INSTRUCTIONS TO AUTHORS

Whilst every effort is made by the publishers and editorial committee to see that no inaccurate or misleading data, opinion or statement appears in this Journal, they wish to make it clear that the data and opinions appearing in the articles and advertisements herein are the responsibility of the contributor or advertiser concerned. Accordingly the publishers and the editorial committee and their respective employees, officers and agents accept no liability whatsoever for the consequences of any such inaccurate or misleading data, opinion or statement.

Papers will be considered for publication in all fields of pharmacology.

Before submitting a manuscript, authors must note the following points since failure to comply with instructions will lead to either delay or rejection of the manuscript. Overseas authors may find it helpful to seek advice from a Corresponding Editor in their country before submitting a manuscript for consideration.

1. **Manuscripts** (2 copies) should be sent to Dr G.M. Lees, Editorial Office, University of Aberdeen, Marischal College, Aberdeen AB9 1AS. The manuscript must be typed in double spacing on one side of paper, not larger than A4 (210 × 297 mm). There should be a separate title page with the names of authors (in alphabetical order) and their appropriate addresses. One first name of each author may be included.

2. **Style** Papers must be submitted in the style of the journal (see any recent issue of the journal) and in accordance with the Instructions to Authors published in *Br. J. Pharmac.* (1984), **81**, 3–10. (Copies of these instructions may be obtained from Dr Lees.)

3. **Statement** The manuscript must be accompanied by the following statement: 'This manuscript has not been nor will be published in whole or in part by any other journal.' The statement may be included as part of the accompanying letter which must be signed by all authors. No paper will be accepted without this statement and the signature of each author.

4. **Summary** (2 copies) This should be a short summary of results and conclusions arranged in numbered paragraphs.

5. **Short title** A short (running) title of not more than 50 letters and spaces should be submitted. This may be typed on the title page.

6. **Figures** These should not be larger than A4 (210 × 297 mm) and may be in the form of original drawings, recorded tracings or high quality photographic prints made from them. Negative prints of kymograph tracings (black on white) should be provided and both ordinates and abscissae should be calibrated. Lettering on figures should be inserted in pencil. Symbols which are to appear in figures or legends should be chosen from the following:

○ ● □ ■ △ ▲ ▽ ▼ ◇ ◆ + ×

Photographs and photomicrographs should be printed on glossy paper and should be larger than the size required for reproduction. Each figure legend should be typed on a separate sheet of paper.

7. **Tables** These should generally have not more than 85 characters to a line (counting spaces between columns as 4 characters) and never more than 110 characters to a line. Each table should be typed on a separate sheet of paper.

8. **References** These must be collected in alphabetical order at the end of the paper. They should include the authors' names, year of publication (in brackets), title of article, title of publication (abbreviated in accordance with the most recent edition of the *World List of Scientific Periodicals*), volume number and first and last page numbers. References to books should, in addition, include the names of editors, the edition number (where appropriate), the town of origin then the name of publisher. Where citation is made to a paper 'in press' the paper should if possible, accompany the manuscript, as an aid to the editor and referee.

9. **Short Communications** These will be accepted if they merit priority publication and do not require revision. They may contain up to 1,200 words of text including references and only one figure or table. The summary should be a single paragraph. A statement must be included.

10. **Key Words** Up to ten key words or phrases of two to three words should be displayed on the title page.

Two page proofs will be supplied, one of which may be retained by the authors. The other should be corrected immediately and returned to the Press Editor. Corrections should be kept to a minimum.

Twenty-five reprints will be supplied to the authors free of charge. Additional reprints can be purchased. A reprint order form, which should be returned promptly, will be sent out with the proofs. If reprints will not be available from the author, a note to this effect may be added at the end of the text.
