

**Corrigendum****Synthesis and Crystal Structure of a Complex of a Tetranucleating Macrocyclic Ligand which binds Four Ni<sup>II</sup> Ions in a Square Arrangement with a  $\mu_4$ -Hydroxo Group at the Centre**

Malcolm Bell, Alison J. Edwards, Bernard F. Hoskins, Edward H. Kachab, and Richard Robson

*J. Chem. Soc., Chem. Commun.*, 1987, 1852.

The components of the macrocycle were 2,6-disubstituted-4-methylphenols not 2,6-disubstituted-5-methyl-phenols. The word 'sodium' on line 4 of page 1853 should be replaced by 'monohydrochloride'.
