

Lust and Love

Is it more than chemistry?

By Gabriele and Rolf Froböse

**Why do people fall in love? Why do we find some people attractive?
How does our physiology affect the way we feel?**

Lust and Love: Is it more than chemistry? provides answers to some of these questions through the eyes of science. Covering research from the fields of chemistry, biochemistry, neurology, psychiatry, psychology, physics and medicine the book looks at our current knowledge of the science behind these feelings.

Explores the science behind love, sex and passion

30 years

A measure of our success

Celebrating **30 years** of successful publication, the *New Journal of Chemistry* is the home of new and emerging multidisciplinary work in the chemical sciences. Publishing full papers, letters, opinions and perspectives, *NJC* offers a multitude of benefits to both authors and readers:

- High quality original and significant work
- Fast times to publication
- Owned and published by learned societies
