

Errata for Chemical & Pharmaceutical Bulletin

Vol.	Page	Line	Error	Correction
56	1557	right 10	In the case of 18a , the interaction of the terminal carboxyl group with the imidazole of His874 and the <u>NH group of the main chain of Leu741</u> would lead the side chain in a direction which allows the folding of helix 12.	In the case of 18a , the interaction of the terminal carboxyl group with the imidazole of His874 and the <u>π-π interaction between the benzene of 18a and the indole of Trp741</u> would lead the side chain in a direction which allows the folding of helix 12.
