

ChemComm

... a leading international journal for the publication of communications on important new developments in the chemical sciences. It provides preliminary accounts of original and significant research that will appeal to a wide general readership or be of exceptional interest to the specialist.

- high impact – Impact Factor 4.521*
- rapid publication – typically 60 days from receipt to publication
- 3 page communications, providing authors with the flexibility to develop their results and discussion
- high visibility – indexed in MEDLINE and other major databases
- high exposure – top papers are highlighted as “Hot Papers” to the wider scientific press
- free colour where scientifically necessary and no page charges

Professor Jonathan Sessler US Associate Editor for supramolecular chemistry

Professor Sessler is Roland K. Pettit Centennial Professor of Chemistry at The University of Texas at Austin. Research in his group is focused on various aspects of macrocyclic and supramolecular chemistry, including expanded porphyrins, base-pairing models, anion receptor chemistry, lanthanide and actinide coordination, and novel metal-based approaches to drug development.

Happy to receive papers on important developments in supramolecular chemistry, Professor Sessler can be contacted via chemcommun@cm.utexas.edu
