

Corrigendum

Br. J. Pharmacol. (1998), **123**, 353–360.

Z. Lohinai, P. Benedek, E. Fehér, A. Györfi, L. Rosivall, Á. Fazekas, AL. Salzman & C. Szabó. Protective effects of mercaptoethylguanidine, a selective inhibitor of inducible nitric oxide synthase, in ligature-induced periodontitis in the rat.

Unfortunately an error occurred in point 3 of the Summary of the above paper. The second sentence should read:

Immunohistochemical analysis revealed iNOS-positive macrophages, lymphocytes and PMNs in the connective tissue and immunoreactive layers of epithelium on side of the ligature, and only a few iNOS-**reactive** connective tissue cells on the contralateral side.
