

Corrigenda

Structure and Absolute Stereochemistry of Everninose, a Non-reducing Sugar obtained on Hydrolysis of Everninomicin

By ASHIT K. GANGULY, OLGA Z. SARRE, and JAMES MORTON

Chem. Comm., 1969, 1488.

On p. 1488, r.h.s., line 29, the formula of compound (VI) should be $C_6H_{12}O_5$.

Conformations of Ten-membered Ring Sesquiterpenes by X-Ray Crystallography

By R. J. McCLURE, G. A. SIM, P. COGGON, and A. T. McPHAIL

Chem. Comm., 1970, 128.

On page 129, footnote, third line, *for* "defined by atoms 14, 4, and 5" *read* "defined by atoms 6,4, and 5".
