

### Corrigenda

#### A Norbornadiene–Cyclobutadiene Cycloaddition Cascade: Novel Intramolecular $\sigma^2 + \pi^2$ Trapping of a Cyclobutane Ring

Goverdhan Mehta, M. Balaji Viswanath, Munirathinam Nethaji and Kailasam Venkatesan

*J. Chem. Soc., Chem. Commun.*, 1992, 82.

In Scheme 3 on page 83 the correct structures for **10** and **12** are:

#### Nonlinear Relationship between the Enantioselectivities for Asymmetric Reactions of Monofunctional and Bifunctional Substrates. Synthesis of Practically Optically Pure Diols by the Catalytic Enantioselective Diethylation of Terephthalaldehyde

Kenso Soai, Hiroshi Hori and Masato Kawahara

*J. Chem. Soc., Chem. Commun.*, 1992, 106.

The principle of the nonlinear relationship of the enantiomeric excesses between the monofunctional and bifunctional substrates has been described by Horeau *et al.* in the transesterification reaction between the optically active alcohol and diethyl carbonate. (J. P. Vigneron, M. Dhaenens and A. Horeau, *Tetrahedron*, 1973, **29**, 1055.)
