

CARBOHYDRATE POLYMERS

An International Journal Devoted to Scientific and Technological Aspects of Industrially Important Polysaccharides

Carbohydrate Polymers provides a forum for the publication of papers relating to the scientific study and technological exploitation of polymers which have, or potentially offer, industrial applications in fields such as food, textiles, paper, wood, adhesives, pharmaceuticals and industrial chemistry.

The journal welcomes reports of studies of the structure and the chemical and physical properties of such polymers, as well as investigations relating to their biological and industrial development, analytical methods, and their chemical and microbiological modifications and interactions with other materials.

An important, and perhaps unique, feature of this journal is the free exchange of information, and close co-operation, between its Editors and those of *Carbohydrate Research*. This latter journal is internationally renowned as the forum for the publication of papers in which the emphasis is on pure and applied research. *Carbohydrate Polymers* and *Carbohydrate Research* therefore complement each other, and together provide a complete coverage of the field.

Editors

J. M. V. BLANSHARD and J. R. MITCHELL

Department of Applied Biochemistry and Nutrition
School of Agriculture, University of Nottingham
Sutton Bonington, Loughborough LE12 5RD, England

Editorial Board

G. O. Aspinall

York University, Ontario, Canada

E. D. T. Atkins

University of Bristol, England

W. Burchard

University of Freiburg, West Germany

H. Chanzy

Centre de Recherches sur les Macromolécules
Végétales, Grenoble, France

D. C. Ellwood

PHLS Centre for Applied Microbiology and Research,
Salisbury, England

H. Flowers

The Weizmann Institute of Science, Rehovot, Israel

M. Glicksman

General Foods Corporation, Tarrytown, New York,
USA

T. Harada

Osaka University, Japan

J. F. Kennedy

University of Birmingham, England

C. W. Lawson
