

## Erratum

*Br. J. Pharmac.* (1985), **86**, 217–227

'Electrophysiological analysis of the nature of adrenoceptors in the rat basilar artery during development' by N.G. Byrne, G.D.S. Hirst & W.A. Large.

On p. 221 of this paper, the third sentence in the second paragraph (left hand column) should read: 'This result is surprising since  $\beta$ -receptor-mediated actions in smooth muscle are usually inhibitory'.
