

## JOURNAL OF THE CHEMICAL SOCIETY

## Chemical Communications

Number 4  
1989

## CONTENTS

- 205 A Novel Transformation of Alcohols to Thiols **Takehiko Nishio**
- 206 Spin Trap Study on the Photochemical Reaction between *trans*-Stilbene and Triethylamine **Tong-Ing Ho, Koichi Nozaki, Akira Naito, Satoshi Okazaki, Hiroyuki Hatano**
- 208 Silicate Anions Formed in Tetramethylammonium Silicate Methanolic Solutions as Studied by <sup>29</sup>Si Nuclear Magnetic Resonance **Isao Hasegawa, Sumio Sakka, Yoshiyuki Sugahara, Kazuyuki Kuroda, Chuzo Kato**
- 210 Upon the Existence of a Trihydrogen Ligand. Preparation and Spectroscopic Studies of the Adducts (C<sub>5</sub>Me<sub>5</sub>)RuH<sub>3</sub>P(cyclo-C<sub>6</sub>H<sub>11</sub>)<sub>3</sub>·CuCl and [(C<sub>5</sub>Me<sub>5</sub>)RuH<sub>3</sub>P(cyclo-C<sub>6</sub>H<sub>11</sub>)<sub>3</sub>]<sub>2</sub>Cu]PF<sub>6</sub> **Bruno Chaudret, Gérard Commenges, Felix Jalon, Antonio Otero**
- 213 The Co-operative Effect in the Activation of the Phenoxide Anion with Oligo(oxyethylenes) containing Quaternary Ammonium Groups **Václav Janout, Bohumil Masař, Hana Hrudková, Pavel Čefelín**
- 215 Structure, Stability, and Vibrational Spectrum of HCNKrF<sup>+</sup> **Wolfram Koch**
- 216 N.M.R. Spectra of  $\alpha$ -Tetraphosphorus Trisulphide Isothiocyanates: Extreme Broadening of Phosphorus-31 Absorptions by Nitrogen-14 and Large Phosphorus–Nitrogen Coupling Constants **Bruce W. Tattershall**
- 217 Pseudotsuganol, a Biphenyl-linked Pinoresinol–Dihydroquercetin from Douglas-fir Bark: Isolation of the First True Flavonolignan **Lai Yeap Foo, Joseph Karchesy**
- 219 A New Route to Vinylcarbene Metal Complexes in One Step from 2-Propyn-1-ols and Arene Ruthenium(II) Derivatives **Hubert Le Bozec, Khalid Ouzzine, Pierre H. Dixneuf**
- 221 Synthesis of the Chiral Upper Fragment of Tetronolide **Koji Matsuda, Keiichi Nomura, Eiichi Yoshui**
- 223 Synthesis of New Thieno[3,4-*c*]thiophene Derivatives having Formyl Substituents **Akira Tsubouchi, Noboru Matsumara, Hiroo Inoue, Nobuhiro Hamasaki, Shigeo Yoneda, Kazunori Yanagi**
- 224 Asymmetric Reduction of Ketones with Asymmetric Complex Reducing Agents: [ZnCRA\*] **Abdelhafid Feghouli, Régis Vanderesse, Yves Fort, Paul Caubère**
- 226 Assembly of a Photoactive Supramolecule using Porphyrin Co-ordination Chemistry **Harry L. Anderson, Christopher A. Hunter, Jeremy K. M. Sanders**
- 228 A New Type of Low-temperature Molecular Metal based on [Ni(dmit)<sub>2</sub>] Anions (H<sub>2</sub>dmit = 4,5-dimercapto-1,3-dithiole-2-thione) **Andrew Clark, Allan E. Underhill, I. D. Parker, R. H. Friend**
- 229 T<sub>1</sub> Values in Hydride and New Molecular Hydrogen Phosphite Complexes of Comparable Structure **Stefano Antoniutti, Gabriele Albertin, Paola Amendola, Emilio Bordignon**
- 230 Formation of a Battery from an Ion-exchange Membrane and a Polypyrrole Composite **Toshikatsu Sata, Kyoko Saeki**
- 232 Spectral Bistability of Two-dimensional Molecular Assemblies due to a Peculiar Crystal-to-Crystal Phase Transition **Masatsugu Shimomura, Yusuke Hamada, Nobuyoshi Tajima, Kenji Okuyama**
- 234 Bis-silylenephosphorane (Silylene = Silanediyl) *versus* Bis-methylenephosphorane: a Theoretical Study **Wolfgang W. Schoeller, Thilo Busch**
- 236 Cyclohexane-based 1,3-Dipodands: Complexation and Conformational Biasing **Shailaja M. Shirodkar, Gary R. Weisman**
- 238 The Repair of Thymine and Thymidine Bromohydrins, Models of Damaged Nucleic Acids, by a Copper(II) and Ascorbic Acid System **Reiko Yanada, Taishin Akiyama, Takashi Harayama, Kazuo Yanada, Haruo Meguri, Fumio Yoneda**
- 240 Quadrupole Nutation N.M.R. Reveals the Presence of a New Aluminium Species in Hydrothermally Treated Zeolites **Halimatun Hamdan, Jacek Klinowski**
- 243 Novel Luminescent Binuclear Gold(I) Isocyanide Complexes. Synthesis, Spectroscopy, and X-Ray Crystal Structure of Au<sub>2</sub>(dmb)(CN)<sub>2</sub> (dmb = 1,8-di-isocyano-*p*-menthane) **Chi-Ming Che, Wing-Tak Wong, Ting-Fong Lai, Hoi-Lun Kwong**

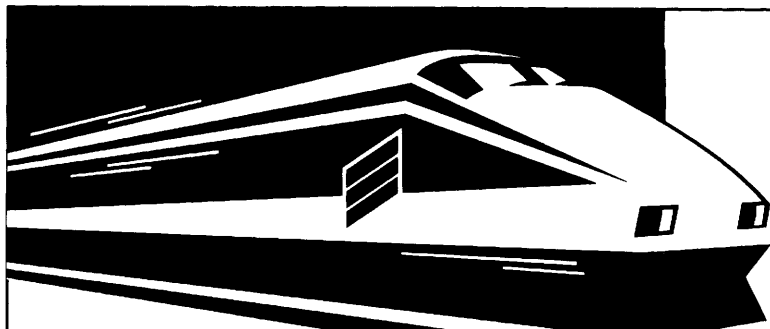

- 244 The Borderline between the Classical and the Electron Transfer Process in Nitration by the Nitronium Ion **James F. Johnston, John H. Ridd, John P. B. Sandall**
- 246  $\alpha$ -Keto Phosphonoacetates **Charles E. McKenna, Jeffrey N. Levy**
- 248 Regiochemical Control in Palladium(0) and Palladium(II) Catalysed Alkene-Formate Ester Carbonylation Reactions **Ivan J. B. Lin, Howard Alper**
- 249 The Direct Measurement of Dissolution Kinetics at the Calcite/Water Interface **Richard G. Compton, Keith L. Pritchard, Patrick R. Unwin**
- 251 Unusual O-Alkylation with Iodomethyltrimethylsilane **T. K. Chakraborty, G. V. Reddy**
- 253 Diastereo- as well as Enantio-selective Lipase-catalysed Asymmetric Hydrolysis of Chlorofluoromethylated Alcohols **Takashi Yamazaki, Shinji Ichikawa, Tomoya Kitazume**
- 255 Direct Protonation of the W-H Bonds of Bis(pentamethylcyclopentadienyl)tungsten Dihydride **Gerard Parkin, John E. Bercaw**
- 257 Bis(phenylethylenedithio)tetrathiafulvalene (BPhEDT-TTF) **K. S. Varma, J. Evans, S. Edge, Allan E. Underhill, G. Bojesen, J. Becher**
- 258 The Superoxide Release Inhibitors, Cryptoporic Acids C, D, and E; Dimeric Drimane Sesquiterpenoid Ethers of Isocitric Acid from the Fungus *Cryptoporus volvatus* **Toshihiro Hashimoto, Motoo Tori, Yasuo Mizuno, Yoshinori Asakawa, Yoshimasa Fukazawa**
- 260 Photo-cleavage of Cobalt-Carbon Bonds of Alkylcobalt(III) Complexes by Iodine with Large Quantum Yields **Shunichi Fukuzumi, Tatsushi Goto, Kunio Ishikawa, Toshio Tanaka**
- 261 Ring-opening Hydroformylation of  $\alpha$ -Cyclopropylstyrene by  $\text{HMn}(\text{CO})_2$ , and Structure of a Novel  $\text{Mn}_2(\text{CO})_9(\eta^1\text{-Aldehyde})$  Complex **R. Morris Bullock, Brian J. Rappoli, Edward G. Samsel, Arnold L. Rheingold**
- 263 The Total Synthesis of Destomic Acid **Adam Golebiowski, Janusz Jurczak**
- 

**Corrigendum**

- 264 Palladium(II)/(III) Complexes of Triaza Macrocycles: Synthesis and Single Crystal X-Ray Structures of  $[\text{Pd}^{\text{III}}(\text{tacn})_2]^{3+}$  and  $\text{Pd}^{\text{II}}(\text{tacn})(\text{tacnH})^{3+}$  (tacn = 1,4,7-triazacyclononane) **Alexander J. Blake, Linda M. Gordon, Alan J. Holder, Timothy I. Hyde, Gillian Reid, Martin Schröder**

## AUTHOR INDEX

- Akiyama, Taishin, 238  
Albertin, Gabriele, 229  
Alper, Howard, 248  
Amendola, Paola, 229  
Anderson, Harry L., 226  
Antoniutti, Stefano, 229  
Asakawa, Yoshinori, 258  
Becher, J., 257  
Bercaw, John E., 255  
Blake, Alexander J., 264  
Bojesen, G., 257  
Bordignon, Emilio, 229  
Bullock, R. Morris, 261  
Busch, Thilo, 234  
Caubère, Paul, 224  
Čefelín, Pavel, 213  
Chakraborty, T. K., 251

**Take the fast track  
to searching scientific  
information online  
with:**

# **STN Express™ and STN International®**

## **STN is your ticket to more efficient online access**

STN International is a hub of scientific databases, allowing information to flow from many of the world's best producers to you. And we've just made it easier, faster, and more efficient to search STN, by using your own personal computer and our **STN Express** software.

**STN Express** is designed especially for the IBM PC and 100% compatible personal computers. It turns these computers into effective search terminals with autodial, autologon, guided search, graphics display of chemical structures, offline text and structure query preparation, text and graphics transcript capture and printing, plus many other features to speed and simplify your use of STN International and its world of scientific databases.

**STN Express** provides access to databases with timely and pertinent information about chemistry, engineering, materials, environmental concerns, biotechnology, drugs, superconductivity, food, analytical techniques, energy, polymers, and much more!

**STN Express** is now available for only £340 per copy – with quantity and academic discounts available.

Send for more information today and receive a **FREE** package consisting of STN Mentor: STN Express Overview disks demonstrating text and structure searching and helpful documentation.

You'll quickly see the value of searching STN International using STN Express.

**YES!** Please send me the following packages as soon as possible:

More about STN International and STN Express software for fast and easy searching of scientific databases.

My **FREE** package, STN Mentor; STN Express Overview, for IBM PC and 100% compatible personal computers.
