

Corrigendum

Br. J. Pharmacol. (1999), **126**, 649–656.

S. Poole, B.B. Lorenzetti, J.M. Cunha, F.Q. Cunha & S.H. Ferreira. Bradykinin B₁ and B₂ receptors, tumour necrosis factor α and inflammatory hyperalgesia.

The authors wish to apologise for an error in item 4 of the summary. The corrected version appears below.

DALBK, given 30 min before, but not 2 h after, carrageenin, BK, DABK and kallidin reduced hyperalgesic responses to these agents. HOE 140, given 30 min before, but not 2 h after, carrageenin, BK, DABK and kallidin reduced responses to carrageenin, BK, and kallidin but not DABK.
