Intracisternal urocortin inhibits vagally stimulated gastric motility in rats: role of CRF₂

**C. Y. Chen, M. Million, D. W. Adelson, V. Martinez,
J. Rivier, Y. Taché**

British Journal of Pharmacology (2002) **137**, 409. doi:10.1038/sj.bjp.0704885

Correction to: *British Journal of Pharmacology* (2002) **136**, 237–247

On page 238 of the above paper the structure of astressin₂-B was incorrectly described as:

cyclo(31–34)[D-Phe¹¹,His¹²,Nle¹⁷,C^dMeLeu^{13,39},Glu³¹,Lys³⁴]-Ac-Sauvagine_(8–40)

The only difference is that the superscript 'd' should have been a superscript 'α'. The correct description should have been:

cyclo(31–34)[D-Phe¹¹,His¹²,Nle¹⁷,C^αMeLeu^{13,39},Glu³¹,Lys³⁴]-Ac-Sauvagine_(8–40)
