9-Azabicyclo[6,1,0]nona-2,4,6-triene and Derivatives Thereof

By A. G. ANASTASSIOU, S. W. EACHUS, R. L. ELLIOTT, and E. YAKALI

J. C. S. Chem. Comm., 1972, 531.

The following footnote referring to compounds (**2a**, **b**, **d**, **e**, and **f**) was omitted:

All new compounds were characterized on the basis of fully consistent spectral data [n.m.r., u.v., i.r., and mass spectra for (**2a**) and (**2f**); n.m.r. and mass spectra for (**2b**), (**2d**), and (**2e**)].

Revision of the Structure of the Cyanogenic Glucoside Triglochinin
