

Subject index

- Accelerated deactivation
 - Accelerated deactivation of hydrotreating catalysts: comparison to long-term deactivation in a commercial plant 319
- Acetonitrile
 - Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257
- Acidic salts of heteropoly acid
 - Organic reactions in excess water catalyzed by solid acids 73
- Active oxygen species
 - Reactivities of active oxygen species and their roles in the catalytic oxidation of inactive hydrocarbon 3
- Active sites
 - Catalytic functionality of unsupported molybdenum sulfide catalysts prepared with different methods 353
- Ag/Al₂O₃ catalyst
 - Selective reduction of NO on Ag/Al₂O₃ catalysts prepared from boehmite needles 123
- Alumina–zirconia
 - Oxidative decomposition of dichlorodifluoromethane (CFC-12) in the presence of butane over Tungsten(VI) oxide catalysts supported on alumina–zirconia 185
- Ammonia adsorption-desorption
 - Transient kinetic study of the SCR-DeNO_x reaction 85
- Ammonia oxidation
 - Catalytic combustion of gasified biomasses over Mn-substituted hexaaluminates for gas turbine applications 159
- Anthracene hydrogenation
 - Hydrogenation of anthracene over active carbon-supported nickel catalyst 361
- Aromatic hydrocarbons
 - Effect of hydrocarbon compositions in the M85 fuel on catalytic conversion 153
- Auger electron spectroscopy
 - Catalytic activity of PdO/ZrO₂ catalyst for methane combustion 173
- Aurichalcite
 - Methanol synthesis from CO₂ over Cu/ZnO catalysts prepared from various coprecipitated precursors 241
- BaMnAl₁₁O₁₉ catalyst
 - Catalytic combustion of gasified biomasses over Mn-substituted hexaaluminates for gas turbine applications 159
- Bifunctional zeolite catalyst
 - Hydrocracking of diphenylmethane and tetralin over bifunc-
- tional NiW sulfide catalysts supported on three kinds of zeolites 367
- Biomass
 - A novel test method for catalysts in the treatment of biomass pyrolysis oil 399
 - Hydrogen production from cellulose using a reduced nickel catalyst 405
 - Temperature effect on continuous gasification of microalgal biomass: theoretical yield of methanol production and its energy balance 393
 - Hydrogen production from cellulose using a reduced nickel catalyst 411
- Biomimetic oxidation
 - Reactivities of active oxygen species and their roles in the catalytic oxidation of inactive hydrocarbon 3
- Boehmite needles
 - Selective reduction of NO on Ag/Al₂O₃ catalysts prepared from boehmite needles 123
- C₂ oxygenates
 - Syngas conversion using RhVO₄ and Rh₂MnO₄ catalysts: Regeneration and redispersion of Rh metal by calcination and reduction treatments 197
- C₂H₆
 - Partial oxidation of light alkanes by NO_x in the gas phase 23
- C₃H₈
 - Partial oxidation of light alkanes by NO_x in the gas phase 23
- Calcium oxide
 - Hydropyrolysis of Alberta coal and petroleum residue using calcium oxide catalyst and toluene additive 385
- Carbamide
 - Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257
- Carbazole
 - TPD study and carbazole hydrodenitrogenation activity of nitrated molybdena–alumina 335
- Carbon deposition
 - Development of ultra-stable Ni catalysts for CO₂ reforming of methane 35
- Carbon dioxide hydrogenation
 - CO₂ hydrogenation over Pd-modified methanol synthesis catalysts 251
- Carbon dioxide
 - Activity of carbided molybdena–alumina for CO₂ hydrogenation 235

- Hydrocarbon synthesis from CO₂ over Fe–Cu catalysts 229
- Promoting effects of CO₂ on dehydrogenation of propane over a SiO₂-supported Cr₂O₃ catalyst 55
- Carbon support
 - Hydrogenation of anthracene over active carbon-supported nickel catalyst 361
- Carbon
 - Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257
- Carbonaceous deposit
 - Accelerated deactivation of hydrotreating catalysts: comparison to long-term deactivation in a commercial plant 319
- Catalyst characterization (TPR, XPS)
 - CO₂ hydrogenation over Pd-modified methanol synthesis catalysts 251
- Catalyst deactivation
 - Oxidative decomposition of dichlorodifluoromethane (CFC-12) in the presence of butane over Tungsten(VI) oxide catalysts supported on alumina–zirconia 185
- Catalyst preparation method
 - Preparation method for supported metal catalysts using w/o microemulsion: Study on immobilization conditions of metal particles by hydrolysis of alkoxide 203
- Catalyst screening
 - A novel test method for catalysts in the treatment of biomass pyrolysis oil 399
- Catalytic combustion
 - Catalytic combustion of gasified biomasses over Mn-substituted hexaaluminates for gas turbine applications 159
- Catalytic combustor
 - Test results of a catalytic combustor for a gas turbine 167
- Cellulose
 - Hydrogen production from cellulose using a reduced nickel catalyst 405
 - Hydrogen production from cellulose using a reduced nickel catalyst 411
- CeO₂–ZrO₂ solid solution
 - CO oxidation on Pd/CeO₂–ZrO₂ catalysts 179
- CH₄
 - Partial oxidation of light alkanes by NO_x in the gas phase 23
- Characterization
 - Temperature programmed desorption study of adsorbed species formed by the decomposition of N₂O on ion-exchanged copper zeolite catalysts 117
- Chelating agents
 - Highly active hydrotreatment catalysts prepared with chelating agents 271
- Chemical vapor deposition
 - Hydrosulfurization of dibenzothiophenes over molybdenum catalyst supported on TiO₂–Al₂O₃ 293
- Chromium oxide
 - Promoting effects of CO₂ on dehydrogenation of propane over a SiO₂-supported Cr₂O₃ catalyst 55
- Clean fuel production
 - Catalyst design and development for upgrading aromatic hydrocarbons 261
- CO hydrogenation
 - Syngas conversion using RhVO₄ and Rh₂MnO₄ catalysts: Regeneration and redispersion of Rh metal by calcination and reduction treatments inf>4 197
- CO oxidation
 - CO oxidation on Pd/CeO₂–ZrO₂ catalysts 179
- Co–Mo–P catalysts
 - Alumina supported HDS catalysts prepared by impregnation with new heteropolycompounds. Comparison with catalysts prepared by conventional Co–Mo–P coimpregnation 277
- Co–Mo catalysts
 - Development of a high activity HDS catalyst for diesel fuel: from basic research to commercial experience 307
 - Elucidation of hydrosulfurization mechanism using ³⁵S radioisotope pulse tracer methods 285
- Co–Mo/Al₂O₃
 - Accelerated deactivation of hydrotreating catalysts: comparison to long-term deactivation in a commercial plant 319
- CO₂ hydrogenation into methanol
 - Development of high performance Raney Cu-based catalysts for methanol synthesis from CO₂ and H₂ 245
 - Optimization of preparation conditions and improvement of stability of Cu/ZnO-based multicomponent catalysts for methanol synthesis from CO₂ and H₂ 215
- CO₂ reforming of methane
 - Development of ultra-stable Ni catalysts for CO₂ reforming of methane 35
 - Dehydrogenation of ethylbenzene over iron oxide-based catalyst in the presence of carbon dioxide 61
 - Effective synthesis of ethanol from CO₂ on polyfunctional composite catalysts 209
- Coal
 - Hydropyrolysis of Alberta coal and petroleum residue using calcium oxide catalyst and toluene additive 385
- Coke deposition
 - Oxidative decomposition of dichlorodifluoromethane (CFC-12) in the presence of butane over Tungsten(VI) oxide catalysts supported on alumina–zirconia 185
- CoMo/Al₂O₃ catalysts
 - Kinetics of sulfur model molecules competing with H₂S as a tool for evaluating the HDS activities of commercial CoMo/Al₂O₃ catalysts 347
- Copper oxide
 - Lean-DeNO_x titania based monolithic catalysts 103
- Coprecipitation
 - Methanol synthesis from CO₂ over Cu/ZnO catalysts prepared from various coprecipitated precursors 241
- Cu-zeolite
 - Temperature programmed desorption study of adsorbed species formed by the decomposition of N₂O on ion-exchanged copper zeolite catalysts 117
- Cu/ZnO-based catalyst
 - Optimization of preparation conditions and improvement of stability of Cu/ZnO-based multicomponent catalysts for methanol synthesis from CO₂ and H₂ 215

CyDTA

Highly active hydrotreatment catalysts prepared with chelating agents 271

Deep HDS

Influence of ammonia on thiophene HDS at high pressures over noble metal catalysts for deep HDS applications 381

Dehydrogenation of ethane and propane

Simple chemical processes based on low molecular-mass alkanes as chemical feedstocks 13

Dehydrogenation

Promoting effects of CO₂ on dehydrogenation of propane over a SiO₂-supported Cr₂O₃ catalyst 55

Desulfurization

Development of a high efficiency substitute natural gas production process 393

Diesel

Lean-DeNO_x titania based monolithic catalysts 103

4,6-dimethyldibenzothiophene

Development of a high activity HDS catalyst for diesel fuel: from basic research to commercial experience 307

Dimethyl formamide

Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257

Dinitrogen monoxide

Temperature programmed desorption study of adsorbed species formed by the decomposition of N₂O on ion-exchanged copper zeolite catalysts 117

Diphenylmethane

Hydrocracking of diphenylmethane and tetralin over bifunctional NiW sulfide catalysts supported on three kinds of zeolites 367

Direct decomposition

Temperature programmed desorption study of adsorbed species formed by the decomposition of N₂O on ion-exchanged copper zeolite catalysts 117

Durability

Oxidation of methane over Pt and Pd supported on alumina in lean-burn natural-gas engine exhaust 147

EDTA

Highly active hydrotreatment catalysts prepared with chelating agents 271

EDX

Sulfidation of an alumina supported CoMo hydrotreating catalyst: variation of the S/(Co+Mo) ratio with the sulfiding temperature 341

Effects of supports

Catalytic decomposition of N₂O over supported Rh catalysts: effects of supports and Rh dispersion 129

Energy balance

Temperature effect on continuous gasification of microalgal biomass: theoretical yield of methanol production and its energy balance 393

Ethylbenzene

Dehydrogenation of ethylbenzene over iron oxide-based catalyst in the presence of carbon dioxide 61

Ethylene

Lithium-doped sulfated-zirconia catalysts for oxidative coupling of methane to give ethylene and ethane 41

EXAFS

EXAFS study on Pd–Pt catalyst supported on USY zeolite 375

Functionalization of light alkanes

Simple chemical processes based on low molecular-mass alkanes as chemical feedstocks 13

Gas turbine

Test results of a catalytic combustor for a gas turbine 167

Gasification

Temperature effect on continuous gasification of microalgal biomass: theoretical yield of methanol production and its energy balance 393

Gasified biomasses fuels

Catalytic combustion of gasified biomasses over Mn-substituted hexaaluminates for gas turbine applications 159

Goethite

A study of the effect of sulphation on iron oxide catalysts for methane oxidation 47

Heteropolycompounds

Alumina supported HDS catalysts prepared by impregnation with new heteropolycompounds. Comparison with catalysts prepared by conventional Co–Mo–P coimpregnation 277

High pressure DRIFT

DRIFT study of temperature programmed desorption of NO adsorbed on Co–Mo/Al₂O₃ sulfided at high pressure 313

High pressure sulfided Co–Mo/Al₂O₃

DRIFT study of temperature programmed desorption of NO adsorbed on Co–Mo/Al₂O₃ sulfided at high pressure 313

Hydration

Organic reactions in excess water catalyzed by solid acids 73

Hydrocarbon

Hydrocarbon synthesis from CO₂ over Fe–Cu catalysts 229
Lean-DeNO_x titania based monolithic catalysts 103

Hydrocracking (HC) catalysts

Catalyst design and development for upgrading aromatic hydrocarbons 261

Hydrocracking

Hydrocracking of diphenylmethane and tetralin over bifunctional NiW sulfide catalysts supported on three kinds of zeolites 367

Hydrodenitrogenation

TPD study and carbazole hydrodenitrogenation activity of nitrated molybdena–alumina 335

Hydrodesulfurization of dibenzothiophene

Elucidation of hydrodesulfurization mechanism using ³⁵S radioisotope pulse tracer methods 285

Hydrodesulfurization

Assessment of limitations and potentials for improvement in deep desulfurization through detailed kinetic analysis of mechanistic pathways 299

Development of a high activity HDS catalyst for diesel fuel: from basic research to commercial experience 307

- Highly active hydrotreatment catalysts prepared with chelating agents 271
- Hydrodesulfurization of dibenzothiophenes over molybdenum catalyst supported on $\text{TiO}_2\text{--Al}_2\text{O}_3$ 293
- Hydrodesulfurization over noble metals supported on ZSM-5 zeolites 327
- Hydrodesulphurization
 - Alumina supported HDS catalysts prepared by impregnation with new heteropolycompounds. Comparison with catalysts prepared by conventional Co–Mo–P coimpregnation 277
- Hydrogen production
 - Hydrogen production from cellulose using a reduced nickel catalyst 405
- Hydrogen transfer
 - Hydrogenation of anthracene over active carbon-supported nickel catalyst 361
- Hydrogen
 - Two conversion maxima at 373 and 573 K in the reduction of nitrogen monoxide with hydrogen over Pd/ TiO_2 catalyst 135
- Hydrogenation (HY) catalysts
 - Catalyst design and development for upgrading aromatic hydrocarbons 261
- Hydrogenation of CO_2
 - Methanol synthesis from CO_2 over Cu/ZnO catalysts prepared from various coprecipitated precursors 241
- Hydrogenation
 - Activity of carbided molybdena–alumina for CO_2 hydrogenation 235
 - Catalytic functionality of unsupported molybdenum sulfide catalysts prepared with different methods 353
 - EXAFS study on Pd–Pt catalyst supported on USY zeolite 375
 - Highly active hydrotreatment catalysts prepared with chelating agents 271
 - Hydrocarbon synthesis from CO_2 over Fe–Cu catalysts 229
- Hydrogen production
 - Hydrogen production from cellulose using a reduced nickel catalyst 411
- Hydrolysis
 - Organic reactions in excess water catalyzed by solid acids 73
- Hydropyrolysis
 - Hydropyrolysis of Alberta coal and petroleum residue using calcium oxide catalyst and toluene additive 385
- Hydrosulfurization
 - Catalytic functionality of unsupported molybdenum sulfide catalysts prepared with different methods 353
 - Kinetics of sulfur model molecules competing with H_2S as a tool for evaluating the HDS activities of commercial CoMo/ Al_2O_3 catalysts 347
- Hydrotreating
 - Accelerated deactivation of hydrotreating catalysts: comparison to long-term deactivation in a commercial plant 319
- Hydrotreatment catalysts
 - Highly active hydrotreatment catalysts prepared with chelating agents 271
- Hydrotreatment
 - Sulfidation of an alumina supported CoMo hydrotreating catalyst: variation of the S/(Co+Mo) ratio with the sulfiding temperature 341
- Immobilization of nanoparticles
 - Preparation method for supported metal catalysts using w/o microemulsion: Study on immobilization conditions of metal particles by hydrolysis of alkoxide 203
- Indium
 - Role of zeolite structure on reduction of NO_x with methane over In- and Pd-based catalysts 139
- Industrial HDS
 - Kinetics of sulfur model molecules competing with H_2S as a tool for evaluating the HDS activities of commercial CoMo/ Al_2O_3 catalysts 347
- Intermediates
 - Assessment of limitations and potentials for improvement in deep desulfurization through detailed kinetic analysis of mechanistic pathways 299
- Iron catalyst
 - Hydrocarbon synthesis from CO_2 over Fe–Cu catalysts 229
- Iron oxide
 - A study of the effect of sulphation on iron oxide catalysts for methane oxidation 47
- Iron oxide-based catalyst
 - Dehydrogenation of ethylbenzene over iron oxide-based catalyst in the presence of carbon dioxide 61
- Kinetics
 - Assessment of limitations and potentials for improvement in deep desulfurization through detailed kinetic analysis of mechanistic pathways 299
- Leaching in NaOH/zincate solutions
 - Development of high performance Raney Cu-based catalysts for methanol synthesis from CO_2 and H_2 245
- Lean burn
 - Oxidation of methane over Pt and Pd supported on alumina in lean-burn natural-gas engine exhaust 147
- Lithium doping
 - Lithium-doped sulfated-zirconia catalysts for oxidative coupling of methane to give ethylene and ethane 41
- Low temperature gasification
 - Hydrogen production from cellulose using a reduced nickel catalyst 405
 - Hydrogen production from cellulose using a reduced nickel catalyst 411
- Low S/C
 - Development of a high efficiency substitute natural gas production process 393
- M85 fuel
 - Effect of hydrocarbon compositions in the M85 fuel on catalytic conversion 153
- Malachite
 - Methanol synthesis from CO_2 over Cu/ZnO catalysts prepared from various coprecipitated precursors 241

- Mesoporous molecular sieve
 Selective formation of CH_3OH in the photocatalytic reduction of CO_2 with H_2O on titanium oxides highly dispersed within zeolites and mesoporous molecular sieves 221
- Metal-support interface
 Development of ultra-stable Ni catalysts for CO_2 reforming of methane 35
- Methane combustion
 Catalytic activity of PdO/ZrO_2 catalyst for methane combustion 173
- Methane conversion
 Direct conversion of methane into methanol over $\text{MoO}_3/\text{SiO}_2$ catalyst in an excess amount of water vapor 29
- Methane oxidation
 Oxidation of methane over Pt and Pd supported on alumina in lean-burn natural-gas engine exhaust 147
- Methane
 A study of the effect of sulphation on iron oxide catalysts for methane oxidation 47
 Lithium-doped sulfated-zirconia catalysts for oxidative coupling of methane to give ethylene and ethane 41
 Role of zeolite structure on reduction of NO_x with methane over In- and Pd-based catalysts 139
- Methanol activity
 Development of high performance Raney Cu-based catalysts for methanol synthesis from CO_2 and H_2 245
- Methanol decomposition
 Production of carbon monoxide and hydrogen by methanol decomposition over nickel dispersed on porous glass 191
- Methanol production
 CO_2 hydrogenation over Pd-modified methanol synthesis catalysts 251
- Methanol synthesis
 Methanol synthesis from CO_2 over Cu/ZnO catalysts prepared from various coprecipitated precursors 241
- Methanol
 Effect of hydrocarbon compositions in the M85 fuel on catalytic conversion 153
 Temperature effect on continuous gasification of microalgal biomass: theoretical yield of methanol production and its energy balance 393
- Microalgae
 Temperature effect on continuous gasification of microalgal biomass: theoretical yield of methanol production and its energy balance 393
- Microemulsion
 Preparation method for supported metal catalysts using w/o microemulsion: Study on immobilization conditions of metal particles by hydrolysis of alkoxide 203
- Mixed-oxide
 Syngas conversion using RhVO_4 and Rh_2MnO_4 catalysts: Regeneration and redispersion of Rh metal by calcination and reduction treatments 197
- Mn-Zr oxide
 Reversible sorption-desorption of NO_x by mixed oxides under various atmospheres 109
- Mo catalyst
 Hydrodesulfurization of dibenzothiophenes over molybdenum catalyst supported on $\text{TiO}_2\text{--Al}_2\text{O}_3$ 293
- Model reactions
 Kinetics of sulfur model molecules competing with H_2S as a tool for evaluating the HDS activities of commercial CoMo/ Al_2O_3 catalysts 347
- Molybdenum carbide
 Activity of carbided molybdena-alumina for CO_2 hydrogenation 235
- Molybdenum nitride
 TPD study and carbazole hydrodenitrogenation activity of nitrated molybdena-alumina 335
- Monolith
 Lean-De NO_x titania based monolithic catalysts 103
- $\text{MoO}_3/\text{SiO}_2$ catalyst
 Direct conversion of methane into methanol over $\text{MoO}_3/\text{SiO}_2$ catalyst in an excess amount of water vapor 29
- MoS_2 structure
 Catalytic functionality of unsupported molybdenum sulfide catalysts prepared with different methods 353
- N-butane
 Investigations on the oxidative dehydrogenation of *n*-butane over VMgO-type catalysts 65
- N-hexane
 Effect of hydrocarbon compositions in the M85 fuel on catalytic conversion 153
- N_2O decomposition
 Catalytic decomposition of N_2O over supported Rh catalysts: effects of supports and Rh dispersion 129
- Natural gas engine exhaust
 Oxidation of methane over Pt and Pd supported on alumina in lean-burn natural-gas engine exhaust 147
- Neutralization of sulfated zirconia
 Lithium-doped sulfated-zirconia catalysts for oxidative coupling of methane to give ethylene and ethane 41
- Nickel catalyst
 Hydrogenation of anthracene over active carbon-supported nickel catalyst 361
- Nickel supported on silica
 Production of carbon monoxide and hydrogen by methanol decomposition over nickel dispersed on porous glass 191
- Nickel-magnesia solid solution
 Development of ultra-stable Ni catalysts for CO_2 reforming of methane 35
- Nitrate formation
 Reversible sorption-desorption of NO_x by mixed oxides under various atmospheres 109
- Nitrogen monoxide
 Two conversion maxima at 373 and 573 K in the reduction of nitrogen monoxide with hydrogen over Pd/ TiO_2 catalyst 135
- Nitrogen oxides
 Relative rates of various steps of $\text{NO-CH}_4\text{-O}_2$ reaction catalyzed by Pd/H-ZSM-5 93
 Test results of a catalytic combustor for a gas turbine 167

Nitrogen poisoning of HDS

Influence of ammonia on thiophene HDS at high pressures over noble metal catalysts for deep HDS applications 381

Nitrogen

Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257

NO adsorption

DRIFT study of temperature programmed desorption of NO adsorbed on Co–Mo/Al₂O₃ sulfided at high pressure 313

NO

Relative rates of various steps of NO–CH₄–O₂ reaction catalyzed by Pd/H-ZSM-5 93

NO_x reduction

Lean-DeNO_x titania based monolithic catalysts 103

Role of zeolite structure on reduction of NO_x with methane over In- and Pd-based catalysts 139

Selective reduction of NO on Ag/Al₂O₃ catalysts prepared from boehmite needles 123

NO_x sorption

Reversible sorption–desorption of NO_x by mixed oxides under various atmospheres 109

NO_x

Partial oxidation of light alkanes by NO_x in the gas phase 23

Noble metals in deep HDS

Influence of ammonia on thiophene HDS at high pressures over noble metal catalysts for deep HDS applications 381

Noble metals

Hydrodesulfurization over noble metals supported on ZSM-5 zeolites 327

NTA

Highly active hydrotreatment catalysts prepared with chelating agents 271

Oxene

Reactivities of active oxygen species and their roles in the catalytic oxidation of inactive hydrocarbon 3

Oxidation

A study of the effect of sulphation on iron oxide catalysts for methane oxidation 47

Oxidative conversion of methane

Simple chemical processes based on low molecular-mass alkanes as chemical feedstocks 13

Oxidative coupling

Lithium-doped sulfated-zirconia catalysts for oxidative coupling of methane to give ethylene and ethane 41

Oxidative decomposition of dichlorodifluoromethane

Oxidative decomposition of dichlorodifluoromethane (CFC-12) in the presence of butane over Tungsten(VI) oxide catalysts supported on alumina–zirconia 185

Oxidative dehydrogenation

Investigations on the oxidative dehydrogenation of *n*-butane over VMgO-type catalysts 65

Oxidative functionalization

Simple chemical processes based on low molecular-mass alkanes as chemical feedstocks 13

Oxygen species in alkane dehydrogenation

Simple chemical processes based on low molecular-mass alkanes as chemical feedstocks 13

Palladium

EXAFS study on Pd–Pt catalyst supported on USY zeolite 375

Relative rates of various steps of NO–CH₄–O₂ reaction catalyzed by Pd/H-ZSM-5 93

Role of zeolite structure on reduction of NO_x with methane over In- and Pd-based catalysts 139

Test results of a catalytic combustor for a gas turbine 167

Two conversion maxima at 373 and 573 K in the reduction of nitrogen monoxide with hydrogen over Pd/TiO₂ catalyst 135

Partial oxidation of methane

Direct conversion of methane into methanol over MoO₃/SiO₂ catalyst in an excess amount of water vapor 29

Partial oxidation

Partial oxidation of light alkanes by NO_x in the gas phase 23

Particle size of nickel

Production of carbon monoxide and hydrogen by methanol decomposition over nickel dispersed on porous glass 191

Pd-promoted methanol synthesis catalysts

CO₂ hydrogenation over Pd-modified methanol synthesis catalysts 251

PdO/ZrO₂ catalysts

Catalytic activity of PdO/ZrO₂ catalyst for methane combustion 173

Photocatalyst

Characterization of titanium-boron binary oxides and their photocatalytic activity for stoichiometric decomposition of water 79

Selective formation of CH₃OH in the photocatalytic reduction of CO₂ with H₂O on titanium oxides highly dispersed within zeolites and mesoporous molecular sieves 221

Photocatalytic NO decomposition

Selective formation of CH₃OH in the photocatalytic reduction of CO₂ with H₂O on titanium oxides highly dispersed within zeolites and mesoporous molecular sieves 221

Platinum

EXAFS study on Pd–Pt catalyst supported on USY zeolite 375

Lean-DeNO_x titania based monolithic catalysts 103

Polyaromatic

Assessment of limitations and potentials for improvement in deep desulfurization through detailed kinetic analysis of mechanistic pathways 299

Polyfunctional composite catalysts

Effective synthesis of ethanol from CO₂ on polyfunctional composite catalysts 209

Pore size

Production of carbon monoxide and hydrogen by methanol decomposition over nickel dispersed on porous glass 191

Preparation conditions

Optimization of preparation conditions and improvement of stability of Cu/ZnO-based multicomponent catalysts for methanol synthesis from CO₂ and H₂ 215

- Propane
Promoting effects of CO₂ on dehydrogenation of propane over a SiO₂-supported Cr₂O₃ catalyst 55
- Pt-ZrO₂-Al₂O₃
Reversible sorption-desorption of NO_x by mixed oxides under various atmospheres 109
- Pt/HZSM-5 catalyst
Hydrosulfurization over noble metals supported on ZSM-5 zeolites 327
- Pt/Pd-alumina
Oxidation of methane over Pt and Pd supported on alumina in lean-burn natural-gas engine exhaust 147
- Pyrolysis vapours
A novel test method for catalysts in the treatment of biomass pyrolysis oil 399
- Pyrolysis
A novel test method for catalysts in the treatment of biomass pyrolysis oil 399
- Radioisotope tracer method
Elucidation of hydrosulfurization mechanism using ³⁵S radio-isotope pulse tracer methods 285
- Raney Cu–Zr catalyst
Development of high performance Raney Cu-based catalysts for methanol synthesis from CO₂ and H₂ 245
- Reactivity relationships
Kinetics of sulfur model molecules competing with H₂S as a tool for evaluating the HDS activities of commercial CoMo/Al₂O₃ catalysts 347
- Redispersion
Syngas conversion using RhVO₄ and Rh₂MnO₄ catalysts: Regeneration and redispersion of Rh metal by calcination and reduction treatments^{inf>4} 197
- Redox properties
CO oxidation on Pd/CeO₂–ZrO₂ catalysts 179
- Reduced nickel catalyst
Hydrogen production from cellulose using a reduced nickel catalyst 405
Hydrogen production from cellulose using a reduced nickel catalyst 411
- Reduction
Relative rates of various steps of NO–CH₄–O₂ reaction catalyzed by Pd/H-ZSM-5 93
Two conversion maxima at 373 and 573 K in the reduction of nitrogen monoxide with hydrogen over Pd/TiO₂ catalyst 135
- Reductive oxidation
Reactivities of active oxygen species and their roles in the catalytic oxidation of inactive hydrocarbon 3
- Regeneration
Syngas conversion using RhVO₄ and Rh₂MnO₄ catalysts: Regeneration and redispersion of Rh metal by calcination and reduction treatments^{inf>4} 197
- Residue
Hydropyrolysis of Alberta coal and petroleum residue using calcium oxide catalyst and toluene additive 385
- Rh dispersion
Catalytic decomposition of N₂O over supported Rh catalysts: effects of supports and Rh dispersion 129
- Rh/NaY
Catalytic decomposition of N₂O over supported Rh catalysts: effects of supports and Rh dispersion 129
- Rh/USY
Catalytic decomposition of N₂O over supported Rh catalysts: effects of supports and Rh dispersion 129
- Rh₂MnO₄
Syngas conversion using RhVO₄ and Rh₂MnO₄ catalysts: Regeneration and redispersion of Rh metal by calcination and reduction treatments^{inf>4} 197
- Ruthenium
Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257
- Saturated hydrocarbons
Effect of hydrocarbon compositions in the M85 fuel on catalytic conversion 153
- SCR, dynamic model
Transient kinetic study of the SCR-DeNO_x reaction 85
- Selective catalytic reduction (SCR)
Transient kinetic study of the SCR-DeNO_x reaction 85
Reversible sorption-desorption of NO_x by mixed oxides under various atmospheres 109
- Selective oxidation
Reactivities of active oxygen species and their roles in the catalytic oxidation of inactive hydrocarbon 3
- Sintering
Oxidation of methane over Pt and Pd supported on alumina in lean-burn natural-gas engine exhaust 147
- SMA
Direct conversion of methane into methanol over MoO₃/SiO₂ catalyst in an excess amount of water vapor 29
- SMOI
Syngas conversion using RhVO₄ and Rh₂MnO₄ catalysts: Regeneration and redispersion of Rh metal by calcination and reduction treatments^{inf>4} 197
- SMSI
Syngas conversion using RhVO₄ and Rh₂MnO₄ catalysts: Regeneration and redispersion of Rh metal by calcination and reduction treatments^{inf>4} 197
- SO₂
Selective reduction of NO on Ag/Al₂O₃ catalysts prepared from boehmite needles 123
- Stability improvement
Optimization of preparation conditions and improvement of stability of Cu/ZnO-based multicomponent catalysts for methanol synthesis from CO₂ and H₂ 215
- Steam reforming
Development of a high efficiency substitute natural gas production process 393
- Structural change
Accelerated deactivation of hydrotreating catalysts: comparison to long-term deactivation in a commercial plant 319

Styrene

Dehydrogenation of ethylbenzene over iron oxide-based catalyst in the presence of carbon dioxide 61

Sulfidation mechanism

Elucidation of hydrodesulfurization mechanism using ^{35}S radio-isotope pulse tracer methods 285

Sulfidation

Sulfidation of an alumina supported CoMo hydrotreating catalyst: variation of the S/(Co+Mo) ratio with the sulfiding temperature 341

Sulfur tolerance

EXAFS study on Pd–Pt catalyst supported on USY zeolite 375

Sulfur analysis

Sulfidation of an alumina supported CoMo hydrotreating catalyst: variation of the S/(Co+Mo) ratio with the sulfiding temperature 341

Sulphation

A study of the effect of sulphation on iron oxide catalysts for methane oxidation 47

Supported catalysts

Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257

Synthesis of ethanol

Effective synthesis of ethanol from CO_2 on polyfunctional composite catalysts 209

TEM

Catalytic functionality of unsupported molybdenum sulfide catalysts prepared with different methods 353

Temperature programmed desorption

DRIFT study of temperature programmed desorption of NO adsorbed on Co–Mo/ Al_2O_3 sulfided at high pressure 313

TPD study and carbazole hydrodenitrogenation activity of nitrated molybdena–alumina 335

Temperature-programmed reduction

Catalytic activity of PdO/ ZrO_2 catalyst for methane combustion 173

Effective synthesis of ethanol from CO_2 on polyfunctional composite catalysts 209

Temperature-programmed surface reaction

Activity of carbided molybdena–alumina for CO_2 hydrogenation 235

Tetralin

Hydrocracking of diphenylmethane and tetralin over bifunctional NiW sulfide catalysts supported on three kinds of zeolites 367

Thermodynamic

Assessment of limitations and potentials for improvement in deep desulfurization through detailed kinetic analysis of mechanistic pathways 299

Titania

Two conversion maxima at 373 and 573 K in the reduction of nitrogen monoxide with hydrogen over Pd/ TiO_2 catalyst 135

Titania–alumina support

Hydrodesulfurization of dibenzothiophenes over molybdenum catalyst supported on TiO_2 – Al_2O_3 293

Titanium oxide

Selective formation of CH_3OH in the photocatalytic reduction of CO_2 with H_2O on titanium oxides highly dispersed within zeolites and mesoporous molecular sieves 221

Titanium–boron binary oxide

Characterization of titanium–boron binary oxides and their photocatalytic activity for stoichiometric decomposition of water 79

TOF

Catalytic decomposition of N_2O over supported Rh catalysts: effects of supports and Rh dispersion 129

Toluene

Hydropyrolysis of Alberta coal and petroleum residue using calcium oxide catalyst and toluene additive 385

TPD

Temperature programmed desorption study of adsorbed species formed by the decomposition of N_2O on ion-exchanged copper zeolite catalysts 117

TPR

Effective synthesis of ethanol from CO_2 on polyfunctional composite catalysts 209

Transient kinetic study

Transient kinetic study of the SCR–De NO_x reaction 85

Tungsten(VI) oxide catalyst

Oxidative decomposition of dichlorodifluoromethane (CFC-12) in the presence of butane over Tungsten(VI) oxide catalysts supported on alumina–zirconia 185

Unsaturated hydrocarbons

Effect of hydrocarbon compositions in the M85 fuel on catalytic conversion 153

USY zeolite

EXAFS study on Pd–Pt catalyst supported on USY zeolite 375

Vanadia-based catalysts

Transient kinetic study of the SCR–De NO_x reaction 85

Vanadium–magnesium oxide catalysts

Investigations on the oxidative dehydrogenation of *n*-butane over VMgO-type catalysts 65

Wastewater treatment

Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257

Water decomposition

Characterization of titanium–boron binary oxides and their photocatalytic activity for stoichiometric decomposition of water 79

Water-tolerant catalyst

Organic reactions in excess water catalyzed by solid acids 73

Wet air oxidation

Solid catalysts for wet oxidation of nitrogen-containing organic compounds 257

X-ray diffraction

Catalytic activity of PdO/ ZrO_2 catalyst for methane combustion 173

- XPS**
Hydrocarbon synthesis from CO_2 over Fe–Cu catalysts 229
Sulfidation of an alumina supported CoMo hydrotreating catalyst: variation of the S/(Co+Mo) ratio with the sulfiding temperature 341
- XRD**
Catalytic functionality of unsupported molybdenum sulfide catalysts prepared with different methods 353
- Y zeolites**
Catalyst design and development for upgrading aromatic hydrocarbons 261
- Zeolite**
Development of a high activity HDS catalyst for diesel fuel: from basic research to commercial experience 307
Role of zeolite structure on reduction of NO_x with methane over In- and Pd-based catalysts 139
Selective formation of CH_3OH in the photocatalytic reduction of CO_2 with H_2O on titanium oxides highly dispersed within zeolites and mesoporous molecular sieves 221
- ZSM-5 zeolite**
Hydrodesulfurization over noble metals supported on ZSM-5 zeolites 327
- ZSM-5**
Relative rates of various steps of $\text{NO}-\text{CH}_4-\text{O}_2$ reaction catalyzed by Pd/H-ZSM-5 93
