

Corrigenda

Synthesis towards microcystins and related toxins

Hong Yong Kim, Karin Stein and Peter L. Toogood

Chem. Comm., 1996, 1683.

1. The pentyne-2-ol used in all of these studies, illustrated in Scheme 1 and referred to in paragraph 5 line 1 was (*R*)-pentyne-2-ol. The structure is correct as drawn.
2. In paragraph 5 line 1, reference 12 should be reference 13.
3. In Scheme 2, the correct structure of compound **8** is

Silole-pyrrole co-oligomers: their synthesis, structure and UV-VIS absorption spectra

Kohei Tamao, Shigeki Ohno and Shigehiro Yamaguchi

Chem. Comm., 1996, 1873.

Scheme 2 was incomplete and should be as follows:
