Unbalanced Packing of Chiral Molecules in the Crystal Structure of a Trigonal Polymorph of Tris(triphenylphosphine)carbonylplatinum, Pt(PPh₃)₃

By V. G. ALBANO, P. L. BELLON, and M. SANSONI

Chem. Comm., 1969, 734.

Figure 1 is incorrect: owing to a mis-punching in the program used in producing it all the *z* co-ordinates have been reversed. The assignment of the absolute configuration (*R,S,S*) to the crystal packing, based upon Figure 1, is also incorrect, the true configuration being (*R,R,S*). Figure 2 is correct.

The Crystal Structure and Infrared Spectrum of a *cis*-Complex Derived from $[\pi\text{-C}_6\text{H}_5\text{Fe}(\text{CO})_2]_3$

By P. McARDLE, A. R. MANNING, and F. S. STEPHENS

Chem. Comm., 1969, 1310.

The third author's name should be as above and not F. S. Stevens as originally printed.
On p. 1311, r.h.s., line 8, insert "the" between "not" and "only".
