

Corrigenda

Intramolecular Addition of Benzyl-lithium Derivatives to Norbornene Rings

By PETER T. LANSBURY and FRANK J. CARIDI

Chem. Comm., 1970, 714.

On p. 714 in Scheme 2, the designations (6a) and (6b) under two structures should be reversed.

Aryl-pentacyanocobalt Nitroxides—a New Group of Stable Free Radicals

By M. G. SWANWICK and WILLIAM A. WATERS

Chem. Comm., 1970, 930.

On page 930, the e.s.r. data for $a(^{59}\text{Co})$ and $a(^{14}\text{N})$ should be interchanged in the last two lines of the Table, *i.e.* :

Ar = 2,4,6-Cl₃C₆H₂ .. $a(^{59}\text{Co}) = 1.25$; $a(^{14}\text{N}) = 1.67$ mT
Ar = 2,3,5,6-Cl₄C₆H .. $a(^{59}\text{Co}) = 1.21$; $a(^{14}\text{N}) = 1.62$ mT
