

A new interdisciplinary journal for research that is emerging at the interface between chemistry and biology

Molecular BioSystems will publish novel and significant research and development at the interface between chemistry and the -omic sciences and systems biology. In particular, this includes:

- Cellular processes
- Proteomics and genomics
- Drug discovery
- Techniques and technologies relevant to these subject areas
- Metabolism
- Systems biology
- Biomaterials

To find out more, and to submit, visit
www.molecularbiosystems.org

ChemComm - a vibrant blend of high quality research from across the chemical sciences

ChemComm
...the perfect mix

CC Ad 01120402 - colour

Registered Charity No. 207890

Celebrating in 2005:

- **40 years** of successful publication
- An increase in frequency to **weekly publication** – improving print publications times even further
- An increase to **three page communications** – providing authors with more flexibility to develop their results and discussion
