

CORRIGENDUM

Discovery and biological characterization of a novel series of androgen receptor modulators

C Zhou, G Wu, Y Feng, Q Li, H Su, DE Mais, Y Zhu, N Li, Y Deng, D Yang and M-W Wang

British Journal of Pharmacology (2008) **154**, 1161; doi:10.1038/bjp.2008.251

Correction to: *British Journal of Pharmacology* (2008) **154**, 440–450; doi:10.1038/bjp.2008.107

Since the above publication the authors have noticed some errors on page 448, these are listed below.

Page 448, right column, lines 15–17 (Discussion):

The only difference is the presence of the 2-furanyl ring at what one may consider the 11-position on a steroid nucleus.

Errors in the previous publication:

1. Page 448, right column, lines 15–17 (Discussion):

‘The only difference is the presence of the phenyl ring at what one may consider the 11-position on a steroid nucleus’, in which ‘phenyl ring’ is corrected to ‘2-furanyl ring’ in the text above.

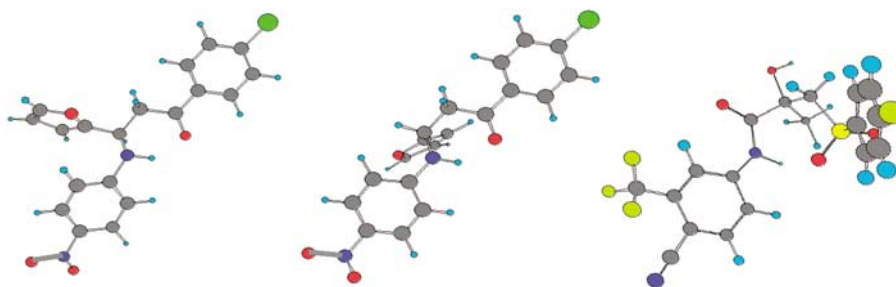

Figure 5 Three dimensional structures of the two enantiomers of compound 21 (left and middle panel) and Casodex (right panel).

2. Page 448, bottom, Figure 5

The enantiomers displayed were close analogues to compound 21, and the Casodex structure contained an error in one of the rings.

Both of these are corrected in the new figure above.
