Since publication of this communication Professor Reinhard Schmutzler has informed us of the synthesis of a bis-(trimethylsilyl)amino-substituted perfluoropinacolyldifluorophosphorane. See J. A. Gibson and G.-V. Rösenthaller, *J.C.S. Chem. Comm.*, 1974, 694; J. A. Gibson, G.-V. Rösenthaller, and R. Schmutzler, *J.C.S. Dalton*, 1975, 918. We thank Professor Schmutzler for drawing our attention to this work.
