion-induced arrhythmias in anaesthetized rats, 349
- Antimuscarinic agents**, comparative studies on the effects on gastric damage and pupillary reflexes in the rat, 305
- Antioxidants**, effect on endothelium-dependent relaxation of rabbit aorta, 765
- Apoyohimbine**, assessment of α -adrenoceptor antagonism potency in rat anococcygeus and vas deferens, 769
- Aprotinin**, effect on degradation of vasoactive intestinal peptide by α -chymotrypsin, 321
- Arachidonate**, effect of palmitaldehyde acetal phosphatidic acid on metabolism, 61
- Arachidonic acid**, effect on arterial blood pressure and heart rate in cats, 117
- , effect on thromboxane A_2 release from guinea-pig lungs, 565
 - , induction of prostaglandin output in rat isolated kidney, effect of glucocorticoids, 679
- Arachidonic acid metabolites**, role in endotoxin shock in cats, 281
- Arecoline**, effect on rhythmic slow wave activity in rat hippocampus, 431
- Arginine vasopressin**, induction of renal vascular reactivity and prostaglandin synthesis, effect of glucocorticoids in rat isolated kidney, 679
- Arginine vasotocin**, interactions with acetylsalicylic acid in control of renal water and solute output, 329
- Arrhythmias**, reperfusion-induced, characteristics in anaesthetized rats, 349
- Arterio-venous anastomoses**, effect of methysergide and 5-HT on carotid blood flow distribution in pigs, 817
- Aspirin**, inhibitory effect on lymphatic contractility, 509
- Atenolol**, effect on reperfusion-induced arrhythmias in anaesthetized rats, 349
- Atrial muscle**, rat heart, effect of amiodarone on electrical activity, 191
- Atrium**, rat, affinity and efficacy of Ro 363 at β -adrenoceptor sites, 897
- Atropine**, effect on cerebral vascular effect produced by opiates in dog, 459
- , effect on cysteamine-induced contractions in guinea-pig ileum, 791
 - , effect on gastric damage and pupillary reflex in the rat, 305
 - , effect on pardaxin-induced contraction of guinea-pig intestinal smooth muscle, 43
 - , effect on RT stimulation in chicken rectum, 73
 - , involvement in production of prolonged sodium action potentials in rat uterine smooth muscle in calcium-free solutions, 735

Avoidance acquisition, effects of DSP4 in rat, 249
Axonal transport, of calmodulin in cat noradrenergic neurone, 143

B

B-HT 933, induction of pressor responses in pithed rats, effect of novel benzoquinolizines, 127
Bacitracin, lack of influence on relaxant effects of vasoactive intestinal peptide in cat pulmonary tissue, 321
Baclofen, effect in the presence of bicuculline on guinea-pig myenteric neurones, 93
 —, effect of administration to spinal cord of cats, 409
 —, effect on basal and barium-evoked hormonal release from rat neurointermediate lobes, 183
 —, effect on calcium spikes and transmitter release in guinea-pig myenteric plexus, 101
Barium, induction of muscarinic depolarization, time course in guinea-pig myenteric neurones, 85
 —, induction of release of α -melanophore stimulating hormone from rat neurointermediate lobes, 183
Benzaldehydes, substituted, effect on oxygen affinity of human haemoglobin and sickling of sickle erythrocytes, 397
Benzimidazoles, substituted, inhibition of partially purified K^+/H^+ -ATPase from guinea-pig isolated and enriched parietal cells, 651
Benzomorphan-opiate receptors, identification in dog cerebral arteries, 459
Benzoquinolizines, investigation into the selectivity for α_2 -adrenoceptors *in vivo*, 127
Bepidil, effects on guinea-pig isolated trachea, 727
 —, effects on reperfusion-induced arrhythmias in anaesthetized rats, 349
Bestatin, lack of influence on relaxant effects of vasoactive intestinal peptide in cat pulmonary tissue, 321
Bicuculline, effect on GABA-enhanced basal α -melanophore stimulating hormone release from rat pars intermedia, 183
Bicuculline, effect on actions of GABA on guinea-pig myenteric neurones, 93
 —, effect on GABA-induced inhibition of calcium spikes and transmitter release in guinea-pig myenteric plexus, 101
Bilateral vagotomy, effect on reperfusion-induced arrhythmias in anaesthetized rat, 349
Black widow spider venom, effect on pardaxin-induced contraction of guinea-pig intestinal smooth muscle, 43
Bladder, guinea-pig, desensitization by enantiomers of adenylyl 5'-(β,γ -methylene)-diphosphonate and substance P, 161
 —, interactions with ATP analogues, 155
Blood flow, regional, effect of angiotensin II, action of calcium antagonists in anaesthetized cat, 51
Blood gases, effect of *Serratia marcescens* endotoxin in cats, 281
Blood pressure, arterial, effects of propranolol or prazosin in dogs and pigs, 717
 —, effect of *E. coli* endotoxin in conscious rats, 289
 —, effect of *Serratia marcescens* endotoxin in cats, 281
Blood vessels, dogs, humans and rabbit, effects of ginsenosides *in vitro*, 485

Bradycardia, vagally-induced in ferret, effect of angiotensin II, 833
Bradykinin, effect on thromboxane A_2 release from guinea-pig lungs, 565
 —, induction of oedema in rat, effect of captopril, 3
 —, induction of renal vascular reactivity and prostaglandin synthesis, effect of glucocorticoids in rat isolated kidney, 679
Brainstem, rat, antinociceptive effects of morphine after microinjection, 877
Bremazocine, effect on dog cerebral arteries, 459
5-Bromo-6-[2-imidazolin-2-ylamino]-quinoxaline *see* UK-14303
Bromocriptine, effects on colonic motility in dogs, 35
p-Bromophenacyl bromide, effect on bradykinin-induced release of thromboxane A_2 from guinea-pig lungs, 565
Bronchial anaphylaxis, antigen-induced, effect of histamine H_2 -agents, 207
Bronchoconstriction, agonist-induced, inhibition by L-640,035 in guinea-pig, 398
 —, induction by Paf-acether, bradykinin, leukotriene C_4 or arachidonic acid in guinea-pig lungs, 565
Bumetanide, effect on isolated perfused kidney of rat and rabbit, 165
 α -Bungarotoxin, effects of guanethidine on binding sites in rat sympathetic ganglia, 827
BW755c, effect on histamine-induced contractions in pig and guinea-pig isolated trachea, 549

C

Caffeine, induction of contracture, effects of multivalent cations, membrane potential and temperature in rat skeletal muscle, 609
Calcium, contractile responses of guinea-pig uterine and tracheal preparations, effect of Ro 03-7894, 501
 —, dependency of mucus glycoconjugate secretion by canine tracheal explants, 199
 —, effect of removal on output of eicosanoids from rat colon epithelium, 597
 —, effect of removal on time course of potassium contractions in rat skeletal muscle, 615
 —, effect on [3H]-nitrendipine binding in rabbit, 309
 —, intracellular stores, role in substance P contraction of longitudinal muscle of guinea-pig small intestine, 259
 —, role in kinin-induced chloride secretion, 587
Calcium antagonists, effects on contractions induced by ACh, prostaglandin E_2 , vanadate and fluoride in rat uterine smooth muscle, 735
 —, effects on guinea-pig isolated trachea, 727
 —, [3H]-nitrendipine binding data and tissue response selectivity in rabbit, 309
 —, sites of interaction with angiotensin II in anaesthetized cats, 51
Calcium currents, effect of inhibition on transmitter release, 101
Calcium-free solution, effect on actions of ACh, prostaglandin E_2 , vanadate and fluoride in rat uterine smooth muscle, 735
Calcium spikes, inhibition by GABA in guinea-pig myenteric plexus, 101

- Calmodulin**, orthograde and retrograde axonal transport in cat noradrenergic neurone, 143
- Capsaicin**, effect on Evans blue extravasation in rat hind paw after thermal injury, 217
- Captopril**, inhibition of angiotensin converting enzyme in rats, 3
- , lack of influence on relaxant effects of vasoactive intestinal peptide in cat pulmonary tissue, 321
- Carazolol**, effect on recovery of β -adrenoceptor binding and isoprenaline-stimulated cyclic AMP responses in rat heart cells, 745
- Carbachol**, induction of muscarinic depolarization, time course in guinea-pig myenteric neurones, 85
- Cardiac membranes**, ouabain binding, 135
- (-)-**Carnitine chloride**, anti-arrhythmic effects on canine late ventricular arrhythmia, 533
- Carotid artery**, effect of ligation on responses of cat heart to prostacyclin, prostaglandin $F_{2\alpha}$ and arachidonic acid, 117
- , effect of methysergide and 5-HT on blood flow distribution in pigs, 817
- Carrageenin**, induction of inflammation in rat paw, potentiation by captopril, 3
- Castration**, effect on salicylate pharmacokinetics, 241
- Catecholamines**, extraneuronal uptake in guinea-pig trachealis smooth muscle, 757
- Cations, multivalent**, effect on caffeine contractures in rat skeletal muscle, 609
- , effect on potassium contractions and mechanical activation in rat skeletal muscle, 615
- Cerebral arteries**, dog, identification of benzomorphan- κ opiate receptors, 459
- Cerebral cortex**, rat, involvement of α_2 -adrenoceptors in neuronal responses to noradrenaline, 453
- CGP 12177**, effect on recovery of β -adrenoceptor binding and isoprenaline-stimulated cyclic AMP responses in rat heart cells, 745
- N-Chlorethyl-N-ethyl-2-bromobenzylamine hydrochloride** *see* DSP4
- Chloride**, effect of acetylsalicylic acid interactions with arginine vasotocin on renal excretion in Pekin duck, 329
- , role of calcium ions in kinin-induced secretion in rat colon, 587
- Chloride transport, electrogenic**, kinin-induced increases in rat colon epithelium, 597
- , measurement across the epithelium lining of rat colon, 587
- Chlorisondamine**, effect on nicotine-induced hypodipsia in undeprived rats, 233
- , induction of hypotension, effect of novel benzoquinolizines in pithed rats, 127
- 2-Chloroadenosine**, production of presynaptic inhibition of neurogenic contractions of rabbit and rat portal vein, 359
- p-Chlorophenylalanine**, effect on rat intestinal sensitivity to agonists and 5-HT levels during *Nippostrongylus brasiliensis* infection, 883
- Chlorpromazine**, effect on palmitaldehyde acetal phosphatidic acid-induced malodialdehyde formation and platelet aggregation, 61
- Cholate**, solubilization of muscarinic receptors from rat forebrain, 839
- Choline**, effect of guanethidine on uptake in adult rat sympathetic ganglia, 827
- , interactions with general anaesthetics in rats, 339
- Choline acetyltransferase**, effect of guanethidine on activity in rat sympathetic ganglia, 827
- Cholinesterase**, effect of guanethidine on content of rat sympathetic ganglia, 827
- Cholinesterase inhibitors**, interactions with general anaesthetics in rats, 339
- α -**Chymotrypsin**, effect on vasoactive intestinal peptide-induced relaxation in cat tracheobronchial and pulmonary arterial smooth muscle, 321
- Cimetidine**, anti-ulcerogenic activity, 107
- , effect on antigen-induced bronchial anaphylaxis in guinea-pigs, 207
- , effect on cerebral vascular effect produced by opiates in dogs, 459
- , effect on K^+/H^+ -ATPase from guinea-pig isolated and enriched parietal cells, 651
- , effect on responses to substance P analogues, 5-HT, histamine and angiotensin II in rat colon, 441
- Cirazoline**, action on rat vas deferens, 9
- , cardio-inhibitory effects in pithed rats, 15
- Clorgyline**, effect on pethidine toxicity in mice, 151
- Clonidine**, effect on response of action potentials of embryonic chick sensory neurones to amines, 557
- , induction of hypotension in pithed rats, effect of novel benzoquinolizines *in vivo*, 127
- Cocaine**, effect on responses of rat vas deferens to field stimulation, 25
- Colon, rat**, effect of prazosin on transit in the rat, 547
- , mediation of secretory response to kinins in epithelium, 597
- , role of calcium ions in kinin-induced chloride secretion in epithelium, 587
- , study of substance P analogues as tachykinin partial agonists, 441
- Colonic motility**, effects of dopamine and bromocriptine in dog, 35
- Compound 48/80**, induction of histamine secretion in rat peritoneal mast cells, effect of sodium-potassium ATPase inhibition, 423
- Contractions**, adrenergic nerve-induced, assessment of α -adrenoceptor antagonism in rat vas deferens, 769
- , cholinergic nerve-mediated, and stimulation-evoked release of ACh, 73
- , cysteamine-induced in guinea-pig ileum, 791
- , effect of phenylephrine in the presence of propranolol on force in bovine heart, 223
- , field stimulation-evoked, influence of thiopentone in rings of rabbit pulmonary artery, 643
- , induced by ACh, prostaglandin E_2 , vanadate and fluoride in rat uterine smooth muscle in calcium-free solution, 735
- , induction in dog cerebral arteries by MR-2034 and U-50488H, 459
- , NA- or prostaglandin $F_{2\alpha}$ -induced, effect of ginsenosides *in vitro*, 485
- , NA-induced, influence of thiopentone in rings of rabbit pulmonary artery, 643
- , spontaneous and evoked, effect of aspirin in bovine mesenteric lymphatic vessels, 509
- Coronary arteries**, dog and monkey isolated, regional dif-

- ferences in responses to vasoconstrictor agents, 295
- Coronary artery re-perfusion**, anti-arrhythmic effects of prazosin and propranolol in dogs and pigs, 717
- Coronary artery occlusion**, anti-arrhythmic effects of prazosin and propranolol in dogs and pigs, 717
- Corynanthine**, assessment of α -adrenoceptor antagonism potency in rat anococcygeus and vas deferens, 769
- , effect on responses of rat vas deferens to field stimulation, 25
- Corticosterone**, effect on vascular reactivity to vasoactive hormones in rat isolated kidney, 679
- Cyclo-oxygenase**, pharmacological studies in smooth muscle contractions in isolated trachea, 549
- , potentiation of positive inotropic effects of lymphocytes incubated in methoxamine in rat vas deferens, 863
- Cyclo-oxygenase inhibitors**, effect on antigen- and ionophore-induced release of slow reacting substance of anaphylaxis from fragmented guinea-pig lung, 871
- , effect on indirectly evoked contractions of guinea-pig isolated ileum, 577
- Cysteamine**, contractile effects on guinea-pig ileum, 791

D

- D600**, effect on secondary increase in 86 rubidium following tolbutamide removal in rat isolated pancreatic islets, 689
- , effect on spontaneous and evoked contractions of bovine mesenteric lymphatic vessels, 509
- , [3 H]-nitrendipine binding data and isolated tissue responses in rabbits, 309
- Dazoxiben**, effect on endotoxin shock in conscious rats, 289
- Deprenyl**, effect on pethidine toxicity in mice, 151
- Dexamethasone**, alteration of monocrotaline pyrrole-induced cardiopulmonary effects in rats, 375
- , effect on vascular reactivity to vasoactive hormones in rat isolated kidney, 679
- , interactions with general anaesthetics in rats, 339
- 8-(N,N-diethylamino)-octyl 3,4,5-trimethoxybenzoate hydrochloride** *see* TMB-8
- Diffusion barriers**, effect on action of cyclo-oxygenase inhibitors on indirectly evoked contractions of guinea-pig isolated ileum, 577
- Digitonin**, solubilization of muscarinic receptors from rat forebrain, 839
- , solubilization of muscarinic receptors from rat myocardial membranes, 853
- Diltiazem**, effects on guinea-pig isolated trachea, 727
- , [3 H]-nitrendipine binding data and isolated tissue responses in rabbits, 309
- Dimaprit**, effect on antigen-induced bronchial anaphylaxis in guinea-pigs, 207
- Diphenhydramine**, effect on cerebral vascular effect produced by opiates in dogs, 459
- Disopyramide**, anti-arrhythmic effects on canine late ventricular arrhythmia, 533
- Dithiothreitol**, effect on endothelium-dependent relaxation of rabbit aorta, 765
- Diuretics**, effect on isolated perfused kidney of rat and rabbit, 165

- Domperidone**, effect on responses of action potentials of embryonic chick sensory neurones to amines, 557
- , effect on the actions of dopamine or bromocriptine on colonic motility in dogs, 35
- Dopamine**, effects on colonic motility in dogs, 35
- , effects on the duration of action potentials in embryonic chick sensory neurones, 557
- , vasodilator responses in Krebs-perfused duck foot, 801
- Dopamine- β -hydroxylase**, effect of DSP4 on activity in rat frontal cortex, 249
- Dopamine receptors**, role in colonic motility in dogs, 35
- Dorsal horn neurones**, selective antinociceptive effects of tizanidine in feline spinal cord, 409
- DS 102-282** *see* Tizanidine
- DSP4**, effect on two-way active avoidance acquisition and noradrenaline neurones in rat CNS, 249

E

- EGTA**, inhibition of potentiation of mast cell histamine secretion by ouabain in rats, 423
- Eicosatetraenoic acids**, hydroxylated, effect of endothelium-dependent relaxation of rabbit aorta, 765
- Electrical activity**, effect of muscarinic ligands in rat hippocampus, 431
- , induced by ACh, prostaglandin E_2 , vanadate and fluoride in rat uterine smooth muscle, 735
- Electrical stimulation**, effect in rat and rabbit kidney, modification by loop diuretics, 165
- Eledoisin**, hyperalgesic effects in rats, 381
- Endplate potentials**, effects of lophotoxin in rat phrenic nerve-hemidiaphragm preparations, 667
- Endotoxic shock**, role of prostaglandins and thromboxane in cats, 281
- Escherichia coli** endotoxin, cardiovascular and metabolic effects in rats, 289
- Excitatory postsynaptic potentials**, effects of injectable anaesthetics in lamprey reticulo-spinal neurones, 659
- Ethylketocyclazocine**, effect on dog cerebral arteries, 459
- Excitatory junction potentials**, effects of atropine and physostigmine in chicken rectum, 73

F

- Feet**, duck, pharmacological investigations of vasodilator nerves, 801
- Field stimulation**, induction of contractions, influence of thiopentone in the presence of albumin in rabbit vascular smooth muscle, 643
- , responses of vas deferens of sexually immature rats, 25
- Fluoride**, effect on mechanical and electrical activities of rat uterine smooth muscle in calcium-free medium, 735
- Flurbiprofen**, effect on the actions of diuretics on rat and rabbit kidney, 165
- Food intake**, effect of nicotine in undeprived rats, 233
- Forebrain**, rat, hydrodynamic properties of muscarinic acetylcholine receptors after solubilization, 839
- Forskolin**, inhibition of responses in rat colon epithelium by calcium removal, 587
- FPL 55712**, effect on release of thromboxane A_2 from guinea-pig lungs, 565

- Frusemide**, effect on isolated perfused kidney of rat and rabbit, 165
 —, effect on renin in rat kidney when prostacyclin synthesis is suppressed, 493

G

- Galactose**, effects of neomycin on absorption across jejunum, 673
Gastric contractions, vagally-induced in ferret, effect of angiotensin II, 833
Gastric damage, oxotremorine-induced, effects of some antimuscarinic agents in rats, 305
Gastric emptying, effect of prazosin in the rat, 547
Gastric mucosa, stimulation of growth by plantain banana preparations, 107
Ginsenosides, vascular effects *in vitro*, 485
Glibenclamide, control of ⁸⁶Rubidium efflux from rat isolated pancreatic islets, 689
Glucocorticoids, interactions with general anaesthetics in rats, 339
Glucose, effect of endotoxin on plasma levels in conscious rats, 289
L-Glutamate, effect at crayfish neuromuscular junction, inhibitory action of matrine, 523
 —, effect of injectable anaesthetics on responses to and on spontaneous synaptic activity in lamprey reticulospinal neurones, 659
Guanethidine, effect of chemical destruction of adrenergic neurones on cholinergic mechanisms in adult rat sympathetic ganglia, 827
 —, effect on cysteamine-induced contractions in guinea-pig ileum, 791
 —, effect on electrically stimulated vasoconstrictor responses in the duck, 801
 —, effect on Evans blue extravasation in rat hind paw after thermal injury, 217
Guanine nucleotide-sensitive muscarinic receptors, rat myocardium, 853
5'-Guanylylimidodiphosphate, inhibition of high affinity binding of soluble muscarinic receptors to [³H]-muscarinic receptors in rat myocardium, 853

H

- Haemodynamic effects**, angiotensin II-induced, effect of calcium antagonists in anaesthetized cats, 51
Haemoglobin, human, increased oxygen affinity by substituted benzaldehydes, 397
Haemolysis, of caprine and bovine erythrocytes, production by Cremophor EL and 3-methylindole, 809
Haloperidol, effect on responses of action potentials of embryonic chick sensory neurones to amines, 557
 —, effect on the actions of dopamine or bromocriptine on colonic motility in dogs, 35
Heart, bovine, effects of phenylephrine in the presence of propranolol on force of contraction, slow inward current and cyclic AMP content, 223
 —, rat and guinea-pig, actions of ouabain, comparisons, 135

- Heart cells**, rat, recovery of β -adrenoceptors and cyclic AMP response after long term treatment with β -blockers, 745
Heart rate, effect of amiodarone in guinea-pig heart, 275
 —, effect of angiotensin II on changes induced by vagal stimulation in anaesthetized ferret, 833
 —, effect of *E. coli* endotoxin in conscious rats, 289
 —, effects of propranolol or prazosin in dogs and pigs, 717
Hemicholinium-3, interactions with general anaesthetics in rats, 339
Hexamethonium, effect on cysteamine-induced contractions in guinea-pig ileum, 791
 —, effect on time course of synaptic currents in rat submandibular ganglion cells, 623
Hexosamine, effects of plantain banana preparations on levels in rat gastric mucosa, 107
Hind paw, rat, role of substance P in development of oedema after thermal injury, 217
Hippocampus, rat, effect of muscarinic ligands on electrical activity, 431
Histamine, effect of nonsteroidal anti-inflammatory drugs on release by antigen and ionophore from fragmented guinea-pig lung, 871
 —, effect of ouabain on secretion induced by compound 48/80 in rat mast cells, 423
 —, induction of contractions, effects of organic calcium antagonists in guinea-pig isolated trachea, 727
Hydrallazine, alteration of monocrotaline pyrrole-induced cardiopulmonary effects in rats, 375
3-Hydroxy-N,N-dimethylpiperidinium, precursor of a false cholinergic transmitter, 477
15 (S)-hydroxy-9 α , 11 α -(epoxymethano)-prosta-5-cis, 13 trans, dienolic acid *see* U-44069
3-Hydroxymethyl-dibenzo [b,f] thiepin-5,5-dioxide *see* L-640,035
3-Hydroxypiperidinium *see* 3-Hydroxy-N,N-dimethylpiperidinium
Hydroxytoluene, butylated, effect on endothelium-dependent relaxation of rabbit aorta, 765
5-Hydroxytryptamine, anti-ulcerogenic activity in rats, 107
 —, effect of *Nippostrongylus brasiliensis* on responses of rat intestine, 883
 —, effect of palmitaldehyde acetal phosphatidic acid on release from platelets, 61
 —, effect on brain concentrations of MAO inhibitors, 151
 —, effect on carotid blood flow distribution in pigs, 817
 —, effect on dog and monkey isolated coronary arteries, 295
 —, effects on the duration of action potentials in embryonic chick sensory neurones, 557
 —, induction of contractions, effects of organic calcium antagonists in guinea-pig isolated trachea, 727
 —, induction of contractions in guinea-pig pulmonary smooth muscle, effect of L-640,935, 389
 —, induction of contractions in guinea-pig intestinal smooth muscle, effect of pardaxin, 43
5-Hydroxytryptamine receptors, atypical, presence in large conducting arteries of the pig, 817
Hyoscine, antagonism of effects of ACh in guinea-pig myenteric neurones, 85
Hyperalgesia, production by intrathecal substance P and related peptides in rats, 381
Hypotension, experimentally induced, effect of novel benzoquinolizines, 127

I

- Idazoxan**, effect on excitatory responses to NA, phenylephrine and ACh in rat cerebral cortex, 453
- IgE-like antibodies**, mediation of antigen-induced bronchial anaphylactic responses in guinea-pigs, effect of histamine H₂-agents, 207
- IgG₁-like antibodies**, mediation of antigen-induced bronchial anaphylactic responses in guinea-pigs, effect of histamine H₂-agents, 207
- Ileum, guinea-pig**, antagonism of indirectly evoked contractions by cyclo-oxygenase inhibitors, 577
- , contractile effects of cysteamine, 791
 - , effect of pardaxin on smooth muscle, 43
- 3-(1H-imidazol-1-yl methyl)-2-methyl-1H-indole-1-propanoic acid** *see* UK 38485
- Imidazole acetic acid**, determination of levels in urine, serum, and tissues of rats, 701
- Indomethacin**, effect on antigen- and ionophore-induced release of slow reacting substance of anaphylaxis from fragmented guinea-pig lung, 871
- , effect on contractile responses of guinea-pig isolated ileum to directly and indirectly evoked stimuli, 577
 - , effect on eicosanoid output from rat colon epithelium, 597
 - , effect on frusemide-induced renin release in rat kidney, 493
 - , effect on histamine-induced contractions in pig and guinea-pig isolated trachea, 549
 - , effect on palmitaldehyde acetal phosphatidic acid-induced malodialdehyde formation in human platelets, 61
 - , effect on responses of cat heart to arachidonic acid and prostaglandin F_{2α}, 117
 - , effect on responses to substance P analogues, 5-HT, histamine and angiotensin II in rat colon, 441
 - , inhibition of prostaglandin synthesis in rat isolated kidney, effect of dexamethasone on renal vasoconstriction induced by NA and angiotensin II, 678
- Indoramin**, effect on pressor responses to B-HT 933 and methoxamine in pithed rats, 127
- Inflammation**, carrageenin- or bradykinin-induced, effect of captopril, 3
- Inhibitory postsynaptic potentials**, effects of injectable anaesthetics in lamprey reticulo-spinal neurones, 659
- Inotropic responses, positive**, to isoprenaline and Ro363 in rat atrial and uterine preparations, 897
- , mechanisms in bovine heart, 223
- Intestine**, rat, effect of *p*-chlorophenylalanine on sensitivity to ACh and 5-HT and 5-HT levels, 883
- Iodine**, accumulation in guinea-pig liver and heart, 275
- [¹²⁵I]-iodocyanopindolol**, displacement from binding to rat atrial and uterine membranes by isoprenaline or Ro363, 897
- , use in binding studies involving Ro 03-7894 in guinea-pig atria, 501
- Ionic channel block**, action of methonium compounds on rat submandibular ganglion cells, 623
- Ionic currents**, ACh-induced, mechanism of alphaxalone block, 783
- Ionophore A23187**, effect on glycoconjugate secretion by canine tracheal explants, 199
- , induction of prostaglandin output in rat isolated kidney, effect of glucocorticoids, 679

- , induction of slow reacting substance of anaphylaxis from fragmented guinea-pig lung, 871
- Iopanoic acid**, effect of conversion of thyroxine to triiodothyronine in guinea-pig heart, 275
- Isobutylmethylxanthine**, inhibition of responses in rat colon epithelium by calcium removal, 587
- Isoguvacine**, effect on barium-evoked hormonal release from rat neurointermediate lobes, 183
- Isoprenaline**, affinity and efficacy at β -adrenoceptor sites in guinea-pig atrial and uterine preparations, 897
- , effect on contractions induced by ACh, prostaglandin E₂, vanadate and fluoride in rat uterine smooth muscle, 735
 - , effect on release of kallikrein-like esterase and tonin from dispersed cells of rat submandibular gland, 175
 - , extraneuronal uptake in guinea-pig trachealis smooth muscle, 757
 - , responses of guinea-pig smooth and cardiac muscle, effect of Ro 03-7894, 501
 - , effect on the actions of amiodarone in guinea-pig heart, 275

J

- Jejunum**, rat, effects of neomycin on galactose absorption, 673

K

- Kallidin**, effect on output of eicosanoids from rat colon epithelium, 597
- Kallidin**, responses in rat colon epithelium, effect of calcium removal, 587
- Kallikrein-like esterase**, release from dispersed cells of the rat submandibular gland, 175
- Kassinin**, inhibitory effects of substance P analogues on responses in rat colon, 441
- Ketamine**, effect on responses to L-glutamate and on spontaneous synaptic activity in lamprey reticulo-spinal neurones, 659
- , induction of anaesthesia, interactions with cholinesterase inhibitors and glucocorticoids in the rat, 339
- Ketocyclazocine**, effect on dog cerebral arteries, 459
- Ketoprofen**, effect on contractile response of guinea-pig isolated ileum to directly and indirectly evoked stimuli, 577
- Kidney**, Pekin duck, effect of acetylsalicylic acid on function, 329
- , rat, effect of glucocorticoids on vascular reactivity to vasoactive hormones, 679
 - , rat, location of angiotensin II receptors in epithelium, 891
 - , rat, renin release by frusemide after suppression of prostacyclin synthesis, 493
 - , rat and rabbit, effect of diuretics, 165
- Kinin**, induction of chloride secretion in rat colon, role of calcium ions, 587
- Kininase II**, inhibition by captopril in rat, 3

L

- L-640,035**, effects on pulmonary smooth muscle contraction *in vivo* and *in vitro* in guinea-pig trachea, 389

- Lactate**, effect of endotoxin on plasma levels in conscious rats, 289
- Lactate dehydrogenase**, effect of monocrotaline pyrrole on activity in rat lung, 375
- Lanthanum**, inhibition of potentiation of mast cell histamine secretion by ouabain, 423
- Leukotriene C₄**, effect on thromboxane A₂ release from guinea-pig lungs, 565
- Leukotriene D₄**, induction of contractions in guinea-pig pulmonary smooth muscle, effect of L-640,935 389
- Leupeptin**, lack of influence on relaxant effects of vasoactive intestinal peptide in cat pulmonary tissues, 321
- Levorphanol**, antinociceptive effects of microinjection in rat brain stem, 877
- Lipoxygenase**, pharmacological studies in smooth muscle contractions in isolated trachea, 549
- Lipoxygenase inhibitors**, blockade of positive inotropic effects of lymphocytes incubated in methoxamine in rat vas deferens, 863
- Longitudinal muscle**, contraction by substance P in guinea-pig small intestine, 259
- Lophotoxin**, endplate blocking action in rat phrenic nerve-hemidiaphragm preparations, 667
- Lubrol PX**, solubilization of muscarinic receptors from rat forebrain, 839
- Lungs**, guinea-pig, platelet-independent release of thromboxane A₂ by Paf-acether, mechanisms, 565
- , rat, effect of monocrotaline pyrrole on weight, 375
- Lymphatic vessels**, effect of aspirin on contractility, 509
- Lymphocytes**, human, α -adrenoceptor stimulated mechanical responses of vas deferens, 863
- Lysophosphatidylcholine**, solubilization of muscarinic receptors from rat forebrain, 839
- Lysylbradykinin** *see* **Kallidin**

M

- Magnesium ions**, antagonism of the effects of kinin in the presence of calcium ions in isolated rat colon epithelium, 587
- Malondialdehyde**, induction by palmitaldehyde acetal phosphatidic acid in human platelets, 61
- Mast cells**, rat peritoneal, induction of histamine secretion by compound 48/80, potentiation by sodium-potassium ATPase inhibition, 423
- Matrine**, effect on glutamate-induced response at crayfish neuromuscular junction, 523
- Mecamylamine**, effect on time course of synaptic currents in rat submandibular ganglion cells, 623
- , prevention of nicotine-induced hyperdipsia in undrugged rats, 233
- Mefenamic acid**, effect on antigen- and ionophore-induced release of slow reacting substance of anaphylaxis from fragmented guinea-pig lung, 871
- α -**Melanophore stimulating hormone**, effect of selective GABA_A and GABA_B agonists on release from rat neurointermediate lobes *in vitro*, 183
- Melperone**, effect on reperfusion-induced arrhythmias in anaesthetized rats, 349
- Membrane depolarizations**, induction by GABA in guinea-pig myenteric neurones, 93
- Membrane potential**, effect of neomycin in rat jejunum, 673
- , effect on caffeine contracture in rat skeletal muscle, 609
- Mepacrine**, effect on histamine-induced contractions in pig and guinea-pig isolated trachea, 549
- , effect on palmitaldehyde acetal phosphatidic acid-induced malondialdehyde formation and 5-HT release in human platelets, 61
- , effect on renal output of prostaglandin and vasoconstrictor response to vasoactive hormones and A-23187 or arachidonic acid in rat isolated kidney, 679
- Mepyramine**, effect of pretreatment on responses to substance P analogues, histamine, 5-HT and angiotensin II in rat colon, 441
- Metaclopramide**, effect on dilator responses to nerve stimulation, dopamine and glyceryl trinitrate, 801
- Methacholine**, effect on glycoconjugate secretion by canine tracheal explants, 199
- , effect on release of kallikrein-like esterase and tonin from dispersed cells of rat submandibular gland, 175
- , induction of muscarinic depolarization, time course in guinea-pig myenteric neurones, 85
- Methonium compounds**, channel-blocking action on rat submandibular ganglion cells, 623
- Methoxamine**, induction of pressor responses in pithed rats, effect of novel benzoquinolizines, 127
- , stimulation of lymphocytes, effect on mechanical responses of rat vas deferens, 863
- N-methylcystisine**, effect on glutamate-induced at crayfish neuromuscular junction, 523
- 3-Methylindole**, role of metabolism in immediate effects and pneumotoxicity in goats, 809
- Methylscopolamine**, action on the effects of muscarinic agonists on rhythmic slow wave activity in rat hippocampus, 431
- , effect on gastric damage and pupillary reflex in the rat, 305
- 2-Methylthio-adenosine 5'-phosphate**, effect on palmitaldehyde acetal phosphatidic acid-induced malondialdehyde formation, 5-HT release and platelet aggregation, 61
- Methysergide**, effect of pretreatment on responses to substance P analogues, histamine, 5-HT and angiotensin II in rat colon, 441
- , effect on carotid blood flow distribution in pigs, 817
- , effect on cerebral vascular effect produced by opiates in dog, 459
- , effect on response of action potentials of embryonic chick sensory neurones to amines, 557
- Metomidate**, effects on responses to L-glutamate and on spontaneous synaptic activity in lamprey reticulospinal neurones, 659
- Mianserin**, effect on responses of action potentials of embryonic chick sensory neurones to amines, 557
- Microspheres**, investigation of sites of interaction of angiotensin II and calcium antagonists in peripheral circulation of anaesthetized cats, 51
- Miniature endplate potentials**, effects of lophotoxin in rat phrenic nerve-hemidiaphragm preparations, 667
- Mitochondrial respiratory function**, effect of (–)-carnitine chloride and its acetyl analogue in dog, 533
- Monoamine oxidase inhibitors**, effect on pethidine toxicity in mice, 151

Monocrotaline pyrrole, induction of cardiopulmonary effects in rats, alteration by hydrallazine, dexamethasone and sulphapyrazone, 375

Morphine, antinociceptive effects of microinjection in rat brain stem, 877

—, effect on cysteamine-induced contractions in guinea-pig ileum, 791

MR-2034, effect on dog cerebral arteries, 459

Muscarinic agonists, effect on rhythmical slow wave activity in rat hippocampus, 431

Muscarinic receptors, effect of oxotremorine acetamide analogues in guinea-pig ileum, 269

—, high affinity binding for [³H]-oxotremorine-M after solubilization, 853

—, hydrodynamic properties after solubilization from rat forebrain, 839

—, potency of ACh or 3-hydroxy-*N,N*-dimethylpiperidinium at guinea-pig ileum, 477

—, role in time course of muscarinic depolarization of guinea-pig myenteric neurones, 85

—, site of action of ACh released by RT stimulation, 73

Myenteric neurones, actions of GABA in guinea-pigs, 93

—, effect of GABA on calcium spikes and transmitter release, 101

—, time course of muscarinic depolarization in guinea-pig, 85

Myocardial contraction, effect of ouabain in rat and guinea-pig, 135

—, effect of *Serratia marcescens* endotoxin in cats, 281

Myocardium, rat, solubilization and characterization of guanine nucleotide-sensitive muscarinic agonist binding sites, 853

N

Naloxone, effect on cerebral vascular effects produced by opiates in dogs, 459

Negative feedback, role in presynaptic effect of adrenoceptor antagonists, 515

Neomycin, effects on galactose absorption across rat jejunum, 673

Neostigmine, interactions with general anaesthetics in rats, 339

Neuromuscular activity, effect of neurotoxin homologues in chick biventer cervicis nerve-muscle preparations, 709

Neuromuscular transmission, blockade by lophotoxin by postjunctional action, 667

—, presynaptic muscarinic inhibition in chicken rectum, 73

Neurotoxin homologues, Elapid snake venoms, structure-activity studies, 709

Neurotransmission, post-natal development in rat vas deferens, 25

Neurotransmitter release, negative feedback regulation, 515

Nicardipine, effects on guinea-pig isolated trachea, 727

—, [³H]-nitrendipine binding data and isolated tissue response in rabbit, 309

Nicotine, effect of cyclo-oxygenase inhibitors on responses in guinea-pig isolated ileum, 577

—, effect on food and water intake in undeprieved rats, 233

Nicotinic receptors, potency of ACh or 3-hydroxy-*N,N*-dimethylpiperidinium at frog rectus abdominis muscle, 477

Nifedipine, effect on actions of cirazoline in rat vas deferens, 9

—, effect on reperfusion-induced arrhythmias in anesthetized rats, 349

—, effect on responses of rat vas deferens to field stimulation, 25

—, [³H]-nitrendipine binding data and isolated tissue responses in rabbits, 309

Nippostrongylus brasiliensis, effect on responses of rat intestine to ACh and 5-HT, 883

[³H]-nitrendipine, binding data for calcium antagonists in rabbit, 309

Nitroglycerine, effect on reperfusion-induced arrhythmias in anaesthetized rats, 349

Nitroprusside, effect on mean arterial blood pressure and heart rate in cats, 117

Non-adrenergic, non-cholinergic neuromuscular transmission, presynaptic muscarinic inhibition in chicken rectum, 73

Non-cholinergic nerve stimulation, responses of guinea-pig urinary bladder, effect of ATP analogues, 161

Noradrenaline, effect of administration to spinal cord, 409

—, effect of α_2 -adrenoceptor antagonists on excitatory responses of rat cerebral cortex, 453

—, effect of DSP4 on concentrations in regions of rat brain, 249

—, effect on the duration of action potentials in embryonic chick sensory neurones, 557

—, extraneuronal uptake in guinea-pig trachealis muscle, 757

—, induction of contractions, influence of thiopentone in the presence of albumin in rings of rabbit pulmonary artery, 643

—, induction of contractions in blood vessels of dogs and rabbits, effect of ginsenosides *in vitro*, 485

—, induction of renal vascular reactivity and prostaglandin synthesis, effect of glucocorticoids in rat isolated kidney, 679

—, neuronal responses in rat cerebral cortex, 453

—, responses of rat anococcygeus, effect of α -adrenoceptor antagonists, 769

—, responses of vas deferens of sexually immature rats, 25

—, stimulation of release of kallikrein-like esterase and tonin from dispersed cells of the rat submandibular gland, 175

[³H]-noradrenaline, effect of adrenoceptor antagonists on stimulation-induced efflux from various tissues, 515

Noradrenaline release mechanism, role in post-natal development of functional neurotransmission in rat vas deferens, 25

Noradrenaline neurones, effects of DSP4 in CNS of the rat, 249

Noradrenergic neurones, orthograde and retrograde axonal transport of calmodulin in cats, 143

Nordihydroguaiaretic acid, effect on release of thromboxane A₂ from guinea-pig lungs, 565

O

Oedema, role of substance P in sensory nerve fibres in development in rat hind paw after thermal injury, 217

- Omeprazole**, inhibition of partially purified K^+/H^+ -ATPase from guinea-pig isolated and enriched parietal cells, 651
- Org 6001**, effect on reperfusion-induced arrhythmias in anaesthetized rats, 349
- Ouabain**, effect in rat and guinea-pig heart, 135
- , effect on histamine secretion induced by compound 48/80 in rat mast cells, 423
- Oxymatrine**, effect on glutamate-induced response at crayfish neuromuscular junction, 523
- Oxymetazoline**, effect on responses of rat vas deferens to field stimulation, 25
- Oxotremorine**, effect on rhythmic slow wave activity in rat hippocampus, 431
- , induction of gastric damage, effect of antimuscarinic agents in the rat, 305
- , induction of muscarinic depolarization, time course in guinea-pig myenteric neurones, 85
- Oxotremorine analogues**, occupation of muscarinic receptors and activation of receptors in guinea-pig ileum, 269
- [3H]-oxotremorine-M**, binding to rat myocardial membranes, 853

P

- Paf-acether**, platelet-independent release of thromboxane A_2 from guinea-pig lungs, mechanisms, 565
- Palmitaldehyde acetal phosphatidic acid**, effect on arachidonate metabolism, 5-HT release and human platelet aggregation, 61
- Pancreatic islets**, rat isolated, control of $^{86}rubidium$ efflux by sulphonylureas, 689
- Parasitic expulsion**, effect of 5-HT depletion in rat intestine, 883
- Pardaxin**, production of postjunctional muscle contractions in guinea-pig intestinal smooth muscle, 43
- Parietal cells**, guinea-pig isolated and enriched, inhibition of partially purified K^+/H^+ -ATPase by substituted benzimidazoles, 651
- Pentobarbitone**, effect on responses to L-glutamate and on spontaneous synaptic activity in lamprey reticulospinal neurones, 659
- , induction of anaesthesia, interactions with cholinesterase inhibitors and glucocorticoids in the rat, 339
- Peptidase inhibitors**, lack of influence on relaxant effects of vasoactive intestinal peptide in cat pulmonary tissues, 321
- Pethidine**, effect of nonselective and selective inhibitors of MAO types A and B in mice, 151
- Phencyclidine**, effect on dog cerebral arteries, 459
- Phenelzine**, effect on pethidine toxicity in mice, 151
- Phenidone**, effect on histamine-induced contractions in pig and guinea-pig isolated trachea, 549
- Phenobarbitone**, effect on responses to 3-methylindole in goats, 809
- Phenoxybenzamine**, blockade of release of kallikrein and tonin from dispersed cells of rat submandibular gland, 175
- , effect on dose-response curves to carbachol in rat colon, 441
- , effect on stimulation-induced efflux of [3H]-noradrenaline, 515
- Phentolamine**, effect on cerebral vascular effects produced by opiates in dog, 459
- , effect on responses of action potentials of chick sensory neurones to amines, 557
- , effect on the actions of dopamine or bromocriptine on colonic motility in dog, 35
- , production of hyperalgesia following desensitization in rats, 381
- Phenylephrine**, effect of α_2 -adrenoceptor antagonists on excitatory responses of rat cerebral cortex, 453
- , in the presence of propranolol, effect on force of contraction, slow inward current and cyclic AMP content in the bovine heart, 223
- β -Phenylpropionic acid**, lack of influence on relaxant effects of vasoactive intestinal peptide in cat pulmonary tissue, 321
- Phospholipase**, pharmacological studies in smooth muscle contractions in isolated trachea, 549
- Phrenic nerve**, accumulation of 3-hydroxy-*N,N*-dimethylpiperidinium after stimulation in mouse hemidiaphragm, 477
- Physalaemin**, hyperalgesic effect in rats, 381
- Physostigmine**, effect on RT stimulation in chicken rectum, 73
- Picoprazole**, inhibition of partially purified K^+/H^+ -ATPase from guinea-pig isolated and enriched parietal cells, 651
- Piperonyl butoxide**, effect on responses to 3-methylindole in goats, 809
- Pirenzepine**, effect on gastric damage and pupillary reflex in the rat, 305
- Plantain banana**, anti-ulcerogenic activity against aspirin-induced ulceration in rats, 107
- Platelets, human**, activation by palmitaldehyde acetal phosphatidic acid, 61
- , effects of α_2 -adrenoceptor agonists on aggregation and adenylate cyclase activity, 467
- Pneumotoxicity**, 3-methylindole-induced in goats, 809
- Portal vein**, rabbit, rat and guinea-pig, purinergic modulation of perivascular adrenergic neurotransmission, 359
- Potassium**, effect of acetylsalicylic acid interactions with arginine vasotocin on renal excretion in Pekin duck, 329
- , effect of altered levels on caffeine contractures in rat skeletal muscle, 609
- , effect of deprivation on histamine secretion in rat peritoneal mast cells, 423
- , effect of sulphonylureas on permeability of rat pancreatic β -cells, 689
- Potassium chloride**, induction of contractions, effects of organic calcium antagonists in guinea-pig isolated trachea, 727
- Prazosin**, anti-arrhythmic effects during coronary artery occlusion and re-perfusion in dogs and pigs, 717
- , assessment of α -adrenoceptor antagonism potency in rat anococcygeus and vas deferens, 769
- , effect on responses of action potentials of embryonic chick sensory neurones to amines, 557
- , effect on small intestine transit in the rat, 547
- , effect on the actions of dopamine or bromocriptine on colonic motility in dogs, 35

- , interactions with α -adrenoceptor agonists in pithed rats, 15
- Pregnancy**, effect on salicylate pharmacokinetics in rats, 241
- Prenylamine**, effect on reperfusion-induced arrhythmias in anaesthetized rats, 349
- Propantheline**, effect on gastric damage and pupillary reflex in the rat, 305
- Propranolol**, anti-arrhythmic effects during coronary artery occlusion and re-perfusion in dogs and pigs, 717
- , effect on cerebral vascular effect produced by opiates in dog, 459
- , effect on responses of action potentials of embryonic chick sensory neurones to amines, 557
- , effect on responses to frusemide in indomethacin-treated rats, 493
- , effect on the actions of dopamine or bromocriptine on colonic motility in dog, 35
- Prostacyclin**, effect of suppression of synthesis on frusemide-induced renin release in rat kidney, 493
- , effect on mean arterial blood pressure and heart rate in cats, 117
- Prostaglandin D₂**, induction of contraction in guinea-pig pulmonary smooth muscle, effect of L-640,935, 389
- Prostaglandin E₁**, response of rat colon epithelium, effect of calcium removal, 587
- Prostaglandin E₂**, anti-ulcerogenic activity in rats, 107
- , effect on contractile responses and ACh release depressed by cyclo-oxygenase inhibitors in guinea-pig isolated ileum, 577
- , effect on isolated perfused kidney of rat and rabbit, 165
- , effect on mechanical and electrical activities of rat uterine smooth muscle in calcium-free medium, 735
- , output from rat colon epithelium, effect of kallidin, 597
- Prostaglandin F_{1 α} , 6-keto**, effect of frusemide on urinary levels in rats, 493
- , output from rat colon epithelium, effect of kallidin, 597
- Prostaglandin F_{2 α}** , effect on arterial blood pressure and heart rate in cats, 117
- , induction of contractions in blood vessels of dogs and rabbits, effect of ginsenosides *in vitro*, 485
- , induction of contractions in guinea-pig pulmonary smooth muscle, effect of L-640,935, 389
- Prostaglandin I₂ see Prostacyclin**
- Prostaglandin analogues**, effect on dog and monkey coronary arteries, 295
- Prostaglandins**, lack of relationship to, glucocorticoid effect on vascular reactivity to vasoactive hormones in rat kidney, 679
- , involvement in potentiation of inflammation in rats, 3
- , plasma levels in delayed phase of shock induced by *Serratia marcescens* endotoxin in cats, 281
- , role in actions of acetylsalicylic acid on renal function in Pekin duck, 329
- Protein-calorie malnutrition**, effect on salicylate pharmacokinetics in rats, 241
- Protein leakage**, into skin of rat paw after thermal injury, effect of drugs, 217
- Pulmonary artery**, rabbit, influence of albumin on thiopentone-induced changes in the contraction pattern, 643
- Pulmonary tissue**, effect of vasoactive intestinal peptide in cat, lack of influence by peptidase inhibitors, 321

- Pupillary reflex**, effect of antimuscarinic agents in rats, 305
- Purines**, effects on contractile response to perivascular nerve stimulation in portal vein, 359
- , pharmacological and biological interactions with guinea-pig urinary bladder, 155
- P₁-purinoceptors**, mediation of inhibitory effects of purines on neurogenic contractions in portal veins, 359
- P₂-purinoceptors**, mediation of responses in guinea-pig taenia coli and bladder, 369
- PY 108068**, effects on guinea-pig isolated trachea, 727
- , site of interaction with angiotensin II in anaesthetized cats, 51

Q

- Quinacrine fluorescence histochemistry**, identification of a dense perivascular nerve plexus in rat and rabbit portal vein, 359
- Quinine**, effect on secondary increase in ⁸⁶rubidium following tolbutamide removal in rat isolated pancreatic islets, 689
- Quisqualate**, induction of responses at crayfish neuromuscular junction, effect of matrine, 523

R

- Ro363**, affinity and efficacy at β_1 - and β_2 -adrenoceptor sites in guinea-pig atrial and uterine preparations, 897
- Radioligand binding assay**, effect of Ro 03-7894 on numbers of β -adrenoceptor sites in guinea-pig smooth and cardiac muscle, 501
- Rauwolscine**, assessment of α -adrenoceptor antagonism potency in rat anococcygeus vas deferens, 769
- , effect on inhibitory effects of xylazine or amidephrine in rat vas deferens, 15
- , plus xylazine, effect on responses of rat vas deferens to field stimulation, 25
- Rectum**, chicken, presynaptic, muscarinic inhibition of non-adrenergic, non-cholinergic neuromuscular transmission, 73
- Relaxations**, endothelium-dependent of rabbit aorta, effect of antioxidants and hydroxylated eicosatetraenoic acids, 765
- , induced by isoprenaline or Ro363 in rat uterine preparations, 897
- , induction in cerebral arteries by ethylketocyclazocine, ketocyclazocine and bemazocine in dogs, 459
- Resting tension**, influence of thiopentone in rings of rabbit pulmonary artery, 643
- Reticulo-spinal neurones**, lamprey, effect of injectable anaesthetics on responses to L-glutamate and on spontaneous synaptic activity, 659
- Ro 03-7894**, action at β -adrenoceptor sites in guinea-pigs, 501
- Rubidium**, control of efflux from rat isolated pancreatic islets by tolbutamide and glibenclamide, 689

S

- Salicylate**, pharmacokinetics in rats, 241
- Salicylic acid**, effect on Paf-acether-induced bronchocon-

- striction and thromboxane A₂ release from guinea-pig lungs, 565
- Scopolamine**, inhibition of effects of muscarinic agonists on rhythmic slow wave activity in rat hippocampus, 431
- Sensory nerve fibres**, substance P content, role in development of oedema in rat hind paw after thermal injury, 217
- Sensory neurones**, embryonic chick, pharmacological characterization of amine receptors, 557
- Serratia marcescens endotoxin**, induction of shock in cats, 281
- Serum**, rat, determination of levels of imidazole acetic acid and its conjugates, 701
- Serum protein-salicylate binding**, effect of age in rats, 241
- Sex**, effect on salicylate pharmacodynamics in rats, 241
- Sex hormones**, effect on salicylate pharmacokinetics in rats, 241
- Sialic acid**, effects of plantain banana preparations on levels in rat gastric mucosa, 107
- Sickle cell disease**, design of substituted benzaldehydes for increasing oxygen affinity of human haemoglobin, 397
- Skeletal muscle, rat**, effect of external potassium, multivalent cations and temperature on caffeine contractures, 609
- , effect of multivalent cations, temperature and tetracaine on potassium contractures and mechanical activation, 615
- SKF 91448**, effect on antigen-induced bronchial anaphylaxis in guinea-pigs, 207
- Slow inward currents**, effect of phenylephrine in the presence of propranolol in bovine heart, 223
- Slow reacting substance of anaphylaxis**, antigen- and ionophore-induced release, effect of cyclo-oxygenase inhibitors in guinea-pig lung, 871
- Smooth muscle**, induction of contractions by pardaxin in guinea-pig intestine, 43
- , rat uterine, maintained contractions in calcium-free solution, 735
- Small intestine**, guinea-pig, substance P contraction of longitudinal muscle by releasing intracellular calcium 259
- , rat, effect of prazosin on transit in the rat, 547
- Sodium**, effect of acetylsalicylic acid interactions with arginine vasotocin on renal excretion in Pekin duck, 329
- , effect of angiotensin II on extrusion from sodium loaded renal cortex slices, 891
 - , effect of external concentrations on ACh-induced depolarization in rat uterine smooth muscle in calcium-free solutions, 735
 - , reduction of concentrations in medium, effect on desensitization induced by cysteamine and ACh in guinea-pig ileum, 791
 - , removal from medium, effect on contractions induced by ACh, prostaglandin E₂, vanadate and fluoride in rat uterine smooth muscle, 735
- Sodium channels**, blockade by amiodarone in atrial muscle isolated from rat heart, 191
- Sodium meclofenamate**, effect on contractile responses of guinea-pig isolated ileum to directly and indirectly evoked stimuli, 577
- Sodium-potassium adenosine triphosphatase**, effect of inhibition on compound 48/80-induced histamine secretion from rat mast cells, 423
- Sodium salicylate**, effect on renal function in Pekin duck, 329
- Somatostatin**, vasodilator responses in Krebs-perfused duck foot, 801
- Spinal cord**, feline, selective antinociceptive effects of tizanidine on dorsal horn neurones, 409
- Spiperone**, effect on responses of action potentials of embryonic chick sensory neurones to amines, 557
- Stereospecificity**, effects of morphine after microinjection into rat brainstem, 877
- Steroid anaesthetics**, mechanism for blockade of ACh-induced ionic currents, 783
- Submandibular ganglion**, rat, channel-blocking action of methonium compounds, 623
- Submandibular gland, rat**, release of kallikrein-like esterase and tonin from dispersed cells, 175
- Substance P**, contribution to development of oedema in the rat hind paw after thermal injury, 217
- , desensitization of guinea-pig urinary bladder, 161
 - , effect on longitudinal muscle of the guinea-pig small intestine by releasing intracellular calcium, 259
 - , hyperalgesic effect in rats, 381
 - , induction of contractions in guinea-pig intestinal smooth muscle, effect of pardaxin, 43
 - , inhibitory effects of substance P analogues on responses in rat colon, 441
 - , responses of guinea-pig urinary bladder, effect of ATP analogues, 161
 - , vasodilator responses in Krebs-perfused duck foot, 801
- Substance P analogues**, as tachykinin partial agonists in rat colon, 441
- Substance P-antagonist**, effect on Evans blue extravasation after thermal injury to rat hind paw, 217
- Sulphinpyrazone**, alteration of monocrotaline pyrrole-induced cardiopulmonary effects in rats, 375
- Superior cervical ganglia**, rat, effect of chemical destruction on cholinergic mechanisms, 827

T

- Tachykinin receptors**, proposed existence of multiple subtypes in rat colon, 441
- Taenia coli**, guinea-pig, effects of phosphorothioate analogues of ATP, ADP and AMP, 369
- Temperature**, effect on potassium contractures and mechanical activation in rat skeletal muscle, 615
- 4-(3-Tertiarybutylamino-2-hydroxypropoxy)-benzimidazole-2-on hydrochloride** *see* CGP 12177
- Tetracaine**, effect on potassium contractures and mechanical activation in rat skeletal muscle, 615
- Tetraethylammonium**, effect on secondary increase in ⁸⁶rubidium following tolbutamide removal in rat isolated pancreatic islets, 689
- , effect on stimulation-induced efflux of [³H]-noradrenaline, 515
 - , induction of contractions, effects of organic calcium antagonists in guinea-pig isolated trachea, 727
- Tetrodotoxin**, effect on cysteamine-induced contractions in guinea-pig ileum, 791
- , effect on pardaxin-induced contraction of guinea-pig intestinal smooth muscle, 43

- , effect on responses of rat vas deferens to field stimulation, 25
- Thiopentone**, induction of changes in the contraction pattern of vascular smooth muscle, influence of albumin, 643
- Thrombocytopenia**, induction by *E. coli* endotoxin in conscious rats, 289
- Thromboxane A₂**, mechanisms of platelet-independent release from guinea-pig lungs by Paf-acether, 565
- Thromboxane B₂**, effect of endotoxin on plasma levels in conscious rats, 289
 - , output from rat colon epithelium, effect of kallidin, 597
 - , plasma levels in delayed phase of shock induced by *Serratia marcescens* endotoxin in cats, 281
- Thromboxane synthetase inhibitors**, effect on endotoxin shock in conscious rats, 289
- Thyroxine**, effect of amiodarone on conversion into triiodothyronine in guinea-pig heart, 275
- Tissues**, rat, determination of levels of imidazole acetic acid and its conjugates, 701
- Tizanidine**, selective antinociceptive effects on dorsal horn neurones in feline spinal cord, 409
- TMB-8**, effect on methacholine-induced glycoconjugate secretion in canine tracheal explants, 199
- α -Tocopherol**, effect on endothelium-dependent relaxation of rabbit aorta, 765
- Tolazoline**, effect on the actions of dopamine or bromocriptine on colonic motility in dog, 35
- Tolbutamide**, control of ⁸⁶rubidium efflux from rat isolated pancreatic islets, 689
- Tonin**, release from dispersed cells of the rat submandibular gland, 175
- Trachea**, dog, calcium dependency of mucus glycoconjugate secretion, 199
 - , guinea-pig, effects of organic antagonists, 727
 - , guinea-pig, stereoselectivity of extraneuronal uptake of catecholamines in smooth muscle cells, 757
 - , guinea-pig and pig, effect of phospholipase antagonists and inhibitors on histamine-induced contractions, 549
- Transmitter release**, inhibition in guinea-pig myenteric plexus of GABA, 101
- Transmural stimulation**, effect of cyclo-oxygenase inhibitors on responses in guinea-pig isolated ileum, 577
- Transport mechanisms**, 3-hydroxy-*N,N*-dimethylpiperidinium, 477
- Trifluoperazine**, effect on responses of rat colon epithelium to kallidin, 587
- Triiodothyronine**, effect of amiodarone on generation from thyroxine in guinea-pig heart, 275
- Trimetaphan**, effect on time course of synaptic currents in rat submandibular ganglion cells, 623
- Tubocurarine**, effect on time course of synaptic currents in rat submandibular ganglion cells, 623
- Tyrosine hydroxylase**, effects of guanethidine on binding sites in rat sympathetic ganglia, 827

U

- U-44069**, induction of contractions in guinea-pig pulmonary smooth muscle, effect of L-640,035, 389
- U-50488H**, effect on dog cerebral arteries, 459

- UK 14304**, effect on responses to NA, phenylephrine and ACh in rat cerebral cortex, 453
- UK 38485**, effect on endotoxin shock in conscious rats, 289
- Ulcers**, aspirin-induced, effect of unripe plantain banana in rats, 107
- Urinary bladder**, guinea-pig, effects of phosphorothioate analogues of ATP, ADP and AMP, 369
- Urine**, rat, determination of levels of imidazole acetic acid and its conjugates, 701
- Uterus**, rat, affinity and efficacy of Ro363 at β -adrenoceptor sites, 897

V

- Vagal section**, effect on responses of cat heart to prostaglandin E₁, prostaglandin F_{2 α} and arachidonic acid, 117
- Vagal stimulation**, induction of bradycardia and gastric contractions in anaesthetized ferret, effect of angiotensin II, 833
- Vanadate**, effect on mechanical and electrical activities of rat uterine smooth muscle in calcium-free medium, 735
- Vas deferens, rat**, action of cirazoline, 9
 - , α -adrenoceptor antagonism of several test drugs, 769
 - , mechanical responses in response to incubation with human lymphocytes in methoxamine, 863
 - , post-natal development of functional neurotransmission, 25
- Vascular reactivity**, to vasoactive hormones in rat isolated kidney, 679
- Vasoactive intestinal peptide**, relaxation of cat tracheo-bronchial and pulmonary arterial smooth muscle, 321
 - , vasodilator responses in Krebs-perfused duck foot, 801
- Vasoconstriction**, effect of angiotensin II, action of calcium antagonists, 51
- Vasodilator nerves**, pharmacological investigations in duck's foot, 801
- Ventricular arrhythmias**, effects of (–)-carnitine chloride and its acetyl analogue in dogs, 533
 - , effects of propranolol and prazosin in dogs and pigs, 717
- Ventricular hypertrophy**, induction by monocrotaline pyrrole in rat, 375
- Ventricular reflexes**, mechanism of arachidonic acid metabolites in cats, 117
- Verapamil**, effect on mucus glycoconjugate secretion by canine tracheal explants, 199
 - , effects on guinea-pig isolated trachea, 727
 - , effect on K⁺/H⁺-ATPase from guinea-pig isolated and enriched parietal cells, 651
 - , effect on reperfusion-induced arrhythmias in anaesthetized rats, 349
 - , effect on responses of rat colon epithelium to kallidin, 587
 - , [³H]-nitrendipine binding data and isolated tissue responses in rabbits, 309
 - , site of interaction with angiotensin II in anaesthetized cats, 51

W

- Water**, effect of acetylsalicylic acid interactions with

arginine vasotocin on renal excretion in Pekin duck, 329

Water intake, effect of nicotine in undeprived rats, 233

WB 4101, assessment of α -adrenoceptor antagonism potency in rat anococcygeus and vas deferens, 769

Wy 25309, effect on pressor responses to B-HT 933 and methoxamine in pithed rats, 127

Wy 26392, effect on pressor responses to B-HT 933 and methoxamine in pithed rats, 127

Wy 26703, effect on pressor responses to B-HT 933 and methoxamine in pithed rats, 127

X

Xylazine, cardio-inhibitory effects in pithed rats, 15

—, effect on response of action potentials of embryonic chick sensory neurones to amines, 557

—, effect on responses of rat vas deferens to field stimulation, 25

—, inhibitory effect in rat vas deferens, effect of α -adrenoceptors, 769

—, responses of rat anococcygeus, effect of α -adrenoceptor antagonists, 769

Y

Yohimbine, assessment of α -adrenoceptor antagonism potency in rat anococcygeus and vas deferens, 769

—, effect on excitatory responses to NA, phenylephrine and ACh in rat cerebral cortex, 453

—, effect on pressor responses to B-HT 933 and methoxamine in pithed rats, 127

—, effect on responses of action potentials of chick sensory neurones to amines, 557

—, effect on stimulation-induced efflux of [3 H]-noradrenaline, 515

—, interactions with α -adrenoceptor agonists in pithed rats, 15
