

British Journal of Pharmacology

Proceedings Supplement

Proceedings of the British Pharmacological Society Meeting

University of Oxford

12th–14th July 1995

The *British Journal of Pharmacology* is published by Stockton Press, a division of Macmillan Press Ltd. It is the official publication of the British Pharmacological Society.

Scope The *British Journal of Pharmacology* is published twice a month. It welcomes contribution in all field of experimental pharmacology including neuroscience, biochemical, cellular and molecular pharmacology. The Board of Editors represents a wide range of expertise and ensures that well-presented work is published as promptly as possible, consistent with maintaining the overall quality of the journal

This journal is covered by Current Contents, Excerpta Medica, BIOSIS, CABS and Index Medicus.

Editorial Manuscripts (plus two copies) and all editorial correspondence should be sent to: The Editorial Office, British Journal of Pharmacology, St George's Hospital Medical School, Cranmer Terrace, London SW17 0RE, UK. Tel: +44 (0)181 767 6765; Fax: +44 (0)181 767 5645.

Advertisements Enquiries concerning advertisements should be addressed to: Michael Rowley, Hasler House, High Street, Great Dunmow, Essex CM6 1AP, UK. Tel: +44 (0)1371 874613; Fax: +44 (0)1371 872273.

Publisher All business correspondence, supplement enquiries and reprint requests should be addressed to British Journal of Pharmacology, Stockton Press, Houndmills, Basingstoke, Hampshire RG21 6XS, UK. Tel: +44 (0)1256 29242; Fax: +44 (0)1256 810526. Publisher: Marija Vukovojac. Production Controller: Nicci Crawley.

Subscriptions - EU/Rest of World Subscription price per annum (3 volumes, 24 issues) £620, rest of world £820 (Airmail), £685 (Surface mail) or equivalent in any other currency. Orders must be accompanied by remittance. Cheques should be made payable to Macmillan Magazines and sent to: The Subscription Department, Macmillan Press Ltd, Houndmills, Basingstoke, Hampshire RG21 6XS, UK. Where appropriate, subscribers may make payments into UK Post Office Giro Account No. 519 2455. Full details must accompany the payment. Subscribers from EU territories should add sales tax at the local rate.

Subscriptions - USA USA subscribers call toll free 1-800-221-2123 or send check/money order/credit card details to: Stockton Press, 49, West 24th Street, New York, NY 10010; Tel: 212 627 5757; Fax: 212 627 9256. USA annual subscription rates: \$1230 Airmail; \$1030 Surface (Institutional/Corporate); \$225 (Individual making personal payment).

British Journal of Pharmacology (ISSN 0007-1188) is published twice a month by Macmillan Press Ltd, c/o Mercury Airfreight International Ltd, 2323 Randolph Avenue, Avenel, NJ 07001, USA. Subscription price for institutions is \$1030 per annum (surface). 2nd class postage is paid at Rahway NJ. Postmaster: send address corrections to Macmillan Press Ltd, c/o Mercury Airfreight International Ltd, 2323 Randolph Avenue, Avenel NJ 07001.

Reprints of any article in this journal are available from Stockton Press, Houndmills, Basingstoke, Hampshire RG21 6XS, UK. Tel: +44 (0)1256 29242; Fax: +44 (0)1256 810526.

■ Data Collection, Analysis and Handling for the Life Scientist

E.M.M.S. offer complete systems for measuring, monitoring, and recording of physiological parameters. We have experience in cardio-vascular and pulmonary, both in-vitro and in-vivo models. We can supply complete systems, from transducers to post processing software. Our services include consultation, installation, training and in-service support. Maintenance and service agreements that include certified calibration are available. Systems may be purchased or leased.

■ Pulmonary

Unrestrained Dyspnea Monitoring
Non-Invasive Airway Mechanics
Pulmonary Mechanics
Flow Derived Parameters

■ Cardiovascular

Multiple Channel Hemodynamics

■ In-Vitro Applications

Tissue Bath Preparations
Konzett-Rossler Technique

INDEX TO PROCEEDINGS SUPPLEMENT

University of Oxford

12–14 July, 1995

Author Index

- Abal M *see* Pintor J, 58P
- Abbas F, Clayton JK, Marshall K & Senior J A preliminary study on the effects of bradykinin and related compounds on the human isolated umbilical artery, 201P
- Adams D *see* Challiss RAJ, 80P
- Ahluwalia A & Vallance PJ Interaction between sympathetic and sensory nerves in rat small arteries, 68P
- Ahmad M, Ahmadi M, Smith HJ & Nicholls PJ Effect of some substituted azoles on the *in vitro* metabolism of retinoic acid, 212P
- Ahmad S, Fowler LJ, Leach MJ & Whitton PS The effects of chronic (21-day) lamotrigine treatment on basal and veratridine-evoked glutamate release in the rat ventral hippocampus *in vivo*, 121P
- Ahmadi M *see* Ahmad M, 212P
- Ajuebor MN, Brain SD & Cambridge H The mechanism of 6-hydroxy-dopamine (6-OHDA)-induced plasma extravasation in rat skin, 84P

 TP antagonists 202P
 TP receptors 202P

TRH 140P, 219P
 Trichloroethanol 231P
 Trigeminal ganglion 87P
 Turnover 136P
 Tyrosine kinase 183P
 Tyrosine phosphorylation 164P

U373 254P
 U373 MG 162P
 U373 MG astrocytoma cells 59P
 UK 14304 209P
 Ultrasound 130P, 131P
 Umbilical arteries 202P
 Umbilical arteries, human 201P
 Undergraduate teaching 273P
 University of Wisconsin organ preservation solution 197P
 UTP 54P, 55P

Vacuum filtration 101P
 Vagal activity 151P
 Vagus nerve 129P
 Vas deferens, guinea-pig 268P
 Vascular 5-HT receptors 262P
 Vascular contractility 196P
 Vascular responses 156P
 Vascular smooth muscle 185P, 186P, 188P, 197P
 Vasoconstriction 38P, 167P
 Vasodilators 27P
 Veins, human 198P
 Verapamil 16P
 Visceral nociception 92P
 Voltage activated proton currents 31P
 Voltammetry 247P

Wy 27587 216P

Xenopus laevis oocytes 50P, 51P, 52P, 229P, 258P

(S)-Zacopride 231P
