

Corrigendum**Reactions of Bis(trifluoromethyl)diazomethane with Zerovalent Nickel, Palladium, and Platinum Complexes**

By J. CLEMENS, R. E. DAVIS, M. GREEN, J. D. OLIVER, and F. G. A. STONE

Chem. Comm., 1971, 1095.

On page 1096, r.h. column, the last three lines should read:

“This contrasts with the quite high barriers to inversion observed⁵ with aziridines. This effect may be due to conjugation with the $N=C(CF_3)_2$ group, or more likely, due”
