# P2Ys go neuronal: modulation of $\text{Ca}^{2+}$ and $\text{K}^{+}$ channels by recombinant receptors

Stefan Boehm

*British Journal of Pharmacology* (2003) **138**, 716. doi:10.1038/sj.bjp.0705201

**Correction to:** *British Journal of Pharmacology* (2003) **138**, 1–3. doi:10.1038/sj.bjp.0705044

The publisher wishes to apologise, that due to an oversight, the above Commentary was not published in the same issue as the paper by Filippov *et al.*, **Coupling of the nucleotide P2Y<sub>4</sub> receptor to neuronal ion channels**, *British Journal of Pharmacology* (2003) **138**, 400–406.

A link has been created between these two papers in the online issues.
