UNIVERSITY OF OXFORD DYSON PERRINS LABORATORY NMR FACILITY

Applications are invited for a Research Support Post (RS II) with responsibility for the supervision and operation of the NMR Facility in the Dyson Perrins Laboratory. The appointment, initially for three years, is on a salary scale £9750 to £12860. The successful applicant will probably hold a research degree in Physics or Chemistry (with a strong NMR background). Applications including a curriculum vitae and the names of two referees should be sent before 23 April 1982 to The Administrator, Dyson Perrins Laboratory, South Parks Road, Oxford, OX1 3QY, from whom further details may be obtained.

Senior Post-doctoral Research Fellow

Applications are invited for a post-doctoral fellowship supported by French Research Ministry for work in the field of mechanisms and organic synthesis. Appointment for twelve months; the gross annual salary is approximately French F. 84,000. The laboratory is integrated in an important chemistry campus, with all modern equipments, located five kilometers from Paris. Applications should be accompanied by a brief curriculum vitae, a list of publications and the names of two referees and addressed to:
