

Retraction for Chemical & Pharmaceutical Bulletin

Vol./Page: Chem. Pharm. Bull. 56, 993—994 (2008).

Title: Purine and Pyrimidine Derivatives from the South China Sea Gorgonian *Subergorgia suberosa*

Authors: Shu-Hua Qi, Si ZHANG, Cheng-Hai GAO, and Qin-Xing LI

Comments by Editorial Committee:

Editorial Committee of Chemical & Pharmaceutical Bulletin decided to retract the above paper. The two “new” compounds in Chem. Pharm. Bull. had already been reported by the same authors with a different name in their previous paper (*J. Nat. Prod.*, **71**, 716—718 (2008)). In addition, descriptions of the structure elucidations of two “new” compounds are word-for-word the same as those used for compounds in the *J. Nat. Prod.* paper. These facts are apparent evidences of “self-plagiarism”, and the Editorial Committee made this decision.

The Editorial Committee of Chemical & Pharmaceutical Bulletin (March 19, 2010)
