### ***Meeting Announcement***

#### **International Conference on Malignant Lymphomas Current Status and Prospects Lugano, Switzerland, September 2–5, 1981**

*Organizing Committee:*

G. Bonadonna (Milan), F. Cavalli (Bellinzona), M. Rozencweig (Bruxelles)

Despite major progress recently achieved in the prognosis of malignant lymphomas, there is a continuous need for improving therapeutic results in these diseases.

This conference will deal with multidisciplinary approaches in the treatment of Hodgkin's and Non-Hodgkin's lymphomas in children and adults.

*Topics to be covered include*

*Hodgkin's Disease:* Prognostic factors and subgroups, modern staging and treatment, longterm toxicity.

*Non-Hodgkin's Lymphomas:* Kinetic behaviour, biologic markers, new attempts for a unified pathologic and clinical classification, staging and restaging, standard and newer therapies.

Most lectures will be given by invited speakers. Selected controversial issues will be discussed by panels of leading experts. The program will include a limited number of free presentations. A poster session will also be organized.

*For further information, write to:* F. Cavalli, Head Division of Oncology, Ospedale San Giovanni, CH-6500 Bellinzona, Switzerland.
