

## **First Announcement and Call for Papers: International Symposium on Plant Polymeric Carbohydrates**

**Berlin, Federal Republic of Germany  
1–3 July 1992**

A three-day symposium in the biennial series of meetings on Plant Polymeric Carbohydrates will be held at the Technical University of Berlin in July 1992, during the week preceding the XVIth International Carbohydrate Conference to be held in Paris, France, from 5–10 July 1992.

The symposium is being organized jointly by the Technical University of Berlin and the Federal Centre of Cereal, Potato and Lipid Research, Detmold.

The programme will cover both fundamental and commercially applied aspects of polymeric carbohydrates of conventional and novel plant material for utilization in food, malting and brewing, animal feed and other industries.

The following topics on Polymeric Carbohydrates will be covered by papers presented by invited speakers and by poster presentations:

- Biosynthesis
- Extraction and purification
- Chemical and enzymatic conversion
- Rheology
- Industrial uses
- Nutritional aspects
