

British Journal of Pharmacology

VOLUME 119 (3) OCTOBER 1996

PAPERS

T. Az-ma, K. Fujii & O. Yuge. Self-limiting enhancement by nitric oxide of oxygen free radical-induced endothelial cell injury: evidence against the dual action of NO as hydroxyl radical donor/scavenger **455**

A.J. Hadley, M. Kumari, P.O. Cover, J. Osborne, R. Poyser, J.D. Flack & J.C. Buckingham. Stimulation of the hypothalamo-pituitary-adrenal axis in the rat by the type 4 phosphodiesterase (PDE-4) inhibitor, denbufylline **463**

E. Delpy, H. Coste & A.-C. le Monnier de Gouville. Effects of cyclic GMP elevation on isoprenaline-induced increase in cyclic AMP and relaxation in rat aortic smooth muscle: role of phosphodiesterase 3 **471**

H. Ruetten & C. Thiernemann. Effect of selective blockade of endothelin ET_B receptors on the liver dysfunction and injury caused by endotoxaemia in the rat **479**

H. Kankaanranta, M. Luomala, O. Kosonen & E. Moilanen. Inhibition by fenamates of calcium influx and proliferation of human lymphocytes **487**

K.M. Heygate, J. Davies, M. Holmes, R.F.L. James & H. Thurston. The effect of insulin treatment and of islet transplantation on the resistance artery function in the STZ-induced diabetic rat **495**

N. Satake, M. Shibata & S. Shibata. The inhibitory effects of iberoxitin and 4-aminopyridine on the relaxation induced by β_1 - and β_2 -adrenoceptor activation in rat aortic rings **505**

E.A. Konorev, J. Joseph, M.M. Tarpey & B. Kalyanaraman. The mechanism of cardioprotection by S-nitrosoglutathione monoethyl ester in rat isolated heart during cardioplegic ischaemic arrest **511**

A.P. Albert, K.M. Spyer & P.A. Brooks. The effect of 5-HT and selective 5-HT receptor agonists and antagonists on rat dorsal vagal preganglionic neurones *in vitro* **519**

E. Southam, S.L. Charles & J. Garthwaite. The nitric oxide-cyclic GMP pathway and synaptic plasticity in the rat superior cervical ganglion **527**

M.P. Gorge, J.S. Hothersall, G.H. Neild & A.A.N. Dutra. Role of a copper (I)-dependent enzyme in the anti-platelet action of S-nitrosoglutathione **533**

H. Sawai, R. Wang, T. Yamashita & S. Kokubun. Effects of purinoceptor agonists on cytosolic Ca^{2+} concentration in swine tracheal smooth muscle cells in culture **539**

B. Linck, P. Boknik, J. Knapp, F.U. Müller, J. Neumann, W. Schmitz & U. Vahlensieck. Effects of cantharidin on force of contraction and phosphatase activity in nonfailing and failing human hearts **545**

F. Sierralta, D. Naquira, G. Pinardi & H.F. Miranda. α -Adrenoceptor and opioid receptor modulation of clonidine-induced antinociception **551**

T. Watano, J. Kimura, T. Morita & H. Nakanishi. A novel antagonist, No. 7943, of the $\text{Na}^+/\text{Ca}^{2+}$ exchange current in guinea-pig cardiac ventricular cells **555**

A.J. Hoey, C.M. Jackson, G.G. Pegg & M.N. Sillence. Characteristics of cyanopindolol analogues active at the β_3 -adrenoceptor in rat ileum **564**

M. Pfeiffer, A. Draguhn, H. Meierkord & U. Heinemann. Effects of γ -aminobutyric acid (GABA) agonists and GABA uptake inhibitors on pharmacosensitive and pharmacoresistant epileptiform activity *in vitro* **569**

M. Dikshit, S.S. Chari, P. Seth & R. Kumari. Interaction of nitric oxide synthase inhibitors and their D-enantiomers with rat neutrophil luminol dependent chemiluminescence response **578**

K. Kamata & T. Kobayashi. Changes in superoxide dismutase mRNA expression by streptozotocin-induced diabetes **583**

E. Fedele, Y. Jin, G. Varnier & M. Raiteri. *In vivo* microdialysis study of a specific inhibitor of soluble guanylyl cyclase on the glutamate receptor/nitric oxide/cyclic GMP pathway **590**

R.M. Eglen, B. Peelle, M.T. Pulido-Rios & E. Leung. Functional interactions between muscarinic M₂ receptors and 5-hydroxytryptamine (5-HT)₄ receptors and β_3 -adrenoceptors in isolated oesophageal muscularis mucosae of the rat **595**

K.A. Green, J.J. Lambert & G.A. Cottrell. Ligand-gated ion channels opened by 5-HT in molluscan neurones **602**

P.S. Pagel, D.A. Hettrick & D.C. Warltier. Influence of levosimendan, pimobendan, and milrinone on the regional distribution of cardiac output in anaesthetized dogs **609**
