

## Corrigendum

*Br. J. Pharmacol.* (1996), **118**, 513–520.

**C Toma, I.A. Greenwood, R.M. Helliwell & W.A. Large.**  
Activation of potassium currents by inhibitors of calcium-activated chloride conductance in rabbit portal vein smooth muscle cells.

In the above paper the authors have realized an error occurred in the final paragraph of the Discussion on page 519. The sentence beginning “Also NS 1619 and NS-004 did not evoke . . .” should read:

In contrast, NS 1619 and NS-004 did evoke outward currents in smooth muscle cells bathed in zero calcium PSS and recorded with pipettes containing high concentrations of calcium chelator (Edwards *et al.*, 1994; Xu *et al.*, 1994; Macmillan *et al.*, 1995).
