The equations given in footnote (f) of the Table should read $\Delta G^* = 19.14 T_c [9.97 + \log_{10}\{T_c/\Delta\nu^2 + 6J_{AB}^2\}]$ and $\Delta G^* = 19.14 T_c [9.97 + \log_{10}\{T_c/\Delta\nu\}]$. The value of ΔG^* is given in kJ mol^{-1} .
