

# ChemComm

...the perfect mix

ChemComm - a vibrant  
blend of high quality research  
from across the chemical  
sciences

## Celebrating in 2005:

- 40 years of successful publication
- An increase in frequency to weekly publication – improving print publication times even further
- An increase to three page communications – providing authors with more flexibility to develop their results and discussion

# ReSource

RS•C

Lighting your way through  
the publication process

ReSource is a website designed to provide user-friendly, rapid access to an extensive range of online services for authors and referees.

## ReSourceCe enables authors to:

- submit manuscripts electronically
- track their manuscript through the peer review and publication process
- collect their free PDF reprints
- view the history of articles previously submitted

## ReSourceCe enables referees to:

- download and report on articles
- monitor outcome of articles previously reviewed
- check and update their research profile

*"The web site is fantastic. I find it very user-friendly and clear. Congratulations"*

Professor Vivian W. W. Yam, *The University of Hong Kong*

# Molecular BioSystems

New for 2005

Molecular BioSystems will publish novel and significant research and development at the interface between chemistry and the -omic sciences and systems biology. In particular, this includes:

- Cellular processes
- Proteomics and genomics
- Drug discovery
- Techniques and technologies relevant to these subject areas
- Metabolism
- Systems biology
- Biomaterials

To find out more, and to submit, visit  
**[www.molecularbiosystems.org](http://www.molecularbiosystems.org)**
