N.A.T.O. Advanced Study Institute “New Trends in Pharmacokinetics”

Erice, Sicily, Italy
Ettore Majorana Centre for Scientific Culture
4–15 September 1990

Organizing committee: A. Rescigno (University of Parma, Italy), G. Mariani (University of Pisa, Italy), J. T. Stevens (Ciba-Geigy, Greensboro, NC, USA), A. K. Thakur (Hazelton Labs., Vienna, VA, USA)

Purpose: The objective is that of presenting and discussing, in a tutorial form, the most recent methods for the study of the kinetic properties of drugs and chemicals, for the benefit of pharmacologists, pharmacists and toxicologists working on research, development and testing

Topics: The role of pharmacokinetics in the design of new drugs; Stereospecific pharmacokinetics; distribution and pharmacokinetics; pharmacokinetic modeling of monoclonal antibodies; interspecies pharmacokinetic scaling; from compartmental to non-compartmental models; pharmacokinetics of anticancer and anti-AIDS drugs

The faculty will include members of the organizing committee and leading specialists from the various fields

For information contact:

Prof. Giuliano Mariani, C.N.R. Clinical Physiology, Via Savi 8, I-56100 Pisa, Italy,
Tel.: (0 50) 55 40 65

or Dr. A. K. Thakur, Hazelton Laboratories America Inc., 9200 Leesburg Turnpike, Vienna, Virginia 22180, USA [Tel.: (7 03) 8 93-54 00]

First International Congress on Very Ultra Low Dosage

September 20–22, 1990
Bordeaux, France

Scientific program: Plenary lectures, Oral Communications sessions: Biochemistry, Biophysics, Clinical pharmacology, Experimental pharmacology, Hematology, Immunology, etc.

Deadline for abstracts: March 1, 1990

Further inquiries regarding scientific abstracts should be directed to:

Professor Ch. Doutremepuich, Hematology Laboratory, Faculty of Pharmacy,
3, Place de la Victoire, F-33076 Bordeaux, France

Phone: (33) 56/91 34 24 (EXT 711); *Fax:* (33) 56/94 31 28
