

Corrigendum

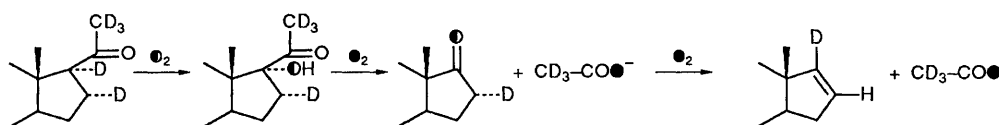

Mechanistic Studies on Pregnene Side-chain Cleavage Enzyme (17 α -Hydroxylase-17,20-lyase) using ^{18}O

Sharon L. Miller, J. Neville Wright, David L. Corina and Muhammed Akhtar

J. Chem. Soc., Chem. Commun., 1991, 157.

The second sentence of the Scheme 3 caption should read: The decomposition of the adduct **6** may occur by a concerted process ($\text{---}\rightarrow$) or a stepwise radical mechanism as shown.

The correct Scheme 4 is given below.

Scheme 4

Addition to reference 11: The loss of the 16 α -hydrogen atom was subsequently established by H. Kohara and K. Shimizu, *Biochim. Biophys. Acta*, 1987, **921**, 90.
