

### Addition and Correction

## New Synthesis of Pyrrolidine Derivatives *via* the Chromacyclobutanes generated from Enynes and Fischer Carbene Complexes

Miwako Mori and Susumi Watanuki

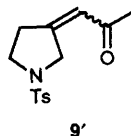

*J. Chem. Soc., Chem. Commun.*, 1992, 1082.

The above communication contains examples of pyrrolidine syntheses closely similar to those reported by Katz and Yang.<sup>1</sup>

The conversion of enynes into dienes described has been accomplished with tungsten carbene complexes.<sup>2</sup>

The first reference in ref. 3 should read: E. O. Fischer and K. H. Dotz, *Chem. Ber.*, 1972, **105**, 3966.

Structure **9'** should be as follows:
