

Corrigendum

In the paper 'O-1057, a potent water-soluble cannabinoid receptor agonist with antinociceptive properties' by Pertwee *et al.*, *British Journal of Pharmacology* (2000), **129**, 1577–1584, the authors wish to apologise that incorrect data was shown in paragraph 3 of the abstract. The correct version appears below.

3 O-1057 inhibited forskolin-stimulated cyclic AMP production by both CB₁- and CB₂-transfected CHO cells (pEC₅₀=8.80 and 7.78 respectively), its potency at CB₁ receptors approaching that of CP55940 and exceeding that of Δ⁹-tetrahydrocannabinol.
