

Cover Picture

Amanda K. Petrus, Anthony R. Vorthers, Timothy J. Fairchild*, and Robert P. Doyle*

The cover picture shows an orally active, glucose-lowering vitamin B₁₂–insulin conjugate bound to the B₁₂ uptake protein transcobalamin II (TCII). The inset shows a close-up view of the TCII binding pocket. (Insulin is in red; vitamin B₁₂ is in bright yellow.) For details, see the Communication by T. J. Fairchild, R. P. Doyle, et al. on p. 1717 ff.
