

NEW

Issues in Environmental Science and Technology

Editors: **R E Hester**, *University of York, UK*
R M Harrison, *University of Birmingham, UK*

***A new series to
tackle important
environmental issues . . .***

In response to the rapid growth of interest in the environment and the acute need for concise, authoritative and up-to-date reviews of topical issues, the Royal Society of Chemistry is launching **Issues in Environmental Science and Technology**.

This new series will publish review articles on topics of global concern, written by world experts in their specialized fields. It will present a multidisciplinary approach to pollution and environmental science and in addition to covering the chemistry of environmental processes, will focus on broader issues such as economic, legal and political considerations.

Each issue will address a different theme and will contain approximately six articles, most of which will be specially commissioned by the editors.

The first two issues will cover:

**1 Mining and its
Environmental Impact**

ISBN 0 85404 200 8

April 1994

Price £15.00

**2 Waste Incineration
and the Environment**

ISBN 0 85404 205 9

July 1994

Price £15.00

Also Available ISSN 1350-7583
on subscription . . . EC £25.00 USA \$47.00

Published twice yearly from 1994
Canada £28.00 + GST Rest of World £27.00
