# The Sigma-Aldrich Library of Chemical Safety Data

Edition II, two-volume set

**A reference for the safe handling of over 14,500 chemicals representing 24,000 Sigma and Aldrich products**

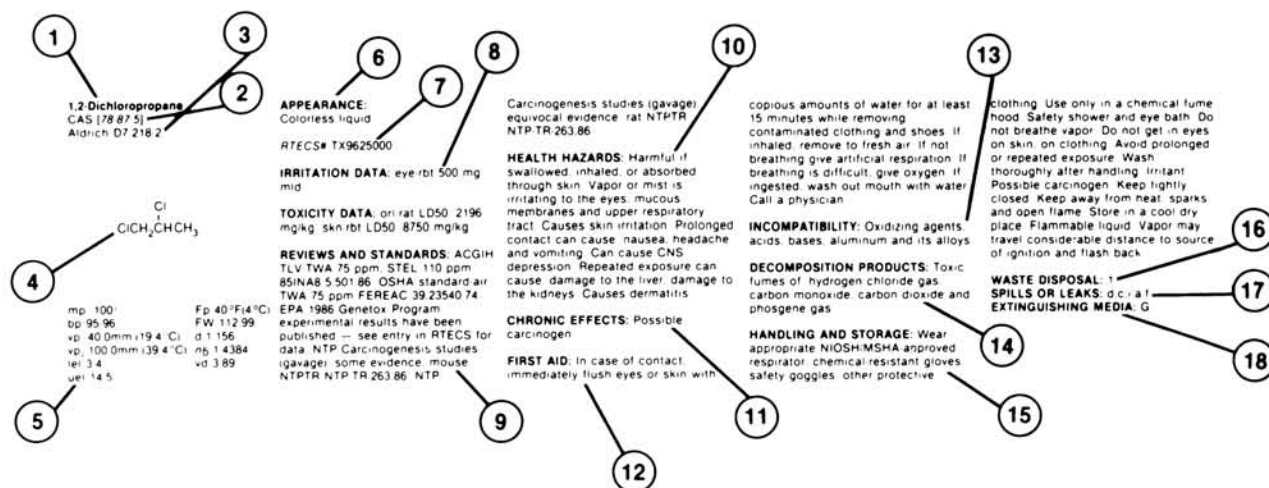

Over 4,200 pages in two hardbound volumes with dust jacket. Page size 9½ x 12in.

The second edition of *The Sigma-Aldrich Library of Chemical Safety Data* is an extensive, two-volume collection of up-to-date information. The data represent a combination of material safety information from both Sigma and Aldrich Chemical Companies.

The library will be useful to all users of chemicals who must assess the individual and composite hazards of mixtures, solutions, and reactions. This library provides employers with

the basis for a sound safety program which complies with the Hazard Communication Standard and training programs, as well as a reference for preparing Material Safety Data sheets.

New information in this edition includes appearance of the chemical, irritation data and human toxicity. Indices include chemical name, Chemical Abstracts Service registry number, molecular formula, Aldrich product number and Sigma product number.
